e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian.

This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

The term "national" as used herein shall have the meanings prescribed in section 10 of said Executive order.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1211]

STANDARD GAS AND ELECTRIC CO.

ORDER RELEASING JURISDICTION OVER FEES TO LENDING BANKS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 29th day of January 1947.

A declaration in the above-captioned matter regarding the issue by Standard Gas and Electric Company of Promissory Notes in the amount of $51,000,000 to certain banks was permitted to become effective by order of this Commission dated February 28, 1946, subject to certain terms and conditions among which was a reservation of jurisdiction over fees to the lending banks.

Standard Gas and Electric Company having requested the Commission to release the jurisdiction over such fees and having furnished a statement showing that commitment fees in the aggregate amount of $127,500 were paid to eleven participating banks, and that unearned portions aggregating $49,583.34 were subsequently returned to Standard Gas and Electric Company at the time of closing, the banks retaining as the earned portion of such commitments the net amount of $77,916.66, all in accordance with the Bank Loan Agreement, and

It appearing that the foregoing fees, under the circumstances of this proceeding, are not unreasonable;

It is hereby ordered, That jurisdiction over the payment of the above described fees to said lending banks be, and hereby is, released.

By the Commission.

UNITED CORP.

NOTICE OF FILING AND ORDER FOR HEARING ON PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 28th day of January 1947.

Notice is hereby given that The United Corporation ("United"), a registered holding company, has filed an application for approval of a plan under section 11 (e) of the Public Utility Holding Company Act of 1935, proposing action described as necessary to effectuate the provisions of section 11 (b) of the act, and for the approval of incidental and related transactions.

The transactions proposed in said plan are further described as a step in compliance with the Commission's Order of August 14, 1943, pursuant to section 11 (b) (2) of the act, directing United to change its existing capitalization to one class of stock, namely, common stock, and to take such action in a manner consistent with the provisions of said act, as will cause it to cease to be a holding company.

All interested persons are referred to said plan which is on file in the office of the Commission for a full statement of the transactions therein proposed, which may be summarized as follows:

(1) United has outstanding 1,136,-199⅛ shares of $3 Cumulative Preference Stock having a voluntary and involuntary liquidating value of $50 per share and callable at $55 per share. There are presently no dividend arrearages on such stock. On January 14, 1947, United declared a dividend of 75¢ per share, payable February 14, 1947. United proposes to offer to exchange for each such share, up to and including 200,000 shares of said outstanding Preference Stock, (a) 4 shares of common stock of Columbia Gas & Electric Corporation ("Columbia"), a subsidiary of United and a registered holding company, plus (b) $2 in cash.

(2) The offer of exchange is proposed to be made with respect to all rights and claims represented by each share of United's $3 Cumulative Preference Stock accepted for exchange, including all rights and claims to any accrued dividends thereon.

(3) If the provisions of the plan are approved by the Commission, it is proposed that the offer of exchange remain open for a minimum period of 15 days after the effective date. If during said period less than 200,000 shares of Preference Stock shall have been tendered, all such shares tendered will be accepted for exchange and the offer shall remain open, on a "first come, first served" basis, for an additional period of 30 days, United reserving the right to apply to this Commission for further extension of time. If during such initial 15-day period the number of shares tendered for exchange shall be more than 200,000, but not more than 220,000, United will accept for exchange all the shares tendered without a pro rata distribution. If more than 220,000 shares are tendered during the initial 15-day period, all tenders of 25 shares or less will be accepted in full and the remaining portion of the 200,000 shares to be exchanged will be prorated among all tenders in excess of 25 shares each, with a minimum acceptance of 25 shares from each such tender.

(4) The plan further provides that the offer may be accepted by a stockholder only by the deposit with the Exchange Agent to be designated by United, on or before 3 p. m. on the last day of the period during which the offer remains open, of the certificates for the shares of Preference Stock to be exchanged, or by the delivery to the Exchange Agent of an undertaking, in the form prescribed by United, agreeing to deliver the share certificates to said agent by a date to be specified. Upon presentation by the holder of certificates of the shares of Preference Stock to the Exchange Agent, the latter will deliver to such holder, as soon as practicable, certificates for the aggregate number of shares of common stock of Columbia, and a check for cash, to which such holder shall be entitled under the exchange offer.

United holds 1,919,856 shares of Columbia common stock, representing 15.7% of said company's outstanding voting securities. If the proposed exchange plan is fully consummated, United will dispose of at least 800,000 shares of Columbia common stock and reduce its outstanding shares of $3 Cumulative Preference Stock from 1,-136,199⅛ shares to a maximum of 936,-199⅛ shares. Shares of Preference Stock tendered and accepted for exchange will be retired in accordance with the applicable provisions of the General Corporation Law of the State of Delaware.

The Commission being required by the provisions of section 11 (e) of the act, before approving any plan submitted thereunder, to find after notice and opportunity for hearing that such plan, as submitted or modified, is necessary to effectuate the provisions of subsection (b) of section 11, and is fair and equitable to the persons affected by such plan; and it appearing appropriate in the public interest and in the interests of investors and consumers that notice be given and a hearing held with respect to said plan;

It is ordered, That a hearing under the applicable provisions of the act and rules thereunder be held at 10 a. m., e. s. t., on the 4th day of March 1947, in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on that day by the hearing room clerk in Room 318. In the event that amendments to the plan are filed during the course of said proceedings, no notice of such amendments will be given unless specifically ordered by the Commission. Any person desiring to receive further notice of the filing of any additional plans or amendments should file an appearance in these proceedings or otherwise specifically request such notice.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act, and to a trial examiner under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the application and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the plan, as submitted or as modified, is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected by said plan;

(2) Whether the transactions proposed in said plan comply with all of the requirements of the applicable provisions of the act and the rules promulgated thereunder;

(3) Whether the plan, as filed or as modified, makes appropriate provision for the payment of fees, expenses and remuneration in connection with the proposed plan, and in what amounts such fees, expenses and remuneration should be paid, and the fair and equitable allocation thereof;

(4) Whether, and to what extent, the proposed plan should be modified or terms and conditions imposed to insure adequate protection of the public interest and the interests of investors and consumers and compliance with all applicable provisions of the act.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That any interested person desiring to be heard or otherwise wishing to participate at said hearing shall file with the Secretary of the Commission, on or before February 20, 1947, his request or application therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to

The United Corporation and that notice shall be given to all other persons by general release of this Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That The United Corporation give notice of this hearing to all holders of its common and Preference Stock (insofar as the identity of such stockholders is known or available to United), by mailing to each stockholder a copy of this notice and order at least twenty days prior to March 4, 1947.

By the Commission.

MIDDLE WEST CORP.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 29th day of January 1947.

The Commission by order dated July 17, 1946 (Holding Company Act Release No. 6786), having approved, among other things, proposals of The Middle West Corporation ("Middle West"), a registered holding company, to acquire from time to time securities to be distributed as a liquidating dividend by Midland Realization Company ("Realization") on account of shares of capital stock of Realization held by Middle West, subject to a condition that Middle West divest itself of any securities so acquired within three months following the acquisition thereof; and

Middle West having acquired on August 26, 1946, pursuant to said order, 146,923 shares of common stock of Northern Indiana Public Service Company as a liquidating dividend on the 83,956½ shares of capital stock of Realization then held by Middle West; and

Middle West having filed an application for an extension of time of six months from November 26, 1946, within which to divest itself of the said common stock of Northern Indiana Public Service Company; and

The Commission having considered such request, and it appearing to the Commission that the requested extension of time is unduly long, and the Commission deeming it appropriate to grant an extension of time to March 31, 1947, within which to comply with such condition:

It is hereby ordered, That the condition contained in the Commission's order of July 17, 1946, requiring that The Middle West Corporation shall divest itself of all its interest in the common stock of Northern Indiana Public Service Company within three months following the acquisition thereof be, and hereby is, modified to extend such period to March 31, 1947.

MIDDLE WEST CORP. ET AL.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND ORDER MODIFYING PREVIOUS ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 29th day of January A. D. 1947.

In the matters of the Middle West Corporation and its subsidiary companies, respondents, File No. 59-5; Arkansas-Missouri Power Corporation, File No. 70-1308.

Arkansas-Missouri Power Corporation ("Arkansas"), a registered holding company and a public utility company, having filed applications-declarations and amendments thereto pursuant to the Public Utility Holding Company Act of 1935, particularly sections 11 (b) (1), 12 (d) and 12 (e) thereof and Rules U-44 and U-62 thereunder, with respect to the following:

Arkansas, a Delaware corporation and a former subsidiary of The Middle West Corporation ("Middle West"), has been a registered holding company since May 13, 1937. By order dated January 24, 1944, the Commission, pursuant to section 11 (b) (1) of the act, required Arkansas to divest itself of its interest in its then subsidiary, East Missouri Power Company, its electric properties in and around Piedmont, Missouri, and between Arcadia and Old Mines, Missouri, and its ice properties and business. At the same time Middle West was required to divest itself of its interest in Arkansas. In compliance with such order, Middle West has disposed of its interest in Arkansas and Arkansas has disposed of its interest in East Missouri Power Company. Arkansas now requests a modification of the said order of January 24, 1944, by deleting therefrom those provisions which require it to dispose of its electric properties in and around Piedmont, Missouri, and between Arcadia and Old Mines, Missouri, and its ice properties and business.

Arkansas further proposes to transfer its assets, consisting principally of electric and ice properties in the States of Arkansas and Missouri, to Arkansas-Missouri Power Company, a corporation recently organized under the laws of the State of Arkansas, which company will assume the liabilities of Arkansas and will issue its capital stock to the stockholders of Arkansas on a share-for-share basis upon the surrender for cancellation of the outstanding shares of capital stock of Arkansas. Arkansas will then dissolve. The Commission by order dated December 26, 1946, permitted the declaration to become effective pursuant to Rule U-62, with respect to the solicitation by Arkansas of proxies for a special meeting of its stockholders to be called to consider the proposed transfer of assets.

Notice of said filings having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said proposals within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission having considered the request of Arkansas for modification of the order dated January 24, 1944, as recited above, and in this connection having reexamined the record of the proceedings had in connection with the issuance of the said order, and it now appearing to the Commission on the basis of such reexamination that it is not inappropriate to modify the said order as requested; and

The Commission finding that the proposed transactions with respect to the transfer of assets by Arkansas to Arkansas-Missouri Power Company satisfy the requirements of section 12 (d) of the act and Rule U-44 thereunder, and that it is appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective;

It is hereby ordered, effective forthwith, That the application of Arkansas-Missouri Power Corporation for modification of the Commission's order dated January 24, 1944 as recited above be, and the same hereby is, granted.

It is further ordered, effective forthwith, Pursuant to Rule U-23 and the applicable provisions of the act that the declaration, as amended, of Arkansas-Missouri Power Corporation with respect to the transfer of its assets to Arkansas-Missouri Power Company be, and the same hereby is, permitted to become effective, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

TITLE 3—THE PRESIDENT

PROCLAMATION 2715

IMPOSING QUOTA ON IMPORTS OF SHORT HARSH OR ROUGH COTTON

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act of 1933 as amended by section 31 of the act of August 24, 1935, 49 Stat. 750, 773, as amended by section 5 of the act of February 29, 1936, 49 Stat. 1148, 1152, and as reenacted by section 1 of the act of June 3, 1937, 50 Stat. 246 (7 U. S. C. 624), the President issued a proclamation on September 5, 1939 (No. 2351,[1] 54 Stat. 2640), limiting the quantities of certain cotton and cotton waste which might be entered, or withdrawn from warehouse, for consumption, which proclamation was suspended in part by the President's proclamations of December 19, 1940 (No. 2450,[1] 54 Stat. 2769), March 31, 1942 (No. 2544,[1] 56 Stat. 1944), and June 29, 1942 (No. 2560,[1] 56 Stat. 1963); and

WHEREAS, the said proclamation of September 5, 1939, excepted from the quota limitations specified therein harsh or rough cotton having a staple of less than three-fourths of one inch in length and chiefly used in the manufacture of blankets and blanketing; and

WHEREAS, pursuant to the said section 22, as further amended by the act of January 25, 1940 (54 Stat. 17), the United States Tariff Commission has made a supplemental investigation to determine whether changed circumstances require the modification of the President's proclamation of September 5, 1939, with respect to harsh or rough cotton having a staple of less than three-fourths of one inch in length, in order to carry out the purposes of the said section 22, and to determine whether such cotton is being or is practically certain to be imported into the United States under such conditions and in sufficient quantities as to render or tend to render ineffective or materially interfere with any program or operation undertaken, or to reduce substantially the amount of any product processed in the United States from cotton subject to and with respect to which any program is in operation under the Agricultural Adjustment Act of 1933, as amended, the Soil Conservation and Domestic Allotment Act, as amended (16 U. S. C. 590a–590q), or section 32 of the act of August 24, 1935, 49 Stat. 774, as amended (7 U. S. C. 612c); and

WHEREAS, in the course of the investigation, after due notice, a public hearing was held on October 14 and 15, 1946, at which parties interested were given opportunity to be present, to produce evidence, and to be heard, and, in addition to the hearing, the Commission made such investigation as it deemed necessary for a full disclosure and presentation of the facts; and

WHEREAS, the Commission has made findings of fact and has transmitted to me a report of such findings and its recommendations based thereon, together with a transcript of the evidence submitted at the hearing, and has also transmitted a copy of such report to the Secretary of Agriculture:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby find and declare, on the basis of the investigation and report of the Tariff Commission, that changed circumstances require the modification of the President's proclamation of September 5, 1939, with respect to harsh or rough cotton having a staple of less than three-fourths of one inch in length, to carry out the purposes of section 22 of the Agricultural Adjustment Act of 1933, as amended, and that such cotton is being imported into the United States under such conditions and in sufficient quantities as to tend to render ineffective the domestic cotton programs undertaken under section 32 of the act of August 24, 1935, 49 Stat. 774, as amended. Accordingly, pursuant to the said section 22 of the Agricultural Adjustment Act of 1933, as amended, I hereby modify the President's proclamation of September 5, 1939 (No. 2351) by deleting therefrom the words "and chiefly used in the manufacture of blankets and blanketing" wherever they appear therein; and I do hereby proclaim that the total quantity of harsh or rough cotton having a staple of less

than three-fourths of one inch in length which may be entered, or withdrawn from warehouse, for consumption, in the year commencing September 20, 1946, and in any subsequent year commencing September 20, shall not exceed 70 million pounds, which quantity I hereby find and declare shown by the investigation to be necessary to prescribe in order that the entry of such cotton will not tend to render ineffective the programs undertaken with respect to cotton under section 32 of the act of August 24, 1935, 49 Stat. 774, as amended. I further find and declare that the total quantity of harsh or rough cotton having a staple of less than three-fourths of one inch in length which is permitted entry hereunder, is not less than the minimum permissible quantity computed under the proviso to section 22 (b) of the Agricultural Adjustment Act of 1933, as amended.

PART 51—FRUITS, VEGETABLES AND OTHER PRODUCTS (GRADING, CERTIFICATION AND STANDARDS)

STANDARDS FOR FRESH TOMATOES

Pursuant to the provisions of the Department of Agriculture Appropriation Act, 1947 (Pub. Law 422, 79th Cong., 2d Sess., approved June 22, 1946), the following United States Standards for fresh tomatoes are hereby promulgated:

§ 51.419 *Fresh tomatoes*—(a) *Grades.* (1) "U. S. No. 1" shall consist of tomatoes of similar varietal characteristics, which are mature, but not overripe or soft; which are well developed, fairly well formed, fairly smooth, free from decay, freezing injury, and from damage caused by dirt, bruises, cuts, sunscald, sunburn, puffiness, catfaces, growth cracks, scars, disease, insects, hail or mechanical, or other means.

(i) In order to allow for variations incident to proper grading and handling, not more than 10 percent, by count, of the tomatoes in any lot may fail to meet the requirements of this grade, but not more than one-half of this tolerance, or 5 percent, shall be allowed for defects causing serious damage, including not more than 1 percent for soft ripe tomatoes or tomatoes affected by decay at shipping point or in shipments from Mexico when inspected at points of entry into the United States. In addition, enroute or at destination, a total tolerance of not more than 5 percent shall be allowed for soft ripe tomatoes and tomatoes affected by decay, and a tolerance of not more than 5 percent shall be allowed for tomatoes damaged by shoulder bruises or badly discolored or sunken shoulder scars, and similar scars found on any parts of the tomatoes in addition to those permitted under the 10 percent tolerance for defects.

(2) "U. S. Combination" shall consist of a combination of U. S. No. 1 and U. S. No. 2 tomatoes: *Provided*, That at least 60 percent, by count, meet the requirements of U. S. No. 1 grade.

(i) In order to allow for variations incident to proper grading and handling, not more than 10 percent, by count, of the tomatoes in any lot may fail to meet the requirements of the U. S. No. 2 grade, including not more than 1 percent for soft ripe tomatoes or tomatoes affected by decay at shipping point or in shipments from Mexico when inspected at points of entry into the United States. In addi-

tion, en route or at destination, a total tolerance of not more than 5 percent shall be allowed for soft ripe tomatoes and tomatoes affected by decay, and a tolerance of not more than 5 percent shall be allowed for tomatoes seriously damaged by shoulder bruises or badly discolored or sunken shoulder scars, and similar scars found on any parts of the tomatoes in addition to those permitted under the 10 percent tolerance for defects. No part of any tolerance shall be allowed to reduce for the lot as a whole the percentage of U. S. No. 1 tomatoes required in the combination but individual containers may have not more than 10 percent less than the percentage of U. S. No. 1 required: *Provided*, That the entire lot averages within the percentage specified.

(3) "U. S. No. 2" shall consist of tomatoes of similar varietal characteristics, which are mature, but not overripe or soft; not badly misshapen, free from decay, unhealed cuts, freezing injury, and from serious damage caused by dirt, bruises, sunscald, sunburn, puffiness, catfaces, growth cracks, scars, disease, insects, hail or mechanical or other means.

(i) In order to allow for variations incident to proper grading and handling, not more than 10 percent, by count, of the tomatoes in any lot may fail to meet the requirements of this grade, including not more than 1 percent for soft ripe tomatoes or tomatoes affected by decay at shipping point or in shipments from Mexico when inspected at points of entry into the United States. In addition, en route or at destination, a total tolerance of not more than 5 percent shall be allowed for soft ripe tomatoes and tomatoes affected by decay, and a tolerance of not more than 5 percent shall be allowed for tomatoes seriously damaged by shoulder bruises or badly discolored or sunken shoulder scars, and similar scars found on any parts of the tomatoes in addition to those permitted under the 10 percent tolerance for defects.

(4) "Unclassified" shall consist of tomatoes which are not graded in conformity with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(b) *Marking for size.* (1) The minimum size, total count, or description of the arrangement of the tomatoes in the top layer in any package should be plainly stenciled or otherwise marked on the package.

(2) "Minimum size" means the greatest diameter of the smallest fruit measured at right angles to a line running from the stem to the blossom end. It should be stated in terms of whole and quarter inches as, 2" minimum, 2¼" minimum, 2½" minimum, and so on, in accordance with the facts.

(3) In order to allow for variations incident to proper sizing, not more than 5 percent, by count, of the tomatoes in any lot may vary from the minimum diameter or the total count specified. (The tolerance for the packs is given under "U. S. Standard Packs.")

(c) *U. S. Standard Packs.* (1) "U. S. Standard Packs" apply particularly to packing in lugs and should be designated according to the number of rows in the top layer in a lug, as 5 x 5, 5 x 6, 6 x 6, and so on, in accordance with the facts. The tomatoes in all layers shall show a uniform type of arrangement, e. g., square, offset or diagonal. The following terms shall be used to describe U. S. Standard Packs in lugs:

(2) "U. S. Straight Pack": When specified as "U. S. Straight Pack" the tomatoes shall be fairly uniform in size and fairly tightly packed, and all layers in any lug shall have the same number of tomatoes: *Provided*, That when a diagonal arrangement of tomatoes is used, a variation of not more than one tomato shall be permitted in different layers. For example, in a 5 x 5 pack the tomatoes shall be packed 5 rows wide and 5 rows long in each layer, or in a 4 x 5 x 9 diagonal pack the tomatoes shall be packed alternately 4 and 5 to row the short way of the lug with 9 such rows in the layer and with either 40 or 41 tomatoes in each layer. Unless otherwise specified, the net weight of the tomatoes in the lug shall be not less than 30 pounds. Not more than one tomato shall be placed in a wrapper.

(3) "U. S. Extra Row Pack": When specified as "U. S. Extra Row Pack" the tomatoes shall be fairly uniform in size and fairly tightly packed, and the lower layers shall not contain more than one additional row one way of the lug. For example, in a 5 x 5 pack, the tomatoes in the lower layers may be packed 5 x 6 but not 6 x 6 or 5 x 7. Unless otherwise specified, the net weight of the tomatoes in the lug shall be not less than 30 pounds. Not more than one tomato shall be placed in a wrapper.

(4) "U. S. Bridge Pack": When specified as "U. S. Bridge Pack" the tomatoes shall be fairly uniform in size and fairly tightly packed, and a part of one additional layer of tomatoes shall be packed in the lug and the remaining tomatoes in the lower layers shall not contain more than one additional row one way of the lug than is contained in the top layer. Unless otherwise specified, the net weight of the tomatoes in the lug shall be not less than 30 pounds. Not more than one tomato shall be placed in a wrapper.

(5) "U. S. Double Wrap Pack": When specified as "U. S. Double Wrap Pack" the tomatoes shall be fairly uniform in size and fairly tightly packed, and the tomatoes in the top layer shall be packed with not more than one tomato in a wrapper and the lower layer or layers shall be packed with not more than two tomatoes in a wrapper. Unless otherwise specified, the net weight of the tomatoes in the lug shall be not less than 30 pounds.

(6) "U. S. Double Wrap Bridge Pack": When specified as "U. S. Double Wrap Bridge Pack" the tomatoes shall be fairly uniform in size and fairly tightly packed; the tomatoes in the top layer shall be packed with not more than one tomato in a wrapper and the lower layer or layers shall be packed with not more than two tomatoes in a wrapper: *Provided*, That part of one additional layer which may have either one or two tomatoes in a wrapper shall be packed in the lug. Unless otherwise specified, the net weight of the tomatoes in the lug shall be not less than 30 pounds.

(7) In order to allow for variations incident to proper packing, not more than 10 percent, by count, of the containers in any lot may not meet the requirements for any described pack.

(8) "Irregular Pack": Lugs of tomatoes which are not packed in accordance with any of the foregoing methods of packing may be designated as "Irregular Pack."

(d) *Application of tolerances.* (1) The contents of individual containers in the lot, based on sample inspection, are subject to the following limitations: *Provided*, The averages for the entire lot are within the tolerances specified:

(2) When a tolerance is 10 percent or more, individual containers in any lot shall have not more than one and one-half times the tolerance specified, except that at least one defective and one off-sized specimen may be permitted in any container.

(3) When a tolerance is less than 10 percent, individual containers in any lot shall have not more than double the tolerance specified, except that at least one defective and one off-sized specimen may be permitted in any container.

(e) *Definitions.* (1) "Similar varietal characteristics" means that the tomatoes are alike as to firmness of flesh and shade of color, i. e., that soft-fleshed early maturing varieties are not mixed with firm-fleshed mid-season or late varieties, or bright red varieties mixed with varieties having a purplish tinge.

(2) "Mature" means that the contents of the seed cavities have begun to develop a jelly or glue-like consistency and the seeds are well developed.

(3) "Well developed" means that the tomato shows normal growth. Tomatoes which are ridged and peaked at the stem end, contain dry tissue and usually open spaces, are not considered well developed.

(4) "Fairly well formed" means that the tomato is not decidedly kidney-shaped, lopsided, elongated, angular, or otherwise deformed.

(5) "Fairly smooth" means that the tomato is not conspicuously ridged or rough.

(6) "Damage" means any defect which materially affects the appearance, edible, or shipping quality. Any one of the following defects or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Cuts which are not shallow, not well healed or more than ½ inch in length.

(ii) Puffy tomatoes: These tomatoes are usually angular and flat sided. They are damaged if open space in one or more locules materially affects the appearance when the tomato is cut through the center at right angles to a line running from the stem to the blossom end.

(iii) Catfaces: These are irregular, dark, leathery scars at the blossom end of the fruit. Such scars damage the tomato when they are rough or deep, or when channels extend into the locule, or when they are fairly smooth and

greater in area than a circle ½ inch in diameter on a 2½ inch tomato. Smaller tomatoes shall have lesser areas of fairly smooth catfaces and larger tomatoes may have greater areas: *Provided*, That such catfaces do not affect the appearance of the tomatoes to a greater extent than that caused by fairly smooth catfaces which are permitted on a 2½ inch tomato.

(i) Growth cracks: These are ruptures or cracks radiating from the stem scar, or concentric to the stem scar. They damage the tomtao when not well healed, or when more than ½ inch in length; except, that very narrow, well healed cracks concentric to the stem scar shall not be considered as damage unless they are so numerous as to damage the appearance of the fruit.

(v) Scars (except catfaces) when aggregating more than ⅜ inch in diameter on a tomato 2½ inches in diameter. Smaller tomatoes shall have lesser areas of scars and larger tomatoes may have greater areas: *Provided*, That such scars do not affect the appearance of the tomatoes to a greater extent than that caused by scars which are permitted on a 2½ inch tomato.

(7) "Serious damage" means any defect which seriously affects the appearance, edible or shipping quality. The following shall be considered as serious damage:

(i) Soft ripe tomatoes or tomatoes affected by decay.

(ii) Fresh holes or cuts, or any holes or cuts through the tomato wall.

(iii) Tomatoes showing any effects of freezing.

(iv) Puffiness which causes the tomato to be distinctly light in weight.

(v) Fruit actually infested with worms.

(8) "Badly misshapen" means that the tomato is so badly deformed that its appearance is seriously affected.

(9) "Fairly uniform in size" means that not more than 10 percent, by count, of the tomato in any container may vary more than one-half inch in diameter. "Diameter" means the greatest dimension taken at right angles to a line running from the stem to the blossom end.

These standards for fresh tomatoes hereby supersede the standards that have been in effect since September 3, 1934.

It is hereby found and determined that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong. 60 Stat. 237) in connection with the issuance of these revised standards, is impracticable, unnecessary and contrary to the public interests in that: (1) The standards for fresh tomatoes have been in the process of revision since June 1946 and the revised standards have been prepared on the basis of suggestions of growers, packers, shippers and other handlers of tomatoes; (2) the issuance of the revised standards, effective February 5, 1947, is necessary to make such standards conform to present handling and packing practices; and (3) the issuance of the revised standards which includes only minor changes should be accomplished as soon as possible because the seasonable shipments of tomatoes have begun.

(Pub. Law 422, 79th Cong.)

Issued at Washington, D. C., this 30th day of January 1947, to be effective on and after the 5th day of February 1947.

[SEAL] RALPH S. TRIGG,
Acting Administrator, Production and Marketing Administration.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Orange Reg. 110]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN THE STATE OF FLORIDA

LIMITATION OF SHIPMENTS

§ 933.329 *Orange Regulation 110*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) Orange Regulation 109 (12 F. R. 765) is hereby terminated as of the effective time of this section.

(2) During the period beginning at 12:01 a. m., e. s. t., February 5, 1947, and ending at 12:01 a. m., e. s. t., February 17, 1947, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which grade U. S. No. 2, as such grade is defined in the United States standards for citrus fruits, as amended (11 F. R. 13239; 12 F. R. 1) if more than one-half of the surface in the aggregate is affected with discoloration;

(ii) Any container of oranges, except Temple oranges, grown in the State of Florida, which grade U. S. Combination Grade (as such grade is defined in the aforesaid amended United States standards) unless at least sixty-five percent (65%), by count, of the total quantity of oranges in such container meet the requirements of U. S. No. 1 grade (as such grade is defined in the aforesaid amended United States standards) and each of the remainder of the oranges meets all other requirements of the aforesaid U. S. Combination Grade;

(iii) Any oranges, including Temple oranges, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade, as such grades are defined in the United States standards for citrus fruits, as amended (11 F. R. 13239; 12 F. R. 1);

(iv) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 250 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to Section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09)); or

(v) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size larger than a size that will pack 150 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit).

(3) As used herein, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

SUPPLEMENT S-T

The Securities and Exchange Commission, acting pursuant to the Securities Act of 1933, particularly sections 7, 10 and 19 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act, hereby amends Instructions 1 and 3 of the General Instructions to Supplement S–T (17 CFR 239.20, 11 F. R. 177A–733) to read as follows:

1. The special items comprising this Supplement S–T (17 CFR 239.20) shall be applicable to issuers registering securities under the Securities Act of 1933 if any of the securities being registered are to be issued under an indenture required to be qualified under the Trust Indenture Act of 1939. The special items, together with the answers thereto, shall be inserted in the registration statement immediately preceding the Undertaking To File Reports.

3. There may be omitted from any prospectus all matter contained in the registration statement pursuant to the requirements of this supplement, except Item 4–T. The analysis required by Item 4–T may be omitted from any "newspaper prospectus" as that term is defined in Instruction 1 of the Instructions as to Newspaper Prospectuses in Form S–1.

The Commission finds that the foregoing amendments involve only the clarification of matters of procedure or practice and do not effect any substantive change and therefore that notice and public procedure pursuant to section 4 (a) and (b) of the Administrative Procedure Act are unnecessary. In view of the desirability of having the matter involved in the foregoing amendments clarified as soon as possible, good cause exists for declaring the amendments effective in less than thirty days; hence the amendments shall become effective January 30, 1947.

(Secs. 7, 10 and 19 (a), 48 Stat. 78, 81, 85; 15 U. S. C. 77g, 77j, 77s)

Secretary.

PART 404—TREASURY, HOME OFFICE[1]

RECEIPTS AND DISBURSEMENTS

1. Section 404.02–2 (10 F. R. 8454) is amended to read as follows:

§ 404.02–2 *Signatories and countersignatories.* The Treasurer and the Assistant Treasurer of the Home Owners' Loan Corporation are authorized individually to disburse funds from and sign checks, either in person or by facsimile signature, drawn on any or all of the accounts maintained with the Treasurer of the United States. All checks for amounts in excess of $5,000 signed under the authority conferred by the first sentence of this section shall be signed personally by the Treasurer or by the Assistant Treasurer and countersigned by the General Manager, Assistant to the General Manager, or Deputy General Manager. The provisions of the first sentence of the second paragraph of § 403.01–7 of this chapter relating to countersignatures on checks drawn on the Regional Working Fund shall not apply to checks signed under the authority conferred by the first sentence of this section.

2. Section 404.02–6 is amended to read as follows:

§ 404.02–6 *Employee death and other claims.* It is the responsibility of the Treasurer to submit to the General Accounting Office for settlement claims properly supported by an administrative report and certified by the auditor, for proceeds of checks erroneously issued and covered by United States Treasury into "Outstanding Liabilities Account." Claims for amounts due deceased or incompetent employees or creditors of the Corporation, claims for the proceeds of unpaid checks which have not been covered by the United States Treasury into "Outstanding Liabilities Account," and any other type of claim on behalf of such employees or creditors, shall be disbursed by the Treasurer of the Corporation upon certification by the auditor or other authorized certifying officer. Such claims shall be supported by an administrative report prepared by the auditor or other authorized certifying officer and a signed copy of the determination of the General Counsel as to the payee or payees entitled to the proceeds thereof. Chapter VIII—Office of Housing Expediter

[Premium Payments Reg. 6 as Amended Feb. 3, 1947, Incl. Ints. 1–4]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

HARDWOOD FLOORING—SOUTHERN AREA

Purpose and findings. This general regulation is issued to stimulate additional production of hardwood flooring in the southern area by providing for premium payments on production of such flooring above established quotas. It describes how quotas are established, and the methods, procedures and conditions under which premium payments may be obtained. This regulation is issued pursuant to the authority of the "Veterans' Emergency Housing Act of 1946."

All available means of increasing the supply of hardwood flooring for the veterans' emergency housing program and for other construction, maintenance and repair essential to the national well-being have been considered. Based on such consideration, the Expediter finds that premium payments on hardwood flooring are temporarily necessary to increase its supply and to stimulate such additional production with greater rapidity, economy and certainty than other available methods. The premium payments provided herein are applied at a uniform rate within the industry. In applying premium payments to necessary additional production in this industry emphasis has been placed upon avoiding either economic dislocations or adverse effects upon established business.

Appendix A: Description of southern area.

[1] This contains the portion of former Part 407 which relates to the Home Office.

§ 805.6 *Hardwood flooring (southern area)*—(a) *Definitions.* (1) "Hardwood flooring" means flooring which is produced from hardwood species, and which is end matched and machine patterned in $\frac{25}{32}$" and thinner thicknesses. In addition, it includes custom hardwood flooring, which is hardwood flooring produced from lumber not owned by the flooring producer.

(2) "Residential flooring" means hardwood flooring which meets these requirements:

(i) It is produced from the species oak, beech, pecan, birch or hard maple, which has been properly kiln dried.

(ii) It has been side matched, end matched and machine patterned (except that $\frac{5}{16}$" square edge shall be included), in $\frac{25}{32}$" and thinner thicknesses, and it has been machined to face widths of 1½", 1½", 2", 2¼", 2½", 2¾" or 3¼".

(iii) It has been graded in accordance with the official grading rules of the National Oak Flooring Manufacturers' Association (effective November 8, 1943).

Residential flooring may be unfinished, dip-treated or factory finished. It does not include custom hardwood flooring.

(3) "Southern area" means the areas set forth in Appendix A.

(4) "Person" means an individual, corporation, partnership, association, or any other organized group of any of the foregoing, or legal successor or representative of any of the foregoing, but does not include the United States, any of its political subdivisions or any agency thereof, any other Government, any of its political subdivisions or any agency thereof.

(5) "Plant" means a manufacturing establishment for the production of hardwood flooring which is located in the southern area, occupies a single site and, where consisting of several complete manufacturing units, uses common shipping and storing facilities and common operating supervision.

(6) "Company" means a person who manufactures hardwood flooring. If a person owns several plants, it shall be considered a company only with respect to plants located in the southern area. For purposes of this section, a sawmill or concentration yard which is owned by a company and located in the southern area shall be considered a part of the company.

(7) "Southern hardwood flooring lumber" means lumber which is produced in the southern area from the species oak, beech, pecan, birch or hard maple, in the following condition, grades and thicknesses: condition—rough; grades—No. 2 common and No. 3a common, except that the grades for lumber produced from pecan shall be No. 2 common and No. 3 common; thicknesses—4/4", 5/4" and 5/8". The grading and measurements shall be in accordance with the rules of the National Hardwood Lumber Association, effective January 1, 1946.

(8) "Southern usable lumber" means southern hardwood flooring lumber which has been on sticks or end racked at least the following number of days: 45 days for 5/8" thickness lumber; 60 days for lumber produced from the species beech or pecan in 4/4" or 5/4" thicknesses; 90 days for all other lumber.

(9) "Southern green lumber" means southern hardwood flooring lumber which does not meet the definition of southern usable lumber.

(10) "Supplier" means any person who supplies southern hardwood flooring lumber to a "company." However, unless otherwise authorized by the Expediter, a "company" shall not be considered a supplier.

(11) "Premium A" means a premium payable under paragraph (d) of this section.

(12) "Premium B" means a premium payable under paragraph (e) of this section.

(13) "Production" and "units of production" mean the amount of hardwood flooring produced, measured in thousands of feet, flooring count.

(14) "Flooring count" means the hardwood flooring measure described in the official grading rules of the National Oak Flooring Manufacturers' Association (effective November 8, 1943).

(15) "Quarter" means a period of three consecutive calendar months, beginning August 1, November 1, and February 1. However, any company on whom this provision works a hardship may apply, by letter, to the Expediter, Washington, D. C., for authorization to submit its application for quota and claims on the basis of a stipulated fiscal quarter. With respect to a company that has received such authorization, this section shall become effective on the first day of the fiscal month beginning on or after August 1, 1946, and shall terminate on the same date that this section terminates as to other companies.

(16) "New producer" means with respect to a plant which prior to the effective date of this section was not operated for the production of hardwood flooring, a person who operates such plant after the effective date of this section, and who did not operate, prior to the effective date of this section, any plant for the production of hardwood flooring.

(17) "Claim" means a claim for premium payments filed pursuant to this section.

(18) "Expediter" means the Housing Expediter as defined in the Veterans' Emergency Housing Act of 1946, or his duly authorized representative.

(19) "OHE" means the Office of the Housing Expediter.

(b) *Establishment of quota*—(1) *Rules.* A quota shall be established for each company, in accordance with the rules below. In applying the rules, follow these instructions:

(i) Use Rule 1 for all plants owned by the company on August 1, 1946, if it applies to any such plant. If Rule 1 does not apply, use Rule 2. If neither Rule 1 nor Rule 2 applies to any plant, use Rule 3.

(ii) If a plant owned by the company on August 1, 1946, was under different ownership in the applicable quota period, include the production or productive capacity (whichever is appropriate) of that plant during such period.

(iii) If, after August 1, 1946, an additional plant is acquired, the company shall apply, by letter, to the Expediter, Washington, D. C., for a new company quota.

(iv) In computing actual hardwood flooring production, under subparagraph (*a*) of Rule 1 or Rule 2, include all hardwood flooring production.

Rule 1. Company which produced hardwood flooring in any plant at least 45 days during first quarter of 1946. The quota shall be the lower of the following:

(*a*) Actual production of hardwood flooring during the first quarter of 1946; or

(*b*) Productive capacity of all hardwood flooring machines in place on March 31, 1946, computed on the basis of 1,040,000 feet flooring count per machine.

Example 1. X company owns one plant, which produced hardwood flooring at least 45 days during the first quarter of 1946. Four machines are installed in the plant, and during the quarter only two were operated. X's actual production of hardwood flooring was 2,210,000 feet flooring count.

X's quota is 2,210,000 feet flooring count, since this is lower than 4,160,000 feet flooring count, his productive capacity computed under (*b*) above (4 x 1,040,000=4,160,000).

Example 2. Y company owns one plant, which produced hardwood flooring at least 45 days during the first quarter of 1946. One machine is installed in the plant, and during the quarter this machine was operated on an overtime basis. Accordingly, Y's actual production of hardwood flooring was 1,170,000 feet flooring count.

Y's quota is 1,040,000 feet flooring count, his productive capacity computed under (*b*) above, since this is lower than his actual production.

Example 3. Z company owns two plants, each of which has two machines. Plant #1 produced hardwood flooring at least 45 days during the first quarter of 1946, and its actual production was 2,000,000 feet flooring count. Plant #2 was idle during the period January 1 through June 30, 1946.

Since Rule 1 applies to Plant #1, Z will use this rule for all plants, in determining his company quota. Accordingly, Z's quota is 2,000,000 feet flooring count (actual hardwood flooring production during the first quarter of 1946), for this is lower than 4,160,000 feet flooring count (productive capacity).

Rule 2. Company which cannot qualify under Rule 1, but which produced hardwood flooring in any plant at least 15 days in each of three months during the period January 1 through June 30, 1946. The quota shall be the lower of the following:

(*a*) Actual production of hardwood flooring during the first three months, in the period January 1 through June 30, 1946, where hardwood flooring was produced at least fifteen days per month; or

(*b*) Productive capacity of all hardwood flooring machines in place at the end of the third month determined under (*a*), computed on the basis of 1,040,000 feet flooring count per machine.

Example 4. In the period January 1 through June 30, 1946, M company produced hardwood flooring 25 days in January, 0 days in February, 10 days in March, 15 days in April and 25 days in May. M will determine actual production during January, April and May, and compare it with productive capacity of all machines in place on May 31.

Rule 3. Any other company. The quota shall be determined by the Ex-

pediter. However, no quota shall be established for a new producer which would result in the application of premium payments to more than 50 percent of the value (in terms of producer's selling price) of the total output of such producer.

(2) *Adjustment of quota by Expediter.* Where production of a company during the first quarter under this section, or during the period November 1 through December 31, 1946, has been interrupted due to unusual circumstances beyond the control of the company, the company may, by letter, report these circumstances to the Expediter. The Expediter may, for purposes of determining the company's eligibility to receive premium A, adjust the quota for the first quarter, or the months of November and December, as the case may be.

(c) *Application for quotas.* Every company who wishes to receive premium payments under this section shall file an application for quota on form NHA 14-67. This form may be obtained from any RFC Loan Agency, and shall be filed with the Expediter by September 15, 1946. However, if a company did not produce hardwood flooring in the period January 1 to August 1, 1946, such form may be filed after September 15, 1946.

(d) *Premium A*—(1) *Eligibility for premium A for the first quarter.* A company is eligible for premium A for the first quarter under this section if its production (as determined under paragraph (f) of this section) during such quarter was in excess of quota.

(2) *Rate and amount of premium A for the first quarter.* The rate and amount of premium A shall be calculated at the end of the first quarter under this section, according to the following rules:

Rule A. If a company's production during the quarter was ten percent or more above its quota, the amount payable will be based on all southern hardwood flooring lumber delivered during the quarter for use in the production of hardwood flooring. The rate of payment shall be $8.50 per thousand feet board measure for southern hardwood flooring lumber which was usable when delivered, and $6.00 per thousand feet board measure for such lumber which was green when delivered.

If a company produces its own southern hardwood flooring lumber, the amount payable with respect to self-produced lumber will be based on all southern usable lumber received for use in the production of hardwood flooring during the claim period: *Provided*, That an invoice has been prepared showing the quantity of the lumber. The rate of payment shall be $8.50 per thousand feet board measure for such southern usable lumber.

Rule B. If a company's production during the quarter was above its quota, but less than ten percent above, the amount payable will be calculated as follows:

(*a*) For each one percent increase over the company's quota, ten percent of the amount which would be payable under Rule A, if that rule were applicable.

Example 5. L company's production is five percent above its quota, and during the quarter deliveries of southern hardwood flooring lumber were as follows: 10,000,000 feet board measure, usable lumber; 20,000,000 feet board measure, green lumber.

Under (*a*) above, the total amount payable is computed as follows:

10,000 MFBM x 5 x $0.85	$42,500
20,000 MFBM x 5 x $0.60	60,000
	102,500

(*b*) If production during the quarter of all companies that have applied for quotas (under paragraph (c) of this section) is ten percent or more above the sum of the quotas of such companies, the company will be reimbursed for the difference between the amount paid on the basis of (*a*) and the amount payable under Rule A.

Rule C. If a company's production during the quarter was not above quota, no amount is payable, except as provided in paragraph (d) (4) below.

[Rule D and Examples 6 and 7 deleted as of December 31, 1946]

(3) *Eligibility for premium A for November and December, 1946.* A company is eligible for premium A for the period November 1 through December 31, 1946, if its production (as determined under paragraph (f) of this section) during such period was in excess of two-thirds of its quota.

(4) *Rate and amount of premium A for November and December, 1946.* The rate and amount of premium A for the period November 1 through December 31, 1946, shall be calculated at the end of such period, according to the rules set forth in paragraph (d) (2). In applying these rules, production during the period November 1 through December 31, 1946 shall be compared with two-thirds of the quota established under paragraph (b).

A company may, at its option, combine production during the period November 1 through December 31, 1946, with production in the first quarter under this section. The amount payable for this five-month period shall be determined under Rules A and B (a) in paragraph (d) (2) above, on the basis of combined production in such period rather than on actual production in the first quarter and actual production in the period November 1 through December 31, 1946. If payment already has been made on a claim for the first quarter, such payment shall be deducted from the total amount payable which is computed under this provision.

Example 6. For the first quarter, N company has a quota of 2,000,000 feet flooring count, and for the period November and December, a quota of 1,333,333 feet flooring count, which is two-thirds of the quota for the second quarter. During the quarter beginning August 1, 1946, N's actual production was 1,700,000 feet flooring count, while in November and December its production was 2,000,000 feet flooring count. At the end of December N may file a claim for the five-month period based on 3,700,000 feet flooring count, production for this period. Since this figure exceeds 3,333,333 feet flooring count (2,000,000+1,333,333) by at least ten percent, N is entitled to premium A for the five-month period on the basis of the rates set forth under Rule A in paragraph (d) (2).

Example 7. In the quarter beginning August 1, 1946, L company (as indicated in Example 5) exceeded its quota by five percent, and received payment of $102,500. At the end of December, 1946, L files a claim based on its production during the five-month period. Since production for this period is at least ten percent above the sum of L's quota for the first quarter and two-thirds of its quota for the second quarter, L is entitled to receive premium A for the five-month period on the basis of the rates set forth under Rule A in paragraph (d) (2). However, as L already received $102,500 for the first quarter, this must be deducted from his claim for the five-month period.

[Former subparagraphs (3) and (4) redesignated (5) and (6), new (3) and (4) added as of December 31, 1946]

(5) *Company which uses northern hardwood flooring lumber.* For a company which uses northern hardwood flooring lumber, as defined in paragraph (a) (7) of § 805.7 (Housing Expediter Premium Payments Regulation No. 7), the rate and amount of Premium A shall be determined under paragraph (d) § 805.7.

(6) *Use of southern hardwood flooring lumber on which Premium A is payable.* Except for usual waste, all southern hardwood flooring lumber on which Premium A is payable must be used in the production of residential flooring, unless otherwise authorized by the Expediter.

Southern hardwood flooring lumber which is in inventory when this section is terminated shall be used in the production of residential flooring within five months from the termination date. To enable the Expediter to determine whether this condition is met, a company shall file a monthly report with the Expediter, Washington, D. C., on form OHE-14-158 covering each month in this five-month period, showing the amount of southern hardwood flooring lumber consumed in the production of residential flooring during the month, the amount of residential flooring produced in the month, the inventory of residential flooring at the end of the month, and the value, f. o. b. plant, of residential flooring produced during the month. This report shall be filed on or before the last day of the month following the month covered. By the end of the five-month period the company shall certify that all southern hardwood flooring lumber in inventory when the regulation was terminated has been used in the production of residential flooring. If the Expediter finds that a company has not complied with these conditions, he may invalidate claims for the last claim period.

(e) *Premium B*—(1) *Eligibility.* A company is eligible for premium B under this section if, during the period covered by the claim, its production (as determined under paragraph (f) of this section) is in excess of its quota.

(2) *Rate and amount of premium B.* For the first quarter under this section a company shall be paid $7.50 per thousand feet flooring count on all production in excess of its quota. For the period November 1 through December 31, 1946, a company shall be paid $7.50 per thousand feet flooring count on all production in excess of two-thirds of its quota. The amount payable for each claim period shall be computed by subtracting the amount of the company's quota or two-thirds of the company's quota, as the case may be, from its production for that period, and multiplying the remainder by $7.50 per thousand feet flooring count.

(f) *Computation of production for premium A and B claims*—(1) *First quarter premium A claims.* With respect to premium A claims for the first quarter under this section, production for the period covered by such claims shall include production of all residential flooring, and of all flooring produced for the account of the Federal Public Housing Authority from lumber owned by FPHA. It may also include all production of other hardwood flooring, non-custom and custom.

(2) *First quarter premium B claims.* With respect to premium B claims for the first quarter under this section, production for the period covered by such claims shall include production of all residential flooring, and of all flooring produced for account of the Federal Public Housing Authority from lumber owned by FPHA. It may also include production of other hardwood flooring, non-custom and custom, up to but not exceeding the quantity of each in the quota period. Where, however, the quota is based on productive capacity, rather than actual production, production may include other hardwood flooring in a quantity no greater than the lower of the following: (i) the amount of other hardwood flooring production in the quota period; (ii) the difference between productive capacity (computed under paragraph (b) of this section) and residential flooring production in the quota period.

(3) *Premium A and B claims for the period November and December, 1946.* With respect to claims for premium A and B for the period November 1 through December 31, 1946, production for this period shall include production of all residential flooring, and of all flooring produced for the account of the Federal Public Housing Authority from lumber owned by FPHA. It may also include production of other hardwood flooring, non-custom and custom up to but not exceeding two-thirds of the quantity of each in the quota period. Where, however, the quota is based on productive capacity, rather than actual production, production for the period may include other hardwood flooring in a quantity no greater than the lower of the following: (i) two-thirds of the amount of other hardwood flooring production in the quota period; (ii) the difference between two-thirds of productive capacity (computed under paragraph (b) of this section) and two-thirds of residential flooring production in the quota period.

Example 8. R company has a quota of 2,000,000 feet flooring count. This quota, which is based on actual production in the quota period, consists of: 1,000,000 feet residential flooring; 750,000 feet other hardwood flooring (non-custom); 250,000 feet other hardwood flooring (custom).

In the claim period beginning August 1, 1946, R produces 2,400,000 feet flooring count of hardwood flooring, consisting of: 1,300,000 feet residential flooring; 900,000 feet other hardwood flooring (noncustom); 200,000 feet other hardwood flooring (custom). Production for the claim period is computed as follows:

Premium A:	*Feet*
Residential flooring	1,300,000
Other hardwood flooring, non-custom	900,000
Other hardwood flooring, custom	200,000
Total production in claim	2,400,000
Quota	2,000,000
Production in excess of quota	400,000
Premium B:	
Residential flooring	1,300,000
Other hardwood flooring, non-custom (but not above amount in quota period)	750,000
Other hardwood flooring, custom (but not above amount in quota period)	200,000
Total production in claim	2,250,000
Quota	2,000,000
Production in excess of quota	250,000

In the claim period November 1 through December 31, 1946, R produces 1,680,000 feet flooring count of hardwood flooring, consisting of 1,000,000 feet residential flooring; 550,000 feet other hardwood flooring (non-custom); 130,000 other hardwood flooring (custom). Production for this period is computed as follows:

Premium A and B:	*Feet*
Residential flooring	1,000,000
Other hardwood flooring, non-custom (but not above two-thirds of the amount in quota period)	500,000
Other hardwood flooring, custom (but not above two-thirds of the amount in quota period)	130,000
Total production in claims	1,630,000
Two-thirds of quota	1,333,333
Production in excess of two-thirds of quota	296,667

[Example 9 deleted as of December 31, 1946]

(g) *Claim for payment.* A company shall file claims for payment of premium A and B in the following manner:

(1) Each claim for payment shall be filed with the RFC Loan Agency for the district in which the company's main office is located, on Form NHA 14-68. These forms may be obtained from any RFC Loan Agency. A company may find out in which RFC Loan Agency district it is located by consulting its bank.

(2) Within 30 days after the end of the first quarter under this section, a company must file Form NHA 14-68 for such quarter. However, a company with a quota established under Rule 3 of paragraph (b) may file this form for the first quarter by January 31, 1947. For the period November 1 through December 31, 1946, this form shall be filed by February 28, 1947. It must be filed, even though the company does not make a claim for payment for the claim period.

(3) Claims for premium A for the first quarter under this section may be filed on a monthly basis, and a claim may be filed for November, 1946, under the following conditions:

(i) A claim for the first month of a quarterly period may be filed only if production during the month has equaled or exceeded 110 percent of one-third of the company's quota;

(ii) A claim for the second month or for the first two months of a quarterly period may be filed only if production during the two months has equaled or exceeded 110 percent of two-thirds of the company's quota;

(iii) Each claim must be filed within 30 days after the end of the period covered by the claim. However, claims for any part of the first quarter by a company with a quota established under Rule 3 of paragraph (b) may be filed by January 31, 1947.

(iv) If a company files one or two-month claims, it shall also file a claim for the quarter including the month or two-month periods.

(4) For the first quarter of this section, claims for premium B must be filed within 30 days after the end of the quarter. However, a company with a quota established under Rule 3 of paragraph (b) may file claims for such quarter by January 31, 1947. With respect to the period November 1 through December 31, 1946, claims for premium B shall be filed by February 28, 1947.

(5) No claim under this section shall be assignable except as a part of a bona fide transfer of the company to a legal successor.

(h) *Payment*—(1) *Review by RFC.* In reviewing claims for payment, the RFC will determine whether such claims

appear to have been correctly and properly prepared.

(2) *Terms of payment.* If the claim or any part thereof is accepted by RFC subject to final verification, RFC will then pay the claimant that part of the claim so accepted. However, on claims for the last period for which this section is effective, RFC shall require that bond be furnished in form and amount satisfactory to it before making payment thereon. Preliminary acceptance and payment of claim shall not constitute final acceptance of the validity or amount of the claim. If, after review or audit, there is cause to question the validity of any claim, RFC may require that bond be furnished in form and amount satisfactory to it before making further payments, or suspend further payments.

(3) *Verification of claims.* (i) Upon receipt of claims for payment, RFC will forward copies to the Expediter for verification and such investigation or audit as he may deem appropriate.

(ii) If the amount verified and approved by the Expediter is less than the amount previously paid, the claimant shall, upon demand by RFC, refund the overage to RFC, together with interest thereon at the rate of four percent per annum calculated from the date of such overpayment to the date repayment is made to the RFC, or such overage plus interest may be deducted from any accrued or subsequent claim for any payment by RFC to the claimant.

(4) *Monthly payments.* Any payments made by RFC on account of any month or two-month claim shall be considered an advance payment on the claim for the quarterly period including such months, and shall be subject to recovery or set-off in the event the amount found payable on the quarterly claim is less than the amount of such advance payment.

(5) *Combined production.* Payments made by RFC on account of a first quarter claim for premium A shall be deducted from any claim subsequently filed which is based on combined production.

(6) *Invalidation of claims.* The Expediter shall have the right at any time to declare invalid any claim of a company, and such company shall upon demand refund to RFC any payment on such claim, if the Expediter finds that, during the period this section is effective, the company:

(i) Has failed to comply with any of the requirements of this section.

(ii) Has failed to comply with directives, orders or regulations of CPA or OHE on hardwood flooring.

(iii) Has failed to maintain production of lumber of all species from its own sawmill operations at a level which obtained during the corresponding quarter of the previous year.

(iv) Has, at the end of any month, an inventory of southern usable lumber which exceeds a sixty-day supply.

(v) Has, at the end of any month, an inventory of residential flooring which is more than the residential flooring production during that month.

(vi) Has purchased southern hardwood flooring lumber which is invoiced on specified or special widths and/or lengths, or which is sold on condition that the company sell or deliver flooring or any other finished product to the supplier or his appointee.

(i) *Records.* Every company shall prepare and preserve for inspection, for a period of not less than two years after the date of termination of this section, all books, records, and other documents which furnish information in support of its application for quota and claims for payment. The Expediter, or his designated agents shall have the right at any time to make such examinations and audits of the books, records, and other documents as may be necessary to verify the representations in the company's application for quota and claims for payment, or as may be required by the Expediter.

(j) *Reports.* Producers must furnish such reports as may be required by the Expediter from time to time, subject to approval by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Official interpretations.* Official interpretations of this section may be given only in writing by the General Counsel of OHE, or his duly authorized representative. A request for an official interpretation must be filed in writing directly with the Expediter or the General Counsel.

(l) *Special orders.* A company located outside of both the southern and northern areas (northern area is defined in § 805.7 Housing Expediter Premium Payments Regulation No. 7), which uses southern hardwood flooring lumber, may, by letter to the Expediter, Washington, D. C. request that it be included in this section. If the Expediter finds that such inclusion will have the effect of increasing the production of hardwood flooring and is consistent with the Veterans' Emergency Housing Act of 1946, he will issue a special order under this paragraph, establishing quotas, and fixing the rate and amount of premiums payable.

(m) *Termination.* This section shall terminate on December 31, 1946: *Provided, however,* That:

(1) Termination shall not preclude the filing of claims for payment accrued on or before the date of termination. These claims shall be dealt with in accordance with the provisions of this section as amended in the same manner as if this section had not been terminated.

(2) The provisions of paragraph (d) (6) shall remain in full force and effect as if this section had not been terminated.

Appendix A: Description of southern area. Southern area means the following hardwoods areas:

(a) *Southern hardwood area.* This includes the States of Alabama, Arkansas, Florida, Louisiana, Mississippi, Texas and Oklahoma, and the counties of Tipton, Haywood, Shelby, Fayette, Lauderdale and Hardeman in the State of Tennessee, and those portions of North Carolina, South Carolina, Virginia, and Georgia not included in the Appalachian hardwoods area.

(b) *Appalachian hardwoods area.* This is that area circumscribed by a line beginning at the intersection of the western line of the State of West Virginia and the western line of the State of Pennsylvania, thence southwesterly on the eastern lines of West Virginia to the western boundary of Boyd County, Kentucky; thence extending southwesterly through Kentucky along the generally northwestern boundaries of the following counties: Boyd, Carter, Rowan, Menifee, Powell, Estill, Jackson, Rockcastle, Pulaski, Wayne, and Clinton to the Tennessee state line; thence westerly along said state line to the western boundary of Pickett County, Tennessee; thence southerly in Tennessee along the western boundaries of Pickett, Fentress, Morgan, Roane, Rhea, and Hamilton Counties to the intersections of the western boundary of Hamilton County and the Nashville, Chattanooga, and St. Louis Railroad; thence easterly along said railroad through Chattanooga to the intersection of said railroad and the Georgia state line; thence easterly along said state line to the western boundary of Fannin County, Georgia; thence southeasterly in Georgia along the southwestern boundaries of Fannin County and Lumpkin County, thence generally easterly in Georgia along the southeastern boundary of Lumpkin County, the southern boundary of White County, and the southern and eastern boundaries of Habersham County to the South Carolina state line; thence southeasterly along said line to the southeastern boundary of Oconee County, South Carolina; thence in a generally northeasterly direction through South Carolina along the southeastern boundaries of Oconee and Pickens Counties, and the western, southern, and eastern boundaries of Greenville County to the North Carolina state line; thence easterly along the southern line of North Carolina to the eastern boundary of Cleveland County, North Carolina; thence northerly in North Carolina along the eastern boundaries of Cleveland and Burke Counties; thence continuing generally northeasterly in North Carolina along the eastern or southern boundaries of Alexander, Wilkes and Surry Counties to the Virginia state line; thence east on said state line to the eastern boundary of Patrick County, Virginia; thence northeasterly through Virginia, following the eastern boundary of Patrick County and the southeastern boundary of Franklin, Bedford, Amherst, Nelson, Albemarle, Greene, Madison, and Rappahannock Counties, turning southerly along the southwestern boundary of Fauquier County, and resuming a generally northerly direction along the eastern boundaries of Fauquier and Loudoun Counties to the Maryland state line; thence northwesterly along said state line to the eastern boundary of Frederick County, Maryland; thence northerly through Maryland along the eastern boundary of Frederick County to the Pennsylvania state line; thence westerly and thence northerly along said state line to the starting point. All sawmills on the boundary line of the Appalachian hardwoods area shall be deemed to be outside the Appalachian hardwoods area, except that mills in West Virginia and Maryland on the lines touching Pennsylvania and Ohio shall be deemed to be in the Appalachian area.

(c) *North Central hardwoods area.* This includes all of the States of Ohio, Indiana, Iowa, Nebraska and South Dakota; the counties of Adair, Anderson, Barren, Bath, Boone, Bourbon, Boyle, Bracken, Breckinridge, Bullitt, Campbell, Carroll, Casey, Clark, Cumberland, Daviess, Edmonson, Fayette, Fleming, Franklin, Gallatin, Garrard, Grant, Grayson, Green, Greenup, Hancock, Hardin, Harrison, Hart, Henry, Jefferson, Jessamine, Kenton, Larue, Lewis, Lincoln, Madison, Marion, Mason, Meade, Mercer, Metcalfe, Monroe, Montgomery, Nelson, Nicholas, Ohio, Oldham, Owen, Pendleton, Robertson, Russell, Scott, Shelby, Spencer, Taylor, Trimble, Washington and Woodford, all in the State of Kentucky; and all of the State of Illinois except the counties of Alexander, Franklin, Hardin, Jackson, Johnson, Massac, Monroe, Perry, Pope, Pulaski, Randolph, Union, and Williamson, and those parts of Hamilton, Jefferson, Saline, St. Clair, Clinton and Washington counties which lie south or southwest of the tracks of the Louisville and Nashville Railroad.

(d) *South Central hardwoods area.* This includes all of the States of Kansas and Missouri; the counties of Allen, Ballard, Butler, Caldwell, Calloway, Carlisle, Christian, Crittenden, Fulton, Graves, Henderson, Hickman, Hopkins, Livingston, Logan, Lyon, McCracken, McLean, Marshall, Muhlenberg, Simpson, Todd, Trigg, Union, Warren, and Webster, all in the State of Kentucky; and the counties of Bedford, Benton, Bledsoe, Cannon, Carroll, Cheatham, Chester, Clay, Coffee, Crockett, Cumberland, Davidson, Decatur, De Kalb, Dickson, Dyer, Franklin, Gibson, Giles, Grundy, Hardin, Henderson, Henry, Hickman, Houston, Humphreys, Jackson, Lake, Lawrence, Lewis, Lincoln, McNairy, Macon, Madison, Marion, Marshall, Maury, Montgomery, Moore, Obion, Overton, Perry, Putnam, Robertson, Rutherford, Sequatchie, Smith, Stewart, Sumner, Trousdale, Van Buren, Warren, Wayne, Weakley, White, Williamson, and Wilson, all in the State of Tennessee; and all that territory lying within Hamilton County, Tennessee, which is south of the Nashville, Chattanooga and St. Louis Railroad and north of the boundary line between said Hamilton County, Tennessee, and the State of Georgia; and the counties of Alexander, Franklin, Hardin, Jackson, Johnson, Massac, Monroe, Perry, Pope, Pulaski, Randolph, Union and Williamson, and those parts of Hamilton, Jefferson, Saline, St. Clair, Clinton, and Washington counties which lie south or southwest of the tracks of the Louisville and Nashville Railroad, all in the State of Illinois.

Effective date. This section as amended shall become effective as of December 31, 1946.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(Pub. Law 388, 79th Cong.)

Issued this 3d day of February 1947.

[SEAL] FRANK R. CREEDON,
Housing Expediter.

INTERPRETATION 1

PAYMENT OF PREMIUM A ON SOUTHERN HARDWOOD FLOORING LUMBER IN COMPANY'S INVENTORY ON AUGUST 1, 1946

(1) No premium A is payable on usable or green lumber which was produced by an independent supplier and was delivered to the company before August 1, 1946. Paragraph (d) (2) (ii) limits premium A to lumber that was delivered to the company during a claim period and on which the specified bonus was paid.

(2) No premium A is payable on usable lumber produced by a company-owned sawmill and received at the company's plant (or plants) before August 1, 1946. The provision of paragraph (d) (2) (ii), that a company which produces its own southern usable lumber shall be considered to have paid the prescribed bonus on such lumber, applies only to southern usable lumber received at the company's plant (or plants) during a claim period.

(3) On green lumber produced by a company-owned sawmill and received, for use in the production of hardwood flooring, at the company's plant (or plants) either before or after August 1, 1946, premium A is payable when such lumber becomes usable after August 1, 1946. (Issued August 26, 1946.)

INTERPRETATION 2

MEANING OF CLAUSE "IF A COMPANY PRODUCES ITS OWN SOUTHERN USABLE LUMBER"

If a company furnishes its own logs to an independent sawmill pursuant to a contract under which the sawmill agrees to supply to the company all the hardwood flooring lumber produced from such logs, the company is the producer of this lumber, within the meaning of subparagraph (d) (2) (ii) (Issued August 26, 1946.)

INTERPRETATION 3

PAYMENT OF PREMIUM A ON SOUTHERN HARDWOOD FLOORING LUMBER WHICH IS DESTROYED BY FIRE AFTER COMPANY HAS PAID BONUS THEREON; ADJUSTMENT OF QUOTA

Paragraph (d) (5) provides that, except for usual waste, all southern hardwood flooring lumber on which premium A is payable must be used in the production of residential flooring, unless otherwise authorized by the Expediter. Paragraph (h) (6) (i) gives the Expediter the right to invalidate a company's claim if it has failed to comply with any of the requirements of the regulation.

Since lumber destroyed by fire could not have been used in the production of residential flooring, there would be, as to this lumber, a failure to comply with the requirement of paragraph (d) (5). Therefore, no premium A could legally be payable with respect to such lumber, and if the fire were to occur after premium A had been paid thereon, such payment would be subject to recovery or set-off.

Destruction of lumber by fire is not a circumstance for which the Expediter will grant an exception from the requirement of paragraph (d) (5) that all lumber on which premium A is payable must be used in the production of residential flooring.

Although no premium A is payable with respect to lumber destroyed by fire, if such destruction by fire causes an interruption of production during any claim period this would constitute an interruption "due to unusual circumstances beyond the control of the company", on the basis of which an appropriate adjustment of the quota may be made for such claim period under paragraph (b) (2) of the regulation. (Issued September 21, 1946.)

INTERPRETATION 4

SIGNATURE REQUIRED ON SUPPLIER'S CERTIFICATION THAT LUMBER HAS BEEN ON STICKS OR END RACKED FOR SPECIFIED PERIOD

Supplier's certification on face of invoice, that lumber has been on sticks or end racked for specified period, must either bear his signature or that of another duly authorized person. Signature need not be manual, but may be in the form of a rubber stamp or facsimile reproduction of a handwritten signature. Typewritten signature, however, may not be used.

This interpretation shall become effective as of October 1, 1946. (Issued September 30, 1946.)

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

[Premium Payment Reg. 7 as Amended Feb. 3, 1947, Incl. Ints. 1-4]

HARDWOOD FLOORING—NORTHERN AREA

Purpose and findings. This general regulation is issued to stimulate additional production of hardwood flooring in the northern area by providing for premium payments on production of such flooring above established quotas. It describes how quotas are established, and the methods, procedures and conditions under which premium payments may be obtained. This regulation is issued pursuant to the authority of the "Veterans' Emergency Housing Act of 1946."

All available means of increasing the supply of hardwood flooring for the veterans' emergency housing program and for other construction, maintenance and repair essential to the national well-being have been considered. Based on such consideration, the Expediter finds that premium payments on hardwood flooring are temporarily necessary to increase its supply and to stimulate such additional production with greater rapidity, economy and certainty than other available methods. The premium payments provided herein are applied at a uniform rate within the industry. In applying premium payments to necessary additional production in this industry emphasis has been placed upon avoiding either economic dislocations or adverse effects upon established business.

Appendix A: Description of northern area.

§ 805.7 *Hardwood flooring (northern area)*—(a) *Definitions.* (1) "Hardwood flooring" means flooring which is produced from hardwood species, and which is end matched and machine patterned in $^{25}/_{32}$" and thinner thicknesses. In addition, it includes custom hardwood flooring, which is hardwood flooring produced from lumber not owned by the flooring producer.

(2) "Residential flooring" means hardwood flooring which meets these requirements:

(i) It is produced from the species oak, beech, birch or hard maple, which has been properly kiln dried.

(ii) It has been side matched, end matched and machine patterned (except that $^{5}/_{16}$" square edge shall be included), in $^{25}/_{32}$" and thinner thicknesses, and it has been machined to face widths of 1¼", 1½", 2", 2¼", 2½", 2¾", or 3¼".

(iii) It has been graded in accordance with the official grading rules of the Maple Flooring Manufacturers' Association (effective July 25, 1941), or of the National Oak Flooring Manufacturers' Association (effective November 8, 1943).

Residential flooring may be unfinished, dip-treated or factory finished. It does not include custom hardwood flooring.

(3) "Northern area" means the area set forth in Appendix A.

(4) "Person" means an individual, corporation, partnership, association, or any other organized group of any of the foregoing, or legal successor or representative of any of the foregoing, but does not include the United States, any of its political subdivisions or any agency thereof, any other Government, any of its political subdivisions or any agency thereof.

(5) "Plant" means a manufacturing establishment for the production of hardwood flooring which is located in that portion of the northern area which is in the continental United States, which occupies a single site and, where consisting of several complete manufacturing units, which uses common shipping and storing facilities and common operating supervision.

(6) "Company" means a person who manufactures hardwood flooring. If a person owns several plants, it shall be considered a company only with respect to plants located in that portion of the northern area which is in the continental United States. For purposes of this section, a sawmill or concentration yard which is owned by a company and located in that portion of the northern area which is in the continental United States shall be considered a part of the company.

(7) "Northern hardwood flooring lumber" means lumber which is produced in the northern area from the species oak, beech, birch or hard maple, in the following condition, grades and thicknesses: condition—rough; grades—No. 2 common and No. 3a common; thicknesses—4/4" and 5/8", except that the thicknesses for lumber produced from oak shall be 4/4", 5/4" and 5/8". The grading and measurements shall be in accordance with the rules of the National Hardwood Lumber Association, effective January 1, 1946.

(8) "Northern usable lumber" means northern hardwood flooring lumber which has been on sticks or end racked at least ninety days.

(9) "Northern green lumber" means northern hardwood flooring lumber which does not meet the definition of northern usable lumber.

(10) "Supplier" means any person who supplies northern hardwood flooring lumber to a "company." However, unless otherwise authorized by the Expediter, a "company" shall not be considered a supplier.

(11) "Premium A" means a premium payable under paragraph (d) of this section.

(12) "Premium B" means a premium payable under paragraph (e) of this section.

(13) "Production" and "units of production" means the amount of hardwood flooring produced, measured in thousands of feet flooring count.

(14) "Flooring count" means the hardwood flooring measure described in the official grading rules of the National Oak Flooring Manufacturers' Association (effective November 8, 1943).

(15) "Quarter" means a period of three consecutive calendar months, beginning August 1, November 1 and February 1. However, any company on whom this provision works a hardship may apply, by letter, to the Expediter, Washington, D. C., for authorization to submit its application for quota and claims on the basis of a stipulated fiscal quarter. With respect to a company that has received such authorization, this section shall become effective on the first day of the fiscal month beginning on or after August 1, 1946, and shall terminate on the same date that this section terminates as to other companies.

(16) "New producer" means with respect to a plant which prior to the effective date of this regulation was not operated for the production of hardwood flooring, a person who operates such plant after the effective date of this regulation, and who did not operate, prior to the effective date of this regulation, any plant for the production of hardwood flooring.

(17) "Claim" means a claim for premium payments filed pursuant to this section.

(18) "Expediter" means the Housing Expediter as defined in the Veterans' Emergency Housing Act of 1946, or his duly authorized representative.

(19) "OHE" means the Office of the Housing Expediter.

(b) *Establishment of quota*—(1) *Rules.* A quota shall be established for each company, in accordance with the rules below. In applying the rules, follow these instructions:

(i) Use Rule 1 for all plants owned by the company on August 1, 1946, if it applies to any such plant. If Rule 1 does not apply, use Rule 2. If neither Rule 1 nor Rule 2 applies to any plant, use Rule 3.

(ii) If a plant owned by the company on August 1, 1946 was under different ownership in the applicable quota period, include the production or productive capacity (whichever is appropriate) of that plant during such period.

(iii) If, after August 1, 1946, an additional plant is acquired, the company shall apply, by letter, to the Expediter, Washington, D. C., for a new company quota.

(iv) In computing actual hardwood flooring production, under subparagraph (a) of Rule 1 or Rule 2, include all hardwood flooring production.

RULE 1. *Company which produced hardwood flooring in any plant at least 45 days during first quarter of 1946.* The quota shall be the lower of the following:

(a) Actual production of hardwood flooring during the first quarter of 1946; or

(b) Productive capacity of all hardwood flooring machines in place on March 31, 1946, computed on the basis of 552,500 feet flooring count per machine.

Example 1. X company owns one plant, which produced hardwood flooring at least 45 days during the first quarter of 1946. Four machines are installed in the plant, and during the quarter only two were operated. X's actual production of hardwood flooring was 1,110,000 feet flooring count.

X's quota is 1,110,000 feet flooring count, since this is lower than 2,210,000 feet flooring count, his productive capacity computed under (b) above (4×552,500=2,210,000).

Example 2. Y company owns one plant, which produced hardwood flooring at least 45 days during the first quarter of 1946. One machine is installed in the plant, and during the quarter this machine was operated on an overtime basis. Accordingly, Y's actual production of hardwood flooring was 750,000 feet flooring count.

Y's quota is 552,500 feet flooring count, his productive capacity computed under (b) above, since this is lower than his actual production.

Example 3. Z company owns two plants, each of which has two machines. Plant #1 produced hardwood flooring at least 45 days during the first quarter of 1946, and its actual production was 600,000 feet flooring count. Plant #2 was idle during the period January 1 through June 30, 1946.

Since Rule 1 applies to Plant #1, Z will use this rule for all plants, in determining his company quota. Accordingly, Z's quota is 600,000 feet flooring count (actual hardwood flooring production during the first quarter of 1946), for this is lower than 2,210,000 feet flooring count (productive capacity).

RULE 2. *Company which cannot qualify under Rule 1, but which produced hardwood flooring in any plant at least 15 days in each of three months during the period January 1 through June 30, 1946.* The quota shall be the lower of the following:

(a) Actual production of hardwood flooring during the first three months, in the period January 1 through June 30, 1946, where hardwood flooring was produced at least fifteen days per month; or

(b) Productive capacity of all hardwood flooring machines in place at the end of the third month determined under (a), computed on the basis of 552,500 feet flooring count per machine.

Example 4. In the period January 1 through June 30, 1946, M company produced hardwood flooring 25 days in January, 0 days in February, 10 days in March, 20 days in April and 25 days in May. M will determine actual production during January, April and May, and compare it with productive capacity of all machines in place on May 31.

RULE 3. *Any other company.* The quota shall be determined by the Expediter. However, no quota shall be established for a new producer which would result in the application of premium payments to more than 50 percent of the value (in terms of producer's selling price) of the total output of such producer.

(2) *Adjustment of quota by Expediter.* Where production of a company during the first quarter under this section, or during the period November 1 through December 31, 1946, has been interrupted due to unusual circumstances beyond the control of the company, the company may, by letter, report these circumstances to the Expediter. The Expediter may, for purposes of determining the company's eligibility to receive premium A, adjust the quota for the first quarter, or the months of November and December, as the case may be.

(c) *Application for quotas.* Every company who wishes to receive premium payments under this section shall file an application for quota on form NHA 14-70. This form may be obtained from any RFC Loan Agency, and shall be filed with the Expediter by September 15, 1946. However, if a company did not produce hardwood flooring in the period January 1 to August 1, 1946, such form may be filed after September 15, 1946.

(d) *Premium A*—(1) *Eligibility for premium A for the first quarter.* A company is eligible for premium A for the first quarter under this section if its production (as determined under paragraph (f) of this section) during such quarter was in excess of quota.

(2) *Rate and amount of premium A for the first quarter.* The rate and amount of premium A shall be calculated at the end of the first quarter under this section, according to the following rules:

Rule A. If a company's production during the quarter was ten percent or more above its quota, the amount payable will be based on all northern hardwood flooring lumber delivered during the quarter for use in the production of hardwood flooring. The rate of payment shall be $3.50 per thousand feet board measure for northern hardwood flooring lumber which was usable when delivered, and $1.00 per thousand feet board measure for such lumber which was green when delivered.

If a company produces its own northern hardwood flooring lumber, the amount payable with respect to self-produced lumber will be based on all northern usable lumber received for use in the production of hardwood flooring during the claim period: *Provided*, That an invoice has been prepared showing the quantity of the lumber. The rate of payment shall be $3.50 per thousand feet board measure for such northern usable lumber.

Rule B. If a company's production during the quarter was above its quota, but less than ten percent above, the amount payable will be calculated as follows:

(a) For each one percent increase over the company's quota, ten percent of the amount which would be payable under Rule A, if that rule were applicable.

Example 5. L company's production is five percent above its quota, and during the quarter deliveries of northern hardwood flooring lumber were as follows: 10,000,000 feet board measure, usable lumber; 20,000,000 feet board measure, green lumber.

Under (a) above, the total amount payable is computed as follows:

10,000 MFBM x 5 x $0.35	$17,500
20,000 MFBM x 5 x $0.10	10,000
	$27,500

(b) If production during the quarter of all companies that have applied for quotas (under paragraph (c) of this section) is ten percent or more above the sum of the quotas of such companies, the company will be reimbursed for the difference between the amount paid on the basis of (a) and the amount payable under Rule A.

Rule C. If a company's production during the quarter was not above quota, no amount is payable, except as provided in paragraph (d) (4) below.

[Rule D and Examples 6 and 7 deleted as of December 31, 1946]

(3) *Eligibility for premium A for November and December, 1946.* A company is eligible for premium A for the period November 1 through December 31, 1946, if its production (as determined under paragraph (f) of this section) during such period was in excess of two-thirds of its quota.

(4) *Rate and amount of premium A for November and December, 1946.* The rate and amount of premium A for the period November 1 through December 31, 1946, shall be calculated at the end of such period, according to the rules set forth in paragraph (d) (2). In applying these rules, production during the period November 1 through December 31, 1946, shall be compared with two-thirds of the quota established under paragraph (b).

A company may, at its option, combine production during the period November 1 through December 31, 1946, with production in the first quarter under this section. The amount payable for this five-month period shall be determined under Rules A and B (a) in paragraph (d) (2) above, on the basis of combined production in such period rather than on actual production in the first quarter and actual production in the period November 1 through December 31, 1946. If payment already has been made on a claim for the first quarter, such payment shall be deducted from the total amount payable which is computed under this provision.

Example 6. For the first quarter, N company has a quota of 2,000,000 feet flooring count, and for the period November and December, a quota of 1,333,333 feet flooring count, which is two-thirds of the quota for the second quarter. During the quarter beginning August 1, 1946, N's actual production was 1,700,000 feet flooring count, while in November and December its production was 2,000,000 feet flooring count. At the end of December N may file a claim for the five-month period based on 3,700,000 feet flooring count, production for this period. Since this figure exceeds 3,333,333 feet flooring count (2,000,000+1,333,333) by at least ten percent, N is entitled to premium A for the five-month period on the basis of the rates set forth under Rule A in paragraph (d) (2).

Example 7. In the quarter beginning August 1, 1946, L company (as indicated in Example 5) exceeded its quota by five percent, and received payment of $27,500. At the end of December 1946, L files a claim based on its production during the five-month period. Since production for this period is at least ten percent above the sum of L's quota for the first quarter and two-thirds of its quota for the second quarter, L is entitled to receive premium A for the five-month period on the basis of the rates set forth under Rule A in paragraph (d) (2). However, as L already received $27,500 for the first quarter, this must be deducted from his claim for the five-month period.

[Former subparagraphs (3) and (4) redesignated (5) and (6), new (3) and (4) added as of December 31, 1946]

(5) *Company which uses southern hardwood flooring lumber.* For a company which uses southern hardwood flooring lumber, as defined in paragraph (a) (7) of § 805.6 (Housing Expediter Premium Payments Regulation No. 6), the rate and amount of Premium A shall be determined under paragraph (d) of § 805.6.

(6) *Use of northern hardwood flooring lumber on which Premium A is payable.* Except for usual waste, all northern hardwood flooring lumber on which Premium A is payable must be used in the production of residential flooring, unless otherwise authorized by the Expediter.

Northern hardwood flooring lumber which is in inventory when this section is terminated shall be used in the production of residential flooring within five months from the termination date. To enable the Expediter to determine whether this condition is met, a company shall file a monthly report with the Expediter, Washington, D. C., on form OHE 14-158 covering each month in this five-month period, showing the amount of northern hardwood flooring lumber consumed in the production of residential flooring during the month, the amount of residential flooring produced in the month, the inventory of residential flooring at the end of the month, and the value, f. o. b. plant, of residential flooring produced during the month. This report shall be filed on or before the last day of the month following the month covered. By the end of the five-month

period the company shall certify that all northern hardwood flooring lumber in inventory when the regulation was terminated has been used in the production of residential flooring. If the Expediter finds that a company has not complied with these conditions, he may invalidate claims for the last claim period.

(e) *Premium B—(1) Eligibility.* A company is eligible for premium B under this section if, during the period covered by the claim, its production (as determined under paragraph (f) of this section) is in excess of its quota.

(2) *Rate and amount of premium B.* For the first quarter under this section a company shall be paid $12.50 per thousand feet flooring count on all production in excess of its quota. For the period November 1 through December 31, 1946, a company shall be paid $12.50 per thousand feet flooring count on all production in excess of two-thirds of its quota. The amount payable for each claim period shall be computed by subtracting the amount of the company's quota or two-thirds of the company's quota, as the case may be, from its production for that period, and multiplying the remainder by $12.50 per thousand feet flooring count.

(f) *Computation of production for premium A and B claims—(1) First quarter premium A claims.* With respect to premium A claims for the first quarter under this section, production for the period covered by such claims shall include production of all residential flooring, and of all flooring produced for the account of the Federal Public Housing Authority from lumber owned by FPHA. It may also include all production of other hardwood flooring, non-custom and custom.

(2) *First quarter premium B claims.* With respect to premium B claims for the first quarter under this section, production for the period covered by such claims shall include production of all residential flooring, and of all flooring produced for account of the Federal Public Housing Authority from lumber owned by FPHA. It may also include production of other hardwood flooring, non-custom and custom, up to but not exceeding the quantity of each in the quota period. Where, however, the quota is based on productive capacity, rather than actual production, production may include other hardwood flooring in a quantity no greater than the lower of the following: (i) the amount of other hardwood flooring production in the quota period; (ii) the difference between productive capacity (computed under paragraph (b) of this section) and residential flooring production in the quota period.

(3) *Premium A and B claims for the period November and December, 1946.* With respect to claims for premium A and B for the period November 1 through December 31, 1946, production for this period shall include production of all residential flooring, and of all flooring produced for the account of the Federal Public Housing Authority from lumber owned by FPHA. It may also include production of other hardwood flooring, non-custom and custom up to but not exceeding two-thirds of the quantity of each in the quota period. Where, however, the quota is based on productive capacity, rather than actual production, production for the period may include other hardwood flooring in a quantity no greater than the lower of the following: (i) two-thirds of the amount of other hardwood flooring production in the quota period; (ii) the difference between two-thirds of productive capacity (computed under paragraph (b) of this section) and two-thirds of residential flooring production in the quota period.

Example 8. R company has a quota of 2,000,000 feet flooring count. This quota, which is based on actual production in the quota period, consists of: 1,000,000 feet residential flooring; 750,000 feet other hardwood flooring (non-custom); 250,000 feet other hardwood flooring (custom).

In the claim period beginning August 1, 1946, R produces 2,400,000 feet flooring count of hardwood flooring, consisting of: 1,300,000 feet residential flooring; 900,000 feet other hardwood flooring (non-custom); 200,000 feet other hardwood flooring (custom). Production for the claim period is computed as follows:

Premium A:	*Feet*
Residential flooring	1,300,000
Other hardwood flooring, non-custom	900,000
Other hardwood flooring, custom	200,000
Total production in claim	2,400,000
Quota	2,000,000
Production in excess of quota	400,000
Premium B:	
Residential flooring	1,300,000
Other hardwood flooring, non-custom (but not above amount in quota)	750,000
Other hardwood flooring, custom (but not above amount in quota)	200,000
Total production in claim	2,250,000
Quota	2,000,000
Production in excess of quota	250,000

In the claim period November 1 through December 31, 1946, R produces 1,680,000 feet flooring count of hardwood flooring, consisting of 1,000,000 feet residential flooring; 550,000 feet other hardwood flooring (non-custom); 130,000 other hardwood flooring (custom). Production for this period is computed as follows:

Premium A and B:	*Feet*
Residential flooring	1,000,000
Other hardwood flooring, non-custom (but not above two-thirds of the amount in quota period)	500,000
Other hardwood flooring, custom (but not above two-thirds of the amount in quota period)	130,000
Total production in claims	1,630,000
Two-thirds of quota	1,333,333
Production in excess of two-thirds of quota	296,667

[Example 9 deleted as of December 31, 1946]

(g) *Claim for payment.* A company shall file claims for payment of premium A and B in the following manner:

(1) Each claim for payment shall be filed with the RFC Loan Agency for the district in which the company's main office is located, on form NHA 14-71. These forms may be obtained from any RFC Loan Agency. A company may find out in which RFC Loan Agency district it is located by consulting its bank.

(2) Within 30 days after the end of the first quarter under this section, a company must file Form NHA 14-71 for such quarter. However, a company with a quota established under Rule 3 of paragraph (b) may file this form for the first quarter by January 31, 1947. For the period November 1 through December 31, 1946, this form shall be filed by February 28, 1947. It must be filed, even though the company does not make a claim for payment for the claim period.

(3) Claims for premium A for the first quarter under this section may be filed on a monthly basis, and a claim may be filed for November, 1946, under the following conditions:

(i) A claim for the first month of a quarterly period may be filed only if production during the month has equaled or exceeded 110 percent of one-third of the company's quota;

(ii) A claim for the second month or for the first two months of a quarterly period may be filed only if production during the two months has equaled or exceeded 110 percent of two-thirds of the company's quota;

(iii) Each claim must be filed within 30 days after the end of the period covered by the claim. However, claims for any part of the first quarter by a company with a quota established under Rule 3 of paragraph (b) may be filed by January 31, 1947.

(iv) If a company files one or two-month claims, it shall also file a claim for the quarter including the month or two-month periods.

(4) For the first quarter of this section, claims for premium B must be filed within 30 days after the end of the quarter. However, a company with a quota established under Rule 3 of paragraph (b) may file claims for such quarter by January 31, 1947. With respect to the period November 1 through December 31, 1946, claims for premium B shall be filed by February 28, 1947.

(5) No claim under this section shall be assignable except as a part of a bona fide transfer of the company to a legal successor.

(h) *Payment—(1) Review by RFC.* In reviewing claims for payment, the RFC will determine whether such claims appear to have been correctly and properly prepared.

(2) *Terms of payment.* If the claim or any part thereof is accepted by RFC subject to final verification, RFC will then pay the claimant that part of the claim so accepted. However, on claims for the last period for which this section is effective, RFC shall require that bond be furnished in form and amount satisfactory to it before making payment thereon. Preliminary acceptance and payment of claim shall not constitute final acceptance of the validity or amount of the claim. If, after review or audit, there is cause to question the validity of any claim, RFC may require that bond be furnished in form and amount satisfactory to it before making further payments, or suspend further payments.

(3) *Verification of claims.* (i) Upon receipt of claims for payment, RFC will forward copies to the Expediter for verification and such investigation or audit as he may deem appropriate.

(ii) If the amount verified and approved by the Expediter is less than the amount previously paid, the claimant shall, upon demand by RFC, refund the overage to RFC, together with interest thereon at the rate of four percent per annum calculated from the date of such overpayment to the date repayment is made to the RFC, or such overage plus interest may be deducted from any accrued or subsequent claim for any payment by RFC to the claimant.

(4) *Monthly payments.* Any payments made by RFC on account of any month or two-month claim shall be considered an advance payment on the claim for the quarterly period including such months, and shall be subject to recovery or set-off in the event the amount found payable on the quarterly claim is less than the amount of such advance payment.

(5) *Combined production.* Payments made by RFC on account of a first quarter claim for premium A shall be deducted from any claim subsequently filed which is based on combined production.

(6) *Invalidation of claims.* The Expediter shall have the right at any time to declare invalid any claim of a company, and such company shall upon demand refund to RFC any payment on such claim, if the Expediter finds that during the period this section is effective the company:

(i) Has failed to comply with any of the requirements of this section.

(ii) Has failed to comply with directives, orders or regulations of CPA or OHE on hardwood flooring.

(iii) Has failed to maintain production of lumber of all species from its own sawmill operations at a level which obtained during the corresponding quarter of the previous year.

(iv) Has, at the end of any month, an inventory of northern usable lumber which exceeds a sixty-day supply.

(v) Has, at the end of any month, an inventory of residential flooring which is more than the residential flooring production during that month.

(vi) Has purchased northern hardwood flooring lumber which is invoiced on specified or special widths and/or lengths, or which is sold on condition that the company sell or deliver flooring or any other finished product to the supplier or his appointee.

(i) *Records.* Every company shall prepare and preserve for inspection, for a period of not less than two years after the date of termination of this section, all books, records, and other documents which furnish information in support of its application for quota and claims for payment. The Expediter, or his designated agents shall have the right at any time to make such examinations and audits of the books, records, and other documents as may be necessary to verify the representations in the company's application for quota and claims for payment, or as may be required by the Expediter.

(j) *Reports.* Producers must furnish such reports as may be required by the Expediter from time to time, subject to approval by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Official interpretations.* Official interpretations of this section may be given only in writing by the General Counsel of OHE, or his duly authorized representative. A request for an official interpretation must be filed in writing directly with the Expediter or the General Counsel.

(l) *Special orders.* A company located outside of both the southern and northern areas (southern area is defined in § 805.6 (Housing Expediter Premium Payments Regulation No. 6), which uses northern hardwood flooring lumber, may, by letter to the Expediter, Washington, D. C., request that it be included in this section. If the Expediter finds that such inclusion will have the effect of increasing the production of hardwood flooring and is consistent with the Veterans' Emergency Housing Act of 1946, he will issue a special order under this paragraph establishing quotas, and fixing the rate and amount of premiums which will be payable.

(m) *Termination.* This section shall terminate on December 31, 1946: *Provided, however,* That:

(1) Termination shall not preclude the filing of claims for payment accrued on or before the date of termination. These claims shall be dealt with in accordance with the provisions of this section as amended in the same manner as if this section had not been terminated.

(2) The provisions of paragraph (d) (6) shall remain in full force and effect as if this section had not been terminated.

Appendix A: Description of northern area. Northern area means the following hardwood areas:

(a) *Northern hardwood area.* This includes the states of Michigan, Minnesota and Wisconsin.

(b) *Northeastern hardwood area.* This includes the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, all of the state of Maryland except the counties of Garrett, Allegany, Washington and Frederick, and the Dominion of Canada east of the 85th meridian.

Effective date. This section as amended shall become effective as of December 31, 1946.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of Budget, in accordance with the Federal Reports Act of 1942.

(Pub. Law 388, 79th Cong.)

Issued this 3d day of February 1947.

Housing Expediter.

INTERPRETATION 1

PAYMENT OF PREMIUM A ON NORTHERN HARDWOOD FLOORING LUMBER IN COMPANY'S INVENTORY ON AUGUST 1, 1946

(1) No premium A is payable on usable or green lumber which was produced by an independent supplier and was delivered to the company before August 1, 1946. Paragraph (d) (2) (ii) limits premium A to lumber that was delivered to the company during a claim period and on which the specified bonus was paid.

(2) No premium A is payable on usable lumber produced by a company-owned sawmill and received at the company's plant (or plants) before August 1, 1946. The provision of paragraph (d) (2) (ii), that a company which produces its own northern usable lumber shall be considered to have paid the prescribed bonus on such lumber, applies only to northern usable lumber received at the company's plant (or plants) during a claim period.

(3) On green lumber produced by a company-owned sawmill and received, for use in the production of hardwood flooring, at the company's plant (or plants) either before or after August 1, 1946, premium A is payable when such lumber becomes usable after August 1, 1946. (Issued August 26, 1946.)

INTERPRETATION 2

MEANING OF CLAUSE "IF A COMPANY PRODUCES ITS OWN NORTHERN USABLE LUMBER"

If a company furnishes its own logs to an independent sawmill pursuant to a contract under which the sawmill agrees to supply to the company all the hardwood flooring lumber produced from such logs, the company is the producer of this lumber, within the meaning of sub-paragraph (d) (2) (ii). (Issued August 26, 1946.)

INTERPRETATION 3

PAYMENT OF PREMIUM A ON NORTHERN HARDWOOD FLOORING LUMBER WHICH IS DESTROYED BY FIRE AFTER COMPANY HAS PAID BONUS THEREON; ADJUSTMENT OF QUOTA

Paragraph (d) (5) provides that, except for usual waste, all northern hardwood flooring lumber on which premium A is payable must be used in the production of resi-

dential flooring, unless otherwise authorized by the Expediter. Paragraph (h) (6) (i) gives the Expediter the right to invalidate a company's claim if it has failed to comply with any of the requirements of the regulation.

Since lumber destroyed by fire could not have been used in the production of residential flooring, there would be, as to this lumber, a failure to comply with the requirement of paragraph (d) (5). Therefore, no premium A could legally be payable with respect to such lumber, and if the fire were to occur after premium A had been paid thereon, such payment would be subject to recovery or set-off.

Destruction of lumber by fire is not a circumstance for which the Expediter will grant an exception from the requirement of paragraph (d) (5) that all lumber on which premium A is payable must be used in the production of residential flooring.

Although no premium A is payable with respect to lumber destroyed by fire, if such destruction by fire causes an interruption of production during any claim period this would constitute an interruption "due to unusual circumstances beyond the control of the company", on the basis of which an appropriate adjustment of the quota may be made for such claim period under paragraph (b) (2) of the regulation. (Issued September 21, 1946.)

INTERPRETATION 4

SIGNATURE REQUIRED ON SUPPLIER'S CERTIFICATION THAT LUMBER HAS BEEN ON STICKS OR END RACKED FOR SPECIFIED PERIOD

Supplier's certification on face of invoice, that lumber has been on sticks or end racked for specified period, must either bear his signature or that of another duly authorized person. Signature need not be manual, but may be in the form of a rubber stamp or facsimile reproduction of a handwritten signature. Typewritten signature, however, may not be used.

This interpretation shall become effective as of October 1, 1946. (Issued September 30, 1946.)

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1081]

S. E. PANCOAST AND AL BAKER

S. E. Pancoast, resides on Summit Avenue, Broomall, Delaware County, Pennsylvania, and is the owner of premises on the north side of West Chester Pike, east of Sproul Road, Broomall, Delaware County, Pennsylvania. Al Baker, a contractor and builder, resides in Broomall, Delaware County, Pennsylvania. On or about July 25, 1946, S. E. Pancoast and Al Baker began the construction of a commercial building to be used as a food market, on the north side of West Chester Pike, east of Sproul Road, Broomall, Delaware County, Pennsylvania, at an estimated cost of $15,000, without authorization of the Civilian Production Administration. The beginning and carrying on of this construction, at a cost in excess of $1,000, without authorization of the Civilian Production Administration constitutes a wilful violation by Al Baker, and a grossly negligent violation on the part of S. E. Pancoast, of Veterans' Housing Program Order No. 1 of the Civilian Production Administration. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1081 *Suspension Order No. S-1081.* (a) Neither S. E. Pancoast or Al Baker, their successors or assigns, nor any other person, shall do any further construction on the premises of S. E. Pancoast, located on the north side of West Chester Pike, east of Sproul Road, Broomall, Delaware County, Pennsylvania, including completing, putting up, or altering any structure located thereon, unless hereafter specifically authorized in writing by the Civilian Production Administration, or any other duly authorized Governmental agency.

(b) S. E. Pancoast and Al Baker shall refer to this order in any application or appeal which they may file with the Civilian Production Administration, or any other duly authorized Governmental agency, for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve S. E. Pancoast or Al Baker, their successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 3d day of February 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1083]

ALBERT H. BIEN AND RUSSELL BYERLEY

Albert H. Bien, 2 Meredith Road, Philadelphia, Pennsylvania, the owner of the premises at 915 Montgomery Avenue, Narberth, Pennsylvania, and Russell Byerley, 109 Main Street, Phoenixville, Pennsylvania, a general contractor, on or about December 12, 1946, began the construction of a two-story commercial building at 915 Montgomery Avenue, Narberth, Pennsylvania, at an estimated cost of $10,000 without authorization from the Civilian Production Administration. The beginning and carrying on of this construction subsequent to March 26, 1946, constituted a wilful violation on the part of Russell Byerley, and a grossly negligent violation by Albert H. Bien of Veterans' Housing Program Order 1. This violation has diverted critical material to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1083 *Suspension order No. S-1083.* (a) Neither Albert H. Bien or Russell Byerley, their successors or assigns, nor any other person shall do any further construction on the premises located at 915 Montgomery Avenue, Narberth, Pennsylvania, including completing, putting up or altering of any structure located thereon unless hereafter specifically authorized in writing by the Civilian Production Administration or other duly authorized Governmental agency.

(b) Albert H. Bien and Russell Byerley shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Albert H. Bien or Russell Byerley, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions herein.

[Directive 148]

PART 4003—SUPPORT PRICES; SUBSIDIES

CUBAN AND PUERTO RICAN SUGAR, 1947 CROP

§ 4003.10b *Cuban and Puerto Rican direct-consumption sugar, 1947 crop.* The Secretary of Agriculture has recommended the continuation for 1947-crop sugar of the reimbursement program for importers of Cuban and Puerto Rican direct-consumption sugar. Under the existing program, Commodity Credit Corporation reimburses importers of 1946-crop sugar, subject to certain restrictions, for lighterage and demurrage in the United States, wharfage and handling, storage, and excess raw material costs, if required, thus making possible the importation and distribution of such direct-consumption sugar under United States ceiling prices. The program proposed for the 1947-crop contains no change except that reimbursement will not be made for costs of moving sugar from the port of entry to the point of destination.

After consideration of the recommendation of the Secretary of Agriculture, I hereby find that the proposed program is necessary to effectuate the policy established by Executive Orders 9250 and 9328, and to insure price stability and the maximum necessary distribution of sugar to meet military and civilian requirements. Accordingly, the Department of Agriculture is hereby authorized and directed to carry out through the Commodity Credit Corporation the program as described in this section (and further detailed in the Secretary of Agriculture's letter of January 24, 1947).[1]

BUREAU OF LAND MANAGEMENT AND GEOLOGICAL SURVEY

1. Section 4.261 *Functions with respect to minerals in certain acquired lands* (11 F. R. 7776, 13697), as amended, is further amended by inserting after the section heading the designation "(a)", by deleting the last sentence in the first paragraph of the section relating to the right of appeal, and by adding at the end of the section the following:

(b) The leasing, where authorized by law, of minerals in acquired lands, under the jurisdiction of the bureaus and other agencies of the Department of the Interior, except Indian lands, will be handled by the Bureau of Land Management in accordance with the general policies established under the Mineral Leasing Act, as amended, and under regulations to be submitted for approval by the Secretary.

Except where the proposal originates in the bureau or agency having jurisdiction over the acquired lands, the Director, Bureau of Land Management, shall request the recommendation of the bureau or agency with respect to all proposals for leases made to such bureau or agency, including any stipulation which should be incorporated in a lease to prevent operations thereunder from interfering with the use for which the land was acquired. Any lease to be issued pursuant to this subsection and the regulations issued hereunder shall be prepared in the Bureau of Land Management. If there is any disagreement between any of the bureaus as to leasing any land or as to the terms or conditions of any proposed lease, the matter shall be submitted to the Secretary by the bureaus concerned.

Proceeds realized by the United States from such mineral leases will be deposited in the same funds as other funds from such acquired lands. This subsection shall apply to permits as well as to leases.

(c) Actions taken by the Director, Bureau of Land Management, shall be subject to the right of appeal to the Secretary according to the rules of practice (43 CFR, Part 221).

2. Section 4.622 *Functions with respect to minerals in certain acquired lands* (11 F. R. 14165) is amended by changing "§ 4.261" in the first paragraph to "§ 4.261 (a)" and by adding at the end of the first paragraph the following sentence: "The Geological Survey will also perform the same general functions and duties in connection with the disposal and development of the minerals covered by § 4.261 (b)."

Appendix—Public Land Orders

[Public Land Order 267]

FLORIDA

WITHDRAWING PUBLIC LAND FOR USE OF THE NAVY DEPARTMENT FOR AVIATION PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Subject to valid existing rights, the following-described public land is hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Navy Department for aviation purposes:

TALLAHASSEE MERIDIAN

T. 32 S., R. 40 E.,
Sec. 20, lot 1, the east ten acres, as shown on plat approved December 26, 1859.

This order shall take precedence over but not modify the withdrawal for classification and other purposes made by Executive Order No. 6964 of February 5, 1935, as amended, so far as such order affects the above-described land.

The jurisdiction granted by this order shall cease at the expiration of the six

[1] No. 2223 not filed with the Division of the Federal Register.

months' period following the termination of the unlimited national emergency declared by Proclamation No. 2487 of May 27, 1941 (55 Stat. 1647). Thereupon, jurisdiction over the land hereby reserved shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record. The land, however, shall remain withdrawn from appropriation as herein provided until otherwise ordered.

This order is confidential and shall not be filed in the Division of the Federal Register, or published in the FEDERAL REGISTER, or be given other publicity, until publication thereof has been expressly authorized by or at the direction of the Secretary of the Navy.[1]

ABE FORTAS,
Acting Secretary of the Interior.

Chapter I—Interstate Commerce Commission

[Rev. S. O. 620, Amdt. 1]

PART 95—CAR SERVICE

LIGHT-WEIGHING OF CARS AT ALL PORTS PROHIBITED

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 29th day of January A. D. 1947.

Upon further consideration of Revised Service Order No. 620 (12 F. R. 559), and good cause appearing therefor; it is ordered, that:

Section 95.620, *Light-weighing of cars at all ports prohibited*, of Revised Service Order No. 620, be, and it is hereby, amended by substituting the following paragraph (a) for paragraph (a) thereof:

(a) *Railroad cars not to be light-weighed.* Except as shown below, no common carrier by railroad subject to the Interstate Commerce Act, shall light-weigh a railroad car or cars intended for loading with imported commodities at any point in the port areas of any port on the Atlantic, Pacific of Gulf coasts; nor transport or move such railroad car light-weighed and loaded with imported commodities in violation of this order from any point in the areas of such ports.

Exception: The provisions of this order shall not apply to cars to be loaded with imported shipments of tropical fruits, including pineapples, bananas and cocoanuts.

It is further ordered, that this amendment shall become effective at 12:01 a. m., January 31, 1947; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

PART 95—CAR SERVICE

DEMURRAGE CHARGES AT MEXICAN BORDER POINTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 29th day of January, A. D. 1947.

Upon further consideration of the provisions of Service Order No. 135 (8 F. R. 9569), as amended (8 F. R. 10941; 11 F. R. 8451, 11077), and good cause appearing therefor; *It is ordered*, That:

Service Order No. 135, as amended, be, and it is hereby, further amended by substituting the following paragraph (e) for paragraph (e) of § 95.502 *Demurrage charges at Mexican border points.*

(e) This order, as amended, shall expire at 11:59 p. m., June 30, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, This amendment shall become effective at 12:01 a. m., February 5, 1947; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U. S. C. 1 (10)-(17))

PART 520—CONSERVATION OF RAIL EQUIPMENT; EXCEPTIONS, PERMITS, AND SPECIAL DIRECTIONS

SHIPMENTS OF BERMUDA OR SPANISH TYPE ONIONS

Pursuant to Title III of the Second War Powers Act, 1942, as amended, Executive Order 8989, as amended, Executive Order 9729, and General Order ODT 18A, Revised, as amended, it is hereby ordered, that:

§ 520.528 *Shipments of Bermuda or Spanish type onions.*[1] Notwithstanding the restrictions contained in § 500.72 of General Order ODT 18A, Revised, as amended (11 F. R. 8229, 8829, 10616, 13320, 14172), or the restrictions contained in Special Direction ODT 18A-2A, as amended (9 F. R. 118, 4247, 13008; 10 F. R. 2523, 3470, 14906; 11 F. R. 1358, 13793, 14114), any person may offer for transportation and any rail carrier may accept for transportation at point of origin, forward from point of origin, or load and forward from point of origin, any carload freight consisting of Bermuda or Spanish type onions when the origin point is in the States of California, Colorado, Idaho, Nevada, Oregon, Utah, or Washington, and the quantity of such freight loaded in each car is not less than 30,000 pounds.

This General Permit ODT 18A, Revised-28A, shall become effective February 1, 1947, and shall expire at 11:59 p. m. on June 30, 1947.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 9]

[Docket No. 8070]

AERONAUTICAL RADIOCOMMUNICATION SERVICE

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to make a general revision of the rules and regulations governing and aviation radio service. The proposed revision is set forth below.

3. These proposed rules are issued under the authority of sections 301, 303 (f) and 303 (r) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed rules should not be adopted in the form set forth may file with the Commission on or before February 21, 1947 a written statement or brief setting forth his position. The Commission will conduct an oral argument and hearing at its offices in Washington, D. C. on February 28, 1947 at which interested persons who have filed written statements or briefs may appear and submit any evidence or argument on the issues in question.

(Sec. 301, 48 Stat. 1081, sec. 303 (f), 48 Stat. 1082, sec. 303 (r), 50 Stat. 191, 47 U. S. C. 301, 303 (f) 303 (r))

Adopted: January 23, 1947.

DEFINITIONS

§ 9.1 *Aeronautical radiocommunication service.* A radiocommunication service is used for the safe, expeditious and economical operation of aircraft.

(a) *Aeronautical mobile radio service.* A radio service between aircraft radio stations and ground stations and between aircraft radio stations themselves.

(b) *Aeronautical fixed radiocommunication service.* A radiocommunication service for aeronautical purposes carried on between fixed points.

(c) *Aeronautical navigational radio service.* A radio service for aeronautical purposes involving the transmission of special radio signals intended solely to assist in the determination of aircraft position, including that relative to collision hazards.

(d) *Aeronautical public communication service.* A communication service carried on between aircraft and land radio stations for the purpose of providing a public communication service for persons aboard aircraft.

§ 9.2 *Aircraft radio station.* A radio station on board any aircraft including all radiocommunication devices aboard the aircraft without regard to their intended use.

(a) *Air carrier station.* An aircraft radio station aboard an aircraft engaged in transportation of passengers or cargo for hire.

(b) *Non-carrier station.* A radio station on board an aircraft other than air carrier.

§ 9.3 *Ground radio station.* Any radio station on the ground equipped or engaged in radio communications or radio transmission of energy.

(a) *Airdrome control radio station.* A radio station provided for control of ground and air traffic in the control area of an airport.

(b) *Aeronautical land station.* A land station in the aeronautical mobile service carrying on a service with aircraft stations, but which may also carry on a limited communication service with other aeronautical land stations.

(c) *Aeronautical fixed station.* A radio station used in the fixed service for

the handling of communications between fixed points relating solely to actual aviation needs.

(d) *Aeronautical mobile utility station.* A mobile radio station used for communications with control towers and aircraft on the ground and between ground vehicles at airports.

§ 9.4 *Aeronautical navigational radio station.* A radio station for aeronautical purposes involving the transmission of special radio signals intended solely to assist in the determination of aircraft position, including that relative to collision hazards.

(a) *Radio beacon station.* A special radio station, the emissions of which are intended to enable an aircraft to determine: (1) Its radio bearing or direction with reference to the radio beacon station, or (2) the distance which separates it from the latter, or (3) both of these.

(b) *Radio direction finding station.* A radio station equipped with special apparatus for obtaining radio bearing.

(c) *Radio range station.* A form of radio beacon the emissions of which provide definite track guidance.

(d) *Localizer station.* A directional radio beacon associated with an instrument landing system which provides guidance in the horizontal plane to an aircraft for purposes of approach in landing.

(e) *Glide path station.* A directional radio beacon associated with an instrument landing system which provides guidance in the vertical plane to an aircraft for purposes of approach and landing.

(f) *Marker station.* A radio station marking a definite location on the ground.

(g) *Ground control approach station.* A station used for the purpose of controlling from the ground the approach and landing of aircraft.

§ 9.5 *Flight test station.* A radio station, ground or aircraft, used for the transmission of essential communications in connection with the tests of aircraft or major components of aircraft.

§ 9.6 *Flying school station.* A radio station, ground or aircraft, used for communications pertaining to instruction to students or pilots while in flight.

§ 9.7 *Aeronautical public service station.* A radio station, ground or aircraft, licensed for the purpose of carrying on public communication service for hire.

APPLICATIONS AND LICENSES

§ 9.10 *Applications made on prescribed forms.* Applications for authorizations for stations in the aeronautical radiocommunications service shall be submitted on the prescribed forms which may be obtained from the Washington, D. C., office of the Commission, or from any of its field offices.

§ 9.11 *Place of filing.* Each application for authorization for stations in the aeronautical radiocommunications service shall be filed with the Federal Communications Commission, Washington 25, D. C.

§ 9.12 *Subscription and verification of applications.* One copy of each application for authorization for a station in the aeronautical radiocommunications service shall be personally subscribed and verified by the applicant or an authorized official of the applicant.

§ 9.13 *Contents of applications.* Each application shall be specific and complete with regard to frequency, power, equipment, location and other information required by the application form.

§ 9.14 *Application for carrier aircraft radio station license.* Application for new or modified carrier aircraft radio station license shall be submitted on FCC Form No. 404. Application for renewal of carrier aircraft radio station license shall be submitted on FCC Form No. 405. A blanket application may be submitted for a group of stations of the same class.

§ 9.15 *Application for non-carrier aircraft radio station license.* (a) All applications for non-carrier aircraft radio stations, new, modified or renewal, which specify only those frequencies which are regularly available for this type of service shall be submitted on FCC Form No. 404-A. All others shall be submitted on FCC Form No. 404. A blanket application may be submitted for a group of stations of the same class.

(b) *Temporary station license.* The purchasers of new aircraft with factory installed radio equipment may operate the radio station on their aircraft for a period of 30 days under Special Temporary Authority evidenced by a copy of a Certificate (FCC Form No. 453-B) executed by the manufacturer, dealer or distributor, the original of which has been mailed to the Commission with the formal application for station license.

§ 9.16 *Transfer and assignment of aircraft.* Upon the sale, assignment or transfer of any aircraft, a new application for license shall be submitted in accordance with § 9.14 or 9.15.

§ 9.17 *Application for ground station authorization.* Ground station authorization may be obtained as follows:

(a) An application for construction permit for each ground station shall be submitted on FCC Form No. 401 in duplicate. If the antenna structure of the proposed station is over 150 feet in height, or within 3 miles of a Civil Aeronautics Administration landing area, FCC Form No. 401a must be submitted in quadruplicate. Application for construction permit for portable or mobile units may be combined with an application for construction permit for a ground station of the same class on FCC Form No. 401. An application on FCC Form No. 401 in duplicate may be submitted for construction permit for any number of mobile units of the same class of station.

(b) Application for station license: Upon completion of construction or installation of a station in exact accordance with the terms and conditions set forth in the construction permit, an application for license may be filed on FCC Form No. 403.

(c) Upon request of the applicant, and where it appears to the Commission that there will be no deviation from the terms of the construction permit, both construction permit and license may be granted simultaneously. Should this procedure be requested it will be necessary for the applicant to file on FCC Form No. _____.

(d) Application for renewal of ground station license shall be made on FCC Form No. 405.

(e) Application for transfer or assignment of a ground station construction permit or license shall be filed on FCC Form No. 702.

§ 9.18 *Application for special temporary authorization.* Special temporary authority may be granted for the operation of a station for a limited time, or in a manner and to an extent or for service other or beyond that authorized in an existing license upon proper application therefor. No such request will be considered unless full particulars as to the purpose for which the request is made are stated and unless the request is received by the Commission at least 10 days previous to the date of proposed operation. A request received within less than 10 days may be accepted upon due showing of sufficient reasons for the delay in submitting such request.

§ 9.19 *Installation, replacement or removal of transmitting apparatus.* A change in the equipment of a licensed station or a replacement of such equipment may be made without specific authorization from the Commission provided the change or replacement does not result in reduced standards of operation for the station involved and a description of the change is incorporated in the next application for renewal or modification of license.

§ 9.20 *Changes in antenna.* (a) Except as provided in paragraph (b) of this section, changes may be made in the antenna, or the antenna supporting structure of any station in the aeronautical radiocommunications service without specific authorization from the Commission: *Provided*, That (1) the Commission at Washington, D. C., and the Engineer-in-Charge of the inspection district in which the station is located are notified of these changes; and (2) a description of these changes is incorporated in the next application for renewal or modification of the station license.

(b) No changes in the antenna or antenna structure may be made without specific authorization from the Commission if (1) such changes will make the antenna higher than 150 feet; (2) the antenna is within three miles of a Civil Aeronautics Administration landing area; or (3) the antenna or antenna structure is presently required to be painted or lighted in accordance with FCC or CAA specifications.

(c) Request for the changes outlined in paragraph (b) of this section should be accompanied by FCC Form 401a in quadruplicate.

§ 9.21 *Amendments and dismissals.* Any application, prior to the time it is granted or designated for hearing, may be amended by the applicant or dismissed without prejudice upon request of the applicant.

§ 9.22 *Form of amendments.* Any amendments to an application shall be subscribed, verified, and submitted in the same manner and with the same number of copies as required for the original application.

§ 9.23 *Amendments ordered.* The Commission may at any time order the applicant to amend an application so as to make it more definite and complete.

§ 9.24 *Defective applications.* (a) Applications which are defective with respect to completeness of answers to required questions, execution or other matters of a purely formal character will not be received for filing by the Commission, unless the Commission shall otherwise direct, and will be returned to the applicant with a brief statement as to the omissions.

(b) If the applicant is requested by the Commission to file any documents or information not included in the prescribed application form, a failure to comply with such request will constitute a defect in the application.

(c) Applications which are not in accordance with the Commission's rules, regulations or other requirements will be considered defective unless accompanied either (1) by a petition to amend any rule or regulation with which the application is in conflict, or (2) by a request of the applicant for waiver of, or an exception to, any rule, regulation or requirement with which the application is in conflict. Such request shall show the nature of the waiver or exception desired and set forth the reasons in support thereof.

(d) Applications found to be complete will be accepted for filing and will be given a file number.

§ 9.25 *Partial grants.* Where any application is granted in part, or with any privileges, terms, or conditions other than those requested, without a hearing thereon, such action of the Commission shall be considered acceptable and final unless the applicant shall, within 20 days from the date on which public announcement of such grant is made, or from its effective date whichever is later, file with the Commission a written request for a hearing with respect to the part, privileges, terms or conditions, not granted. Upon receipt of such request, the Commission may vacate its original action upon the application and designate the application for hearing.

§ 9.26 *License period.* The normal license periods for all stations in the aeronautical radiocommunications service, unless otherwise stated in the instrument of authorization, shall be as follows:

(a) For stations in the aeronautical radiocommunications service other than non-carrier aircraft stations, a license period of 5 years.

(b) For non-carrier aircraft stations in the aeronautical radiocommunications service, a license period of 2 years, expiring on the first day of the following month 2 years after the license is issued.

§ 9.27 *Renewal of license.* Unless otherwise directed by the Commission, each application for renewal of license shall be filed at least 60 days prior to the expiration date of the license sought to be renewed.

§ 9.28 *Posting station licenses.* The station licenses of stations in the aeronautical radiocommunications service shall be conspicuously posted at the place where the transmitter is located except that, in aircraft stations and mobile stations, the license may be posted or kept at any convenient easily accessible location in the aircraft or vehicle.

§ 9.29 *Discontinuance of operation.* The Commission and Engineer-in-Charge of the district in which the station is located shall be notified upon the permanent discontinuance of licensed service by any station in the aeronautical radiocommunications service except aircraft.

OPERATOR RULES

§ 9.40 *Who may operate station.* (a) Aircraft stations using manual radiotelegraphy shall be operated by a person holding a radiotelegraph operator license or permit issued by the Commission.

(b) Aircraft stations using radiotelephony shall be operated by a licensed operator holding any class of commercial radio operator license or an aircraft radiotelephone authorization.

(c) Ground stations in the aeronautical radiocommunications service shall be operated by anyone deemed capable by the licensee. However, the entire operation of a station shall be the responsibility of the licensee of said station.

§ 9.41 *Who may adjust and maintain stations.* (a) The maintenance and adjustments of ground stations shall be the responsibility of the chief engineer of such stations. The licensee shall employ as chief engineer the holder of a second or higher class of operators license. All adjustments of the transmitter which may affect the proper operation of the station shall be made by or in the presence of the holder of a second or higher class of operators license.

(b) The maintenance and adjustments of aircraft stations shall be made by or in the presence of the holder of a second or higher class of operators license, who shall be responsible for the proper maintenance and adjustments of said station.

§ 9.42 *Obtaining operator licenses.* (a) An aircraft radiotelephone operator authorization may be obtained at any of the Commission's field offices or from other persons designated by the Commission at many airfields.

(b) Examinations for commercial radio operator licenses are conducted at Washington, D. C., each week day except Saturday and at each radio district office of the Commission on the days designated by the Engineer-in-Charge of the office.

§ 9.43 *Posting operator licenses.* The original license, or a license verification card (FCC Form 758F), of each station operator shall be conspicuously posted at the place he is on duty, or, in the case of aircraft stations or mobile units, either the license or verification card must be kept in his personal possession.

TESTS

§ 9.50 *Equipment and service tests authorized for stations in the aeronautical radiocommunications service.* Equipment and service tests other than aircraft as authorized below may be conducted: *Provided*, That the necessary precautions are taken to avoid interference.

(a) *Equipment test.* Upon completion of construction of a radio station in exact accordance with the terms of the construction permit, the technical provisions of the application therefor and the rules and regulations governing the class of station concerned and prior to filing of application for license, the permittee is authorized to test the equipment for a period not to exceed 30 days: *Provided*, That the Engineer-in-Charge of the district in which the station is located is notified 2 days in advance of the beginning of tests and the permittee is not notified by the Commission to cancel, suspend, or change the date of beginning for the period of such tests.

(b) *Service test.* When construction and equipment tests are completed in exact accordance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations governing the class of station concerned, and after an application for station license has been filed with the Commission showing the transmitter to be in satisfactory operating condition, the permittee is authorized to conduct service tests in exact accordance with the terms of the construction permit until final action is taken on the application for license: *Provided*, That the Engineer-in-Charge of the district in which the station is located is notified 2 days in advance of the beginning of such tests and the permittee is not notified by the Commission to cancel or suspend such tests or change the date for the period of such tests.

Service tests will not be authorized after the expiration date of the construction permit.

§ 9.51 *Routine tests.* The licensees of all classes of stations in the aeronautical radiocommunications service are authorized to make such routine tests as may be required for the proper maintenance of the station: *Provided*, That precautions are taken to avoid interference with any station.

LOGS

§ 9.60 *Information required in station logs.* (a) All stations in the aeronautical radiocommunications service except aircraft stations must keep an adequate log showing:

(1) Hours of operation.
(2) Frequencies used.
(3) Stations with which communication was held.
(4) Signature of operator(s) on duty.
(5) Results of transmitter frequency measurements.

(b) Where an antenna or antenna supporting structure(s) is required to be illuminated, the licensee shall make entries in the radio station log as follows:

(1) The time the required lights are turned on and off if manually controlled.

(2) The time the daily check of proper operation of the required lights was made either by visual observation of the required lights or by observation of the automatic indicator.

(3) In the event of any observed failure of a required light:

(i) Nature of such failure.

(ii) Time the failure was observed.

(iii) Time and nature of the adjustments, repairs or replacements made.

(iv) Airways Communication Station (CAA) notified of the failure of any code or rotating beacon light not corrected within thirty minutes and the time such notice was given.

(v) Time notice was given the Airways Communication Station (CAA) that the required illumination was resumed.

(4) Upon completion of the periodic inspection required at least once each three months:

(i) The date of the inspection and the condition of all required lights and associated tower lighting control devices together with the measured voltage at the base of the supporting structure and the computed voltage at each lamp socket.

(ii) Any adjustments, replacements or repairs made to insure compliance with the lighting requirements.

§ 9.61 *Station records aeronautical public service.* In addition to all the requirements in § 9.60 all stations in the aeronautical public service must keep a file of all record communications handled and a list of radiotelephone contacts established as provided by Part 42 of this chapter.

§ 9.62 *Required retention period.* The logs in the aeronautical radiocommunications service may be destroyed after a period of 30 days except:

(a) That logs involving communications incident to a disaster or which include communications incident to, or involved in, an investigation by the Commission and concerning which the licensee has knowledge, shall be retained by the licensee until specifically authorized in writing by the Commission to destroy them.

(b) That logs incident to or involved in any claim or complaint of which the licensee has knowledge shall be retained by the licensee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

§ 9.63 *Logs, by whom kept.* An entry or entries in the log of each station shall be signed or initialed by the person or persons having actual knowledge of the facts required to be recorded.

§ 9.64 *Log form.* The records shall be kept in an orderly manner, in suitable form, and in such detail that the data required are readily available. Key letters or abbreviations may be used if proper meaning or explanation is set forth in the log or in a communication manual available at the station.

§ 9.65 *Correction of log.* No log or portion thereof shall be erased, obliterated, or wilfully destroyed within the required retention period. Any necessary correction may be made only by the person originating the entry who shall indicate the erroneous portion, initial the correction made, and indicate the date of correction.

TECHNICAL SPECIFICATIONS

§ 9.70 *Installation and operation of transmitting equipment.* The transmitter shall be so installed and protected that it is not accessible to other than duly authorized persons. The radiations of the transmitter shall be suspended immediately when there is a deviation from the terms of the station license.

§ 9.71 *Frequency stability.* The carrier frequency of stations in the aviation radio service shall be maintained within the following percentage of the assigned frequency:

(a)

	Before Jan. 1, 1950	After Jan. 1, 1950
	Percent	*Percent*
All aircraft stations	0.02	0.01
All stations on frequencies below 500 kc	.02	.02
All ground stations on frequencies above 500 kc	.01	.01

(b) Automatic control of the emitted frequency such as direct crystal control of the oscillator stage, is required.

§ 9.72 *Frequency measurements.* The licensee of each ground station in the aeronautical radiocommunication service shall employ a suitable procedure to determine that the carrier frequency of each transmitter is maintained within the prescribed tolerance.

The assigned frequencies of all stations in the aeronautical radiocommunication service must be measured (a) when the transmitter is initially installed, (b) at any time the frequency determining elements are changed, and (c) at any time the licensee may have reason to believe the frequency has shifted beyond the tolerance specified by the Commission's rules.

The results of frequency measurements and the signature of the person making the measurements shall be filed with the station records.

§ 9.73 *Power.* The power which may be authorized to a station in the aeronautical radiocommunications service shall be no more than the minimum required for satisfactory technical operation.

§ 9.74 *Types of emission.* Stations in the aeronautical radiocommunications service may be authorized to use type A1, A2, A3 and special emission, as may be appropriate. Special emission includes all types not provided for by existing international regulations such as all types of FM, pulse transmission and frequency shift printer.

§ 9.75 *Modulation and band width.* The carrier shall be modulated to a sufficiently high degree to provide effective communication, but in no case shall modulation result in emission of energy outside the authorized communication band.

§ 9.76 *Inspection of tower lights and associated control equipment.* The licensee of any station in the aeronautical radiocommunications service which has an antenna or antenna supporting structure required to be illuminated pursuant to the provisions of section 303 (q) of the Communications Act of 1934, as amended:

(a) Shall make a daily check of the tower lights either by visual observation of the tower lights or by observation of an automatic indicator of proper or improper operation to insure that all such lights are functioning properly as required.

(b) Shall report immediately by telephone or telegraph to the nearest Airways Communication Station or office of the Civil Aeronautics Administration any observed failure of a code or rotating beacon light not corrected within thirty minutes, regardless of the cause of such failure. Further notification by telephone or telegraph shall be given immediately upon resumption of the required illumination.

(c) Shall inspect at intervals of at least once each three months all code or rotating beacon and automatic lighting control devices to insure that such apparatus is functioning properly as required.

MISCELLANEOUS

§ 9.80 *Station identification*—(a) *Telephony.* (1) Air carriers: In lieu of radio station call letters, the official aircraft registration number, or company flight (trip) number may be used, provided, adequate records are maintained by the carrier to permit ready identification of individual aircraft.

(2) Non-carrier aircraft: In lieu of radio station call letters, only the official aircraft registration number may be used.

(3) When use is made of the aircraft registration number, the full number must be given upon initial call and termination of each continuous series of communications. In other communications in each series, the last three (3) numbers may be used, provided, the practice is first inaugurated by the ground station operator.

(4) A ground station in the aviation service may use in lieu of the assigned radio call letters the name of the city or airport in which it is located.

(b) *Telegraphy.* In radio telegraphy the complete radio station call letters shall be used at the beginning and termination of each contact. After communication has been established, continuous two-way communication may be conducted without further identification or call-up (if no mistake in identity is liable to occur) until the termination of the contact.

(c) *Operation outside of the United States.* In accordance with Article 14, General Radio Regulations (Revision of Cairo 1938) annexed to the International Telecommunications Convention, Madrid, 1932, assigned radio station call letters must be used outside of the United States except where special arrangements have been negotiated between the United States and another country such as the regional agreements reached under the auspices of the Provisional International Civil Aviation Organization.

§ 9.81 *Availability for inspections.* All classes of stations in the aeronautical radiocommunications service and the maintenance records of said stations shall be made available for inspection upon request of an authorized representative of the Commission made to the licensee or to his representative.

§ 9.82 *Permissible communications.* All stations in the aeronautical radiocommunications service, except those stations licensed for public aviation service, shall transmit only communications relating to and necessary for aircraft operation and the protection of life and property in the air.

§ 9.83 *Answers to notices of violations.* Any licensee receiving official notice of a violation of the terms of the Communications Act of 1934, as amended, any legislative act, Executive order, treaty to which the United States is a party, or the rules and regulations of the Federal Communications Commission, shall, within three days from such receipt, send a written answer to the Federal Communications Commission at Washington, D. C., and a copy thereof to the office of the Commission originating the official notice when the originating office is other than the office of the Commission at Washington, D. C. If an answer cannot be sent, or an acknowledgment made within such three-day period by reason of illness or other unavoidable circumstances, acknowledgment and answer shall be made at the earliest practicable date with a satisfactory explanation of the delay. The answer to each notice shall be complete in itself and shall not be abbreviated by reference to other communications or answers to other notices.

If the notice relates to some violation that may be due to the physical or electrical characteristics of transmitting apparatus, the answer shall state fully what steps, if any, are taken to prevent future violations, and if any new apparatus is to be installed, the date such apparatus was ordered, the name of the manufacturer, and promised date of delivery. If the installation of such apparatus requires a construction permit, the file number of the application shall be given, or if a file number has not been assigned by the Commission, such identification as will permit ready reference.

If the notice of violation relates to some lack of maintenance resulting in improper operation of the transmitter, the name and license number of the operator in charge of maintenance shall be given.

If the notice of violation relates to some lack of attention to or improper operation of the transmitter by other employees, the reply shall set forth the steps taken to prevent a recurrence of such lack of attention or improper operation.

§ 9.84 *Movement of portable or mobile stations from one inspection district to another.* When portable or mobile stations in the aeronautical radiocommunications service are moved from one radio inspection district to another, for regular operation therein, the licensee shall notify the Commission's Engineers-in-Charge of the respective districts. These Engineers-in-Charge shall be notified prior to the move, if practicable, but in any event not later than forty-eight hours thereafter.

§ 9.90 *Communications.* Communications by an aircraft station except those licensed in the aeronautical public service shall be limited to the necessities of safe aircraft navigation. Normally contacts with airport control stations shall not be attempted unless the aircraft is within the control area of the airport.

§ 9.91 *Frequencies available.* The following frequencies are available to all aircraft stations:

(a) 375 kilocycles: International direction-finding frequency for use outside the continental United States.

(b) 457 kilocycles: Working frequency exclusively for aircraft on sea flights desiring an intermediate frequency.

(c) 500 kilocycles: International calling and distress frequency for ships and aircraft over the seas.[1]

(d) 6210 kilocycles: International aircraft calling and working frequency.

(e) 8280 kilocycles: Calling and distress frequency for use by ships and aircraft over the seas in addition to 500 kilocycles or in lieu thereof where 500 kilocycles is not available.[1]

(f) 121.7 and 121.9 megacycles: Airport utility frequency.

(g) 121.5 megacycles: This frequency is a universal simplex channel for emergency and distress communications. It will provide a means of calling and working between the various services in connection with search and rescue operations, an emergency means for direction-finding purposes and a means for establishing air to ground contact with lost aircraft. This frequency will not be assigned to aircraft unless there are also assigned and available for use other frequencies to accommodate the normal communication needs of the aircraft.

(h) These frequencies are available for approach control use:

123.7 Mc	124.3 Mc	124.9 Mc	125.5 Mc
123.9 Mc	124.5 Mc	125.1 Mc	
124.1 Mc	124.7 Mc	125.3 Mc	

(i) *Miscellaneous maritime frequencies.* Calling and working frequencies of ship stations may also be assigned to aircraft stations for the purpose of communicating with coastal stations, or ship stations, when aircraft are in flight over the seas; available for A1, A2 and A3 emission in conformity with Part 8, Rules Governing Ship Service, provided the Commission is satisfied in each case that undue interference will not be caused to the service of ship or coastal stations.

(j) Other frequencies which may be required for overseas and foreign operation may also be made available upon the showing that a need exists therefor.

§ 9.95 *Lighter-than-air craft frequencies.* The following additional frequencies may be assigned to lighter-than-air craft and to aeronautical stations serving lighter-than-air craft: 2930 kc, 6615 kc, 1191 kc.

AIR CARRIER STATION

§ 9.100 *Frequencies available.* The following frequencies, in addition to those listed in § 9.91 are available to air carrier aircraft stations.

(a) 3117.5 kilocycles: National calling and working frequency for air carrier aircraft.

(b) These frequencies are available for communication to airdrome control stations:

125.7 Mc	126.1 Mc	126.5 Mc
125.9 Mc	126.3 Mc	

(c) 126.7 megacycles: Air carrier aircraft to airway stations.

(d) The aeronautical frequencies listed under § 9.131 are also available to air carrier aircraft.

(e) 3105 kilocycles: Available to air carrier aircraft only on off route operations where other facilities are not available.

NOTE: The date for full implementation of the VHF program is July 1, 1950. Until duplex equipment is available, the VHF airport traffic control frequencies are also available to air carrier aircraft for simplex operation.

NON-AIR CARRIER STATION

§ 9.110 *Frequencies available.* The following frequencies, in addition to those listed in § 9.91, are available to non-air carrier stations:

(a) 3105 kilocycles: National aircraft calling and working frequency for use by non-air carrier aircraft.

(b) 122.1 and 122.3 megacycles: Non-air carrier aircraft to airway stations.

(c) 122.5, 122.7 and 122.9 megacycles: Non-air carrier aircraft to airdrome control station.

(d) The aeronautical frequencies listed under § 9.131 are also available to non-air carrier aircraft upon showing that a need exists and that agreements have been made with appropriate ground stations.

AIRDROME CONTROL STATION

§ 9.120 *Frequencies available.* The following frequencies are available to airdrome control stations:

(a)

118.1 Mc	119.3 Mc	120.5 Mc
118.3 Mc	119.5 Mc	120.7 Mc
118.5 Mc	119.7 Mc	120.9 Mc
118.7 Mc	119.9 Mc	121.1 Mc
118.9 Mc	120.1 Mc	121.3 Mc
119.1 Mc	120.3 Mc	

(b) *278 kilocycles.* This frequency is available for assignment in lieu of a very high frequency. Its use must be supplemented by a service on one of the very high frequencies: *Provided, however,*

[1] Transmission on these frequencies with the exception of urgent and safety messages and signals must cease twice each hour, for 3 minutes beginning at x:15 and x:45 o'clock, GCT.

That until July 1, 1947, upon application therefor the Commission may exempt any station from the very high frequency service requirement when it appears that in the preservation of life and property in the air such service is not required at that station. All outstanding exemptions are terminated July 1, 1947.

(c) *121.7 and 121.9 megacycles.* These utility frequencies are available to airdrome control stations for communications with ground vehicles and aircraft on the ground at airports. The antenna height shall be restricted to the minimum to achieve the required service.

(d) *121.5 megacycles.* This frequency is a universal simplex channel for emergency and distress communications. Transmitting and receiving equipment shall be provided by July 1, 1948.

§ 9.121 *Service to be rendered.* Communications of an airdrome control station shall be limited to the necessities of safe operation of aircraft using the airport facilities or operating within the airport control area and in all cases such stations shall be in a position to render, and shall render, all airdrome control service.

The licensee of an airdrome control station shall without discrimination provide nonpublic service for any and all aircraft. Such licensee shall maintain a continuous listening watch on the aircraft calling and working frequencies 3105 kilocycles; after July 1, 1947, on 122.5, 122.7 or 122.9 megacycles (initially watch on 122.5 only) and, after July 1, 1948, on the emergency frequency 121.5 megacycles.

§ 9.122 *Hours of operation.* The licensee shall also be prepared to render a nonpublic communication service 24 hours a day: *Provided, however,* That upon application therefor the Commission may exempt any station from the requirements of this provision when it appears that in the preservation of life and property in the air the maintenance of a continuous watch by such station is not required.

§ 9.123 *Airport facilities.* Only one airdrome control station will be licensed to operate at an airport.

§ 9.124 *Interference.* The operation of airdrome control stations in adjacent airport areas shall be on a noninterference basis only. In case of disagreement between adjacent areas, the Commission will specify the arrangements necessary to eliminate interference.

§ 9.125 *Power.* (a) Airdrome control stations using frequencies below 400 kilocycles will not be licensed to use more than 15 watts power for type A3 emission.

(b) The power of airdrome control stations operating on other frequencies shall be 50 watts.

NOTE: In filing an application for airdrome control radio station, the applicant shall leave blank section 16 (1) of Form 401; then, the Commission, upon proper coordination with the government agencies concerned, will determine the proper frequency for the use specified.

AERONAUTICAL LAND STATION

§ 9.130 *Service authorized.* Aeronautical land stations shall provide service of the particular class authorized without discrimination to all carrier aircraft the owners of which make cooperative arrangements for the operation and maintenance of the aeronautical stations which are to furnish such service and for shared liability in the operation of stations. In addition, this class of station shall provide reasonable and fair service to non-carrier aircraft in accordance with the provisions of the regulations in this part.

NOTE: The requirements of this section are waived with respect to all aeronautical stations of the Civil Air Patrol.

§ 9.131 *Frequencies available; 121.5 megacycles.* This frequency is a universal simplex channel for emergency and distress communications. It will provide a means of calling and working between the various services in connection with search and rescue operations, an emergency means for direction finding purposes and a means for establishing air to ground contact with lost aircraft.

(a) *Domestic service.* The frequencies allocated to the several chains are as follows:

NOTE: Although chain systems are primarily domestic, operations may extend into neighboring countries. Chain systems will be established as indicated upon a map to be maintained by the Commission.

(1) *Red chain and feeders.* Available for aircraft and aeronautical stations:

3147.5	3372.5	5572.5	5697.5
3162.5	3467.5	5582.5	[2] 5825
3172.5	5122.5	5592.5	[2] 8240
3182.5	5162.5	5662.5	12330
3322.5	5172.5		

(2) *Blue chain and feeders.* Available for aeronautical and aircraft stations:

2906	[3] 4110	4952.5	[2] 6510
[3] 3062.5	4937.5	4967.5	[2] 6520
3072.5	4947.5	[2] 5692.5	[2] 10125
3038			

(3) *Brown chain and feeders.* Available for aeronautical and aircraft stations:

2946	3432.5	5602.5	5672.5
[4] 3137.5	4732.5	5612.5	[5] 5892.5
[6] 3222.5	[2] 5252.5	5622.5	[2] 6550
3232.5	[6] 5365	5632.5	[2] 7700
3242.5	[5] 5390	5652.5	[2] 10080
3257.5	[4] 5480		

(4) *Green chain and feeders.* Available for aeronautical and aircraft stations:

[2] 2608	2936	5310	[2] 6805
[2] 2898	4122.5	5652.5	[2] 8565
2922	[11] 4335	[2] 5707.5	[2] 11960
2946	4742.5	[2] 6795	

(5) *Purple chain and feeders.* Available for aeronautical and aircraft stations:

2644	3127.5	[2] 5377.5
2994	4917.5	[2] 5887.5
3005	[2] 5275	[2] 6490

(6) *Yellow chain and feeders.* Available for aeronautical and aircraft stations:

3447.5	[2] 4650	[2] 5215
3457.5	5332.5	5682.5
3485	5042.5	[2] 8070

(7) *Hawaiian chain and feeders (green).* Available for aeronautical and aircraft stations:

2922	4742.5	5375	6610	

(8) *Air carriers en route:*

126.9 Mc	128.1	129.1	130.1	131.1
127.1	128.3	129.3	130.3	131.3
127.3	128.5	129.5	130.5	131.5
127.5	128.7	129.7	130.7	131.7
127.7	128.9	129.9	130.9	131.9
127.9				

NOTE: The system of assignment of these frequencies is under study.

(b) *International Service.* The frequencies allocated to the several routes are as follows and are subject to change as routes are organized by the Provisional International Civil Aviation Organization:

(1) *Inter-American route:*

2870 (Traffic control)
3082.5 5405 5692.5

A–1 emission only on the following:

[9] 6557	[10] 8217	11381	17274
6583	[10] 8225	11394	23301
6590	[10] 8233	17257	23324
6597			

(2) *Trans-Pacific route:*

2870 (Traffic control)
2976 5165

A–1 emission only on the following:

[9] 6557	8561	11369	23346
6563	8569	12824	23369
6570	8577	17319	
6577	11356	17336	

(3) *Europe-North America route:*

2912 (Traffic control)
2912 [2] 3285 3248

[2] These frequencies are assigned upon the express condition that no interference will be caused to any service or any station which in the discretion of the Commission may have priority on the frequency or frequencies with which interference results.

[3] Subject to the condition that no interference is caused to Government stations, A3 emission may be used if the communication band width of emission does not exceed 3,000 cycles.

[4] Primarily for that portion of the Brown Chain between New York, N. Y., and Montreal, Canada.

[5] For use only in that portion of the United States north of New York City.

[6] Primarily for that portion of the Brown Chain between New York, N. Y., and Toronto, Canada.

[7] Available for aeronautical and aircraft stations subject to 0.01% tolerance and 2500 cycles maximum modulating frequency.

[8] Maximum power 50 watts for use east of New York only, subject to the condition that no interference will be caused to Agriculture stations in the fixed service or to any station which in the judgment of the Commission has priority on this frequency.

[9] Additional frequency to be used only in case of interference or when traffic conditions do not permit the use of the other frequencies assigned to this route. Not to be used in continental United States.

[10] Priority is recognized of the service existing outside the American continents as of January 1938.

A–1 emission only on the following:

[9] 6543	8538	11319	17350
6563	8546	12778	[11] 17367
6570	8554	[11] 12788	23211
6577	11306	[9] 17288	23234

(4) *Europe-Arctic route:*

2912 (Traffic control)
[12] 1674 3285

A–1 emission only on the following:

[9] 6523	6543	8485	17288
[9] 6530	[9] 6550	11331	23256
6537	6557	11344	23279

AERONAUTICAL FIXED STATION

§ 9.140 *Service authorized.* Aeronautical fixed stations are authorized primarily for the handling of communications in connection with and relating solely to the actual aviation needs of the licensees.[13]

§ 9.141 *Emergency service.* The licensee of an aeronautical fixed station shall be required to transmit, without charge or discrimination, all necessary messages in times of public emergency which involve the safety of life or property.

§ 9.142 *Frequencies available.* The frequencies which will be authorized to stations in the aeronautical fixed service shall be chosen from those frequencies available to this service by national and international agreement. The specific frequency will be selected in accordance with the requirements of the service contemplated.

AERONAUTICAL MOBILE UTILITY STATION

§ 9.150 *Frequencies available.* The frequencies 121.7 and 121.9 megacycles are available for aeronautical mobile utility stations.

§ 9.151 *Use of utility station frequency.* Communications by a utility station shall be limited to the necessities of ground traffic control on an airport and may be used for essential two-way communication between control towers, ground vehicles at airports and aircraft on the ground.

§ 9.152 *Power.* Power and antenna height shall be restricted to the minimum to achieve the required service.

AERONAUTICAL NAVIGATIONAL AID RADIO STATION

§ 9.160 *Frequencies available.* (a) Instrument landing localizer with simultaneous radiotelephone channel: The band 108.1 to 111.9 megacycles.

(b) Instrument landing glide path: The band 328.6 to 335.4 megacycles.

(c) Instrument landing marker: 75 megacycles.

[9] Additional frequency to be used only in case of interference or when traffic conditions do not permit the use of the other frequencies assigned to this route. Not to be used in continental United States.

[11] Priority is recognized of the existing services of the American continents as well as of the territories and possessions of the states of these continents.

[12] Not to be used south of Ketchikan, Alaska, or in the continental United States.

[13] Aeronautical fixed stations will not be authorized where land line facilities adequate for the service required are available.

(d) Airway track guidance (ranges): 112.1 megacycles through 117.9 megacycles.

NOTE: In filing an application for aeronautical navigational radio station the applicant should leave blank section 16 (1) of Form 401; then, the Commission, upon coordination with the government agencies concerned, will determine the proper frequency for the use specified.

§ 9.161 *Basis of grant of facilities.* Air navigation aid facilities are normally operated by the Civil Aeronautics Administration. However, the frequencies are available to the FCC for licensing to the industry at those locations where an applicant justifies the need for such service and CAA is not prepared to render this service. Air navigation service will be authorized only where the applicant meets all requirements specified by the Civil Aeronautics Administration and the Federal Communications Commission for the type of installation proposed. The grant of a license will be on condition that the licensee release the facilities and remove his equipment if and when such release or removal may be required by the government.

FLIGHT TEST STATION

§ 9.170 *Frequencies available.* (a) The frequencies 123.1, 123.3 and 123.5 megacycles are available for ground and aircraft flight test stations (these frequencies are shared with flying school stations on a non-interference basis).

(b) The following frequencies are available to flight test stations for telemetering activities:

NOTE: Telemetering is the automatic transmission of instrument readings. The frequencies listed are subject to interference until January 1, 1949, at specific gateways.

217.425 Mc	217.625 Mc	219.450 Mc
217.475	217.675	219.475
217.525	219.325	219.525
217.550	219.375	219.575
217.575	219.425	

§ 9.171 *Eligibility of licensee.* A flight test station license will be granted only to manufacturers of aircraft and of major aircraft components.

§ 9.172 *Cooperative use of facilities.* (a) Only one flight test station for operation on the ground will be licensed to serve an airport and such station will be required to provide service without discrimination, but on a cooperative maintenance basis, to all manufacturers eligible for a license for flight test station.

(b) Where licensees desire to conduct flight tests in adjacent airport control areas, or where radio interference may result from simultaneous operation of stations at nearby airports, they shall arrange for a satisfactory time division by mutual agreement. If such an agreement cannot be reached the Commission will determine and specify the time division upon request of either licensee.

§ 9.173 *Service to be rendered.* The use of these stations will be restricted to the transmission of necessary information or instructions relating directly to tests of aircraft or components thereof.

§ 9.174 *Power.* The power output of flight test stations designated for operation on board aircraft shall be limited to 10 watts and ground stations shall be limited to 50 watts.

§ 9.175 *Supervision of airport control operator.* At any airport at which an airport control station or control tower is in operation, the airport control operator must be given a remote microphone connection to the ground flight test station transmitter for the transmission of orders or instructions of an emergency nature to aircraft flight test stations within the control area of the airport.

FLYING SCHOOL STATION

§ 9.180 *Frequencies available.* The frequencies 123.1, 123.3 and 123.5 megacycles are available for ground and aircraft flying school stations (shared with flight test stations on a non-interference basis).

§ 9.181 *Eligibility of licensee.* A flying school station license may be granted only to bona fide flying schools and soaring societies.

§ 9.182 *Limitations of instructional facilities.* Assignments will be limited to one station to an airport location for one or more flying schools.

§ 9.183 *Coordinated use of instructional facilities.* Where more than one flying school operates from an airport location, coordinated use of a single instructional frequency shall be arranged, placed in the form of a signed agreement and filed with the Commission. In case of disagreement the Commission will specify the arrangements to be followed.

§ 9.184 *Use of flying school frequency.* All aircraft engaged in instructional flying in the vicinity of an airport shall transmit only on the flying school frequency assigned to that airport location.

§ 9.185 *Supervision by airport control operator.* At any airport at which an airport control station or control tower is in operation, the airport control operator must be given a remote microphone connection to the transmitter operating on the flying school frequency for the transmission of orders or instructions of an emergency nature to students in flight within the control area of the airport.

§ 9.186 *Power.* The power output of flying school stations shall not be more than 50 watts for land stations and not more than 10 watts for aircraft stations.

§ 9.187 *Frequency assignments nonexclusive.* No frequency available to a station engaged in instructional flying will be assigned exclusively to any applicant. All stations in this service are required to coordinate operation so as to avoid interference and make the most effective use of assignments.

§ 9.188 *Private service prohibited.* The use of flying school frequencies for other than instruction purposes and promotion of safety of life and property is prohibited.

AERONAUTICAL PUBLIC SERVICE STATION

§ 9.190 *Frequencies available.* The frequencies available to ship telegraph and ship telephone stations are available to public service aircraft stations for the handling of public correspondence in the

same manner and to the same extent that they are available to ships of the United States and under restrictions hereinafter provided. These frequencies are assigned on the express condition that no interference is caused to marine operations.

NOTE: The general mobile service, as proposed, will also be available for use aboard aircraft.

§ 9.191 *Stations licensed for aeronautical public service.* Only those stations in the aeronautical service licensed for aeronautical public service shall carry on public communication service for hire. Coastal or ship stations already licensed to carry on public communication service for hire may provide such service to or from public service aircraft. No station shall carry on interstate or foreign public communication service for hire until appropriate effective tariffs covering such service are on file with the Commission.

§ 9.192 *Extent of service.* All stations licensed in the aeronautical public service shall intercommunicate without discrimination with any other station similarly licensed, wherever necessary for the handling of traffic.

§ 9.193 *Requirement for aeronautical public service station.* Upon showing that a need exists and that arrangements have been made with appropriate land stations for aeronautical public service a license or other instrument of authorization may be issued for a station for public correspondence: *Provided*, That a continuous effective listening watch is maintained on the frequency or frequencies used for the aviation safety service messages while public service messages are being handled; and that the installation and system of operation will permit instantaneous interruption of aeronautical public service commnuications to transmit or receive safety service messages.

§ 9.194 *Priority of communications.* (a) The regular routine communications of stations in the aeronautical radio communication service are essential to the safe operation of aircraft and shall have priority over public correspondence.

(b) The radio operator in charge of the aircraft station shall suspend operations of aeronautical public service stations when such operations will delay or interfere with messages pertaining to safety of life and property or when ordered to do so by the captain of the aircraft.

(c) The operation of aeronautical public service stations shall be suspended when it interferes with the radio communications of the safety service.

FEDERAL TRADE COMMISSION

[16 CFR, Chapter I]

[File No. 21-397]

RENDERING INDUSTRY

NOTICE OF HOLDING OF TRADE PRACTICE CONFERENCE

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C. on the 31st day of January A. D. 1947.

Notice is hereby given that a Trade Practice Conference will be held by the Federal Trade Commission for the Rendering Industry at the Statler Hotel, Washington Avenue at St. Charles and Ninth Streets, St. Louis, Missouri, on Friday, February 28, 1947, beginning at 10 a. m., Central Standard Time. The industry is that engaged primarily in procuring fallen animals from farmers, ranches, and other owners of dead stock, and animal bones and oil and fat-bearing animal waste from butcher shops, slaughter houses, restaurants, and other establishments, and in processing and converting the same into inedible tallow and greases which are sold principally for use in the manufacture of soap. Secondary industry products include animal protein materials which are widely used in live stock and poultry feeds and as fertilizer, and hides recovered from processed dead stock or procured from slaughter houses and other sources.

All persons, partnerships, corporations, associations, or other parties or groups, engaged in such business are invited to attend or be represented at the conference. The conference and further proceedings in the matter will be directed toward the eventual establishment and promulgation by the Commission of trade practice rules under which unfair methods of competition, unfair or deceptive acts or practices, and other illegal practices in the procurement and processing of raw materials and sale and distribution of finished products of this industry may be eliminated and prevented.

By direction of the Commission.

[Misc. 1642690]

ARIZONA

NOTICE OF FILING OF PLATS OF SURVEY

JANUARY 15, 1947.

Notice is given that the plats of survey hereinafter described will be officially filed in the district land office at Phoenix, Arizona, effective at 10:00 a. m. on March 19, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from 10:00 a. m., on March 19, 1947, to close of business on June 17, 1947, inclusive, the public lands affected by this notice shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from February 27, 1947, to 10:00 a. m., on March 19, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on March 19, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on June 18, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from May 29, 1947, to 10:00 a. m., on June 18, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on June 18, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Acting Manager District Land Office, Phoenix, Arizona.

The lands affected by this notice are described as follows:

ARIZONA

GILA AND SALT RIVER MERIDIAN

Tps. 39 and 40 N., Rs. 8 W.;
Tps. 36 to 40 N., inclusive, R. 9 W.;
T. 39 N., R. 10 W.

The topography varies from gently rolling to rough, featured by the bald Hurricane Ledge escarpment, which crosses the area from south to north. Elevations range from about 4,200 to 6,000 feet above sea level. Soils are clay with varying amounts of gravel and rock. Vegetation consists of mixed brush and grass, with scattered juniper and pinon.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 23d day of January 1947;

The Commission having under consideration the above-entitled application of Durward J. Tucker, W. M. Rodgers, Irving Brown, John W. Hardy, and Ray G. Thurmond, a partnership, d/b as Tyler Broadcasting Company, requesting a construction permit for a new standard broadcast station to operate on 940 kc, 250 w power, daytime only, at Tyler, Texas; and

It appearing, that the Commission, on December 19, 1946, designated for hearing in a consolidated proceeding the applications of Blackstone Broadcasting Company, Inc., (File No. B3–P–5316, Docket No. 8032) and Rose Capitol Broadcasting Company (File No. B3–P–4975, Docket No. 8031), each requesting a construction permit for a new standard broadcast station to operate on 940 kc, 250 w, daytime only, at Tyler, Texas; and

It further appearing, that the Commission, on December 31, 1946, designated for hearing in the above consolidated proceeding the application of Willis Jarrel, William S. Reeves, Robert S. Boulter, William D. Lawrence, Tomas G. Pollard, Jr., and Francis Lee Lawrence, a co-partnership, d/b as Tytex Broadcasting Company, Tyler, Texas, requesting the same facilities at Tyler, Texas;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Durward J. Tucker, W. M. Rodgers, Irving Brown, John W. Hardy, and Ray G. Thurmond, a partnership, d/b as Tyler Broadcasting Company, be, and it is hereby, designated for hearing in the above consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the Commission's order of December 19, 1946 (as amended by its order of December 31, 1946, to include the application of Tytex Broadcasting Company), designating the applications of Blackstone Broadcasting Company, Inc., and Rose Capitol Broadcasting Company for hearing in a consolidated proceeding, be, and it is hereby, amended to include the application of Durward J. Tucker, W. M. Rodgers, Irving Brown, John W. Hardy, and Ray G. Thurmond, a partnership, d/b as Tyler Broadcasting Company.

OKEFENOKEE BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re: Application of E. K. Avriett, tr/as Okefenokee Broadcasting Company, Waycross, Georgia, for construction permit; Docket No. 8063, File No. B3–P–5513.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 23d day of January 1947;

The Commission having under consideration the above-entitled application for construction permit for a new standard broadcast station to operate on 910 kc, 500 w, 1 kw-LS, unlimited time, at Waycross, Georgia;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Valdosta Broadcasting Company (File No. B3–P–4106, Docket No. 6863), requesting construction permit for a new standard broadcast station to operate on 910 kc, 5 kw, DA-N, unlimited time, at Valdosta, Georgia, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

MIDLAND BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re: Application of Midland Broadcasting Company, Kansas City, Missouri, for construction permit; Docket No. 8067, File No. B4–P–5154.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 23d day of January 1947;

The Commission having under consideration a petition for reconsideration filed November 19, 1946, by the Ozarks Broadcasting Company, Springfield, Missouri (KWTO), directed against the Commission's action taken on October 31, 1946, granting without hearing the above-entitled application of Midland Broadcasting Company Kansas City, Missouri, for a construction permit (File No. B4–P–5154) to erect and operate a new standard broadcast station, to operate on the frequency of 550 kc., with 5 kw. power, directional antenna, daytime only; and the opposition thereto filed November 29, 1946, by the Midland Broadcasting Company, Kansas City, Missouri; and

It appearing, that according to the petition of the Ozarks Broadcasting Company (KWTO) the operation of the proposed standard broadcasting station at Kansas City, Missouri (transmitter to be located at Concordia, Kansas) will result in interference in the area served by the Ozarks Broadcasting Company (KWTO) within its normally protected 0.5 mv/m contour;

It is ordered, That pursuant to section 405 of the Communications Act of 1934, as amended, and § 1.390 (a) (2) of the Commission's rules, the petition for reconsideration be, and it is hereby, granted; and the action of the Commission of October 31, 1946, granting without hearing the above-entitled application of the Midland Broadcasting Company be, and it is hereby, set aside.

It is further ordered, That the above-entitled application of the Midland Broadcasting Company, Kansas City, Missouri, for a construction permit, be, and it is hereby, designated for hearing, and that the said hearing be held at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station, and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered, and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with Stations KWTO at Springfield, Missouri; KLZ at Denver, Colorado; WIBW at Topeka, Kansas; and KSAC at Manhattan, Kansas; or with the proposed operation of KCRS at Midland, Texas, as authorized by Decision and Order of December 6, 1946; or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of Radio Broadcasting, Inc. (File No. B3–P–3915; Docket No. 7156); KSAC, Inc. (File No. B4–P–4874) and Fred Jones, C. A. Vose, Streeter B. Flynn and Dan W. James, a partnership, doing business as Fred Jones Radiocasting and Television Company (File No. B3–P–5404), or in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular reference to § 3.30 (b) of said rules.

7. To determine the overlap, if any, that will exist between the service areas of the proposed station and of Station KMBC at Kansas City, Missouri, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's Rules.

It is further ordered, That Ozarks Broadcasting Company, licensee of Station KWTO, Springfield, Missouri; KLZ Broadcasting Company, licensee of Station KLZ, Denver, Colorado; Topeka Broadcasting Association, Inc., licensee of Station WIBW, Topeka, Kansas; KSAC, Inc., licensee of KSAC, Manhattan, Kansas; Millard Eidson, Independent executor of the estate of Clarence Scharbauer, deceased licensee of Station KCRS, Midland, Texas; and Radio Broadcasting, Incorporated, Hot Springs, Arkansas, be, and they are hereby, made parties to this proceeding.

SAGINAW BROADCASTING CO. (WSAM) ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re: applications of Saginaw Broadcasting Company (WSAM), Saginaw, Michigan, Docket No. 8069, File No. B2–P–5578; Booth Radio Stations, Inc., Saginaw, Michigan, Docket No. 6805, File No. B2–P–4088; Federated Publications, Inc., Lansing, Michigan, Docket No. 7977, File No. B2–P–5385; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 23d day of January 1947;

The Commission having under consideration the above-entitled application of Saginaw Broadcasting Company, requesting a construction permit to change operating assignment of existing station WSAM from 1400 kc, 250 w power, to 790 kc, with 1 kw power, to install a new transmitter, change transmitter location, and install directional antenna for day and night use; a motion to dismiss the said application filed by Booth Radio Stations, Inc., on the ground that it is inconsistent with and conflicts with the pending application (File No. B2–P–5488) of Saginaw Broadcasting Company for change in transmitter site and antenna system of its present operation, in violation of § 1.362 of the Commission's rules and regulations; and an opposition thereto by the applicant; and

It appearing, that the said application of Saginaw Broadcasting Company, requesting change in present operating assignment of Station WSAM is not inconsistent nor in conflict with its pending application (File No. B2–P–5488); and

It further appearing, that the Commission, on September 5 and December 5, 1946, designated for hearing in a consolidated proceeding the application of Booth Radio Stations, Inc. (File No. B2–P–4088, Docket No. 6805), requesting a construction permit for a new standard broadcast station to operate on 790 kc, with 250 w power, employing a directional antenna for use day and night, unlimited time, at Saginaw, Michigan, and the application of Federated Publications, Inc. (File No. B2–P–5385, Docket No. 7977), requesting the same facilities at Lansing, Michigan; and that a hearing on the said applications is currently set for January 27, 1947, at Washington, D. C.;

It is ordered, That the said motion to dismiss filed by Booth Radio Stations, Inc., be, and it is hereby, denied; and that, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application (File No. B2–P–5578) of Saginaw Broadcasting Company (WSAM) be, and it is hereby, designated for hearing in the above consolidated proceeding, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate Station WSAM as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station WSAM as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station WSAM as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station WSAM as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of station WSAM as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of the Commission dated September 5 and December 5, 1946, designating for hearing in a consolidated proceeding, the said applications of Booth Radio Stations, Inc., and Federated Publications, Inc., be, and they are hereby, amended to include the above entitled application of Saginaw Broadcasting Company (WSAM).

By the Commission.

FEDERAL POWER COMMISSION

[Docket No. G–840]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

JANUARY 29, 1947.

Notice is hereby given that on January 23, 1947, Cities Service Gas Company (applicant), a Delaware corporation, having its principal place of business at Oklahoma City, Oklahoma, and authorized to do business in the States of Oklahoma, Kansas, Texas, Nebraska and Missouri, filed an application (an application for a temporary certificate having been filed on December 30, 1946) for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize applicant to construct and operate a meter setting at a point mutually convenient to applicant and Georgia Oil & Gas Company on applicant's 18-inch pipe line in the Southwest Quarter (SW¼) of the Southwest Quarter (SW¼) of section 15, Township 28 North, Range 13 East, Washington County, Oklahoma, for the purpose of delivering and selling emergency gas to Georgia Oil & Gas Company for resale to Copan Gas Company, which in turn serves customers in Washington County, Oklahoma.

Applicant recites that local supplies of gas available to Georgia Oil & Gas Company have become depleted to such an extent that emergency service is required in order to insure an adequate supply of gas to Georgia Oil & Gas Company on winter days. Applicant will deliver such volumes of gas to Georgia Oil & Gas Company limited, however, to such gas as applicant can safely spare over and above

applicant's requirements to its existing customers.

Applicant states that until such time as new rate schedules are filed by Applicant and allowed to become effective by the Federal Power Commission, the rate proposed to be charged by Applicant for the emergency service to be rendered is thirty-five cents (35¢) per Mcf or Twenty-five dollars ($25.00) per month minimum charge.

Applicant estimates the total over-all cost of construction of the proposed facility is $700, which fund Applicant proposes to disburse from its own treasury.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Cities Service Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

INTERSTATE COMMERCE COMMISSION

[No. 29678]

INCREASED PASSENGER FARES ON NEW HAVEN RAILROAD

JANUARY 30, 1947.

By petition dated January 2, 1947, and for reasons therein stated, Howard S. Palmer, James Lee Loomis, and Henry B. Sawyer, trustees of the property of The New York, New Haven and Hartford Railroad Company, debtor, request this Commission to authorize petitioners to increase their interstate basic one-way passenger fares in coaches to 2.5 cents per mile and in parlor and sleeping cars to 3.5 cents per mile, sufficient to be added to the resulting fares so that they will end in 0 or 5, with a minimum one-way fare of 20 cents, between stations on their lines in the States of New York, Connecticut, Rhode Island, and Massachusetts; to increase their interstate basic one-way passenger fares in coaches and parlor and sleeping cars between stations on their lines in said States and stations on connecting lines sufficiently to reflect the proposed increases in the interstate one-way passenger fares on their lines; and to increase by 20 percent the interstate commutation passenger fares between stations on their lines in the said four States.

The Commission is further asked to modify its order of February 28, 1936, in Passenger Fares and Surcharges, 214 I. C. C. 174, as subsequently modified, sufficiently to permit the establishment and maintenance of the proposed increased and minimum interstate local and interline one-way fares, the order in question not embracing commutation fares; and to authorize the establishment of all of the proposed increased fares and the minimum one-way fare on 5 days' notice and without suspension of the proposed commutation fares.

The petition above described has been docketed as No. 29678, Increased Passenger Fares—New Haven Railroad, and is assigned for hearing as set forth in the next succeeding paragraph hereof. Interstate local and interline one-way railroad passenger travel and fares are considered to be sufficiently different from interstate commutation passenger travel and fares as to warrant separate hearings in the best interests of the record, the parties, and the Commission.

The petition herein described is assigned for public hearing before Commissioner John L. Rogers and Examiner Burton Fuller on March 24, 1947, 9:30 o'clock a. m., United States standard time, at the United States Court Rooms, Hartford, Conn., with respect to the proposed increased interstate local and interline one-way passenger fares and the minimum one-way fare; and on March 27, 1947, 9:30 o'clock a. m., United States standard time, at 641 Washington Street, New York, New York, with respect to the proposed increased interstate commutation passenger fares.

A copy of this notice has, on the date hereof, been sent by regular mail to the said petitioners, the Governors and the rate regulatory authorities of the States of New York, Connecticut, Rhode Island, and Massachusetts, and every person who has thus far evidenced an interest therein; and at the same time copies have also been posted in the office of the Secretary of the Commission at Washington, D. C., and filed with the Director, Division of Federal Register, Washington, D. C.

UNLOADING OF BEER AT COLUMBIA, S. C.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 29th day of January A. D. 1947.

It appearing, that 2 cars containing beer at Columbia, South Carolina, on the Atlantic Coast Line Railroad Company, shipped by Heirloom, Inc., Jersey City, New Jersey, have been on hand under load for unreasonable lengths of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action; It is ordered, that:

(a) *Beer at Columbia, S. C., be unloaded.* The Atlantic Coast Line Railroad Company, its agents or employees, shall unload immediately cars DRGW 69005 and C&O 4015, loaded with beer, now on hand at Columbia, South Carolina, consigned shipper's order, notify Grocery Supply Company, Columbia, S. C.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., January 31, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing of copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

UNITED CORP.

ORDER FOR HEARING ON APPLICATION FOR MODIFICATION OF COMMISSION'S FINDINGS AND OPINION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of January 1947.

The United Corporation ("United"), a registered holding company, having filed an application, and an amendment thereto, for a modification of the Commission's findings and opinion accompanying its order of August 14, 1943 entered in the above-entitled proceedings, so as to require that United's plan for future operations be approved only by the holders of a majority of the common stock voting as a class; and

The Commission having given public notice of the filing of such application and having therein given all interested persons an opportunity to request that a hearing be held thereon (Cf. Holding Company Act Release No. 7140); and

A beneficial owner of shares of the common stock of United having notified the Commission of his objections to the granting of said application, and having requested that a hearing be held with respect to said matter; and

It appearing to the Commission that it is appropriate and in the public interest and the interest of investors that a public hearing be held before the Commission for the purpose of affording interested persons an opportunity to be heard on the merits of said application, as amended;

It is therefore ordered, That any person desiring to be heard with respect to said application, as amended, shall appear before the Commission, at 2:30 p. m., e. s. t., on February 3, 1947, at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated at that time by the hearing room clerk in room 318.

It is further ordered, That notice of this hearing be given to United and to any other person who has filed an appearance in this proceeding by mailing to them copies of this order by registered mail, and to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Holding Company Act of 1935 and by publication in the FEDERAL REGISTER.

GAS AND ELECTRIC ASSOCIATES AND GENERAL PUBLIC UTILITIES CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of January 1947.

General Public Utilities Corporation ("GPU"), a registered holding company, and its subsidiary, Gas and Electric Associates ("Associates"), having filed a joint application-declaration, as amended, pursuant to sections 9 (a), 10 and 12 of the Public Utility Holding Company Act of 1935, with respect to the transactions which are summarized below:

The transaction herein proposed is the complete liquidation of Associates and the elimination of all GPU's interest in the certificates of beneficial interest in, and notes payable of, Associates. GPU is the only creditor of, and holder of certificates of beneficial interest in, Associates.

Associates holds $18,612,700 principal amount of 8% Income Notes Due March 1, 1967 of Utilities Investing Trust (formerly known as Manson Securities Trust and hereinafter called "UIT") and is the plaintiff in certain litigation pending in the Superior Court in the Commonwealth of Massachusetts in Middlesex County, instituted on October 16, 1942, by Associates against New England Gas and Electric Association ("Negas") and UIT, which litigation is entitled "Smith, et al. v. Goodale, et al." (hereinafter called the "Negas litigation"). Certain plans for reorganization of Negas have been proposed by Negas (see Docket File Nos. 59-34, 59-64 and 54-120), which by their terms would dispose of the Negas litigation (said plans being hereinafter called the "Negas Plan").

Associates will assign, transfer and distribute to GPU all its assets, including said $18,612,700 principal amount of 8% Income Notes Due March 1, 1967 of UIT and all causes of action, both legal and equitable, including the causes of action asserted in the Negas litigation. GPU will transfer and deliver to Associates all the certificates of beneficial interest in, and all the notes payable of, Associates. Such notes payable will be canceled by Associates but the certificates of beneficial interest will not be cancelled and Associates will not terminate its existence, until such time as the Negas litigation has been concluded or settled by consummation of the Negas Plan or otherwise disposed of.

Associates has agreed to continue the prosecution of the Negas litigation and

the causes of action therein asserted but in the event of Associates' failure to prosecute said causes of action, it has agreed to return to GPU all the certificates of beneficial interest in Associates transferred and delivered to it by GPU.

Applicants-declarants having requested that the order to be issued with respect to the proposed transactions conform with the requirements of the Internal Revenue Code, as amended, including sections 373 (a) and 1808 (f) thereof; and

Said joint application-declaration, as amended, having been filed on December 30, 1946, and amendment thereto having been filed on January 10, 1947, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated under said act, and the Commission not having received a request for hearing with respect to said joint application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the joint application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder and deeming it appropriate in the public interest and in the interests of investors and consumers that the said joint application-declaration, as amended, be granted and permitted to become effective, and deeming it appropriate that the request of applicants-declarants that the order conform to the requirements of the Internal Revenue Code, as amended, including sections 373 (a) and 1808 (f) thereof, be granted;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and rules thereunder, and subject to the terms and conditions prescribed in Rule U-24, that the joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith.

It is further ordered, That the following transactions are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935:

(1) The assignment, transfer and distribution by Associates to GPU of all its assets including the following:

NEW ENGLAND GAS AND ELECTRIC ASSN. AND DEDHAM AND HYDE PARK GAS CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of January 1947.

New England Gas and Electric Association ("New England"), a registered holding company, and its subsidiary, Dedham and Hyde Park Gas Company ("Dedham"), having filed a joint application and declaration pursuant to the Public Utility Holding Company Act of 1935, regarding the following proposals:

(1) The issuance and sale by Dedham to its parent, New England, of 6,000 shares of common capital stock at the par value of $25 per share and the use of the proceeds thus realized to pay off $150,000 principal amount of open account indebtness owing to New England; and

(2) The issuance and sale by Dedham to Massachusetts Mutual Life Insurance Company of $125,000 principal amount of 3½% serial notes, Series A, due 1961, at 102¼. The net proceeds to be realized from the sale of the note issue, together with $87,140 to be drawn from the company's Plant Replacement Fund Asset's Account, will be used to pay a short-term note in the amount of $25,000 payable to The First National Bank of Boston and to finance extensions, additions and improvements to Dedham's plant and properties during the three-year period ending December 31, 1948.

Said joint application-declaration having been filed on January 3, 1947, and notice of such filing having been duly given in the manner and form prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to any of said matters within the period specified in such notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the Department of Public Utilities of the Commonwealth of Massachusetts has, by appropriate order, approved the aforesaid transactions by Dedham; and the Commission being satisfied that the applicable requirements of the act, particularly sections 6 (b) and 10 thereof, are met, and that it is appropriate in the public interest and in the interests of investors and consumers that said joint application be granted and that said declaration be permitted to become effective;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid joint application-declaration be, and the same hereby is, granted and permitted to become effective.

BANKERS SECURITIES CORP. AND LIT BROS.

NOTICE OF APPLICATION, STATEMENT OF ISSUES AND ORDERS FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of January A. D. 1947.

Notice is hereby given that Bankers Securities Corporation ("Bankers"), and Lit Brothers ("Lit") have filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order of the Commission exempting from the provisions of section 17 (a) of the act the proposed sale by Raymond Rosen ("Rosen") to Lit of a one-fourth interest in the property located at 5704 to 5720 North Broad Street and 1408 to 1410 West Clearview Street, Philadelphia, Pennsylvania.

Bankers is a closed-end, management, non-diversified investment company and is registered under the Investment Company Act of 1940.

Bankers owns 78.7% of the voting securities of City Stores Company. City Stores Company owns 68.6% of the voting securities of Lit. Bankers also owns 13.6% of the voting securities of Loft Candy Corporation ("Loft"). Raymond Rosen is a director of Loft.

The sale of such property by an affiliated person (Rosen) of an affiliated person (Loft) of a registered investment company (Bankers) to a company (Lit) controlled by such registered investment company is prohibited by section 17 (a) of the Act.

The applicants have therefore filed an application pursuant to section 17 (b) of the act for an order of the Commission exempting the proposed transaction from the provisions of section 17 (a) of the act, and they assert that the proposed transaction meets the standards and requirements of section 17 (b).

All interested persons are referred to said application which is on file in the offices of the Commission for a more detailed statement of the proposed transaction and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application, it deems the

following issues to be raised thereby without prejudice to the specification of additional issues upon further examination:

(1) Whether the proposed transaction is fair and reasonable;

(2) Whether the proposed transaction involves overreaching on the part of any person concerned;

(3) Whether the proposed transaction is consistent with the policy of Bankers as recited in the registration statement and reports filed under the act;

(4) Whether the proposed transaction is consistent with the general purposes of the act.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on February 12, 1947, at 10 a. m., Eastern Standard Time, Room 318 in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That William W. Swift, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-mentioned Bankers Securities Corporation, Lit Brothers and Raymond Rosen, and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise desiring to participate in said proceedings should file with the Secretary of the Commission, on or before February 10, 1947 his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

NORTHERN STATES POWER CO. ET AL.

ORDER DENYING MOTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 29th day of January A. D. 1947.

In the matter of Northern States Power Company (Delaware), File No. 54-54; Northern States Power Company (Minnesota), File No. 70-559; Northern States Power Company (Delaware) and each of its subsidiaries, File No. 59-50.

The Commission having on November 8, 1946, issued its findings and opinion and order in these proceedings in which Northern States Power Company, a Delaware corporation, was ordered pursuant to section 11 (b) (2) of the act to terminate its continued existence and to proceed with due diligence to submit a plan or plans for its prompt liquidation and dissolution in a manner consistent with the provisions of the act;

Northern States Power Company, a Delaware corporation, having filed a motion on December 21, 1946, requesting that the Commission modify its order of November 8, 1946, by deleting therefrom the provisions requiring the termination of the existence of Northern States Power Company (Delaware) pursuant to section 11 (b) (2) of the act and the submission of a plan or plans consistent with the provisions of the act;

The Commission having considered said motion and having concluded that said motion should be denied, for the reasons set forth in its memorandum opinion, filed herein, to which reference is hereby made;

It is ordered, That the motion of Northern States Power Company, a Delaware corporation, to modify said order dated November 8, 1946, be and it is hereby denied.

By the Commission.

mental conditions which permanently disqualify employees for work in the several occupations in the railroad industry, and the Board, employers, and employees shall cooperate in the promotion of the greatest practicable degree of uniformity in the standards applied by the several employers. An individual's condition shall be deemed to be disabling for work in his regular occupation if he will have been disqualified by his employer because of disability for service in his regular occupation in accordance with the applicable standards so established; if the employee will not have been so disqualified by his employer, the Board shall determine whether his condition is disabling for work in his regular occupation in accordance with the standards generally established; and, if the employee's regular occupation is not one with respect to which standards will have been established, the standards relating to a reasonably comparable occupation shall be used. If there is no such comparable occupation, the Board shall determine whether the employee's condition is disabling for work in his regular occupation by determining whether under the practices generally prevailing in industries in which such occupation exists such condition is a permanent disqualification for work in such occupation. For the purposes of this section, an employee's "regular occupation" shall be deemed to be the occupation in which he will have been engaged in more calendar months than the calendar months in which he will have been engaged in any other occupation during the last preceding five calendar years, whether or not, consecutive, in each of which years he will have earned wages or salary, except that, if an employee establishes that during the last fifteen consecutive calendar years he will have been engaged in another occupation in one-half or more of all the months in which he will have earned wages or salary, he may claim such other occupation as his regular occupation; or

(5) Individuals whose permanent physical or mental condition is such that they are unable to engage in any regular employment and who (i) have completed ten years of service, or (ii) have attained the age of sixty.

Such satisfactory proof shall be made from time to time as prescribed by the Board, of the disability provided for in subparagraph 4 or 5 of this paragraph and of the continuance of such disability (according to the standards applied in the establishment of such disability) until the employee attains the age of sixty-five. If the individual fails to comply with the requirements prescribed by the Board as to proof of the continuance of the disability until he attains the age of sixty-five years, his right to an annuity by reason of such disability shall, except for good cause shown to the Board, cease, but without prejudice to his rights to any subsequent annuity to which he may be entitled. If before attaining the age of sixty-five an employee in receipt of an annuity under subparagraph 4 or 5 of this paragraph is found by the Board to be no longer disabled as provided in said paragraph his annuity shall cease upon the last day of the month in which he ceases to be so disabled. An employee, in receipt of such annuity, who earns more than $75 in service for hire, or in self-employment, in each of any six consecutive calendar months, shall be deemed to cease to be so disabled in the last of such six months; and such employee shall report to the Board immediately all such service for hire, or such self-employment. If after cessation of his disability annuity the employee will have acquired additional years of service, such additional years of service may be credited to him with the same effect as if no annuity had previously been awarded to him.

(b) An annuity shall be paid only if the applicant shall have relinquished such rights as he may have to return to the service of an employer and of the person by whom he was last employed; but this requirement shall not apply to the individuals mentioned in paragraphs (a) 4 and 5 of this section prior to attaining age sixty-five.

(c) An annuity shall begin to accrue as of a date to be specified in a written application (to be made in such manner and form as may be prescribed by the Board and to be signed by the individual entitled thereto), but:

(1) not before the date following the last day of compensated service of the applicant, and

(2) not more than sixty days before the filing of the application.

§ 208.2 *Employee status.* To be eligible for an annuity an individual, in addition to other qualifications, must have been an employee on August 29, 1935 or, if not an employee on that date, he must have rendered service subsequent to December 31, 1936 as an employee. (Secs. 1, 10, 50 Stat. 308, 314 as amended; 45 U. S. C. 228a, 228j.)

§ 208.7 *Annuities for employees.* (a) Subject to the provisions of paragraphs (b) and (c) of this section, an individual who has been an employee on or after August 29, 1935, and ceased to render service for compensation to any person, whether or not an employer under the act, is eligible for an annuity if

(1) The individual has attained the age of sixty-five, or the individual is a woman, and (i) has attained the age of sixty and (ii) has completed at least three-hundred and fifty-four months of service, or

(2) The individual has attained the age of sixty and has completed at least three-hundred and fifty-four months of service, but the annuity of such an individual, other than a woman, shall be reduced by one one-hundred and eightieth for each calendar month he is under age sixty-five when his annuity begins to accrue, or

(3) The individual has a current connection with the railroad industry and his permanent physical or mental condition is such as to be disabling for work in his regular occupation, and (i) has completed at least two-hundred and thirty-four months of service, or (ii) has attained the age of sixty, or

(4) The physical or mental condition of the individual is such that he is unable to engage in any regular employment and (i) has completed at least one-hundred and fourteen months of service, or (ii) has attained the age of sixty.

(b) No annuity shall be certified for payment to an individual until such time as he has filed with the Board a duly executed application form, has established by proof satisfactory to the Board that he possesses all the qualifications therefor, and, except for an individual whose eligibility for an annuity is determined in accordance with subparagraphs (3) or (4) of paragraph (a) of this section, has relinquished rights to return to service as required by Part 216 of this chapter. In no case shall an annuity begin to accrue earlier than (1) two months prior to the date upon which the application therefor was filed with the Board, or (2) July 1, or December 1, respectively, if such application is filed with the Board on August 31 or January 31; or (3) the day following the last day of the applicant's compensated service. An individual whose eligibility for an annuity is determined in accordance with subparagraphs (3) or (4) of paragraph (a) of this section, shall relinquish rights to return to service as required by Part 216 of this chapter upon his attainment of age sixty-five.

(c) Except as provided in § 208.31 and in section 407 of the 1946 amendments to the Railroad Retirement Act enacted as Public Law 572, 79th Cong., after an annuity has been awarded to an individual, he shall not be eligible for an increase in such annuity, or for a new or additional annuity, by reason of acquiring, after the annuity awarded him began to accrue, any additional service or compensation or any additional eligibility qualifications.

§ 208.9 *Regular occupation defined.* For the purpose of an annuity under § 208.7 (a) (3), an individual's regular occupation shall be his occupation in the railroad industry in which (a) he has been engaged in service for hire, including service for hire outside the railroad industry, in more calendar months than the calendar months in which he has been engaged in service for hire in any other occupation, whether or not in the railroad industry, during the last preceding five calendar years, whether or not consecutive, or (b) he has been engaged in service for hire, including service for hire outside the railroad industry, in not less than one-half of all the months in which he has been engaged in service for hire, whether or not in the railroad industry, during the last preceding fifteen consecutive calendar years.

§ 208.11 *Establishment of permanent disability for work in the applicant's "regular occupation".* An individual's physical or mental condition shall be deemed to be permanently disabling for work in his "regular occupation", whether or not he has been disqualified for such work by his employer, if, in accordance with the occupational disability standards established by the Board, he is physically or mentally unable to perform the duties of such occupation, and the facts of his physical or mental condition afford a reasonable basis for an inference that such condition is permanent. The cause of the disabling physical or mental condition is immaterial. If the employee's regular occupation is one with respect to which occupational disability standards have not been established by the Board, the occupational disability standards established by the Board for a reasonably comparable occupation in the railroad industry shall govern the determination of the individual's inability to work in his regular occupation; and in the absence of such comparable occupation, such determination shall be made by ascertaining whether under the practices generally prevailing in other industries having such occupation, the individual's physical or mental condition is a permanent disqualification for work in his regular occupation. The condition of permanent disability for work in the individual's regular occupation must be established in each particular case in the manner and to the extent prescribed by the Board.

§ 208.13 *"Any regular employment" defined.* "Regular employment" as used in this part and Part 237 of this chapter means full or part time service for remuneration by an individual in the employ of another on a recurring basis. For the purposes of this section, an individual performing service for remuneration, whether or not under a contract, shall be deemed to be in the employ of another unless such service is performed as a part of his independently established trade, business or occupation; and in the absence of evidence to the contrary, an individual shall be presumed to be regularly employed if he has been paid remuneration of not less than $200 in each of two consecutive calendar quarters.

§ 208.15 *Cessation of service to a local lodge or division.* In determining whether an individual has ceased to render compensated service to a local lodge or division of a railway-labor-organization employer the Board shall not consider as a day of compensated service any day in any month with respect to which month the individual earned compensation that is required to be disregarded within the provisions of § 222.3 (f) of this chapter. (Sec. 10, 50 Stat. 314, sec. 25, 54 Stat. 1100; 45 U. S. C. 228a, 228j)

§ 208.17 *Establishment of permanent disability for any regular employment.* (a) An individual is permanently disabled from engaging in any regular em-

ployment whenever his physical or mental condition is such that he is unable to perform regularly, in the usual and customary manner, the substantial and material duties of any regular and gainful employment which is substantial and not trifling, with any employer, whether or not subject to the Act, and the facts of his physical or mental condition afford a reasonable basis for an inference that such condition is permanent.

(b) The condition of permanent disability for any regular employment must be established in each particular case in the manner and to the extent prescribed by the Board. The following disabilities, while not an exclusive or exhaustive catalogue of conditions under which an individual may be considered permanently disabled from engaging in any regular employment are disabilities from which the Board will presume, in the absence of facts to the contrary, that an individual is so disabled:

(1) Loss of, or permanent loss of use of, both feet.

(2) Loss of, or permanent loss of use of, both hands.

(3) Loss of, or permanent loss of use of, one hand and one foot.

(4) Permanent industrial blindness (corrected vision of twenty two-hundredths or less in both eyes).

(5) Permanent total loss of hearing in both ears (inability to hear the conversational tone of voice at any distance) unless offset or capable of being offset by some practicable device.

(6) Permanently helpless or permanently bedridden.

(7) Aphonia (complete loss of vocalization, (phonetic) from organic, i. e., non-functional cause).

§ 208.25 *Proof of continuance of disability.* An individual who has been awarded an annuity upon the basis of his having become totally and permanently disabled for regular employment for hire, or upon the basis of his having become permanently disabled for work in his regular occupation, shall, as and whenever notified by the Board, submit any information which the Board may require relating to his employment, including self-employment, and earnings therefrom, while in the receipt of such an annuity, and shall submit to an examination to be made by a physician, or physicians, or a board of physicians, designated by the Board. The Board may at any time or times require additional proof of the continuance of the disability which served as the basis for awarding such annuity. The provisions of this section shall not apply to an individual after he has attained age sixty-five (or in the case of a woman with three-hundred and fifty-four months of creditable service, after she has attained age sixty).

§ 208.27 *Disability annuitant to notify of recovery from disability, and of performance of service for hire or of self-employment.* It shall be the duty of an individual awarded an annuity upon the basis of total and permanent disability for regular employment for hire, or upon the basis of permanent disability for work in his regular occupation, to notify the Board before he attains age sixty-five (or in the case of a woman with three hundred and fifty-four months of service before she attains age sixty) of his recovery from such disability and of any service for hire or self-employment in a period and to the extent described in § 208.29 (2).

§ 208.29 *When disability annuities cease.* (a) An annuity awarded to an individual upon the basis of his having become totally and permanently disabled for regular employment for hire, or upon the basis of his having become permanently disabled for work in his regular occupation, shall cease before the individual attains age sixty-five (or in the case of a woman with three hundred and fifty-four months of service, before she attains age sixty) as of the last day of:

(1) The month in which he recovers from such disability; or

(2) Except in the case of individuals awarded disability annuities prior to July 31, 1946, a period of six consecutive calendar months in each of which he earns more than seventy-five dollars in service for hire or in self-employment: *Provided*, That the Board may at any time require compliance with § 208.25.

(3) The month preceding the month during which he dies, regardless of his age; or

(4) The month following the month in which a notice was mailed to him requiring him to furnish additional proof of the continuance of his disability, if he failed to comply with such notice; or

(5) The month in which the Board receives notice of his failure to appear for, or submit to, a required examination; or

(6) The month in which he was required to furnish the Board with any information relating to employment, earnings and his physical or mental condition, if he failed to furnish such information.

(b) The annuity of an individual, based upon either the disability described in subparagraph (3) or in subparagraph (4) of paragraph (a) of § 208.7, who fails to relinquish rights to return to service in accordance with Part 216 of this chapter shall be suspended as of the end of the month in which he attains age sixty-five. Annuity payments which ceased by reason of non-compliance with the provisions of one or more of paragraphs (a) (4) through (a) (6) of this section shall be restored if within a reasonable time the annuitant shows good cause for such non-compliance.

§ 208.31 *Cessation of disability annuity not prejudicial to further eligibility.* The cessation pursuant to § 208.29 of a disability annuity, shall not prejudice any rights of the individual formerly in receipt of such annuity, to any annuity to which he may thereafter become entitled; and for such purpose, years of service acquired by such an individual whose annuity shall have so ceased prior to age sixty-five (or in the case of a woman with three hundred and fifty-four months of service, prior to age sixty), may be credited with the same effect as if no annuity had previously been awarded.

Dated: January 31, 1947.

By Authority of the Board.

[SEAL] MARY B. LINKINS,
Secretary of the Board.

[Local Board Memorandum No. 197-C, Issued: 10/3/45,[1] as Amended: 2/5/47]

PART 671—LOCAL BOARD MEMORANDUM

DISPOSAL OF OBSOLETE AND DISCONTINUED DSS AND OTHER BLANK FORMS

Pursuant to the provisions of the Administrative Procedures Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record:

§ 671.197c *Disposal of obsolete and discontinued DSS and other blank forms*—(a) *Disposition of obsolete printings of DSS blank forms.* Local boards and all other agencies of the Selective Service System are hereby authorized to dispose of all obsolete printings of DSS blank forms. Current printings of DSS blank forms as set forth in the Table of Current Forms and Instructions in the front of the Form Manual, together with any revisions of forms or new forms issued subsequent to the effective date of such table are to be retained for use in the normal course of operations.

(b) *Disposition of discontinued DSS blank forms.* Local boards and all other agencies of the Selective Service System are hereby authorized to dispose of all discontinued DSS blank forms listed in the Table of Discontinued Forms dated January 1, 1947[1] or which may be listed in any Table of Discontinued Forms issued as of a later date.

(c) *Disposal of discontinued and obsolete printings of Standard and other blank forms.* Local boards and all other agencies of the Selective Service System are authorized to dispose of all discontinued and obsolete printings of Standard, War Department, Civil Service Commission, Compensation Commission, and other blank forms adopted for use by the Selective Service System as such forms are discontinued or as the printings of such forms become obsolete.

(d) *Method of disposal.* Disposition under this authorization shall be accomplished by mutilation and salvage in accordance with the provisions of Local Board Memorandum No. 197, issued 4/16/45.[1] Blank forms only will be disposed of. (54 Stat. 885 as amended; 50 U. S. C. and Sup. 310)

AUTHORITY: §§ 8301.1 to 8301.20, inclusive, issued under the Surplus Property Act of 1944 as amended (58 Stat. 765; as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and E. O. 9689 (11 F. R. 1265).

§ 8301.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Continental United States" means the 48 States and the District of Columbia.

(2) "Territories and possessions" means Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands.

(3) "Real property" means all classes of real property together with any fixtures and improvements thereon and is not limited to the definition thereof as contained in section 23 of the act.

(4) "Section 23 real property" means property consisting of land, together with any fixtures and improvements thereon (including hotels, apartment houses, hospitals, office buildings, stores, and other commercial structures) located outside the District of Columbia, but does not include (i) commercial structures constructed by, at the direction of, or on behalf of any Government agency, (ii) commercial structures which the Administrator determines have been made an integral part of a functional or economic unit which should be disposed of as a whole, and (iii) war housing, industrial plants, factories, airports, airport facilities, or similar structures and facilities, or the sites thereof, or land which the Administrator determines essential to the use of any of the foregoing.

(5) "Handbook of Standards" means the Handbook of Standards for describing Surplus Property prepared for the Surplus War Property Administration by the War Production Board (U. S. Government Printing Office).

(6) "Standard Commodity Classification" means the Standard Classified List of Commodities, being Volume I of the Standard Commodity Classification, May, 1943 (U. S. Government Printing Office).

§ 8301.2 *Designation of disposal agencies; continental United States.* The following Government agencies are hereby designated as disposal agencies for surplus property located within the continental United States: *Provided*, That the Administrator may assign any real property to any of the disposal agencies designated in this part regardless of its classification whenever the Administrator shall determine such assignment appropriate to facilitate disposal:

(a) *Patrol vessels; Navy Department.* The Navy Department is hereby designated as the disposal agency for certain patrol vessels assigned to it by Order 1 under this part.

(b) *Ships and maritime personal property; Maritime Commission.* The United States Maritime Commission is hereby designated as the disposal agency for ships and maritime personal property, except maritime personal property declared as surplus as a part of marine industrial real property and except vessels assigned in paragraph (a) of this section. The general class of property, "ships and maritime personal property", includes property assigned to the Maritime Commission by Order 1 under this part.

(c) *Agricultural commodities and food; Department of Agriculture.* The Department of Agriculture is hereby designated as the disposal agency for agricultural commodities and food. This general class of property, "agricultural commodities and food" includes property assigned to the Department of Agriculture by Order 1 under this part.

NOTE: Former paragraphs (d) and (e) deleted, former paragraph (f) revised and redesignated (d), and former paragraph (g) redesignated (e) Jan. 29, 1947.

(d) *Agricultural, forest, grazing and mineral property; Department of Agriculture.* The Department of Agriculture is hereby designated as the disposal agency for surplus section 23 real property located within the continental United States which the Administrator shall classify as agricultural, forest, grazing or mineral property: *Provided, however*, That the Department of Interior is designated as disposal agency for all such property classified as grazing or mineral property which was assigned to it for disposal prior to the 23d day of February 1947.

(e) *All other property.* The War Assets Administration is hereby designated as the disposal agency for all other property including:

(1) Property assigned to the War Assets Administration by Order 1 under this part.

(2) All industrial real property (including buildings and fixtures and real property which is suitable and equipped for mining operations), and land which the Administrator shall determine is essential to the use of industrial plants, factories, and similar structures and facilities.

(3) Personal property (including machinery, equipment, and materials and products finished or in process) which is declared surplus together with and as a part of a plant or other real property assigned to the War Assets Administration. If the War Assets Administration shall determine not to dispose of any such personal property as part of such plant or other real property, such personal property shall be disposed of by the appropriate disposal agency designated in this part, and the War Assets Administration will, upon its determination aforesaid, forward declarations of surplus covering such property to such disposal agency.

(4) Structures of a portable, demountable or prefabricated nature (except housing assigned to the National Housing Agency by paragraph (d) of this section) including quonset and similar huts, when declared surplus separate from any sites thereof.

(5) Aircraft and property peculiar to aircraft.

(6) Railroads, including land, trackage, rights of way, structures and equipment used or useful in connection therewith.

(7) Pipelines and facilities used for transporting petroleum products or gas.

(8) Airport property to be disposed of as such (including buildings and fixtures) and land which the Administrator

shall determine is essential to the use of such property.

(9) Power plants and facilities and power transmission lines and rights of way, and land which the Administrator shall determine is essential to the use of such property.

(10) All structures and improvements which are to be disposed of for removal off-site by demolition or otherwise. Where a disposal agency determines that structures and improvements assigned to it for disposal should be disposed of for removal off-site, the disposal agency shall forward to the War Assets Administration, Washington 25, D. C., a declaration of surplus covering such structures and improvements unless the Administrator directs otherwise.

(11) Marine industrial real property (including buildings and fixtures) such as shipyards, ship repair yards, and marine terminals.

(12) Personal property (including machinery, equipment, and materials and products finished or in process) which is declared as surplus as a part of marine industrial real property.

(13) Commercial real property (including buildings and fixtures, and whether or not section 23 real property) and land which the Administrator shall determine is essential to the use of such property; community facilities financed through Federal Works Agency, and all other section 23 real property for which another disposal agency is not expressly designated in this part: *Provided, however,* That Federal Works Agency is designated as disposal agency for all such property which was assigned to it for disposal prior to the 29th day of January 1947.

(14) Residential property, whether or not section 23 real property, which includes:

(i) Real property used for residential or residential projects or developments, together with the structures thereon.

(ii) Housing of a portable, demountable, or prefabricated nature (except house trailers) when declared surplus separate from any sites thereof.

(iii) Personal property, such as housing equipment and furnishings, which is declared surplus to the War Assets Administration as part of residential property. If the War Assets Administration shall determine not to dispose of such personal property as part of residential property, such personal property shall be disposed of by the appropriate disposal agency designated in this part, and the War Assets Administration shall forward declarations of surplus covering such property to such disposal agency.

(iv) Community facilities (including such equipment and furnishings as are disposed of therewith) financed through the National Housing Agency which may be used in connection with residential projects.

(v) Land which the Administrator determines is essential for residential purposes: *Provided, however,* That National Housing Agency is designated as disposal agency for all such residential property which was assigned to it for disposal prior to the 29th day of January 1947.

§ 8301.3 *Designation of disposal agencies; territories and possessions.* The following designations of Government agencies as disposal agencies for surplus property located in the territories and possessions of the United States as defined in § 8301.1, are hereby made, *Provided,* That the Administrator may assign any real property located in the territories and possessions to any of the disposal agencies designated in this part regardless of its classification whenever the Administrator shall determine such assignment appropriate to facilitate disposal.

(a) *All personal property not otherwise assigned; War Assets Administration.* War Assets Administration is hereby designated as the disposal agency for all personal property, including aircraft and property peculiar to aircraft, not otherwise assigned under this section and located in the territories and possessions.

(b) *Ships and maritime property; Maritime Commission.* The United States Maritime Commission is hereby designated as the disposal agency for vessels which it determines to be merchant vessels or capable of conversion to merchant use.

(c) *All real property; Department of the Interior.* The Department of the Interior is hereby designated as the disposal agency for all real property located in the territories and possessions.

§ 8301.4 *Designation of disposal agency for, and disposal of, military property.* The Department of State is hereby designated as the disposal agency for surplus military property located in the continental United States, its territories and possessions, for disposal to other governments. With the consent of the State Department, owning agencies are authorized to file declarations of such surplus property with the Department of State, Office of the Foreign Liquidation Commissioner, Washington 25, D. C.; such declarations of surplus as are filed with the State Department shall have endorsed thereon the approval of an officer of the owning agency to be designated as its representative for coordination with the State Department. If there are included in such declarations of surplus any substantial quantity of items which may be used for civilian purposes, the State Department shall consult with the appropriate Government agencies (including domestic disposal agencies) to ascertain whether such items are required for reserves established under the act for priority or preference claimants or are urgently required for the domestic economy. If the Department of State determines that such items are so required, it shall forward the declaration of surplus covering such items to the appropriate disposal agency. The term "military property" includes all arms, ammunition, spare parts, accessories, maintenance and service tools and equipment, cleaning and preserving materials, military automotive equipment, aircraft and aircraft maintenance and servicing equipment, naval combat type and auxiliary vessels (excluding vessels referred to in section 3 (d) of the act), special military clothing and equipage, and all other items required to train, equip, and maintain military, aviation, and naval units as listed in approved tables of organization and equipment and technical publications pertaining thereto for United States armed forces, and production equipment specially designed to produce munitions. No disposal agency other than the State Department shall dispose of any arms, ammunition, and implements of war as defined by the President's Proclamation No. 2549 of April 9, 1942, and facilities intended for the production thereof to any foreign government without the consent in writing of the State Department.

§ 8301.5 *Use of Standard Commodity Classification for purpose of assignments.* The assignments made in Order 1 under this part through the use of Standard Commodity Classification code numbers are intended to be in aid of and supplementary to the assignments of the general classes of property made in § 8301.2. If, therefore, items fall within a general class of property assigned by this part but these items are not listed in the Standard Commodity Classification, they shall be disposed of by the disposal agency to which the general class of property is assigned. Similarly, if the Standard Commodity Classification does not indicate that an item is included within more than one of the general classes of property assigned in § 8301.2, the assignment of the general class shall control.

§ 8301.6 *Declaration of surplus property.* Each owning agency shall, pursuant to section 11 (a) of the act, continuously survey property in its control and determine that which is surplus to its needs and responsibilities, and, except for such property as the owning agency itself is authorized to dispose of, it shall report such surplus property to the Administrator and to the appropriate disposal agency designated in this part. The reporting of surplus personal property by an owning agency to a disposal agency shall constitute a declaration of surplus. When the disposal agency has notified the owning agency of the date on which any specific location will be organized for disposal operations at the site, the owning agency shall discontinue, as of the specified date, all declarations on WAA Form 1001 (formerly Form SPB–1) of property at such location, unless expressly requested otherwise by the disposal agency.

§ 8301.7 *Declarations of surplus personal property; forms; description of property.* Subject to the provisions of § 8301.9 owning agencies shall declare surplus personal property to the Administrator and to the appropriate disposal agencies on forms as prescribed by Order 3 under this part. The property shall be described in sufficient detail to furnish the disposal agency with an adequate basis for disposal. Unless other provision is made, the minimum standards of descripiton prescribed by the Handbook of Standards for Describing Surplus Property shall be used as a guide for all such descriptions.

§ 8301.8 *Declarations of surplus personal property; special information from owning agencies*—(a) *Limitations on power of disposal.* Declarations of surplus personal property shall fully set forth any legal restrictions upon the authority of the Government to dispose of any personal property, including any restrictions upon the disposal or use thereof arising from any patents or any contract relating thereto, unless such information relating to patents has otherwise been furnished to the disposal agencies.

(b) *Red Cross property.* Declarations of surplus personal property shall designate any such property known to have been processed, produced or donated by the American Red Cross.

§ 8301.9 *Declaration of surplus real property.* The owning agency shall notify the Administrator by a letter of intent on the date upon which it is determined that real property and any personal property connected therewith is no longer required by the owning agency. Where surplus personal property is located in or on such real property, the owning agency shall, unless otherwise directed by the Administrator, declare such personal property surplus in conjunction with the real property. The filing with the Administrator of an acceptable WAA Form 1005, together with WAA Form 1001 where personal property is involved, shall constitute a declaration of surplus real property.

§ 8301.10 *Continental United States; filing declarations of surplus personal property resulting from contractor inventories.* If an owning agency takes possession of any contractor inventory located in the continental United States, it may declare such property surplus to the regional office of the War Assets Administration for the region wherein the property is located. If any property so declared is of a class other than that which is assigned to the War Assets Administration by this part, it will make the necessary classification and forward the declarations to the appropriate disposal agencies unless disposal of such property by the War Assets Administration is authorized under § 8301.16. This section shall not apply to agricultural commodities and foods.

§ 8301.11 *Continental United States; filing declarations of surplus personal property.* Declarations of surplus personal property located within the continental United States shall be filed on forms prescribed by Order 3 under this part at the office of the War Assets Administrator, Washington 25, D. C., and at the office of the appropriate disposal agencies as follows except as otherwise indicated in Order 2 under this part: At the regional offices of the War Assets Administration and at the Washington, D. C. offices of all other disposal agencies. The locations of these offices and the areas comprised by the regions are set forth in Order 2 under this part.

§ 8301.12 *Continental United States, territories and possessions; declarations of surplus real property*—(a) *Filing.* Declarations of surplus real property shall be filed with the War Assets Administrator, Washington 25, D. C. Where personal property is to be declared surplus in conjunction with real property, the owning agency shall in advance notify the appropriate regional office of War Assets Administration or, in the territories and possessions, the appropriate office of the Department of the Interior, of the date on which WAA Form 1001 will be ready for filing. Such office may designate a representative with whom the form may be filed at the installation site and who shall be authorized to accept the declaration for filing. If for any reason such form is not so filed with the designated representative it shall be filed at the War Assets Administration regional office, or, in the territories and possessions, at the appropriate office of the Department of the Interior.

(b) *Transmitting.* The Administrator will transmit the declaration to the appropriate disposal agency and will notify the owning agency of such transmittal.

§ 8301.13 *Territories and possessions; filing declarations of surplus personal property.* Declarations of surplus personal property located in the territories and possessions shall be filed on the forms prescribed in Order 3 under this part with the War Assets Administrator, Washington 25, D. C., and at such offices of the appropriate disposal agency as are specified in Order 2 under this part, or, if not specified, as the disposal agency may direct.

§ 8301.14 *Forwarding declarations of surplus; notice.* Whenever surplus declarations are forwarded by one disposal agency to another disposal agency or to the Administrator under this part, the forwarding disposal agency shall so notify the owning agency which filed the declaration.

§ 8301.15 *Withdrawals*—(a) *Personal property.* With the consent of the disposal agency, an owning agency may withdraw personal property which it has declared surplus and for which a declaration has been transmitted to such disposal agency pursuant to this part: *Provided, however,* That such withdrawals may be made only (1) on the forms prescribed by Order 3 under this part, (2) by the technical service, bureau, or other constituent part of the owning agency, which made the declaration, or its successor, and (3) upon the agreement of the owning agency to pay all freight charges in connection with the movement of the property to the point designated by such agency, in cases where the disposal agency has assumed custody and accountability.

(b) *Real property.* A request by an owning agency for the withdrawal of a declaration of surplus real property shall be transmitted to the Administrator by the filing of WAA Form 1005[1] (formerly Form SPB–5) with complete justification for the requested withdrawal. In cases where the disposal agency has incurred direct costs or obligations in connection with the care or handling of the property, the withdrawal by the owning agency shall be on condition that the disposal agency be reimbursed for any direct costs so incurred and relieved of any such obligations. The Administrator, after consideration of the request and any additional evidence which he deems appropriate, will notify the owning agency and the appropriate disposal agency, if the declaration previously was transmitted thereto, of his decision.

§ 8301.16 *Sales by a disposal agency other than the one to which the property is assigned.* A disposal agency may dispose of personal property which is declared to it as surplus but which is assigned under this part to another disposal agency: *Provided, however,* That disposal of any item of personal property in excess of a reported cost of three hundred dollars ($300) may be made only with the consent of such other disposal agency.

§ 8301.17 *Transfer of surplus property between territories and possessions and continental United States.* No surplus personal property shall be transferred by a disposal agency from one territory or possession to another, or to the continental United States, without the consent of the disposal agency acting as such at the place of destination. Where such consent is given and the transfer is made, disposal shall be made by the disposal agency acting as such at the place of destination.

§ 8301.18 *Authority of disposal agencies to dispose of surplus property.*—(a) *In general.* The disposal agencies designated in this part are hereby authorized and directed to dispose of property declared or assigned to them as surplus. Disposals shall be made in accordance with regulations, orders, and instructions of the War Assets Administrator and those of the Surplus Property Administrator, the Surplus Property Board and the Surplus War Property Administration (created by Executive Order 9425, February 19, 1944) which have not been rescinded and superseded, and in accordance with the objectives and provisions of the act.

(b) *Aircraft, aircraft parts, radio and electrical equipment.* The appropriate disposal agencies are hereby authorized, in accordance with section 19 (c) of the act, to dispose of aircraft and aircraft parts and radio and electrical equipment.

§ 8301.19 *Regulations to be reported to the War Assets Administrator.* Each owning agency and each disposal agency shall file with the War Assets Administrator copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

[1] Reg. 1, Order 3 (11 F. R. 6774, 9572).

§ 8301.20 *Records and reports.* Owning and disposal agencies shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the War Assets Administrator in such manner as may be specified by order issued under this part subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

This revision of this part shall become effective February 23, 1947.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 205—REPORTS OF MOTOR CARRIERS

SUPPLEMENT TO MOTOR CARRIER ANNUAL REPORT FORM A—1947

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 29th day of January A. D. 1947.

The said Division having under consideration its order of November 29, 1946, (11 F. R. 14113) which prescribed that certain Class I common carriers by motor vehicle should keep their accounts and compile statistics for the 12 months ending December 31, 1947, so as to permit them to report certain information as a supplement to Motor Carrier Annual Report Form A for 1947 in a manner similar to that prescribed in the order of March 1, 1946.

And it appearing, that this requirement should be modified by reason of a change in the Uniform System of Accounts as provided in the order of November 27, 1946, effective January 1, 1947: *It is ordered*, That:

Section 205.2 is amended by designating the text of the order of March 1, 1946 (11 F. R. 2451), as paragraph (a) (1), by designating the text of the order of January 6, 1947 (12 F. R. 194), as subparagraph (2) of paragraph (a), by designating the text of the order of November 29, 1946 (11 F. R. 14113), as paragraph (b) (1), and amending paragraph (b) (1) to read as follows:

§ 205.2 *Supplements to Motor Carrier Annual Report Form A*—(a) *1946.* (1) * * *

(2) * * *

(b) *1947.* (1) Each Class I common carrier by motor vehicle engaged predominantly in intercity service as a carrier of general commodities which had gross operating revenue for the year 1945 of $400,000 or more shall keep its accounts and compile statistics which will permit it to report to the Interstate Commerce Commission for the 12 months ending December 31, 1947, the information contained in the Supplement to Motor Carrier Annual Report Form A for 1947, which is attached hereto and made a part of this paragraph.

(49 Stat. 563, sec. 24, 54 Stat. 926; 49 U. S. C. 320)

A copy of this order shall be served upon every Class I common carrier by motor vehicle engaged predominantly in intercity service as a carrier of general commodities which had gross operating revenues for the year 1945 of $400,000 or more, and every receiver, trustee, executor, administrator, or assignee of any such carrier; and notice of this order shall be given the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Division of the Federal Register.

By the Commission, Division 1.

[SEAL] W. P. BARTEL,
Secretary.

Subchapter C—Subsidized Vessels and Operators and Other Vessels in Which the Commission Has an Interest

[Gen. Order 67]

PART 289—INSURANCE OF CONSTRUCTION-DIFFERENTIAL SUBSIDY VESSELS AND OF VESSELS SOLD OR ADJUSTED UNDER THE MERCHANT SHIP SALES ACT OF 1946

Sec.
289.1 Vessels included.
289.2 Provision in subsidy agreements and mortgages.
289.3 Insurance by owners.
289.4 Insurance by Commission.
289.5 Application of excess insurance collected to construction-differential subsidy.

AUTHORITY: §§ 289.1 to 289.5, inclusive, issued under 49 Stat. 1987, as amended by 52 Stat. 964, 60 Stat. 41; U. S. C. 1114.

§ 289.1 *Vessels included.* Vessels subject to the provisions of this part are:

(a) All vessels which may in the future be constructed with construction-differential subsidy allowances under section 502 or section 504 of the Merchant Marine Act, 1936, as amended;

(b) All vessels which have previously been constructed with construction-differential subsidy allowances under section 502 or section 504 of the Merchant Marine Act, 1936, as amended;

(c) All vessels sold under the Merchant Ship Sales Act of 1946; and

(d) All vessels, the purchase prices of which are adjusted or are eligible for adjustment under section 9 of the Merchant Ship Sales Act of 1946.

§ 289.2 *Provision in subsidy agreements and mortgages.* All construction-differential subsidy agreements and mortgages relative to vessels covered in § 289.1 (a) shall provide, wherever possible, that the Commission may, in its discretion require the owner to insure, with commercial underwriters, the amount of the Commission's construction-subsidy interest.

§ 289.3 *Insurance by owners.* Owners of vessels covered in § 289.1 will not be required to arrange commercial insurance to cover the Government's interest, exclusive of its mortgage interest, but the Commission reserves the right to require, whenever the contracts so provide, that this be done at some future date, should it deem it necessary.

§ 289.4 *Insurance by Commission.* The Commission will self-insure its interest, exclusive of mortgage interest, depreciated over a 20-year economic life of the vessel. As to any vessel covered in § 289.1 (a) and (b), the Commission's self-insured interest shall be the amount of the construction-differential subsidy, less depreciation, if any, plus the cost of national defense features. As to any vessel covered in § 289.1 (c) and (d), the Commission's self-insured interest shall be the difference between the pre-war domestic cost and the statutory sales price as defined in the Merchant Ship Sales Act of 1946.

§ 289.5 *Application of excess insurance collected to construction-differential subsidy.* In the event an application is approved for a construction-differential subsidy for aid in the construction of a new vessel under Title V of the Merchant Marine Act, 1936, as amended, and the applicant has previously collected as insurance for the total loss of a vessel covered in § 289.1 an amount in excess of the owner's purchase price of the lost vessel, plus 20% of such price (considered to represent stores, equipment, etc.), plus the cost of betterments placed on said vessel after purchase from the Commission, the applicant shall be required to apply such excess, to an extent not in excess of the depreciated Commission interest in the lost vessel as defined in § 289.4 (less total loss premiums on such amount for periods carried from the date of the delivery at rates fixed by the Commission) to the amount of the construction-differential subsidy determined to be allowable in connection with the purchase of the new vessel.

By order of the United States Maritime Commission.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Office of Indian Affairs

[25 CFR, Part 130]

CROW INDIAN IRRIGATION PROJECT, MONTANA

OPERATION AND MAINTENANCE CHARGES

JANUARY 31, 1947.

Pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (Pub. Law 404, 79th Cong.); the acts of Congress approved August 1, 1914 (38 Stat. 583, 25 U. S. C. 385); March 7, 1928 (45 Stat. 210, 25 U. S. C. 387); and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs September 14, 1946 (11 F. R. 10297), notice is hereby given of intention to amend that part of § 130.12 of Title 25, Code of Federal Regulations, dealing with operation and maintenance charge for Government operated units of the Crow Indian irrigation project, Montana, except Coburn Ditch, by increasing the annual operation and maintenance charge from $1.25 per acre per annum to $1.60 per acre per annum, effective beginning with the irrigation season of 1947 and thereafter until further order.

Interested persons are hereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or argument in writing to Paul L. Fickinger, Director, U. S. Indian Service, Billings, Montana, within 30 days from the date of the publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

SALT RIVER INDIAN IRRIGATION PROJECT, ARIZONA

OPERATION AND MAINTENANCE CHARGES

JANUARY 30, 1947.

Pursuant to section 4 (a) of the Administrative Procedure Act approved June 11, 1946 (Pub. Law 404, 79th Cong.); and authority contained in the Acts of Congress approved August 1, 1914 (38 Stat. 583, 25 U. S. C. 385) and March 7, 1928 (45 Stat. 210, 25 U. S. C. 387); and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs September 14, 1946 (11 F. R. 10297); notice is hereby given of intention to modify § 130.105 of Title 25, Code of Federal Regulations, by eliminating therefrom the annual rate of assessment prescribed for operation and maintenance of the Salt River Indian irrigation project, Pima Indian Agency, Arizona, and to promulgate a separate order for the Salt River Indian irrigation project, reading as follows:

SALT RIVER INDIAN IRRIGATION PROJECT, ARIZONA

§ 130.120 *Basic charge.* Pursuant to provisions of the acts of Congress approved August 1, 1914 and March 7, 1928 (38 Stat. 583; 45 Stat. 210, 25 U. S. C. 385, 387), the basic operation and maintenance charge against the lands under the Salt River Indian irrigation project in Arizona to which water can be delivered through the irrigation project works is hereby fixed at $3.50 per acre per annum until further notice.

§ 130.121 *Payment.* The annual basic charge fixed in § 130.120 shall be due and payable on or before April 1, 1947, and on April 1 of each year thereafter until further notice. Charges not paid on the due date shall stand as a first lien against the lands until paid.

§ 130.122 *Delivery of water.* Delivery of water shall be refused to all tracts of land for which the basic charge remains unpaid on the due date except that water may be delivered (a) to irrigate Indian owned lands that are not under lease, permit, or other form of use by someone other than the Indian owner, upon the partial payment on or before the due date of not less than $1.00 per acre per annum of the basic charge; (b) to irrigate Indian owned lands not under lease, permit, or other form of use by someone other than the Indian owner when said owner is unable to pay any part of the basic charge, upon the performance of labor on project works and the prior agreement that he will pay from the proceeds received for such work at least an amount equal to $1.00 per acre per annum; and (c) to irrigate not to exceed 10 acres of Indian owned land when the Superintendent is of the opinion that an Indian landowner is unable to meet the requirements of paragraphs (a) or (b) of this section, when the Superintendent certifies to that fact. The Superintendent shall promptly furnish the Director of the District, for approval or rejection, all such certifications. In such cases, covered by paragraphs (a), (b) and (c), the unpaid charges shall be entered on the accounts and will stand as a first lien against the land until paid, without penalty.

The foregoing order shall become effective for the calendar year of 1947, and continue in effect thereafter until further notice.

Interested persons are hereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or argument in writing to William Zeh, District Director, U. S. Indian Service, 4100 Rhoads Circle, Phoenix, Arizona, within 30 days from the date of the publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

WALTER V. WOEHLKE,
For the Commissioner.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 2777]

BRITISH COMMONWEALTH PACIFIC AIRLINES LTD.

NOTICE OF HEARING

In the matter of the application of British Commonwealth Pacific Airlines Limited for a foreign air carrier permit under section 402 of the Civil Aeronautics Act of 1938, as amended, authorizing it to engage in foreign air transportation between New Zealand and San Francisco, Calif., via the Fiji Islands, Canton Island, and Honolulu, T. H., and beyond San Francisco to Vancouver, B. C.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly section 402 (e) of said act, that hearing in the above-entitled proceeding is assigned to be held on February 12, 1947, at 10:00 a. m. (eastern standard time) in Room 1302, Temporary Building T, Constitution Avenue between Twelfth and Fourteenth Streets NW., before Examiner Herbert K. Bryan.

Without limiting the scope of the issues presented by said application, particular attention will be directed to the following matters and questions:

1. Whether the applicant is fit, willing, and able properly to perform the proposed air transportation and to conform to the provisions of the act and the rules, regulations, and requirements of the Board thereunder;

2. Whether the proposed air transportation will be in the public interest; and,

3. Whether approval of the proposed air transportation is consistent with any obligation assumed by the United States in any treaty, convention, or agreement that may be in force between the United States and New Zealand.

Notice is also given that any person desiring to be heard shall file with the Board on or before February 12, 1947, a statement setting forth issues of fact or law raised by said application which he desires to controvert.

Dated Washington, D. C., January 31, 1947.

By the Civil Aeronautics Board.

FEDERAL POWER COMMISSION

[Docket Nos. G-811, G-821, G-829]

CITIES SERVICE GAS CO.

ORDER FIXING DATE OF HEARINGS

JANUARY 31, 1947.

Upon consideration of the following applications filed by Cities Service Gas Company (Applicant), a Delaware corporation, with its principal place of business at Oklahoma City, Oklahoma, for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to construct and operate the following described natural-gas pipeline facilities, subject to the jurisdiction of the Federal Power Commission:

(a) Application filed December 5, 1946, in Docket No. G-811, to authorize Applicant to construct and operate a meter setting at a mutually convenient point to Applicant and Surburban Gas, Inc. on Applicant's main 8-inch pipeline in the Southwest Quarter (SW¼) of Section 28, Township 11 South, Range 23 East, Wyandotte County, Kansas.

(b) Application filed December 9, 1946, in Docket No. G-821, to authorize Applicant to construct and operate a positive meter setting at a mutually convenient point to Applicant and Billings Gas Company on Applicant's 20-inch pipeline in the Southeast corner of Section 22, Township 24 North, Range 2 West, Noble County, Oklahoma.

(c) Application filed December 16, 1946, in Docket No. G-829, to authorize Applicant to construct and operate a positive meter setting at a point mutually convenient to Applicant and Nowata County Gas Company on Applicant's 16-inch pipeline in the Northwest Quarter (NW¼) of Section 20, Township 28 North, Range 16 East, Nowata County, Oklahoma.

It appearing to the Commission that:

(a) Applicant proposes the construction and operation of the aforesaid described facilities for the purpose of delivering and selling emergency gas to the above-mentioned distribution companies for resale to the latters' customers; and

(b) These procedings are proper for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that the aforesaid applications be heard under the shortened procedure provided by the aforesaid rule for non-contested hearings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the applications, including publication in the FEDERAL REGISTER.

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), hearings be held on the 19th day of February, 1947, at 9:30 a. m. (est) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters of fact and law asserted in the applications filed in the above-entitled proceedings; *Provided, however,* That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may after a non-contested hearing forthwith dispose of the proceedings by orders upon consideration of the applications and the evidence filed therewith and incorporated in the record of the proceedings, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: February 3, 1947.

[Docket No. G-847]

TENNESSEE NATURAL GAS LINES, INC.

NOTICE OF APPLICATION

JANUARY 31, 1947.

Notice is hereby given that on January 9, 1947, an application was filed with the Federal Power Commission by Tennessee Natural Gas Lines, Inc. (Applicant), a Tennesse corporation with its principal office in Chattanooga, Tennessee, and authorized to do business in the State of Tennessee, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the Applicant to construct and operate natural-gas pipeline facilities, as hereinafter more particularly described.

Applicant seeks authorization to construct and operate the following facilities:

(a) A natural gas transmission pipeline consisting of 16-inch and 12¾-inch diameter pipe, the 16-inch diameter portion commencing at a proposed point of interconnection with the pipeline of Tennessee Gas and Transmission Company about 16 miles northeast of that Company's compressor station No. 10 and extending 181 miles in a southeasterly direction to Chattanooga, and the 12¾-inch diameter portion commencing at Chattanooga and extending 106 miles in a northeasterly direction, to Knoxville.

(b) Lateral lines consisting of approximately 65 miles of 4½-inch O. D. pipe and approximately 76 miles of 3½-inch O. D. pipe, extending from the pipeline described in paragraph (a) above.

Applicant proposes to supply natural gas from the above-described facilities to the following cities and towns in the State of Tennessee, which do not now have natural gas service: Centerville, Mt. Pleasant, Columbia, Lewisburg, Shelbyville, Murfreesboro, Fayetteville, Tullahoma, Manchester, Winchester, Decherd, Cowan, Sewanee, Monteagle, Tracy City, South Pittsburg, Richard City, Jasper, Chattanooga, Ooltewah, Cleveland, Charleston, Calhoun, Riceville, Etowah, Englewood, Athens, Madisonville, Sweetwater, Loudon, Alcoa, Maryville, Lenoir City and Knoxville.

Applicant states that under its present plans it will sell natural gas for the above-mentioned cities and towns at wholesale city gate rates, and will make direct pipeline sales for industrial use to a limited number of large industrial users, and that no construction or acquisition of resale distribution systems by Applicant is presently contemplated. Applicant recites that the proposed rates for the gas service will be supplied when it completes its market studies and surveys. Applicant states it has a contract with Tennessee Gas & Transmission Company for the supply of Applicant's entire natural gas requirements in the markets and areas proposed to be served. Applicant states that it is filing this application on the assumption that Chattanooga Gas Company will become a city gate customer of Applicant, notwithstanding the fact that Chattanooga Gas Company is a wholly owned subsidiary of Southern Natural Gas Company, which last mentioned company now has on file with the Federal Power Commission an Application for the construction and operation of facilities to serve the Chattanooga market and area.

Applicant further states that the Knoxville market and area is now inadequately served with manufactured or artificial gas, and that the Knoxville Utilities Board is anxious that natural gas service be made available in the Knoxville area.

Applicant states that natural gas will enter the proposed pipeline at a pressure of approximately 650 lbs. psig which will provide a delivery pressure of approximately 387 lbs. psig at Chattanooga and approximately 201 lbs. psig at Knoxville; that the proposed facilities will have a capacity of approximately 62,325,000 cubic feet per day at the point of interconnection with Tennessee Gas & Transmission Company, and that this capacity will be sufficient to serve the aforesaid markets and areas for approximately five years without compression.

Applicant makes no statement as to the cost of the proposed facilities or the method of financing the cost of construction.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Tennessee Natural Gas Lines, Inc. should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

MISSISSIPPI RIVER FUEL CORP.

ORDER FIXING DATE OF REHEARING

JANUARY 31, 1947.

It appearing to the Commission that:

By order of November 27, 1946, the Commission granted rehearing upon the issues raised by Mississippi River Fuel Corporation's petition for rehearing respecting the Commission's order of September 27, 1946, such rehearing to be held at a time and place to be fixed by the Commission;

The Commission orders that:

(A) The rehearing provided by the Commission's order of November 27, 1946, be held commencing at 10:00 a. m. (e. s. t.) on February 12, 1947, in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue, N. W., Washington, D. C., respecting the issues raised by the petition for rehearing filed by Mississippi River Fuel Corporation.

(B) Interested State commissions may participate as provided in Rule 8 (18 CFR 1.8) and Rule 37 (18 CFR 1.37) of the Commission's rules of practice and procedure.

[Docket No. G-785]

PANHANDLE EASTERN PIPE LINE CO.

ORDER FIXING DATE OF HEARING

JANUARY 31, 1947.

Upon consideration of the application filed September 19, 1946, Docket No. G-785, by Panhandle Eastern Pipe Line Company ("Applicant"), a Delaware corporation with its principal offices in Kansas City, Missouri, and in Chicago, Illinois, and authorized to do business in the States of Texas, Oklahoma, Kansas, Missouri, Illinois, Indiana, Ohio, and Michigan, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate the following described natural gas pipeline facilities subject to the jurisdiction of the Federal Power Commission:

A gas metering and regulating station and connection at a point in Miami County, Kansas, where a 24-inch and 26-inch parallel pipe line of the Applicant crosses a 4-inch transmission line of the Miami Pipe Line Company, which point is approximately one mile north of the Osawatomie State Hospital in Miami County, Kansas.

It appearing to the Commission that:

(a) Applicant proposes the construction and operation of the aforedescribed facilities for the purpose of supplementing the supply of natural gas needed by the Osawatomie State Hospital located in Miami County, Kansas, by a sale of natural gas to The Miami Pipe Line Company which has a contract to supply the requirements of the hospital. The local supply of natural gas available to the Miami Pipe Line Company for said hospital is inadequate to meet the requirements of the hospital, and the deliveries by the Applicant will not exceed 350 Mcf in any one day of twenty-four (24) hours or a total of 10,000 Mcf in any one month. No part of the gas sold to The Miami Pipe Line Company for resale to the Osawatomie State Hospital is to be delivered to any other purpose or use. Temporary authorization has been granted for the construction and operation of these facilities.

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested hearings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on October 8, 1946 (11 F. R. 11614).

The Commission orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on the 27th day of February 1947 at 9:45 a.m. (e.s.t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C. concerning the matters of fact and law asserted in the application filed in the above-entitled proceeding: *Provided, however,* That if no request to be heard, or protest or petition to intervene, raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may, after a non-contested hearing, forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: February 3, 1947.

[Docket No. G-825]

GAS TRANSPORT, INC.

ORDER FIXING DATE OF HEARING

JANUARY 31, 1947.

Upon consideration of the application filed on December 16, 1946, by Gas Transport, Inc. (Applicant), a Delaware corporation, having its principal place of business in Lancaster, Ohio, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate the following described natural-gas pipeline facilities subject to the jurisdiction of the Federal Power Commission:

Approximately 5.6 miles of 6-inch natural-gas pipeline, together with meters, regulators, and appurtenances, extending from a point near Fulls Run of Reedy Creek in Wirt County, West Virginia, to a point on the present line of Gas Transport, Inc., near the mouth of Lockhart Fork in Jackson County, West Virginia.

It appearing to the Commission that:

(a) Applicant proposes the construction and operation of the above-described facilities for the purpose of connecting Applicant's line with natural gas wells owned by or under contract to United Carbon Company for purpose of augmenting natural gas deliveries to the Anchor Hocking Glass Corporation which is now facing a deficiency as a result of inadequate available natural-gas supply from sources heretofore utilized; and

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946),

Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested hearings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on January 7, 1947 (12 F. R. 108–109).

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on the 26th day of February 1947, at 9:30 a. m. (e. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters of fact and law asserted in the application filed in the above-entitled proceedings: *Provided, however,* That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may after a non-contested hearing forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (b) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: February 3, 1947.

[Docket No. G–830]

CONSOLIDATED GAS UTILITIES CORP.

ORDER FIXING DATE OF HEARING

JANUARY 31, 1947.

Upon consideration of the application filed on December 9, 1946, in Docket No. G–830 by Consolidated Gas Utilities Corporation, a Delaware corporation, having its principal place of business in Oklahoma City, Oklahoma, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described natural-gas pipeline facilities, subject to the jurisdiction of the Federal Power Commission:

Approximately 1½ mile of 2½-inch gas pipe line together with the necessary appurtenances and equipment used in connection therewith, beginning at Applicant's existing 14-inch main gas transmission pipeline in the Southeast corner of the Southeast Quarter of Section 36, Township 29 South, Range 1 West, and extending in a westerly direction approximately ¼ mile, thence in a northerly direction approximately ¼ mile to the site of a dehydrating mill being constructed by the M. W. Dehydrating and Milling Company near Peck, Sedgwick County, Kansas.

It appearing to the Commission that:

(a) Applicant proposes the construction and operation of the above-described facilities for the purpose of rendering natural-gas service to a dehydrating mill being constructed by the M. W. Dehydrating and Milling Company near Peck, Sedgwick County, Kansas; and

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested hearings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on December 25, 1946 (11 F. R. 14657).

The Commission, therefore, orders that:

(A) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on February 24, 1947, at 9:30 a. m. SECURITIES AND EXCHANGE COMMISSION

[File No. 1–1496]

GOLD ORE MINING CO.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of January A. D. 1947.

The Gold Ore Mining Company, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2–1 (b) promulgated thereunder, has made application to withdraw its capital Stock, $1.00 Par Value, from listing and registration on the Los Angeles Stock Exchange. The application alleges that (1) the last reported transaction in the applicant's stock on the Los Angeles Stock Exchange was on December 28, 1942, when 2,000 shares were sold at 1¢ per share; (2) no transactions in this security on the Los Angeles Stock Exchange had occurred prior to December 28, 1942, since 1937; (3) of the 1,975,100 shares of applicant's $1.00 Par Value Capital Stock outstanding, all except 10% is owned by O. R. Howard, president of applicant; (4) applicant has approximately 200 stockholders of record; (5) applicant was inactive on May 24, 1935, when its application with this Commission on Form 10 for registration of its 1,975,100 issued and outstanding common shares on the Los Angeles Stock Exchange was filed, that application for registration having stated: "At present no work is being undertaken or contemplated"; (6) with the exception of a small amount of prospecting work applicant had been inactive for at least 10 or 15 years prior to May 1935; (7) as of December 4, 1946, the date of execution of the instant application, the prospects for reopening applicant's mines for several years seem remote; (8) applicant has filed the required reports to keep current the information in the original application for registration; (9) applicant has but limited funds with which to pay property taxes, registrar's charges, stock exchange calling fee, and the expense of preparing and filing an annual report with the Securities and Exchange Commission; and (10) the Los Angeles Stock Exchange has not adopted any provision of its constitution, by-laws or rules which relates to withdrawal of securities from listing and registration.

Upon receipt of a request, prior to March 1, 1947, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to Louis Loss, Chief Counsel, Trading and Exchange Division, Securities and Exchange Commission, Philadelphia, Pennsylvania. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[File Nos. 54–142, 59–84]

AMERICAN WATER WORKS AND ELECTRIC CO., INC., ET AL.

NOTICE OF FILING OF AMENDMENT EMBODYING MODIFICATION OF PLANS

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 29th day of January A. D. 1947.

In the matters of American Water Works and Electric Company, Incorporated, American Water Works Company, Inc. (formerly American Communities Company), Community Water Service Company, Ohio Cities Water Corporation, West Penn Railways Company, The West Penn Electric Company, (applicants), File No. 54–142; American Water Works and Electric Company, Incorporated and subsidiary companies, (respondents), File No. 59–84.

Notice is hereby given that an amendment has been filed in the above captioned proceedings which is concerned with modifications of Plans (designated in the original filing as Plan I and Plan II) filed by American Water Works and Electric Company, Incorporated ("American"), a registered holding company, and joined in by certain of its subsidiaries, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935. The subsidiaries of American primarily affected by the amended Plans are American Water Works Company, Inc. ("Waterworks Holding Company", formerly American Communities Company), a water works holding company and a direct subsidiary of American; Community Water Service Company ("Community"), a water works holding company and a direct subsidiary of Waterworks Holding Company; Ohio Cities Water Corporation ("Ohio Cities"), a water works holding company and a direct subsidiary of Community; and The West Penn Electric Company ("West Penn Electric"), a registered holding company and a direct subsidiary of American.

The original plans in this matter were filed on February 21, 1946. On December 23, 1946, the Commission issued findings and opinion with respect to the plans as filed. In the findings and opinion it was concluded that the treatment proposed in Plan I for the public security holders of the capital stocks of Community and the preferred stock of Ohio Cities was inadequate. It was further concluded that, under the circumstances of this case, it would be appropriate to grant the request of American and take action at this time with respect to Plan I, prior to resolution of the ultimate treatment to be accorded the preferred

stock of American in connection with its liquidation, as proposed in Plan II, provided that Plan II were modified to establish an adequate escrow fund from which fund any additional payments, above the liquidation price applicable to said preferred stock would be made, if necessary.

American has filed an amendment, joined in by certain of its subsidiaries, which amendment purports to satisfy the conclusions contained in the Commission's findings and opinion by increasing the participation for the preferred stock of Community to $180 per share plus accrued dividends from October 31, 1945 to the effective date of the plan, by providing participation for the publicly held common stock of Community to the extent of one-twentieth of a share of new common stock of Waterworks Holding Company for each share of common stock of Community now held, and by increasing the participation for the preferred stock of Ohio Cities to $159 per share plus accrued dividends from October 31, 1945 to the effective date of the plan.

Additionally, Plan I, as considered by the Commission provided for the issuance by Waterworks Holding Company of warrants, to be distributed to the common stockholders of American at no cost for such warrants, the holders thereof to be permitted to acquire shares of new common stock of Waterworks Holding Company at the initial public offering price, to be determined at competitive bidding. The shares of said new common stock not taken by warrants are to be sold to the public at the initial public offering price. Plan I as modified will permit the elimination of the issuance of these warrants under certain circumstances, and if permitted by further order of this Commission.

Plan II has been modified to provide an escrow agreement to be secured by a note of West Penn Electric in the face amount of $2,200,000 with which to make any additional distribution to the preferred stockholders of American that may be required by this Commission and any court of competent jurisdiction.

For a full statement of the plans as modified all interested persons are referred to the files of the Commission in our Philadelphia offices. In substance the plans as modified may be summarized as follows:

Plan I has been divided into two parts, Part 1 being entitled "Segregation of Waterworks Business," and Part 2 being entitled "Liquidation of Community and Ohio Cities." Plan II remains in one part.

In partial consideration for the securities to be acquired by American Water Works Company, Inc. ("Waterworks Holding Company"), American is to receive transferable subscription warrants entitling the holders to purchase from Waterworks Holding Company a total of 2,343,105 shares of common stock of Waterworks Holding Company (the total number of shares of common stock of American publicly held is 2,343,105). The price at which such shares of common stock may be purchased upon exercise of the warrants will be the initial public offering price of such shares of such stock issued to underwriters, as hereinafter described. In the event that in the opinion of the Board of Directors of American market conditions then prevailing make it impracticable or inadvisable, from the standpoint of the successful consummation of Part 1 of Plan I, to issue such transferable subscription warrants, then, upon the adoption of a resolution to that effect by the Board of Directors of American and the filing with the Commission of an appropriate application which shall have been approved by the Commission or permitted to become effective, the issuance of such warrants will not be made. In the event the subscription warrants are issued American will distribute to its common stockholders (without surrender of their shares and without charge) one warrant for each share of common stock held.

Waterworks Holding Company will offer to the public preferred stockholders of Community Water Service Company ("Community"), a holding company and a direct subsidiary of Waterworks Holding Company, the privilege of exchanging their shares for shares of common stock of Waterworks Holding Company having a value (based on the initial public offering price of such shares of common stock) at the time of exchange equal to the sum of $180 per share of Community preferred stock, plus $7 per share per annum from October 31, 1945 to the final date for making such exchanges and minus the amount per share of any dividends paid on such preferred stock during such period.

Waterworks Holding Company will offer to the public preferred stockholders of Ohio Cities Water Corporation ("Ohio Cities"), a holding company and a direct subsidiary of Community, the privilege of exchanging their shares for shares of common stock of Waterworks Holding Company having a value (based on the initial offering price of such shares of common stock) at the time of exchange equal to the sum of $159 per share of Ohio Cities preferred stock, plus $6 per share per annum from October 31, 1945 to the final date for making such exchanges and minus the amount per share of any dividends paid on such preferred stock during such period.

Waterworks Holding Company will offer to the public common stockholders of Community the privilege of exchanging their shares for shares of common stock of Waterworks Holding Company at the rate of one twentieth of a share of Waterworks Holding Company for each share of common stock of Community now held.

The total number of shares to be issued by Waterworks Holding Company will be the aggregate of: (a) 2,343,105 shares, (b) the total number of shares required, based on the initial public offering price, to effect the exchanges with the publicly held preferred stock of Community, assuming all holders of said stock elect to make the exchanges, (c) the total number of shares required, based on the initial public offering price, to effect the exchanges with the publicly held preferred stock of Ohio Cities, assuming that all holders of such stock elect to exchange, and (d) the number of shares necessary to satisfy the public holders of the common stock of Community.

Any shares not exchanged or subscribed for pursuant to warrants under (a) (b) and (c) above will be sold to underwriters through competitive bidding. The bidding proposal will provide that the bids to the company shall be on the basis of the initial offering price to the public and shall indicate the commission to be paid by Waterworks Holding Company as compensation for the underwriting. As indicated above, any warrants offered to American's common stockholders and exchanges accepted by preferred stockholders of Community and Ohio Cities will be on the basis of the offering price to the public, as determined by the competitive bidding. The shares of common stock of Waterworks Holding Company issuable in exchange for shares of common stock of Community are not to be underwritten.

Fractions of shares of common stock of Waterworks Holding Company will not be issued upon the above-described exchanges, but such fractional interests will be represented by non-voting scrip certificates (to the nearest one thousandth of a share) entitling the holders, upon surrender thereof together with other scrip certificates aggregating one or more whole shares, during the period of two years following the initial date for making such exchanges, to receive whole shares of common stock of Waterworks Holding Company together with any dividends paid on such shares of stock subsequent to the initial date for making such exchanges and prior to the surrender of such scrip certificates. All shares of common stock of Waterworks Holding Company reserved for issuance upon surrender of scrip certificates but not so issued at the expiration of the two-year period are to be sold in the open market for the account of the holders of such scrip certificates not theretofore surrendered and Waterworks Holding Company will remit to, or hold for the account of, such holders their pro rata share of the net proceeds of the shares so sold together with their pro rata share of any dividends paid on the shares sold.

All public holders of the preferred stocks of Community and Ohio Cities not electing to take common stock of Waterworks Holding Company are to receive, upon the liquidation of these companies, cash in the sum of $180 per share plus $7 per share per annum from October 31, 1945, to the final date for making the exchanges and minus the amount per share of any dividends paid on such stocks after October 31, 1945, in the case of Community, and $159 per share plus $6 per share per annum from October 31, 1945, to the final date for making the exchanges and minus the amount per share of any dividends paid on such preferred stock after October 31, 1945, in the case of Ohio Cities.

Subsequent to the consummation of the above-described transactions, and transactions related to their consummation, American is to dissolve and liquidate. In connection with this liquidation, American will, among other things, retire all of its preferred stock, of which 199,868 shares are now outstanding with the public, by distributing to the holders thereof in cancellation of all their stockholdings the amount which they are entitled to receive upon the liquidation of American as determined by an order of the Commission, or a decision of a court of competent jurisdiction (which order or decision shall have become final in accordance with law). This distribution will be effected as follows: (a) if the amount to which the preferred stockholders are so entitled shall have been finally determined by the Commission or a court prior to the date fixed for distribution, American will distribute in cash the full amount to which the security holders are entitled, as so determined; or (b) if the amount to which the preferred stockholders are entitled shall not have been finally determined by the Commission or a court prior to the date of distribution to the preferred stockholders they are to receive: (i) cash equal to $100 per share plus accrued and unpaid dividends thereon to the distribution date, and (ii) a certificate evidencing the obligation of American to pay in cash to such preferred stockholders, or their assigns, such additional amount, if any, as it may later be finally determined that the preferred stockholders are entitled to receive. American will fix the date for this distribution and will mail notice thereof to the preferred stockholders at least five days before the distribution date and prior to the distribution date will deliver to a bank or trust company in trust for the benefit of the preferred stockholders and for distribution to them the cash and certificates, if any be required, for the distribution. If certificates are to be distributed, American will also deposit in escrow with such bank or trust company as security for the payment of amounts, if any, which may become payable upon such certificates, and all expenses in connection with such escrow and payment, cash or demand non-interest bearing promissory notes of The West Penn Electric Company, a registered holding company and a direct subsidiary of American, in the aggregate principal amount of $2,200,000. The making of this delivery to and deposit with the bank or trust company is to be in full cancellation and satisfaction of the preferred stock, and, upon the making thereof, all rights of the preferred stockholders of American as such shall terminate except the right to receive from the bank or trust company cash and certificates, if any be so delivered and deposited, with respect to the shares of the preferred stock held by them, and from and after the distribution date, dividends, as such, on the preferred stock shall cease to accrue (as indicated in Plan II, as originally filed, the Board of Directors of American will from time to time transfer to West Penn Electric cash, which American has received in connection with the consummation of Plan I, in excess of cash required by American).

The certificate of incorporation of American provides among other things that upon liquidation, dissolution, or winding up of the affairs of American, whether voluntary or involuntary, the holders of the preferred stock are entitled to receive in cash $100 per share plus accrued dividends. The redemption price of this preferred stock is $110 per share plus accrued dividends to the date of redemption. The filing indicates that in the judgment of the Board of Directors of American, its preferred stockholders are entitled under the circumstances of this liquidation to $100 per share plus accrued dividends to the date of liquidation. American has reserved the right, by appropriate proceedings, to contest any order of the Commission or decision of a court which shall determine that the preferred stockholders are entitled upon the liquidation of American to receive anything in excess of that amount.

American has requested that any order of the Commission approving its proposals under section 11 (e) of the act conform to the requirements of and contain the recitals, specification, and itemization required by Supplement R, and section 1808 (f) of the Federal Internal Revenue Code, as amended, and section 270–c (10) of the Tax Law of the State of New York.

American further requests that the order to issue with respect to its modified plans become effective forthwith upon issuance.

Applicants also request that, as provided in section 11 (e) of the act, the Commission apply to an appropriate United States District Court in accordance with the provisions of subsection (f) of section 18 of the act to enforce and carry out the plans in accordance with the terms and provisions thereof.

Notice is given that any interested person may, not later than February 11, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held with respect to the modifications proposed by American to its pending plans pursuant to section 11 (e) of the act, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by such proposed modifications which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. In the event that any such request for a hearing is received and favorably acted upon by the Commission, the hearing with respect to this request, or requests, will be convened on February 17, 1947. At any time after February 11, 1947, in the event no hearing is held with respect to the modified plans, the Commission may issue its order with respect thereto.

It is hereby ordered, That American give notice of the filing of these modifications to its plans to all known holders of its capital stock and to all known holders of the capital stocks of Community and the preferred stock of Ohio Cities by causing a copy of this notice of filing to be mailed to such holders at their respective last known addresses, such mailing to be completed not less than ten days prior to February 11, 1947.

By the Commission.

NEW YORK WATER SERVICE CORP. ET AL.

SUPPLEMENTAL FINDINGS, OPINION AND ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of January A. D. 1947.

In the matters of New York Water Service Corporation, Federal Water and Gas Corporation, File No. 59–35; Federal Water and Gas Corporation and subsidiary companies (respondents), File No. 59–61; Federal Water and Gas Corporation and subsidiary companies, File No. 54–66.

On November 12, 1946, this Commission entered its findings and opinion and order, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, approving a plan for the recapitalization of New York Water Service Corporation ("New York"). See New York Water Service Corporation, et al., — S. E. C. — (1946) Holding Company Act Release No. 6984. New York, a subsidiary of Federal Water and Gas Corporation ("Federal"), a registered holding company, owns and operates water distribution systems and sells water at wholesale to a number of municipalities and water districts within the State of New York; in addition, it also controls three subsidiaries which are engaged in the same business and also operate in New York State.

The plan, approved by us as necessary to effectuate the provisions of section 11 (b) of the act and fair and equitable to the persons affected thereby, provided for the following:

(1) The reclassification of the outstanding 46,532 shares of the 6% cumulative preferred stock of New York with a par value of $100 per share and an aggregate par value of $4,653,200 (with dividend arrears of $3,990,119, or $85.75 per share as of December 31, 1945) into 46,532 shares of no par value common stock with a stated value of $465.32, or one cent per share.

(2) The issuance by New York of 46,532 shares of such no par value common stock to the holders of the 6% cumulative preferred stock of New York in exchange for such preferred stock, on the basis of one share of such new common stock for each share of such preferred stock.

(3) No recognition accorded to the presently outstanding common stock of New York, all owned by Federal, and the surrender of such common stock by Federal to New York.

Pursuant to the request of New York, the Commission filed an application, pursuant to sections 11 (e) and 18 (f) of the act, with the District Court of the United States for the Southern District of New York for an order approving and enforcing the plan, and proceedings before that court are still pending.

On December 13, 1946, and January 28, 1947, New York filed with this Commission amendments to the plan, which provide for a change in the proposed stated value of the new no par value common stock from $465.32, or one cent per share, to $46,532, or one dollar per share. It appears from the amend-

ments that the change in the stated value of the new common stock is being made to satisfy the requirements of the Stock Corporation Law of the State of New York.

The plan as above amended has been filed with the New York Commission, which on January 23, 1947, adopted a memorandum indicating that it would approve the amended plan subject to similar conditions contained in its previous memorandum approving the plan (see footnote 9 of Holding Company Act Release No. 6994). The above-described change in the stated value of the new common stock of New York does not modify our previously expressed opinion that the plan is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby.

It is therefore ordered, Pursuant to section 11 (e) and other applicable sections of the act, that the plan, as amended be, and it hereby is, approved, subject, however, to the same terms and conditions of our order of November 12, 1946 (Holding Company Act Release No. 6994).

By the Commission.

PUBLIC SERVICE CO. OF NEW MEXICO

NOTICE OF FILING AND ORDER EXTENDING TIME WITHIN WHICH A HEARING MAY BE REQUESTED

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of January 1947.

Notice is hereby given that Public Service Company of New Mexico ("Public Service"), a public utility subsidiary of Federal Light & Traction Company, a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935. Applicant designates section 6 (b) of the act as applicable to the proposed transaction.

The Commission, under date of January 16, 1947, issued its notice of filing (Holding Company Act Release No. 7137) with respect to the matter herein and, pursuant to the provisions of Rule U-23, specified January 27, 1947 as the date by which any interested person might request a hearing. In addition to service of said notice upon certain interested persons, copies thereof were released to the press and mailed to persons on the Commission's mailing lists. However, publication of said notice in the FEDERAL REGISTER was inadvertently omitted and the Commission deeming it appropriate to extend the time within which any interested person may request that a hearing be held:

It is ordered, That the time within which any interested person may request that a hearing be held in this matter be, and hereby is, extended to and including February 13, 1947.

Notice is given of such extension of time and that any interested person may request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after February 13, 1947 said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application, which is on file in the office of this Commission, for a statement of the transaction therein proposed which is summarized below:

Public Service proposes to borrow $1,000,000 from Irving Trust Company and to issue in evidence thereof its promissory note with a maturity of nine months and bearing interest at the rate of 2% per annum. The issuance of such note is for the stated purpose of temporarily financing additional construction in the territory served by the company.

The amount of such note will constitute approximately 11% of the principal amount and par value of other outstanding securities of Public Service and the company requests authorization, pursuant to the first sentence of section 6 (b) of the act, to issue such note. It is represented by the applicant that no State commission has jurisdiction over the proposed transaction.

The applicant requests that the Commission's order granting said application be issued as soon as practicable and become effective immediately upon issuance.

By the Commission.

E. HEIMANN

In re: Stock, bond coupons and bank account owned by E. Heimann. F-28-25363-A-1.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That E. Heimann, the last known address of which is Breslau, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows:

a. One hundred (100) shares of $100 par value 6% cumulative preferred capital stock of Havana Electric Railway Company, Avenida Simon Bolivar 67, Havana, Cuba, a corporation organized under the laws of the State of Maine, evidenced by certificate number NY 239, registered in the name of Speyer & Co., and presently in the custody of The Chase National Bank of the City of New York, 18 Pine Street, New York, New York, together with all declared and unpaid dividends thereon,

b. One hundred ten (110) shares of no par value common capital stock of Havana Electric Railway Company, Avenida Simon Bolivar 67, Havana, Cuba, a corporation organized under the laws of the State of Maine, evidenced by certificate number NY 097 for ten (10) shares, registered in the name of Robert M. Lowitz, and certificate number NY 952 for one hundred (100) shares, registered in the name of Emil Rauchheld, presently in the custody of The Chase National Bank of the City of New York, 18 Pine Street, New York, New York, together with all declared and unpaid dividends thereon,

c. Ninety-one (91) coupons, of $20 face value each, detached from each of four (4) St. Louis Southwestern Railway Company second mortgage gold income bond certificates, bearing numbers 3450, 2841, 307 and 3856, being three hundred sixty-four (364) coupons in all, said coupons being presently in the custody of The Chase National Bank of the City of New York, 18 Pine Street, New York, New York, and

d. That certain debt or other obligation owing to E. Heimann, by The Chase National Bank of the City of New York, 18 Pine Street, New York, New York, arising out of a cash custodian account, entitled E. Heimann, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

PACKERS OF CANNED OYSTERS

Pursuant to section 3 of the Administrative Procedure Act (60 Stat. 237, 238), the following statement of policy is issued:

§ 3.1 *Notice to packers of canned oysters.* Regulations fixing a standard of fill of container for canned oysters were promulgated on November 25, 1944 (21 CFR, 1944 Supp., 36.6). This standard requires that the drained weight of oysters, when the drained weight of such oysters in the can averages less than ½ ounce per oyster, shall be not less than 68 percent of the water capacity of the can in which packed. For the No. 1 can, often referred to as the No. 1 eastern oyster can, having outside dimensions of diameter 2 11/16 inches and height 4.0 inches, a drained weight of about 7.5 ounces of oysters is required.

At the hearing which resulted in the promulgation of this standard, there was insufficient evidence to warrant findings of fact on which to base a standard of fill of container when the drained weight of oysters in a particular can averages ½ ounce or more per oyster. No standard for oysters of such size was established at that time.

It has recently come to our attention that some packers of canned oysters are now putting up large oysters, not subject to the requirements of the fill of container standard, so that the drained weight in many instances is 5 ounces or even less for the No. 1 can. Although such canned oysters are not subject to the provisions of the fill of container standard they are subject to the substantive provisions of the Federal Food, Drug, and Cosmetic Act. Section 402 (b) (2) of this act states that a food shall be deemed to be adulterated if any substance has been substituted wholly or in part therefor. Section 403 (d) of

the act provides that a food shall be deemed to be misbranded if its container is so made, formed or filled as to be misleading. It is our opinion that these sections apply to canned oysters if water, brine, or liquid draining from oysters during processing, replaces a quantity of oysters which should be added to fill the can.

It is the intention of this agency to call a hearing as soon as practicable on proposals to adopt definitions and standards of identity and standards for fill of container for all canned oysters. In the meantime the Food and Drug Administration will apply the substantive provisions of the act to canned oysters where the container is not as full of oysters as is practicable without injury to the quality or appearance of the product. Chapter I—Office of Temporary Controls

Subchapter D—Office of War Mobilization and Reconversion

PART 32—LIQUIDATION OF THE OFFICE OF WAR MOBILIZATION AND RECONVERSION

§ 32.9 *Liquidation of the Office of War Mobilization and Reconversion.* Pursuant to the authority of Executive Order 9809, dated December 12, 1946 it is hereby directed that the Office of War Mobilization and Reconversion as such be liquidated and that the liquidation shall be completed not later than June 30, 1947. All residual operating and administrative functions, such as those relating to accounts, personnel, history and records shall be assumed by the Office of Temporary Controls Administrator immediately after June 30, 1947.

§ 32.10 *Responsibility for liquidation.* The Commissioner for War Mobilization and Reconversion shall be responsible for the orderly liquidation of the Office of War Mobilization and Reconversion. As rapidly as possible determination shall be made by the Commissioner as to the effective dates for the termination of individual Office of War Mobilization and Reconversion functions. Following such determinations appropriate steps shall be taken to effect the liquidation of these functions by the dates so determined.

PART 1001—TIN

[Conservation Order M-43, Revocation of Direction 1]

STATUS OF AUTHORIZATIONS

Direction 1 to Conservation Order M-43 is hereby revoked. This revocation does not affect any liabilities incurred for violation of the direction or of actions taken by the War Production Board or the Civilian Production Administration under this direction.

Issued this 6th day of February 1947.

PART 1001—TIN

[Conservation Order M-43, as Amended Feb. 6, 1947]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of tin for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

INDEX

(a) What this order does.

Deliveries of Pig Tin

(b) Restriction on deliveries of pig tin.
(c) Allocations of pig tin.
(d) Reports on use, disposition and inventories of pig tin.

Use of Tin in Manufacture

(e) General restrictions on the use of pig tin, secondary tin, tin plate, terne plate, solder, babbitt and other tin-bearing alloys.
(f) [Deleted February 6, 1947.]
(g) Special restrictions on the use of metals to which pig tin has been added.
(h) [Deleted February 6, 1947.]

Implements of War

(i) Exemptions for implements of war.

Use and Sale of Articles Containing Tin

(j) General restrictions on the use and sale of tin-bearing products.
(k) Special restrictions on purchases and sales of certain articles containing tin.

Inventories

(l) Limitation on inventories.

Miscellaneous

(m) Appeals and communications.
(n) Violations.

Schedules of Permitted Uses

Schedule I—Miscellaneous.
Schedule II—Solders.
Schedule III—Babbitt.
Schedule IV—Brass and bronze.
A. Cast alloys.
B. Wrought alloys.
Schedule V—Use of tin to repair gas meters (superseded by item (b) (7) of Schedule II).
Schedule VI—Tin plate, terne plate, and terne metal.

§ 1001.1 *Conservation Order M-43*—(a) *What this order does.* This order prohibits deliveries of pig tin except under certain conditions and provides for allocation of pig tin by the Civilian Production Administration. It also restricts the use of pig tin, secondary tin, certain tin-bearing products and tinplate in manufacture. The order also restricts sales and deliveries of jewelry and certain other articles containing tin. Although paragraph (h) of the order which contained special restrictions on the use of tin in jewelry and certain other articles has now been deleted, all other provisions of the order still apply to these articles, including the restrictions of paragraphs (e) and (g) on use of tin, and the special sales restrictions of paragraph (k). The order also limits inventories of tin. Certain other orders of the Civilian Production Administration also restrict the manufacture and use of articles containing tin. The provisions of these other orders must also be followed.

Deliveries of Pig Tin

(b) *Restriction on deliveries of pig tin.* No person shall deliver or accept delivery of pig tin without a specific allocation in writing by the Civilian Production Administration or the War Production Board, except under the conditions set forth in paragraphs (b) (1) and (b) (2) below. "Pig tin" means metal containing 98% or more by weight of the element tin, in shapes current in the trade (including anodes, powder, small bars and ingots) produced from ores, residues or scrap. It also includes tin pipe or tubing.

(1) Pig tin may be delivered without specific allocation to the Office of Metals Reserve, Reconstruction Finance Corporation, or to any other corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act as amended or to any agent of such a corporation.

(2) Pig tin may be delivered without specific allocation by a distributor in lots not larger than 2,000 pounds each to any person who does not receive from all sources more than 4,000 pounds of pig tin in the calendar month the distributor makes the delivery and who gives to the distributor at the time he places his purchase order, a certificate in substantially the form below, signed manually or as provided in Priorities Regulation 7 by an official duly authorized for that purpose:

> I certify, subject to the penalties of Section 35 (A) of the United States Criminal Code, that I will use this pig tin for ---------- (specify end use) in accordance with Order M-43 or will resell it only in accordance with that order. I will not receive more than 4,000 pounds of pig tin from all sources in ---------- (specify month of delivery) including the amount covered by this order.
>
> ----------
> (Name of purchaser)
> By ----------
> (Duly authorized official)

If the pig tin, or any portion of it, to be delivered under this subparagraph is to be exported outside the United States, its territories or possessions, or Canada, the purchaser (exporter) should state as the end use in the certificate the words "for export" and give the number of the export license.

(c) *Allocations of pig tin.* The Civilian Production Administration will allocate the supply of pig tin, including all pig tin released by the Reconstruction Finance Corporation, and will issue specific directions as to the source, destination and amount of pig tin to be delivered or acquired. Applications for allocations of pig tin should be made to the Civilian Production Administration not later than the 20th day of the month before the month in which delivery is requested, and should be made on Form CPA-412. Except in unusual circumstances, the Civilian Production Administration will not allocate to a person for a calendar quarter an amount greater than 110% of the quantity he legally melted and put into process during the second quarter, 1946, plus the quantity which he sold during that quarter. Applications from persons who did not use pig tin during the base period (including persons who were not in business at that time) will be considered on an equitable basis. Tin requested for resale must be disposed of only by resale. The Civilian Production Administration may specifically direct the purposes and end products for which a person may convert, process or fabricate pig tin allocated to him.

(d) *Reports on use, disposition and inventories of pig tin.* (1) On or before the 10th of each calendar month, each distributor of pig tin must report to the Civilian Production Administration on Form CPA-412 or by letter in triplicate all of his transactions in pig tin during the previous month.

(2) Any person who, on the first day of a calendar month, has in his possession or under his control 2,000 pounds or more of pig tin must report to the Civilian Production Administration on Form CPA-412 by the 20th of that month.

(3) Any person who uses 1,000 pounds or more of pig tin in any calendar month must report to the Civilian Production Administration on Form CPA-412 on or before the 20th of the following month.

(4) The reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Use of Tin in Manufacture

(e) *General restrictions on the use of pig tin, secondary tin, tin plate, terne plate, solder, babbitt and other tin-bearing materials.* No person may use any pig tin, secondary tin, tin plate, terne plate, solder, babbitt, copper base alloys or other alloys containing 1.5% or more tin, or any other materials containing 1.5% or more tin, or any britannia metal pewter metal or other similar tin-bearing alloys to make or treat any item or product, or in any process, not set forth in one of the schedules attached to this order. In making or treating these items, or performing these processes, pig tin may not be used where the schedule permits secondary tin only, and the tin content of an item may not exceed the amount indicated in the schedule.

"Pig tin" means metal containing 98% or more by weight of the element tin, in shapes current in the trade (including anodes, powder, small bars, and ingots) produced from ores, residues or scrap. It also includes tin pipe or tubing. "Secondary tin" means any alloy which contains less than 98% but not less than 1.5% by weight of the element tin.

(f) [Deleted February 6, 1947.]

(g) *Special restrictions on the use of metals to which pig tin has been added.* No person may use metal to which pig tin has been added to produce any product or perform any process for which pig tin is not permitted by one of the schedules attached to this order.

(h) [Deleted February 6, 1947.]

Implements of War

(i) *Exemptions for implements of war.* (1) The restrictions of paragraphs (e) and (g) and of the schedules do not apply to the manufacture of "Implements of war" produced for the Army or Navy of the United States, or the U. S. Maritime Commission where the use of tin contrary to these restrictions is required either by the latest applicable specifications, on drawings, or by letter or contract of the government service or agency for which the "Implements of war" are being produced.

(2) "Implements of war" means combat end-products, complete for tactical operations (including, but not limited to aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of these items. This term does not include facilities or equipment used to manufacture the items described above.

Use and Sale of Articles Containing Tin

(j) *General restrictions on the use and sale of tin-bearing products.* (1) In some cases the schedules attached to this order permit the use of pig tin or secondary tin in making a product only if the product is to be used for a particular purpose. No person shall use any of these products for any purpose other than the purpose permitted by the schedule.

(2) No person giving a certificate under this order or its schedules may receive, use or dispose of the materials obtained with the certificate contrary to its terms. The standard certificate described in Priorities Regulation 7 may not be used in place of any of the certificates described in this order or its schedules.

(3) Notwithstanding the authorization by the War Production Board or the Civilian Production Administration of a sale or delivery of tin, no person shall sell or deliver any tin or tin-bearing material or product thereof in the form of raw materials, semi-processed materials, finished parts or subassemblies to any person if he knows or has reason to believe such material or any product thereof is to be used in violation of the terms of this order. A supplier may rely upon the written statement of the customer seeking delivery of any such material, as to the purposes for which it will be used, unless the supplier knows or has reason to believe the statement is false, and such a statement shall constitute, on the part of the person making it, a representation to the Civilian Production Administration within the meaning of section 35 (A) of the United States Criminal Code, 18 U. S. C. sec. 80.

(k) *Special restrictions on purchases and sales of certain articles containing tin.* No person, for the purpose of resale, shall receive from a manufacturer any new article of the kinds listed below, if the article contains tin in any form except tin plate waste waste, or terne plate waste waste, tin plate scrap or terne plate scrap, solder used for joining purposes (to the extent permitted by Schedule II), or brass or bronze (to the extent permitted by Schedule IV). No person shall sell or deliver any new article of the kinds listed below, if the article contains tin in any form except tin plate waste waste, or terne plate waste waste, tin plate scrap or terne plate scrap, solder used for joining purposes (to the extent permitted by Schedule II), or brass or bronze (to the extent permitted by Schedule IV), unless he has an authorization in writing from the Civilian Production Administration or the War Production Board for the sale or delivery. A person who wishes to get such an authorization should apply to the Civilian Production Administration by letter in triplicate, giving a report of his inventory of all of the items listed below containing tin in any form except tin plate waste waste, or terne plate waste waste, tin plate scrap or terne plate scrap, solder used for joining purposes (to the extent permitted by Schedule II), or brass or bronze (to the extent permitted by Schedule IV), showing the quantity of each item in his possession on March 1, 1945, the names and addresses of the sellers from whom he bought the items, and the dates the purchases were made. Authorizations will ordinarily be given, except where it appears that the purchases were in violation of Order M-43. "New article" means one which has not been used by an ultimate consumer. A purchaser for resale of articles of the kinds listed below may rely on a written certification by his supplier that they contain no tin in any form except tin plate waste waste or terne plate waste waste, tin plate scrap or terne plate scrap, solder used for joining purposes (to the extent permitted by Schedule II), or brass or bronze (to the extent permitted by Schedule IV), unless he knows or has reason to believe the statement is false.

1. Advertising specialties.
2. Art objects.
3. Britannia metal, pewter metal or other similar tin-bearing alloy.
4. Buckles.
5. Buttons.
6. Emblems and insignia.
7. Jewelry.
8. Novelties, souvenirs and trophies.
9. Ornaments and ornamental fittings.
10. Toys and games.

Inventories

(l) *Limitation on inventories*—(1) *Pig tin.* No person who uses pig tin (except a manufacturer of tin plate) shall accept delivery of any of that material if his inventory of it is, or will by virtue of such acceptance become, more than the amount which he will be required by his current practices to put into use during the next succeeding 45 days in order to carry out his current operations for permitted uses. Manufacturers of tin plate are subject to the minimum practicable working inventory limitations of Paragraph (c) (1) of Priorities Regulation 32 with respect to pig tin.

(2) *Solder, babbitt, and other alloys containing tin.* No person who uses solder, babbitt, or other alloys containing tin (except copper base alloys) shall accept delivery of any type of those materials if his inventory of that type of material is, or will by virtue of such acceptance become, more than the amount which he will be required by his current practice to put into use during the next succeeding 30 days in order to carry out his current operations for permitted uses. The inventory of a person who uses copper base alloys (including those which contain tin) is controlled by the provisions of Priorities Regulation 32.

(3) *Priorities Regulation 32 also applies.* Persons buying tin or products containing tin for use or resale are also subject to the inventory restrictions of Priorities Regulation 32 (including the restrictions on ordering and processing) except to the extent that this paragraph imposes more restrictive controls.

Miscellaneous

(m) *Appeals and communications.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal. Priorities Regulation 16 gives additional instructions about the filing of appeals. Appeals, reports and all communications concerning this order should be addressed to the Civilian Production Administration, Tin, Lead, and Zinc Branch, Washington 25, D. C., Reference: M-43.

(n) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 6th day of February 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

Schedules of Permitted Uses

Under Order M-43 pig tin, secondary tin, tin plate, terne plate, solder, babbitt, copper base alloys and other materials containing tin may be used only in the production of the items and for the purposes set forth in the following schedules, subject to the limitations, restrictions and conditions specified in these schedules with respect to the various items and purposes.

SCHEDULE I—MISCELLANEOUS

(1) *Detonators and blasting caps.* Pig or secondary tin may be used to make detonators and blasting caps (including electric blasting caps) including all their necessary parts and accessories.

(2) *Collapsible tubes.* (a) Pig or secondary tin may be used to make collapsible tubes for the following purposes, if the tin content by weight of the tube is no greater than the maximum specified below:

Product	Maximum permitted tin content (percent of tin by weight)
Ointments and other preparations for opthalmic use, sulfa drugs in ointment or jelly form, diagnostic extracts (allergens), and morphine or hypodermic injection	Unlimited
Preparations intended for introduction into the body orifices for local application, and medicinal and pharmaceutical ointments (excluding unmedicated petroleum jelly and lanolin)	Unlimited
Dental cleansing preparations	3%

Secondary tin may be used to make lead collapsible tubes for any purpose if the tin content of the tube is not greater than 0.5% by weight.

(b) [Deleted July 5, 1946.]

(c) No person may purchase, accept delivery of, or use collapsible tubes containing tin for packing products except those permitted above.

(3) *Foil.* (a) Pig or secondary tin may be used to make foil for the following purposes if the tin content by weight of the foil is no greater than the maximum specified below:

Purpose	Maximum permitted tin content (percent of tin by weight)
(i) Electrotypers foil	30%
(ii) Dental foil	Unlimited
(iii) Soft babbitt for the preparation of industrial metallic packing	1½%
(iv) Condenser foil of dimensions 0.00035 inch by ¾ inch or less	50%
(v) Condenser foil for all other condensers	5%
(vi) Foil for aircraft magnetos	50%
(vii) Cap liner foil for packing medicinal, pharmaceutical, and biological preparations containing chloroform or other highly volatile chemicals for which other types of liners cannot be used	Unlimited

(b) [Deleted July 5, 1946.]

(4) *Dairy equipment.* Pig or secondary tin may be used to coat fluid milk shipping containers or to manufacture or retin any other dairy equipment.

(5) *Equipment for preparing and handling food.* (a) Pig or secondary tin may be used to coat or to retin any parts of kitchen utensils, galley and mess equipment and other equipment used in processing and handling of food if the parts are designed to come into actual contact with food or to plate cutlery and flatware.

(6) *Wire coating.* Tin or tin alloys may be prepared and used for coating wire as follows:

(a) *For copper base wire.* There is no limitation upon the tin content of the coating alloy when the copper base wire to be coated is of a size of 0.0320" nominal diameter or finer. If the wire to be coated is of a size larger than 0.0320" nominal diameter, the tin content of the coating alloy is limited to 12% tin by weight.

(b) *For steel wire.* (i) To be used as armature binding wire.

(ii) To be used in the manufacture of equipment for the production of textiles.

(iii) To be used in the packaging or marking of meat where the wire comes into actual contact with the meat.

(iv) In the liquor finishing process of fine steel bright wire.

(c) [Deleted July 5, 1946.]

(7) *Lead base alloys for coating.* Lead base alloys containing tin for coating sheet, tubing, wire, foundry chaplets, etc., may be manufactured and used if the tin content of the alloy does not exceed 7% of tin by weight.

(8) *Printing plates and type metal.* Printing plates and type metal containing tin may be made for use by the printing, publishing and related service industries.

(9) *Dental amalgam alloys.* Tin may be used in the manufacture of dental amalgam alloys without restriction as to the tin content of the alloys.

(10) *Pipe organs for religious and educational institutions.* Pipe organs for religious and educational institutions may be manufactured, rebuilt, or repaired with secondary tin.

(11) *Bolster metal.* Bolster metal may be made and used in the manufacture of surgical instruments if the tin content of the bolster metal does not exceed 10% of tin by weight.

(12) *Fusible alloys and dry pipe seat rings.* Pig or secondary tin may be used in the manufacture of dry pipe valve seat rings to the extent required to meet performance specifications; and in the manufacture of fusible alloys for safety purposes only, to the extent required to meet minimum code requirements with respect to the operation of the product in which the alloy is to be contained.

(13) *Tin pipe and sheet.* (a) Pig or secondary tin may be used to make tin pipe, sheet tin, and fittings to repair or maintain beverage dispensing units and their parts, if the consumer for whom the pipe, sheet or fittings are made returns to the supplier a quantity of scrap tin having the same tin content as that of the new pipe, sheet or fittings delivered to him.

(b) Pig or secondary tin may be used to coat copper or brass pipe and fittings for beverage or distilled water dispensing purposes.

(c) Tin pipe or tubes may be used in the manufacture of new soda fountains, food and beverage dispensing units, and where required for conducting chemically pure distilled water.

(14) *Chemicals.* Tin or tin chemicals may be used as laboratory reagents, for medicinal purposes and for plating processes where plating is permitted.

(15) *Tin oxide.* Tin oxide may be used for the production of chrome green, pink, yellow, and red colors, and for the production of earthenware plumbing fixtures.

(16) *Snap fasteners and hooks and eyes.* Pig or secondary tin may be used to plate snap fasteners, and hooks and eyes.

SCHEDULE II—SOLDERS

(a) *Certificates.* No manufacturer or wholesale distributor shall sell or deliver any solder to a wholesale distributor or retailer and no wholesale distributor or retailer shall purchase or accept delivery of any solder unless the purchaser has given to the seller a statement that he will not resell the solder to a user without obtaining from the user the certificate called for below. No manufacturer, wholesale distributor or retailer shall sell or deliver any solder to a user and no user shall purchase or accept delivery of any solder from a manufacturer, wholesale distributor or retailer unless the user has given to the seller the certificate called for below:

> The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the Civilian Production Administration that the tin contained in the material covered by this order shall be used solely for the purpose listed in Schedule II, section — of Conservation Order M-43, or is to be incorporated in an "implement of war" and the tin content of the material has been definitely specified in accordance with paragraph (l) of this order.

(b) *Tin content.* In the manufacture of solder, the tin content by weight shall be limited as follows, according to the purpose for which it is to be used:

Purpose	Maximum tin content of solder (percent of tin by weight)
(1) For all cellular type radiators (average per radiator)	21%
(2) For all fin and tube type radiators for military and civilian use (average per radiator)	82%
(3) Soldering end seams on all solder seamed cans	30%
(4) For a filler or smoother for automobile or truck bodies or fenders or for similar purposes	15%
(5) For soldering side seams in the manufacture of cans made with either lock or lap side seams or with a combination of lock or lap seams	5%
(6) For sealing milk cans	21%
(7) For all soldering on motors, generators, electrical equipment, instruments, meters, radio, radar, tanks, fire protection equipment, refrigeration equipment, dairy equipment, and food processing equipment	50%
(8) For soldering aluminum	60%
(9) For other hand soldering operations done either with a soldering iron or with a torch and wiping	40%
(10) For any other soldering operations	35%

(c) [Deleted July 5, 1946.]

SCHEDULE III—BABBITT

(a) No manufacturer or wholesale distributor of babbitt shall deliver any babbitt containing more than 10% tin by weight to any wholesale distributor of babbitt and no wholesale distributor of babbitt shall accept delivery from a manufacturer or a wholesale distributor unless he shall have furnished the manufacturer or other wholesale distributor with a statement on his purchase order to the effect that he will not resell such babbitt containing more than 10% tin by weight to any user unless he has received the certificate from such user set forth below. No manufacturer of babbitt or wholesale distributor of babbitt shall deliver any babbitt containing more than 10% tin by weight to any user and no user shall accept delivery of any babbitt containing more than 10% tin by weight from any manufacturer of babbitt or wholesale distributor of babbitt unless the user shall have furnished the manufacturer or wholesale distributor with the certificate set forth below:

> The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code to the seller and to the Civilian Production Administration, that the tin contained in the material covered by this order shall be used solely for the purpose listed in Schedule III, section — of Conservation Order M-43, or is to be incorporated in an "implement of war" and the tin content of the material has been definitely specified in accordance with paragraph (l) of said Order M-43.
>
> ----------
> (Name of purchaser)
> By ----------
> (Duly authorized official)

(b) *Tin content.* In the manufacture of babbitt metal and similar alloys used as babbitt, the tin content shall be limited as follows, according to the purpose for which it is to be used:

Purpose	Maximum tin content of babbitt (percent of tin by weight)
(1) For the manufacture, repair, maintenance or replacement of multivane crosshead linings in locomotives or for lining aluminum crossheads	Unlimited
(2) Any other bearing purpose	90%

Babbitt may not be used for any purpose except those listed above.

(c) [Deleted February 6, 1947.]

SCHEDULE IV—BRASS AND BRONZE

A. CAST ALLOYS

(a) *Tin content.* No person shall cast or have any person cast for him any copper base alloy containing 1.5% or more tin by weight for other than the specific purposes listed below. The tin content of any such alloy shall not be more than the amount specified for each purpose.

Purpose	Maximum tin content (percent of tin by weight)
(1) For the manufacture of high ratio worm gears, fire engine pump gears, jack nuts, feed nuts, elevating nuts, thrust washers or disks, machine tool spindle bearings, hydraulic pump bodies and ends for gear pumps, grinder spindle sleeve bearings, step bearings, internal parts of industrial centrifugal pumps and injectors, and collector rings	12%
(2) For the manufacture of piston rings for locomotives and for air-brake equipment	20%
(3) For use as bearings and bushings	9%
(4) For bearings produced by process of powder metallurgy	10%
(5) For production of or use in tablets, markers, and memorials	3.5%
(6) For all other castings	6%

(b) *Certificate.* Any person receiving copper base alloy castings containing 1.5% or more tin shall furnish his supplier with a certificate on his purchase order stating the end use of such castings. All suppliers shall require such a certificate. If the end use is not permitted by M-43, and the purchaser has not special authorization from the Civilian Production Administration or the War Production Board, the supplier shall refuse the order.

(c) [Deleted July 5, 1946.]

B. WROUGHT ALLOYS

Pig or secondary tin may be used to make wrought alloys. However the tin content of any such alloy shall not be more than the amount required for the particular purpose.

SCHEDULE V WHICH FORMERLY COVERED USE OF TIN TO REPAIR GAS METERS HAS BEEN SUPERSEDED BY ITEM (B) (7) OF SCHEDULE II

SCHEDULE VI—TIN PLATE, TERNE PLATE, AND TERNE METAL

(a) *Definitions*—(1) "Tin plate" means steel sheets coated with tin including electrolytic tin plate and hot dipped tin plate and including primes, seconds and waste-waste but not scrap.

(2) "Terne plate" means steel sheets coated with terne metal including short ternes (coated on tin mill coating machines) and long ternes (coated on sheet mill coating machines) including primes, seconds and long terne waste-waste but not scrap.

(3) "Tin plate or terne plate scrap" means any material or product made in whole or in part of tin plate or terne plate which is the waste of industrial fabrication or which has been discarded after being put into actual use, including tin plate crowns, screw caps or similar closures for various containers. The term also includes tin plate and terne plate sheets recovered from tin plate or terne plate cans or from other articles.

(4) "Reconditioned tin plate or terne plate" means damaged tin plate or terne plate which has been put into usable condition by recoating.

(5) "Terne metal" means a tin-bearing lead alloy used as a coating for plate but does not include lead recovered from secondary sources which contains not more than 3% residual tin.

(6) "Waste-waste" means hot dipped or electrolytic tin coated sheets or steel sheets coated with terne metal which have been rejected during processing by the producer because of imperfections which disqualify such sheets from sale as primes or seconds.

(b) *Manufacture of tin plate and terne plate.* Tin plate and terne plate may be manufactured for the purposes set forth below. However, coating of tin or terne metal per single base box of tin plate or terne plate must not exceed the maximum indicated below for the particular permitted use. No person may use terne metal of over 15% tin in tin mill coating machines. No person may use terne metal of over 10% tin in sheet mill coating machines

(c) *Manufacture of terne metal.* Pig or secondary tin may be used to make terne metal.

(d) *Certificates.* No person shall sell or deliver any tin plate or terne plate to any person unless he gives with his purchase order a certificate in substantially the following form:

> I certify, subject to the penalties of section 35 (A) of the United States Criminal Code, that I will use this tin plate or terne plate for ----------
> (specify end use) in accordance with Order M-43 or will resell it only in accordance with that order.
>
> ----------
> (Name of purchaser)
> By ----------
> (Duly authorized official)

A person who has given one of the certificates described in Direction 9 to M-21 with his purchase order need not give the certificate described in this paragraph.

Permitted use	Permitted material	Maximum permitted coating of tin or of terne metal (per single base box)
12. Diamond cutting wheels.	Electrolytic tin plate.	0.50 lb. per base box.
13. Dusters and sprayers, hand, for disinfectant and pest control: parts requiring solderable coatings.	Recon.tinoned tin plate Short ternes. Long ternes. Reconditioned terne plate. Electrolytic tin plate. Reconditioned tin plate.	1.50 lbs. per base box. 4 lbs. per base box. 0.50 lb. per base box.
14. Equipment or appliance parts requiring solderable coatings.	Electrolytic tin plate. Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box. 4 lbs. per base box.
15. (a) Fuel tanks, except for automotive equipment	Electrolytic tin plate. Short ternes. Long ternes. Reconditioned terne plate.	0.25 lb. per base box. 1.30 lbs. per base box. 4 lbs. per base box.
(b) Fuel tanks, for automotive equipment.	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box. 6 lb. per base box.
16. Gas mask canisters.	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box. 4 lbs. per base box.
17. Gas meters.	Hot dipped tin plate.	3.30 lbs. per base box (2A charcoal).
18. Heat exchangers.	Electrolytic tin plate. Recon.tinoned tin plate. Short ternes. Long ternes. Reconditioned terne plate.	0.50 lb. per base box. 1.30 lbs. per base box. 4 lbs. per base box. 1.30 lbs. per base box. 4 lbs. per base box.
19. Integral parts of signal cells—but only for current collectors and baskets.	Electrolytic tin plate. Reconditioned tin plate.	1.25 lbs. per base box. 0.50 lb. per base box.
20. Lining of drying chambers for milk and egg powder.	Hot dipped tin plate.	11 lbs. per base box.
21. Maple syrup evaporators.	Reconditioned tin plate.	11 lbs. per base box.
22. Oilers (excluding cans as defined by Order M-81).	Hot dipped tin plate. Short ternes. Long ternes.	1.30 lbs. per base box. 4 lbs. per base box.
23. Oil batterns.	Reconditioned terne plate. Short ternes. Long ternes.	1.30 lbs. per base box. 4 lbs. per base box.
24. Repair parts for domestic laundry equipment.	Hot dipped tin plate. Electrolytic tin plate.	1.25 lbs. per base box. 0.50 lb. per base box.
25. Safety cans for inflammable liquids.	Reconditioned tin plate. Short ternes. Long ternes.	1.30 lbs. per base box. 4 lbs. per base box.
26. Textile spinning cylinders, card screens, spools and bobbins.	Reconditioned terne plate. Hot dipped tin plate. Reconditioned tin plate. Short ternes. Long ternes.	1.25 lbs. per base box. 0.50 lb. per base box. 1.30 lbs. per base box. 4 lbs. per base box.
27. Torpedoes for oil and gas well shooting	Reconditioned terne plate. Short tornes. Long ternes.	1.30 lbs. per base box. 4 lbs. per base box.
28. Vaporizing liquid fire extinguishers.	Hot dipped tin plate. Short ternes. Long ternes.	1.25 lbs. per base box. 1.30 lbs. per base box. 4 lbs. per base box.
29. Wick holders for oil stoves	Reconditioned terne plate. Short ternes. Long ternes.	1.30 lbs. per base box. 4 lbs. per base box.
30. Articles to be purchased by or for the account of the Army and Navy of the United States, the United States Maritime Commission, and the Veterans' Administration	Reconditioned terne plate. As specified (including performance specifications).	

(f) *Additional permitted uses.* Any person may use electrolytic tin plate waste, hot dipped tin plate waste, terne plate waste, tinplate scrap, or terne plate scrap for any purpose. In addition any person may use tin plate or terne plate for any purpose (except to make items listed in paragraph (k) of order M-43) if his total annual consumption of tin plate and terne plate does not exceed 100 base boxes.

(g) *Optional use of 0.25 tin plate for terne plate.* Where ternes or terne plate is permitted to be used for an item listed in paragraph (e) above, a manufacturer may substitute electrolytic tin plate with a maximum permitted tin coating of 0.25 pounds per base box for that item.

PART 3118—CONSUMERS' GOODS INVENTORIES

[Consumers' Goods Inventory Limitation Order L-219, Revocation]

Section 3118.1 *Consumers' Goods Inventory Limitation Order L-219,* is hereby revoked. This action does not affect any liabilities incurred for violation of the order or of actions taken by the War Production Board or Civilian Production Administration under the order. Inventories of consumers' goods remain subject to the provisions of Priorities Regulation 32 and other applicable orders and regulations of the Civilian Production Administration.

Issued this 6th day of February 1947.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32 as Amended Feb. 6, 1947]

INVENTORIES

(a) What this regulation does.

General Restrictions

(b) Restriction on delivery.
(c) Restrictions on receipts.
(d) Restriction on ordering more than needed.
(e) Adjusting outstanding orders when requirements change.
(f) Restriction on processing.

Exceptions

(g) In general.
(h) Receipts permitted after contract cancellations or cut-backs.

Miscellaneous Provisions

(i) Previous inventory authorizations.
(j) Separate inventories.
(k) Redistribution of excess inventories.
(l) Violations.
(m) Revisions of tables.
(n) Appeals, letters and questions.

§ 944.53 *Priorities Regulation 32*—(a) *What this regulation does.* This regulation contains the inventory rules formerly in § 944.14 of Priorities Regulation 1 and in CMP Regulation 2. Its purpose is to prevent excessive inventories by restricting ordering, deliveries, receipts and processing of materials in short supply. All kinds of materials are covered including raw or semi-fabricated materials, commodities, equipment, accessories, parts, assemblies or products of any kind, whether or not acquired with priorities assistance. However, foods for humans or animals, tobacco and tobacco products, oils and fats, petroleum and petroleum products including natural and liquefied petroleum gas, and coal are not covered by this regulation, but are subject to applicable restrictions of other Government agencies. This regulation applies to all persons buying for use or for resale whether established firms or newcomers, except ultimate consumers buying for personal or household use.

The general rule on receipts is in paragraph (c) (1), and this is controlling unless a more specific limitation or exception is indicated in Table 1 or 2 or a direction to this regulation, or unless Table 3 (formerly Order M-161) exempts the material entirely. Other exceptions to the inventory limitations are stated in paragraphs (g) and (h) and in directions to this regulation.

General Restrictions

(b) *Restriction on delivery.* No person may deliver any material if he knows or has reason to believe that acceptance of the delivery would be in violation of this regulation.

NOTE: For rule on making or delivering material earlier than required by customers, see Interpretation 3.

(c) *Restrictions on receipts*—(1) *General rule.* A person whether buying for use or resale including a person buying for export may not accept delivery of any material if his inventory of that material is, or will be, more than a practicable minimum working inventory reasonably necessary to meet his own deliveries or to supply his services on the basis of his current or scheduled method and rate of operation.

NOTE: For rule on when material is considered to be in inventory, see Interpretation 4; for rule as to seasonal industries, see Interpretation 1.

(2) *Special rules in Tables 1 and 2.* If Table 1 at the end of this regulation shows a special inventory limit on a particular material or product (either specifically or by reference to another CPA order or regulation), that limitation governs and the restrictions of paragraph (c) (1) above may be disregarded unless the applicable order or regulation (or a note in Table 1) also states that a practicable minimum working inventory may not be exceeded. The same is true with respect to particular classes of persons shown on Table 2. Where a specific period of time is shown on Table 1 or 2, no person affected may accept delivery of any material specified if his inventory of it is, or will be, more than he needs during the immediate period specified on the basis of his current or scheduled method and rate of operation. Even if an order or regulation is not listed on Table 1 or 2, any specific inventory limits imposed by it must be complied with. If an order or regulation listed on Table 1 or 2 is revoked or a listing removed from the tables all provisions of this regulation, including paragraph (c) (1), are automatically applicable.

(3) *Early delivery of steel, iron products, aluminum, copper and copper base alloys.* Early delivery, up to 15 days before the requested delivery month may be accepted from a producer of steel, iron products, aluminum, copper or copper base alloys (in the forms listed on Table 1), but the producer may not make the early delivery if it would interfere with any rated orders. Other special rules on these materials are explained in Table 1.

(d) *Restriction on ordering more than needed.* (1) A person may not place any order, whether rated or unrated, for delivery of any material on earlier dates or in larger amounts than he would be permitted to receive under this regulation, or any other applicable orders or regulations of CPA. Orders aggregating more than he is allowed to receive may not be placed with different suppliers even though he intends to cancel one or more of them before delivery. However, this restriction does not apply to materials listed on Table 3 of this regulation nor to purchases by ultimate consumers for personal or household use. The restriction does not forbid the placing of orders for delivery under the conditions explained in Interpretation 11 to Priorities Regulation 1, but such orders may not be scheduled for production as long as this restriction is effective.

(2) This restriction does not require immediate adjustment of orders placed before August 28, 1945. However, in view of its policy to prevent hoarding and speculative buying of materials in short supply, the CPA may direct adjustments or cancellations in individual cases where orders are in excess of reasonably anticipated needs especially where failure to do so might result in unbalanced distribution and curtail total production.

(3) If the inventory limits applying to any material are made more restrictive, whether by a change in Table 1 or otherwise, any person affected must immediately cancel, reduce or defer any order for the material to the extent that the scheduled delivery would result in an inventory greater than permitted by the new restriction and other applicable provisions of this regulation.

(e) *Adjusting outstanding orders when requirements change.* If because of a change in operations, slowing or stoppage of production, delayed delivery by a supplier, or any other change in requirements, a person who has ordered material for future delivery would, if he accepted delivery on the date specified, exceed the limits prescribed by this regulation, he must promptly adjust his outstanding orders, and, if necessary, postpone or cancel them. Paragraph (h) below describes what further deliveries may be accepted.

(f) *Restriction on processing.* No person may process, fabricate, alloy or otherwise alter the shape or form of any material not listed in Table 3 if his inventory of the material in its processed, fabricated, alloyed or otherwise altered shape or form (including the form in which he sells it) is, or will be more than a practicable minimum working inventory. This limitation applies whether the manufacturer does his own processing or has it done for his account by others. He may not exceed it by causing or permitting avoidable delays in transportation, storage, or processing. However, this does not restrict a person from altering the form of surplus materials by scrapping or reprocessing them, unless a CPA order specifically says otherwise. The CPA may issue directions to Priorities Regulation 32 or other orders that are more restrictive on processing than the general limitations of this paragraph.

(e) *Tin plate and terne plate may be used only for the following purposes:*

NOTE: Table amended February 6, 1947.

Permitted use	Permitted material	Maximum permitted coating of tin or of terne metal (per single base box)
1. All kitchen and cooking equipment.	Electrolytic tinplate.	0.25 lb. per base box.
2. Baking pans for institutions and commercial bakers.	Recon.tinoned tin plate Electrolytic tin plate. Reconditioned tin plate.	1.25 lbs. per base box. 0.50 lb. per base box.
3. Brushes, power driven	Short ternes. Long ternes Reconditioned terneplate.	1.30 lbs. per base box. 4 lbs. per base box.
4. Cans	As permitted by Conservation Order M-81 as amended.	
5. (a) Closures for all food products (excluding malt beverages and nonalcoholic beverages). If packed in hermetically sealed containers made sterile by heat; and olives, pickles, relishes, sauces, vinegar, French dressing, flavorin extracts, spices mustard, horseradish and cherries.	Hot dipped tin plate.	1.50 pounds per base box.
(b) Closures for all food products made from them; ice cream mix; apple cider and juice; fruits (only ernish, fountain fruit and ice cream toppings) soup mix, cheese spreads; spaghetti and macaroni products; corn leaf mash and sauerkraut.	Electrolytic tin plate.	0.50 pound per base box.
(c) Closures for biologicals; blood plasma; drug chemicals; dental supplies; glycerine; liniments of ammoniated ingredients; oleoresins; oils; animal soaps; prescriptions; medicinal soaps; aromatic spirits of ammonia; ammonia products, aromatic chemicals; reagent chemicals; deodorants; liquid or paste germicides; ointments; petroleum jelly; perfumes; hydrochloride powders; phenols; photographic supplies; and all other liquid chemicals.	Electrolytic tin plate.	0.50 pound per base box.
(d) Closures for flame cannons.	As specified.	
(e) Closures to be purchased by or for the account of the American Red Cross, Office of Scientific Research and Development or the Panama Canal, including the Panama Railroad Company and the Canal Zone, and the forty-eight States of the United States and the District of Columbia. (General exceptions for certain other governmental agencies are included in item 30 below.)	Hot dipped tin plate. Electrolytic tin plate Short ternes. Long ternes.	1.25 lbs. per base box. 0.50 lb. per base box. 1.30 lbs. per base box. 4 lbs. per base box.
(f) Closures for steel drums.	Electrolytic tin plate. Short ternes. Long ternes.	1.25 lbs. per base box. 1.30 lbs. per base box. 4 lbs. per base box.
(g) All other closures and crowns	Electrolytic tin plate.	0.25 pound per base box.
6. Carbide non-explosive emergency lights.	Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box. 4 lbs. per base box.
7. Chaplets, skimgates and tin forms for foundry use.	Hot dipped tin plate. Electrolytic tin plate Short ternes. Long ternes. Reconditioned terne plate.	1.25 lbs. per base box. 0.50 lb. per base box. 1.30 lbs. per base box. 4 lbs. per base box.
8. Cheese vats.	Hot dipped tin plate.	11 lbs. per base box.
9. Component parts for Internal Combustion engine including air cleaners, cooling systems, fuel systems, and lubrication systems, only where less essential material is impractical because of corrosion or solder-ability	Reconditioned tin plate Short ternes. Long ternes. Reconditioned terne plate.	1.30 lbs. per base box. 4 lbs. per base box.
10. Cylinder liners for hard and fruit presses	Hot dipped tin plate.	1.25 lbs. per base box.
11. Dairy ware and equipment including dairy machinery and equipment, milking pails, milk kettles, setter or cream cans, weigh cans, measures and test ware, bottle conveyors, ice cream freezers, milk filters, cooling tanks, separator parts, surface type heaters and coolers, and testing equipment.	Hot dipped tin plate. Hot dipped tin plate Short ternes. Electrolytic tin plate. Reconditioned tin plate.	3.30 lbs. per base box (2A charcoal). 0.50 lb. per base box.

In such case, these more restrictive directions or orders control instead of the general restrictions of the paragraph.

Exceptions

(g) *In general.* This paragraph, paragraph (h) below, and certain diFections to this regulation state general exceptions to the restrictions on acceptance of delivery described in paragraph (c) above, and to all other inventory restrictions on delivery and acceptance of delivery in CPA orders and regulations unless they contain specific provisions to the contrary. None of these or any other exceptions to CPA inventory restrictions on receipts permit a supplier to disregard any applicable CPA order or regulation which restricts production or delivery.

(1) *Exemption of Table 3 materials.* Materials listed on Table 3 at the end of this regulation may be delivered and accepted without regard to CPA inventory restrictions.

(2) *Materials bought under PR–13.* Priorities Regulation 13 provides a limited exemption from inventory restrictions in the case of items bought on special sales.

(3) *Imported materials.* A person may import any material without regard to CPA inventory restrictions, but if his inventory of it thereby becomes in excess of the amount permitted by this regulation he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this regulation do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him may receive.

(4) *Advance stockpiling for civilian production.* A person may receive in anticipation of starting or resuming civilian production the minimum amount of material or equipment he would need during the first 30 days of such production, provided no priorities assistance is used to get the material or equipment. Records of such receipts and the basis on which they were computed must be preserved as required by § 944.15 of Priorities Regulation 1. This 30-day amount is a ceiling as far as advance stockpiling is concerned, and may not be considered as a "bonus" to be added to the amount of any material which a producer expects to have available for making his civilian product. Changes in this 30-day amount may be indicated for a particular material by a note in Table 1. This paragraph relates to production only and does not permit the advance stockpiling of building materials for construction purposes.

(5) *Minimum sale quantities.* Minimum sale quantities and production runs may be accepted to the extent permitted by Interpretation 2 to this Regulation. However, where Column 3 of Table 1 shows a specific amount of a particular material, that is considered to be the minimum sale quantity of it. Thus, if a person would be permitted under paragraph (c) to accept less than the amount shown, he may accept delivery of the full amount. In any event, after receiving a minimum sale quantity of any material, a person may not accept delivery of any additional quantities until his inventory of it is within applicable limits.

(6) *Small inventory exemption for particular materials.* If a note in Table 1 or 2 shows a specific amount of a particular material as a small inventory exemption a person may accept delivery of any quantities of it as long as his total inventory of it after acceptance is no more than the specified amount.

(h) *Receipts permitted after adjustment of orders.* Where a person has promptly adjusted his outstanding orders with his supplier as required by paragraph (e) and the supplier is not otherwise prohibited from producing or delivering any material involved, delivery of it may be made and accepted and the inventory restrictions of paragraph (c) exceeded to the following extent only:

(1) Delivery may be made and accepted if the supplier has shipped the material or loaded it for shipment before the receipt of the instruction to adjust; or

(2) Delivery may be made and accepted of any special item which the supplier actually has in stock or in production or special components or special materials which he has acquired for the purpose of filling that contract. A special item as used above, means one that the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others; or

(3) Even if the material is not a special item, delivery may be made by and accepted from a producer if it has already been produced or is in production before receipt of the instruction to adjust, and it cannot be used to fill other orders on the producer's books. However, in the case of steel processed beyond the slab, billet or sheet bar stage before receipt of the instruction to adjust, producers are not required to examine other orders on their books. In this case, unless otherwise ordered by the CPA, deliveries may be made and accepted if the producer cannot readily dispose of the material to others without loss of production.

NOTE: For special rules on continuing receipts of special items after contract cut backs, see Direction 3 to this regulation; and as to transfers of idle materials after cancellations or cut backs, see Direction 1. For effect of reduction in consumption rate on permitted inventories, see Interpretation 5.

Miscellaneous Provisions

(i) *Previous inventory authorizations.* Any specific authorizations, exceptions, or grants of appeals issued under § 944.14 of Priorities Regulation 1 or CMP Regulation 2 remain in effect according to their terms unless individually modified or revoked.

(j) *Separate inventories.* (1) In figuring his inventory, a person must include all material in his possession and all material held for his account by another person, but not material held by him for the account of another person.

(2) In the case of a person who on August 28, 1945, has more than one operating unit and keeps separate inventory records for them, this regulation applies to each such operating unit or division independently. A person may not make any further separation or consolidation of such operating units without special written approval of the Civilian Production Administration, unless it is purely incidental to a separation or consolidation which is made primarily for other than inventory purposes.

(k) *Special sales of materials and products.* Special sales of materials and products acquired or made for use and not for sale or resale may be disposed of subject to the provisions of Priorities Regulation 13.

(l) *Violations.* Any person who willfully violates any provision of this regulation, or who, in connection with this regulation, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Revisions of tables.* Tables 1, 2, and 3 attached to this regulation will be revised from time to time. As materials and products become in more ample supply, it is expected that they will be listed on Table 3. In special cases, particular materials or products may also be removed from Table 3 or added to Table 1. It is, therefore, important to be familiar with the latest revision of the tables.

(n) *Appeals, letters and questions.* Any appeal or other question regarding any provision of this regulation should be sent by letter in duplicate to the Inventory Control Division, Civilian Production Administration, Washington 25, D. C. Ref.: PR 32, unless Table 1 or 2 attached to this regulation indicates otherwise with respect to particular materials or classes of persons.

Issued this 6th day of February 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

TABLE 1—MATERIALS AND PRODUCTS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

Explanation. Materials or products listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation, except to the extent that different rules may apply as to certain classes of persons under Table 2.

Column 2 shows either the CPA order or regulation which controls inventories of the material, or if no order is specified there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

If Column 2 shows a specific period of time (e. g., 30 days, 60 days, etc.) for a particular material or product, this restriction applies only to "users" of that material or product, i. e., persons, including Government operated consuming establishments, who use the material or product for production, operating supplies, maintenance and repair, or for construction whether for own account or for the account of another. In addition, the restriction applies only within the 48 States and the District of Columbia. In the case of persons who are not "users", such as persons buying for resale, paragraph (c) (1) applies instead of Column 2.

A figure in Column 3 shows the minimum sale quantity, that is, the amount of the particular material which a person may receive under the conditions stated in paragraph (g) (5) even if it is more than allowed under Column 2. If no figure is shown, the rule in Interpretation 2 must be followed.

Column 4 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described.

Column 5 (Remarks) gives explanations, exemptions or other special rules applicable to the particular material or limitation.

Lead chemicals	30 days*		Chemicals	
Note: The provisions of this regulation apply to each item of lead chemicals, and, in the case of chrome pigments, to each grade and type of pigment.				
Lumber—Seasoned, green, rough surfaced and/or worked to pattern (all kinds, sizes and grades).** Note: Deleted Nov. 25, 1946.	60 days*		Lumber	**The limitations of Column 2 apply to lumber in condition in the user's inventory rather than item by item. The Column 2 restrictions do not apply to green lumber which must be seasoned by the user before it is usable for the purpose for which it was purchased but such receipts are subject to the restrictions of paragraph (e) (1) of the regulation. However, when such lumber is sufficiently seasoned for use it must be counted in the determining whether or not the person is eligible to accept any further deliveries. Lumber in finished condition is exempt from this limitation (See Table 2 for special exception for hardwood flooring manufacturers).
Manila (Abaca) fiber and products.	M-84		Textile	
Metal plastering base (metal lath).	90 days*		Building materials.

TABLE 2—CLASSES OF PERSONS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

Explanation. The classes of persons listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation.

Column 2 shows either the CPA order or regulation which controls the inventories of the particular class of persons, or if no order is specified there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the particular minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

Column 3 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described.

Column 4 (Remarks) gives explanations, exemptions or other special rules applicable to the particular class of persons or limitation. Where this column specifies certain materials, the limitation or exemption for the particular class of person applies only to the materials specified.

TABLE 4—[Deleted Dec. 13, 1946.]

INTERPRETATION 1

INVENTORIES IN SEASONAL INDUSTRIES

Paragraph (c) (1) of Priorities Regulation 32 prohibits any person from accepting a delivery which will give him "more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or schedule method and rate of operation." This does not prevent a person engaged in a seasonal industry who normally stocks up inventory in advance of the season from accepting delivery of his requirements of the inventory in question, provided (a) that he is not guilty of hoarding, and (b) that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated requirements (Issued Aug. 28, 1945.)

INTERPRETATION 2

MINIMUM SALE QUANTITIES AND PRODUCTION RUNS

(a) *Applicable provisions of the regulations.* Priorities Regulation 32 forbids the making or acceptance of a delivery which will give the customer more than the "practicable minimum working inventory reasonably necessary" for him to make his own deliveries. A similar provision in paragraph (c) (2) of Priorities Regulation No. 3 says that a customer who is applying a rating for which no specific quantities have been authorize may use it only to get the "minimum amount needed."

(b) *Factors to be considered in determining how much can be ordered and delivered.* In determining a customer's minimum inventory "reasonably necessary" under Priorities Regulation 32 or his "minimum amount needed" under Priorities Regulation No. 3, it is proper in some cases to consider not only the immediate needs of the customer's plant but also whether the amount which he orders will be a minimum production run for his supplier. The customer may order and receive (and the supplier may deliver) the customer's requirements for a longer period in advance than he actually needs at the time of delivery if, but only if, it is not practicable for him to get the item from any supplier in the smaller quantities which he presently needs. The supplier may reject his customer's order if it is less than the minimum which he regularly sells or less than his minimum production run of a product which is mass produced under the conditions explained in Interpretation 3 of Priorities Regulation 1.

(c) *Relief in exceptional cases.* If the conditions stated in paragraph (b) above cannot be satisfied but the customer wants to order or accept delivery of more than his actual needs at the time of delivery, he should apply to the Civilian Production Administration for permission, stating the facts and why it is not practicable to satisfy the condition of paragraph (b).

(d) *Special provisions for certain materials.* Where a specific minimum sale quantity is shown in Column 3 of Table 1 of Priorities Regulation 32 with respect to any material or product, that quantity controls instead of the rule in this interpretation.

(e) *Specific limits on ratings may not be exceeded.* This interpretation does not apply to the use of a rating where a specific quantity is stated in the instrument assigning the rating. If a person is assigned a rating for a specific amount of material, he may not use it to get more. If he finds that he can only get the material in larger quantities, he should apply for a modification of the rating.

(f) *No effect on contractual rights.* The times and amounts in which deliveries are to be made are to be determined by agreement between the supplier and the customer. Nothing in this interpretation relieves a supplier from fulfilling a contract to make deliveries at specified times in specified amounts. For example, if a customer has agreed to buy and a supplier has agreed to furnish 100 units a month for six months, this interpretation does not obligate the buyer to accept 600 units delivered during the first month, although it permits him to do so under the conditions described in paragraph (b). (Issued Oct. 1, 1945.)

INTERPRETATION 3

MAKING OR DELIVERING MATERIAL EARLIER THAN REQUIRED BY CUSTOMERS

(a) Paragraph (b) of Priorities Regulation 32 prohibits a person from knowingly making a delivery which will give his customer more than the latter is permitted to receive under the regulation. Paragraph (f) of that regulation prohibits a person from processing or fabricating material if his inventory of the material in its processed or fabricated form will be more than a practicable minimum working inventory. These two restrictions should be borne in mind by any supplier who wants to make or deliver any material to his customer earlier or in greater quantities than required by the customer.

(b) For example: A supplier has accepted his customer's order of a product to be delivered at the rate of 100 a month for six months. The supplier would like to ship 200 a month for three months, or perhaps the entire 600 in the first month. Since the customer's requirements of 100 a month are presumably all he could accept within the inventory limitations of paragraph (c) of the regulation, the requirement that the supplier may not knowingly ship more than this would prevent him from delivering earlier than required by his customer, unless he received notice from his customer that the receipt of the larger amount would not cause him to have an excess inventory.

(c) Thus, before delivering a material or product substantially earlier or in greater quantities than is called for by his customer's order a supplier is requested to satisfy himself that the receipt by the customer of the changed quantities will be within the permissible inventory limitations applicable to the customer. The supplier may rely on any statement or notice to this effect from his customer, unless he knows or has reason to know that it is false.

(d) Similarly, assuming his customer would not be permitted to receive the larger quantities, the supplier should take this into account in his plans for processing the material or product so that he himself will not have an inventory greater than permitted by paragraph (f) of the regulation.

(e) This interpretation, of course, does not change the rule on delivery or acceptance of minimum sale quantities or production runs to the extent described in Interpretation 2 to this regulation, nor does it prevent earlier delivery of iron products, steel, copper and copper base alloys under the conditions described in paragraph (c) (3) of Priorities Regulation 32. Also, if any CPA order or regulation permits increased deliveries to the extent necessary to avoid shipping partly filled containers (such as paragraph (y) (4) of Order M-300), the rule in this interpretation does not prevent such deliveries. (Issued Oct. 1, 1945.)

INTERPRETATION 4

INVENTORY MATERIAL

(a) Paragraph (c) of Priorities Regulation 32 prohibits a person from accepting delivery of material if his inventory of it is, or will be, greater than the maximum prescribed. For the purpose of this regulation, material is considered to be inventory until it is actually put into process or is actually installed or assembled. Putting into process does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming or other operation unless such initial operations are part of a continuous fabricating or assembling operation. Nor does it include operations such as inspection, testing and ageing nor segregation or earmarking for a specific job or operation.

(b) For example, if a manufacturer who uses wire or rod cuts a sufficient quantity of it to length at one time to maintain his operations for a considerable period of time, the cut pieces remain as inventory until processed into another form or until assembled or installed

(c) If a manufacturer purchases and stores steel castings in the form purchased, the steel castings are not put into process when the castings are painted and stored. Consequently, the inventory of castings includes those painted and stored.

(d) If a manufacturer shears steel sheet and stocks in sheared form, such stock is still part of his inventory, if the material does not continue in production. (Issued Aug. 28, 1945.)

INTERPRETATION 5

EFFECT OF REDUCTION IN CONSUMPTION RATE ON PERMITTED INVENTORIES

(a) Paragraph (c) of Priorities Regulation 32 prohibits the acceptance of delivery of material if a person's inventory of it is, or will be, more than the amount permitted by the regulation. If material is acquired within these restrictions the regulation does not prohibit the mere possession of an inventory if a change in circumstances makes it greater than the amount permitted. For instance, if based upon current rate of production a manufacturer's permitted inventory of one item of steel is 100 tons and he has in inventory 60 tons, he may receive a further delivery of 40 tons. If after receiving the delivery of 40 tons his rate of consumption, because of contract cancellation or the like, is reduced drastically the mere fact that he has an inventory of 100 tons, although his permitted inventory may be only 10 tons, is not a violation of the regulation. He may not, of course, accept any further deliveries of that item of steel until his inventory has been reduced below 10 tons (except as provided in paragraph (h) of Priorities Regulation 32 and Direction 3 to that regulation relating to material already shipped, special items, etc.)

(b) Similarly the regulation does not affect the liability of a customer for material in inventory when the customer cancels his contract. Such liability is controlled by the provisions of the contract between the customer and his supplier and by contract law. (Issued Aug. 28, 1945.)

PART 1001—TIN

[Conservation Order M-43, Revocation of Direction 2]

LIMITATION ON ACCEPTING AND FILLING ORDERS BY PRODUCERS OF SOLDER, BABBITT OR ALLOYS CONTAINING TIN AND ON INVENTORIES OF USERS OF SOLDER, BABBITT AND ALLOYS CONTAINING TIN OTHER THAN COPPER BASE ALLOY

Direction 2 to Conservation Order M-43 is hereby revoked. This revocation does not affect any liabilities incurred for violation of the direction or of actions taken by the War Production Board or the Civilian Production Administration under this direction.

Inventories of solder, babbitt, or alloys containing tin remain subject to the provisions of paragraph (1) of Conservation Order M-43, as amended simultaneously with this revocation, and all other applicable orders and regulations of the Civilian Production Administration.

Issued this 6th day of February 1947.

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[3d Rev. RO 3,[1] Amdt. 35]

SUGAR

A rationale for this amendment will be filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended by adding section 24.9 to read as follows:

SEC. 24.9 *Certain bulk sweetened condensed milk producers may apply for an adjustment in monthly base.* (a) A bulk sweetened condensed milk producer whose monthly base for making bulk sweetened condensed milk does not represent his normal operations for any of the reasons outlined in paragraph (b) may obtain an adjustment in base in accordance with the provisions of that paragraph. He must apply in writing to the Washington Office for such adjustment and state all facts which he claims show his need for the adjustment and the amount of the adjustment requested.

(b) (1) A producer who began making bulk sweetened condensed milk after October 1, 1945 and before September 1, 1946 and who commenced such production after the first day of the month (working day) may apply for permission to have his monthly base computed on the basis of his sugar use in the period beginning with his first full month's production of bulk sweetened condensed milk and ending on August 31, 1946. Thus a person who began making bulk sweetened condensed milk on January 23, 1946 may have his base computed on the basis of his sugar use during the period from February 1, 1946 through August 31, 1946.

(2) A producer who did not make bulk sweetened condensed milk during any month in 1945 but who did make bulk sweetened condensed milk during either 1943 or 1944 and in addition made bulk sweetened condensed milk during 1946, may request the Washington Office to establish his monthly bases in the same way such bases would be established for a person who commenced operations after October 1, 1945. (See section 24.2 (d).)

(3) A producer whose monthly base is not representative because he ordered productive equipment before August 27, 1946 to make bulk sweetened condensed milk, may apply for permission to have his base recomputed in the following ways:

(i) If such equipment was installed in 1944, his monthly base may be computed by multiplying by 80 percent his use of sugar during each month in 1945.

(ii) If such equipment was installed at any time from January 1, 1945 to September 1, 1945, his monthly base may be computed by multiplying by 80 percent the amount of sugar he used during September, October, November and December in 1945 and by multiplying by 50 percent the amount of sugar he used during the months from January 1946 through August 1946. The results will be his new sugar bases for corresponding months.

(iii) If such equipment was installed after September 1, 1945, but before June 1, 1946, his monthly bases may be computed in the same way a base would be computed for a producer who began operations on June 1, 1946. (Such bases are computed in accordance with the provisions of paragraph 24.2 (d).)

(iv) If such equipment was not installed until after June 1, 1946, his monthly base shall be computed by the Washington Office in a way to reflect the amount of sugar to which he would have been eligible had his equipment been installed during the period from September 1, 1945 to September 1, 1946.

A person who applies for an adjustment under this paragraph must furnish the Office of Price Administration with necessary invoices and information as to the capacity of the equipment, the date the equipment was ordered, the date it was acquired, and the date it was installed.

(4) A person whose monthly bases have been established under the provisions of section 24.2 (d), who has no equipment for the manufacture of non-sugar containing products and whose bases therefore may be unrepresentative, may apply to have all of his bases for succeeding months established under the provisions of section 24.2 (d) by the application of milk production factors or bulk sweetened condensed milk production factors whichever result is higher. Only one application for such adjustment may be made under the provisions of this paragraph.

(c) A person who makes bulk sweetened condensed milk and whose equipment for making non-sugar containing products breaks down or who for reasons beyond his control cannot utilize his milk in non-sugar containing products in his normal manner and therefore suffers unreasonable hardship, may apply for a temporary adjustment in his monthly base. This paragraph does not apply in cases where the producers by taking reasonable means could remedy the emergency condition. The Office of Price Administration may require affidavits from the operator who applies under this paragraph giving detailed explanation of what steps have been taken by him to

[1] 11 F. R. 177, 14281.

utilize the milk in non-sugar containing products. Thus, in cases of breakdown in machinery the Office of Price Administration may require the operator to disclose what steps he has taken to repair such machinery. If the machinery has not been repaired in a reasonable time no further temporary increase in monthly base may be granted.

This amendment shall become effective February 6, 1947.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1946.

Issued this 6th day of February 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Chapter XXIII—War Assets Administration

[Reg. 2,[1] Order 8]

PART 8302—DISPOSAL OF SURPLUS PERSONAL PROPERTY TO PRIORITY CLAIMANTS

EXEMPTION OF FIRE-FIGHTING EQUIPMENT FROM PRIORITIES ACCORDED TO VETERANS

Section 16 (a) of the Surplus Property Act of 1944, as amended, directs that the Administrator prescribe regulations to effectuate the objectives of the act to aid veterans in the acquisition of surplus property, "in appropriate quantities and types," to enable them to establish and maintain their own small business, professional or agricultural enterprises. Section 8302.5 (b) makes provision for the priority of veterans in their acquisition of surplus personal property without prescribing any limitation as to the propriety of the type of property sought to be acquired.

It has been reported that special types of fire-fighting equipment are in critical demand by municipal and volunteer fire departments to replace old or worn equipment, principally due to the fact that production of such specialized equipment has not caught up with the demand therefor. Losses in public and private property attributable to fires for the first nine months of 1946 exceed the total losses for any entire year in the period 1932 to 1943 inclusive.

While it may appear that special fire-fighting equipment could, at added expense to the purchaser, be adapted to general purpose use by modification or conversion, or be otherwise disposed of at a speculative profit, the utility of such property generally is limited to the purpose for which it was manufactured, namely, to combat the holocaust of fire. The Reconstruction Finance Corporation has advised that it considers the public interest and public benefit to be such as to outweigh any speculative advantage or restricted need of small business. Accordingly, certification for this class of property under the provision of section 18 (e) of the Surplus Property Act is not contemplated by the Reconstruction Finance Corporation. Accordingly, it is hereby ordered that:

§ 8302.58. *Exemption of fire-fighting equipment from priorities accorded to veterans.* The specialized utility and purpose of fire-fighting equipment is not deemed to be consistent with, or appropriate to, the needs of veterans in the establishment or maintenance of a small business, professional or agricultural enterprise, and there is hereby exempted from the general class of personal property, subject to the provisions of § 8302.5 (b) of this part, fire-fighting equipment of the following description:

1. *Fire-fighting ladder trucks.*

Makes: Seagrave, American-LaFrance, Peter Perch, Ward LaFrance, and Ahren-Fox.

Types: a. City service 4-wheeled ladder truck. (In addition to its ladder equipment it is provided with forceable entry tools, salvage covers, life nets, etc.)

b. Aerial ladder trucks, 4-wheeled. (In addition to its aerial ladder it is provided with ground ladders, forceable entry tools, salvage covers, life nets, etc.)

c. Aerial ladder truck tractor-drawn with steering wheel for tillerman. (In addition to its aerial ladder it is provided with ground ladders, forceable entry tools, salvage covers, life nets, etc.)

2. *Fire-fighting pumpers (pumping engines).*

Makes: Seagrave, American-LaFrance, Peter Perch, Ward LaFrance, Ahren-Fox, F. W. D., and the following makes with midship-mounted pumps with pumping capacity of 500 gpm and over: Kenworth, Hahn, Howe, W. D. Darley, General Detroit, Oren, Maxim, and Buffalo.

Types: a. Triple combination pumper (combination pumper, hose wagon, and booster tank). Pumping capacity 500, 750, 1,000, and 1,250 gpm.

b. Quadruple combination pumper (combination pumper, hose wagon, booster tank, and ladder truck). Pumping capacity 500, 750, 1,000, and 1,250 gpm.

3. *Crash trucks.*

Types: d. Carbon dioxide truck (refrigerated CO_2 tank)

4. *O. C. D. type pumpers.*

a. Trailer type pump (pump internal combustion engine and fire hose compartment mounted on 2-wheeled trailer).

b. Skid unit pump (pump and internal combustion engine mounted on skids).

(Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and E. O. 9689 (11 F. R. 1265))

This order shall become effective February 6, 1947.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

[Canal Zone Order 3]

PART 5—AIR NAVIGATION

SUBPART A—REGULATIONS PRESCRIBED BY SECRETARY OF WAR: AIRCRAFT, AIR NAVIGATION, AIR-NAVIGATION FACILITIES AND AERONAUTICAL ACTIVITIES WITHIN THE CANAL ZONE

By virtue of the authority vested in The President of the United States by section 14 of Title 2 of the Canal Zone Code, as added by section 1 of the act of July 9, 1937, 50 Stat. 486 (48 U. S. C. 1314a) and delegated to me by Executive Order No. 9746 of July 1, 1946, I hereby prescribe the following regulations governing aircraft, air navigation, air-navigation facilities and aeronautical activities within the Canal Zone:

GENERAL PROVISIONS

Sec.
5.1 Definitions.
5.2 Canal Zone set apart as military airspace reservation.
5.3 Agreements between the United States and foreign nations not affected.

AUTHORIZATION FOR ENTRANCE AND NAVIGATION OF TRANSIENT AIRCRAFT

5.11 Authorization for entrance and navigation of transient aircraft.
5.12 Application for authorization for transient aircraft.

AIR TRANSPORTATION AND AIR COMMERCE, IN GENERAL

5.21 Air transportation; qualification of air carriers and foreign air carriers.
5.22 Same; bond; terminal facilities.
5.23 Intra-Canal Zone air commerce and air transportation.

OPERATIONS SPECIFICATIONS; CERTIFICATES AND LICENSES, INSPECTION, QUARANTINE, AND CUSTOMS

5.31 Operations specifications and regulations.
5.32 Aircraft registration and airworthiness.
5.33 Airman certificates of competency; in general.
5.34 Radio operators; qualification and licensing.
5.35 Airmen; demonstration of competency.
5.36 Maintenance and servicing of aircraft.
5.37 Inspection upon landing.

ACCIDENTS

5.41 Accidents; reports; preservation of aircraft.

NONDISCRIMINATION

5.51 Nondiscrimination; regulations as to scheduled and transient aircraft.

VIOLATIONS AND ENFORCEMENT

5.61 Falsification of permits, certificates or required statements.
5.62 Suspension and revocation of right to operate.
5.63 Punishment for violations.
5.64 Administration; detailed regulations; amendment or suspension of subpart.

REVOCATION OF PRIOR ORDERS

5.71 Revocation of prior orders and regulations.
5.72 Effective date.

AUTHORITY: §§ 5.1 to 5.72, inclusive, issued under sec. 14 of title 2 of Canal Zone Code, as added by sec. 1, of 50 Stat. 486; 48 U. S. C. 1314a; E. O. 9746, July 1, 1946, 11 F. R. 7329.

§ 5.1 *Definitions.* As used in this subpart, unless the context otherwise requires:

(a) "Air carrier" means any citizen of the United States who undertakes, whether directly or indirectly or by a lease or any other arrangement, to engage in air transportation.

(b) "Air commerce" means intra-Canal Zone, overseas, or foreign air commerce or the transportation of mail by aircraft.

(c) "Aircraft" means any contrivance now known or hereafter invented, used or designed for navigation of or flight in the air, except a parachute or other contrivance designed for such navigation but used primarily as safety equipment: *Provided, however,* That the term "aircraft" shall not include military aircraft of the United States, i. e., aircraft of the United States Army, National Guard, Navy, Marine Corps, or Coast Guard or aircraft operated by or exclusively for the United States Army or Navy and which are subject to the air safety regulations issued by the appropriate military authority for the control of military aircraft; and none of the provisions of this subpart shall apply to such aircraft, or to the operation or navigation thereof.

(d) "Airman" means any individual who engages, as the commander, pilot, mechanic, or member of the crew, in the navigation of aircraft while under way; and any individual who is directly in charge of the inspection, maintenance, overhauling, or repair of aircraft, aircraft engines, propellers, or appliances; and any individual who serves in the capacity of aircraft dispatcher, or air-traffic control-tower operator.

(e) "Air transportation" means intra-Canal Zone, overseas, or foreign air transportation, or the transportation of mail by aircraft.

(f) "Appliances" means instruments, equipment, apparatus, parts, appurtenances, or accessories, of whatever description, which are used, or are capable of being or intended to be used, in the navigation, operation, or control of aircraft in flight (including parachutes and including communication equipment and any other mechanism or mechanisms installed in or attached to aircraft during flight), and which are not a part or parts of aircraft, aircraft engines or propellers.

(g) "Citizen of the United States" means (1) an individual who is a citizen of the United States or one of its possessions, or (2) a partnership of which each member is such an individual, or (3) a corporation or association created or organized under the laws of the United States or of any State, Territory, or possession of the United States, of which the president and two-thirds or more of the board of directors and other managing officers thereof are such individuals and in which at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or one of its possessions.

(h) "Convention on International Civil Aviation" means the Convention on International Civil Aviation concluded at Chicago on December 7, 1944.

(i) "Foreign air carrier" means any person, not a citizen of the United States, who undertakes, whether directly or indirectly or by a lease or any other arrangement, to engage in foreign air transportation.

(j) "Governor" means the Governor of The Panama Canal.

(k) "Intra-Canal Zone air commerce", "overseas air commerce", and "foreign air commerce", respectively, mean the carriage by aircraft of persons or property for compensation or hire, or the carriage of mail by aircraft, or the operation or navigation of aircraft in the conduct or furtherance of a business or vocation, in commerce between, respectively:

(1) A place in the Canal Zone and any other place in the Canal Zone;

(2) A place in the Canal Zone and a place in the United States or other territory subject to its control and jurisdiction;

(3) A place in the Canal Zone and any place outside thereof other than a place in the United States or territory subject to its control and jurisdiction,

whether such commerce moves wholly by aircraft or partly by aircraft and partly by other forms of transportation.

(l) "Intra-Canal Zone air transportation", "overseas air transportation", and "foreign air transportation", respectively, means the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft, in commerce, between, respectively:

(1) A place in the Canal Zone and any other place in the Canal Zone;

(2) A place in the Canal Zone and a place in the United States or other territory subject to its control and jurisdiction; and

(3) A place in the Canal Zone and any place outside thereof other than a place in the United States or territory subject to its control and jurisdiction,

whether such commerce moves wholly by aircraft or partly by aircraft and partly by other forms of transportation.

(m) "Mail" means United States mail, Canal Zone mail, foreign mail entering or leaving the Canal Zone and foreign-transit mail.

(n) "Person" means any individual, firm, copartnership, corporation, company, association, joint-stock association, or body politic; and includes any trustee, receiver, assignee, or other similar representative thereof.

(o) "Transient aircraft" includes all aircraft except those engaging in air transportation pursuant to, and within the terms of, authorizations obtained as provided in §§ 5.21 and 5.22 of this subpart.

(p) "United States" when used in a geographical sense means the continental United States of America.

§ 5.2 *Canal Zone set apart as military airspace reservation.* The airspace above the Canal Zone, including the territorial waters within the three-mile marine boundary at each end of the Canal, is hereby set apart as and declared to be a military airspace reservation, to be known as the "Canal Zone Military Airspace Reservation."

§ 5.3 *Agreements between the United States and foreign nations not affected.* Nothing contained in this subpart shall be construed to supersede or modify the provisions of any existing or subsequent agreement between the United States and any foreign nation or nations covering the navigation of aircraft into, within, or from the United States or any territory subject to the jurisdiction thereof.

AUTHORIZATION FOR ENTRANCE AND NAVIGATION OF TRANSIENT AIRCRAFT

§ 5.11 *Authorization for entrance and navigation of transient aircraft.* No transient aircraft shall be navigated into, within, or from the Canal Zone Military Airspace Reservation except under and in compliance with an authorization granted (a) by the Secretary of State after consultation with the Secretary of War in the case of transient aircraft a part of the armed forces of any foreign nation, or (b) in the case of all other transient aircraft, by the Commanding General, Caribbean Defense Command, or by the Secretary of War. For the purposes of §§ 5.11 and 5.12, an aircraft shall be deemed to be a part of the armed forces of a foreign nation when it is used in the service of the army, navy, national police, national guard, or other similar agency of a government or of a political subdivision thereof. An aircraft which is government-owned but is engaged in the carriage of persons or property for commercial purposes shall not be deemed an aircraft part of the armed forces of any foreign nation.

§ 5.12 *Application for authorization for transient aircraft.* Application for authorization under § 5.11 to navigate transient aircraft into, within, or from the Canal Zone Military Airspace Reservation shall be submitted in the manner and form prescribed by the Commanding General, Caribbean Defense Command, with the approval of the Secretary of War and of the Secretary of State so far as they respectively have jurisdiction with respect to particular classes of flights.

AIR TRANSPORTATION AND AIR COMMERCE, IN GENERAL

§ 5.21 *Air transportation; qualification of air carriers and foreign air carriers.* No air carrier or foreign air carrier shall engage in air transportation into, within, or from the Canal Zone Military Airspace Reservation unless it has complied, and continues to comply, with the applicable laws of the United States, the applicable rules and regulations prescribed by the competent aeronautical authorities of the United States, and the rules and regulations prescribed by the Governor pursuant to this subpart.

§ 5.22 *Same; bond; terminal facilities.* The Governor may require any air carrier or foreign air carrier, as a condition of entry into the Canal Zone Military Airspace Reservation:

(a) To furnish a bond, in such amount and containing such terms as may be satisfactory to the Governor, or in lieu thereof to deposit cash, conditioned upon the full satisfaction of all lawful judgments rendered against such air carrier or foreign air carrier as a result of operations into, within, or from the Canal Zone Military Airspace Reservation; and

(b) To demonstrate to the satisfaction of the Governor that it has avail-

able for use or is able and willing to provide and maintain adequate terminal facilities as required by the Governor: *Provided*, That as to air carriers and foreign air carriers engaged in scheduled services, such requirements shall be imposed without distinction as to nationality.

§ 5.23 *Intra-Canal Zone air commerce and air transportation.* Intra-Canal Zone air commerce and air transportation shall be prohibited to all aircraft.

OPERATIONS SPECIFICATIONS; CERTIFICATES AND LICENSES, INSPECTION, QUARANTINE, AND CUSTOMS

§ 5.31 *Operations specifications and regulations.* Operations specifications and regulations governing operation of aircraft into, within, or from the Canal Zone Military Airspace Reservation shall be those prescribed by the competent aeronautical authorities of the United States: *Provided*, That the Governor may prescribe such modifications thereof and such additional operations specifications or regulations, with respect to the Canal Zone Military Airspace Reservation, as he may find to be reasonably necessary to assure military security and safety in air navigation: *Provided further*, That the Governor shall not reduce any minimum standard prescribed by the competent aeronautical authorities of the United States without the prior concurrence of such authorities: *And provided further*, That the Governor shall promptly notify such authorities of all modifications or additions prescribed by him. Such operations specifications and regulations may include terms, conditions, or limitations respecting:

Schedule and flight plans.
Routes.
Landing areas.
Landing restrictions.
Aircraft.
Aircraft identification.
Aircraft appliances.
Flight and operation rules.
Aircraft signals.
Documents to be carried on board.
Articles permitted on board.
Qualifications of airmen and flight radio operators.
Use of narcotics or intoxicants by persons on board.
Limit of stay.
Clearance.
Communications procedures.
Meteorological facilities, classification and services.
Reports.
Model aircraft.

§ 5.32 *Aircraft registration and airworthiness.* No aircraft shall be navigated into, within, or from the Canal Zone Military Airspace Reservation whatever the purpose or nature of the flight may be:

(a) Unless such aircraft is possessed of currently effective aircraft registration and airworthiness certificates issued by the competent aeronautical authorities of the United States; or

(b) Unless such aircraft, if foreign, is registered in, or, in the case of public unregistered aircraft, owned by, a foreign nation which accords recognition to airworthiness certificates issued by the United States, and such aircraft is possessed of a currently effectively aircraft airworthiness certificate issued or rendered valid by the nation in which the aircraft is registered, or owned in the case of public unregistered aircraft, in which case the foreign certificate of airworthiness shall be recognized as valid for flights into or over the Canal Zone Military Airspace Reservation: *Provided, however*, That after the coming into force of the Convention on International Civil Aviation no foreign aircraft shall be permitted to enter or fly over the Canal Zone Military Airspace Reservation unless it is possessed of a currently effective aircraft airworthiness certificate issued or rendered valid by the nation in which the aircraft is registered, or by the nation of ownership in the case of public unregistered aircraft, under requirements equal to or above the minimum standards which may be established from time to time pursuant to that convention.

§ 5.33 *Airman certificates of competency; in general.* Airmen operating into, within, or from the Canal Zone Military Airspace Reservation or serving as such within the Canal Zone shall be certificated by the competent aeronautical authorities of the United States for the type of operation or service in which they are engaged, and shall comply with the regulations of the competent aeronautical authorities of the United States with respect to such certification: *Provided, however*, That members of the operating crew serving exclusively on aircraft of foreign registry or on foreign public unregistered aircraft may, in lieu of such certificates, possess a currently effective certificate of competency for the type of operation in which they are engaged, issued or rendered valid by the nation in which the aircraft is registered or owned, if such nation accords similar recognition to certificates of competency issued by the United States, and if, after the coming into force of the Convention on International Civil Aviation, such certificate is issued or rendered valid under requirements equal to or above the minimum standards which may be established from time to time pursuant to that convention.

§ 5.34 *Radio operators; qualification and licensing.* Radio operators serving on board aircraft operating into, within, or from the Canal Zone Military Airspace Reservation shall be qualified and licensed in accordance with the laws and regulations governing such qualification and licensing for operation in the United States, or, in the case of radio operators serving on board aircraft of foreign registry, or, in the case of public unregistered aircraft, of foreign ownership, qualified and licensed in accordance with the laws and regulations of the nation of registry or ownership: *Provided*, That, after the coming into force of the Convention on International Civil Aviation, the requirements under which such operators are qualified and licensed must be equal to or above the minimum standards which may be established from time to time pursuant to that convention.

§ 5.35 *Airmen: demonstration of competency.* In the interests of safety and in view of the special problems arising as the result of the operation of aircraft within the Canal Zone Military Airspace Reservation, where it affirmatively appears that an airman or flight radio operator may lack the skill or proficiency requisite for the safe performance of his function, he may, as a condition of further performance of such functions in the Canal Zone Military Airspace Reservation, be examined and required to demonstrate his ability to comply satisfactorily with the rules and regulations regarding military security and safety in air navigation in the Canal Zone Military Airspace Reservation.

§ 5.36 *Maintenance and servicing of aircraft.* Maintenance, servicing and repair in the Canal Zone of aircraft, engines, propellers, or appliances shall be performed by or be in the charge and supervision of an airman possessed of an appropriate mechanic's certificate issued by the competent aeronautical authorities of the United States.

§ 5.37 *Inspection upon landing.* Aircraft landing within the Canal Zone, and their contents, crew and passengers, shall be subject to inspection by the persons designated by the Governor. Such inspection may include examination of the aircraft registration and airworthiness certificates and the certificates and licenses of the crew, search for prohibited articles, and inspection under the applicable laws and regulations respecting quarantine, health, immigration, customs and the police. In the interests of safety and in view of the special problems arising as a result of the operation of aircraft within the Canal Zone Military Airspace Reservation, where it affirmatively appears that the aircraft or any component part thereof is in an unsafe condition, such inspection may also include examination of the aircraft, its engines, propellers and appliances to ensure compliance with the rules and regulations regarding military security and safety in air navigation in the Canal Zone Military Airspace Reservation.

ACCIDENTS

§ 5.41 *Accidents; reports; preservation of aircraft.* Injury or damage to persons or property from accidents involving aircraft while being operated as such shall be reported in accordance with regulations prescribed by the competent aeronautical authorities of the United States and any aircraft, engine, propeller or appliance affected by or involved in such an accident shall be preserved in accordance with regulations prescribed by such authorities: *Provided*, That the Commanding General, Caribbean Defense Command, may prescribe such modifications of or additions to any such regulations with respect to the Canal Zone Military Airspace Reservation as may be reasonably necessary to assure safety and military security.

NON-DISCRIMINATION

§ 5.51 *Non-discrimination; regulations as to scheduled and transient aircraft.* As to all civil aircraft engaged in scheduled airline services, whether registered in the United States or elsewhere, and as to all transient civil aircraft of foreign registry, the regulations prescribed by the Governor under §§ 5.22, 5.31, and 5.64 and by the Commanding General, Caribbean Defense Command, under § 5.41 shall be without distinction as to nationality.

VIOLATIONS AND ENFORCEMENT

§ 5.61 *Falsification of permits, certificates or required statements.* No person shall, within the Canal Zone or the Canal Zone Military Airspace Reservation:

(a) Fraudulently forge, counterfeit, alter, or falsely make any aircraft registration or airworthiness certificate, or any permit or certificate of whatsoever nature issued by any agency or representative of the United States, or of a foreign nation; or

(b) Knowingly use any such fraudulently forged, counterfeited, altered, or falsely made certificate or permit; or

(c) Knowingly falsify or misrepresent any information required under this subpart or the regulations contemplated herein, whether such regulations are issued by the Governor or by other competent authority of the United States.

§ 5.62 *Suspension and revocation of right to operate.* The Governor, after investigation and upon notice and hearing, may suspend or revoke the right of any airman or flight radio operator to perform his function within the Canal Zone Military Airspace Reservation, if interests of military security or safety in air navigation so require. In cases of emergency such suspension may be ordered for a period not in excess of thirty days, without regard to any requirement as to notice and hearing. In such event the Governor shall immediately give notice of such suspension to such airman or flight radio operator and shall enter upon a hearing which shall be disposed of as speedily as possible. During the pendency of the proceeding, the Governor may order a further suspension for an additional period not in excess of thirty days.

§ 5.63 *Punishment for violations.* Any person who shall, within the Canal Zone or the Canal Zone Military Airspace Reservation, violate any of the provisions of this subpart or the regulations contemplated herein, whether such regulations are issued by the Governor or by other competent authority of the United States, shall be punishable as provided in section 14 of Title 2 of the Canal Zone Code, as added by section 1 of the act of July 9, 1937, 50 Stat. 486 (48 U. S. C. 1314a) by a fine of not more than $500, or by imprisonment in jail for not more than one year, or by both.

§ 5.64 *Administration; detailed regulations; amendment or suspension of subpart.* Except as otherwise specifically provided in this subpart, the provisions of the subpart shall be administered and enforced by the Governor, or by such persons as he may authorize, and shall be so administered and enforced subject to the provisions of section 8 of Title 2 of the Canal Zone Code and of any Executive order prescribed under said section 8, including Executive Order No. 8232 of September 5, 1939 (3 CFR, Cum. Supp.). The Governor is hereby authorized, subject to the provisions hereinbefore referred to, to make, in addition to the rules and regulations expressly authorized in this subpart, such detailed rules and regulations as may be necessary to carry into effect the provisions of this subpart. The Governor is further authorized to establish reasonable charges for the use of Canal Zone aeronautical facilities by persons operating aircraft, such charges to be apart from and in addition to the rental which may be charged for use of particular areas. Such rules and regulations as the Governor may make under the authority granted by this subpart, where coordination with military and naval air activities is necessary, shall be made only after consultation with, and with the concurrence of, the respective officers commanding the military and naval forces stationed in the Canal Zone, who shall promulgate and enforce correspondingly pertinent regulations for military and naval aircraft.

REVOCATION OF PRIOR ORDERS

§ 5.71 *Revocation of prior orders and regulations.* There are hereby superseded Executive Order No. 5047 of February 18, 1929, prescribing regulations to govern air navigation in the Canal Zone; Executive Order No. 8251 of September 12, 1939 (4 F. R. 3899; 3 C. F. R., Cum. Supp.) prescribing regulations governing the entrance of foreign and domestic aircraft into the Canal Zone, and navigation therein; Executive Order No. 8271 of October 16, 1939 (4 F. R. 4277; 3 C. F. R. Cum. Supp.) amending section 6 of Executive Order No. 8251; and the regulations to govern air navigation in the Canal Zone promulgated by the Secretary of State as revised to June 23, 1934 (35 CFR 5.19 to 5.112).

§ 5.72 *Effective date.* This subpart shall take effect on the sixtieth day after the date of its promulgation.

ROBERT P. PATTERSON,
Secretary of War.

Subchapter B—Regulations

PART 19—TRANSPORTATION OF MAILS

MAILS FOR ALASKA

Correction

In Federal Register Document 47-909, appearing on page 705 of the issue for Friday, January 31, 1947, "§ 19.5" should be designated "§ 19.4a".

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 9—AVIATION RADIO SERVICES

LICENSE PERIOD

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of January 1947:

Whereas, it appears that public interest, convenience and necessity will be served by immediately extending the normal license periods for stations in the aviation radio service; and

It is ordered, That § 9.21 of the Commission's rules and regulations, be, and it is hereby, amended to read as follows:

§ 9.21 *License period.* The normal license periods for all stations in the aeronautical radiocommunications service, unless otherwise stated in the instrument of authorization, shall be as follows:

(a) For station in the aeronautical radiocommunications service, other than non-carrier aircraft stations, a license period of 5 years.

(b) For non-carrier aircraft stations in the aeronautical radiocommunications service, a license period of 2 years, expiring on the first day of the following month 2 years after the license is issued.

It is further found and ordered, That whereas, authority for this order is contained in sections 303 (f), 303 (r) and 307 of the Communications Act of 1934, as amended, and the effect of the order is to extend the term of a license privilege and is non-controversial, and it is in the public interest that this order should be made effective immediately, notice of proposed rule making as required by section 4 of the Administrative Procedure Act is hereby, found unnecessary, and this order should be, and it is hereby made effective immediately.

PART 16—RAILROAD RADIO SERVICE

PART 17—STATIONS IN THE UTILITY RADIO SERVICE

FREQUENCY TOLERANCE FOR CERTAIN LOW POWER RADIO TRANSMITTERS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of January 1947;

Whereas, on December 20, 1946, the Commission duly published, and also distributed, a notice of proposed rule making (12 F. R. 184) proposing the revision of rules and regulations governing the

frequency tolerance of low power equipment in the Railroad and Utility Radio Services; and

Whereas, the period in which interested parties were afforded an opportunity to submit comment expired on January 13, 1947, and the Commission has not received any comments in opposition to the proposed revision of these rules;

It is ordered, That §§ 16.63 and 16.64 of the Commission's rules and regulations governing railroad radio services and §§ 17.142 and 17.146 of rules and regulations governing utility radio services be, and they are hereby, amended to read as follows:

§ 16.63 *Channel width and modulation.* (a) In the frequency band 30–100 Mc, the width of each channel assigned is 40 kc; in the 100–216 Mc band, the channel width is 60 kc. Each frequency which appears on a station license or other instrument of station authorization is the center or mid-point of a frequency channel. All emissions outside of an assigned channel shall be attenuated at least sixty (60) decibels below the maximum level of emissions within the assigned frequency channel.

(b) When the radio frequency carrier is amplitude modulated, modulation shall be sufficient to provide effective one hundred percent on peaks.

(c) When the radio frequency carrier is frequency modulated, the positive or the negative frequency deviation arising from modulation plus the deviation of the carrier from the assigned frequency due to frequency instability shall not exceed one-half the assigned channel width.

§ 16.64 *Frequency stability.* (a) A railroad radio service permittee or licensee shall maintain the carrier frequency of each authorized transmitter within the following percentage of the assigned frequency, except as provided in paragraph (b) of this section:

	Percent
(1) Below 50 mc	0.01
(2) Above 50 mc	.005

(b) The requirements of paragraph (a) of this section shall not apply to any mobile or portable station or transmitter unit thereof when operated with less than three watts plate power input to the final radio stage. For such equipment, compliance with the requirements of § 16.63 regarding channel width and modulation is sufficient.

§ 17.142 *Frequency stability.* (a) A utility radio service permittee or licensee shall maintain the carrier frequency of each authorized transmitter within the following percentage of the assigned frequency; except as provided in paragraph (b) of this section.

	Percent
(1) Below 50 mc	0.01
(2) Above 50 mc	.005

(b) The requirements of paragraph (a) of this section shall not apply to any mobile or portable station or transmitter unit thereof when operated with less than three watts plate power input to the final radio stage. For such equipment, compliance with the requirements of § 17.146 regarding channel width and modulation is sufficient.

§ 17.146 *Cannel width and modulation.* (a) In the frequency band 30–100 Mc, the width of each channel assigned is 40 kc; in the 100–216 Mc band the channel width is 60 kc. Each frequency which appears on a station license or other instrument of station authorization is the center or midpoint of a frequency channel. All emissions outside of an assigned channel shall be attenuated at least sixty (60) decibels below the maximum level of emissions within the assigned frequency channel.

(b) When the radio frequency carrier is amplitude modulated, modulation shall be sufficient to provide effective communication, but shall not exceed one hundred percent on peaks.

(c) When the radio frequency carrier is frequency modulated, the positive or the negative frequency deviation arising from modulation plus the deviation of the carrier from the assigned frequency due to frequency instability shall not exceed one-half the assigned channel width.

This order shall become effective March 7, 1947.

(Sec. 303 (e), 303 (f), 48 Stat. 1082; 47 U. S. C. 303 (e), 303 (f))

By the Commission.

DEPARTMENT OF LABOR

Office of the Secretary

LABOR DISPUTES

FILING OF NOTICES

Section 8 of the War Labor Disputes Act (57 Stat. 167, 50 U. S. C. A., App., Sec. 1508) provides that notices of any labor dispute which threatens seriously to interrupt war production must be filed by the representative of the employees of a war contractor with the Secretary of Labor, the National War Labor Board and the National Labor Relations Board. The functions of the National War Labor Board with respect to the receipt of notices under section 8 of the War Labor Disputes Act have been transferred to the Secretary of Labor, effective February 24, 1947 (Executive Orders 9672, 11 F. R. 221, and 9809, 11 F. R. 14281). Accordingly, notice is hereby given that from and after the effective date of such transfer, for purposes of compliance with the obligation to file such notices with the Secretary of Labor, the filing of a single notice shall be deemed to be sufficient. Under the act, such notices must also be filed with the National Labor Relations Board.

Signed at Washington, D. C., this 1st day of February 1947.

L. B. SCHWELLENBACH
Secretary of Labor.

FEDERAL COMMUNICATIONS COMMISSION

SPECIFIC CLASS B FM CHANNELS

REQUEST BY APPLICANTS

JANUARY 9, 1947.

In announcing the tentative allocation plan for Class B FM broadcast stations on December 19, 1945, the Commission stated (12 F. R. 503):

> This plan is published as a guide regarding the manner in which the Commission expects to allocate FM channels throughout the country. The Commission wishes to emphasize that this allocation pattern is tentative only, that the channels listed for particular cities (and their areas) will not be followed in a hard and fast manner and that departures will be made from the plan wherever it is found desirable or necessary to do so.

The Commission further stated:

> In several instances there appears a lack of sufficient channels to meet the probable need for assignments. When the demand grows in these areas, it is usually possible to re-allocate channels from adjacent areas where the demand is less and where service may already be sufficient. As a result, a lack of channel listing for a particular locality does not necessarily mean that a channel cannot be made available there, should the need develop.

On September 3, 1946, the tentative allocation plan was re-issued to include the changes (more than 100) made up to that date. The public notice of that date re-emphasized the tentative nature of the allocation plan and pointed out that deviations therefrom would be made wherever it was found desirable or necessary.

In accordance with the foregoing, persons interested in filing applications for Class B FM stations for cities or areas to which no channel has been allocated or where previous grants have exhausted all allocated channels will be permitted to file an application specifying a particular channel. Similarly, persons with applications now on file for cities or areas where previous grants have exhausted all allocated channels may amend their application to specify a particular channel. In all such cases where a grant of the application for the channel specified would require a rearrangement of the tentative allocation plan, the applicant will be required to submit with his application or amendment an exhibit explaining in detail the proposed rearrangement and setting forth the facts which it is claimed justify the proposed rearrangement. In instances where any question exists concerning the relative need for the specific channel in the cities or areas involved, the application will be set for hearing.

The Commission's engineering staff will be glad to assist prospective applicants and their engineers in attempting to work out such rearrangements in the tentative allocation plan.

In applying the procedure outlined above, the Commission does not contemplate a general rearrangement of the tentative allocation plan. Use of the procedure will be confined to cases where experience has demonstrated that the tentative allocation plan does not conform to the demands for FM service in the cities or areas involved. In general, the procedure will not be followed in instances where its application would result in shifting a channel from a smaller community or rural area to a larger city or metropolitan area without providing an equivalent channel for the community or area thus deprived. Furthermore, the procedure will not be applied to result in shifting a channel to New York City, or other similar large cities, from surrounding smaller cities.

The Commission reserves the right to grant to any community a channel allocated to that community in the tentative allocation plan notwithstanding the pendency of another application or petition which requests that particular channel be reallocated and granted in another community.

The Commission further reserves the right, in the future as in the past, to make changes in the tentative allocation plan to provide a fair, efficient, and equitable distribution of FM facilities among the several states and communities within section 307 (b) of the Communications Act of 1934.

[Docket No. G-835]

CONSOLIDATED GAS UTILITIES CORP.

ORDER FIXING DATE OF HEARING

JANUARY 31, 1947.

Upon consideration of the application filed December 30, 1946, in Docket No. G-835 by Consolidated Gas Utilities Corporation (Applicant), a Delaware corporation having its principal place of business at Oklahoma City, Oklahoma, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate the following facilities and to transport natural gas for Cities Service Gas Company (Cities Service) from a point near Wichita, Kansas to Hutchinson and Lyons, Kansas:

(1) A measuring station and facilities to be installed at a connection between the pipe line of Applicant and the pipe line of Cities Service Gas Company in the North Half of Section 31, Township 23 South, Range 5 West, Reno County, Kansas;

(2) A meter installation to be installed at a connection between the pipe line of Applicant and the pipe line of Cities Service Gas Company in the Northeast Quarter of Section 10, Township 20 South, Range 8 West, Rice County, Kansas;

(3) A measuring station and facilities to be installed at a connection between the 14-inch pipe line of Applicant and the 20-inch pipe line of the Cities Service Gas Company in the center of the Northwest Quarter of Section 24, Township 28 South, Range 1 West, Sedgwick County, Kansas.

It appearing to the Commission that:

(a) Applicant proposes the construction and operation of the aforesaid described facilities for the purpose of transporting natural gas for the account of Cities Service; and

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of Practice and Procedure (effective September 11, 1946), applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested hearings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on January 15, 1947 (12 F. R. 242);

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on the 21st day of February, 1947, at 9:30 a. m. (e. s. t.) in the hearing room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters of fact and law asserted in the applications filed in the above-entitled proceedings; *Provided, however*, That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may after a noncontested hearing forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: February 4, 1947.

By the Commission.

[Docket No. G-826]

MINNESOTA NATURAL GAS CO. AND NORTHERN NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

JANUARY 21, 1947.

Upon consideration of the complaint filed December 6, 1946, pursuant to the provisions of sections 4 (a), 4 (b), and 5 (a) of the Natural Gas Act, as amended, by Minnesota Natural Gas Company (Minnesota Natural) against Northern Natural Gas Company (Northern Natural), and the answer thereto as filed by Northern Natural on December 26, 1946; and

It appearing to the Commission that:

(a) Minnesota Natural, a Minnesota corporation engaged in the distribution of natural gas at retail in the city of Worthington, and the village of Lakefield, both in Minnesota, in said complaint alleges, among other things:

(1) That it purchases its entire supply of natural gas from Northern Natural and takes delivery thereof at a point known as Lakefield corner, Minnesota, at the end of a 20-mile 6-inch branch transmission pipeline owned and operated by Northern Natural.

(2) That Minnesota Natural transports the gas to supply the city of Worthington a distance of approximately 21.3 miles westerly from Lakefield corner at its own expense, through a 4-inch pipeline which it owns.

(3) That natural gas to supply the Village of Lakefield is transported 4 miles in a northerly direction through a 2-inch pipeline owned and operated by Northern Natural from said Lakefield corner to the point of delivery to Minnesota Natural at the town border, but that such gas is metered to Minnesota Natural at said Lakefield corner.

(4) That the 6-inch pipeline referred to in paragraph (1) above also transports gas to supply the city of Jackson, Minnesota, and delivery thereof is made at the corporate limits to Peoples Natural Gas Company, the distributor.

(5) That with very few exceptions Northern Natural delivers natural gas to its distributing company customers at town border stations situated at or adjacent to the corporate limits of the municipalities where distribution is made, and in many instances after transportation for great distances through branch

transmission pipelines owned and operated by Northern Natural, whereas Minnesota Natural is required to receive delivery 21.3 miles east of Worthington and to transport such gas to Worthington through its own pipeline and at its own expense.

(6) That the rates and charges demanded and received of Minnesota Natural are the same as those demanded and received by Northern Natural for gas delivered at town border stations at or adjacent to the corporate limits of the municipality where the gas is distributed.

(7) That over a long period of time Minnesota Natural has sought unsuccessfully to induce Northern Natural to purchase and operate said 21.3 miles of 4-inch pipeline so that Minnesota Natural could be afforded the same character of service as is rendered by Northern Natural to other gas distributing companies similarly situated by receiving delivery at the town border stations situated at or near the corporate limits of Worthington and Lakefield.

(8) That although the demand for natural gas at Worthington has increased to such an extent that the 4-inch pipeline extending westerly from Lakefield corner to Worthington is inadequate to provide for the present and future gas requirements at Worthington, Northern Natural has refused to undertake to provide additional transmission facilities to augment deliveries to Worthington although requested so to do.

(9) That in failing and refusing to make delivery of natural gas to Minnesota Natural at or near the corporate limits of Worthington and Lakefield, Northern Natural is subjecting the complainant to undue prejudice and disadvantage and is maintaining an unreasonable difference in service or facilities between Minnesota Natural and other gas distributing companies similarly situated, and between the city of Worthington and the village of Lakefield and other localities. That by its unreasonable, arbitrary and discriminatory action, Northern Natural is violating the terms and provisions of sections 4 (a) and 4 (b) of the Natural Gas Act, as amended.

(10) That in failing and refusing to undertake to provide additional transmission facilities to augment the delivery of natural gas at Worthington, Northern Natural is subjecting Minnesota Natural to undue prejudice and disadvantage and Northern Natural is maintaining an unreasonable difference in service or facilities between Minnesota Natural at Worthington and other localities, by which unreasonable, arbitrary, and discriminatory action Northern Natural is violating the terms and provisions of section 4 (b) of the Natural Gas Act.

(b) Minnesota Natural, in said complaint, prays, among other things, that the Commission enter an order requiring Northern Natural to acquire from Minnesota Natural, at a cost to be determined by the Commission, the 21.3 miles of 4-inch pipeline extending from said Lakefield corner to Worthington, and also requiring Northern Natural to immediately undertake to increase the present pipeline facilities between Lakefield corner and Worthington, and to deliver at town border stations near the corporate limits of Worthington and Lakefield natural gas in volumes sufficient to supply Minnesota Natural's firm gas requirements at Worthington and Lakefield.

(c) Northern Natural, on December 26, 1946, filed with the Commission an answer to said complaint of Minnesota Natural making general denial of the allegations contained in such complaint and mentioned in paragraphs (a) (7) thru (a) (10) hereinbefore, and more specifically alleged, among other things:

(1) That prior to the initial delivery of natural gas by Northern Natural to Minnesota Natural on December 9, 1939, Minnesota Natural voluntarily agreed to and did construct, according to its own design, the said 21.3 miles of 4-inch pipeline referred to in paragraph (a) (2) above.

(2) That Northern Natural now owns and operates a certain 6-inch branch transmission pipeline extending from a point on its 16-inch main natural-gas transmission pipeline near the southeast corner of Jackson County, Minnesota, in a northwesterly direction a distance of approximately 9.8 miles to the City of Jackson, thence westwardly a distance of approximately 9.7 miles toward Worthington, Minnesota, to a point of interconnection with the said 4-inch pipeline of Minnesota Natural. That such 6-inch pipeline of Northern Natural was at the time of its construction designed for deliveries of gas in excess of the firm natural gas requirements of the city of Jackson and environs thereof, and was especially designed to carry and deliver sufficient volumes of gas to the point of interconnection with facilities of Minnesota Natural to provide gas in quantities sufficient to meet the anticipated firm gas requirements of Minnesota Natural at said point of connection.

(3) That at the time of the design and construction of the said 4-inch pipeline of Minnesota Natural, representatives of Northern Natural expressed the opinion that such pipeline did not adequately provide for the possibilities of growth of firm gas load in Worthington for more than a few years, and that such pipeline should be of a larger diameter. That if Minnesota Natural had constructed such line of a larger diameter pipe it would not now be faced with an inadequacy of capacity in its facilities.

(4) That at the time of the construction of the above-mentioned facilities of Northern Natural and Minnesota Natural it was apparent to Northern Natural that it could not make an adequate return upon the entire investment that would have been required if it were to construct, own, and operate adequate pipeline facilities extending the full distance from the point of connection on its main 16-inch transmission pipeline to the city of Worthington. Because of such unwillingness on the part of Northern Natural to extend its branch pipeline facilities beyond their present terminus near Lakefield, Minnesota Natural did voluntarily and willingly construct the necessary 21.3 miles of 4-inch line extending therefrom to the city of Worthington.

(d) Northern Natural, in consideration of the allegations and contradictions set forth in its answer, requests that said complaint of Minnesota Natural be dismissed.

The Commission finds that:

(1) Northern Natural Gas Company, a Delaware corporation having its principal place of business at Omaha, Nebraska, owns and operates among other facilities, a natural-gas transmission pipeline system located in the States of Texas, Oklahoma, Kansas, Nebraska, Iowa, Minnesota, and South Dakota, and by means of such facilities is engaged in the transportation of natural gas in interstate commerce and in the sale of natural gas in interstate commerce for resale for ultimate public consumption, and is, therefore, a "natural-gas company" within the meaning of the Natural Gas Act, as heretofore found by the Commission in its order entered April 6, 1943, at Docket No. G-280 (3 F. P. C. 967).

(2) The sales of natural gas by Northern Natural to Minnesota Natural for resale in the city of Worthington and the village of Lakefield, Minnesota, are sales of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and are made pursuant to schedules of rates and charges filed with the Commission.

The Commission orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 5, 7, and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on the 10th day of February 1947, at 10:00 a. m. (c. s. t.) in chamber of city council, 26th floor, city hall, 11th and Oak Streets, Kansas City, Missouri, concerning the matters of fact and law asserted in the previously mentioned complaint of Minnesota Natural Gas Company, as filed with the Commission on December 6, 1946, and the answer of Northern Natural Gas Company thereto, as filed with the Commission on December 26, 1946.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: February 3, 1947.

INTERSTATE COMMERCE COMMISSION

[S. O. 673]

UNLOADING OF STEEL AT CHICAGO, ILL.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 3d day of February A. D. 1947.

It appearing, that car L&M 1796, containing steel at Chicago, Ill., on The Alton Railroad Company (Henry A. Gardner, Trustee), has been on hand for an unreasonable length of time and that the delay in unloading said car is impeding its use; in the opinion of the Commission an emergency exists requiring immediate action, it is ordered, that:

(a) *Steel at Chicago, Ill., be unloaded.* The Alton Railroad Company (Henry A. Gardner, Trustee), its agents or employees, shall unload immediately car L&M 1796, containing steel, now on hand at Chicago, Ill., consigned Leo Aronson c/o Associated Shippers.

(b) *Demurrage.* No common carrier by railroad subect to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., February 5, 1947, and continuing until the actual unloading of said car is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads suscribing to the car service and per diem agreement under the terms of that agreement, and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

[No. 29669]

CAR SERVICE-FREIGHT CARS

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 3d day of February A. D. 1947.

The Commission having under consideration certain matters respecting car service furnished by common carriers by railroad subject to the Interstate Commerce Act.

It is ordered, That, under the authority of sections 1 (11), (14) (a), (21) and section 13 (2) of the Interstate Commerce Act, an investigation be, and it is hereby, instituted by the Commission, upon its own motion, for the purpose of determining whether (1) the rules, regulations, and practices with respect to the use, control, supply, movement, distribution, exchange, interchange, and return of plain, ventilated, and automobile box cars, refrigerator cars, stock cars, ordinary gondola, flat, and hopper cars, including covered hopper cars (but not including the distribution of coal cars at mines or related matters embraced within section 1, paragraph 12 of the Interstate Commerce Act, or issues involved in prior proceedings respecting distribution of coal cars at mines) used in freight service by common carriers by railroad, are unreasonable or otherwise unlawful, whether such cars are being wastefully, uneconomically, or inefficiently used, controlled, supplied, moved, exchanged, interchanged, and returned, and whether such cars are being unfairly or inequitably distributed among shippers; (2) common carriers by railroad have been and are providing themselves with safe and adequate plain, ventilated, and automobile box cars, refrigerator cars, stock cars, ordinary gondola, flat and hopper cars including covered hopper cars for performing as common carriers their car service, with the view to the making of findings and the entry of an order or orders, under the authority of section 1 (10), (11), (13), (14) (a) and (21), section 2, section 3 (1), and section 15 (1) of the Interstate Commerce Act (49 U. S. Code, secs. 1–27), requiring (1) the establishment of such reasonable rules, regulations, and practices as may be necessary to correct any unreasonableness found to exist, and requiring the removal of any other unlawfulness found to exist, with respect to said matters, and (2) all carriers or particular carriers to provide themselves with safe and adequate freight cars as enumerated above for performing as common carriers their car service if it be found necessary in order to enable such carriers to furnish safe and adequate car service.

It is further ordered, That all common carriers by railroad subject to the Interstate Commerce Act be, and they are hereby made respondents to this proceeding; that a copy of this order be served upon each of said respondents and upon the Association of American Railroads, Car Service Division, and that notice of this proceeding be given to the general public by depositing a copy of this order in the Office of the Secretary of the Commission at Washington, D. C., and by publishing it in the FEDERAL REGISTER.

And it is further ordered, That this proceeding be, and it is hereby, assigned for hearing at the offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Claude A. Rice, March 18, 1947, at 9:30 a. m. United States standard time.

By the Commission.

OFFICE OF TEMPORARY CONTROLS

Civilian Production Administration

[C-474]

HENRY A. KOPF

CONSENT ORDER

Henry A. Kopf, of 4450 Mission Street, San Francisco, California, is acting as the Trustee for the owner of the premises at 15 W. Portal Ave, San Francisco, California. Mr. Kopf is engaged in altering the structure consisting of two residential flats to a structure consisting of four Medical Dental offices, at an estimated cost of $10,000, or $9,800.00 in excess of the small job allowance provided for by Supplement 3 to VHP–1, as amended October 7, 1946. This construction is in violation of paragraph (c) (1) of Order VHP–1, as amended October 7, 1946.

Mr. Kopf does not desire to contest the charge made, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Henry A. Kopf, the Regional Compliance Director, and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Henry A. Kopf, his successors or assigns, nor any other person acting in his behalf, shall do any further construction on the premises located at 15 W. Portal Avenue, San Francisco, California.

(b) Nothing contained in this order shall be construed as preventing the processing on its merits of any application for permission to complete the construction on the aforesaid premises, that may be filed with the Civilian Production Administration.

(c) Nothing contained in this order shall be deemed to relieve Henry A. Kopf, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 5th day of February 1947.

ROY BROUSSEAU

CONSENT ORDER

Roy Brousseau, of 59 Meadowbrook Drive, San Francisco, California, is the duly authorized Agent and Supervising Architect on certain construction being carried on at 15 W. Portal Ave., San Francisco, California. The said construction consists of converting two residential flats into four Medical Dental Offices, located at the above address, at an approximate cost of $10,000, in excess of the small job exemption of $200.00 provided by Supplement 3 to the Order VHP–1, as amended October 7, 1946, and

in violation of paragraph (c) (1) of Order VHP–1, as amended October 7, 1946. Mr. Brousseau does not desire to contest the charge made, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Mr. Roy Brousseau, the Regional Compliance Director, and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Roy Brousseau, his successors or assigns, nor any other person acting in his behalf, shall do any further construction on the premises located at 15 W. Portal Ave., San Francisco, California, including building or altering the structure unless and until the work shall hereafter be subsequently authorized by the Civilian Production Administration.

(b) Nothing in this order shall prevent said Roy Brousseau from completing the work at the above address provided the same is authorized by the Civilian Production Administration.

(c) Nothing contained in this order shall be deemed to relieve Roy Brousseau, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

ELECTRIC BOND AND SHARE CO. ET AL.

ORDER RELEASING JURISDICTION OVER CERTAIN FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 31st day of January A. D. 1947.

In the matter of Electric Bond and Share Company, et al., National Power & Light Company, et al., File No. 54–51, Application 10, Part E; Electric Bond and Share Company, National Power & Light Company, et al., File No. 59–12.

The Commission having, by order dated May 28, 1946, approved a plan under section 11 (e) of the Public Utility Holding Company Act of 1935 providing for the compromise, settlement and discharge of claims between Electric Bond and Share Company ("Bond and Share") and its wholly-owned service company subsidiaries, Ebasco Services, Incorporated, and Phoenix Engineering Corporation on the one hand, and National Power & Light Company ("National"), its subsidiaries and certain of its former subsidiaries on the other hand; such plan being a step in compliance with the Commission's order of August 23, 1941 directed to the dissolution of National, pursuant to section 11 (b) (2) of the act; and

The Commission having, by said order, reserved jurisdiction with respect to all legal fees and expenses to be paid in connection with the plan, except the fees to be paid in connection with the actions brought by stockholders of National; the record having been completed with respect to the legal services of Simpson, Thacher & Bartlett, counsel for Bond and Share in connection with the aforesaid plan; and

It appearing to the Commission that the fee of Simpson, Thacher & Bartlett in the amount of $20,000 and their expenses in the amount of $706.92 are not unreasonable:

It is ordered, That jurisdiction over the fee and expenses to be paid to Simpson, Thacher & Bartlett by Bond and Share in connection with the above transaction be, and the same hereby is, released; and

It is further ordered, That the jurisdiction heretofore specifically reserved with respect to all other legal fees and expenses be, and the same hereby is, continued.

By the Commission.

NORTH PENN GAS CO. AND PENNSYLVANIA GAS & ELECTRIC CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 31st day of January A. D. 1947.

North Penn Gas Company ("North Penn"), a public utility subsidiary of Pennsylvania Gas & Electric Corporation ("Penn Corp"), both of which are registered holding companies, having filed a declaration and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935, particularly sections 12 (c), 12 (d) and 12 (f) thereof with respect to the donation by Penn Corp to North Penn of all of North Penn's $7 cumulative (second) preferred stock, presently owned by Penn Corp, consisting of 13,160 shares without par value having a stated value of $1,316,000, and the acquisition of such stock by North Penn for cancellation; the stated value of such stock to be credited by North Penn to its capital surplus account; and

The declarants having requested that the order of the Commission permitting the declaration to become effective conform to the requirements of section 1803 (f) of the Internal Revenue Code, as amended;

Said declaration having been filed on October 16, 1946, the amendment thereto having been filed on December 13, 1946, and the declarants having requested the extension of the effective date thereof to January 31, 1947; notice of said filing, as amended, having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon;

The Commission finding that the acquisition and cancellation of its second preferred stock by North Penn will remove an existing complication in its capital structure; and

The Commission finding with respect to this declaration, as amended, that the applicable provisions of the act and the rules thereunder are satisfied, that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24, that said declaration be, and the same hereby is, permitted to become effective forthwith.

It is further ordered, And the Commission finds, that the transfer of 13,160 shares of $7 cumulative (second) preferred stock of North Penn by Penn Corp. to North Penn is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

By the Commission.

meeting, one such employee shall, nevertheless, record all nominations made.

(3) The nominations at any meeting shall be conducted according to Roberts Rules of Order. However, voting may be by secret ballot or by acclamation in accordance with the desire of the majority of the growers attending the meeting.

(c) *Changes in the representation of certain districts on Plum Commodity Committee.* The representation or membership on the Plum Commodity Committee is changed to provide for three members to represent the area included in the Fresno, Tulare, Kern, and Southern California Districts, three members to represent the area included in the Colfax and Placer Districts, and one member to represent all of the territory in California not included in the foregoing districts.

§ 936.103 *Regulation of unfair trade practices and unfair methods of competition.* (a) The shipping of Elberta peaches of the size described in paragraph (b) of this section, or smaller sizes, in the standard fruit boxes numbered 15, 16, 17, 18, and 18A, and in the number 12B California Peach Box (as such boxes are defined in section 828.25 of the Agricultural Code of California) when packed so that the longitudinal axis of each such peach forms an angle with the bottom of the container which is less than 70 degrees is deceptive with regard to the quantity of fruit and the size of the fruit in such boxes and is, therefore, an unfair trade practice and an unfair method of competition; and the shipment of such peaches, packed as aforesaid, is prohibited in accordance with the applicable provisions of the marketing agreement and order.

(b) The specific size of Elberta peaches referred to in paragraph (a) of this section is the size (1) that will pack 66 peaches in the aforesaid standard fruit boxes with two layers in each box, and each layer containing three rows of six peaches each and three rows of five peaches each, and (2) that will pack 60 peaches in the aforesaid California Peach Box with two layers in each such box and each layer containing six rows of five peaches per row, and all such peaches in the aforesaid containers being packed in accordance with the specifications of a standard pack, as specified in the Standards for Peaches, issued by the United States Department of Agriculture, effective April 22, 1933, and reissued February 4, 1946.

§ 936.104 *Regulation by grades and sizes*—(a) *Exemptions.* (1) Any application for an exemption certificate authorizing the shipment of Bartlett pears, plums, or Elberta peaches shall be submitted to the secretary of the appropriate commodity committee and shall contain the following information on Form E–1, "Grower Application for Exemption Certificate":

(i) The name and address of the applicant;

(ii) The location of the orchard (by district and distance from nearest town) from which the fruit is to be shipped pursuant to the exemption certificate;

(iii) The number and age of the trees of the particular fruit for which exemption is requested;

(iv) The grade or size regulation from which exemption is requested;

(v) The estimated crop of such fruit in such terms as required by the applicable form of application for an exemption certificate;

(vi) The number of standard containers of the particular fruit, by grades and sizes, which the applicant has available for shipment during the remainder of the regulation period, and for which exemption is requested;

(vii) The number of standard containers of the particular fruit, by grades and sizes, which the applicant has sold or otherwise disposed of since the beginning of the particular regulation period;

(viii) The reasons why the quantity of fruit for which exemption is requested does not meet the requirements of the grades or sizes of fruit permitted to be shipped under the particular regulation;

(ix) The name of the shipper;

(x) The shipments of the particular fruit during the preceding season; and

(xi) Such additional data and information as the respective commodity committee may require in order to determine whether the applicant is entitled to an exemption certificate.

(2) The respective commodity committee shall promptly verify all statements contained in each application for an exemption certificate and determine whether an application shall be approved or disapproved. The determination, in case of approval, shall be evidenced by the issuance, to the applicant, of an exemption certificate and, in case of disapproval, shall be evidenced by written notice of such disapproval.

(3) Each exemption certificate, issued by any commodity committee, shall be on Form E–2, "Grower Exemption Certificate." The exemption certificate shall be signed by the secretary, or assistant secretary, of such commodity committee. Each exemption certificate shall be issued in quadruplicate; and one copy shall be delivered to the grower, one copy shall be delivered to the shipper designated by the grower to receive such copy, one copy shall be delivered to the appropriate field representative of the Control Committee, and one copy shall be retained as part of the permanent records of the particular commodity committee.

(4) Each shipper handling fruit pursuant to an exemption certificate shall keep an accurate record, in the manner provided on such certificate, of all shipments of such fruit. Such shipper, after having shipped as much fruit as authorized by an exemption certificate, shall promptly surrender, upon demand of the appropriate commodity committee or its duly authorized representative, the exemption certificate containing an accurate record of such shipments.

(5) If any grower is dissatisfied with the determination of any employee authorized to issue exemption certificates and who has exercised jurisdiction with regard to an application submitted by such grower, such grower may appeal to the appropriate commodity committee. Such appeal must, however, be taken promptly after the determination by such employee. If any grower is dissatisfied with the determination of any commodity committee regarding any application for an exemption certificate, any exemption certificate, or any appeal by such grower to any such commodity committee, the grower may appeal to the Secretary of Agriculture. Any such appeal shall be taken promptly after determination by the particular commodity committee. Any such grower making an appeal to the Secretary of Agriculture shall file a written statement with the particular commodity committee to the effect that the grower is thus appealing from the determination of such commodity committee. In the event any such grower files a written statement of appeal, as aforesaid, to the Secretary of Agriculture, the appropriate commodity committee shall promptly forward to the Secretary of Agriculture the written appeal by the grower, a true and correct copy of all of the written documents pertaining to the application by the grower for an exemption certificate and the consideration of such application, the written information and proof submitted to, or obtained by, the commodity committee with regard to such application, the report submitted by the employee of the Control Committee regarding such application, the determination of the appropriate commodity committee with regard to the application, and a written summary of all of the information obtained by, or submitted to, such commodity committee relative to the application.

§ 936.105 *Regulation of daily shipments.* (a) Each of the following railroad yards in the State of California is designated as a "railroad assembly point":

(1) The railroad yards of the Southern Pacific Railroad in the cities of Roseville, Colfax, Sacramento, Gerber, and Colton;

(2) The railroad yards of the Western Pacific Railroad in the cities of Sacramento and Marysville;

(3) The railroad yards of the Northwestern Pacific Railroad in the city of Santa Rosa; and

(4) The railroad yards of the Santa Fe Railroad in the cities of Bakersfield, Stockton, Barstow, and Needles.

(b) A "car of Bartlett pears" or a "carload of Bartlett pears" shall constitute a quantity of Bartlett pears equiva-

lent to the quantity of such fruit which may be packed, in accordance with the requirements of a standard pack (as such pack is defined in the U. S. Standards for Summer and Fall Pears, issued by the United States Department of Agriculture on June 27, 1940, as subsequently reissued on September 3, 1942), in not less than 200 or more than 800 standard pear boxes (as such standard pear box is defined in section 828.3 of the Agricultural Code of California).

(c) The "arrival" of a car of Bartlett pears at a cold storage assembly point shall be 48 hours subsequent to the time of actual delivery of such car of fruit. If a car of Bartlett pears is delivered to a cold storage assembly point in diverse lots, the "arrival" of such car of fruit shall be 48 hours subsequent to the time of actual delivery of the last lot.

(d) The retention of Bartlett pears under refrigeration in a storage warehouse in the State of California under any of the following conditions shall constitute "cold storage" of such fruit:

(1) The Bartlett pears are designated as stored by the shipper;

(2) The Bartlett pears are placed in a cold storage assembly point for precooling and are not reported to the manager of the Control Committee within 48 hours after delivery; and

(3) The Bartlett pears are not loaded for shipment within 48 hours after the shipper is notified of the release, in accordance with the marketing agreement and order, of such fruit from the cold storage assembly point.

(e) Undershipments of allotments of Bartlett pears shall be reported to the Bartlett Pear Commodity Committee by 12:00 o'clock noon of the day following the day on which the respective undershipments are made.

(f) Each shipper shall account to the Bartlett Pear Commodity Committee for the disposition of any quantity of Bartlett pears in excess of such shipper's allotment at shipping point by reporting to such commodity committee, each day, regarding the disposition of each quantity of Bartlett pears in excess of the shipper's allotment for the preceding day. Each such report shall show:

(1) If placed in cold storage, the location of the cold storage plant and the quantity of Bartlett pears so placed.

(2) If exported off the Continent of North America, the car number or the name of the boat on which the shipment was made, and the quantity of Bartlett pears so exported.

(3) If sold for fresh consumption within the State of California, the destination.

(4) The quantity of Bartlett pears together with an adequate description of any other channel of disposition or destination of such fruit.

(g) The maximum time any car of Bartlett pears may be held at any assembly points is 96 hours.

(h) Adjustments for shipments of Bartlett pears by boat made by a shipper whose pears are regulated at assembly points shall be made 9 days prior to the expected day of arrival of such boat shipment.

(i) If any grower is dissatisfied with the decision or determination of the Bartlett Pear Commodity Committee relative to the action taken by said committee pursuant to the provisions of this section, such grower may appeal to the Secretary of Agriculture. Such appeal must be taken promptly after the determination by such commodity committee and there must be filed a written statement with said committee to the effect that the grower is thus appealing from its decision or determination. In the event a grower appeals, as aforesaid, to the Secretary of Agriculture, the Bartlett Pear Commodity Committee shall promptly forward to the Secretary of Agriculture a true and correct copy of all of the documents pertaining to the controversy including, but not being limited to, (*a*) a copy of each report filed by or for such grower; (*b*) a copy of the findings by the committee; (*c*) a copy of the grower's written statement of appeal; and (*d*) a written summary of all of the information obtained by, or submitted to such committee relative to such controversy.

§ 936.109 *Reports*—(a) *Bartlett pears.* Each shipper who ships Bartlett pears shall furnish, or authorize any or all railroad companies and transportation companies to furnish, to the confidential employee of the Control Committee complete daily information stating: (1) The time of departure of each shipment of Bartlett pears from specified railroad points, (2) the time of shipment of each car of Bartlett pears, (3) the name of the shipper, (4) the car number, (5) the number of packages of such pears (or the equivalent thereof in weight) by grades and sizes in each shipment, (6) the point of origin, and (7) the destination. The foregoing information is to be reported promptly and substantiated by a copy of the manifest covering the shipment or a recapitulation of the manifest. The daily information shall also include any diversion of the shipment of any carload of Bartlett pears made through any or all agencies as soon as possible after filing such diversion with any common carrier. In the event any such shipment includes Bartlett pears for which exemption certificates have been issued, information concerning the name of the grower for whom such exempted fruit has been shipped shall be included either on the aforesaid manifest or on separate reports.

(b) *Plums.* Each shipper who ships plums shall furnish, or authorize any or all railroad companies and transportation companies to furnish, to the confidential employee of the Control Committee complete daily information stating: (1) The name of the shipper, (2) the car number, (3) the number of packages by variety and size (or the equivalent thereof), (4) the weight of each shipment, (5) the point of origin, and (6) the destination. The foregoing information is to be reported promptly and substantiated by a copy of the manifest covering the shipment or a recapitulation of the manifest. The daily information shall include any diversion of the shipment of any carload of plums made through any or all agencies as soon as possible after filing such diversion with any common carrier. In the event the shipment includes plums for which exemption certificates have been issued, information concerning the name of the grower for whom such exempted fruit has been shipped shall be included either on the manifest or on separate reports.

(c) *Elberta peaches.* Each shipper who ships Elberta peaches shall furnish, or authorize any or all railroad companies and transportation companies to furnish, to the confidential employees of the Control Committee complete daily information stating: (1) The name of the shipper, (2) the car number, (3) the number of packages of Elberta peaches by size (or the equivalent thereto), (4) the weight of each shipment, (5) the point of origin, and (6) the destination. The foregoing information is to be reported promptly and substantiated by a copy of the manifest covering the shipment or a recapitulation of the manifest. The daily information shall include any diversion of the shipment of any carload of Elberta peaches made through any or all agencies as soon as possible after filing such diversion with any common carrier. In the event the shipment includes Elberta peaches for which exemption certificates have been issued, information concerning the name of the grower for whom such exempted fruit has been shipped shall be included either on the manifest or an separate reports.

NOTE: These rules and regulations were in existence prior to September 11, 1946, but were not published in the FEDERAL REGISTER.

Done at Washington, D. C., this 5th day of February 1947.

[Lemon Reg. 208]

PART 953—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.315 *Lemon Regulation 208.*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which the regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., February 9, 1947, and ending at 12:01 a. m., P. s. t., February 16, 1947, is hereby fixed at 150 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 207 (12 F. R. 768) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 6th day of February 1947.

[Orange Reg. 164]

PART 966—ORANGES GROWN IN THE STATE OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.310 *Orange Regulation 164*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., February 9, 1947, and ending at 12:01 a. m., P. s. t., February 16, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate Districts Nos. 1, 2, and 3, no movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, 300 carloads; (*b*) Prorate District No. 2, 700 carloads; and (*c*) Prorate District No. 3, unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base scheduled which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used herein, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 6th day of February 1947.

102.821 Restrictions on marriage of officers or employees to aliens.
102.822 Restrictions on persons retired from the Foreign Service.

AUTHORITY: §§ 102.102 to 102.822, inclusive, issued under R. S. 161, secs. 302, 421, 422, 541, 1002, 1003, 1004, 1011, Pub. Law 724, 79th Cong., 60 Stat. 1001, 1004, 1011, 1030; 5 U. S. C. 22.

SALARIES AND SALARY DIFFERENTIALS [1]

§ 102.102 *Notice of transfer of office.* (a) An officer shall not be considered to be lawfully in charge of a diplomatic or consular office and entitled to receive additional compensation during the absence of the principal officer unless a Transfer of Office Certificate Form No. 5 has been executed and forwarded to the Department. The dates to be used in determining the period for which charge pay is allowable shall be the dates of executing the Transfer of Office Certificate upon assuming and relinquishing charge. A true copy of the signed original certificate shall accompany the accounts of the office.

(b) In the event of the serious illness or death of the chief of mission or principal officer, or other emergency making it necessary for a subordinate officer to assume charge, the Transfer of Office Certificate shall be executed by the incoming officer with an appropriate explanation of the circumstances involved.

§ 102.103 *Computation of chargé pay.* (a) The amount of chargé pay allowed for assuming temporary charge of office is based on the per annum salary provided for the last chief of mission or basic salary of the last principal officer actually at the post, i. e.:

(1) At an embassy or legation the salary of the chargé shall be based on the per annum salary provided for the chief of mission who last served at the post;

(2) At a consulate general or consulate on the basis salary received by the last principal officer actually in charge of the post.

(b) Chargé pay shall accrue only on the basis of full days and is not subject to retirement deductions.

§ 102.104 *Changes in chargé pay.* (a) If a principal officer receives a promotion effective subsequent to his departure from his post of duty, on leave or otherwise, adjustment of the compensation of the officer in charge is authorized only in case such principal officer returns to the same duty station and resumes charge.

(b) When an officer or employee is lawfully authorized to assume charge during the absence of the principal officer and such principal officer is retroactively promoted effective on a date prior to his departure from the post, the officer in charge is entitled to have his chargé pay adjusted accordingly. (11 Comp. Gen. 273.)

(c) When a new office is established, chargé pay is not payable to a junior officer who assumes charge for a period prior to the arrival and entry upon duty of a principal officer or chief of mission.

APPOINTMENTS AND COMMISSIONS [2]

§ 102.305 *Foreign Service personnel required to take oath of office.* Upon appointment, all officers and employees of the Foreign Service, except alien clerks and employees appointed abroad, shall take the oath of office prescribed by section 1757 of the Revised Statutes of the United States, as amended (5 U. S. C. 16).

BONDS

§ 102.322 *Bonding of Foreign Service personnel.* (a) In addition to the officers of the Foreign Service required to give bond by section 1011 of the Foreign Service Act of 1946, every ambassador or minister who will render accounts or certify vouchers for payment, every consular agent, every authorized certifying officer, every officer who disburses while in the employ of the Department of State regardless of the source from which he derives such authority, every officer or employee of the Foreign Service who receives official collections for the Government of the United States, and every other officer or employee of the Foreign Service who is instructed to do so by the Department or by the officer in charge shall give a bond to the United States. The officer in charge may require the giving of bonds by an unbonded officer or employee who handles funds, valuables, fee stamps, or documents, or performs any duty for which the officer in charge might be held to be responsible.

(b) All bonds given to the United States by officers and employees in the Service shall be executed on Form 352, Foreign Service, in a penal sum of $5,000 or such larger amounts as the Department shall indicate in individual cases.

(c) All bonding companies holding certificates of authority from the Secretary of the Treasury under acts of Congress of August 13, 1894, and March 23, 1910 (28 Stat. 279, 36 Stat. 241; 6 U. S. C. 6–13) are hereby approved as acceptable sureties on bonds. If any surety other than those approved herein is desired by an officer or employee, the approval by the Secretary of State of such surety shall be obtained before executing the bond.

(d) Pursuant to the provisions of 6 U. S. C., Supp. 3, the bond of each officer or employee will be examined by the Department periodically (at least once every two years) for sufficiency of surety and penalty and if the officer or employee is notified that the penalty or surety is not sufficient he shall file a new bond to correct the deficiency. Upon relinquishing duties requiring a bond with a penalty in excess of the minimum, the officer or employee may request the Department to authorize him to reduce the penalty on his bond. Upon notification that the penalty on the bond may be reduced, the officer or employee shall file a new bond with a penalty in the new amount indicated by the Department.

(e) Upon receipt of a notification from a corporate surety to the effect that an officer or employee has failed to pay the annual premium on his bond, the Department will instruct such officer or employee to renew his bond. The officer or employee shall take immediate steps to follow these instructions.

(f) When it is necessary that an officer or employee be bonded immediately to enable him to perform some duty, he shall request that an interim bond be filed for him, indicating the surety desired, and shall agree to pay the premium without delay in the same penalty, with the same surety, and effective the same date as the interim bond.

ENTRY ON POST DUTY

§ 102.502 *Presentation of credentials.* (a) Upon arrival at the seat of mission, the new chief of mission shall request, through the principal officer of the mission, an informal conference with the Minister for Foreign Affairs, or such other officer of the government to which he is accredited as may be found authorized to act in the premises, in order to arrange for his official reception. He shall at the same time, in his own name, address a formal note to the Minister for Foreign Affairs, communicating the fact of his appointment and requesting the designation of a time and place for presenting his letter of credence and the letter of recall of his predecessor.

(b) When the representative is accredited by the President to the Chief of State, he shall, on requesting audience for the purpose of presenting the original sealed letter of credence in person, communicate to the Minister for Foreign Affairs the open office copy thereof accompanying his original instructions.

(c) If the chief of mission is assigned as chargé d'affaires and bears a letter of credence addressed to the Minister for

[1] 12 F. R. 5.

[2] 11 F. R. 13741.

Foreign Affairs, he shall, on addressing to the Minister the formal note, convey to him the office copy of his letter of credence and shall await the Minister's pleasure for presentation of the original.

(d) A copy of each letter of credence shall be prepared and placed in the files of the mission.

(e) When presenting his letter of credence, the new chief of mission should be accompanied by all officers assigned to the mission in a diplomatic capacity and by all the attachés of the mission.

§ 102.515 *Official calls by new chief of mission.* (a) A new chief of mission shall, immediately upon his arrival at the seat of mission, familiarize himself with the local rules regarding official calls. In his initial official visits he should be accompanied by the ranking Foreign Service officer assigned to the mission in a diplomatic capacity.

(b) A chargé d'affaires need not pay official calls upon his colleagues upon assuming charge if he be at the post at the time he is accredited. After assuming charge he shall call upon the Minister for Foreign Affairs on the latter's first general reception day.

§ 102.520 *Chiefs of mission to conform to ceremonial usage.* On all formal occasions the chief of mission shall be governed by the ceremonial usage of the country of his official residence. The chief of mission shall confer informally with the ceremonial officer, or, in the absence of such official, with the dean of the diplomatic corps, to insure appropriate conformity to established rules. Notes informing the mission of the departure of a chief of mission and the assumption of charge by a chargé d'affaires ad interim should not be answered unless local custom so requires.

§ 102.545 *Official calls by consular officers.* A consular officer, on entering on official duty status, shall conform to local custom in the matter of making official calls on the proper local officials and the consular officers of other countries.

RESTRICTIONS ON PERSONAL ACTIVITIES

§ 102.802 *Restrictions on official and private correspondence.* (a) Officers and employees of the Foreign Service shall not correspond with anyone other than the proper officers of the United States in regard to the public affairs of a foreign government, active political issues in the United States, or confidential matters pending in Foreign Service establishments or the Department of State, unless specific authorization to do so has first been received from the Secretary of State. Correspondence on such matters with officers of Government agencies in Washington, other than the Department of State, should be forwarded to the Department for clearance and transmission to the interested agency. Inquiries concerning any of the above-mentioned subjects from persons who are not officers of the United States should be acknowledged and the inquirers referred to the Department.

(b) Officers and employees should refrain from corresponding privately on personnel and other official matters with officers in the Department unless the subject of the correspondence has already been made a matter of record in official correspondence and the circumstances are such that further informal comments and suggestions are justified. Private communications on official matters shall never be referred to in subsequent official communications. However, such private communications are semi-official and accordingly copies shall be placed in the confidential or other files of the Foreign Service office. Private correspondence on personnel matters, when necessary, shall be addressed to the Director General of the Foreign Service or to the Chief of the Division of Foreign Service Personnel. If private correspondence on personnel matters involves persons other than the writer, copies of such correspondence shall be placed in the confidential or other files of the Foreign Service office.

§ 102.803 *Restrictions on writing for publication.* Officers and employees of the Foreign Service shall not act as correspondents for American or foreign newspapers, press syndicates, or associations, unless special authorization has been obtained in advance from the Secretary in each case. Officers and employees shall not write for publication any article or other manuscripts on political or controversial subjects. Articles or manuscripts on non-political or non-controversial subjects shall be submitted to the Committee on Unofficial Publication of the Department of State for review and approval prior to their submission to a publisher. However, when, in the opinion of the principal officer at a post, immediate publication of an article is desirable for local reasons, such officer may authorize the publication of a clearly non-political and non-controversial manuscript. Copies of such manuscripts shall be forwarded to the Department immediately under cover of a despatch.

§ 102.804 *Restrictions on political activities abroad.* Officers and employees of the Foreign Service shall not engage in any form of political activity in the country to which they are accredited or assigned.

§ 102.806 *Restrictions on participation in activities of private organizations.* (a) For the purpose of this section, the term "private organization" shall denote any group of persons associated for any purpose whatever, except an organization established by the Government of the United States or in which the Department of State participates officially. In participating in the programs and activities of any private organization, an officer or employee of the Foreign Service shall make it clear that the Department of State has no official connection with such organization and that it does not sponsor or sanction the viewpoints which he may express.

(b) Where a private organization is one concerned with foreign policy or international relations, either in general or in some special economic, political, or cultural field, an officer or employee of the Foreign Service shall limit his connection with such organization as follows—unless specially permitted to do so, he shall not serve as an adviser, officer, director, teacher, sponsor, committee chairman, or in any other official capacity or permit his name to be used on a letterhead, in a publication, in an announcement or news story, or at a public meeting, regardless of whether his title or his connection with the Department is mentioned. Special permission to assume or continue a connection prohibited by the foregoing provisions may be granted in cases where the public interests of the Government and the Department of State will not be adversely affected. To request such permission, or to determine whether the provisions of this section are applicable to a particular case, the officer or employee, if stationed at the Department or sojourning in the United States, shall address a memorandum to the Director General of the Foreign Service setting forth all the circumstances. That officer will consult the interested divisions and will recommend approval or disapproval to the Assistant Secretary of State for Administration. Such a request from an officer in the field should be made by despatch or airgram addressed to the Secretary of State in the usual manner.

(c) Where the purpose and program of the organization do not fall within the field of foreign policy and international relations and have no connection with the field in which the officer or employee does his official work the activity of the officer or employee shall be limited only to the following extent:

(1) His official title or his connection with the Department may be used to identify him, as in a civic association election, but shall not be used on a letterhead, in a publication, or otherwise so as to employ the prestige of the Department to enhance that of the organization or to imply official sponsorship;

(2) Where he is a representative of an association consisting of Departmental or Foreign Service employees, or of a group of such employees, his connection with the Department may be freely used so long as there is no implication of official sponsorship beyond what may have been officially approved by the Department.

§ 102.808 *Restrictions on business activities abroad.* (a) The following types of transactions shall be considered business transactions within the meaning of section 1003 of the Foreign Service Act of 1946:

(1) Speculation in exchange for profit;

(2) Transactions at exchange rates differing materially from those shown in the official monthly office accounts, unless such transactions are duly reported;

(3) Sales to unauthorized persons (whether at cost or for profit) of currency acquired at preferential rates through diplomatic or other restricted arrangements;

(4) Transactions which entail the use without official sanction of the diplomatic pouch;

(5) Transfers of funds on behalf of blocked nationals, or otherwise, in violation of United States Foreign Funds Control;

(6) Independent and unsanctioned private transactions which involve an officer or employee of the Foreign Service, as an individual, in a violation of applicable control regulations of foreign governments;

(7) Investments of money in real estate, mortgages, bonds, shares, and stocks;

(8) Permitting use of one's name as a business reference or signing books and documents which may be subsequently used for the purpose of seeking contributions or for other improper purposes;

(9) Permitting use of official title in any private business transactions.

(b) Officers and employees of the Foreign Service, except consular agents and alien clerks and employees, who violate the provisions of section 1003 of the Foreign Service Act of 1946 or who engage in any of the above-mentioned transactions at the post to which they are accredited or assigned shall be held to strict accountability for their actions by the Board of the Foreign Service. Consular agents and alien clerks and employees engaging in business activities which reflect discredit upon the Foreign Service shall be subject to appropriate disciplinary action by the supervisory officer in the case of consular agents, or by the officer in charge of the post concerned in the case of alien clerks and employees.

(c) The purchase of a house and land for personal use shall not be considered a violation of section 1003 of the Foreign Service Act of 1946.

§ 102.810 *Restrictions applicable to members of families.* (a) Restrictions placed on officers and employees of the Foreign Service in the matter of speeches, interviews, official and private correspondence, writing for publication, political activities abroad, participation in the activities of private organizations, and business activities, shall also apply to those members of the family of the officer or employee, including the alien spouse of an officer or employee, who normally reside with him and who are dependent upon him. An officer or employee of the Foreign Service shall be held to strict accountability for the actions of such members of his family.

(b) The alien spouse of any officer or employee in the Foreign Service shall avoid expressing views which are unfriendly to, or critical of, the United States, its Government, institutions, or people, either to or in the presence of other persons of foreign nationality. Alien spouses shall, in addition, refrain from engaging in, or associating closely with groups of people or organizations engaged in, activities which are inimical or embarrassing to the Government of the United States. Failure on the part of the alien spouse of a person employed in a Foreign Service office to observe these restrictions may, in the discretion of the Secretary of State, result in the dismissal of the person so employed.

§ 102.811 *Limitation on employment of members of family in Foreign Service office.* Members of the family of an officer or employee of the Foreign Service shall not be employed in the same Foreign Service office as the officer or employee except during grave emergencies or when special authorization has been obtained in advance of employment from the Secretary of State.

§ 102.813 *Restrictions on making recommendations in connection with employment.* (a) In general, officers and employees of the Foreign Service shall not, in their official capacity, make any recommendations in connection with the employment of persons unless the positions concerned are with the Government of the United States and the recommendations are made in response to an inquiry from a Government official authorized to employ persons or to investigate applicants for employment. However, a principal officer in the Foreign Service may furnish an employee who is leaving the Service with a document setting forth the bearer's integrity, diligence or other qualifications. In addition, a principal officer may, in answer to a letter of inquiry concerning a former employee in a Foreign Service office, state the length of time the person was employed in the Service and the fact that nothing in his record militates against him, if such is the case.

(b) An officer or employee of the Foreign Service may make personal recommendations in connection with the employment of any person, except in a position of trust or profit under the government of the country to which the officer or employee is accredited or assigned, provided that the officer or employee does not divulge any information concerning the person which he has derived from official sources.

§ 102.815 *Restrictions on preferring of charges.* An officer or employee of the Foreign Service shall not attack or publicly criticize any other officer or employee of the Foreign Service. If a Foreign Service officer or employee finds it necessary to criticize or prefer charges against any other officer or employee of the Service, he shall do so only in a personal and confidential communication to the Director General of the Foreign Service or the Chief of the Division of Foreign Service Personnel.

§ 102.817 *Restrictions on the acceptance of presents or favors.* (a) When officers or employees of the Foreign Service find it necessary to refuse, in accordance with the provisions of section 1002 of the Foreign Service Act of 1946, any present, emolument, pecuniary favor, office or title offered them by a foreign government either on their behalf or on behalf of some other person, the refusal shall be made in as gracious terms as possible, attention being invited to the fact that the acceptance of such presents, etc., is prohibited under the laws of the United States. Officers and employees of the Foreign Service shall take such precautionary measures as seem advisable to avoid being placed in a position where it becomes necessary to refuse acceptance of gifts, etc., from a foreign government.

(b) Officers and employees of the Foreign Service shall also refuse personal gifts or gratuities offered them by persons or organizations affected by the performance of their official duties.

(c) Rates or discounts offered to officers and employees of the Foreign Service as a class may be accepted and utilized.

§ 102.818 *Restrictions against extension of personal financial aid to Americans abroad.* Officers and employees of the Foreign Service shall not make personal loans to American citizens or others who have no personal claim on them, nor shall they obligate their personal credit for such persons, either by endorsing notes, bills of exchange, or other negotiable instruments or by assuming any form of financial responsibility.

§ 102.820 *Restrictions on wearing apparel of officers and employees.* When officers and employees of the Foreign Service are authorized by law or required by a military commander of the United States to wear a uniform, care shall be taken that the uniform is worn only at authorized times and for authorized purposes. As a rule, officers and employees of the Foreign Service shall confine themselves to wearing whatever civilian apparel is appropriate to the occasion and the relative position of the officer or employee vis-à-vis the officers and employees of the diplomatic and consular branches of other governments in the country of assignment. Conventional garb worn by chauffeurs, elevator operators and other miscellaneous employees shall not be considered uniforms within the meaning of section 1001 of the Foreign Service Act of 1946.

§ 102.821 *Restrictions on marriage of officers or employees to aliens.* (a) No person married to an alien shall be appointed as a Foreign Service officer. No person married to an alien shall be appointed to the Foreign Service Reserve or as a Foreign Service staff officer or employee unless express permission is granted by the Board of the Foreign Service.

(b) Before contracting marriage with a person of foreign nationality each officer and American employee shall request permission to do so from the Board of the Foreign Service. Any officer or American employee who contracts marriage with an alien without obtaining advance permission from the Board of the Foreign Service shall be deemed guilty of insubordination and shall be separated from the Service. Requests for permission to marry an alien shall be accompanied by the officer's or employee's resignation for such action as may be deemed appropriate.

(c) Chiefs of mission shall require their private secretaries to comply with the policy formulated in §§ 102.102 to 102.822, inclusive.

§ 102.822 *Restrictions on persons retired from the Foreign Service.* Persons retired from the Foreign Service shall be subject to all applicable restrictions on personal activities which are placed on officers and employees in active service.

The following sections of the Foreign Service Regulations are hereby superseded: §§ 101.4, 101.6, 101.7, and 101.14–101.30; §§ 102.3–102.5, 102.7, 102.9, and 102.10; §§ 105.22, 105.29–105.35, 105.37,

105.38, and 105.42 (a), (b), (c), (e); § 120.4.

Section 102.6 is hereby renumbered § 120.8.

This regulation is effective as of November 13, 1946.

For the Secretary of State.

JOHN E. PEURIFOY,
Deputy Assistant Secretary for Administration.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1079]

T. R. JOHNSON

T. R. Johnson operates and is the sole owner of the Johnson Company, with the principal place of business at 235 South Dock Street, Sharon, Pennsylvania, and among other things, is engaged in the manufacture of prefabricated houses and sections. The Company was authorized, pursuant to Direction 8 of Priorities Regulation 33, under CPA Serial #2074, to use the HH Preference Rating to obtain lumber, plywood lumber and other materials for use in the manufacture of prefabricated houses. During the third quarter of 1946, the company placed certified and HH rated orders for 540,000 square feet of plywood lumber with the U. S. Plywood Corporation, when, in fact, it was only authorized under the aforementioned CPA Serial Number to place the certified and HH rated orders for 105,000 square feet of plywood. The placing of certified rated orders for 435,000 square feet of plywood lumber in excess of its authorization constituted a wilful violation of Direction 8 of Priorities Regulation No. 33 and Priorities Regulation No. 3. During the third quarter of 1946, the Company delivered sufficient prefabricated sections, to complete four prefabricated dormitories, to the National Tube Company, Lorain, Ohio, on uncertified and unrated orders. The plywood used in the manufacture of these prefabricated sections was obtained on rated orders granted on CPA Application 4415, Serial No. 2074. The sale and delivery of these prefabricated sections on unrated and uncertified orders constituted a grossly negligent violation of Direction 8 of Priorities Regulation 33. During the calendar year 1946, the Company failed to keep at its regular place of business all documents, including purchase orders and preference rating orders, and generally failed to keep and maintain accurate and complete records of its transactions to which rules and regulations of the Civilian Production Administration apply. The failure to keep and maintain accurate, complete and proper records constituted a violation of § 944.15 of Priorities Regulation No. 1 and paragraph (g) (5) of Priorities Regulation No. 3. These violations have diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1079 *Suspension Order No. S-1079.* (a) Neither T. R. Johnson, doing business as Johnson Company, his or its successors or assigns, for a period of three months from the effective date of this order, shall apply or extend any preference ratings or certifications for plywood lumber, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended, and in addition, shall cancel all outstanding orders for plywood lumber bearing preference ratings.

(b) T. R. Johnson, doing business as Johnson Company, his or its successors or assigns, is prohibited from placing any further orders bearing preference ratings or delivering to others any materials obtained by the use of preference ratings, until such time as the records are organized, so as to comply with the requirements under the applicable priorities regulations.

(c) T. R. Johnson, doing business as Johnson Company, shall refer to this order in any application for appeal which may be filed individually, or in behalf of the company, with the Civilian Production Administration or any other duly authorized Governmental agency for priorities assistance, or for authorization to carry on construction.

(d) Nothing contained in this order shall be deemed to relieve T. R. Johnson, doing business as the Johnson Company, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on the 7th day of February 1947.

Issued this 31st day of January 1947.

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1388—DEFENSE-RENTAL AREAS

[Housing,[1] Amdt. 110 (§ 1388.1181)]

HOUSING

Section 5 (a) (12) of the Rent Regulation for Housing is amended in the following respects:

1. The first paragraph of section 5 (a) (12) is amended to read as follows:

(12) *Substantial hardship from increase in property taxes or operating costs.* Substantial hardship has resulted from a decrease in the net income (before interest) of the property for the current year as compared with a prior representative period, due to an unavoidable increase in property taxes or operating costs.

2. The third unnumbered paragraph of section 5 (a) (12) is eliminated.

3. The present fourth unnumbered paragraph of section 5 (a) (12) is amended by adding the following subparagraph (vi):

(vi) "Prior representative period" means any period of two consecutive years prior to the 'current year' but not beginning before January 1, 1939 which the Administrator finds to be representative of the property's normal operation: *Provided, however,* That where a representative period of two consecutive years is not available the Administrator in his discretion may for the purposes of this section accept a representative period of not less than one year.

4. The last unnumbered paragraph of section 5 (a) (12) is eliminated.

5. The sixth unnumbered paragraph of section 5 is amended to read as follows:

In cases under paragraph (a) (12) of this section, the adjustment in the maximum rent shall be in the amount necessary to relieve the substantial hardship which shall be the lesser of the following two amounts: the decrease in net income (before interest) or the increase in property taxes or operating costs: *Provided,* That the adjustment shall not result in a maximum rent higher than the rent generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date.

This amendment shall become effective February 15, 1947.

Issued this 7th day of February 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement To Accompany Amendment 110 to the Rent Regulation for Housing; Amendment 34 to the Rent Regulation for Housing in the New York City Defense-Rental Area, Amendment 26 to the Rent Regulation for Housing in the Atlantic County Defense-Rental Area and Amendment 30 to the Rent Regulation for Housing in the Miami Defense-Rental Area

By Amendment No. 110 to the Rent Regulation for Housing the basis for relief under section 5 (a) (12) has been broadened to make it possible for additional landlords to obtain a compensating rent adjustment if they establish that the earnings of their property have been substantially reduced by rising taxes or operating costs.

Under this section, as amended, hardship is determined by comparing the operating position of the property in the current year with the operating position in a representative two year period. Prior to this change the base period used, had to be a representative period preceding the maximum rent date. From now on the base period may be any representative consecutive two year period beginning on or after January 1, 1939.

This change in the regulation regarding the base period will prove advantageous to many owners of rental property. A landlord now may select as his base period any consecutive two years operation since January 1, 1939 which is representative of his normal operations. Many property owners who have no financial records or no rental history for the period prior to the maximum rent date may now qualify for adjustment under this section. For example, prior to the amendment a landlord who had not kept books for the required representative period prior to the maximum rent date or a purchaser of rental property who was unable to obtain operating records for the base period from the previous owner or a property owner whose housing accommodations were not rented during the base period preceding the maximum rent date were unable to obtain relief. This amendment will now permit these classes of landlords to qualify for adjustment if they can establish hardship and some of their rents are below comparability.

To qualify for an adjustment under this section a landlord must show that he has had a decrease in net income (before interest) and an increase in property taxes or operating costs between the base period and the current year. If he can establish this, the amount of the adjustment will be the lesser of the two. Adjustments, however, as heretofore will be limited to the rent generally prevailing in the defense-rental area for comparable accommodations on the maximum rent date.

The amendment also deletes the provision that wage increases granted by the landlord must generally be approved by the appropriate wage or salary stabilization agency of the United States in order to be considered as part of the property's increased operating cost. This change was made necessary with the termination of the controls over wages and salaries exercised by the National Wage Stabilization Board and the Office of Economic Stabilization.

These changes in section 5 (a) (12) are made by (1) rewording the first paragraph; (2) deleting the third and the last unnumbered paragraphs, respectively; and (3) adding to the present fourth unnumbered paragraph a subparagraph defining "prior representative period." The sixth unnumbered paragraph of section 5 is also reworded to make explicit the measure of adjustment applicable to cases under section 5 (a) (12).

Corresponding changes are made in the Rent Regulation for Housing in the New York City Defense-Rental Area, the Rent Regulation for Housing in the Atlantic County Defense-Rental Area, the Rent Regulation for Housing in the Miami Defense-Rental Area.

In the judgment of the Temporary Controls Administrator, these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Atlantic County Area,[1] Amdt. 26 (§ 1388.1411)]

HOUSING IN ATLANTIC COUNTY

Section 5 (a) (12) of the Rent Regulation for Housing in the Atlantic County Defense-Rental Area is amended in the following respects:

1. The first paragraph of section 5 (a) (12) is amended to read as follows:

(12) *Substantial hardship from increase in property taxes or operating costs.* Substantial hardship has resulted from a decrease in the net income (before interest) of the property for the current year as compared with a prior representative period, due to an unavoidable increase in property taxes or operating costs.

2. The third unnumbered paragraph of section 5 (a) (12) is eliminated.

3. The present fourth unnumbered paragraph of section 5 (a) (12) is amended by adding the following subparagraph (vi):

(vi) "Prior representative period" means any period of two consecutive years prior to the 'current year' but not beginning before January 1, 1939 which the Administrator finds to be representative of the property's normal operation: *Provided, however,* That where a representative period of two consecutive years is not available the Administrator in his discretion may for the purposes of this section accept a representative period of not less than one year.

4. The last unnumbered paragraph of section 5 (a) (12) is eliminated.

5. The sixth unnumbered paragraph of section 5 is amended to read as follows:

In cases under paragraph (a) (12) of this section, the adjustment in the maximum rent shall be in the amount necessary to relieve the substantial hardship which shall be the lesser of the following two amounts: the decrease in net income (before interest) or the increase in property taxes or operating costs: *Provided,* That the adjustment shall not result in a maximum rent higher than the rent generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date.

This amendment shall become effective February 15, 1947.

Issued this 7th day of February 1947.

By Amendment No. 110 to the Rent Regulation for Housing the basis for relief under section 5 (a) (12) has been broadened to make it possible for additional landlords to obtain a compensating rent adjustment if they establish that the earnings of their property have been substantially reduced by rising taxes or operating costs.

Under this section, as amended, hardship is determined by comparing the operating position of the property in the current year with the operating position in a representative two year period. Prior to this change the base period used, had to be a representative period preceding the maximum rent date. TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 3—RULES GOVERNING RADIO BROADCAST SERVICES

ORDER ADOPTING AMENDMENTS

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C. on the 31st day of January 1947:

Whereas, the Commission has had under consideration the amendments to the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, and

Whereas, the proposed amendments had been widely discussed with interested persons, specifically with Engineering Committees appointed to advise the Commission in the matter of Clear Channel Broadcasting in the Standard Broadcast Band (Docket 6741) with Industry Committees meeting to advise the Commission concerning proposals to be made to the North American Regional Radio-Engineering Meeting concerning the extension of the North American Regional Broadcasting Agreement and testimony concerning these amendments was taken in the hearing being held in Docket No. 6741, and

Whereas, general notice of proposed rule making in respect thereto has been published in accordance with section 4 (a) of the Administrative Procedure Act under date of December 20, 1946 and January 16, 1947, and

Whereas, the amendments are issued under the authority of sections 303 (b), 303 (f) and 303 (r) of the Communications Act of 1934, as amended, and

Whereas, suggestions and comments pertaining to the proposed revisions have been filed with the Commission, and

Whereas, the Commission has considered carefully all such suggestions and comments, has made certain revisions in the amendments by reason of the suggestions and comments received, and

Whereas, the public interest, convenience, and necessity will be served by the adoption of the proposed amendments to the Standards of Good Engineering Practice Concerning Standard Broadcast Stations,

Now, therefore, it is ordered, That the Standards of Good Engineering Practice Concerning Standard Broadcast Stations are hereby amended to the following extent:

a. The method for computing RSS interference appearing under section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, in the paragraph beginning "With respect to the root-sum²square values of interfering field intensities . . ." and ending with "N is the number of interfering signals of approximately the same value." (page 7, second paragraph) is amended to read as follows:

With respect to the root-sum-square values of interfering field intensities referred to herein, except in the case of Class IV stations on Local Channels, calculation is accomplished by considering the signals in order of decreasing magnitude, adding the squares of the values and extracting the square root of the sum, excluding those signals which are less than 50% of the RSS value of the higher signals already included.

The RSS value will not be considered to be increased when a new interfering signal is added which is less than 50% of the RSS value of the interference from existing stations, and which at the same time is not greater than the smallest signal included in the RSS value of interference from existing stations.

It is recognized that application of the above "50% exclusion" method of calculating the RSS interference may result in some cases in anomalies wherein the addition of a new interfering signal or the increase in value of an existing interfering signal will cause the exclusion of a previously included signal and may cause a decrease in the calculated RSS value of interference. In order to provide the Commission with more realistic information regarding gains and losses in service (as a basis for determination of the relative merits of a proposed operation) the following alternate method for calculating the proposed RSS values of interference will be employed wherever applicable.

In the cases where it is proposed to add a new interfering signal which is not less than 50% of the RSS value of interference from existing stations or which is greater than the smallest signal already included to obtain this RSS value, the RSS limitation after addition of the new signal shall be calculated without excluding any signal previously included. Similarly, in cases where it is proposed to increase the value of one of the existing interfering signals which has been included in the RSS value, the RSS limitation after the increase shall be calculated without excluding the interference from any source previously included.

If the new or increased signal proposed in such cases is ultimately authorized, the RSS values of interference to other stations affected will thereafter be calculated by the "50% exclusion" method without regard to this alternate method of calculation.

Examples of RSS interference calculations:

1. Existing interferences:

Station No. 1—1.0 mv/m.
Station No. 2—0.60 mv/m.
Station No. 3—0.59 mv/m.
Station No. 4—0.58 mv/m.

The RSS value from Nos. 1, 2 and 3 is 1.31 mv/m: therefore interference from No. 4 is excluded for it is less than 50% of 1.31 mv/m.

2. Station A receives interference from:

Station No. 1—1.0 mv/m.
Station No. 2—0.60 mv/m.
Station No. 3—0.58 mv/m.

It is proposed to add a new limitation—0.68 mv/m. This is more than 50% of 1.31 mv/m, the RSS value of Nos. 1, 2 and 3. The RSS value of Station No. 1 and of the proposed station would be 1.21 mv/m which is more than twice as large as the limitation from Station No. 2 or No. 3. However, under the above provision the new signal and the three existing interferences are nevertheless calculated for purposes of comparative studies, resulting in an RSS value of 1.47 mv/m. However, if the proposed station is ultimately authorized, only No. 1 and the new signal are included in all subsequent calculations for the reason that Nos. 2 and 3 are less than 50% of 1.21 mv/m, the RSS value of the new signal and No. 1.

3. Station A receives interference from:

Station No. 1—1.0 mv/m.
Station No. 2—0.60 mv/m.
Station No. 3—0.59 mv/m.

No. 1 proposes to increase the limitation it imposes on Station A to 1.21 mv/m. Although the limitations from stations Nos. 2 and 3 are less than 50% of the 1.21 mv/m limitation under the above provision, they are nevertheless included for comparative studies, and the RSS limitation is calculated to be 1.47 mv/m. However, if the increase proposed by Station No. 1 is authorized, the RSS value then calculated is 1.21 mv/m because Stations Nos. 2 and 3 are excluded in view of the fact that the limitations they impose are less than 50% of 1.21 mv/m.

b. The method for computing the nighttime limitation on local channels is set forth under section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, by amending that portion of the paragraph beginning "Class IV stations operate on local channels * * *" and ending "On local channels the separation required for the daytime protection shall also determine the nighttime separation." (lines 7 to 13 on page 3) to read as follows:

Class IV stations operate on local channels normally rendering primary service only to a city or town and the suburban and rural areas contiguous thereto with powers not less than 0.1 kw or more than 0.25 kw. These stations are normally protected to 500 uv/m groundwave contour daytime. On local channels the separation required for the daytime protection shall also determine the nighttime separation. The actual nighttime limitation will be calculated.[2a]

[2a] The following approximate method may be used. It is based on the assumption of 0.25 wavelength antenna height and 88 mv/m at one mile effective field for 250 watts power, using the 10% skywave field intensity curve of Figure 1–A. Zones defined by circles of various radii specified below are drawn about the desired station and the interfering 10% skywave signal from each station in a given zone is considered to be the value tabulated below. The effective interfering 10% skywave signal is taken to be the RSS value of all signals originating within these zones. (Stations beyond 500 miles are not considered.)

Zone	Inner radius	Outer radius	10 percent skywave signal (mv/m)
A		60	0.10
B	60	80	.12
C	80	100	.14
D	100	250	.16
E	250	350	.14
F	350	450	.12
G	450	500	.10

Where the power of the interfering station is not 250 watts, the 10% skywave signal should be adjusted by the square root of the ratio of the power to 250 watts.

c. The method for determining adjacent channel groundwave interference to secondary service set forth under section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, by footnote 3 (page 1) is revised by amendment of said footnote 3 to read as follows:

[3] The secondary service area of a Class I station is not protected from adjacent channel interference. However, if it is desired to make a determination of the area in which adjacent channel groundwave interference (10 kc removed) to skywave service exists, it may be considered as the area where the ratio of the desired 50% skywave of the Class I station to the undesired groundwave of a station 10 kc removed is 1 to 4.

d. The standards concerning interference ratios and mileage separation of stations are amended by the following changes:

1. That portion of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, consisting of the paragraphs beginning with "The night separation tables . . ." and ending with Table VIII–H, inclusive (pages 10 through 16) is amended to read as follows:

The following table is to be used for determining the minimum ratio of the field intensity of a desired to an undesired signal for interference free service. In the case of a desired groundwave signal interfered with by two or more skywave signals on the same frequency, the RSS value of the latter is used.

TABLE—INTERFERENCE RATIOS

Frequency separation of desired to undesired signals—	Desired groundwave to—		Desired 50 percent skywave to undesired 10 percent skywave
	Undesired groundwave	Undesired 10 percent skywave	
0 kc	20:1	20:1	20:1
10 kc	1:1	1:5	(1)
20 kc	1:30		

[1] See footnote 3, p. 1.

(The Commission has ordered a hearing with respect to what changes should be made in the Standards concerning the assignment of two stations with the same general groundwave service area for operation with a frequency separation of 30 kc or less. Until a decision is rendered with respect to this matter, the provisions in the Standards in effect on and prior to February 7, 1947 shall govern, including any relevant material contained in the Standards on pages 10 through 16.)

Two stations, one with a frequency twice that of the other, should not be assigned in the same groundwave service area unless special precautions are taken to avoid interference from the second harmonic of the lower frequency. In selecting a frequency, consideration should be given to the fact that occasionally the frequency assignment of two stations in the same area may bear such a relation to the intermediate frequency of some broadcast receivers as to cause so-called "image" interference. However, since this can usually be rectified by readjustment of the intermediate frequency of such receivers, the Commission in general will not take this kind of interference into consideration in allocation problems.

Two stations operating with synchronized carriers[2] and carrying the identical program will have their groundwave service subject to some distortion in areas where the signals from the two stations are of comparable intensity. For the purpose of estimating coverage of such stations areas in which the signal ratio is between 1 to 2 and 2 to 1 will not be considered as having satisfactory service.

2. That portion of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, beginning with the second sentence of the paragraph following Table III and ending with the sentence "This rating in kilowatts shall be applied in the use of mileage separation tables or in computing interference from the propagation curves.[10]" (page 8) is amended to read as follows: "To determine the interference in any direction, in the absence of actual interference measurements, the measured or calculated radiated field (unabsorbed field intensity at one mile from the array) must be used in conjunction with the appropriate propagation curves.[10]"

3. That portion of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, consisting of subparagraph (c) of the paragraph beginning "The existence or absence of objectionable interference from stations on the same or adjacent channels * * *" (page 8) is deleted.

4. That portion of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, consisting of the two paragraphs beginning "Table VI gives the required day separation * * *" and ending "* * * to modify the mileage separation accordingly.[12]" (page 9) is deleted. (Note that footnote 13 is retained, however.)

5. That portion of Annex I of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, consisting of the tenth sentence of the sixth paragraph thereof (page 18) is amended to read: "Since the stations are separated by 10 kc, the undesired signal at that point can have a value up to 500 uv/m without interference, but if the interference signal had been found to be greater than this value, then interference would have been determined."

6. That portion of Annex I of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, appearing in the eleventh sentence of the sixth paragraph thereof (page 18), which reads "* * * or 25 times when the frequency separation is 20 kc." is deleted.

e. It is proposed to amend the Standards of Good Engineering Practice Concerning Standard Broadcast Stations by adding Figure 1–A (10% Skywave Signal Range Chart) and Figure 6–A (Angles of Departure vs. Transmission Range) to the Standards, which figures are attached hereto. Figures 1–A and 6–A will not affect clear channel frequencies.

f. The standards concerning the calculation of skywave signals are amended by the following changes:

1. That portion of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, consisting of subparagraph (b) of the paragraph beginning "The existence or absence of objectionable interference from stations on the same or adjacent channels * * *" (page 8) is amended to read as follows:

(b) By reference to the propagation curves in Figure 1 or Figure 1–A, and Appendix I.

2. That portion of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, consisting of the fourth paragraph following Table III, beginning "In computing the distance to the 50 percent sky wave field intensity contour of a Class I station * * *" (page 9) is amended to read as follows:

In computing the 50 percent skywave field intensity values of a Class I station of a given power and also in computing the 10% skywave field intensity of an alleged interfering Class I or Class II station on a clear channel, use shall be made of the appropriate graph set forth in Figure 1 entitled "Average Skywave Field Intensity" (corresponding to the second hour after sunset at the recording station). These graphs are drawn for a radiated field of 100 millivolts per meter at 1 mile on the horizontal plane from a 0.311 antenna. In computing the 10 percent skywave field intensity of an alleged interfering station, other than Class I or Class II, at a specified distance, use shall be made of the appropriate curve in Figure 1–A entitled "10% Sky wave Signal Range". This graph is drawn for a radiated field of 100 millivolts per meter at 1 mile at the vertical angle pertinent to transmission by one reflection. This curve supersedes the 10% skywave curve of Figure 1, only for regional and local channels at the present time.[13] Adoption of revised skywave curves for use on clear channels will await the outcome of the Clear Channel Hearing (Docket No. 6741) and the negotiations for a new North American Regional Broadcasting Agreement.

3. That portion of Annex I of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, consisting of the last sentence of the sixth paragraph thereof (page 18) is amended to read as follows: "In this case the interference must be estimated on the basis of the sky wave interference and the propagation curve in Figure 1 or Figure 1–A, used to determine the interfering signals rather than Figure 4 for the ground wave signals."

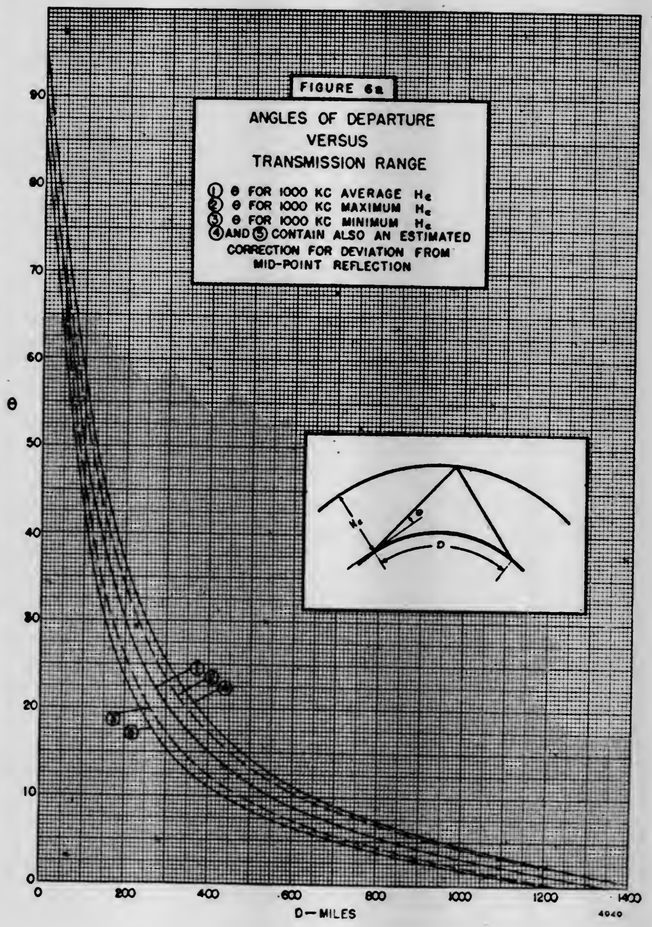
4. That portion of Annex II of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, consisting of paragraph 2 thereof (page 18) is amended by prefixing the following phrase: "For signals from stations operating on clear channels, * * *

5. Annex II of section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations (page 19) is amended by the insertion of the following paragraphs immediately before the last paragraph thereof:

For signals from stations on regional and local channels, in computing the 10% skywave (interference) field intensity values of Class III and Class IV stations,[13a] Fig. 1–A is to be used in place of Figure 1. Since Figure 1–A is predicated upon a radiated field of 100 mv/m at one mile in the pertinent direction, no comparison with the vertical pattern of a 0.311 wavelength antenna is to be made. Instead the appropriate radiated field in the vertical plane corresponding to the distance to the receiving station, divided by 100, is multiplied into the value of 10% skywave field intensity determined from Figure 1–A. There are two new factors to be considered, however, namely the variation of received field with latitude of the path and the variation of pertinent vertical angle due to variations of ionosphere height and ionosphere scattering.

Figure 1–A, "10% Skywave Signal Range Chart," shows the 10% skywave signal as a function of the latitude of the transmission path and the distance from a transmitting antenna with a radiated field of 100 mv/m at the pertinent angle for the distance. The latitude of the transmission path is defined as the geographic latitude of the midpoint between the transmitter and the receiver. Latitude 35° should be used in case the midpoint of the path lies below 35° North and latitude 50° should be used in case the midpoint of the path lies above 50° North.

Figure 6–A, entitled "Angles of Departure vs. Transmission Range," is to be used in determining the angles in the vertical pattern of the antenna of an interfering station to be considered as pertinent to transmission by one reflection. Corresponding to any given distance, the curves 4 and 5 indicate the upper and lower angles within which the radiated field is to be considered. The maximum value of field intensity occurring between these angles will be used to determine the multiplying factor for the 10% skywave field intensity determined from Figure 1–A. (Curves 2 and 3 are considered to represent the variation due to the variation of the effective height of the E–layer while Curves 4 and 5 extend the range of pertinent angles to include a factor which allows for scattering. The dotted lines are included for information only.)



In the case of non-directional vertical antennas, the vertical distribution of relative fields for several heights, assuming sinusoidal distribution of current along the antenna, is shown in Figure 5. In the case of directional antennas the vertical pattern in the great circle direction toward the point of reception in question must first be calculated. Then for the distance to the points, the upper and lower pertinent angles are determined from Figure 6–A. The ratio of the largest value of radiated field occurring between these angles, to 100 mv/m (for which Figure 1–A is drawn) is then used as the multiplying factor for the value of the field read from the curves of Figure 1–A. Note that while the accuracy of the curves is not as well established by measurements for distances less than 250 miles as for distances in excess of 250 miles, the curves represent the most accurate data available today. Pending accumulation of additional data to establish firm standards for skywave calculations in this range, the curves may be used. In cases where the radiation in the vertical plane, in the pertinent azimuth, contains a large lobe at a higher angle than the pertinent angle for one reflection, the method of calculating interference will not be restricted to that described above, but each such case will be considered on the basis of the best knowledge available.

For example, suppose it is desired to determine the amount of interference to a Class III station at Portland, Oregon, caused by another Class III station at Los Angeles, California, which is radiating a signal of 560 mv/m unattenuated at one mile in the great circle direction of Portland, using a 0.5 wavelength antenna. The distance is 825 miles. From Figure 6–A the upper and lower pertinent angles are 7° and 3.5° and, from figure 5 the maximum radiation within these angles is 99% of the horizontal radiation or 554 mv/m at 1 mile. The latitude of the path is 39.8° N and from Figure 1–A, the 10% skywave field at 825 miles is 0.050 mv/m for 100 mv/m radiated. Multiplying by 554/100 to adjust the value to the actual radiation gives 0.277 mv/m. At 20 to 1 ratio the limitation to the Portland stations is to the 5.5 mv/m contour.

These amendments shall become effective February 10, 1947. The Commission finds that less than 30 days are required to effectuate these amendments because they have the effect of granting certain exemptions, relieving certain restrictions and facilitating the filing and processing of applications in furtherance of the Temporary Expediting Procedure for Standard Broadcast Applications adopted by the Commission on January 8, 1947 and published in the FEDERAL REGISTER on January 16, 1947.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

[2] Two stations are considered to be operated synchronously when the carriers are maintained within one-fifth of a cycle per second of each other and they transmit identical programs.

[13] The Commission will not authorize a directional antenna for a Class IV station assigned to a local channel.

[13a] Certain simplifying assumptions may be made in the case of Class IV stations on local channels; See footnote 3a.

FEDERAL ESTATE TAXATION PURSUANT TO DEATH DUTY CONVENTION BETWEEN THE UNITED STATES AND THE UNITED KINGDOM

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority of section 3791 of the Internal Revenue Code (53 Stat. 467; 26 U. S. C. 3791) and pursuant to the provisions of Chapter 3 of the Internal Revenue Code (53 Stat. 119; 26 U. S. C. 800 et seq.) and the convention between the United States and the United Kingdom pertaining to death duties proclaimed by the President of the United States on July 30, 1946.

82.102 Scope of regulations.
82.103 Domicile and citizenship.
82.104 Situs of property.
82.105 Taxation on basis of domicile, citizenship, or the law governing disposition of property.
82.106 Taxation on basis of situs of property.
82.107 Credit for estate duties imposed in Great Britain and Northern Ireland.
82.108 Claim for credit or refund and interest on refund.
82.109 Information furnished by each contracting country to the other.

§ 82.101 *Proclamation of President, text of convention, and statutory provisions authorizing regulations.* The proclamation of the President of the United States, containing the text of the convention between the United States and the United Kingdom of Great Britain and Northern Ireland relating to Federal estate taxes and the estate duties imposed in Great Britain and Northern Ireland (hereinafter referred to as the convention), is set forth below:

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

Whereas a convention between the United States of America and the United Kingdom of Great Britain and Northern Ireland for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on the estates of deceased persons was signed by their respective Plenipotentiaries at Washington on April 16, 1945, the original of which convention is word for word as follows:

The Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland,

Desiring to conclude a convention for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on the estates of deceased persons,

Have appointed for that purpose as their respective Plenipotentiaries:

The Government of the United States of America:

Mr. Edward R. Stettinius, Jr., Secretary of State, and

The Government of the United Kingdom of Great Britain and Northern Ireland:

The Right Honorable the Earl of Halifax, K. G., Ambassador Extraordinary and Plenipotentiary in Washington,

Who, having exhibited their respective full powers, found in good and due form, have agreed as follows:

ARTICLE I

(1) The taxes which are the subject of the present Convention are:

(a) In the United States of America, the Federal estate tax, and

(b) In the United Kingdom of Great Britain and Northern Ireland, the estate duty imposed in Great Britain.

(2) The present Convention shall also apply to any other taxes of a substantially similar character imposed by either Contracting Party subsequently to the date of signature of the present Convention or by the government of any territory to which the present Convention applies under Article VIII or Article IX.

ARTICLE II

(1) In the present Convention, unless the context otherwise requires:

(a) The term "United States" means the United States of America, and when used in a geographical sense means the States, the Territories of Alaska and of Hawaii, and the District of Columbia.

(b) The term "Great Britain" means England, Wales and Scotland, and does not include the Channel Islands or the Isle of Man.

(c) The term "territory" when used in relation to one or the other Contracting Party means the United States or Great Britain, as the context requires.

(d) The term "tax" means the estate duty imposed in Great Britain or the United States Federal estate tax, as the context requires.

(2) In the application of the provisions of the present Convention by one of the Contracting Parties, any term not otherwise defined shall, unless the context otherwise requires, have the meaning which it has under the laws of that Contracting Party relating to the tax which are the subject of the present Convention.

ARTICLE III

(1) For the purposes of the present Convention, the question whether a decedent was domiciled in any part of the territory of one of the Contracting Parties at the time of his death shall be determined in accordance with the law in force in that territory.

(2) Where a person dies domiciled in any part of the territory of one Contracting Party, the situs of any of the following rights or interests, legal or equitable, which for the purposes of tax form part of the estate of such person or pass on his death, shall, for the purposes of the imposition of tax and for the purposes of the credit to be allowed under Article V, be determined exclusively in accordance with the following rules, but in cases not within such rules the situs of such rights and interests shall be determined for those purposes in accordance with the Law relating to tax in force in the territory of the other Contracting Party:

(a) Rights or interests (otherwise than by way of security) in or over immovable property shall be deemed to be situated at the place where such property is located;

(b) Rights or interests (otherwise than by way of security) in or over tangible movable property, other than such property for which specific provision is hereinafter made, and in or over bank or currency notes, other forms of currency recognized as legal tender in the place of issue, negotiable bills of exchange and negotiable promissory notes, shall be deemed to be situated at the place where such property, notes, currency or documents are located at the time of death, or, if *in transitu*, at the place of destination;

(c) Debts, secured or unsecured, other than the forms of indebtedness for which specific provision is made herein, shall be deemed to be situated at the place where the decedent was domiciled at the time of death;

(d) Shares or stock in a corporation other than a municipal or governmental corporation (including shares or stock held by a nominee where the beneficial ownership is evidenced by scrip certificates or otherwise) shall be deemed to be situated at the place in or under the laws of which such corporation was created or organized;

(e) Monies payable under a policy of assurance or insurance on the life of the decedent shall be deemed to be situated at the place where the decedent was domiciled at the time of death;

(f) Ships and aircraft and shares thereof shall be deemed to be situated at the place of registration or documentation of the ship or aircraft;

(g) Goodwill as a trade, business or professional asset shall be deemed to be situated at the place where the trade, business or profession to which it pertains is carried on;

(h) Patents, trademarks and designs shall be deemed to be situated at the place where they are registered;

(i) Copyright, franchises, and rights or licenses to use any copyrighted material, patent, trademark or design shall be deemed to be situated at the place where the rights arising therefrom are exercisable;

(j) Rights or causes of action *ex delicto* surviving for the benefit of an estate of a decedent shall be deemed to be situated at the place where such rights or causes of action arose;

(k) Judgment debts shall be deemed to be situated at the place where the judgment is recorded;

Provided That if, apart from this paragraph, tax would be imposed by one Contracting Party on any property which is situated in its territory and passes under a disposition not governed by its law, this paragraph shall not apply to such property unless, by reason of its application or otherwise, tax is imposed or would but for some specific exemption be imposed thereon by the other Contracting Party.

ARTICLE IV

(1) In determining the amount on which tax is to be computed, permitted deductions shall be allowed in accordance with the law in force in the territory in which the tax is imposed.

(2) Where tax is imposed by one Contracting Party on the death of a person who at the time of his death was not domiciled in any part of the territory of that Contracting Party but was domiciled in some part of the territory of the other Contracting Party, no account shall be taken in determining the amount or rate of such tax of property situated outside the former territory: *Provided*, That this paragraph shall not apply as respects tax imposed—

(a) In the United States in the case of a United States citizen dying domiciled in any part of Great Britain; or

(b) In Great Britain in the case of property passing under a disposition governed by the law of Great Britain.

ARTICLE V

(1) Where one Contracting Party imposes tax by reason of a decedent's being domiciled in some part of its territory or being its national, that Party shall allow against so much of its tax (as otherwise computed) as is attributable to property situated in the territory of the other Contracting Party, a credit (not exceeding the amount of the tax so attributable) equal to so much of the tax imposed in the territory of such other Party as is attributable to such property; but this paragraph shall not apply as respects any such property as is mentioned in paragraph (2) of this Article.

(2) Where each Contracting Party imposes tax by reason of a decedent's being domiciled in some part of its territory, each Party shall allow against so much of its tax (as otherwise computed) as is attributable to property which is situated, or is deemed under paragraph (2) of Article III to be situated,

(a) In the territory of both Parties, or

(b) Outside both territories,

a credit which bears the same proportion to the amount of its tax so attributable or to the amount of the other Party's tax attributable to the same property, whichever is the less, as the former amount bears to the sum of both amounts.

(3) For the purposes of this Article, the amount of the tax of a Contracting Party attributable to any property shall be ascertained after taking into account any credit, allowance or relief, or any remission or reduction of tax, otherwise than in respect of tax payable in the territory of the other Contracting Party or in any other country; and if, in respect of property situated outside the territories of both Parties, a Contracting Party allows against its tax a credit for tax payable in the country where the property is situated, that credit shall be taken into account in ascertaining, for the purposes of paragraph (2) of this Article, the amount of the tax of that Party attributable to the property.

ARTICLE VI

(1) Any claim for a credit or for a refund of tax founded on the provisions of the present Convention shall be made within six years from the date of the death of the decedent in respect of whose estate the claim is made, or, in the case of a reversionary interest where payment of tax is deferred until on or after the date on which the interest falls into possession, within six years from that date.

(2) Any such refund shall be made without payment of interest on the amount so refunded.

ARTICLE VII

(1) The taxation authorities of the Contracting Parties shall exchange such information (being information available under the respective taxation laws of the Contracting Parties) as is necessary for carrying out the provisions of the present Convention or for the prevention of fraud or the administration of statutory provisions against legal avoidance in relation to the taxes which are the subject of the present Convention. Any information so exchanged shall be treated as secret and shall not be disclosed to any person other than those concerned with the assessment and collection of the taxes which are the subject of the present Convention. No information shall be exchanged which would disclose any trade secret or trade process.

(2) As used in this Article, the term "taxation authorities" means, in the case of the United States, the Commissioner of Internal Revenue or his authorized representative; in the case of Great Britain, the Commissioners of Inland Revenue or their authorized representative; and, in the case of any territory to which the present Convention is extended under Article VIII, the competent authority for the administration in such territory of the taxes to which the present Convention applies.

ARTICLE VIII

(1) Either of the Contracting Parties may, on the coming into force of the present Convention or at any time thereafter while it continues in force, by a written notification of extension given to the other Contracting Party through diplomatic channels, declare its desire that the operation of the present Convention shall extend to all or any of its colonies, overseas territories, protectorates, or territories in respect of which it exercises a mandate, which impose taxes substantially similar in character to those which are the subject of the present Convention. The present Convention shall apply to the territory or territories named in such notification as to the estates of persons dying on or after the date or dates specified in the notification (not being less than sixty days from the date of the notification) or, if no date is specified in respect of any such territory, on or after the sixtieth day after the date of such notification, unless, prior to the date on which the Convention would otherwise become applicable to a particular territory, the Contracting Party to whom notification is given shall have informed the other Contracting Party in writing through diplomatic channels that it does not accept such notification as to that territory. In the absence of such extension, the present Convention shall not apply to any such territory.

(2) At any time after the expiration of one year from the entry into force of an extension under paragraph (1) of this Article, either of the Contracting Parties may, by written notice of termination given to the other Contracting Party through diplomatic channels, terminate the application of the present Convention to any territory to which it has been extended under paragraph (1), and in such event the present Convention shall cease to apply, as to the estates of persons dying on or after the date or dates (not being earlier than the sixtieth day after the date of such notice) specified in such notice, or, if no date is specified, on or after the sixtieth day after the date of such notice, to the territory or territories named therein, but without affecting its continued application to the United States, Great Britain or to any other territory to which it has been extended under paragraph (1) hereof.

(3) In the application of the present Convention in relation to any territory to which it is extended by the United States or the United Kingdom, references to "United States" or, as the case may be, "Great Britain," or to the territory of one (or of the other) Contracting Party, shall be construed as references to that territory.

(4) The provisions of the preceding paragraphs of this Article shall apply to the Channel Islands and the Isle of Man as if they were colonies of the United Kingdom.

ARTICLE IX

The present Convention shall apply in relation to estate duty imposed in Northern Ireland as it applies in relation to estate duty imposed in Great Britain, but shall be separately terminable in respect of Northern Ireland by the same procedure as is laid down in paragraph (2) of Article VIII.

ARTICLE X

(1) The present Convention shall be ratified and the instruments of ratification shall be exchanged at Washington as soon as possible.

(2) The present Convention shall come into force on the date of exchange of ratifications and shall be effective only as to

(a) The estates of persons dying on or after such date; and

(b) The estate of any person dying before such date and after the 31st day of December 1944, whose personal representative elects, in such manner as may be prescribed, that the provisions of the present Convention shall be applied to such estate.

ARTICLE XI

(1) The present Convention shall remain in force for not less than three years after the date of its coming into force.

(2) If not less than six months before the expiration of such period of three years, neither of the Contracting Parties shall have given to the other Contracting Party, through diplomatic channels, written notice of its intention to terminate the present Convention, the Convention shall remain in force after such period of three years until either of the Contracting Parties shall have given written notice of such intention, in which event the present Convention shall not be effective as to the estates of persons dying on or after the date (not being earlier than the sixtieth day after the date of such notice) specified in such notice, or, if no date is specified, on or after the sixtieth day after the date of such notice.

In witness whereof the above-mentioned Plenipotentiaries have signed the present Convention and have affixed thereto their seals.

Done at Washington, in duplicate, on the 16th day of April 1945.

For the Government of the United States of America:

[SEAL] E. R. STETTINIUS, Jr.

For the Government of the United Kingdom of Great Britain and Northern Ireland:

[SEAL] HALIFAX.

And whereas the said convention has been ratified by both Governments, and the instruments of ratification of the two Governments were exchanged at Washington on the twenty-fifth day of July 1946;

And whereas it is provided in Article X of the said convention that on the date of the exchange of ratifications the convention shall be effective as to the estates of persons dying on or after such date, and as to the estate of any person dying before such date and after the thirty-first day of December 1944, whose personal representative elects, in such manner as may be prescribed, that the provisions of the said convention shall be applied to such estate;

Now, therefore, be it known that I, Harry S. Truman, President of the United States of America, do hereby proclaim and make public the said convention to the end that the same and every article and clause thereof may be observed and fulfilled with good faith by the United States of America, and by the citizens of the United States of America and all other persons subject to the jurisdiction thereof, the said convention being deemed to have effect as provided in Article X thereof, as aforesaid.

In testimony whereof, I have hereunto set my hand and caused the Seal of the United States of America to be hereunto affixed.

Done at the city of Washington this thirtieth day of July in the year of our Lord one thousand nine hundred forty-six and of the Independence of the United States of America the one hundred seventy-first.

[SEAL] HARRY S. TRUMAN.

By the President:

DEAN ACHESON,
Acting Secretary of State.

Section 3791 of the Internal Revenue Code provides as follows:

(a) *Authorization.*

(1) *In general.* • • • the Commissioner, with the approval of the Secretary, shall prescribe and publish all needful rules and regulations for the enforcement of this title.

(2) *In case of change in law.* The Commissioner may make all such regulations, not otherwise provided for, as may have become necessary by reason of any alteration of law in relation to internal revenue.

(b) *Retroactivity of regulations or rulings.* The Secretary, or the Commissioner with the approval of the Secretary, may prescribe the extent, if any, to which any ruling, regulation, or Treasury decision, relating to the internal revenue laws, shall be applied without retroactive effect.

§ 82.102 *Scope of regulations.* Sections 82.101 to 82.109, inclusive, pertain to the application of the Federal estate tax as modified under the provisions of the convention in the case of a decedent who at time of death was domiciled in either the United States or the United Kingdom of Great Britain and Northern Ireland, or was a citizen of the United States, and whose death occurred:

(a) On or after July 25, 1946, the date of exchange of ratifications, or

(b) After December 31, 1944 and before July 25, 1946, if the person charged with the duty of filing the return elects that the provisions of the convention shall be applied. Such election shall be made in a written statement filed in duplicate with the collector of internal revenue at the time the return is filed or as soon thereafter as possible. (Article X (2) of the convention.)

Sections 82.101 to 82.109, inclusive, also pertain to related administrative matters and to the furnishing of information by the tax authorities of each country to such authorities of the other country which may be needed in carrying out the provisions of the convention or in preventing fraud or avoidance with respect to the taxes which are the subject of the convention. (Article VII of the convention.)

The provisions of the convention are restricted to the estate tax imposed by the United States, the estate duty imposed in Great Britain, and the estate duty imposed in Northern Ireland, and do not comprehend any of the estate, inheritance, legacy, and succession taxes imposed by the States, Territories, the District of Columbia, and possessions of the United States or the legacy and succession duties imposed in Great Britain and Northern Ireland. (Articles I and IX of the convention.)

The credits against the Federal estate tax, authorized by section 813 (a) and section 936 of the Internal Revenue Code for Federal gift taxes and by section 813 (b) thereof for estate, inheritance, legacy, or succession taxes paid any State, Territory, the District of Columbia, or possession of the United States, are not affected. (Article V (3) of the convention.)

In the application of the provisions of the convention the estate duty imposed in Great Britain and the estate duty imposed in Northern Ireland are to be separately considered, and the term "United Kingdom" as used in §§ 82.101 to 82.109, inclusive, may either refer to Great Britain or Northern Ireland, depending upon the circumstances of the particular case.

§ 82.103 *Domicile and citizenship.* Determinations with respect to the decedent's domicile and citizenship at time of death are required in order to ascertain whether the estate is within the scope of the convention, and if so, such determinations are necessary for two further purposes, i. e., first, in order to ascertain the property that may be included in the application of the tax, and, second, in order to ascertain the credit for death duties authorized by the convention. For such purposes, domicile and citizenship shall be determined in accordance with the laws of the contracting country which imposes the tax by reason of the decedent's being domiciled therein or a citizen thereof. Where in a particular case only one of the contracting countries asserts tax by reason of the decedent's being domiciled therein, the other contracting country is bound by such determination of domicile for all purposes of the convention, and will not, for instance, in the imposition of its tax on the basis of situs of property disregard the situs rules established by Article III by contending that the decedent was domiciled in a third country. (Article III (1), Article IV (2) (a) and Article V of the convention.)

For the purpose of determining whether the decedent was domiciled in either contracting country at time of death, the United States includes the States thereof, the Territory of Alaska, the Territory of Hawaii, and the District of Columbia, and the United Kingdom of Great Britain and Northern Ireland includes Great Britain (England, Wales and Scotland) and Northern Ireland. For this purpose the United Kingdom does not include the Channel Islands or the Isle of Man. (Article II (1) of the convention.)

§ 82.104 *Situs of property.* The determination of the situs of property is necessary for two purposes, i. e., first, in order to ascertain the property that may be included in the application of the tax if jurisdiction is based upon situs of property within the country, and, second, in order to ascertain the credit for death duties authorized by the convention since the crediting country only allows such credit under paragraph (1) of Article V with respect to property situated in the other contracting country and under paragraph (2) of Article V with respect to property situated outside both contracting countries or with respect to property deemed to be situated in both such countries. For such purposes, the convention provides rules of situs for specific classes of property as hereinafter set forth. These rules are applicable only in case the decedent was at time of death domiciled in the United States or the United Kingdom. The convention also provides that with respect to property not within the described classes, if the decedent was domiciled in the United States the situs thereof shall be determined in accordance with the law of the United Kingdom, or if the decedent was domiciled in the United Kingdom the situs thereof shall be determined in accordance with the law of the United States. The rules of situs provided by the convention are not applicable in the case of a deceased citizen of the United States who was not domiciled in either country. (Article III (2) of the convention.)

Specific applications of the foregoing principles are shown by the following:

(a) If one of the contracting countries taxes on the basis of domicile and the other on the basis of situs of property, the allowance of credit by the former and the imposition of tax by the latter are determined in accordance with the situs rules of the convention with respect to property of the described classes and in accordance with the situs rules under the law of the latter with respect to any property not within such classes.

(b) If the United States taxes on the basis of citizenship and the United Kingdom taxes on the basis of domicile (the United States not regarding the domicile of the decedent as having been in the United States), the allowance of credit by each country is determined in accordance with the situs rules of the convention with respect to property in the described classes and in accordance with the situs rules under the law of the United States with respect to any property not within such classes.

(c) If the United States taxes on the basis of citizenship and the United Kingdom taxes on the basis of situs of property (both contracting countries considering that the decedent was domiciled in a third country), the allowance of credit by the United States and the imposition of tax by the United Kingdom are determined in accordance with the situs rules under the law of the United Kingdom with respect to both the property of the described classes and the property not within such classes. In this case the situs rules of the convention are not applicable to any extent.

(d) If both contracting countries tax on the basis of domicile, the allowance of credit by the United States is determined in accordance with the situs rules of the convention with respect to the property of the described classes and in accordance with the situs rules under the law of the United Kingdom with respect to any property not within such classes, and the allowance of credit by the United Kingdom is determined in accordance with the situs rules of the convention with respect to the property of the described classes and in accordance with the situs rules under the law of the United States with respect to any property not within such classes.

Rules of situs provided by the convention for specific classes of property follow:

(1) *Real property and leaseholds.* Immovable property shall be deemed to be situated at the place where the land involved is located. Immovable property comprises real property and leases of real property. The duration of the lease is immaterial. Immovable property does not include mortgages, liens or any other right or interest in real or immovable property by way of security. Although for the purpose of this situs rule leaseholds are classed with real property, this provision of the treaty does not purport to extend the scope of the term "real property" as used in the first paragraph of section 811 of the Internal Revenue Code whereunder real property (but not a lease of real property) situated outside the United States is excluded from the gross estate. (Article III (2) (a) of the convention.)

(2) *Tangible personal property.* Tangible movable property (tangible personal property), except as hereinafter specifically provided with respect to ships and aircraft, shall be deemed to be situated at the place of physical location at the time of the decedent's death, or, if in transitu, at the place of destination. Tangible personal property includes bank notes and other forms of currency recognized as legal tender at the place of issue. (Article III (2) (b) of the convention.)

(3) *Ships and aircraft.* Ships and aircraft and fractional interests therein shall be deemed to be situated at the place of registration or documentation of such ships and aircraft. (Article III (2) (f) of the convention.)

(4) *Bonds and other forms of indebtedness.* Debts included as assets of the estate (credits), except as hereinafter specifically provided with respect to judgment debts and negotiable promissory notes and bills of exchange, shall be deemed to be situated where the decedent was domiciled at the time of his death. This rule refers to both secured and unsecured debts, and comprehends bonds, simple contract debts, and bank deposits characterized by the debtor-creditor relationship. Issues of stock, such as are common in the United Kingdom, which are evidences of debts and do not represent stockholders' proprietary shares are properly classifiable with bonds. Such issues include stock issued by municipal or governmental corporations, stock issued by public boards, and debentures or debenture stock of a corporation. (Article III (2) (c) of the convention.)

(5) *Judgment debts.* Judgment debts shall be deemed to be situated where the judgment is recorded. (Article III (2) (k) of the convention.)

(6) *Negotiable promissory notes and bills of exchange.* Negotiable promissory notes and bills of exchange shall be deemed to be situated at the place of the physical location of the documents at the time of decedent's death, or, if in transitu, at the place of destination. (Article III (2) (b) of the convention.)

(7) *Stock.* Shares of stock of a corporation shall be deemed to be situated at the place in or under the laws of which such corporation was created or organized. This rule comprehends shares of stock held by a nominee where the beneficial ownership is evidenced by scrip certificates or otherwise. This rule has no reference to issues of stock, such as are common in the United Kingdom, which are evidences of debts, do not represent stockholders' proprietary shares, and are properly classifiable with bonds. Such issues include stock issued by municipal or governmental corporations, stock issued by public boards, and debentures or debenture stock of a corporation. (Article III (2) (d) of the convention.)

(8) *Life insurance.* Proceeds of insurance on the life of the decedent shall be deemed to be situated where the decedent was domiciled at the time of his death. (Article III (2) (e) of the convention.)

(9) *Goodwill.* Goodwill as a trade, business or professional asset shall be deemed to be situated at the place where the business or profession, to which it pertains, is carried on. (Article III (2) (g) of the convention.)

(10) *Patents, trademarks and designs.* Patents, trademarks and designs shall be deemed to be situated at the place where they are registered. (Article III (2) (h) of the convention.)

(11) *Copyrights and licenses to use copyrights, patents, trademarks and designs.* Copyrights, franchises, and rights or licenses to use any copyrighted material, patent, trademark or design, shall be deemed to be situated at the place where the rights arising therefrom are exercisable. (Article III (2) (i) of the convention.)

(12) *Actions ex delicto.* Rights or causes of action *ex delicto* surviving for the benefit of the estate of a decedent shall be deemed to be situated at the place where such rights or causes of action arose. (Article III (2) (j) of the convention.)

The rules whereunder property of certain classes shall be deemed to be situated at the place of the decedent's domicile are in effect rules exempting such classes of property from the tax imposed by reason of situs of property within each contracting State's jurisdiction.

Under a special proviso at the end of Article III of the convention, the foregoing rules of situs are not applicable in determining whether particular property may be subjected to tax by reason of its situs within the taxing country if (i) such property passes under a disposition not governed by its law, and (ii) such property is not subjected to the tax by the other contracting country for any reason other than the application of a specific exemption. In such case the situs of the property will be determined in accordance with the law of the taxing country.

This special proviso is particularly applicable to cases of settled property that come under the provisions of the estate duty statute of Great Britain or Northern Ireland. As an example of the operation of the special proviso under the estate duty statute, suppose the decedent's father established a trust governed by New York law under which the decedent was given a life estate with the remainder over absolutely to the trustor's grandson. The trustor, the life tenant and the remainderman were domiciled in and citizens of the United States. Under this special proviso, the corpus of the trust, consisting of shares of stock of a United States corporation evidenced by certificates in bearer form physically located in Great Britain, would be regarded as situated in Great Britain without the application of the situs rules of Article III and would be subjected to the estate duty reaching settled property since (i) such property passes under a disposition not governed by the law of Great Britain and (ii) such property is not subjected to the tax by the United States regardless of the $60,000 specific exemption.

Although the primary purpose of this special proviso concerns settled property under the estate duty statute of Great Britain or Northern Ireland, it is applicable under the Federal estate tax statute in some cases involving certain unusual circumstances. As an example of the operation of the special proviso under the Federal estate tax statute, suppose the decedent in contemplation of death established a trust for the benefit of his children, the property transferred by gift to the trust consisting of shares of stock of a British corporation evidenced by certificates physically located in the United States. The gift was made six years before the decedent's death and the decedent retained no possession or enjoyment or any other right in the property. The decedent and the beneficiaries were domiciled in Great Britain and the trust is governed by British law. Under the special proviso, the situs rules of Article III would be inapplicable and the shares of stock would be regarded as situated in the United States and subjected to the Federal estate tax since (i) such property passes under a disposition not governed by United States law and (ii) such property is not, regardless of any specific exemption, subjected to the estate duty imposed in Great Britain.

For the purpose of determining whether property is situated in either contracting country, the United States includes the States thereof, the Territory of Alaska, the Territory of Hawaii and the District of Columbia, and the United Kingdom of Great Britain and Northern Ireland includes Great Britain (England, Wales and Scotland) and Northern Ireland. For this purpose the United Kingdom does not include the Channel Islands or the Isle of Man. (Article II (1) of the convention.)

§ 82.105 *Taxation on basis of domicile, citizenship, or the law governing disposition of property.* Both the United States and the United Kingdom assume jurisdiction for the tax upon the basis of domicile within the taxing country. In addition, the United States, but not the United Kingdom, assumes jurisdiction for the tax upon the basis of citizenship, and the United Kingdom, but not the United States, assumes jurisdiction for the tax upon the basis of the law governing the disposition of the property. Thus, tax in Great Britain is imposed in respect of property passing under a disposition (such as a trust) governed by the law of Great Britain, even though the decedent was not domiciled in Great Britain and the property is not regarded as situated in Great Britain. (Article IV (2) (b) of the convention.)

The application of the tax (the Federal estate tax or the estate duty imposed in Great Britain or Northern Ireland, as the case may be) in any of the foregoing cases is not affected by the convention, except insofar as credit is authorized under Article V. The convention does not prohibit the subjection to tax in any of the foregoing cases, of any property (real or personal) situated outside the taxing country and in the other contracting country. However, by section 811 of the Internal Revenue Code, real property (but not a lease of real property) situated outside the United States is excluded from the gross estate. Under the present practice in the United Kingdom, immovables located outside the United Kingdom are, with rare exception, not subjected to estate duty.

§ 82.106 *Taxation on basis of situs of property.* In case jurisdiction to impose the tax by one of the contracting countries is based upon situs of property within such country and the decedent was at the time of death domiciled in the other contracting country, the convention provides that property situated outside the former shall not be taken into account in determining the amount or rate of such tax. (Article IV (2) of the convention.) For the purpose of determining what property is situated within the country and, therefore, subject to taxation on the basis of situs, the provisions of § 82.104 are pertinent. The rules of situs for certain classes of property prescribed by Article III of the convention and § 82.104 are applicable to the imposition of the Federal estate tax in the case of a decedent who at time of death was not domiciled in or a citizen of the United States, and who was domiciled in the United Kingdom. The rules that certain classes of property shall be deemed to be situated where the decedent was domiciled are in effect rules exempting such classes of property from taxation on the basis of situs.

The deductions from the gross estate in the case of a nonresident not a citizen of the United States authorized by section 861 of the Internal Revenue Code, including the specific exemption of $2,000 prescribed thereunder, are unaffected. (Article IV (1) of the convention.) The restrictions of the preceding paragraph do not affect what is referred to in section 861 (a) (1) of the Internal Revenue Code as the gross estate wherever situated, and utilized in ascertaining the proportionate deductions for administration expenses, debts, etc., as prescribed in § 81.52 of this chapter.

§ 82.107 *Credit for estate duties imposed in Great Britain and Northern Ireland*—(a) *General.* In the case of the estate of a decedent who at time of death was domiciled in or a citizen of the United States, credit is authorized against the Federal estate tax for Great Britain or Northern Ireland estate duty computed in accordance with the provisions of the convention and paid in respect of property situated as hereinafter provided and subjected to such taxes by both the United States and Great Britain or Northern Ireland. No credit is allowable for any interest or penalty paid in connection with the estate duty. (Article V of the convention.)

Real property situated in the United Kingdom is not subjected to the Federal estate tax. Also, Great Britain and Northern Ireland subject to estate duty trust property (as, for example, on the death of a life tenant who was not the settlor and who had no other interest in the property) which is not subjected to Federal estate tax. Credit is not allowable under the convention for estate duty paid in respect of such property, since the requirement of double taxation is not fulfilled.

If only a part of the property subjected to estate duty imposed in Great Britain or Northern Ireland meets both of the required conditions (i. e., as to situs and double taxation), it will be necessary to determine the portion of such estate duty attributable to such part. Such portion of the estate duty (provided all property is subjected to such estate duty at a uniform rate) is an amount, A, which bears the same ratio to B (the total amount of such estate duty) that C (the value of the property situated as hereinafter provided and subjected to such estate duty and to the Federal estate tax) bears to D (the value of all property subjected to such estate duty). The values used in this proportion are the net values determined for the purpose of the Great Britain or Northern Ireland estate duty. If for any reason property is subjected to such estate duty at other than a uniform rate, a separate computation is to be made with respect to property taxed at each rate.

As an example of the determination of the amount of United Kingdom estate duty attributable to specific property, assume that a deceased resident of the United States owned personal property in Great Britain, $12,000, and real property in Great Britain, $12,000, and owed debts (not charged on any particular property) of $4,000 to persons resident in Great Britain. Under the British statute, the estate duty is computed as follows:

	Net value
Net value of personal property ($12,000 less $4,000)	$8,000
Net value of real property	12,000
Total net value	20,000
Rate of estate duty (percent)	9.6
Estate duty	$1,920

The amount of estate duty attributable to the personal property is

$$\frac{8,000}{20,000} \times \$1,920, \text{ or } \$768$$

Similarly, the amount of the Federal estate tax attributable to the property which meets the required conditions (as to situs and double taxation) is an amount, A, which bears the same ratio to B (the Federal estate tax) as C (the value of the property situated as hereinafter provided and subjected to both the estate duty imposed in Great Britain or Northern Ireland and the Federal estate tax, or such value adjusted as hereinafter indicated) bears to D (the value of the gross estate, or such value adjusted as hereinafter indicated). The values used in this proportion are the values determined for the purpose of the Federal estate tax, and amounts C and D of the proportion are to be reduced by the amount of any deductions allowable under section 812 of the Internal Revenue Code in respect of such property (1) lost during the settlement of the estate, (2) identified as previously taxed property or (3) specifically bequeathed or devised for charitable, etc., uses.

The amount of the estate tax or estate duty attributable to specific property is, for the purposes of this section, the amount ascertained after the allowance of any applicable credit, remission or reduction of tax, other than, first, credit authorized under this convention and, second (except as otherwise provided in paragraph (c) of this section) credit authorized under death duty conventions between the United States and any other country. In determining by proportion the amount of estate tax or estate duty attributable to property which meets the required conditions to the allowance of credit the following rules apply:

(i) If the credit (as, for example, the credit for State inheritance tax) does not pertain to specific property, the amount of tax ascertained after the allowance of such credit should be proportioned.

(ii) If the credit pertains to specific property, the tax ascertained before the allowance of such credit should be proportioned, and the amount of tax thus found to be attributable to the property which meets the required conditions should then be reduced by the amount of such credit pertaining to such property. Examples of credit pertaining to specific property are the Federal gift tax credit, credits under death duty conventions, the British quick succession allowance, the British allowance for colonial death duties, the British allowance for settlement estate duty, the British allowance for duties paid before August 2, 1894, and the remissions of British estate duty under the Killed in War Acts. (It may be noted that in consequence of this rule the estate duty imposed in Great Britain or Northern Ireland is to be reduced by credit allowable against such duty for the tax paid in a British possession or in any other country only if such credit pertains to the same property in respect of which credit is allowable under this section.)

For the purpose of determining the situs of property in respect of which credit is claimed, the provisions of § 82.104 are pertinent.

If at the time the Federal estate tax return, Form 706, is filed, the estate duty imposed in Great Britain or Northern Ireland has not been determined and paid, credit therefor may be entered on the return in an estimated amount. The computation of the credit should be set forth on Form 706e, "Computation of Credit for United Kingdom Estate Duty", the supplemental form prescribed for the purpose.

However, before credit for Great Britain or Northern Ireland estate duty is finally allowed, a statement by an authorized official of the Estate Duty Office of Great Britain or Northern Ireland must be submitted certifying (*a*) the full amount of such estate duty (exclusive of any interest or penalties), as computed before allowance of any credit, remission or relief, (*b*) the amount of any credit, allowance, remission or relief and other pertinent information, including the nature of such allowance and a description of the property to which it pertains, (*c*) the net estate duty payable after any such allowance, (*d*) the date on which the estate duty was paid, or if not all paid at one time, the amount and date of each partial payment, and (*e*) a list of the property situated in Great Britain or Northern Ireland and subjected to the estate duty, showing the description of each item and the value thereof. The certificate shall also show (*a*) that such amount of estate duty was computed in accordance with applicable provisions of the convention, and (*b*) that no refund of such estate duty is pending and none authorized, or if any such refund is pending or has been authorized, the amount thereof and other pertinent information. The following information should also be certified whenever applicable:

(*1*) If any of the property subjected to such estate duty was situated outside Great Britain or outside Northern Ireland, as the case may be, the description of each item of such property and the value thereof.

(2) If for any reason property is subjected to such estate duty at more than one rate, such information pertaining thereto as is necessary to determine the correct credit.

(3) If payment of any portion of such estate duty has been postponed, a description of the property in respect of which such postponement was granted.

(*4*) If paragraph (2) of Article V of the convention is applicable, such information pertaining to situs of property as is necessary to determine the correct credit.

Form 706f, "Certification of United Kingdom Estate Duty," is prescribed for the above purpose. The Commissioner may require the submission of any additional proof deemed necessary to establish the right to credit.

If subsequent to the allowance of credit for estate duty imposed in Great Britain or Northern Ireland, a refund is made of any overpayment of such estate duty, then the person to whom the refund is made is required to advise the Commissioner thereof and pay any further Federal estate tax resulting from any reduction in the credit.

(b) *Decedent domiciled in or a citizen of the United States.* In the case of the estate of a decedent who at time of death was domiciled in or a citizen of the United States, credit is authorized against the Federal estate tax for any Great Britain or Northern Ireland estate duty paid in respect of property situated in Great Britain or Northern Ireland and subjected to such taxes by both the United States and Great Britain or Northern Ireland. However, such credit is not allowable in respect of any such property for which credit is authorized under the provisions of paragraph (c) of this section and paragraph (2) of Article V of the convention. (Article V (1) of the convention.)

Great Britain subjects to estate duty property situated outside Great Britain on the death of the owner domiciled in Great Britain. Property which forms the subject of a British trust is subjected to estate duty, even though such property is situated outside Great Britain and passes on the death of a person domiciled outside Great Britain. Credit is not allowable under this paragraph for British estate duty paid in respect of such property, since the requirement of situs is not fulfilled.

For the purpose of determining what property was at time of death situated in the United Kingdom, the provisions of § 82.104 are pertinent. In the case of a decedent who was at time of death domiciled in either the United States or the United Kingdom (but not in the case of a citizen of the United States not domiciled in either the United States or the United Kingdom), the rules of situs for certain classes of property prescribed by Article III of the convention and § 82.104 are applicable in determining whether property was situated in the United Kingdom. If the decedent was domiciled in the United States and was not domiciled in the United Kingdom, such rules of situs are applicable not only for purposes of allowance of credit by the United States but also for purposes of imposition of tax by the United Kingdom (where jurisdiction to tax is based on situs of property), and credit is allowable only for United Kingdom estate duty computed in accordance with such rules of situs.

The credit is limited to the amount of the Great Britain or Northern Ireland estate duty attributable to property which is (1) situated in Great Britain or Northern Ireland and (2) subjected to both such estate duty and the Federal estate tax. The amount of the credit is also limited to the amount of the Federal estate tax attributable to such property.

Example (*1*). The decedent was domiciled in the United States at time of death. The gross estate consists of shares of stocks of United States corporations, $50,000, bonds issued by British corporations, $50,000, and shares of stocks of British corporations, $50,000. Debts and administration expenses total $10,000. Under the situs rules of the convention the only property subjected to the British estate duty comprises the shares of stocks of the British corporations. The amount of the British estate duty as converted into United States money is $3,000. The amount of the Federal estate tax, after allowance of the State inheritance tax credit, is $14,780. The credit cannot exceed

$$\frac{50{,}000\text{ (British property)}}{150{,}000\text{ (gross estate)}}\times\$14{,}780=\$4{,}926.67\left(\begin{array}{c}\text{amount of estate tax attributable}\\ \text{to British property}\end{array}\right)$$

As the amount of the British estate duty is less than the latter amount, credit for British estate duty is allowed in the amount of $3,000.

Example (*2*). The facts are the same as in the preceding example except that $20,000 of the British stocks are specifically bequeathed to a charitable organization. The amount of the British estate duty attributable to the property doubly taxed is $3,000. The amount of the Federal estate tax is $9,340. The credit cannot exceed the amount of the Federal estate tax attributable to the British stocks which is

$$\frac{30{,}000\text{ (value of British stocks adjusted)}}{130{,}000\text{ (gross estate adjusted)}}\times\$9{,}340=\$2{,}155.38$$

The value of the British stocks and the value of the gross estate are adjusted as explained in paragraph (a) of this section. As the amount of the Federal estate tax attributable to the property doubly taxed is less than the amount of the British estate duty so attributable, the credit is allowable in the amount of the former, $2,155.38.

Example (*3*). The facts are the same as in example (1) except that $20,000 of the United States stocks are specifically bequeathed to charity. The amount of the British estate duty attributable to the property doubly taxed is $3,000. The amount of the Federal estate tax attributable to the property doubly taxed is

$$\frac{50{,}000\text{ (value of British stocks)}}{130{,}000\text{ (gross estate adjusted)}}\times\$9{,}340=\$3{,}592.31$$

The credit allowable is the lesser of the two amounts, $3,000.

Due to conflicts between rules of situs, property which under paragraph (2) of Article III of the convention and § 82.104 of this subpart is deemed to be situated in Great Britain or Northern Ireland may be subjected to tax in some other country. In such case, (1) credit may be allowable against the Federal estate tax for estate duty imposed in Great Britain or Northern Ireland with respect to the property and (2) credit may be allowable against such estate duty for tax paid to the third country with respect to the same property. Under these circumstances, the credit allowable against the Federal estate tax is limited to the amount of the Great Britain or Northern Ireland estate duty attributable to the property as computed after allowance of credit for the tax paid in the third country.

Example (*4*). The facts are the same as in example (1) except that the certificates of $10,000 of the stocks of the British corporations were in bearer form physically located in Eire, and were subjected to duty in that country. Credit for the duty paid in Eire is allowed against the British estate duty. The credit against the Federal estate tax is limited to the amount of the British estate duty applicable to the British stocks, $3,000, less the amount of credit allowed against such duty for the duty paid in Eire.

In case credit against the Federal estate tax is allowable under the convention with the United Kingdom and under death duty conventions with one or more other countries, such credits shall be combined and the aggregate amount shall be credited against the Federal estate tax. If because of any conflict in situs rules the same property of the gross estate is subjected to tax by two foreign countries, the total amount of both credits allowable in respect of such property is limited to the amount of the Federal estate tax attributable to such property. If for any reason it is necessary to ascertain, in any case in which this limitation applies, the proportion of the combined credit which is allowed under each death duty convention, the combined credit shall be divided in proportion to the amount of credit allowable (before application of this limitation) under each convention in respect of such property.

Example (*5*). The gross estate includes stocks of British corporations, represented by certificates in bearer form physically located in Canada. Under the situs rules of Canada the British stocks are regarded as situated in Canada (this rule not being changed by the United States—Canada convention), and under the situs rules of the United States—United Kingdom convention the British stocks are regarded as situated in Great Britain. The Federal estate tax attributable to the property taxed in the three countries is $4,800, and credits for British estate duty and Canadian succession duty are determined at $4,000 and $2,000, respectively, before application of the limitation on their combined amount. The combined credits are limited to $4,800, the amount of the Federal estate tax attributable to the stocks. The credits for British estate duty and Canadian succession duty are therefore limited to $3,200 and $1,600, respectively, which amounts are in the same proportion as $4,000 and $2,000.

Example (*6*). The facts are the same as in example (1) except that the gross estate includes $50,000 of stocks of Canadian corporations instead of $50,000 of bonds of British corporations. A nephew is the sole legatee. The Canadian succession duty is $2,823.33, in which amount credit is allowable against the Federal estate tax under the death duty convention between the United States and Canada. The amount of the British estate duty attributable to the British stocks is $3,000. The amount of the Federal estate tax attributable to the British stocks is

$$\frac{50{,}000\text{ (British stocks)}}{150{,}000\text{ (gross estate)}}\times\$14{,}780=\$4{,}926.67$$

It may be noted the $14,780 is the amount of the Federal estate tax after allowance of State inheritance tax credit but before any allowance of the Canadian succession duty credit. The amount of the British estate duty credit is $3,000, and the total amount of the foreign tax credits allowable against the Federal estate tax under both the Canadian and British death duty conventions is $5,823.33. Since the Canadian succession duty and the British estate duty are not imposed in respect of the same property, the limitation illustrated in the preceding example does not apply.

(c) *Decedent regarded as domiciled in the United States and in the United Kingdom.* Whenever in any case it appears that both contracting countries have asserted or are contemplating the assertion of the tax on the basis of domicile, the evidence adduced with respect to the decedent's domicile will be carefully reviewed or facts pertaining thereto further investigated so that, if possible, both countries may agree upon the decedent's domicile. Since the basic principles of the law relating to domicile are alike in both countries, it is anticipated that such agreement will usually be reached.

However, if in a particular case the United States determines that the decedent was domiciled in the United States and asserts estate tax in accordance with such determination and Great Britain or Northern Ireland also determines that the decedent was domiciled in Great Britain or Northern Ireland and asserts estate duty in accordance with such determination, and no agreement is reached upon the decedent's domicile, then each contracting country will (in addition to any credit authorized under the provisions of paragraph (1) of Article V of the convention and paragraph (b) of this section) allow against its tax a credit in respect of property subjected to tax by both countries and deemed situated (1) in both countries or (2) outside both countries. The total of the credits authorized under this paragraph shall be equal to the amount of tax imposed with respect to such property by the country imposing the smaller tax, and shall be divided between the two countries in proportion to the amount of tax imposed by each of the two countries with respect to such property. (Article V (2) of the convention.)

Property deemed situated in both countries includes property which by the situs rules of paragraph (2) of Article III of the convention is deemed to be situated at the place where the decedent was domiciled at the time of his death. It also includes any property not within such rules which each country claims to be situated within its territory.

For the purposes of this paragraph the amount of the Federal estate tax attributable to property situated as herein provided and doubly taxed shall be the amount determined as provided in paragraph (a) of this section, reduced by the amount of any credit allowable in respect of such property under death duty conventions between the United States and any third country.

Example (*1*). After a careful review of the evidence the United States Government determines that the decedent was at time of death domiciled in the United States and the British Government determines that the decedent was at time of death domiciled in Great Britain. The gross estate consists of $200,000 of British stocks, $150,000 of United States stocks, and $50,000 of bonds, the certificates of which were at time of death located in the United States. Debts and charges are $20,000. The amount of the Federal estate tax, computed on the whole estate wherever situated, after allowance for State inheritance tax credit but before allowance for British estate duty credit is $81,940. The amount of the British estate duty, also computed on the whole estate wherever situated, before allowance for United States estate tax credit is $93,860. Under paragraph (1) of Article V of the convention, the United States allows credit for the British estate duty attributable to the $200,000 of British stocks which are regarded as situated in Great Britain under Article III of the convention. Such credit, computed as explained in paragraph (b) of this section, is $40,970. Similarly under paragraph (1) of Article V of the convention, Great Britain allows credit for the United States estate tax attributable to the $150,000 of United States stocks, the amount of such credit being $30,727.50. Since under Article III of the convention bonds are deemed to be situated in the country of the decedent's domicile, in this case the bonds are regarded as situated in both countries and with respect thereto credit is allowable by each country under the provisions of paragraph (2) of Article V of the convention. The amount of the Federal estate tax attributable to the $50,000 of bonds, as computed without allowance for British estate duty credit, is

$$\frac{50{,}000\text{ (bonds)}}{400{,}000\text{ (gross estate)}}\times\$81{,}940\text{ (estate tax)}=\$10{,}242.50$$

The amount of the British estate duty attributable to the $50,000 of bonds, as computed without allowance for United States estate tax credit, is

$$\frac{50{,}000\text{ (bonds)}}{400{,}000\text{ (gross estate)}}\times\$93{,}860\text{ (estate duty)}=\$11{,}732.50$$

Since $10,242.50 is the smaller of the two amounts, such amount is the total of the credits allowable by the two countries under paragraph (2) of Article V of the convention. The part thereof allowable by the United States is

$$\frac{10{,}242.50}{21{,}975.00}\times\$10{,}242.50=\$4{,}774.01$$

The part allowable by Great Britain is

$$\frac{11{,}732.50}{21{,}975.00}\times\$10{,}242.50=\$5{,}468.49.$$

The taxes and credits for both countries are shown in the following summary:

United States		
Tax before treaty credits		$81,940.00
Credit under V (1)	$40,970.00	
Credit under V (2)	4,774.01	
Total credits		45,744.01
Net tax payable		36,195.99
Great Britain		
Duty before treaty credits		$93,860.00
Credit under V (1)	$30,727.50	
Credit under V (2)	5,468.49	
Total credits		36,195.99
Net duty payable		57,664.01

It may be noted that the total of the taxes payable to the two countries, the sum of $36,195.99 and $57,664.01, equals $93,860, the amount of the tax (before allowance of the treaty credits) of the country which imposes the higher tax.

Example (*2*). The facts are the same as in example (1) except that the bond certificates were at the time of death located in Canada and under Canadian law deemed situated for succession duty purposes in Canada. The amount of the Canadian succession duty is $2,823.33. The amount of the Federal estate tax attributable to the bond, as computed without allowance for either the Canadian succession duty credit or the British estate duty credit, is $10,242.50. Since under the convention with Canada credit of $2,823.33 is allowable, the amount of the Federal estate tax attributable to the bonds, as computed with allowance of the Canadian succession duty credit but without allowance of the British estate duty credit, is $10,242.50 less $2,823.33 or $7,419.17. The amount of the British estate duty attributable to the bonds, as computed without allowance for United States estate tax credit, is $11,732.50. Since $7,419.17 is the smaller of the two amounts, such amount is the total of the credits allowable by the United States and Great Britain under paragraph (2) of Article V of the convention. The part thereof allowable by the United States is

$$\frac{7{,}419.17}{19{,}151.67}\times\$7{,}419.17=\$2{,}874.11$$

The part thereof allowable by Great Britain is

$$\frac{11{,}732.50}{19{,}151.67}\times\$7{,}419.17=\$4{,}545.06$$

The taxes and credits for the three countries are shown in the following summary:

Canada		
Succession duty payable		$2,823.33
United States		
Estate tax before Canadian and British duty credits		$81,940.00
Canadian succession duty credit	$2,823.33	
British estate duty credit under V (1)	40,970.00	
British estate duty credit under V (2)	2,874.11	
Total treaty credits		46,667.44
Estate tax payable		35,272.56
Great Britain		
Estate duty before United States estate tax credit		$93,860.00
United States estate tax credits under V (1)	$30,727.50	
United States estate tax credit under V (2)	4,545.06	
Total treaty credits		35,272.56
Estate duty payable		58,587.44

§ 82.108 *Claim for credit or refund and interest on refund.* Credit authorized by § 82.107 and Article V of the convention will be allowed if claimed within six years after the date of the decedent's death, or to the extent of any such credit for tax attributable to a reversionary interest, with respect to which payment of tax is postponed, if claimed prior to six years after such reversionary interest falls into possession. (Article VI (1) of the convention.)

An overpayment of estate tax due to the allowance of the credit or to the application of any other provision of the convention may be refunded except that no refund due to the allowance of credit may be made after the expiration of the applicable period hereinbefore designated for the allowance of credit, and no refund due to the application of any other provision of the convention may be made after six years from the date of the decedent's death, unless before the expiration of such period a claim therefor has been filed, or unless within such period a petition alleging the right to credit or to other relief under the convention has been filed with the Tax Court of the United States. If a timely petition has been filed with the Tax Court of the United States, no refund shall thereafter be made except as provided in section 911 of the Internal Revenue Code.

A claim for refund should set forth under oath each ground upon which the refund is claimed and facts sufficient to apprise the Commissioner of the exact basis thereof. Any claim for refund which does not comply with the requirements of the preceding sentence will not be considered for any purpose as a valid claim for refund. Claim for refund should be made on Form 843 and filed with the Collector of Internal Revenue, although a claim for refund will not be considered defective solely by reason of the fact that it is not made on such form or that it is filed with the Commissioner of Internal Revenue.

Any refund of estate tax due to the application of the provisions of the convention shall be made without interest. (Article VI (2) of the convention.)

§ 82.109 *Information furnished by each contracting country to the other.* The taxation authorities of the contracting countries shall exchange such information available under the taxation laws of the respective countries as is necessary for carrying out the provisions of the convention or for the prevention of fraud or the administration of statutory provisions against legal avoidance in relation to the taxes which are the subject of the convention. Information so furnished will be kept secret and not disclosed to any person other than those concerned with the assessment and collection of the taxes which are the subject of the convention. Such information shall not include any trade secret or trade process. (Article VII (1) of the convention.)

The term "taxation authorities" means, for the United States, the Commissioner of Internal Revenue or his authorized representative, for Great Britain, the Commissioners of Inland Revenue or their authorized representative, for Northern Ireland, the Minister of Finance or his authorized representative, and, for any territory to which the convention is extended under Article VIII the competent authority administering the tax to which the convention may be extended. (Article VII (2) of the convention.)

[SEAL] WILLIAM SHERWOOD,
Acting Commissioner of Internal Revenue.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 3]

[Docket No. 8089]

STANDARDS OF GOOD ENGINEERING PRACTICE CONCERNING STANDARD BROADCAST STATIONS

ORDER SCHEDULING ORAL ARGUMENT

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of January 1947;

Whereas, the Commission has today by separate order adopted amendments to the Standards of Good Engineering Practice Concerning Broadcast Stations as set forth in public notices of December 20, 1946 and January 16, 1947 except the proposed amendment concerning the minimum permissible kilocycle separation between stations within the same general groundwave service area which reads as follows:

Stations with the same general groundwave service area may be licensed for operation on channels as close as 40 kc separation. Although no interference ratio is specified in Table V for 30 kc separation since most receivers are sufficiently selective to tolerate a high level of interfering signal at this separation, other effects, such as cross-modulation of signals may result depending upon the relative location of two stations with such frequency separation. Accordingly, no station will be licensed for operation with a 30 kc separation from another station, if the area enclosed by the 25 mv/m groundwave contours of the two stations overlap. Frequency separation of 20 kc and 10 kc are considered inappropriate for stations with the same general urban coverage and therefore no station will be licensed for operation with less than 30 kc frequency separation if the area enclosed by the 25 mv/m groundwave contour of either one overlaps the area enclosed by the 2 mv/m groundwave of the other, although proper protection might be indicated in accordance with Tables IV and V; end

Whereas, a petition has been received by the Commission requesting permission to present evidence concerning the above set forth proposed amendment and comments have been received from other persons;

Now, therefore, it is ordered, That a hearing and oral argument of the above proposed amendment be held on March 4, 1947 at the offices of the Commission in Washington, D. C. All interested persons may appear at this hearing.

Before the commencement of the hearing the Commission's staff will conduct field tests concerning the effect of operation on channel separations as set forth in the proposed amendment and will introduce the results of such tests at the hearing.

Persons desiring to appear at the hearing shall notify the Commission of such intention on or before February 24, 1947, stating the names of all witnesses who will appear and the time expected to be required for their presentation.

T. J. SLOWIE,
Secretary.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 2346]

TRANSCONTINENTAL & WESTERN AIR, INC., AND DELTA AIR LINES, INC.

NOTICE OF HEARING

In the matter of the joint application of Transcontinental & Western Air, Inc., and Delta Air Lines, Inc., for approval under section 412 and, if such approval is deemed necessary, under section 408 of the Civil Aeronautics Act of 1938, as amended, of an agreement relating to interchange of equipment.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly section 408 (b) of said act, that hearing in the above-entitled proceeding is assigned to be held on February 18, 1947, at 10:00 a. m. (eastern standard time) in Room 5132, Commerce Building, before Examiner Herbert K. Bryan.

Without limiting the scope of the issues presented by said application, particular attention will be directed to the following matters and questions:

1. Whether the agreement provides for the operation by one of the applicants of the properties, or any substantial part thereof, of the other applicant;

2. Whether the interchange agreement will not be consistent with the public interest;

3. Whether the interchange agreement will result in creating a monopoly and thereby restrain competition or jeopardize another air carrier not a party to the agreement; and

4. Whether the interchange agreement will be in violation of the act.

Notice is also given that any party desiring to controvert in fact or law any of the issues raised by said application shall file with the Board, on or before February 11, 1947, a statement of said issues.

Dated: Washington, D. C., February 4, 1947.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[Docket No. 2776]

PHILLIPPINE AIR LINES, INC.

NOTICE OF HEARING

In the matter of the application of Philippine Air Lines, Inc., pursuant to section 402 of the Civil Aeronautics Act of 1938, as amended, for a foreign air carrier permit authorizing the foreign air transportation of persons, property and mail between the Philippines and San Francisco, Calif., via intermediate points in the Pacific, including Honolulu.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402 and 1001 of said act, that a hearing in the above-entitled proceedings is assigned to be held on February 19, 1947, at 10 a. m. (eastern standard time) in Room 1302, Temporary "T" Building, Constitution Avenue between 12th Street and 14th Street NW., Washington, D. C., before Examiner Barron Fredricks.

Without limiting the scope of the issues presented by said application, particular attention will be directed to the following matters and questions:

1. Whether the proposed air transportation will be in the public interest, as defined in section 2 of the Civil Aeronautics Act of 1938, as amended.

2. Whether the applicant is fit, willing and able to perform such transportation.

3. Whether the authorization of the proposed transportation is consistent with any obligation assumed by the United States in any treaty, convention or agreement in force between the United States and the Republic of the Philippines or any other foreign country.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board, on or before February 19, 1947, a statement setting forth the issues of fact or law raised by said application which he desires to controvert.

For further details of the service proposed and authorization requested, interested parties are referred to the application on file with the Civil Aeronautics Board.

Dated at Washington, D. C., February 4, 1947.

By the Civil Aeronautics Board.

[Docket No. 681 et al.]

UNIVERSAL AIR FREIGHT, ET AL.; FREIGHT FORWARDER PROCEEDING

NOTICE OF HEARING

In re the applications of Universal Air Freight and other applicants for certificates of public convenience and necessity under section 401 of the Civil Aeronautics Act of 1938, as amended, and/or for exemptions under either section 1 (2) or section 416 (b) or both of said act and a general investigation into Indirect Air Carrier Services, generally known as the Freight Forwarder Proceeding.

The proceeding encompasses proposed indirect air transportation to and from any point in the United States and to and from points in the United States and foreign countries. For a list of the applicants consolidated into said proceeding and for details of the operations proposed, interested parties are referred to the notice to the parties by the Examiner, J. Earl Cox, dated January 9, 1947, and to the applications of the various parties, all on file in the office of the Civil Aeronautics Board, Washington 25, D. C. The docket numbers of the applications consolidated into said proceeding are as follows: 681, 1479, 1560, 1561, 2239, 2262, 2263, 2264, 2273, 2300, 2304, 2327, 2343, 2344, 2381, 2382, 2403, 2404, 2410, 2415, 2416, 2419, 2420, 2421, 2424, 2433, 2434, 2439, 2443, 2447, 2463, 2474, 2475, 2476, 2485, 2486, 2488, 2489, 2493, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2522, 2523, 2529, 2533, 2534, 2540, 2544, 2545, 2546, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2561, 2562, 2563, 2566, 2579, 2580, 2583, 2584, 2600, 2601, 2602, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2627, 2628, 2629, 2630, 2640, 2641, 2642, 2643, 2645, 2646, 2648, 2649, 2650, 2651, 2652, 2659, 2660, 2661, 2662, 2667, 2668, 2669, 2670, 2689, 2690, 2691, 2694, 2695, 2696, 2697, 2711, 2712, 2713, 2714, 2715, 2716, 2717, 2718, 2721, 2722, 2723, 2726, 2727, 2728, 2729, 2730, 2731, 2734, 2735, 2736, 2740, 2744, 2745, 2746, 2747, 2748, 2749, 2750, 2751, 2752, 2753, 2759, 2760, 2761, 2762, 2763, 2764, 2772, 2774, 2775, 2779, 2780, 2781, 2782.

Notice is hereby given that pursuant to sections 1 (2), 401 (c), 416 (b) and 1002 (b) of the Civil Aeronautics Act of 1938, as amended, the said proceeding be and it is hereby designated for public hearing in four consecutive sessions beginning on February 17, 1947, 10:00 a. m. e. s. t. in the Great Hall, Chamber of Commerce of the State of New York Building, 65 Liberty Street, New York, N. Y., before Examiner J. Earl Cox.

Notice of the exact date and place of the subsequent sessions to be held in Washington, D. C., Chicago, Illinois, and San Francisco, California, in that order, will be given to all parties and intervenors of record at the time of notice by Examiner J. Earl Cox. All other interested persons may receive this information from the office of the Secretary of the Civil Aeronautics Board, Washington 25, D. C.

The applicants have been divided into four groups according to the location of their home offices and the case as to each applicant will be presented at the one of the four sessions scheduled for his particular locality unless the examiner grants a request for hearing in one of the other localities for sufficient reasons stated in the request. All parties and intervenors of record will be notified of such changes by the examiner. The original schedule of applicants is set forth in the notice to all parties by the examiner dated January 9, 1947.

Without limiting the scope of the issues presented by this proceeding particular attention will be directed to the following matters and questions:

1. The extent to which there is a general need for services of air carriers indirectly engaged in air transportation of property, including air freight forwarder, air cargo forwarder, air expess and similar indirect air carrier services.

2. The extent to which indirect air carrier operations should be subject to restrictions to prevent uneconomical competition and the nature of such restrictions.

3. Whether or not certificates of public convenience and necessity should be required for any or all such operations, or whether exemptions from all the provisions of the act should be granted for any or all of such operations, and the standards to be provided for such certificates or exemptions, including the question of the continuance, limitation, modification or revocation of the exemption order of March 13, 1941 (Order Serial No. 941) exempting Railway Express, Inc.

4. Should an authorization or certificate of public convenience and necessity limit the holder to service between points specifically named in its authorization or certificate?

5. Should an authorization or certificate of public convenience and necessity for such services limit the holder to the utilization of certain types of air carriers?

The principal portion of the evidence on the above issues will be taken at the first session in New York, N. Y., beginning on February 17, 1947, subject however to the admission of additional evidence on them at any of the other sessions.

Without limiting the scope of the applications in this proceeding, the following are the matters and questions to which particular attention will be directed as to each applicant:

1. Is the applicant a citizen of the United States and is he fit, willing, and able to perform properly the transportation for which he seeks authorization, and to conform to the provisions of the Civil Aeronautics Act, as amended, and the rules, regulations, and requirements of the Board thereunder?

2. If the grant of a certificate of public convenience and necessity is in issue then:

a. Is such transportation required by the public convenience and necessity?

b. If so and more than one applicant for authorization to perform such transportation meets the issue in 1 above, how many applicants are required to be authorized by the public convenience and necesssity?

c. If selection is necessary, which applicant or applicants can best perform the service required?

3. If the grant of an exemption under 1 (2) of the act is in issue, is it required in the public interest?

4. If the grant of an exemption under 416 (b) is in issue, would the enforcement of such title, provision, rule, regulation, etc., from which exemption is sought be an undue burden on such applicant as provided in said section 416 (b) and not in the public interest?

Notice is further given that any person, other than parties and intervenors of record as of January 9, 1947, desiring to be heard in this proceeding file with the Board on or before February 17, 1947, a statement setting forth any or all of the sessions which he desires to attend and the issues of fact or law raised by this proceeding which he desires to controvert.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

ASSIGNMENT OF APPLICATION FILE NUMBERS (OTHER THAN BROADCAST)

JANUARY 28, 1947.

In the services other than broadcast there are approximately 220 different types of applications. The Commission uses only one series of numbers in assigning file numbers to all such applications. Numbers run consecutively through a fiscal year, being assigned in the order in which the applications are accepted.

The letters following the first hyphen indicate the type of application and the class of station. The letter following the second hyphen denotes the fiscal year ("A" for fiscal 1946, "B" for fiscal 1947, etc.).

For example, "100-MPP-B" would indicate the file number (100), show it to be an application for modification of construction permit (MP) for a municipal police (P) station, filed in 1947 (B).

Below are listed the symbols used in other than broadcast application file numbers:

Type of Application

A—Assignment.
L—License.
P—Construction permit.
M—Modification.
R—Renewal.

Class of Station

C—Coastal.
E—Experimental.
F—Forestry.
G—Geological.
H—Alaska fixed public.
HK—Aeronautical fixed.
HP—U. S. point to point telephone.
HT—U. S. point to point telegraph.
I—Provisional.
J—Mobile press.
K—Aeronautical.
KP—Airport control.
KA—Airport utility.
KFS—Flying school.
KFT—Flight test.
L—Aircraft.
PL—Public service aircraft.
M—Marine relay.
N—Special and relay press.
O—Municipal fire.
P—Municipal police.
PS—State police.
PZ—Zone police.
PIZ—Interzone police.
R—Agriculture.
R1, R2, R3—Railroad.
T—Special emergency.
V—Utility.

SPOKANE BROADCASTING CORP.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Spokane Broadcasting Corporation (KFIO) Spokane, Washington, Docket No. 8060, File No. B5-P-5559, for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 23d day of January 1947;

The Commission having under consideration the above-entitled application for construction permit to allow a change in frequency and power of Station KFIO, Spokane, Washington, from 1230 kc, 250 w, unlimited time, to 790 kc, 5 kw, unlimited time, using a directional antenna;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Washington Broadcasters, Inc. (File No. B5-P-4462), requesting a construction permit for a new standard broadcast station to operate on 790 kc, 5 kw, unlimited time, using a directional antenna, at Spokane, Washington, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors, and stockholders, to construct and operate Station KFIO as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station KFIO as proposed, and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered, and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station KFIO as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station KFIO as proposed would involve objectionable interference with the services proposed in the pending application of Washington Broadcasters, Inc. (File No. B5-P-4462), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station KFIO as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

FEDERAL POWER COMMISSION

[Docket Nos. G-806, G-352, G-325, G-494]

KANSAS-NEBRASKA NATURAL GAS CO., INC., ET AL.

ORDER CONSOLIDATING PROCEEDINGS FOR HEARING AND FIXING DATE THEREOF

JANUARY 31, 1947.

In the matters of Kansas-Nebraska Natural Gas Company, Inc., Docket No. G-806; The Fin-Ker Oil and Gas Production Company, Docket No. G-352; The Tri-County Gas Company, Docket No. G-325; and Kansas Natural Gas, Inc., Docket No. G-494.

Upon consideration of the following application filed pursuant to section 7 of the Natural Gas Act, as amended, and the request of The Tri-County Gas Com-

pany and The Fin-Ker Oil and Gas Production Company that the above-mentioned docket proceedings be consolidated and issues presented be disposed of;

It appears to the Commission that:

(a) Kansas-Nebraska Natural Gas Company, Inc., a Kansas corporation operating in the States of Kansas and Nebraska, filed on November 1, 1946, Docket No. G–806, an application for a certificate of public convenience and necessity for authority to acquire substantially all of the physical properties of The Tri-County Gas Company situated in the Counties of Kearny, Scott, Finney and Lane in the State of Kansas and operate the same following acquisition in rendering natural gas service, together with a gas purchase contract between The Fin-Ker Oil and Gas Production Company and The Tri-County Gas Company.

(b) The Tri-County Gas Company, a Kansas corporation operating in the State of Kansas, filed on May 4, 1942, Docket No. G–325, an application which was amended on May 8, 1942, wherein the Commission was requested to find said company not a natural-gas company within the meaning of the Natural Gas Act and in the event the Commission did not so find that it be issued a certificate of public convenience and necessity. On March 26, 1946, after hearing, the Commission found the The Tri-County Gas Company was a natural-gas company within the meaning of the Natural Gas Act and issued to it a certificate of public convenience and necessity. Pursuant to application for reconsideration and rehearing filed by The Tri-County Gas Company wherein it claimed not to be a natural-gas company, the Commission on May 21, 1946, granted rehearing as to its order of March 26, 1946, to be heard at a time and place to be thereafter named.

(c) The Fin-Ker Oil and Gas Production Company, a Kansas corporation operating in the State of Kansas, filed on May 8, 1942, Docket No. G–352, an application wherein the Commission was requested to find whether or not said company was a natural-gas company within the meaning of the Natural Gas Act and in the event the Commission found it to be a natural gas company, to issue a certificate of public convenience and necessity. After hearing, The Fin-Ker Oil and Gas Production Company filed on October 18, 1943, an amendment to its application wherein said company reaffirmed its position that it was not a natural-gas company. No further filings have been made or action taken in this proceeding.

(d) Pursuant to an order of investigation of August 4, 1943, Docket No. G–494, a hearing was held relating to Kansas Natural Gas, Inc., a Kansas corporation operating in the State of Kansas, and it was found by the Commission on March 26, 1946, to be a natural-gas company within the meaning of the Natural Gas Act and was ordered to file an application for a certificate of public convenience and necessity. Pursuant to petition for reconsideration filed by Kansas Natural Gas, Inc. wherein it claimed not to be a natural-gas company, the Commission on May 21, 1946, granted rehearing as to its order of March 26, 1946, to be heard at a time and place to be thereafter named.

(e) The operations conducted and proposed for the rendering of natural gas service by the aforesaid companies are related and the aforesaid dockets should be consolidated and set for hearing.

The Commission orders that:

(A) The record in Docket No. G–352 In the matter of The Fin-Ker Oil and Gas Production Company be and the same hereby is reopened;

(B) The aforesaid Dockets No. G–806, Kansas-Nebraska Natural Gas Company, Inc.; No. G–352, The Fin-Ker Oil and Gas Production Company; No. G–325, The Tri-County Gas Company; and No. G–494, Kansas Natural Gas, Inc., be and the same hereby are consolidated for hearing;

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on the 4th day of March, 1947, at 10:00 a. m. in Room 204, Main Post Office Building at Wichita, Kansas, concerning the matters of fact and law, asserted in the applications filed in the aforesaid proceedings.

(D) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: February 4, 1947.

[Docket No. G–786]

PANHANDLE EASTERN PIPE LINE CO.

ORDER FIXING DATE OF HEARING

FEBRUARY 4, 1947.

Upon consideration of the application filed September 19, 1946, Docket No. G–786, by Panhandle Eastern Pipe Line Company ("Applicant"), a Delaware corporation with its principal offices in Kansas City, Missouri, and in Chicago, Illinois, and authorized to do business in the States of Texas, Oklahoma, Kansas, Missouri, Illinois, Indiana, Ohio and Michigan, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate the following described natural gas pipeline facilities subject to the jurisdiction of the Federal Power Commission:

A gas metering and regulating station and connection at a point in Delaware County, Indiana, where Applicant's 18-inch pipeline "B" (extending from its Zionsville Compressor Station to Muncie) crosses the pipeline of Central Indiana Gas Company approximately three miles north of Middletown, Indiana.

It appearing to the Commission that:

(a) Applicant proposes the construction and operation of the aforedescribed facilities for the purpose of supplying natural gas to Central Indiana Gas Company to enable the latter company to meet the demands upon it by attached customers in Middletown, Indiana. The proposed metering and regulator station will facilitate deliveries to Middletown, Indiana, and supplement the deliveries now made at four points of connection between Applicant and Central Indiana Gas Company. No change will be made in the total volumes of gas required to be delivered by Applicant to Central Indiana Gas Company pursuant to a contract dated January 16, 1939. Temporary authorization has been granted for the construction and operation of these facilities.

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR, 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946). Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested hearings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on October 8, 1946 (11 F. R. 11614–5).

The Commission orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on the twenty-seventh day of February 1947, at 9:30 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters of fact and law asserted in the application filed in the above-entitled proceedings: *Provided, however,* That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may after a noncontested hearing forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: February 5, 1947.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 4th day of February A. D. 1947.

The Philadelphia Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F–1 thereunder, has made application for unlisted trading privileges in the Common Stock, $5.00 Par Value, of Scranton Electric Company, a security listed and registered on the New York Stock Exchange. Rule X-12F–1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Philadelphia, Pennsylvania.

Notice is hereby given that, upon request of any interested person received prior to February 18, 1947, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to Louis Loss, Chief Counsel, Trading and Exchange Division, Securities and Exchange Commission, Philadelphia, Pennsylvania. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

PORTLAND ELECTRIC POWER CO.

ORDER GRANTING EXEMPTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of February A. D. 1947.

An application, and an amendment, having been filed pursuant to Rule U-100 (a), promulgated under the Public Utility Holding Company Act of 1935, by Thos. W. Delzell and R. L. Clark, Independent Trustees of Portland Electric Power Company, a registered holding company and a debtor now under reorganization under Chapter X of the Bankruptcy Act, as amended, in the District Court of the United States for the District of Oregon, for exemption from the provisions of Rule U-62 with respect to the solicitation material to be mailed to creditors and stockholders of Portland Electric Power Company upon the approval of the District Court of a plan of reorganization, approved by the Commission on December 10, 1946, for the acceptances of such creditors and stockholders; and

It appearing to the Commission that the requirements of Rule U-62, as applied to such proposed transactions, are not necessary or appropriate in the public interest or for the protection of investors or consumers;

It is ordered, Pursuant to Rule U-100 (a), that said application, as amended, of the Independent Trustees of Portland Electric Power Company for exemption from the provisions of Rule U-62, be, and the same hereby is, granted.

By the Commission.

MICHIGAN GAS AND ELECTRIC CO. AND MIDDLE WEST CORP.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of February 1947.

The Commission, by order dated July 29, 1946, having granted and permitted to become effective an application-declaration, as amended, filed pursuant to the Public Utility Holding Company Act of 1935 jointly by The Middle West Corporation, a registered holding company, and its subsidiary, Michigan Gas and Electric Company, and Halsey, Stuart & Co., Inc., an affiliate of Michigan Gas and Electric Company, which application-declaration proposed a recapitalization of Michigan Gas and Electric Company and related transactions; and

The Commission, upon request of the applicants-declarants, having, by orders dated October 21, 1946, and November 29, 1946, extended to January 30, 1947 the time within which such transactions may be carried out as provided in Rule U-24; and

Applicants-declarants now having requested a further extension of time, for a period of not less than sixty days from January 30, 1947, within which such transactions may be carried out and having stated that Michigan Gas and Electric Company is presently engaged in preparing an appropriate amendment to its Registration Statement, heretofore filed under the Securities Act of 1933, and that the transactions approved by order dated July 29, 1946, will be consummated within sixty days, subject to adverse changes in market conditions; and

The Commission having considered such request and deeming it appropriate in the public interest and in the interest of investors and consumers that such request be granted:

It is ordered, That the time within which the transactions, heretofore approved by order of July 29, 1946, may be carried out under Rule U-24 be, and hereby is, extended to and including March 31, 1947.

By the Commission.

The following administrative instructions order the resumption of permit requirements relative to interstate movement of regulated citrus fruits from the area regulated on account of the Mexican fruitfly, which were temporarily suspended by B. E. P. Q. 557, on October 1, 1946. This action increases the regulatory control of interstate shipments of host fruits and is deemed advisable as a precaution against the spread of the Mexican fruitfly due to the recent finding of a small number of adult flies in the regulated area. Permit requirements will remain in effect as long as there is danger of dissemination of this insect through interstate shipments of regulated citrus fruits.

The purpose of this action is to invoke requirements with respect to the movement of citrus fruits from the area regulated by the Mexican fruitfly quarantine, to assist in preventing spread of that insect. The date upon which the resumption of these requirements is necessary depends upon development of insect conditions and cannot be determined in advance. To accomplish the purpose for which they are intended these requirements must be made effective immediately upon determination that they are necessary. Accordingly, compliance with the rule making procedure of section 4 (a) of the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 238) is impracticable and contrary to the public interest, and compliance with the publication requirement of section 4 (c) of that act is unnecessary.

§ 301.64-3d *Administrative instructions ordering the resumption of permit requirements for interstate movement of citrus fruits from the regulated area.* The Chief of the Bureau of Entomology and Plant Quarantine, having determined that natural conditions exist with respect to the area regulated by 7 CFR, 1945 Supp., 301.64-2 (Notice of Quarantine No. 64 on account of the Mexican fruitfly) which make it necessary to resume all permit requirements relative to interstate movement of regulated citrus fruits from the regulated area to prevent dissemination of this insect, hereby invokes all permit requirements for the interstate movement of such fruits from such regulated areas effective 12:01 a. m. February 10, 1947, until due notice of the lifting of such permit requirements shall have been given.

These administrative instructions cancel and supersede B. E. P. Q. 557, effective October 1, 1946. (7 CFR 301.64-3c; 11 F. R. 11810)

(Sec. 8, 37 Stat. 318, 39 Stat. 1165, 44 Stat. 250; 7 U. S. C. 161, 7 CFR, 1945 Supp., § 301.64-3 (a).)

Done at Washington, D. C., this 5th day of February 1947.

KITCHEN CABINETS

The following interpretation under this part relating to Consumer Credit was issued by the Board of Governors of the Federal Reserve System on February 3, 1947:

§ 222.111 *Kitchen cabinets.* In view of recent developments in the type of kitchen cabinets currently being marketed in volume, the Board has reviewed its previous rulings (1941 Federal Reserve Bulletin, p. 848[1] and 1946 Federal Reserve Bulletin, p. 1240 (11 F. R. 13460)) and has concluded that kitchen cabinets should no longer be considered

PART 222—CONSUMER CREDIT

SETS AND GROUPS OF ARTICLES

The following interpretation under this part relating to Consumer Credit was issued by the Board of Governors of the Federal Reserve System on February 3, 1947:

§ 222.112 *Sets and groups of articles.* In reply to a recent request for its advice regarding the application of § 222.6 (h) covering "Sets and groups of articles" (11 F. R. 3950) the Board expressed the following views.

(a) In determining whether several items are to be considered a single "article" for purposes of this part, as a "set, group, or assembly", three basic requisites must be considered:

(1) The items must be so related as to constitute a set, group, or assembly;

(2) They must be commonly merchandised as a single unit; and

(3) They must be sold or delivered at substantially the same time.

(b) The first requisite is that the items shall be related. This is principally a matter of function. Examples which would be included are components of a sectional bookcase, dining-room table and extension leaves, lounge chair and matching ottoman, living-room, dining-room, and bedroom suites. On the other hand, a refrigerator and a vacuum cleaner or a radio and a chair clearly would not be deemed sets even if offered in combination. Similarity of design would be a contributing factor, confirming the determination made on functional grounds and helping to decide doubtful cases. But some variation in design would be possible without necessarily excluding the items from being considered to be a set. In many instances, one or both of the items would have appreciably less utility or worth to the purchaser if acquired separately, as for example in the case of a rug-pad and rug but not in the case of a lamp-table and table lamp.

(c) The second requisite is that the items shall be commonly merchandised as a single unit. This requisite refers to the merchandising practices of the particular seller, and practices in the particular trade would be significant in throwing light on the practices of the seller. The essential consideration is how the items are offered to customers. In this connection, such matters as the ways in which the items are advertised, ticketed, and priced would be important. When they are available at a price which is less than the total of the prices for the components if bought separately or when it is only seldom that the seller is willing to sell them separately, there would be a strong indication that the items are to be considered a set. In some cases, the same items will be offered both as sets and for individual purchase, as when a tank type vacuum cleaner and a motor-driven brush type vacuum cleaner are offered separately and also in combination at a reduced price.

(d) The third requisite is self-explanatory.

(e) In order for § 222.6 (h) to be applicable to the items as a set, all three requisites must be present. For example, a sofa and matching lounge chair or bedsprings and mattress might meet fully the requirement that they be related, but the method of offering might be such that they are separately priced, without reduction when bought in combination, and the customer has a free choice as to whether he will buy one or the other or both. In such cases, the items would not be considered to be a set even though bought at the same time. (Sec. 5 (b), 40 Stat. 415, as amended by sec. 5, 40 Stat. 966, sec. 2, 48 Stat. 1, sec. 1, 54 Stat. 179, secs. 301 and 302, 55 Stat. 839, 840; 12 U. S. C. and sup., 95 (a), 50 U. S. C. App. 616, 617; and E. O. 8843, Aug. 9, 1941, 3 CFR Cum. Supp.)

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Amdt. 01-2]

PART 01—AIRWORTHINESS CERTIFICATES

REPRODUCTION OF CERTIFICATION FORMS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 31st day of January 1947.

Certain sections of Part 01 of the Civil Air Regulations specify forms to be used in conjunction with the airworthiness certification of aircraft. Heretofore the regulations have required that such forms be furnished or issued by the Administrator of Civil Aeronautics. The amendment hereinafter set forth permits the reproduction of certain of the forms.

It appearing that the amendment of the Civil Air Regulations to allow the manufacturer to reproduce certain forms prescribed by the Administrator of Civil Aeronautics is a relaxation of the regulation, and it is in the public interest to adopt the amendment without delay;

The Civil Aeronautics Board finds that the notice and public procedures provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary with respect to the amendment of the Civil Air Regulations hereinafter set forth, and that good cause exists to make this amendment effective immediately.

Now, therefore: Effective January 31, 1947, Part 01 of the Civil Air Regulations is amended as follows:

1. By deleting from § 01.10 *Application*, the words "and furnished."

2. By deleting from § 01.11 *Requirements for issuance*, the words "and furnished."

3. By deleting from § 01.12 *Aircraft operation record requirements*, the words "and issued."

4. By deleting from § 01.25 *Periodic inspection*, the words "and furnished."

PART 02—TYPE AND PRODUCTION CERTIFICATES

REPRODUCTION OF CERTIFICATION FORMS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 31st day of January 1947.

Section 02.34 *Statement of conformity*, of the Civil Air Regulations specifies a form to be used in conjunction with the preparation of statements of conformity. Heretofore it was required that the form be furnished by the Administrator of Civil Aeronautics. The amendment hereinafter set forth permits the reproduction of the form.

It appearing that the amendment of the Civil Air Regulations to allow the manufacturer to reproduce the form for Statement of Conformity is a relaxation of the regulation, and it is in the public interest to adopt the amendment without delay;

The Civil Aeronautics Board finds that the notice and public procedures provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary with respect to the amendment of the Civil Air Regulations hereinafter set forth, and that good cause exists to make this amendment effective immediately.

Now, therefore: Effective January 31, 1947, § 02.34 of the Civil Air Regulations is amended by deleting the words "and furnished."

PART 44—FOREIGN AIR CARRIER REGULATIONS

FOREIGN AIR CARRIER AIRCRAFT AIRWORTHINESS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 31st day of January 1947.

It appearing that foreign governments may and do certificate aircraft which have been manufactured in the United States at weights in excess of the maximum weights for which the aircraft are certificated by the United States, and that such aircraft are operating in air carrier service into the United States while carrying these excess weights;

The Civil Aeronautics Board finds that the operation of foreign air carrier aircraft in the United States carrying such excess weights constitutes a hazard to public safety, that the Civil Air Regulations governing the operation of foreign air carrier aircraft into the United States should be amended immediately to prohibit such operations, and that compliance with the public notice and procedures required by paragraphs (a) and (b) of section 4 of the Administrative Procedure Act is unnecessary.

Now, therefore: Effective March 1, 1947, § 44.3 of the Civil Air Regulations is amended to read as follows:

§ 44.3 *Aircraft airworthiness.* Each air carrier aircraft shall be possessed of a currently effective certificate of airworthiness issued by the country whose nationality it possesses. The air carrier shall not operate any airplane within the United States at weights in excess of the maximum weights authorized by the country of origin of the airplane model involved. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)

By the Civil Aeronautics Board:

Secretary.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

[Docket No. FDC-36-A]

PART 51—CANNED VEGETABLES: DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY; AND FILL OF CONTAINER

CANNED PEAS

In the matter of fixing and establishing definitions and standards of identity for canned peas.

By virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055; 21 U. S. C. 341, 371); and on the basis of the evidence received at the above-entitled hearing duly held pursuant to notice issued on October 1, 1946 (11 F. R. 11383), and upon consideration of exceptions filed to the proposed order issued by the Federal Security Administrator on December 23, 1946 (11 F. R. 14717), the following order is hereby promulgated:

Findings of fact. 1. By order dated November 25, 1942 and published in the FEDERAL REGISTER on December 1, 1942 (7 F. R. 9918) the definition and standard of identity for canned peas was amended to provide for the use of small amounts of certain alkaline substances as optional ingredients. These substances are used to render the peas slightly alkaline during and after the canning process and to furnish a reserve of alkali in the peas when canned. Under these conditions the conversion of chlorophyll to pheophytin is retarded and the green color of fresh peas is largely retained without injuring the peas.

2. Recently it has been shown that in addition to the alkaline substances now recognized as optional ingredients the following substances can be used in small quantities with essentially the same results: sodium hydroxide, sodium bicarbonate, magnesium oxide, magnesium carbonate. Inclusion of these substances as optional ingredients in the definition and standard of identity of canned peas will permit a wider use of canning methods designed to retain the green color of fresh peas.

3. In order to prevent the addition of unduly large quantities of these alkaline substances with the likelihood of injury to the peas, a limit as to the amounts which may be used is necessary. The limit now prescribed, namely, that the pH of the finished canned peas is not more than 8, as determined by the glass electrode method for the hydrogen ion concentration, is likewise a reasonable limit as to the quantities of the alkaline substances named in finding 2.

4. The alkaline substances named in finding 2 are suitable only for use with succulent peas.

5. When alkaline substances are added as optional ingredients to canned peas consumers are concerned to know of that fact and should be so informed. A label statement in one of the following forms will reasonably inform consumers of their presence: "Traces of _____ added," the blank to be filled in with the names of the alkalis used; or "Traces of alkalis added."

Conclusion. On the basis of the foregoing findings of fact it is concluded that the following amendments to the regulation fixing and establishing a definition and standard of identify for canned peas (21 CFR, Cum. Supp., 51.0) will promote honesty and fair dealing in the interest of consumers and said regulation is hereby amended by striking paragraph (c) (7) of § 51.0 *Identity; label statement of optional ingredients,* and inserting in place thereof:

(7) Sodium carbonate, sodium bicarbonate, sodium hydroxide, calcium hydroxide, magnesium hydroxide, magnesium oxide or magnesium carbonate or any mixture or combination of them in such quantity that the pH of the finished canned peas is not more than 8, as determined by the glass electrode method for the hydrogen ion concentration.

and by striking paragraph (f) (6) and inserting in place thereof:

(6) If one or more of the optional ingredients named in paragraph (c) (7) of this section is used the label shall bear the statement "Trace of _____ added" the blank to be filled in with the names of the ingredients used; but in lieu of such statement the label may bear the statement "Traces of alkalis added".

The amendments hereby promulgated shall become effective on the ninetieth day following the date of publication of this order in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055; 21 U. S. C. 341, 371)

Dated: February 6, 1947.

Administrator.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter F—Organization and Procedures

PART 600—ORGANIZATION

PART 601—PROCEDURE

1. Section 600.57 (c) (11 F. R. 177A-34) is amended by substituting for the last two sentences of the first paragraph thereof matter as follows:

§ 600.57 *Field organization of the Office of the Chief Counsel.* * * *

(c) *Penal Division.* * * * Region 2 covers the sixth and seventh Judicial Circuits, and the States of Minnesota, Iowa, Nebraska, North Dakota, South Dakota, Missouri, Oklahoma, Kansas and Arkansas, with the regional office located in Chicago. Region 3 covers the ninth Judicial Circuit, and the States of Wyoming, Colorado, New Mexico, and Utah, with the regional office located in San Francisco.

2. Section 601.1 (d) (4) (11 F. R. 177A-36) is amended as follows:

(A) By inserting immediately preceding the final sentence thereof matter as follows:

§ 601.1 *General procedure.* * * *
(d) *Disputed liability.* * * *
(4) *Conferences.* * * * Such Conference and Practice Requirements read as follows:

CONFERENCE AND PRACTICE REQUIREMENTS, BUREAU OF INTERNAL REVENUE, REVISED FEBRUARY 1942

QUALIFICATIONS FOR CONFERENCE

I. Conferences may be accorded only to taxpayers or their duly authorized representatives. Any individual taxpayer may appear on his own behalf or in behalf of a member of his immediate family if such appearance is without compensation; and a member of a partnership, executor or administrator of an estate, trustee of a trust, officer of a corporation, receiver, or guardian, or a fully authorized regular employee of an individual, partnership, estate, trust, or corporation may appear for himself or for such individual, partnership, estate, trust, corporation, receivership, or guardianship, solely upon adequate identification. This rule also applies to an individual, a partnership, an estate or trust, or a corporation with respect to the liability of the individual, partnership, estate or trust, or corporation as a transferee of property of a taxpayer and to a fiduciary with respect to the liability of the fiduciary under section 3467 of the Revised Statutes, as amended (U. S. C., Title 31, section 192). In cases where the appearance is on behalf of a member of the individual's immediate family, as above authorized, appropriate requirements, herein provided, respecting the filing of powers of attorney, will not be waived. All other persons appearing as attorneys or agents, including attorneys or agents of transferees or fiduciaries, must exhibit evidence that the requirements of Department Circular No. 230 (revised), which contains the statutes and regulations governing practice before the Treasury Department, have been complied with and must also conform with the following requirements:

POWER OF ATTORNEY TO BE FILED AND EVIDENCE OF ENROLLMENT TO BE SUBMITTED BEFORE RECOGNITION IS ACCORDED

II. No attorney or agent representing a claimant or other person before any of the offices of the Bureau of Internal Revenue shall appear or be recognized in any case, matter, claim, or other proceeding or business pending in such office unless the attorney or agent representing the claimant presents and files a power of attorney, or a certified copy thereof, from his principal in proper form authorizing him to prosecute the case, claim, or matter in question. Such power of attorney shall always be filed and evidence of enrollment submitted before such attorney or agent is recognized. In the event, however, that an attorney or agent presents himself for conference who is not familiar with this requirement, or who can show that he has not had reasonable opportunity to obtain a power of attorney from his client, or who has not applied for enrollment, but is able to produce such evidence as will reasonably convince the Bureau's representative that he has authority to represent the taxpayer, such attorney or agent may be heard with the understanding that a power of attorney in proper form and evidence of enrollment will be promptly forwarded to the Bureau, and that until such power of attorney and evidence of enrollment shall have been filed information will not be disclosed to such attorney or agent relative to the Bureau's attitude in respect of the issues raised or to any other matter relating to the taxpayer's case.

POWER OF ATTORNEY TO BE FILED PRIOR TO FINAL DETERMINATION OF TAX LIABILITY

III. No power of attorney will be accepted which is filed after final determination of the tax liability, unless the power of attorney recites that the principal is cognizant of such settlement and of the amount of deficiency or overassessment determined. (See also title "Checks in payment of refunds," paragraph XXI herein.)

POWER OF ATTORNEY NOT REQUIRED IN CERTAIN CASES PENDING BEFORE THE UNITED STATES BOARD OF TAX APPEALS (NOW KNOWN AS THE TAX COURT OF THE UNITED STATES)

IV. In a docketed petition before the Board, it is considered that the petitioner and the Commissioner stand in the position of parties litigant before a quasi judicial body. The Board of Tax Appeals has its own rules of practice and procedure, and its own rules respecting admission to practice before it. A Staff division in the decentralized areas is authorized to deal with the counsel of record before the Board in a petition docketed by the Board. Therefore, correspondence in connection with Board dockets will, ordinarily, be addressed to counsel of record before the Board; and in any event the position of the Bureau is that such counsel of record shall receive copies of any correspondence, or be advised as to the general nature of any communications, which for good and sufficient reason may be addressed direct to the taxpayer.

In all cases handled by the decentralized offices of the Technical Staff, other than cases docketed before the Board, the customary power of attorney will be required.

POWER OF ATTORNEY, REQUIREMENTS

V. Any power of attorney offered in evidence in any case will be accepted only if it is in regular form. Only one power of attorney shall be in effect in any case and there shall be included in such power of attorney the names and addresses of all attorneys or agents to whom the taxpayer has delegated authority to represent him.

A. *Technical language unnecessary.* It is considered necessary in all cases that the power of attorney contain language to convey the principal's intention, though not necessarily in strictly legal form.

B. *Attestation of execution of instrument or witnesses thereto.* The power of attorney must be executed before a notary public, or, in lieu thereof, witnessed by two disinterested individuals. The notarial seal must be affixed unless such seal is not required under the laws of the State wherein the power of attorney is executed. No attorney or agent as notary public shall take acknowledgments, administer oaths, certify papers, or perform any official act in connection with matters pending before the Bureau in which he is employed as counsel, attorney, or agent, or in which he may be in any way interested. (See Act of June 29, 1906, 34 Stat. 622.).

C. *Extent of authority delegated.* The authority delegated to an attorney or agent in a power of attorney enumerating certain specific acts which may be done will be considered limited to those acts.

(A) *Express authority required for certain acts.* Express authority to do the following acts must be granted and shown in the power of attorney or such acts will be considered beyond the scope of the agent's authority:

1. To receive but not to indorse and collect checks in settlement of any refund. (See section 3477 of Revised Statutes, which prohibits assignments of claims or portions thereof, and title "Checks in payment of refunds," paragraph XXI herein.)

2. To delegate authority or to substitute another agent or attorney.

3. To execute consents agreeing to a later determination and assessment of taxes than is provided by statute of limitations.

4. To execute closing agreements relative to the tax liability.

D. *Signature of grantor.* The power of attorney should be signed as follows:

a. In the case of an individual taxpayer, by such individual.

b. In the case of any taxable year for which a joint return was made by a husband and wife, by both husband and wife, except that either spouse may sign for the other if duly authorized in writing so to act.

c. In the case of a partnership, either by all members or in the name of the partnership by one of the partners duly authorized to act.

d. In the case of a corporation by an officer of the corporation having authority to bind same and be attested by the secretary of the corporation over the corporate seal.

1. A power of attorney granted by a corporation should state whether or not the corporation has a seal, and the seal should be affixed to the power in all cases where one is used by the corporation. If the power of attorney shows that the corporation has no seal, a certified copy of a resolution duly passed by the board of directors of the corporation giving its officers authority to sign the same should be submitted.

2. If the officer who signs the power of attorney is also secretary, another officer of the corporation, preferably the president, vice president, or treasurer, must also sign the instrument so that two different individuals' signatures will appear thereon.

e. In the case of an association, the same requirements shall apply as in the case of a corporation.

f. Special cases:

If the taxpayer is dissolved, insolvent, deceased, or has a similar status, the additional requirements beginning with paragraph XV herein should be followed.

E. *Certification of copies of powers of attorney and evidence filed in connection therewith.* The certification of copies of powers of attorney or papers or documents filed in connection therewith must be made by a notary public, or other proper official, who should state that he has personally compared the copy with the original and finds it to be a true and correct copy. This certification applies to all copies of powers of attorney and related papers, including printed and photostatic copies.

F. *Certain powers of attorney to be filed in field offices.* Powers of attorney covering income, profits, estate, and gift tax cases, also Vinson Act cases, shall be filed in the office of the internal revenue agent in charge in which the case is under consideration, accompanied by sufficient authenticated copies thereof for attachment to the return for each tax year under consideration.

Free statements respecting contingent or partially contingent fee agreements required to be filed by attorneys and agents under the provisions of paragraph (*y*), section 2, Department Circular No. 230, revised, effective October 1, 1936, as amended (see C. B. 1937-2, page 645) (31 CFR Part 10), should be signed only by the attorney or agent and filed with the internal revenue agent having the case under consideration.

SUBSTITUTION OF ATTORNEYS OR AGENTS

VI. Substitution of attorneys or agents may be effected only where the power of attorney, under which the attorney or agent is acting, expressly confers the right of substitution. Such attorney or agent, if in good standing before the Department, may, by a duly executed substitute power of attorney, substitute another or others in his stead. The Bureau reserves the right to refuse recognition to a substituted attorney or agent where, in its opinion, such substitution will only delay the final adjustment of the case. Furthermore, the Bureau will not accept a substitute power of attorney granted by an attorney or agent, who is acting under a substitute power of attorney from the attorney or agent, unless specific authority is granted in the principal's power of attorney to the attorney or agent to pass on to his substitute the right of substitution. (See also title "Checks in payment of refunds," paragraph XXI herein.)

NEW POWER OF ATTORNEY REQUIRED WHEN NEW OR ADDITIONAL ATTORNEYS OR AGENTS RETAINED

VII. In any case in which a power of attorney has been filed and the taxpayer subsequently desires to authorize other or additional attorneys or agents to represent him before the Bureau with respect to the same case, a new power of attorney must be filed, which shall include the names of all attorneys or agents who are authorized to act for such taxpayer. Such new power of attorney shall contain a clause specifically revoking any and all powers of attorney previously filed with respect to the same case. The revocation of an authority to prosecute a matter before the Bureau shall in no case be effective, so far as the Bureau is concerned, before due notice in writing has been given the Bureau, and the filing of evidence of notification of the revocation to the attorney or agent whose power has been revoked. Where consideration of a matter has been held in abeyance awaiting the furnishing of evidence for which a call has been made on an attorney or agent, failure on his part to take action thereon within three months from the date on which consideration of the matter was suspended may be deemed by the administrative officer before whom the case is pending cause for refusal to further recognize the authority of the attorney or agent. Such administrative officer shall, however, give written notice of such refusal to the client of such attorney or agent, and shall state briefly the reason such action has been taken.

EVIDENCE REQUIRED TO SUBSTANTIATE FACTS ALLEGED IN CONFERENCES

VIII. No reduction in taxes proposed nor increases in allowance of claims shall be made unless the evidence upon which such action is taken is submitted in writing and in verified form. All evidence except that of a supplementary or incidental character shall be submitted over the sworn signature of the taxpayer.

The sworn statement of facts must be submitted at least five days before the conference date except as hereinafter provided, and must meet all the issues raised by the Bureau which the taxpayer desires to contest. If the sworn statement of facts is not submitted at least five days before the conference, then it must be accompanied by a sworn statement setting out specifically the reasons for not having complied with the 5-day rule. Nothing herein shall preclude the taxpayer from submitting additional or supporting evidence within a reasonable time after the conference.

Every affidavit, agreement, brief, or statement of facts prepared or filed by an attorney or agent as argument or evidence in the matter of a claim or tax matter pending before the Bureau shall have thereon a statement signed by such attorney or agent showing whether or not he prepared such document and whether or not the attorney or agent knows of his own knowledge that the facts contained therein are true.

CONFERENCE TO BE PREARRANGED

IX. Conferences with taxpayers or their representatives will not ordinarily be held without previous arrangement. Cases in which taxpayers or their representatives can submit some unusual reason for requesting an immediate conference without previous arrangement will be given consideration by Bureau officials charged with the arrangement of conferences, who may, if the circumstances warrant, make an exception to the rule.

In order that the case under consideration may be closed at one conference, if at all possible, the requirements of paragraph VIII of this circular to the effect that the brief submitted in advance of conference must meet all issues raised will be strictly enforced, and another conference will not be granted on the same case except to meet new issues raised by the Bureau in the course of the first conference which could not have been anticipated prior to such conference.

RECOGNITION OF UNENROLLED EMPLOYEES OF QUALIFIED ATTORNEYS OR AGENTS

X. Unenrolled employees of enrolled attorneys or agents will not be recognized in any matter by offices of the Bureau except for the purpose of filing papers or securing information as to the status of cases. Recognition for the latter purpose will be given only when the employee presents in each case written authority from his employer to act as the latter's substitute in obtaining the information desired regarding status and when the power of attorney of his employer in each case provides for the substitution of such employee. To facilitate recognition of such employees, it is requested that the employee present at the time of making inquiry concerning any case the receipt for the power of attorney issued to his employer by the taxpayer in that case and the receipt for the substitute power of attorney issued to him. (These receipts are furnished if requested when the powers of attorney are filed.)

POWERS OF ATTORNEY AND ENROLLMENT REQUIRED OF AGENTS AND ATTORNEYS HANDLING MATTERS BY CORRESPONDENCE

XI. Where recognition is desired through correspondence with the Department, enrollment and power of attorney requirements must be met by attorneys or agents even though no actual appearance is made before the Department. If a proper power of attorney is filed authorizing only one of the following acts by the attorney or agent, enrollment will not be required:

Authority to sign but not to prosecute any claim of the taxpayer.

Authority to inspect or receive copies of returns where Executive order or regulations permit such action by agent.

The Commissioner reserves the right to withhold making the above exceptions in any specific case.

If the power of attorney authorizes the attorney or agent to do one or both of the above acts and some other acts or acts, enrollment will be considered necessary, notwithstanding that the agent or attorney does not expect to use all of the power conferred upon him.

SPECIFIC AUTHORITY REQUIRED IN VINSON ACT CASES

A power of attorney authorizing an attorney or agent to represent a taxpayer before the Bureau of Internal Revenue in connection with income tax matters will not be recognized by the Bureau as evidence of an attorney's or agent's authority to act as representative for a contractor or subcontractor in connection with excess profit liability under section 3 of the Vinson Act (48 Stat., 503), as amended, as applied to Navy contracts and contracts for aircraft for the Army, and to subcontracts made with respect to such contracts. In such cases a separate power of attorney must be secured specifically authorizing the attorney or agent to appear in behalf of his client.

LETTERS ARRANGING CONFERENCES TO ADVISE OF REQUIREMENTS

XII. Letters arranging conferences will apprise the taxpayer or his representative of the requirements as to powers of attorney, the necessity of being enrolled to practice before the Department, and to whom he should apply for enrollment, unless it is known that the addressee is aware of the requirements. Owing to the expense involved, it will not be the practice, except in rare cases, to incorporate the above requirements in telegrams. Where sufficient time intervenes between the date of the telegram and the conference the telegram will be confirmed by letter and conference requirements stated.

PRACTITIONERS MUST CONDUCT THEMSELVES IN AN ETHICAL MANNER

XIII. Attorneys or agents representing taxpayers before the Bureau are expected at all times to conduct themselves in an ethical manner, and will be held strictly accountable for the withholding of known material information or for any deliberately false or misleading statement.

"* * * whoever shall knowingly and willfully falsify or conceal or cover up by any trick, scheme, or device a material fact, or make or cause to be made any false or fraudulent statements or representations, or make or use or cause to be made or used any false bill, receipt, voucher, roll, account, claim, certificate, affidavit, or deposition, knowing the same to contain any fraudulent or fictitious statement or entry, in any matter within the jurisdiction of any department or agency of the United States or of any corporation in which the United States of America is a stockholder shall be fined not more than $10,000 or imprisoned not more than ten years, or both." (Section 80, Title 18, United States Code.)

"Any person who willfully aids or assists in, or procures, counsels, or advises the preparation or presentation under, or in connection with any matter arising under, the internal revenue laws, of a false or fraudulent return, affidavit, claim, or document, shall (whether or not such falsity or fraud is with the knowledge or consent of the person authorized or required to present such return, affidavit, claim, or document) be guilty of a felony, and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution." (Section 3793 (b) 1 of the Internal Revenue Code.)

For gross misconduct the Commissioner may refuse to recognize any person as an attorney or agent in any particular case.

Attempting to influence the conduct of any official or employee of the Bureau in any case or other proceeding pending before the Bureau by the use of threats, false accusations, duress, or by the offer of any special inducement or promise of advantage, or by the bestowing of gifts or favors upon officials or employees before whom an attorney or agent is appearing is considered grounds for disbarment from practice before the Treasury Department.

"Whosoever shall promise, offer, or give, or cause or procure to be promised, offered, or given, any money or other thing of value, or shall make or tender any contract, undertaking, obligation, gratuity, or security for the payment of money, or for the delivery or conveyance of anything of value, to any officer of the United States, or to any person acting for or on behalf of the United States in any official function, * * *, with intent to influence his decision or action on any question, matter, cause, or proceeding which may at any time be pending, or which may by law be brought before him in his official capacity, or in his place of trust or profit, or with intent to influence him to commit or aid in committing, or to collude in, or allow, any fraud, or make opportunity for the commission of any fraud, on the United States, or to induce him to do or omit to do any act in violation of his lawful duty, shall be fined not more than three times the amount of money or value of the thing so offered, promised, given, made, or tendered, or caused or procured to be so offered, promised, given, made or tendered, and imprisoned not more than three years." (Section 91, Title 18, United States Code.)

EFFECT OF PREVIOUS CONNECTION WITH THE UNITED STATES GOVERNMENT

XIV. No enrolled person or other person authorized to appear before the Treasury Department without enrollment shall represent a claimant before the Treasury Department in any matter to which such person, as officer or employee of the United States, gave personal consideration or as to the facts of which he gained knowledge while in the Government service.

No former officer, clerk, or employee of the Treasury Department shall act as attorney or agent, or as the employee of an attorney or agent, within two years after the termination of such Treasury employment, in any matter pending in such Department during the period of his employment therein, unless he shall first obtain the written consent thereto of the Secretary of the Treasury, or his duly authorized representative. This consent will not be granted unless it appears (1) that the applicant was not, during the period of two years immediately preceding the date of application, employed in the particular departmental or field section in which was pending the matter to handle which consent is sought, provided that this requirement shall not apply to persons employed in an administrative capacity such as head of a unit, division, or section, or employed as a reviewer or conferee or in an advisory capacity, and (2) that employment as an agent or attorney is not prohibited by title 5, section 99, United States Code, or other law, or by the regulations of the Treasury Department. Such applicant shall be required to file an affidavit to the effect that he gave no personal consideration to such matter and had no knowledge of the facts involved in such matter while he was employed in the Department, and that he is not now associated with, and will not be associated with, any former employee who has gained knowledge of the case while employed by the Treasury Department, and that his employment is not prohibited by title 5, section 99, United States Code, or other law, or by the regulations of the Treasury Department. The statements contained in such affidavit shall not be sufficient if disproved by an examination of the files and records pertaining to the case. Applications for consent should be directed to the Committee on Practice on Form 901 and should state the former connection with the Department of the applicant and identify the matter in which the applicant desires to appear. The applicant shall be promptly advised as to his privilege to appear in the particular matter, and this notice shall be filed by him in the record of the case.

Nor shall any enrolled person knowingly (1) assist a person who has been employed by a client to represent him before the Treasury Department in connection with any matter to which such person gave personal consideration or as to the facts of which such person gained personal knowledge while in the Government service, or (2) accept assistance from any such person in connection with any such matter, or (3) share fees with any such person in connection with any such matter.

INSTRUCTIONS FOR EXECUTION OF POWER OF ATTORNEY IN SPECIAL CASES WHICH MUST BE MET IN ADDITION TO GENERAL REQUIREMENTS

XV. *Dissolved partnership.* A power of attorney to act with respect to matters involving the affairs of a dissolved partnership must be signed by all of the former partners. In case some of the partners are dead, their legal representatives must sign in their stead. (See paragraph XVIII.) If however, under the laws of the particular State, the surviving partners at the time of the execution of the power of attorney have exclusive right to the control and possession of the firm's assets for the purpose of winding up its affairs, their signatures alone will be sufficient. If only the surviving partners sign the power of attorney, a copy of the pertinent provisions of the State law under which they claim authority, exclusive of the legal representatives of the deceased partners, should be noted and citation given thereto.

XVI. *Dissolved corporation.* If a liquidating trustee, or trustee under dissolution, has been appointed, or if a trustee derives authority under a statute of the State in which the corporation was organized the power of attorney should be executed by such trustee. If there is more than one trustee, all must join unless it is established that less than all have authority to act in the premises. The power of attorney must be accompanied by a copy of the instrument under which the trustee derives his authority, properly authenticated, or if the authority is derived under a State statute, the statute should be cited and quoted, and an affidavit by a third party, setting forth the facts required by the statute as a precedent to the vesting of the authority in said trustee must be furnished. It must also appear in the case of any trustee that his authority has not been terminated. If there is no trustee, then a power of attorney executed before a notary public by a sufficient number of individuals to make up a representation of a majority in the voting stock of the corporation at the date of dissolution will be accepted for purposes of conference and correspondence relating to the tax liability in the particular case. Such instrument must show the total number of outstanding shares of voting stock at the date of dissolution and the number held by each signatory to the power of attorney. The instrument must also contain positive averments as to the nonexistence of any trustee, and the date of dissolution must appear.

XVII. *Insolvent taxpayer.* A certificate from the court having jurisdiction over the insolvent should be furnished showing the appointment and qualification of the trustee or receiver, and it should appear that the authority has not terminated. In cases pending before a district court of the United States an authenticated copy of the order approving the bond of the trustee will meet this requirement. If an attorney has been appointed under authority of court for the trustee or receiver, a copy of the court order appointing such attorney (where he is to represent the trustee) should be furnished. If no attorney has been appointed, the trustee or receiver should execute the power of attorney, the acknowledgment or witnessing thereof to be the same as in the case of an individual, and the above-described evidence showing the appointment of the trustee or receiver furnished therewith. If the trustee or receiver does not wish to appoint an attorney, he will be recognized upon establishing his authority in the manner above described.

XVIII. *Deceased taxpayer.* The executor or administrator should execute the power of attorney, which must be accompanied by a short-form certificate (or authenticated copies of letters testamentary or letters of administration) showing that his authority is in full force and effect at the time such evidence is submitted. The executor or administrator will be recognized in his own right if he does not wish to appoint an attorney or agent, upon submission of the above-described court certificate, and such executor or administrator is not required to be enrolled to practice. In the event that the executor has been discharged and a trustee under the will is acting, the power of attorney must come from the trustee, and evidence of the discharge of the executor and of the appointment of the trustee must be submitted with the power of attorney. In such cases, where the executor is discharged and the estate is distributed to the residuary legatees, the power of attorney must come from the residuary legatee or legatees, and be accompanied by a statement from the court certifying to the discharge of the executor and naming the residuary legatees and indicating the proper share to which each is entitled. In the event that the decedent died intestate and the administrator had been discharged or none was ever appointed, the power of attorney must come from the distributees and be accompanied by evidence of the discharge of the administrator, if one had been appointed, and affidavits and such other evidence as can be adduced tending to show the relationship to the deceased of the signatories to the power of attorney and the right of each of them to the respective shares claimed under the law of the domicile of the deceased.

XIX. *Guardians and other fiduciaries appointed by a court of record.* The power of attorney should be executed by the fiduciary and must be accompanied by a court certificate or court order showing that such fiduciary has been appointed and that his appointment has not been terminated.

XX. *Trustee under deed, declaration, etc.* Powers of attorney must be executed by the trustee and be accompanied by documentary evidence of the authority of the trustee to act. Such evidence may be either a copy of the trust instrument, properly certified, or a certified copy of extracts from the trust instrument, showing—

a. Date of instrument.

b. That it is or is not of record in any court.

c. The beneficiaries.

d. The appointment of the trustee, the authority granted, and such other information as may be necessary to show that such authority extends to Federal tax matters.

e. That the trust has not been terminated, and that the trustee appointed thereby is still acting.

Self-serving affidavits by the trustee in this connection are not acceptable. In the event that the trustee appointed in the original trust instrument is no longer acting and has been replaced by another trustee, documentary evidence of the appointment of the new trustee must be submitted. In cases where there are more than one trustee appointed, all must join, unless it is shown that less than all have authority to act.

XXI. *Checks in payment of refunds.* The Bureau is not bound to deliver any check in payment of refund of internal-revenue taxes, penalties, or interest to a representative of any taxpayer acting under authority evidenced by a power of attorney. However, it will be the general policy of the Bureau to mail such checks in care of an enrolled attorney or agent who has filed power of attorney from the principal, specifically authorizing him to receive but not to indorse such check, provided that such power of attorney shall have been filed in sufficient time for the section or division preparing the certificate of overassessment to show thereon the mailing address as "care of" the attorney or agent. Where an attorney or agent has more than one address, request to mail the check to another address than is shown in the power of attorney will not be granted unless the address shown in the power of attorney is no longer that of the attorney or agent. In the event that a power of attorney is filed specifically authorizing more than one attorney or agent to receive checks on the taxpayer's behalf, and such attorneys or agents have different addresses, the Bureau will not mail the check in care of any of the attorneys or agents named in the power of attorney but will mail the check direct to the taxpayer, unless a statement is furnished, signed by all of the attorneys or agents named in the power of attorney, requesting that the check be mailed in care of one of their number. Furthermore, it will be the policy of the Bureau not to mail checks in payment of refunds to an attorney or agent who holds authority to receive such check by reason of a substitute power of attorney obtained from the attorney or agent designated by the taxpayer.

Where there is a contest between members of a dissolved firm or between two or more attorneys or agents acting under the same power of attorney as to which one is entitled to prosecute a matter pending before the Bureau or to receive a draft, warrant, or check, the client only shall thereafter be recognized, unless the members or survivors of the dissolved firm, or the contesting attorneys or agents, file an agreement signed by all designating which of them shall be entitled to prosecute such matter or to receive the said draft, warrant, or check. In no case shall the delivery of a final draft, warrant, or check to the client be delayed more than 60 days by reason of failure to file such agreement. Deliveries of all checks in payment of refunds will be made by or through the office of the collector to whom the tax was paid.

REQUIREMENTS APPLICABLE TO FIELD OFFICES

XXII. The foregoing conference and practice requirements apply to all offices in the Internal Revenue Service.

(B) By substituting for the final sentence thereof a paragraph reading as follows:

As to conference practice relative to taxes within the jurisdiction of The Tax Court, see also sections dealing specially with such taxes.

3. Paragraph (c) (1) of § 601.2 *Income and excess profits taxes* (11 F. R. 177A–38) is amended by substituting for the parenthetical matter in the final paragraph thereof "(C. B. 1942–1, 184)" the following: "(see § 601.1 (d) (4))".

4. Paragraph (b) of § 601.3 *Technical Staff* (11 F. R. 177A–43) is amended by changing the first sentence thereof following the first quotation to read as follows: "In general the practice and conference procedure before the Technical Staff is governed by Treasury Department Circular 230 (31 CFR Part 10), and the Bureau of Internal Revenue Conference and Practice Requirements (see § 601.1 (d) (4))".

5. Paragraph (a) of § 601.11 *Excess Profits Tax Council; Appellate functions and procedures under section 722 of the Internal Revenue Code* (11 F. R. 177A–64) is amended by substituting for the parenthetical matter in the final sentence of the second paragraph thereof "(Inter-

nal Revenue Bulletin 1942-1, page 384; see § 601.1 (d) (4))" the following: "(see § 601.1 (d) (4))".

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1077]

GROVER D. KING

Grover D. King, residing at 1821 West Whittier Boulevard, Whittier, California, is a contractor and builder engaged in the construction of several housing projects in Southern California. Subsequent to March 26, 1946, he was engaged by Keith Spalding, owner of the premises located at 4201 Oak Grove Drive, Flintridge, Los Angeles County, California, to supervise the moving, re-assembly, and remodeling of a large stable. On and after August 4, 1946, Grover D. King began and carried on construction and alterations in the moving, re-assembly and remodeling of the stable, at an estimated cost of $45,000, without authorization from the Civilian Production Administration. Grover D. King was aware that certain construction required authorization from the Federal Housing Administration or Civilian Production Administration. Said stable, as remodeled, was not intended to be used in connection with any existing dwelling, or in any commercial or industrial endeavor. The beginning and carrying on of this construction at a cost in excess of $200 constituted wilful violation of Veterans' Housing Program Order No. 1. This violation has diverted critical material to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1077 *Suspension Order No. S-1077.* (a) For a period of four months from the effective date of this order, no authorization shall be granted to Grover D. King to construct, nor shall he during such period apply or extend any preference ratings regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(b) Grover D. King shall cancel immediately all preference ratings which he has applied or extended to orders which have not yet been filled, except that if he has extended customer's rating to secure an item for delivery without change in form to that customer (as distinct from replacing it in inventory), he need not cancel the rating provided the item when received is promptly delivered to the customer whose rating was extended.

(c) All preference ratings, allotments and allocations presently outstanding in connection with orders for delivery of materials to Grover D. King or placed prior to the termination date of this order are void and shall not be given any effect by suppliers of Grover D. King, or any other person. This does not apply to material already delivered or in transit for delivery to him on the effective date of this order.

(d) Grover D. King shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(e) Nothing contained in this order shall be deemed to relieve Grover D. King, his successors or assigns from any restriction, prohibition, or provision contained in any order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(f) This order shall take effect on the 8th day of February 1947.

Issued this 29th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1082]

CHARLES A. LIMBERG AND AL BAKER

Charles A. Limberg, resides at 518 South Orange Street, Media, Pennsylvania, and is the owner of the premises at the southeast corner of Baltimore Pike and Olive Street, Media, Pennsylvania. Al Baker, a contractor and builder, resides in Broomall, Delaware County, Pennsylvania. On or about September 1, 1946, Charles A. Limberg and Al Baker began the construction of a new stone and brick addition to a commercial building on the southeast corner of Baltimore Pike and Olive Street, Media, Pennsylvania, at an estimated cost of approximately $11,500, without authorization of the Civilian Production Administration. The beginning and carrying on of this construction, at a cost in excess of $1,000, without authorization of the Civilian Production Administration, constitutes a wilful violation by Al Baker, and a grossly negligent violation on the part of Charles A. Limberg of Veterans' Housing Program Order 1 of the Civilian Production Administration. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered, that:

§ 1010.1082 *Suspension Order No. S-1082.* (a) Neither Charles A. Limberg or Al Baker, their successors or assigns, nor any other person, shall do any further construction on the premises of Charles A. Limberg, located on the southeast corner of Baltimore Pike and Olive Street, Media, Pennsylvania, including putting up, completing, or altering any structure located thereon, unless hereafter specifically authorized in writing by the Civilian Production Administration, or any other duly authorized Governmental agency.

(b) Charles A. Limberg and Al Baker shall refer to this order in any application or appeal which they may file with the Civilian Production Administration, or any other duly authorized Governmental agency, for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Charles A. Limberg or Al Baker, their successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 10th day of February 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1089]

REUBEN NEWMAN AND ANTHONY DIDONATO, JR.

Reuben Newman, 1433 South Sixth Street, Philadelphia, Pa., is the owner of the premises at 1317-19 South Third Street, Philadelphia, Pa. Anthony DiDonato, Jr., 2122 South Rosewood Street, Philadelphia, Pa., is a contractor and builder. Reuben Newman and Anthony DiDonato, Jr., on or about December 6, 1946, began the construction of a commercial building to be used as an auto repair shop at 1317-19 South Third Street, Philadelphia, Pa., at an estimated cost of $2,600, without authorization of the Civilian Production Administration. The carrying on of this construction after being informed of the restrictions of Veterans' Housing Program Order No. 1, and after voluntarily agreeing to refrain from further construction until authorized, constituted a wilful violation on the part of Anthony DiDonato, Jr., and a grossly negligent violation on the part of Reuben Newman of Order VHP-1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1089 *Suspension Order No. S-1089.* (a) Neither Reuben Newman or Anthony DiDonato, Jr., their successors or assigns, nor any other person, shall do any further construction on the premises located at 1317-19 South Third Street, Philadelphia, Pa., including putting up, completing or altering of any structure located thereon, unless specifically authorized in writing by the Civilian Production Administration, or any other duly authorized Governmental agency.

(b) Reuben Newman and Anthony DiDonato, Jr., shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for priorities assistance, or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Reuben Newman and Anthony DiDonato, Jr., their successors or assigns from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 10th day of February 1947.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 1—GENERAL PROVISIONS (APPENDIX)

TRAVEL AND TRANSPORTATION EXPENSES OF EMPLOYEES TRANSFERRED FROM ONE OFFICIAL STATION TO ANOTHER FOR PERMANENT DUTY

(a) *General.* The following Veterans' Administration procedures governing the payment of travel and transportation expenses of Veterans' Administration employees when transferred from one official station to another for permanent duty, including transportation of immediate family, household goods and personal effects, are based upon Executive Order 9805, November 25, 1946, issued pursuant to Public Law 600, 79th Congress. These procedures are effective as of November 1, 1946, but will not be applicable in cases of change of station which were ordered prior to November 1, 1946, and were incomplete on that date. Expenses incident to changes of station ordered prior to November 1, 1946, will be paid in accordance with the provisions of Executive Order 8588, November 7, 1940, as amended, Executive Order 9743, June 26, 1946, and Veterans' Administration regulations and instructions thereon.

(1) Definitions as used herein.

(i) "Employee"—a civilian officer or employee of a department as defined below.

(ii) "Department"—an executive department, independent establishment or other executive agency, wholly-owned Government Corporation, or the Government of the District of Columbia.

(iii) "Continental-United States"—the 48 States and the District of Columbia.

(2) *Payment of expenses.* The travel and transportation expenses allowable under these procedures will be paid only in case of transfer from one official station of the Veterans' Administration to another, or from another department to the Veterans' Administration, for permanent duty when authorized by an official designated by the Administrator, in the order directing the travel of the employee being transferred. In no case will travel and transportation expenses be authorized or paid where the transfer is made primarily for the convenience or benefit of the employee or at his request.

(3) *Time limit.* All travel and transportation allowable under these procedures will begin within two years from the effective date of the transfer of the employee, except that, for employees who enter upon active military, naval, or coast guard duty at any time prior to the expiration of such period and are furloughed for the duration of such duty, the two-year period will be exclusive of the time spent on such furlough; and for employees transferred to posts of duty outside the continental United States the two-year period will be exclusive of any time during which shipping restrictions make the travel and transportation impossible. Administrative officers should endeavor to complete travel and transportation at the earliest practicable dates.

(b) *Travel expenses of employees.* The travel expense of the employee transferred will be in accordance with the Subsistence Expense Act of 1926, as amended (5 U. S. C. 821-823), the Standardized Government Travel Regulations, the Act of February 14, 1931, as amended (5 U. S. C. 73 (a)), and Veterans' Administration travel regulations and instructions.

(1) *Per diem on permanent change of station.* (i) In cases of permanent transfer between two stations readily accessible by common carrier, per diem in lieu of subsistence will be allowed only for such time as would be required to travel by common carrier.

(ii) Employees being transferred from one station to another will not be allowed per diem after arrival at the new station.

(iii) When a transfer is effected after the arrival of an employee at the station by detail with per diem allowance, such allowance will terminate the date that the transfer is effective.

(iv) An employee may not be detailed to a station with per diem allowance after arrival when permanent transfer of the employee is contemplated in the beginning or at the time the travel is initiated. In such a case, the travel order will read that per diem allowance will be allowed while traveling only.

(c) *Transportation expenses of immediate family.* "Immediate family" means any of the following named members of the employee's household: Spouse, children (including stepchildren and adopted children), unmarried and under 21 years of age or physically or mentally incapable of support regardless of age, and dependent parents of the employee (but not of the spouse).

(1) *General.* Transportation expenses of the immediate family of an employee incident to his permanent transfer from one official station to another will be subject to those provisions of Standardized Government Travel Regulations relating to transportation including mileage, and will be in accordance with the Act of February 14, 1931 (5 U. S. C. 73 (a)). Per

diem in lieu of subsistence will not be allowed members of the immediate family of an employee being transferred at Government expense.

(2) *When authorized.* Payment of expenses for transportation of the immediate family must be authorized in the order directing the travel of the employee being transferred, and may not be authorized subsequent to the performance of the employee's travel.

(3) *Points between which expenses of transportation of employee's immediate family are allowable.* Expense of transportation of an employee's immediate family may be allowed whether the travel originates at the employee's last official station or at some previous place of residence and whether the point of destination is the new official station or some other point selected by him, or both. The cost to the Government will not exceed the cost of transportation by the most economical route between the last official station and the new official station.

(4) *Mode of transportation.* Travel of immediate family will be by privately-owned conveyance or common carrier. The mode of travel will be entered on the travel order, and approval for travel of the employee's immediate family will constitute approval for the requested mode of travel unless it is specifically stated otherwise.

(i) Whenever practicable, an employee traveling by privately-owned conveyance will be accompanied by the members of his family. In such instances reimbursement for use of privately-owned conveyance will be made to the employee on a mileage basis in accordance with Veterans' Administration regulations therefor. No additional reimbursement is allowable because the employee's dependents rode with him in the conveyance.

(ii) If the employee's family cannot, because of impracticability, accompany him by privately owned conveyance to the new station, they may be furnished transportation by common carrier within the allowances prescribed in Veterans' Administration instructions for travel of employees by common carrier.

(iii) If it is desirable for the employee to travel to his new duty station by common carrier and for his family to travel by privately owned conveyance, reimbursement for such use of the conveyance may be authorized and paid either on a mileage basis as provided in Veterans' Administration instructions for travel on a mileage basis or on the basis of actual expenses of operation as provided in Veterans' Administration instructions for travel on an actual-expense basis. Claims for reimbursement of actual expenses must be supported by receipts showing expenditures for gasoline, oil, lubrication, storage and toll charges.

(5) *Preparation of vouchers.* (i) Standard Forms No. 1012 Revised and 1012a Revised, Voucher for Per Diem and/or Reimbursement of Expenses Incident to Official Travel, will be used for vouchering travel expenses of members of the immediate family of an employee on change of station. Where all the services rendered are not covered by a single voucher, vouchers covering payment for subsequent charges will bear a reference to prior vouchers.

(ii) Vouchers will be prepared in the name of and certified by the employee, even in those cases where the immediate family travels by common carrier or by privately owned conveyance independent of the employee and separate vouchers are submitted.

(iii) Vouchers will show on the reverse thereof, under "Character of Expenditure," a statement of the name and relationship of the immediate family whose expenses are included and the age and marital status of children. If such children are 21 years of age or over, it must be shown that they are physically or mentally incapable of self-support. When travel of the immediate family is performed by common carrier, a record of transportation requests used will be recorded on the reverse of the voucher under the caption "Statement of Travel," listing thereon the information as required in the applicable columns.

(d) *Transportation of household goods and personal effects.* The following procedures will govern the transportation of houshold goods and personal effects incident to the permanent transfer of a Veterans' Administration employee from one official station to another when properly authorized by an official designated by the Administrator.

(1) *General*—(i) *When authorized.* Expenses for the shipment of household goods and personal effects must be authorized in the order directing the travel of the employee being transferred.

(ii) *Weight limit.* The weight of the household goods and personal effects transported at Government expense will not exceed 7,000 pounds if uncrated or 8,750 pounds if crated or the equivalent thereof when transportation charges are based on cubic measurement and when the amount payable by the Government is computed solely on the basis of the cubic measurement of the goods shipped. (In instances in which no adequate scale is located at point of origin or at any point within a radius of ten miles thereof, a constructive weight, based on seven pounds per cubic foot of properly loaded van space, may be used.)

(iii) *Items not allowable.* Household goods and personal effects will not include wines, liquors, animals, or birds, not necessary in the performance of official duties, or automobiles.

(iv) *Origin and destination of shipment.* The expenses of transportation authorized hereunder or reimbursement on a commuted basis within the continental United States will be allowable whether the shipment originates at the employee's last official station or at some previous place of residence, or partially at both, or whether the point of destination is the new official station or some other point selected by him, or both: *Provided*, That the cost to the Government will not exceed the cost of shipment in one lot by the most economical route from the last official station to the new. No expenses will be allowable for the transportation of property acquired en route from the last official station to the new. For the purposes of these procedures, the term "official station" will be construed to include any point from which the employee commutes daily to his official post of duty.

(v) *Preparation of vouchers.* In preparing vouchers for payments, the following conditions will be observed:

(*a*) Claims for reimbursement for transportation of household goods and personal effects will be vouchered on Standard Form 1012 and payment is made by the office issuing the order.

(*b*) Vouchers must be supported by the original or a certified true copy of the travel order authorizing the transfer and shipment, bearing a certified statement by the traveler as to whether or not he has dependents living with him. If shipment is between points within the continental U. S., the carrier's original bill of lading or a certified copy thereof when using common carrier service or if no bill of lading is required, other evidence showing point of origin, destination, and weight.

(*c*) Statement of weight. When charges for transportation are based on weight, the actual (not estimated) weight will be shown.

(*d*) Payment by more than one voucher. When all services rendered are not covered by a single voucher, vouchers covering payment for subsequent charges will bear a reference to prior vouchers.

(*e*) When Government bill of lading or purchase order is used to make shipment of household goods and personal effects, to or from points outside the continental U. S., the memorandum copy (blue) of the Government bill of lading or purchase order will be forwarded, with one copy of the travel order authorizing shipment, to Supply Service, Central Office, for use as supporting evidence in connection with settlement of carrier's bill for the transportation charge. The travel order will bear a certified statement by the traveler as to whether or not he has dependents living with him.

(2) *Between points within continental United States*—(i) *Determination of weight.* For the purpose of determining the rates and computing the amounts to be allowed for the household goods and personal effects shipped at Government expense, there will be used the net weight of such goods and effects uncrated, and such weight will include the weight of containers and packing materials which are required to protect articles of fragile or breakable nature. When such goods and effects are crated and packed for shipment, the net weight for consideration herein will be eighty per cent of the gross shipping weight. Such net weights will not exceed 7,000 pounds for employees with immediate families and 2,500 for employees without immediate families.

(ii) *Commutation of expenses.* In lieu of the payment of actual expenses of transportation, packing, crating, temporary storage, drayage, and unpacking of household goods and personal effects in the case of transfers between points within the continental United States, reimbursement will be made to the employee on a commutated basis at rates per hundred pounds as fixed by zones in Exhibit A hereof, which is attached to and made a part of these procedures. The amount payable will be the product of the applicable rate and the net weight of household goods and personal effects actually shipped by carrier for the employee (within the weight limitation prescribed by section (d) (2) (i) hereof). Government bills of lading will not be used.

(iii) *Schedule of rates.* The schedule of rates is predicated on zones consisting of mileage blocks. The application of the schedule will require a determination of the short-line highway distance between the points which may be authorized under these procedures, and in accordance with the provisions of the Household Goods Carriers' Bureau Mileage Guide No. 4, Motor Freight-Interstate Commerce Commission No. 27, or successive reissues thereof. If the rate is not shown on the schedule in exhibit A, hereof, for the actual distance stated in such mileage guide, the rate shown for the next greater distance will apply.

(iv) *Evidence of shipment.* Employees will be required to submit the carrier's original bills of lading, or a certified copy thereof when using common carrier service. If no bill of lading is required, other evidence showing point of origin, destination, and weight will be required. In instances in which no adequate scale is located at point of origin or at any point within a radius of ten miles thereof, a constructive weight, based on seven pounds per cubic foot of properly loaded van space, may be used.

(v) *Advance of funds.* An advance of funds may be allowed employees who are being transferred from one duty station to another within the continental limits of the United States in connection with shipment of their household goods and personal effects. A bond under the terms specified under Veterans' Administration Finance procedure will be required in making such an advance. In requesting an advance of funds, the applicant will submit a written statement disclosing the number of rooms containing his personal property which is for shipment, such number of rooms to exclude bathrooms and reception hallways in apartments. The reported number of rooms will be multiplied by 1,000, and the result will be considered the estimated net weight of the prospective shipment. Such statement will also designate the shipping point and the destination. The estimated weight and the distances between the origin and the destination of the shipment will be used as the factors required by the schedule of rates to compute the amount of funds which may be advanced in anticipation of the ultimate settlement to be made hereunder. The same officials previously authorized to approve applications for advances and bonds under the Subsistence Expense Act of 1926 are hereby authorized to approve advances and bonds under the Act of August 2, 1946.

(3) *To or from points outside continental United States*—(i) *Maximum allowance for transportation.* The actual costs of transportation of the household goods and personal effects of the employee, not in excess of 7,000 pounds net, and of the packing, crates, boxes, lift vans, or other temporary containers required for the shipment, will be allowed in the case of transfers to or from points outside the continental United States: *Provided*, That employees who have no immediate family will be entitled to the transportation of household effects and other personal property not in excess of 2,500 pounds. Gross weight will include the net weight of the property and the weight of packing, crates, boxes, or lift vans which have no connection with the property except for the purposes of the immediate shipment and which do not constitute a continuing part of the property of the employee. For the application of the limitations prescribed by this section the gross weight of the property will be considered to be 80 percent of the combined weight of the property and the packing and crating used for the shipment: *Provided*, That in case of shipments involving transportation by vessel over all or part of the distance, the gross weight of the property will be considered to be 80 percent of the combined weight of the property and the packing, crating, boxing, and lift vans used for the shipment: *And provided further*, That when shipment is by motor freight, the gross weight of the property will be the actual weight of the goods transported. Thus, transportation will be allowed at Government expense for property when packed, crated, boxed, or placed in lift vans for shipment, within the following maximum weights:

	Pounds
Employees having immediate family:	
Shipment involving transportation by vessel over all or part of route or by rail or motor carriers requiring packing or crating	8,750
Shipment by motor carriers of household goods uncrated	7,000
Employees having no immediate family:	
Shipment involving transportation by vessel over all or part of route or by rail or motor carriers requiring packing and crating	3,125
Shipment by motor carriers of household goods uncrated	2,500

(ii) *Allowances for packing, crating, unpacking, and uncrating.* The actual costs of packing, crating, unpacking, and uncrating (not to exceed the authorized weight) will be allowed.

(iii) *Allowances for drayage.* In case door-to-door common carrier rates are not applicable, the actual costs of drayage (not to exceed the authorized weight) to and from the common carrier will be allowed.

(iv) *Temporary storage. Definition:* "Temporary storage" means storage at point of departure, destination, or way station for not more than sixty days. The actual expenses of temporary storage (not to exceed authorized weight) for not to exceed sixty days, will be allowed.

(v) *Means of shipment.* For the duration of the present war and six months thereafter transportation services, including allowances specified in (ii) and (iii) of this subdivision, may be procured by the agency concerned from any available common carrier: *Provided, however*, That the employee may have his effects moved by some means other than that selected by the Government by paying the difference between the charges under the means selected by the Government and the charges by the preferred means.

(vi) *Use of Government bill of lading or purchase order.* Shipment will be made on Government bill of lading or purchase order whenever possible; otherwise reimbursement will be made to the employee for transportation expenses actually and necessarily incurred within the limitations prescribed by these procedures. If property in excess of the amount allowable under these procedures is shipped on a Government bill of lading or purchase order, the employee will pay the excess charges immediately upon receipt of notice thereof from Payees Accounts Service, Central Office.

(vii) *Use of lift vans.* Charges allowable hereunder for packing and crating and for transportation will include expenses incurred in hiring, transporting, and packing lift vans when shipments are made in whole or in part by water, but will not include charges in connection with any shipment of empty lift vans or for payment of storage charges or import duties on lift vans.

(viii) *Valuation.* The valuation of property as declared for shipping purposes will not exceed that at which the lowest freight rates will apply. If the employee desires a higher valuation, he will assume all costs of transportation in excess of the charges at the lowest rate.

(ix) *Itemization of charges.* In case the services rendered cover, in addition to transportation, other services such as packing, crating, drayage, unpacking, and uncrating, the total charge for the services shall be itemized in order to show the charge for each service.

(x) *Shipment by American vessel.* All shipments of property by water under these procedures will be made on ships registered under the laws of the U. S. whenever such ships are available. This provision, however, will not apply during the fiscal year 1947, as excepted in section 208 of the Independent Offices Appropriation Act of 1947.

Subchapter B—Carriers by Motor Vehicles

[Ex Parte No. MC-30]

PART 170—COMMERCIAL ZONES

CINCINNATI, OHIO

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 24th day of January A. D. 1947.

Investigation of the matters and things involved in this proceeding having been made, and said division, on the date hereof, having made and filed a second report on further consideration herein containing its findings of fact and conclusions thereon, which report is hereby made a part hereof: [1]

It is ordered, That the delimitation of the Cincinnati, Ohio, Commercial Zone in the Commission's orders of September 10, 1940, and September 29, 1942 (5 F. R. 3814 and 7 F. R. 8616), be, and they are hereby, amended to read as follows:

§ 170.7 *Cincinnati, Ohio.* For the purpose of enforcement of the Interstate Commerce Act, the zone adjacent to, and commercially a part of, Cincinnati, Ohio, and contiguous municipalities in which transportation by motor vehicle, in interstate or foreign commerce, not under a common control, management, or arrangement for a continuous carriage or shipment to or from a point beyond the zone, will be partially exempt under section 203 (b) (8) of the act from regulation, shall be, and it is hereby, defined to include the following:

Addyston, Ohio.	Norwood, Ohio.
Cheviot, Ohio.	Saint Bernard, Ohio.
Cincinnati, Ohio.	Springfield Township, Ohio.
Cleves, Ohio.	Sycamore Township, Ohio.
Elmwood Place, Ohio.	Covington, Ky.
Fairfax, Ohio.	Newport, Ky.
Mariemont, Ohio.	
North Bend, Ohio.	

That part of Kenton County, Ky., lying on and north of a line commencing at the intersection of the Boone-Kenton County line and the Dixie Highway, and thence over the latter to Covington, including communities on the described lines.

That portion of Campbell County, Ky., lying on and north of a line commencing at the south corporate limit of Newport, thence over Licking Pike to junction with Johns Hill Road, thence over the latter to junction of Alexandria Pike, thence over the latter to junction with a county road, thence over the latter to the Ohio River, including communities in the described lines.

That portion of Boone County lying north, and east of a line commencing at the Kenton-Boone County line west of Erlanger, Ky., and extending northwesterly over an unnumbered highway to the Kenton County (Ky.) Airport, thence clockwise around the outer perimeter of the Kenton County Airport to the northern tip thereof, and thence northeasterly along an unnumbered highway to its junction with Kentucky highway 20, thence along Kentucky highway 20 to the Kenton-Boone County line.

(Sec. 203 (b) (8) 29 Stat. 546; 54 Stat. 919; 49 U. S. C. 303 (b) (8))

It is further ordered, That this order shall become effective March 4, 1947, and shall continue in effect until the further order of the Commission.

By the Commission, Division 5.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[36 CFR, Parts 2, 12]

[Order 2292]

PRIVATE LANDS IN NATIONAL PARKS OVER WHICH U. S. EXERCISES EXCLUSIVE JURISDICTION

NOTICE OF INTENTION TO AMEND AND REISSUE RULES AND REGULATIONS

JANUARY 28, 1947.

Pursuant to section 4 (a) of the Administrative Procedure Act, approved June 11, 1946 (Public Law 404, 79th Cong.), and the authority contained in section 3 of the act of August 25, 1916 (39 Stat. 535, 16 U. S. C. 3), notice is hereby given that the Secretary of the Interior intends to take the following action:

A. To revoke paragraph (e) of § 2.32 *Private lands,* rules and regulations of the National Park Service, which by reference makes §§ 2.4, 2.8, 2.9, 2.11, 2.28, and 2.62 applicable to the privately owned lands in the areas listed in paragraph (e), namely, the following National Parks: Sequoia, Yosemite, Lassen Volcanic, Crater Lake, Rocky Mountain, Mount McKinley, Mount Rainier, Yellowstone, Glacier, Olympic, Kings Canyon, and Mesa Verde.

B. To recast the above-mentioned regulations as a new Part 12 so as

1. To eliminate the following paragraphs of § 2.4 *Fishing:*

(h) Which prohibits the digging of worms on private lands;

(l) Which is not applicable to the above-named parks;

(m) Which is not applicable to the above-named parks;

2. To eliminate the following paragraphs of § 2.8 *Fires:*

(e) Which authorizes the superintendent to prohibit smoking on private lands;

(g) Which requires persons making trips away from established camps on private lands to obtain written fire permits from the nearest park ranger before building any camp fires;

(h) Which prohibits the use of fireworks or firecrackers on private lands except with the superintendent's permission (unnecessary because it will be incorporated into § 2.11);

3. To revise § 2.11 *Firearms, etc.,* to provide, on such private lands, only for a prohibition against firearms, explosives, traps, seines, and nets within the said areas, except upon the written permission of the superintendent, eliminating the provisions concerning the mode whereby visitors obtain such permission, and the carrying of firearms by park employees, park guides, law enforcement officers, and personnel of the armed forces of the United States, of the States, or of friendly foreign nations.

The foregoing changes are to be effective beginning April 1, 1947, and to continue in effect thereafter until further notice.

Interested persons are hereby given an opportunity to participate in preparing the regulations for reissuance as set forth by submitting their views, data, or arguments in writing to Newton B. Drury, Director, National Park Service, Merchandise Mart, Chicago 54, Illinois, within 30 days from the date of publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

WILLIAM HARDER

In re: Estate of William Harder, deceased. File D-28-10452; E. T. sec. 14863.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Hilda Buchele, also known as Hildegard Buchele, Anna Fackler Joseph, Cecilie Huber, Maria Harder, also known as Maria Harder Stocker and Franz Busch, Jr., whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the personal representatives, heirs, next of kin, legatees and distributees of Franz Busch, Jr., who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the estate of William Harder, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by Potter Title & Trust Company, Pittsburgh, Pennsylvania, as Administrator, acting under the judicial supervision of the Orphans' Court of Allegheny County, Pennsylvania;

and it is hereby determined:

5. That to the extent that the above named persons and the personal representatives, heirs, next of kin, legatees and distributees of Franz Busch, Jr., are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

FEDERAL COMMUNICATIONS COMMISSION

CONFERENCES PURSUANT TO TEMPORARY EXPEDITING PROCEDURE FOR STANDARD BROADCAST APPLICATIONS

FEBRUARY 7, 1947.

Pursuant to the Commission's Public Notice of January 8, 1947 (12 F. R. 326), entitled "Temporary Expediting Procedure for Standard Broadcast Applications," and as provided for therein, the following partial schedule of informal engineering conferences, is announced:

Date	Channel	Time
Feb. 11, 1947	930 kc.	10 a. m.
	1150 kc.	2 p. m.
Feb. 12, 1947	550 kc.	10 a. m.
	710 kc.	10 a. m.
	960 kc.	10 a. m.
	1280 kc.	10 a. m.
	1430 kc.	10 a. m.
Feb. 13, 1947	610 kc.	10 a. m.
	980 kc.	10 a. m.
	1320 kc.	10 a. m.
	1440 kc.	10 a. m.
	1560 kc.	10 a. m.

Attorneys and engineers representing applicants on the above specified channels should appear in Room 7554, New Post Office Building, Washington, D. C., at the time indicated, prepared to participate in the conference concerning the channel in which they are interested. In the event such representatives of adjacent channel applicants, or of existing station licensees, desire to participate in any of the foregoing conferences they should address a written request to the Secretary of the Commission specifying their interest in the conference and the reasons for their participation.

Further conferences, pertaining to the above specified channels, will, if necessary, be scheduled and announced at the initial conferences provided for herein. No additional public notice, insofar as such conferences are concerned, is contemplated, although a public announcement of additional initial conferences pertaining to other channels, will be made in the immediate future.

The Commission desires to stress the urgent necessity for the attendance of representatives of applicants for the above specified frequencies at the conference involving their applications. Failure to attend will be construed as indicating that such applicants do not desire to participate in the expediting plan and, although their applications will be considered in connection with the other applications concerned, they will not be accorded the amendment privileges provided for in the Public Notice of January 8, 1947.

FEDERAL POWER COMMISSION

[Docket No. G-852]

UNION GAS SYSTEM, INC.

NOTICE OF APPLICATION

FEBRUARY 4, 1947.

Notice is hereby given that on January 27, 1947, Union Gas System, Inc. (Applicant), a Kansas corporation with its principal place of business at Independence, Kansas, filed with the Federal Power Commission an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act as amended, authorizing the acquisition of the facilities of Union Gas System, Inc., a Delaware corporation, consisting of a pipeline system extending in general from northern Oklahoma north in Kansas to Burlington, Kansas, and extending east and west from approximately Cedar Vale, Kansas, to Altamont, Kansas, and the operation of such facilities for the transportation of natural gas in rendering the same service as performed by Union Gas System, Inc., a Delaware corporation.

Applicant was organized for the purpose of transferring the property of and operations conducted by Union Gas System, Inc., a Delaware corporation, to a corporation organized under the laws of the State of Kansas. Applicant is and its predecessor, Union Gas System, Inc., a Delaware corporation, was engaged in the States of Kansas and Oklahoma in the sale of natural gas as a public utility to domestic, commercial and industrial consumers. No natural gas is sold in interstate commerce for resale or transported for any other person, firm or corporation in interstate commerce.

The State Corporation Commission of the State of Kansas has issued to Applicant a certificate of convenience to operate as a public utility in that State.

Any interested State commission is requested to notify the Federal Power Commission whether the application shall be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and further to specify whether it desires a conference, the creation of a board, or a concurrent hearing as defined in said rule and the reasons for such request.

Any person desiring to be heard or to make any protest with reference to this application should file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of the publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure. The time and place of hearing herein will subsequently be duly given.

OFFICE OF TEMPORARY CONTROLS

Civilian Production Administration

[C-476]

M. L. OBESTER

CONSENT ORDER

M. L. Obester of Pinehurst Village, Pompano, Florida, is charged by the Civilian Production Administration with violation of Veterans' Housing Program Order 1 in that subsequent to March 26, 1946, and on or about November 21, 1946, he began and carried on construction of eight tourist cabins, each cabin being approximately 14' x 20' in size, said cabins being located about one-quarter mile north of Pinehurst Village on the east side of U. S. Highway No. 1, Pompano, Florida, at an estimated cost per cabin of $1,500.00. Construction of said cabins was begun without obtaining authorization from the Civilian Production Administration, and was carried on until a stop violation telegram was dispatched to M. L. Obester on November 14, 1946, up to which time labor and materials amounting to approximately $800.00 per cabin had been incorporated into said structures. Subsequent to November 14, 1946, M. L. Obester made application to the Civilian Production Administration for authorization to continue on said cabins but said application has not been granted.

M. L. Obester admits the violation as charged and does not desire to contest the same and has consented to the issuance of this order. M. L. Obester asserts, however, that the violation which he admits was not wilful or intentional.

Wherefore, upon the agreement and consent of M. L. Obester, the Regional Director and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither M. L. Obester, his successors and assigns, nor any other person shall do any further construction on the premises herein described or any part thereof located on U. S. Highway No. 1 about one-quarter mile north of Pinehurst Village, Pompano, Florida, including the putting up, completing or altering of any structure located on said premises except the three cabins and tool house or office the construction of which was begun prior to March 26, 1946, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) The issuance of this consent order shall be without prejudice to the consideration on its merits of application for authorization to carry on construction of the structures covered by this order.

(c) M. L. Obester shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(d) Nothing contained in this order shall be deemed to relieve M. L. Obester, his successors and assigns, from any re-

striction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 10th day of February 1947.

TITLE 7—AGRICULTURE

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 141-1, Amdt. 4]

PART 1468—GRAIN

USE OF CORN AND RYE FOR DISTILLED PRODUCTS

War Food Order No. 141-1, as amended (11 F. R. 14065), is hereby further amended as follows:

1. By deleting paragraph (d) entitled *Use of corn.*

2. By deleting paragraph (e) entitled *Use of rye,* and substituting in lieu thereof the following:

§ 1468.15 *Grain quotas for distillers of beverage spirits.* • • •

(d) *Use of rye.* (1) No distiller shall use rye in the manufacture of ethyl alcohol or butyl alcohol.

(2) No distiller shall, during any calendar month, use rye in the manufacture of distilled spirits for beverage purposes in excess of the greatest quantity computed under either of the two following subdivisions (i) or (ii) of this subparagraph.

(i) Ninety percent of the average monthly amount of rye used by such distiller during December 1946 and January 1947; or

(ii) Six percent of the total quantity of grain and grain products used in the manufacture of distilled spirits for beverage purposes during such month by each distilling plant operated by such distiller: *Provided,* That the minimum monthly allocation of rye for each distilling plant operated by such distiller shall be 2,000 bushels.

Each distiller's total allocation of rye or any part of such allocation, computed in accordance with either of the above formulae, may, during the month for which such allocation is in effect, be used in any distilling plant operated by such distiller: *Provided,* That the total quantity of rye used by any distiller during any calendar month under the provisions of this subparagraph shall not exceed fifteen percent of the total quantity of grain or grain products used in the manufacture of distilled spirits for beverage purposes by such distiller during such month.

This amendment shall become effective at 12:01 a. m., e. s. t., February 6, 1947. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 141-1, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability or appeal.

PART 503—SUBSTANTIVE RULES

PROHIBITION OF TRANSACTIONS AND APPOINTMENT OF AGENTS AND DELEGATES

Section 503.5 (General Order No. 31) is amended to read as follows:

§ 503.5 *Prohibition of transactions, and appointment of agents and delegates.* (a) The following transactions are prohibited unless authorized by the Attorney General, or by an agent and delegate appointed by the Attorney General, or by a supervisor designated by the Attorney General or by one of his said agents and delegates:

(1) All transactions involving any property, control of which has been released by the Secretary of the Treasury, subject to the power and authority conferred upon the Attorney General; and

(2) All transactions by, or with, or on behalf of, or pursuant to the direction of, any business enterprise of which the Attorney General or his predecessor has undertaken supervision, or which has been vested, or assets of or interests in which have been vested, or involving any property in which such business enterprise has any interest, control of such property or business enterprise having been released by the Secretary of the Treasury.

(b) The Chief of the Division of Business Management and Control, the Chief of the Property Division, the Chief of the Division of Vesting, the Chief of the Division of Patent Administration, the Chief of the Division of Real Estate and Liquidation, the Manager of the Territorial and Insular Offices of the Office of Alien Property, the Manager of the New York Office of the Office of Alien Property, the Secretary, and the General Counsel of the Office of Alien Property, are hereby appointed and delegated, severally, to make and to revoke, on behalf of the Director, Office of Alien Property, acting for the Attorney General, authorizations of transactions with respect to any property or business enterprise subject to the authority and power conferred upon the Attorney General; and with respect to any such specific property or business enterprise subject to such authority and power, to appoint and designate supervisors for such specific property or business enterprise who shall have authority to make and to revoke on behalf of the Attorney General authorizations of transactions.

(c) This section shall be applicable unless otherwise provided by an order made by or on behalf of the Attorney General. (40 Stat. 411, 55 Stat. 839, 60 Stat. 50, 60 Stat. 925; 50 U. S. C. TITLE 36—PARKS AND FORESTS

Chapter II—Forest Service, Department of Agriculture

PART 261—TRESPASS

CIBOLA NATIONAL FOREST; FOR THE REMOVAL OF TRESPASSING HORSES, MULES, AND BURROS

Whereas a number of horses, mules, and burros are trespassing and grazing on the Little Rosa Allotment, in the San Mateo Ranger District of the Cibola National Forest in the State of New Mexico; and

Whereas these animals are consuming forage needed for permitted livestock, are causing extra expense to established permittees, and are injuring national-forest lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the Act of June 4, 1897 (30 Stat. 35, 16 U. S. C., 551), and the Act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472[1]), the following order for the occupancy, use, protection, and administration of land in the Little Rosa Allotment, San Mateo Ranger District, of the Cibola National Forest, located within Socorro County, New Mexico, is issued:

Temporary closure from livestock grazing.[1] (a) The following-described areas in the Cibola National Forest are hereby closed for the period February 10, 1947 to January 31, 1948, to the grazing of horses, mules, and burros, excepting those that are lawfully grazing on or crossing land in such allotments, pursuant to the regulations of the Secretary of Agriculture, or that are used in connection with operations authorized by such regulations, or that are used as riding, pack, or draft animals by persons traveling over such land:

Little Rosa Allotment, Red Rock District. Beginning at the SE corner of Sec. 31, T. 4 S., R. 5 W., thence following forest boundary fence, north 3 miles, west 5 miles, north 1 mile, west one-half mile, to NE corner of Monica Ranger Station pasture, then in a southerly direction up Monica Canyon to Beartrap saddle, a distance of 4 miles, thence in a southeasterly direction for approximately 5 miles up San Mateo divide via Mt. Withington in approximately NW¼ of Sec. 21, T. 5 S., R. 6 W., thence in a northeasterly direction down divide between Potato and Dry Canyons to bluffs on east side of Big Rosa Canyon, following along bluffs in the same general direction to east line of Goze patent in Big Rosa Canyon, then north to point of beginning, a distance of approximately 7 miles.

(b) Officers of the United States Forest Service are hereby authorized to dis-

[1] This affects tabulation contained in 36 CFR, § 261.50.

pose of, in the most humane manner, all horses, mules, and burros found trespassing or grazing in violation of this order.

(c) Public notice of intention to dispose of such horses, mules, and burros shall be given by posting notices in public places or advertising in a newspaper of general circulation in the locality in which the Cibola National Forest is located.

Done at Washington, D. C., this 6th day of February 1947. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

PART 4700—VETERANS' EMERGENCY HOUSING PROGRAM

[Veterans' Emergency Housing Program Order 1, Direction 3]

STANDARDS FOR REVIEWING APPLICATIONS FOR NON-HOUSING CONSTRUCTION

The following direction is issued pursuant to Veterans' Emergency Housing Program Order 1:

(a) *What this direction does.* This direction sets forth the standards for reviewing applications under Veterans' Housing Program Order 1 for permission to do non-housing construction restricted by the order. In general no construction will be approved unless it is essential and non-deferrable, or unless it is necessary to alleviate or forestall an extreme and unusual hardship, or unless it will not use scarce building materials needed for the Veterans' Emergency Housing Program.

(b) *Essentiality.* An application may be approved on the ground that the construction of the proposed project at the present time is essential if it falls into one of the categories listed in this paragraph. The applicant must show clearly that the proposed construction is necessary to accomplish the purpose.

(1) *Critical products.* Applications for the construction of facilities necessary to maintain or increase production of materials or products considered by the Civilian Production Administration to be in critically short supply may be granted where the shortage of facilities limits the production, and where the application is limited to the minimum construction needed. Applications from producers of industrially made houses or from producers of new materials approved by the Office of the Housing Expediter may be approved under this paragraph if the proposed construction is essential for the production of the houses or the new material. Applications for the construction of research laboratories or pilot plants may be approved where the proposed facility is necessary for research in connection with essential production.

(2) *Food and other agricultural products.* Applications for the construction of facilities necessary to maintain or increase the production or preservation of essential foods or food products may be approved. This includes applications for both on-farm and off-farm facilities. In addition, on-farm facilities necessary to maintain the production of a farm may be approved, whether or not the farm produces food. Farm machinery and implement service facilities will not be approved under this paragraph except where it is clearly shown that the lack of such facilities is seriously hampering the production of essential foods. Frozen food locker plants will not be approved under this paragraph except in rural areas where substantially all of the food to be stored will be produced by the persons storing it, and then only when there are not sufficient available facilities to prevent the wastage of food.

(3) *Public health and safety.* Applications for the construction of facilities providing essential services vitally necessary to the public health or safety, such as public utilities, fire stations, hospitals, and similar institutions may be approved where there is or will be a serious shortage of the proposed service and where the proposed construction is the minimum necessary to provide the locality with service equal to generally accepted minimum standards. Applications for the minimum alterations required by the local authorities to protect public health and safety may be approved.

(4) *Community facilities.* Applications for the construction of essential community facilities may be approved under this paragraph where it is clearly shown that the lack of such facilities constitutes a severe and unreasonable hardship on the community or area to be served. In general, applications for additional community facilities will not be approved under this paragraph unless there has recently been such a substantial growth in population that the existing facilities are clearly inadequate. Amusement or recreational facilities and office buildings will not generally be approved under this subparagraph.

(5) *Primary and secondary schools.* Applications for the construction of or additions or alterations to primary and secondary schools may be approved where the existing school facilities are inadequate or unsafe and where other similar schools within a reasonable distance cannot without undue crowding accommodate the students enrolled or to be enrolled in the immediate future.

(6) *Veterans' Educational Program.* Applications by universities, colleges and schools for the construction of educational facilities, such as classrooms, laboratories, libraries, shops, and related facilities, such as dining rooms and residential space, may be approved where the facilities are indispensable for the Veterans' Educational Program under the GI Bill of Rights at the institution and where the existing facilities of the institution are being fully used, and adequate temporary facilities cannot be obtained.

(7) *Maintenance and repairs.* Applications for authorization to make repairs and to do maintenance work restricted by VHP-1 may be approved where denial will make it impossible to continue use of a building or structure or where serious injury to a structure will result. Authorizations will only be granted for the minimum work necessary to keep structures in sound working condition. Alterations, expansions and modernizations will not be approved under this paragraph.

(8) *Veterans.* Applications for small commercial or industrial facilities of a reasonably essential nature may be approved, where (a) the applicant is a veteran of World War II, or a group of such veterans, or a partnership or corporation more than 50% of which is owned by such veterans and (b) the applicant will (i) own the proposed building or (ii) have a lease of 5 years or more on the entire proposed building or (iii) will have a lease of 2 years or more on the space to be altered under the authorization, and (c) the proposed building or the space to be altered will be used entirely for the applicant's business and (d) the veteran or veterans will devote all or substantially all of his or their time to, and be entitled to more than 50% of the profits of, the business to be conducted in the facility, and (e) the estimated total cost of construction (Item 5c of Form CPA-4423) does not exceed approximately $10,000. In general, amusement or recreational facilities will not be approved under this paragraph. Applications for the conversion of residential accommodations to office space or other commercial uses will not be generally approved under this paragraph. A veteran means any person who was in the Army, Navy, Marine Corps or Coast Guard on or after September 16, 1940, and was discharged or released under conditions other than dishonorable, after active service of 90 days or more, or by reason of an injury or disability incurred in service in line of duty.

(c) *Hardship cases.* Applications for construction necessary to alleviate or forestall hardship may be approved where denial would work a severe and unusual hardship. The hardship must be substantial and exceedingly severe, such as threatened bankruptcy or substantial impairment of means of livelihood. However, applications which involve the conversion of residential space to commercial purpose will rarely be approved on the ground of hardship.

These examples of "hardship" cases are not intended to be exclusive, but rather illustrative of the degree of hardship which must be shown before a case should be granted on a hardship basis.

(1) *Loss of former facilities.* An applicant who has lost or is about to lose his place of business as a result of eviction, condemnation or disaster may be authorized to replace the facilities, where it is impracticable for him to repair or restore the old facilities or to buy or rent any other place to conduct his business. Applications will not generally be approved on the basis of loss of facilities, where the loss occurred more than six months before the filing of the applications. The authorization will be generally limited to approximately the same amount of space which has been or will be lost. Evidence of the practical impossibility of continuing in the premises must be shown in the case of eviction or condemnation.

(2) *Commitments before imposition of restrictions.* An application by a person who made commitments for a proposed construction job at a time when no authorization was required for the job may be approved where a denial would result in a severe and unusual hardship to the applicant. The applicant must show clearly that postponement of construction will result in a severe and unusual hardship, and that any materials and equipment or any land he has purchased cannot be resold without severe loss. However, when the commitments were made at a time when authorization was needed for the job, the hardship will be considered to have been assumed voluntarily. Hardship of this sort will not generally be treated as a basis for approval of an application. The purchasing of equipment or materials after March 26, 1946, or the beginning of construction without authorization are examples of voluntarily assumed hardship which generally will not be taken into consideration.

(3) *Community hardship based on unemployment.* Applications for industrial facilities may be approved where the proposed facility will provide substantial new employment in an area where unemployment is continuing and excessive. Projects must be of such a nature that the benefits to the national or community welfare and economy will substantially outweigh the impact on the Veterans' Emergency Housing Program. In addition, applications for partial construction, such as foundations and the erection of structural steel or other work having a negligible impact on the Veterans' Emergency Housing Program, may be ap-

proved in an area where there is excessive unemployment in the heavy construction trades required for the job.

(d) *Impact on Veterans' housing.* (1) The purpose of VHP–1 is to channel scarce building materials into the Veterans' Emergency Housing Program. The materials listed in Schedule A to PR–33 are generally in short supply for the housing program, and use of those materials will generally impede the housing program. Some of the items listed in Schedule A are normally only sold locally, such as brick and other masonry products. In a particular locality, there may be a relatively ample supply of such a product. The use of a product in nonresidential construction under these conditions would have little or no effect on the housing program. On the other hand, the use of a material which is usually shipped considerable distances even though in a particular area there appears to be a substantial supply, would generally be considered to impede the housing program. The fact that an applicant already has materials on hand will not generally be considered to mean that their use will not constitute an impact on the housing program.

In measuring the impact of a project on the housing program, consideration should be given to the scarce building materials to be used in related work covered by the authorization, such as temporary construction buildings, fences, and the like (See Int. 5 to VHP–1).

(2) An application should be approved if the proposed work covered by the application requires no scarce building materials.

(3) Projects which require negligible quantities of scarce building materials may be approved even though they do not completely qualify under paragraph (b) or paragraph (c). However, there are several situations where applications will not generally be approved under this paragraph if they require even small amounts of critical building materials.

(i) An application for a project which is clearly nonessential and where approval would be contrary to the public interest.

(ii) An application which would not result in a usable structure, such as an application for foundation work or the erection of structural steel. Partial projects of this sort will be approved only to relieve unemployment in the heavy construction trades under paragraph (c) (3).

(iii) An application which would result in the elimination of residential accommodations, such as the conversion of apartments to offices or stores.

(iv) An application for a project where it is clear that the employment of men in the particular construction trades which would be required for the project would definitely and substantially interfere with the construction of approved veterans' housing projects. It will not generally be assumed, however, that nonhousing projects will interfere with veterans' housing by reason of their requirements for labor, but where interference appears probable, contractors and union representatives will be consulted to determine whether the necessary workers are available from other areas.

In determining whether the quantity of a scarce building material required for a project is negligible, the scarcity of the material in the area and the demand for the material in housing construction in the area will be taken into consideration.

Issued this 11th day of February 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1085]

E. J. M'ILMURRAY

E. J. McIlmurray, of Hale, Michigan, on or about October 15, 1946, without authorization of the Civilian Production Administration, began and thereafter carried on construction of a structure located on Highway M–65, Hale, Michigan, for use as a salesroom, garage and service station, the estimated cost of which was in excess of $1,000. The begining and carrying on of this construction without authorization constituted a violation of Veterans' Housing Program Order 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1085 *Suspension Order No. S–1085.* (a) Neither E. J. McIlmurray, his successors or assigns, nor any other person shall do any construction on the structure above referred to on Highway M–65, Hale, Michigan, including putting up, completing or altering the structure, unless hereafter authorized in writing by the Civilian Production Administration.

(b) E. J. McIlmurray shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance or authorization to carry on construction.

(3) Nothing contained in this order shall be deemed to relieve E. J. McIlmurray, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 11th day of February 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1090]

BERTRAM DODELIN

Bertram Dodelin, on or about August 16, 1946, began the construction of a 40' x 60' one story, cinder block combination commercial and residential structure on his premises located at the northeast corner of Berlin and Laurel Streets, Lindenwold, New Jersey, at an estimated cost of $5,000, without authorization of either the Civilian Production Administration, or the Federal Housing Administration. The carrying on of said construction, without authorization, after being informed of the restrictions of Veterans' Housing Program Order No. 1, constituted a grossly negligent violation of that order. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1090 *Suspension Order No. S–1090.* (a) Neither Bertram Dodelin, his successors or assigns, nor any other person shall do any construction on the premises located at the northeast corner of Berlin and Laurel Streets, Lindenwold, New Jersey, including the putting up, completing or altering of any structure located thereon, unless specifically authorized in writing by the Civilian Production Administration, or any other duly authorized Governmental agency.

(b) Bertram Dodelin shall refer to this order in any application or appeal which he may file with the Civilian Production Administration, or any other duly authorized Governmental agency for priorities assistance, or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Bertram Dodelin from any restriction, prohibition, or provision contained in any other order of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 11th day of February 1947.

Chapter XXIII—War Assets Administration

[Reg. 21]

PART 8321—PRICING AND DISTRIBUTION POLICY FOR PRODUCTION MATERIALS AND PRODUCTION EQUIPMENT

War Assets Administration Regulation 21, June 18, 1946, entitled "Pricing and Distribution Policy for Production Materials and Production Equipment", as amended through October 11, 1946 (11 F. R. 7134, 9080, 11381, 12017), is hereby revised and amended as hereinafter set forth.

Sec.
8321.1 Definitions.
8321.2 Scope.
8321.3 Basic policy.
8321.4 Methods of sale.
8321.5 Prices and pricing methods.
8321.6 Maximum and minimum quantities.
8321.7 Precedence for small purchasers.
8321.8 Classes of purchasers.
8321.9 Exclusive sales to one purchaser.
8321.10 Competitive bidding.
8321.11 Disposals of production equipment in short supply by owning agencies.
8321.12 Disposals of production equipment in short supply by disposal agencies.
8321.13 Disposals of integrated plants.
8321.14 Leases and donations of production equipment in short supply.
8321.15 Interpretation of fractions and approval by Administrator.

Exhibit A: List of production equipment in short supply.

AUTHORITY: §§ 8321.1 to 8321.15, inclusive, issued under Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Supp. 1611), Public Law 181, 79th Congress (59 Stat. 533; 50 U. S. C. App. Supp. 1614a, 1614b); and Executive Order 9689 (11 F. R. 1265).

§ 8321.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Production materials" as used in this part means those raw or semi-finished materials which are themselves generally employed in the fabrication of end products or incorporated therein. Such materials customarily move from a manufacturer to an industrial user or distributor whose function combines that of a wholesaler and retailer. "Production materials" does not include finished products which may be incorporated in end products but customarily move to the consumer through wholesalers and retailers. These latter products are governed by the pricing and distribution policy provided for in Part 8322.[1]

(2) "Production equipment" means machine tools, plant equipment and attachments thereto, and similar types of personal property used for, or in conjunction with, production facilities, except land and buildings, whether located in Government-owned or privately owned plants or property.

(3) "Facilities contract" means a lease, rental agreement, or other contract or contract provision, specifically governing the acquisition, use or disposition of Government-owned machinery, tools, building installations, or other property furnished to or acquired by a war contractor for any war production purpose except incorporation in end products.

(4) "Small business" means any commercial, industrial, or manufacturing enterprise or group of enterprises, under common ownership and control, which does not on the date of acquisition of any property pursuant to this part have more than five hundred (500) employees, or any such enterprise which by reason of its relative size and position in a particular industry is determined by the War Assets Administration to be a small business. The War Assets Administration may in its discretion apply either or both criteria in determining whether or not the enterprise is a small busness.

(5) "Integrated plant" means land, buildings, and production equipment capable of operation as a complete unit.

§ 8321.2 *Scope.* This part shall apply to disposals of production materials and production equipment by disposal agencies in the continental United States, its territories and possessions, except disposals to priority claimants as provided in Part 8302[2] and nonprofit institutions and instrumentalities as provided in Part 8314.[3] Sections 8321.11, 8321.14, and 8321.15 shall apply to owning agencies when disposing of property listed in Exhibit A of this part as contractor inventory, pursuant to other applicable regulations of the Administrator.

§ 8321.3 *Basic policy.* The Congressional policy announced by the Surplus Property Act of 1944 is to discourage monopolistic practices and to foster wide distribution of surplus commodities to consumers at fair prices, utilizing normal channels of trade in such a manner as to strengthen and preserve the competitive position of small business concerns. This part is intended to implement that policy by providing a method for the pricing and distribution of production materials and production equipment as defined herein, and in the case of production equipment in short supply, to limit effectively inequitable distribution which may occur by reason of advantages now enjoyed by war contractors in possession of such production equipment under facilities contracts containing options or other purchase rights by which such contractors may acquire title to production equipment on specified terms or on terms to be negotiated, including the right of first refusal as well as the right to acquire production equipment in short supply as contractor inventory.

§ 8321.4 *Methods of sale*—(a) *Fixed prices.* Generally, fixed price sales shall be used in preference to all other methods. The fixed price method of sale shall be used when property is in unused condition, is available in inventory in large quantities, and is either a standard commercial item or is readily marketable; and may be used whenever property, either used or unused, can best be moved by this method. Production equipment which is subject to the pricing provisions provided for in Part 8313[4] shall be sold only pursuant to the provisions of such part.

(b) *Competitive bids.* The competitive bid method of sale may be used where the property is a nonstandard commercial item, or is of unknown marketability, or is available only in mixed lots or small quantities, or when rapid clearance of a site is necessary. In addition, except as to property subject to the pricing provisions of Part 8313, the competitive bid method may be used in disposing of property which remains in inventory after a full and adequate offering has been made at fixed prices to all classes of purchasers, and in the areas in which such property is normally purchased. The competitive bid method includes the use of sealed bids, open bids, and public auctions.

(c) *Negotiated sale.* Negotiated sales may be used by the disposal agency for any one or more reasons set forth in the subparagraphs hereunder: *Provided, however,* That whenever negotiated sales are used, the disposal agency shall prepare and file in writing a full justification of the desirability or necessity for using this method of sale and such sales shall not be consummated except with the approval of a reviewing authority. Such sales may be made:

(1) When the proposed purchasers can perform certain functions necessary to make the property salable, such as repairing, rehabilitating, sorting, grading, or testing, more economically and effectively than the disposal agency or others;

(2) When the property is such a hazard to health and property as to require immediate disposition;

(3) When the property will spoil or deteriorate so rapidly as to jeopardize any disposal unless immediately sold;

(4) When the property is to be sold to a foreign government by or at the request of the State Department;

(5) When the property remains in inventory after a full and adequate offering has been made by competitive bid as provided in § 8321.10 of this part.

(6) When the disposal agency makes a written finding that the property is (i) of so special a nature or manufacture or limited use that only one or a few purchasers would be interested in the acquisition and (ii) that an offering of such property by competitive bidding would prejudice the monetary return to the Government if all such bids were subsequently rejected.

§ 8321.5 *Prices and pricing methods*—(a) *General.* In fixed price sales, prices shall be established as close to the current market price as practicable, recognizing that they must be attractive enough to move the property in volume and compensate for any unusual features of the property which may add to the difficulty of reselling. Methods of distributing both production materials and production equipment vary in accordance with the nature of the property and the established commercial practices applicable to different types of property. As a consequence, pricing methods must likewise conform to such trade practices and distribution methods.

(b) *Discounts.* (1) Discounts may be granted on the disposal of surplus property only (i) when different price levels are established in order to compensate for the services rendered in the distribution of property to the various levels of trade; or (ii) when a discount is granted pursuant to the provisions of Part 8302 to compensate the Treasury Department for performing distributive services for a disposal agency; or (iii) when a discount is granted pursuant to the provisions of Part 8314 to reflect the benefit which has accrued or may accrue to the United States from the use of surplus property by educational or public-health institutions or instrumentalities. No other discounts shall be given, and there shall be no graded discounts within the same class of purchasers. Discounts may not be granted for volume purchases in any case for any item.

(2) In order to qualify for a price discount in the sale of production equipment (other than machines subject to the pricing provisions of Exhibit D of Part 8313) as compensation for the distributive function to be performed, each order from a distributor shall bear a certificate signed by such distributor in the following manner:

It is hereby certified that the distributor is and expects to continue to be a distributor of production materials or production equipment similar to those specified on this order to industrial users and other independent purchasers, and that in consideration of the receipt of the distributor's discount on the purchase of surplus property from the United States, in accordance with the War Assets Administrator's price and distribution policy, the purchaser agrees to use his best efforts to sell such property to industrial users and small independent purchasers.

[1] Reg. 22 (11 F. R. 14106).
[2] Reg. 2 (11 F. R. 14267, 12 F. R. 152).
[3] Reg. 14 (11 F. R. 11505; 12 F. R. 257).
[4] Reg. 13 (12 F. R. 663).

(3) In order to qualify for a price discount in the sale of production equipment described in Exhibit D of Part 8313 and subject to the pricing provisions of such part, purchasers of such equipment must likewise engage in a distributive function in effecting a resale of such equipment to users. Essentially, such purchasers may be classified as "discount dealers" as distinguished from "commission dealers" for the purpose of qualifying under this subparagraph, and further, must acquire title to such production equipment as a discount dealer for the purpose of resale as distinguished from use. Rebuilders, manufacturers, builders, exporters, dealers, or other distributors shall, as a condition prerequisite to classification as a "discount dealer" and a price discount hereunder execute a certificate signed by such discount dealer which certificate shall appear in each order by such discount dealer in the following form:

It is hereby certified that the purchaser is, and expects to continue to be, a dealer in standard general purpose machinery of the type set forth, and subject to, the pricing provisions in Exhibit D of War Assets Administration Regulation 13; is now engaged in the business of buying and selling such standard general purpose machinery to users and is acquiring the property listed on this purchase order for the purpose of resale either with or without rebuilding, by export or otherwise, but in any case is not acquiring this property for use as distinguished from resale. In consideration of the dealer's discount on the purchase of surplus property from the United States, in accordance with the War Assets Administrator's price and distribution policy, the purchaser agrees to use his best efforts to effect the resale of such property to users.

(c) *Production materials.* (1) In general, sales of production materials are governed by fixed prices both to ultimate users and to distributors. In the case of most such commodities, the price to the distributor and the user is the same for a specified minimum quantity at which the property may be economically disposed. Consequently, such commodities will be disposed of at one price for one minimum quantity, and only one level of trade shall be applicable. (Examples: commodities which are disposed of in bulk, such as toluene, gasoline, and sulfuric acid.)

(2) Certain production materials follow a trade practice whereby the manufacturer sells in a minimum quantity to both the distributor and the user, allowing a discount to the distributor. In such cases a similar discount will be allowed the distributor by the disposal agency. (Example: steel pipe.)

(3) It is recognized that packaging may be a determinant as to whether any particular material is adaptable for sale to ultimate users through the normal channels of trade including wholesalers and retailers, or for sale to industrial users and distributors. For example, turpentine in tank cars is customarily sold to industrial users and distributors while the same material in five (5) gallon containers is customarily sold through wholesalers and retailers. The disposal agency shall determine, in accordance with customary trade practice, and its packaging, whether any particular material is to be disposed of as a production material pursuant to the provisions of this part or as consumer goods pursuant to Part 8322.

(d) *Production equipment.* (1) Sales of production equipment are likewise governed by fixed prices, a substantial portion being subject to the pricing provisions provided for in Part 8313.

(2) Production equipment which is not subject to the pricing provisions provided for in Part 8313 is governed by fixed prices to ultimate users or distributors as follows:

(i) Much production equipment generally moves from the manufacturer to an industrial user without the intermediate distributive function of a distributor. Such equipment shall be disposed of at a single price for one minimum quantity and without a discount. (Example: large industrial equipment such as furnaces, mills.)

(ii) Certain production equipment is sold by manufacturers in accordance with a trade practice to industrial users and distributors, allowing a discount to the distributor.

(iii) Finally, some industrial equipment is sold by manufacturers only through the regular and established channels of trade. As a consequence, discounts will be permitted to each level of trade for the distributive function performed. (Example: small industrial tools.)

§ 8321.6 *Maximum and minimum quantities.*—(a) *Maximum quantities.* (1) The maximum quantity which should be offered by the disposal agency to any one purchaser should to the extent feasible be a quantity which will assure wide distribution of the available property. Such maximum quantities shall be established in all cases where it reasonably may be expected that the total demand will exceed the supply offered for sale within the area in which the offering is made.

(2) In fixed price sales, whenever the available quantity of surplus property is insufficient to satisfy the requirements of eligible purchasers, all purchase orders submitted by affiliated persons, firms, or corporations, or by groups thereof under common ownership or control for the same type of property in a single sales offering shall be treated as a single purchase order.

(b) *Minimum quantities.* The minimum quantity, i. e., the minimum lot size, which should be offered for sale by the disposal agency should to the extent feasible be a quantity which will enable small independent purchasers to participate. Such minimum quantities may be larger when (1) large quantities of merchandise are packaged in military cartons or in bulk containers and it would be uneconomical to repackage the property to provide for sales in smaller quantities, or (2) it is necessary to consolidate several packages in order to assure an equitable or appropriate distribution of the property to each purchaser.

§ 8321.7 *Precedence for small purchasers.* In fixed price sales, when the total supply of a commodity is less than the amount ordered, consideration shall be given to the needs of other purchasers before large quantities are sold to one or a few purchasers. Precedence shall be given to orders received from small purchasers and from distributors who serve small independent purchasers and who furnish the certificate required by § 8321.5.

§ 8321.8 *Classes of purchasers.* The following conditions shall be observed for the classes of purchasers specified below:

(a) Commercial exporters, foreign governments acting through duly accredited agents in the United States, and foreign commercial firms acting through their duly accredited agents in this country shall be permitted to participate in sales of production materials and production equipment.

(b) Purchasing agents (including resident buyers, commission men, brokers, and other agents) who perform the purchasing function for the principals they represent, shall be permitted to participate in disposals of surplus property. Sales made through these agents shall be made only in the name of the principal they represent and in fixed price sales at the level of distribution of the principal. Such agents shall be required to present a written authorization from the principal for each purchase.

(c) All purchasers who may participate in fixed price sales shall also be eligible to acquire property offered by any other method.

(d) Ultimate users (persons who buy for their own personal use) are not ordinarily expected to purchase surplus property directly from the disposal agency except when such property is offered in suitable lots or units under circumstances which will not complicate the work of disposal; or where sales to ultimate users, for example, through rural farm auctions, would be more effective than offerings by other methods.

§ 8321.9 *Exclusive sales to one purchaser.* It is contrary to general policy to sell any item of surplus property exclusively to one purchaser (including the original vendor or manufacturer). Exceptions may be taken to this rule only when:

(a) It is necessary in order to protect public health or public safety, or

(b) The exclusive purchaser can perform certain functions necessary to make the property salable, such as repairing, rehabilitating, sorting, grading, or testing more economically and effectively than the disposal agency or others, or

(c) The disposal agency makes a written finding that the property is (i) of so special a nature or manufacture or limited use that only one or a few purchasers would be interested in the acquisition and (ii) that an offering of such property by competitive bidding would prejudice the monetary return to the Government if all such bids were subsequently rejected.

§ 8321.10 *Competitive bidding.* (a) Whenever the competitive bid method of sale is employed, an upset price may be established in appropriate cases representing the tentative estimate of the disposal agency as to what may be the fair value of the property. The amount of the upset price shall not be disclosed in the offering nor in any other way to any person not in the employ of the disposal agency. If all or some bids received are lower than such upset price, the disposal agency may reject the bids below the upset price, or, with the approval of the reviewing authority may accept them. The unsold balance may be re-offered with the same or a lower upset price.

(b) No certificate or other finding shall be required that the property offered for sale by competitive bidding is scrap or salvage. No scrap warranty shall be required of the purchaser except in cases where the disposal agency finds that the property is dangerous to public health or safety.

(c) Whenever property which has not previously been offered for sale to priority claimants at fixed prices is offered for sale by competitive bidding, a reserve of such property shall be established to meet the anticipated requirements of priority claimants. The competitive bid offering shall be made simultaneously to priority claimants and to non-priority purchasers, and the lowest acceptable bid by such non-priority purchasers shall be regarded as fair value for priority claimants. Any property so reserved which remains after filling the legitimate requirements of priority claimants shall be used to fill the requirements of acceptable non-priority bidders.

§ 8321.11 *Disposals of production equipment in short supply by owning agencies.* Production equipment which the Administrator has determined to be in short supply is listed in Exhibit A of this part. Such exhibit may be amended from time to time to reflect changing circumstances in the supply of production equipment. To assure equitable distribution of this type of property, disposal thereof shall be made only pursuant to the conditions prescribed herein unless approval for deviation from these conditions is secured pursuant to § 8321.15 of this part.

(a) *Sales to contractors in possession under facilities contracts.* Owning agencies empowered to dispose of plant equipment as contractor inventory to contractors in possession pursuant to the provisions of Part 8306,[5] shall make such disposals only in accord with the following:

(1) No item of production equipment in short supply may be disposed of to a contractor in possession unless at the time of sale, or previously thereto, such contractor has released and waived any and all options or other purchase rights to any and all production equipment, including any rights of first refusal provided for by the particular facilities contract.

(2) Subject only to the provisions of paragraph (a) (3) of this section, a contractor may acquire no more than twenty-five (25) per cent in number of each item of production equipment in short supply listed in Exhibit A of this part. In computing such allowance, the base upon which such percentage shall be computed shall include all the short supply items which at the time of sale are owned by the Government under the particular facilities contract, and which are located in the war contractor's plant.

(3) A contractor in possession who is engaged in a small business as defined herein and who desires to acquire for his own use and not for resale production equipment from an owning agency may acquire the production equipment covered by the particular facilities contract without limitations as to short supply items, *Provided*, That the total cost to the Government of the production equipment covered by that particular facilities contract does not exceed $300,000.

(b) *Retention as contractor inventory.* In those cases where contractors, by pretermination agreements or otherwise, have indicated an intention to retain any production equipment pursuant to the provisions of Part 8309[6] and listed in Exhibit A of this part, then in such event, owning agencies shall be governed by the provisions of paragraph (a) of this section notwithstanding that options or other purchase rights do not exist, when such retention is for the use of such equipment by the contractor: *Provided, however*, That retentions for resale by the contractor of any item of production equipment in short supply is not authorized hereunder, and instead such property shall be declared surplus to the appropriate disposal agency pursuant to the applicable regulations of the Administrator.

§ 8321.12 *Disposals of production equipment in short supply by disposal agencies.* (a) In those cases where a contractor seeks to acquire from the disposal agency only a portion of the production equipment acquired by the Government under a facilities contract which provides for existing options or other purchase rights in the contract, then in such event, and in return for a full release and waiver of any and all options or other purchase rights to any and all production equipment, including the right of first refusal as to all the production equipment covered by such facilities contract, the disposal agency may dispose of not more than twenty-five (25) per cent in number of each item of production equipment in short supply as listed in Exhibit A of this part and which are owned by the Government at the time of sale under the particular facilities contract.

(b) In the case of purchasers or lessees of land and buildings being disposed of as industrial or transportation real property pursuant to the provisions of Part 8310,[7] or as airport property pursuant to Part 8316,[8] or as marine industrial real property pursuant to the provisions of Part 8320,[9] and who desire to acquire only a portion of any production equipment located on the premises or used in the operation of any plant situated on such premises, the disposal agency may dispose of production equipment in short supply as listed in Exhibit A of this part and situated on such premises only upon a written representation from the purchaser that he intends to use such equipment in connection with the productive operation of the land and buildings and that he is not purchasing the production equipment in short supply for the purpose of reselling it, directly or indirectly, at a profit.

§ 8321.13 *Disposals of integrated plants.* Whenever an integrated plant is disposed of pursuant to the provisions of Part 8310 or Part 8320, such disposal may include all items of production equipment in short supply which are a part of the integrated plant and located therein, *Provided*, That the purchaser makes a representation in writing that he intends to use such equipment in an integrated plan of operation and that he is not acquiring the production equipment for the purpose of selling it, directly or indirectly, at a profit.

§ 8321.14 *Leases and donations of production equipment in short supply.* Surplus production equipment in short supply as listed in Exhibit A of this part may not be leased by the disposal agency or donated by owning and disposal agencies under the Surplus Property Act, or any other law, for other than instructional purposes without the approval of the Administrator or such other person as he may designate.

§ 8321.15 *Interpretation of fractions and approval of Administrator.* (a) When determining the number of items of production equipment in short supply hereunder by application of a fixed percentage, fractions shall be disregarded and not included in the amount authorized for any purchaser.

(b) No deviation from the fractional rule provided for in paragraph (a) of this section, nor from the twenty-five (25) per cent limitation prescribed by § 8321.11 (a) (2) and § 8321.12 (a) nor from any other limitation prescribed by this part shall be authorized by the owning or disposal agencies unless the approval of the Administrator or such other person as he may designate is first obtained.

This revision of this part shall become effective February 6, 1947.

Standard commodity classification	*Description*
(The Standard Commodity Classification is more definitive than the description in those cases where the classification numbers are inclusive. In such cases each inclusive designation is to be considered as an Exhibit A item. Where only one classification is prescribed above as distinguished from an inclusive group, the description is controlling. References are Volume I, May 1943, Standard Commodity Classification.)	
MAJOR GROUP 25—FABRICATED METAL BASIC PRODUCTS	
25-3200 through 25-3290	Landpower boilers.
MAJOR GROUP 31—GENERAL PURPOSE INDUSTRIAL MACHINERY AND EQUIPMENT	
31-4600 through 31-4690	Overhead conveyors.
31-5100 through 31-5190	Cranes, railroad.
31-5200 through 31-5290	Overhead traveling cranes (except gantry and monorail.)
MAJOR GROUP 32—ELECTRICAL MACHINERY AND APPARATUS	
32-1311	Electric motors, fractional horsepower (less than one horsepower) A. C. only.
32-1321	Electric motors (1 to 5 horsepower, inclusive) A. C. only.
32-2210	Transformers, power and distribution, all types, 1 to 25 KVA inclusive.
MAJOR GROUP 33—SPECIAL INDUSTRY MACHINERY	
33-2500 through 33-2529	Sewing machinery, industrial.
33-3100 through 33-3190	Pulp mill machinery.
33-3200 through 33-3290	Paper mill machinery.
33-3300 through 33-3390	Paper converting machinery.
33-4000 through 33-4900	Printing trade machinery and equipment. (Standard general purpose only.)
33-5100 through 33-5190	Rubber processing machinery.
33-5200 through 33-5299	Rubber fabricating machinery.
33-5300	Rubber reclaiming machinery.
33-6000 through 33-6990	Woodworking machinery. (Standard general purpose only.)
33-7200	Die casting machines. (Standard general purpose only.)

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Federal Security Agency

PART 10—GRANTS FOR SURVEY, PLANNING AND CONSTRUCTION OF HOSPITALS

Sections 10.1 to 10.79, inclusive, of this part contain Public Health Service Regulations issued pursuant to the provisions of section 622 of the Public Health Service Act as amended by the Hospital Survey and Construction Act (Public Law 725, 79th Congress) approved August 13, 1946, which added to the act a new Title VI entitled "Construction of Hospitals." Section 622 requires that within six months after enactment of the new title, the Surgeon General shall promulgate regulations prescribing general policies to be followed in setting up and administering State plans for construction of public and other nonprofit hospitals. Regulations issued under this section are subject to the approval of the Federal Hospital Council established by the act and of the Administrator. These regulations were approved by the Federal Hospital Council at a meeting held on November 14, 1946.

AUTHORITY: §§ 10.1 to 10.79, inclusive, issued under sec. 622, Pub. Law 725, 79th Cong., 60 Stat. 1042; 42 U. S. C. Supp. 291e.

SUBPART A—DEFINITIONS

§ 10.1 *Definitions.* Except as otherwise stated, the following terms shall have the following meanings when used in the regulations in this part:

(a) *Area.* A logical hospital service area, taking into account such factors as population distribution, natural geographic boundaries, transportation and trade patterns, all parts of which are reasonably accessible to existing or proposed hospital facilities and which has been designated by the State Agency as a base, intermediate, or rural area. Nothing in the regulations in this part shall preclude the formation of an interstate area with the mutual agreement of the States concerned.

(b) *Base area.* Any area which is so designated by the State Agency and has the following characteristics: (1) Irrespective of the population of the area, it shall contain a teaching hospital of a medical school whose undergraduate medical program is approved by the American Medical Association's Council on Medical Education and Hospitals. This hospital shall be suitable for use as a base hospital in a coordinated hospital system within the State; or (2) The area shall contain a total population of at least 100,000 and at least one general hospital which has a complement of 200 or more beds for general use. This hospital shall be registered with the American Medical Association and approved by the American College of Surgeons. Approved residencies in two or more specialties, as defined by the American Medical Association, and approved internships shall be provided by this hospital. The hospital shall be suitable for use as a base hospital in a coordinated hospital system within the State.

(c) *Intermediate area.* Any area so designated by the State Agency which: (1) Has a total population of at least 25,000 and (2) contains, or will contain on completion of the hospital construction program under the State plan, at least one general hospital which has a complement of 100 or more beds and which would be suitable for use as a district hospital in a coordinated hospital system within the State.

(d) *Rural area.* Any area so designated by the State Agency which constitutes a unit, no part of which has been included in a base or intermediate area.

(e) *Coordinated hospital system.* An interrelated network of general hospitals throughout a State in which one or more base hospitals provide district hospitals and the latter in turn provide rural and other small hospitals with such services relative to diagnosis, treatment, medical research and teaching as cannot be provided by the smaller hospitals individually.

(f) *Hospital.* Public health centers and general, tuberculosis, mental, chronic disease, and other types of hospitals, and related facilities, such as laboratories, out-patient departments, nurses' home and training facilities, and central service facilities operated in connection with hospitals, but not institutions furnishing primarily domiciliary care. The term "hospital," except as applied generally to include public health centers, shall be restricted to institutions providing community service for in-patient medical or surgical care of the sick or injured; this includes obstetrics. It shall exclude Federal hospitals and institutions found to constitute a public hazard.

(g) *Allied special hospital.* Cardiac, eye-ear-nose-throat, isolation, maternity, children's orthopedic, and skin and cancer, as well as other hospitals providing similar specialized types of care commonly given in general hospitals. The term excludes mental, tuberculosis, and chronic disease hospitals.

(h) *Chronic disease hospital.* A hospital, the primary purpose of which is medical treatment of chronic illness, including the degenerative diseases, and which furnishes hospital treatment and care, administered by or under the direction of persons licensed to practice medicine in the State. The term includes such convalescent homes as meet the foregoing qualifications. It excludes tuberculosis and mental hospitals, nursing homes, and also institutions, the primary purpose of which is domiciliary care.

(i) *General hospital.* Any hospital for in-patient medical or surgical care of acute illness or injury and for obstetrics, of which not more than 50% of the total patient days during the year are customarily assignable to the following categories of cases: Chronic, convalescent and rest, drug and alcoholic, epileptic, mentally deficient, mental, nervous and mental, and tuberculosis.

(j) *Mental hospital.* A hospital for the diagnosis and treatment of nervous and mental illness but excluding institutions for the feeble-minded and epileptics.

(k) *Nonprofit hospital.* Any hospital owned and operated by a corporation or association, no part of the net earnings of which is applied, or may lawfully be applied, to the benefit of any private shareholder or individual.

(l) *Psychopathic hospital.* A type of mental hospital where patients may receive intensive treatment and where only a minimum of continued treatment facilities will be afforded.

(m) *Tuberculosis hospital.* A hospital for the diagnosis and treatment of tuberculosis, excluding preventoria.

(n) *Hospital bed.* A bed for an adult or child patient. Bassinets for the newborn in a nursery, beds in labor rooms and in health centers, and other beds used exclusively for emergency purposes are not included in this definition.

(o) *Population.* In computing the population of the State or any area thereof for purposes of the regulations in this part, the State Agency shall use the latest figures of civilian population certified by the Federal Department of Commerce with such adjustments as may be necessary to reflect changing local conditions. Such adjustments shall not result in any increase in the total population of the State over the figures certified by the Department of Commerce.

(p) *Public health center.* A publicly owned facility utilized by a local health unit for the provision of public health services, including related facilities such as laboratories, clinics, and administrative offices operated in connection with public health centers.

(q) *Local health unit.* A single county, city, county-city, or local district health unit, as well as a State health district unit where the primary function of the State district unit is the direct provision of public health services to the population under its jurisdiction.

(r) *Public health services.* Services provided through organized community effort in the endeavor to prevent disease, prolong life, and maintain a high degree of physical and mental efficiency. In addition to the services which the community already provides as a matter of practice, the term shall include such additional services as the community from time to time may deem it desirable to provide.

(s) *State.* The 48 States, Alaska, Hawaii, Puerto Rico, and the District of Columbia.

(t) *State agency.* As the context may require, either the agency designated by the State pursuant to section 612 (a) (1) of the Federal Hospital Survey and Construction Act or the agency designated to administer the State plan pursuant to section 623 (a) (1) of the Federal Act.

(u) *Surgeon General.* The Surgeon General of the United States Public Health Service.

(v) *Federal Act.* Title VI of the Public Health Service Act, as amended by the Hospital Survey and Construction Act (Public Law 725, 79th Congress, 60 Stat. 1042; 42 U. S. C. Supp. 291 (e)), approved August 13, 1946.

SUBPART B—DISTRIBUTION OF GENERAL HOSPITAL BEDS

§ 10.11 *Plan of distribution.* It is the intention of the regulations in this part to provide for distribution of general hospital beds among the different areas of the State so as to provide comprehensive and adequate types of hospital services to all sizes of communities. In accordance with this intent the general methods by which general hospital beds shall be distributed among base areas, intermediate areas, and rural areas, shall be as provided for in §§ 10.12 to 10.14, inclusive.

§ 10.12 *Maximum State allowance.* The number of general hospital beds required to provide adequate hospital services to the people residing in any State shall be:

(a) In States having 12 or more persons per square mile, 4.5 beds per thousand population;

(b) In States having less than 12 and more than 6 persons per square mile, 5 beds per thousand population; and

(c) In States having 6 persons or less per square mile, 5.5 beds per thousand population.

If in any area (base, intermediate, or rural), as determined by the State

agency, there are more beds than required by these standards, such excess may be eliminated in calculating the maximum allowance for the State as a whole.

§ 10.13 *Standards for construction program.* The construction program under the State plan shall provide for general hospital beds, existing and proposed, in each area within the State in accordance with the following standards:

(a) In States having 12 or more persons per square mile, 2.5 beds per thousand population in rural areas, 4.0 beds per thousand in intermediate areas, and 4.5 beds per thousand in base areas;

(b) In States having less than 12 but more than 6 persons per square mile, 3 beds per thousand population in rural areas, 4.6 beds per thousand in intermediate areas, and 5 beds per thousand in base areas; and

(c) In States having 6 or less persons per square mile, 3.5 beds per thousand population in rural areas, 5.0 beds per thousand in intermediate areas, and 5.5 beds per thousand in base areas.

In addition, the State Agency shall subtract from the total number of beds permitted for each area under § 10.12 the total number of beds permitted for each area under this section or the number of beds in existence, whichever is greater. The total number of beds so determined for all areas shall be distributed at the discretion of the State Agency and without regard to standards specified in §§ 10.12 and 10.13. This shall be done in such a manner as to meet the special needs of any area and facilitate the coordination of hospital services. In allocating beds under this section, the State Agency shall give special consideration to hospitals serving persons in rural areas and communities with relatively small financial resources.

§ 10.14 *Beds classified as general hospital beds.* The count of existing general hospital beds shall include the beds in the hospitals of this category as defined above, and also: (a) Beds in allied special hospitals, and (b) beds in any tuberculosis, mental, or chronic disease hospital which are specifically assigned for the care of general patients, except where the beds so assigned in any institution number less than ten. Beds for persons hospitalized for the primary condition of tuberculosis, mental, or chronic disease shall be excluded.

SUBPART C—DISTRIBUTION OF TUBERCULOSIS, MENTAL, AND CHRONIC DISEASE HOSPITAL BEDS

§ 10.21 *Maximum State allowance.* The number of beds required to provide adequate hospital services for tuberculous patients, mental patients, and chronic disease patients in any State shall be:

(a) For tuberculous patients, 2.5 times the average annual deaths from tuberculosis in the State over the 5 year period from 1940 to 1944 inclusive;

(b) For mental patients, 5 per thousand population; and

(c) For chronic disease patients, 2 per thousand population.

The count of existing tuberculosis, mental, and chronic disease hospital beds shall include the beds in the hospitals of these respective categories as defined above, and also beds in any general hospital which are specifically assigned for the care of tuberculous, mental and chronic disease patients respectively, except where the beds so assigned in any institution number less than 10 in any category.

§ 10.22 *Distribution.* Whenever practicable, tuberculosis hospitals receiving grants under the Federal Act shall be built in centers of population and in proximity to general hospitals.

Whenever practicable, mental hospitals receiving grants under the Federal Act shall be located in centers of population and in proximity to general hospitals.

Whenever practicable, chronic disease hospitals shall be built in centers of population and in proximity to general hospitals.

SUBPART D—DISTRIBUTION OF PUBLIC HEALTH CENTERS

§ 10.31 *Maximum State allowance.* The number of public health centers in a State (counting those existing as well as those provided with aid under the act), shall not exceed one per 30,000 State population, except in States having less than 12 persons per square mile the number shall not exceed one per 20,000 population. The following shall be excluded from the count of public health centers:

(a) Existing facilities which the State Agency, after consultation with the State health authority, has determined to be unsuitable for use as public health centers, and

(b) Auxiliary facilities such as laboratories and clinics, whether existing or proposed, and whether they are located within the same structure as the health department office or in a separate structure.

§ 10.32 *Distribution.* The general method of distribution of public health centers throughout the State shall conform to the plan of organization of local health units within the State. In instances where the State Health Department is not the State Agency designated under section 623 (a) (1) of the Federal Act, the method of distribution shall be determined after consultation with the State health authority.

SUBPART E—PRIORITY OF PROJECTS

§ 10.41 *Manner of determination.* The general manner in which the State Agency shall determine the priority of projects included in the State construction program shall conform with the principles set out in §§ 10.40 to 10.47, inclusive.

§ 10.42 *Balance among categories of facilities.* Insofar as practicable, the State Agency shall develop its construction program in relation to the proportionate need for each of the five categories of facilities (general, mental, tuberculosis, chronic, and health centers). In determining proportionate needs, consideration shall be given to existing facilities and those under construction without assistance under the Federal act.

§ 10.43 *All categories of facilities; additional facilities as against replacements.* Initial installations and additions to existing hospitals and health centers shall be given priority over replacements, except:

(a) Where replacement is of minor character and necessary to the provision of needed additional facilities;

(b) Where, in the case of a hospital, replacement is essential to eliminate an existing needed hospital which constitutes a public hazard;

(c) Where, in the case of a public health center, the State health authority has certified that the existing facility is unsuitable for use as a public health center.

§ 10.44 *General hospital category.* The relative priority of these projects shall be determined after consideration of the following factors in the order of importance as given:

(a) The relative need for beds in the area (base, intermediate, or rural) in which the project will be located, taking into account the utilization of existing general hospital beds in the area and giving special consideration to projects providing service for persons located in rural communities and areas with relatively small financial resources;

(b) The extent to which beds will be made available for groups of the population which by reason of race, creed, or color are less adequately served than other groups of the population.

§ 10.45 *Chronic disease category.* Priority shall be given to those projects in which the chronic disease facilities will be operated as sub-units of general hospitals.

§ 10.46 *Public health centers.* Highest priority in this category shall be given to the provision of facilities for local health units serving rural communities and areas with relatively small financial resources. Where the agency designated to administer the State plan is not the State health authority, the State Agency shall determine the relative priorities to be established after consultation with the State health authority.

§ 10.47 *Size and character.* Insofar as practicable and without affecting the priority of hospitals serving rural communities and areas with relatively small financial resources, special consideration shall be given to applications for construction of projects of a size and character consistent with efficient and economical operation.

SUBPART F—GENERAL STANDARDS OF CONSTRUCTION AND EQUIPMENT

§ 10.51 *General.* Plans and specifications for each project submitted to the Surgeon General for approval under the Federal Act shall be prepared in accordance with the "General Standards of Construction and Equipment" for hospitals of different classes and in different types of location as prescribed by the Surgeon General and set forth in Appendix A. Equipment shall be provided in the kind and to the extent necessary for the proper functioning of the facility as planned. The design and construction covered by the plans and specifications must conform with the applicable State and local laws, codes, and ordinances and with the approved State plan. The plans and specifications must be complete and adequate for contract purposes and have the approval and recommendation of the State Agency.

§ 10.52 *Size of mental and psychopathic hospitals.* No application for construction of a psychopathic hospital with a capacity of more than 500 beds or of a mental hospital with a capacity of more than 3,000 beds shall be approved. This requirement shall not be construed to prevent approval of applications for improvements of psychopathic and mental hospitals with bed capacities equal to or greater than those specified above if such improvements are designed to provide more intensive treatment facilities within such hospitals.

§ 10.53 *Size of tuberculosis hospitals.* No application for construction of a tuberculosis hospital with a capacity of less than 100 beds shall be approved, except that an application for construction of a tuberculosis hospital with a capacity from 50 to 100 beds may be approved where necessary to provide facilities for an isolated area too small to support a larger hospital.

SUBPART G—NON-DISCRIMINATION AND HOSPITAL SERVICES FOR PERSONS UNABLE TO PAY THEREFOR

§ 10.61 *General.* The State plan shall provide for adequate hospital facilities for the people residing in a State without discrimination on account of race, creed, or color and shall provide for adequate hospital facilities for persons unable to pay therefor.

§ 10.62 *Non-discrimination.* Before a construction application is recommended by a State Agency for approval, the State Agency shall obtain assurance from the applicant that the facilities to be built with aid under the Act will be made available without discrimination on account of race, creed, or color to all persons residing in the area to be served by that hospital. However, in any area where separate hospital facilities are provided for separate population groups, the State Agency may waive the requirement of assurance from the construction applicant if (a) it finds that the plan otherwise makes equitable provision on the basis of need for facilities and services of like quality for each such population group in the area, and (b) such finding is subsequently approved by the Surgeon General. Facilities provided under the Federal Act will be considered as making equitable provision for separate population groups when the facilities to be built for the group less well provided for heretofore are equal to the proportion of such group in the total population of the area, except that the State plan shall not program facilities for a separate population group for construction beyond the level of adequacy for such group.

§ 10.63 *Hospital services for persons unable to pay therefor.* Before a construction application is recommended by a State Agency for approval, the State Agency shall obtain assurance that the applicant will furnish a reasonable volume of free patient care. As used in this section, "free patient care" means hospital service offered below cost or free to persons unable to pay therefor, including under "persons unable to pay therefor," both the legally indigent and persons who are otherwise self-supporting but are unable to pay the full cost of needed hospital care. Such care may be paid for wholly or partly out of public funds or contributions of individuals and private and charitable organizations such as community chests or may be contributed at the expense of the hospital itself. In determining what constitutes a reasonable volume of free patient care, there shall be considered conditions in the area to be served by the applicant, including the amount of free care that may be available otherwise than through the applicant. The requirement of assurance from the applicant may be waived if the applicant demonstrates to the satisfaction of the State Agency, subject to subsequent approval by the Surgeon General, that furnishing such free patient care is not feasible financially.

SUBPART H—METHODS OF ADMINISTRATION OF THE STATE PLAN

§ 10.71 *General.* The State plan shall provide for general methods of administration which are in accord with the principles set out in §§ 10.72 to 10.78, inclusive.

§ 10.72 *Construction program.* The State hospital construction program shall be developed in the following manner:

(a) The State Agency shall determine need for hospital facilities of all types and health center facilities by applying the ratios heretofore specified and deducting existing facilities, except those justifying replacement under priority regulations.

(b) The State Agency shall determine through field investigation, and otherwise, the approximate locations within each area at which needed beds or health centers should most appropriately be built.

(c) After having determined hospital and public health center needs, the State Agency shall establish an overall construction program. This program shall set forth all such needs in accordance with the standards specified in §§ 10.12, 10.21, and 10.31 and shall show the relative need for each project included, irrespective of the availability of funds for construction and for maintenance and operation.

(d) The State Agency shall, from time to time as necessary, but at least annually, review the overall hospital construction program. Annually, at a time fixed by the Surgeon General, the Agency shall submit to him a report, which shall contain such revisions of the construction program, as the Agency considers necessary.

(e) The State Agency shall establish a separate construction schedule on such forms and for such periods as the Surgeon General may prescribe. Insofar as funds are available for construction and for maintenance and operation, construction shall be scheduled in the order of relative need.

§ 10.73 *Personnel administration.* A system of personnel administration on a merit basis shall be established and maintained with respect to the personnel employed in the administration of the State plan. Such a system shall include provision for:

(a) Impartial administration of the merit system;

(b) Operation on the basis of published rules or regulations;

(c) Classification of all positions on the basis of duties and responsibilities and establishment of qualifications necessary for the satisfactory performance of such duties and responsibilities;

(d) Establishment of compensation schedules adjusted to the responsibility and difficulty of the work;

(e) Selection of permanent appointees on the basis of examinations so constructed as to provide a genuine test of qualifications and so conducted as to afford all qualified applicants opportunity to compete;

(f) Advancement on the basis of capacity and meritorious service; and

(g) Tenure of permanent employees.

Substantial compliance with the merit system policies of the Public Health Service as set forth in Appendix B will be deemed to meet the requirements of the regulations in this part.

§ 10.74 *Fair hearings.* The State Agency shall establish such rules and regulations as will provide an opportunity for an appeal to and a fair hearing before the State Agency to every applicant for a construction project who is dissatisfied with any action of the State Agency regarding its application.

§ 10.75 *Construction standards.* The State Agency shall adopt general standards of construction and equipment for the various types of hospitals and health centers assisted under this program. The standards adopted shall not be less than the general standards prescribed by the Surgeon General and set forth in Appendix A.

§ 10.76 *Publicizing the State plan.* (a) Prior to submission of the State plan to the Surgeon General, the State Agency shall publish a general description of the provisions proposed to be included in the State plan and shall give reasonable notice of a public hearing at which all interested persons or organizations will be given an opportunity to be heard.

(b) After the Surgeon General has approved the State plan, the State Agency shall publish a general description of its provisions in newspapers having general circulation throughout the State and shall make the approved State plan available for examination, upon request, to all interested persons or organizations.

§ 10.77 *Processing construction applications*—(a) *Form of application.* Construction applications, including a detailed estimate of the cost of the project, shall be submitted to the Surgeon General through the State Agency and shall be executed on forms prescribed by the Surgeon General.

(b) *Order of processing applications.* The State Agency shall process applications received in the order of priority, except that the State Agency may approve, recommend and forward to the Surgeon General applications out of the order of priority if:

(1) The State Agency has afforded reasonable opportunity for development and presentation of projects in the order of priority, and

(2) If the State Agency certifies to the Surgeon General that financial resources for the construction, maintenance and operation of projects of higher priority are not then available.

The priority of a project under the State plan shall not be affected by the fact that other projects of lower priority have previously been approved and recommended by the State Agency.

(c) *Assurances from applicant.* In addition to assurances otherwise required by the State Agency, before approving an application, the State Agency must have assurance from the applicant:

(1) That actual construction work will be performed by the lump-sum (fixed price) contract method, that adequate methods of obtaining competitive bidding will be employed prior to awarding the construction contract, either by public advertising or circularizing three or more bidders, and that the award of the contract will be made to the responsible bidder submitting the lowest acceptable bid;

(2) That the construction contracts will prescribe the minimum rates of pay for laborers and mechanics engaged in construction of the project as determined by the Secretary of Labor and that such minimum rates will be stated in the specifications advertised in the call for bids on the proposed project;

(3) That the requirement that each contractor or subcontractor shall furnish a weekly sworn affidavit with respect to the wages paid each employee during the preceding week, as required by 48 Stat. 948, (40 U. S. C. 276 (b) and 276 (c)), and the regulations issued pursuant thereto, will be incorporated in the project specifications and made a part of the construction contract;

(4) That the project will not be advertised or placed on the market for bidding until the final working drawings and specifications have been approved by the Surgeon General and the applicant has been so notified;

(5) That no construction contract or contracts for the project or a part thereof, the cost of which is in excess of the estimated cost approved in the application for that portion of the work covered by the plans, will be entered into without the prior approval of the Surgeon General;

(6) That the construction contract will require the contractor to furnish performance and payment bonds, the amount of which shall each be in an amount not less than fifty percentum (50%) of the contract price, and to maintain during the life of the contract adequate fire, workmen's compensation, public liability and property damage insurance;

(7) That any change or changes in the contract which (i) makes any major alteration in the work required by the plans and specifications, or (ii) raises the total contract price over the approve estimate of cost of the work covered by the plans and specifications will be submitted to the Surgeon General for prior approval;

(8) That the construction contract will provide that the Surgeon General, the State Agency and their representatives will have access at all times to the work wherever it is in preparation or progress and that the contractor will provide proper facilities for such access and inspection;

(9) That the applicant will provide and maintain competent and adequate architectural or engineering supervision and inspection at the project to insure that the completed work conforms with the approved plans and specifications; and

(10) That the hospital, when completed, will be operated and maintained in accordance with minimum standards prescribed by the State Agency for the maintenance and operation of hospitals aided under the Federal Act.

(d) *Certification to the Surgeon General.* After the State Agency has approved a construction application, it shall recommend it to the Surgeon General for approval and shall certify:

(1) That the application contains reasonable assurance as to title, payment of prevailing rates of wages, and financial support for the non-Federal share of the cost of construction and the entire cost of maintenance and operation when completed;

(i) Availability of funds for the non-Federal share of construction costs shall mean (*a*) funds immediately available, placed in escrow, or acceptably pledged, or (*b*) funds or fund sources specifically earmarked in a sum sufficient for that purpose or (*c*) other assurances acceptable to the Surgeon General.

(ii) To assure the availability of funds for maintenance and operation, the applicant for the construction of a new project must have included in the application a proposed operating budget, on a form prescribed by the Surgeon General giving assurance that (*a*) for the first year of operation, available funds, contingent or other acceptable pledges, or escrow arrangements for funds are equal to the difference between proposed operating expenditures and anticipated revenue from patients and are not less than one-third of the proposed operating expenditures for that period, and (*b*) for the second year, available funds, contingent or other acceptable pledges or escrow arrangements for funds are equal to the difference between proposed operating expenditures and anticipated income. In the case of publicly sponsored applications the statement of the responsible public officials may be accepted as sufficient assurance. In the case of an addition to an existing facility, the applicant must have given assurance, through one or more of the means specified above, that funds are or will be available to meet the difference between proposed expenditures and anticipated income from the operation of the constructed addition for the two year period immediately following its completion;

(2) That the plans and specifications are in accord with Appendix A;

(3) That the application is in conformity with the State plan approved by the Surgeon General and contains an assurance that the applicant will conform to the applicable requirements of the plan;

(4) That the application contains an assurance that the applicant will conform to the requirements of §§ 10.61, 10.62, and 10.63 regarding the provision of facilities without discrimination on account of race, creed, or color, and for furnishing needed hospital facilities for persons unable to pay therefor;

(5) That the application contains an assurance that the applicant will conform to State standards for operation and maintenance and to all applicable State laws and State and local codes, regulations, and ordinances;

(6) That the application is entitled to priority over other projects within the State and that in making this determination the State agency has complied with paragraph (b) of this section; and

(7) That the State Agency has approved the application.

(e) *Amendments to application.* An amendment to any application approved by the Surgeon General shall be processed in the same manner as an original application, except that the original application's conformity with priority regulations shall suffice for the amendment. Minor changes not provided for under paragraph (c) (7) of this section are not considered amendments.

§ 10.78 *Requests for construction payments*—(a) *Certification by State Agency.* The State Agency shall certify to the Surgeon General the amount of payments due to an applicant for the cost of work performed and materials and equipment furnished.

Requests for payments under the construction contract shall be submitted in each of three stages as follows:

(1) The first installment when the shell of the building and roof are completed,

(2) The second installment when the mechanical work has been substantially roughed in, and

(3) The third installment when work under the construction contract is completed and final inspection made.

Requests for payment of the Federal share of other allowable costs such as architect's fee, inspection cost, and cost of equipment shall be included in requests for payments made at one or more of the stages indicated above.

All costs that have not been determined at the time the third payment for work performed under the construction contract is requested shall form the basis of a request for final payment of the Federal share of the cost of the entire project.

Consideration will be given to the payment of an additional installment prior to payment of the final installment provided the State Agency finds there are unusual circumstances which may unduly delay submission of the claim for payment of the final installment.

(b) *Inspection by State Agency.* As a basis for certification by the State Agency that payment of an installment is due an applicant, the State Agency, without expense to the Federal government, shall make adequate inspections to determine that the work has been performed upon a project, or purchases have been made, in accordance with the approved plans and specifications.

§ 10.79 *Fiscal and accounting requirements*—(a) *Construction allotments.* The State Agency shall be responsible for establishing and maintaining accounts and fiscal controls of all Federal and State funds allotted for construction projects. Federal and State funds shall be separately identified by maintaining separate fund accounts for this purpose.

The fiscal records shall be so designed as to show at any given time the Federal funds allotted, encumbered, and unencumbered balances. If State contributions are made for construction, separate accounts, reflecting similar information, shall be maintained for State funds.

(b) *Construction payments.* Where the State may receive Federal funds for applicants for construction project grants, or the State itself is an applicant, adequate records of account and fiscal controls shall be established and maintained by the State to assure proper accounting of all funds received and disbursed. Similar suitable accounts shall be maintained to show the receipt and disbursement of State, local or other funds used for matching purposes.

The State Agency shall require that applicants receiving Federal funds establish and maintain adequate accounting and fiscal records to reflect the receipt and expenditure of funds allotted and paid for construction projects. Separate accounts by source shall be maintained of all funds received for construction projects. These records shall be maintained regardless of whether Federal funds are received through the State Agency or directly from the Federal government.

The States which by law are authorized to make payments to applicants shall promptly pay such applicants funds certified for payment by the Surgeon General for approved construction projects.

6. Nurses' home.
7. School of nursing.
8. Public health centers.
9. State public health laboratory.
10. Details, finishes, etc.
11. Finishes.
C. Structural.
D. Mechanical.
E. Preparation of plans, specifications and estimates.
IV. Equipment.

I. *Introduction.* The standards set forth herein have been established by the Surgeon General of The U. S. Public Health Service as required by the Hospital Survey and Construction Act. These standards constitute minimum requirements for construction and equipment and shall apply to all projects for which Federal assistance is requested under the act. They are considered necessary to insure properly planned and well constructed hospitals and public health centers which can be maintained and efficiently operated to furnish adequate services.

It should be particularly noted that the small hospital of 50 beds or under, presents a special problem. The size of the various departments will be generally smaller and will depend upon the requirements of the particular hospital. Some of the functions allotted separate spaces or rooms in these General Standards may be combined provided that the resulting plan will not compromise the best standards of medical and nursing practice.

Since these are minimum requirements it is desirable only that they form a basis for development of higher standards. In the interest of promoting the development of higher standards it is the intention of the Public Health Service to make suggestions and disseminate the latest information as to current good practice in planning and design of health facilities. This information will be distributed from time to time to State Agencies and other interested persons.

No attempt has been made in establishing these standards to comply with all of the various State and local codes and regulations. However, strict compliance with all applicable State and local codes and regulations is required. Likewise, compliance is required with minimum standards of construction and equipment promulgated by the State Agency where such requirements provide a higher standard than these Federal requirements.

II. *Site survey and soil investigation.* 1. The applicant shall provide for a survey and soil investigation of the site and furnish a plat of the site. The purpose of this survey and soil investigation is to obtain all information necessary for the design of the building, foundations and mechanical service connections and development of the site. It is suggested that this matter be deferred until the Architect has been selected in order that he may co-operate with the Engineer who obtains the data.

2. If any existing structures or improvements on the site are to be removed by the owners or others, the buildings or improvements must be so designated on the plat.

3. Any discrepancies between the Survey and the recorded legal description shall be reconciled or explained.

4. The plat shall indicate:

(a) The courses and distances or property lines.

(b) Dimensions and location of any buildings, structures, casements, rights-of-way or encroachments on the site.

(c) Details of party walls, or walls and foundations adjacent to the lot lines.

(d) The position, dimensions and elevations of all cellars, excavations, wells, backfilled areas, etc., and the elevation of any water therein.

(e) All trees which may be affected by the building operations.

(f) Detailed information relative to established curb and building lines and street, alley sidewalk and curb grades at or adjacent to the site and the materials of which they are constructed.

(g) All utility services and the size, characteristics, etc., of these services.

(h) The location of all piping, mains, sewers, poles, wires, hydrants, manholes, etc., upon, over or under the site or adjacent to the site if within the limits of the survey.

(i) Complete information as to the disposal of sanitary, storm water and subsoil drainage and suitability of subsoil for rainwater or sanitary disposal purposes if dry wells are used.

(j) Official datum upon which elevations are based and a bench mark established on or adjacent to the site.

(k) Contours on elevations taken at 20 feet intervals, changes in slope, etc., over that portion of the site to be developed.

(l) Elevations of contours, bottoms of excavations, etc.

(m) Contemplated date and description of any proposed improvements to approaches or utilities adjacent to the site.

5. The plat shall bear a certification by the City Engineer or other qualified official, that the true street lines and the officially established grades of curbs, sidewalks and sewers are correctly given.

6. Adequate investigation shall be made to determine the sub-soil conditions. The investigations shall include a sufficient number of test pits or test borings as will determine, in the judgment of the Architect, the true conditions.

7. Samples of strata of soil or rock taken in each pit or boring shall be retained in hermetically sealed cans. Each sample can shall be identified as to the boring and elevations at which taken and the labels initialed by the Engineer making the soil investigation.

8. The following information shall be noted on the plat:

(a) Thickness, consistency, character and estimated safe bearing value of the various strata encountered in each pit or boring.

(b) Amount and elevation of ground water encountered in each pit or boring, its probable variation with the seasons and effect on the subsoil.

(c) The elevation of rock, if known and the probability of encountering quicksand.

(d) Average depth of frost effect below surface of ground.

(e) High and low water levels of nearby bodies of water affecting the ground water level.

(f) The probability of freshets overrunning the site.

(g) Whether the soil contains alkali in sufficient quantities to affect concrete foundation.

(h) The elevation and location of the top of workings relative to the site, if the site is underlaid with mines, or old workings are located in the vicinity.

(i) Whether the site is subject to mineral rights which have not been developed.

III. *General design and construction standards*—(A) *Site.* The site of any hospital should be reasonably accessible to the center of community activities. Public transportation should be available within a reasonable distance, especially if an outpatient service is to be maintained.

No hospital should be built in a remote outlying district but should be located in

relation to the center of population, close to where patients live and where competent special medical and surgical consultation is readily available and where employees can be recruited and retained.

The site should not be near insect breeding areas, noise or other nuisance producing industrial developments; airports, railways or highways producing noise or air pollution, or near penal or other objectionable institutions or near a cemetery.

Adequate roads and walks shall be provided within the lot lines to the main entrance, ambulance entrance and service entrance.

The site for a public health center should be convenient to the center of community activities.

(B-1). *General Hospital.* Units required in the General Hospital:

Administration Department

Up to and including 100 beds:
- Business office with information counter.
- PBX Board and night information.
- Administrator's office.[1]
- Director of nurses' office.[1]
- Medical record room.
- Staff lounge.
- Lobby.
- Public toilets.

Over 100 beds:
- Business office.
- Information counter.
- PBX Board and night information.[1]
- Administrator's office.
- Director of nurses' office.
- Admitting office.
- Medical social service room.
- Medical record room (should be easily available to O. P. D.)
- Staff lounge.
- Library, conference and board room.
- Lobby.
- Reception room.
- Public toilets.
- Toilets for administrative personnel.

Adjunct Diagnostic and Treatment Facilities

Laboratory:
- Up to and including 100 beds:
  - One room for 50 beds.
  - Two rooms for 100 beds.
- Over 100 beds:
  - Four rooms.

Basal metabolism and electrocardiography:
- Up to and including 100 beds; No special provisions required. Can be done in bed rooms.
- Over 100 beds: One room near the laboratory and convenient to Out-Patient Dept.

Morgue and autopsy:[1] may not be required in hospital under 50 beds if other facilities such as undertaker or coroner are available. Where provided: Combination morgue and autopsy with mortuary refrigerator.

Radiology: Each hospital to have at least 1 radiographic room with adjoining darkroom, toilet, and office. Hospitals of 150 beds and over should have at least 1 additional radiographic room. The radiology department must be convenient to in- and out-patients, and should have lead protection as required.

Physical therapy: In hospitals of 100 beds and over: Space should be provided for electrotherapy, hydrotherapy, massage, and and exercise. Equipment to be furnished when competent technician is acquired.

Pharmacy:
- Up to and including 100 beds: Drug room with minimum facilities for compounding.
- Over 100 beds: Complete pharmacy and may include space for manufacturing and solution preparation depending on policy of hospital. Must be convenient to Out-Patient Department.

[1] Desirable but not mandatory.

Nursing Department

General:
- No room shall have more than 4 beds. In hospitals over 200 beds, rooms with more than 4 beds are permissible but not advisable. Each room shall have a lavatory. Nursing units composed of multi-bed rooms shall have a quiet room.
- Approximately ⅓ of the hospital beds shall be in one-bed rooms, ⅓ in two-bed rooms, and ⅓ in four-bed rooms.[1]
- Size of nursing unit: Not more than 30 beds.[1] Larger units are permissible in hospitals over 200 beds, if additional facilities are provided.
- Minimum room areas: 80 sq. ft. per bed in two- and four-bed rooms. 125 minimum sq. ft. in one-bed rooms.
- Service rooms in each nursing unit:
  - Nurses' station.
  - Utility room.
  - Floor pantry (one per floor).
  - Two toilets (male and female).
  - Bedpan facilities.
  - One bathroom.
  - Stretcher alcove.
  - Linen closet.
  - Supply closet.
  - Janitors' closet.
- Isolation suite: One for each hospital unless contagious disease nursing unit is available in hospital.
- Treatment room: One for each two nursing units per floor.
- Solarium: One for each nursing floor.[1]
- Nurses' toilet room: One for each nursing floor.
- In hospitals of 100 beds and over the maternity department shall be housed in a separate wing or floor.

Nursery Department

Full term nursery:
- Area required: Not less than 24 square feet per bassinet, 30 square feet recommended.
- Number of bassinets: No more than 12 bassinets in each full term nursery, 8 recommended.
- Examination and work room: One examination and work room between each two full term nurseries.

Premature nursery (to be provided where four or more premature bassinets will be required):
- Area required: 40 square feet per bassinet.
- Number of bassinets: Not more than six in each premature nursery.
- Work room: Each premature nursery to have own work areas.

Suspect nursery:
- Area required: 40 square feet per bassinet.
- Number of bassinets: Approximately 20% of full term bassinets. Not more than 3 bassinets in each suspect nursery.
- Work room: One work room for each two suspect nurseries.

Formula room: Location in nursery area or near kitchen optional.

Surgical Department

(Shall be located to prevent traffic through it to any other part of the hospital)

Operating rooms:
- Major: One for each 50 beds up to and including 200 beds. Above 200 beds the number of operating rooms will be based on the expected average of daily operations.
- Minor: One in each hospital over 50 beds.
- Cystoscopy: One in each hospital over 100 beds. Shall have an adjoining toilet room.
- Fracture room: One in each hospital over 100 beds. Shall have an adjoining splint room.

Auxiliary rooms:
- Sub-sterilizing room: One between each two operating rooms in hospitals of 50 beds and over.
- Scrub-up room: One between each two operating rooms.
- Nurses' locker room with toilet and shower.
- Janitors' closet.
- Instrument room beginning at 100 beds.
- Clean-up room.
- Anesthesia equipment stroage.
- Surgical Supervisor station.
- Doctors' locker room with toilet and shower.
- Storage closet.
- Stretcher alcove.
- Storage room for sterile supplies beginning at 100 beds.
- Dark room beginning at 100 beds.

Central sterilizing and supply room:
- Divided into work space, sterilizing space and sterile storage space.
- Adjacent room for storage of unsterile supplies.

Obstetrics Department

(Shall be located to prevent traffic through it to any other part of the hospital. Shall be completely separated from Surgical Department)

Delivery rooms: one for each 20 maternity beds.

Labor beds: One for each 10 maternity beds.

Auxiliary rooms:
- Sub-sterilizing room: One between each two delivery rooms.
- Scrub-up room: One between each two delivery rooms.
- Clean-up room or utility room.[1]
- Supervisors' station.
- Nurses' locker room with toilet and shower starting at 50 beds.
- Sterile storage closet.
- Stretcher alcove.
- Janitors' closet.
- Doctors' locker room with toilet and shower starting at 50 beds.

Emergency Department

Accident room:
- With separate ambulance entrance.
- Should be completely separated from operating suite and obstetrical suite.
- Additional facilities will depend on amount of accident work expected.

Service Department

Dietary facilities:
- Main kitchen and bakery.
- Dietitians office.
- Dishwashing room.
- Adequate refrigeration.
- Garbage refrigerator.
- Can washing facilities.
- Day storage room.
- Personnel dining space.
- Provide 12 square feet per person; may be designed for 2 sittings.
- Cafeteria or table service optional.

Housekeeping facilities:
- Laundry; unless commercial or other laundry facilities are available, each hospital shall have a laundry of sufficient capacity to process full 7 days laundry in work week and contain the following areas:
  - Sorting area.
  - Processing area.
  - Clean linen and sewing room separate from laundry.
  - Sewing room may be included in clean linen room in hospitals up to and including 100 beds.
- Housekeeper's office.

Mechanical facilities:
- Boiler and pump room.
- Maintenance shops.
- Shower and locker facilities.
- Engineers' office.
- In hospitals up to and including 100 beds at least one room shall be provided. In larger hospitals separation of carpentry, painting and plumbing should be provided.
- For minimum requirements for mechanical and electrical work see the respective sections.

Employees' facilities:
- Nurses' locker room without nurses' home:
  - Locker room with one locker for each two hospital beds.
  - Rest room.
  - Toilet and shower room.
- Nurses' locker room with nurses' home adjacent:
  - Rest room.
  - Lockers as required.
  - Toilet room.
- Female help lockers:
  - Locker room.
  - Rest room.
  - Toilet and shower room.
- Male help lockers:
  - Locker room.
  - Toilet and shower room.
- Ratio of male and female help will vary and size of locker rooms must be adjusted accordingly.

Storage:
- Inactive record storage.
- General storage: 20 feet per bed and to be concentrated in one area in so far as possible. Mechanical maintenance storage may be in a separate area.

Out-Patient Department

(If survey indicated that the out-patient department is unnecessary it may be omitted)

General:
- Out-patient department should be located on the most easily accessible floor. It should have convenient access to radiology, pharmacy, laboratory and physical therapy.
- The size will vary in different locations and is not necessarily proportional to the size of the hospital. The patient load must be estimated to determine the number of rooms required.
- An out-patient department may be combined with the public health center clinics if the health center is a part of the hospital.

Administrative:
- Waiting room with public toilets.
- Appointment and cashiers' office.
- Social service office.

Clinical:
- History or screening room.
- Examination and treatment rooms including eye, ear, nose, and throat room.
- Two chair dental unit.
- Utility room.

Contagious Disease Nursing Unit[1]

Patient rooms:
- A maximum of 2 beds in each room separated by a glazed partition.
- Patient rooms shall have a view window from corridor.
- Each patient room shall have a separate toilet and a lavatory in the room.

Each nursing unit shall contain:
- Nurses' station.
- Utility room.
- Nurses' work room.
- Treatment room.
- Scrub sinks strategically located in the corridor.
- Kitchen with separated dishwashing room adjacent.
- Doctors' locker and gown room.
- Nurses' locker and gown room.
- Janitors' closet.
- Storage closet.
- Stretcher alcove.

Pediatric Nursing Unit[1]

General:
- Each bed in a multi-bedroom shall be in a clear glazed crucible.
- Each room shall have a lavatory.
- Patients rooms wherever possible should have clear glazing between them and in the corridor partitions.

[1] Desirable but not mandatory.

Minimum area:
- 80 square feet per bed in two-bed rooms and over.
- 100 square feet in single rooms.
- 40 square feet per bassinet in nurseries.

Each nursing unit shall contain:
- Nursery.
- Isolation suite.
- Treatment room.
- Nurses' station: with adjoining toilet room.
- Utility room.
- Floor pantry.
- Play room or solarium.
- Bath and toilet room: with raised free-standing tub and 50% children's fixtures.
- Bed pan facilities.
- Wheelchair and stretcher alcove.
- Janitors' closet.
- Storage closet.

Psychiatric Nursing Unit in the General Hospital[1]

General: Layout and design of details to be such that the patient will be under close observation and will not be afforded opportunity for escape, suicide, hiding, etc. Care must be taken to avoid sharp projections of corners of structure, exposed pipes, heating elements, fixtures, etc., to prevent injury by accident.

Minimum room areas:
- 80 square feet per bed in 4-bed rooms.
- 125 square feet in single rooms.
- 40 to 50 square feet per patient in day rooms.

Each nursing unit shall contain:
- Doctors' office.
- Examination room.
- Nurses' station.
- Day room.
- Utility room.
- Bedpan facility.
- Pantry.
- Dining room.
- Toilet room.
- Shower and bathroom.
- Continuous tub room (for disturbed patients).
- Patients' laundry.
- Patients' locker room.
- Storage closet (for recreational and occupational therapy).
- Stretcher closet.
- Linen closet.
- Supply closet.
- Janitors' closet.

(B-2). *Tuberculosis Hospital.*

Administration Department

From 50 up to and including 200 beds:
- Business office with information counter.
- Medical social service office.[2]
- Medical director's office.
- Secretary's office.
- Director of nurses' office.
- Physicians' offices: one for each 50 patients (including the medical director's office).
- Medical record and film filing room.
- Viewing room, library and conference room. Singly or in combination.
- Lobby and waiting room.
- Retiring room.
- Toilets for public and personnel.

Over 200 and up to 500 beds:
- Business office and information counter.
- Business manager's office.
- Secretary.
- Admitting office.
- Two medical social service offices.
- Medical director's office.
- Secretary.
- Assistant medical director's office.
- Director of nurses' office.
- Secretary.
- Assistant director of nurses' office.
- Physicians' offices: one for each 50 patients (including the medical director and assistant medical directors' offices).
- Medical record room.
- Library and conference room.
- Staff lounge and locker room.
- Lobby and waiting room.
- Retiring room.
- Public toilets.
- Personnel toilets.

Adjunct Diagnostic and Treatment Facilities

Laboratory:
- From 50 up to and including 200 beds: two rooms.
- Over 200 and up to 500 beds: four rooms.

Basal metabolism and electrocardiography:
- One room near the laboratory and convenient to Out-Patient Dept.

Morgue and autopsy:
- From 50 up to and including 200 beds,[2] combination morgue and autopsy room with mortuary refrigerator.
- Over 200 and up to 500 beds:
  - Morgue with mortuary refrigerator.
  - Autopsy room.
  - Shower and toilet room.
  - Separate exit.

Radiology:
- From 50 up to and including 200 beds:[2]
  - Radiographic room.
  - Dark room.
  - Dressing booths.
  - Must be convenient to out-patient department as well as in-patients.
- Over 200 and up to 500 beds:
  - Radiographic room.
  - Dark room.
  - Dressing booths.
  - Viewing room.
  - Roentgenologist's office.
  - Film file room.
  - Must be convenient to out-patient department as well as in-patients.

Pharmacy:
- From 50 up to and including 200 beds: Drug room with minimum facilities for mixing. Must be convenient to out-patient department.
- Over 200 and up to 500 beds: Complete pharmacy and may include space for manufacturing and solution preparation depending on policy of hospital. Must be convenient to out-patient department.

Dental and eye, ear, nose, and throat:
- From 50 up to and including 200 beds:
  - One dental room.
  - One eye, ear, nose, and throat room.
- Over 200 and up to 500 beds:
  - Two dental chairs.
  - Eye, ear, nose, and throat room.
  - Waiting room.

Occupational therapy:
- Library.
- Barber shop.
- Canteen.
- Patient auditorium (1 seat for each bed up to 250 beds).
- Flexible space for learning and working in crafts and class room for patient instruction shall be provided.

Nursing Department

General: At least 30 percent of the hospital beds shall be in single rooms. No room shall have more than four beds. Each room shall have a lavatory.

Size of nursing unit: No nursing unit shall be larger than 50 beds.

Minimum room areas:
- 80 square feet per bed in two- and four-bed rooms.
- 125 square feet in one-bed rooms.

Service rooms in each nursing unit:
- Nurses' station.
- Utility room.
- Floor pantry (one per floor).
- Toilet and washroom:
  - Water closets—1 to each 5 patients.
  - Lavatories—1 to each 5 patients.
  - Dental basins—1 to each 5 patients.

[2] These facilities need not be provided if the Tuberculosis Hospital is in connection with a general hospital in which such facilities exist.

Storage closet for supplies.
Bath and shower room:
Bath tubs—1 to each 14 patients.
Shower—1 to each 7 patients.
Gown room.
Bed pan facilities.
Linen closet.
Janitors' closet.
Space for wheel chairs and stretchers.
Storage closet for equipment.
Doctors' office (including adjacent treatment room): One for each nursing unit.
Solarium: One for each nursing unit.
Sputum technique room: One for each nursing floor.
Nurses' toilet room: One for each nursing floor.
Nurses' cloak room: One for each nursing floor.

Surgical Department

(Shall be located to prevent traffic through it to any other part of the hospital)

From 50 up to and including 200 beds: [1]
Major operating room.
Sterilizing room.
Central supply and work room.
Scrub-up room.
Clean-up room.
Storage closet.
Janitors' closet.
Doctors' locker room with toilet and showers.
Nurses' locker room with toilet and showers.
Over 200 and up to 500 beds:
Major operating room: One for each 200 beds or major fraction thereof.
Minor operating and fracture room.
Sub-sterilizing room: One between each two operating rooms.
Clean-up room.
Scrub-up room: One between each two operating rooms.
Janitors' closet.
Storage room for sterile supplies.
Anesthesia storage.
Surgical supervisor office.
Doctors' locker room with toilet and shower.
Nurses' locker room with toilet and shower.
Storage closet.
Stretcher alcove.
Central sterilizing and supply room divided into work space, sterilizing space, and sterile storage space.
Adjacent room for storage of unsterile supplies.
Pneumothorax suite:
Pneumothorax room with dressing booths.
Fluoroscopy room.
Waiting space.
From 50 up to and including 200 beds: One pneumothorax suite for 100 beds or major fraction thereof.
Over 200 and up to 500 beds: One pneumothorax suite for 100 beds or major fraction thereof.

Service Department

Dietary facilities:
Main kitchen and bakery.[2]
Dietitian's office and special diets kitchen.
Patients' dishwashing room.
Staff and help dishwashing room.
Adequate refrigeration.
Garbage refrigerator.
Can washing room.
Day storage room.
Help dining room.
Staff dining room.
Patients' dining space—to serve 40 percent of the patients.
Provide 12 square feet per person in dining rooms. May be designed for two seatings. Cafeteria or table service optional.

[1] These facilities need not be provided if the Tuberculosis Hospital is in connection with a general hospital in which such facilities exist.

Housekeeping facilities:
Laundry: [2]
Sorting area.
Processing area.
Clean linen room.
Sewing room.
Laundry capacity shall be adequate to process full 7 days laundry in work week.
Housekeeper's office.
Incinerator.
Mechanical facilities: [2]
Boiler and pump room.
Engineers' office.
Shower and locker facilities.
Maintenance shops:
Carpentry.
Painting.
Plumbing.
For minimum requirements for mechanical and electrical work, see the respective sections.
Employees' facilities:
Nurses' locker room without nurses' home:
Locker room with lockers as required.
Rest room.
Toilet and shower room.
Where nurses' home is adjacent provide only rest room and toilet.
Female help locker room:
Locker room.
Rest room.
Toilet and shower room.
Male help locker room:
Locker room.
Rest room.
Toilet and shower room.
Storage:
General storage.
Record storage. Provide 20 square feet per bed to be concentrated in one area.
Out-patient department: [2]
Out-patient department should be located on most easily accessible floor. Must be convenient to radiology, pharmacy, and laboratory departments.
Size will vary in different locations and with the availability of other examination and diagnostic facilities, and is not necessarily proportionate to the size of the hospital. The estimated patient load will determine the number, size, and scope of individual facilities in out-patient department.
Facilities required:
Administrative:
Waiting room with public toilets.
Information, appointment and records office.
Medical social service office.
Janitors' closet.
Clinical:

(B-3). *Mental Hospital—General.* A mental hospital should be on a large acreage with ample space around all buildings for recreation, attractive landscaping and the proper segregation of the various patient classification groups and building functions; and should be readily accessible to the community which it is to serve.

The mental hospital presents a special problem of patient classification, treatment and supervisory function. In the following minimum requirements an over-all organization is designated with certain supervisory or organizational functions mentioned in their most desirable, but not mandatory, locations and these may, therefore, be changed to other locations.

Patients have been classified and grouped according to behavior, and requirements vary somewhat for each classification. Minimum room area requirements are grouped into the following main categories, as follows:

A. Medical and surgical, and chronic disease classification: 80 square feet per bed in four-fed rooms; 125 square feet in single rooms.

B. Tuberculosis classification: 80 square feet per bed in four-bed rooms; 125 square feet in single rooms.

C. Reception, convalescent, chronic disturbed, industrial classifications. 70 square feet per bed in four or more bed rooms; 80 square feet in single rooms.

D. Infirm and inactive: 60 square feet per bed in four or more bed rooms; 80 square feet in single rooms.

Administration. This area shall include only the administrative, business and public contact functions of the institution.

Location: Near main entrance to institution and close to reception area.
General:
Entrance lobby.
Public toilets (male and female).
Information and telephones (main switchboard).
Post office.
Personnel toilets (male and female).
Mechanical room.
Offices:
Director.
Assistant director.
Conference room.
Business administrator.
Business.
Public relations and services.
Secretaries.
Janitors' closet.
Medical:
Central records office.
Central records room.
Inactive records storage.

Reception. This area includes the reception and treatment of new patients, most of whom will be entering a mental hospital for the first time. Since they are new patients, and in need of very careful treatment, it is necessary to separate and prohibit contact between patients in the following classifications of behavior:

Quiet.
Depressed.
Disturbed.

In addition, each of the above classifications should be separated by sexes, and each classification should have its own complete Nursing Units with all nursing facilities available, and each should be readily accessible to an outdoor area. All safety and security measures should be observed in this group. Intensive care and treatment will be given these new patients in an effort to cure them in the first few weeks of treatment. Should the patient fail to recover in this comparatively short period of time he will be sent to other Nursing Areas for continued treatment. These other Nursing Areas will be classified according to the behavior of the patients which they are to house.

The Reception area should be set well apart from the other areas of the hospital, and should contain sufficient diagnostic, treatment, recreational and occupational facilities, to furnish complete treatment in order that these new patients may recover without having been transferred to the other areas of the Mental Hospital.

The number of beds required in this Reception Area must be determined by study of the total Receiving and Intensive Treatment Facilities in the community which is served. The total number of beds in this and the convalescent area should be in accord with the admissions within a three to six month period.

Location: Near administration area.
General:
Lobby.
Visitors toilet (male and female).
Main visitors room with alcoves.

Janitors' closets.
Mechanical room.
Administration:
Medical records office.
Information.
Chief psychiatrist's office and conference room.
Secretaries' offices.
Clinical psychologist's office.
Chief of nursing service and staff.
Chief of social service and offices.
Personnel toilets (male and female).
Staff facilities:
Doctors' toilet room.
Nurses lounge and toilet room.
Admission:
Ambulance entrance.
Patients' bath and toilet.
Utility room.
Examination and consultation rooms.
Adjunct diagnostic and treatment facilities:
Minor surgery.
Portable X-ray storage room.
Dark room.
Small laboratory.
Patients' toilet and shower.
Small treatment room (for shock therapy, etc.).
Patients' exercise room (directly accessible to outdoor exercise yard).
Occupational therapy:
Occupational therapy room (to be located near quiet patient units).
Storage closets.
Occupational therapists' office.
Barber shop.
Beauty shop.
Nursing units: The following classifications of nursing units of 15 to 25 beds will be required:
Quiet nursing units (male and female).
Depressed nursing units (male and female).
(Disturbed nursing units (male and female).

Suggested bed distribution of nursing units:

Each disturbed nursing unit:	*Patients*
Two 4-bed wards	8
Three 2-bed or 3-bed wards	6 or 9
Four or six 1-bed rooms	4 or 6
Two 1-bed rooms (isolation unit) [1]	2
Total	20 to 25

Each depressed nursing unit:	*Patients*
Two 4-bed wards	8
Two 3-bed alcoves	6
Four 1-bed rooms	4
(Isolation unit) [1]	2
Total	20

Quiet unit: Same bed distribution as disturbed nursing units.
Facilities in each nursing unit:
Doctors' consultation room (for each two units).
Examination room.
Nurses' station.
Utility room.
Bed pan facilities.
Small dining room and pantry:
Essential for disturbed.
Convenient for depressed.
Unnecessary for quiet.
Patients' locker room.
Linen closet.
Patients' shower and bath room.
Patients' dressing room.
Patients' toilets.
Patients' wash room.
Continuous tub room (for disturbed units).
Day room (40 to 50 square feet per patient and preferably divided into one small and one large room).
Occupational therapy storage closet.
Janitors closet.

[1] Desirable but not mandatory.

Dietary:
Patients' dining room cafeteria service: this dining room will be used by patients from convalescent houses as well as from Reception area (two seatings may be used).
Janitors' closet.
Coat room and toilets (male and female).[1]
Kitchen (serving).
Dishwashing room (enclosed).
Employees' toilet.
Patients' toilet (male and female).
Refrigerated garbage storage.
Can washing room.

Convalescent. This area is considered a part of the reception area and will house new patients who have been sent from the reception building, and who are expected to recover within six months to a year. Most of these patients will have the same classification as those in the reception area. Small complete nursing units, separate for each sex, should be provided. Special treatment, such as mechanical fever, electric shock, special electro and hydro therapy, and insulin, etc., can be given in the reception building.

These patients will also use the dining room facilities of the reception area.

In general, while most of these patients are continuing to receive intensive treatment, they are well enough and manageable enough to go freely or be escorted to their activities.

The same security and safety measures are required as those for the reception area.

Location: Grouped by sexes on either side of and near reception area.
General:
Entrance lobby.
Visitors' room with alcoves.
Visitors' toilet (male and female).
Attendants' locker and toilet room.
Mechanical room.
Nursing units (to contain from 25 to 50 beds).
Suggested bed distribution of each nursing unit:

	Patients
One 8-bed ward	8
Four 4-bed wards	16
Eleven 1-bed wards	11
Total	35

Facilities in each nursing unit:
Doctors' consultation room (for each two units).
Examination room.
Nurses' station.
Utility room.
Bed pan facilities.
Pantry (one for each two nursing units).
Patients' locker.
Patients' toilet room.
Patients' shower or bath room.
Day room (40 to 50 square feet per patient—preferably divided into one large and one small room).
Storage closet (occupational and recreational therapy equipment).
Linen closet.
Janitors' closet.
Patients' wash room.
One-third of the nursing units, for both men and women should have one continuous tub room.[1]

Chronic disturbed. This area should be separate from the main group of mental hospital facilities and set apart from the Nursing Areas of other patient classifications because of possible noise or other disturbance. It will be used to treat restless, noisy, assaultive or suicidal patients and must be designed to provide the greatest security and observation. Since these patients are very active it is necessary to have an outdoor area or exercise yard, and due to the amount of equipment and care these patients require, and the resulting necessary space for treatment, not less than two Nursing Units to a building are recommended.

Location: These buildings to be located away from the other Nursing buildings.
General:
Entrance lobby.
Visitors' room.
Visitors' toilets (male and female).
Beauty shop (female buildings).
Barber shop (male buildings).
Attendants' locker and toilet room.
Pantry (for two nursing units).
Mechanical room.
Enclosed exercise yard (100 square feet per patient).
Treatment facilities:
Hydrotherapist's office and toilet.
Continuous tub room.
Linen closet.
Patients' dressing room.
Janitors' closet.
Exercise room (near outdoor exercise yard).
Storage closet (for small gymnasium equipment).
Nursing units (to contain 20 to 30 beds):
Suggested bed distribution of each unit:

	Patients
One 8-bed ward	8
Two 4-bed wards	8
Ten 1-bed rooms	10
Total	26

Facilities in each nursing unit:
Doctors' office with toilet (for each two units).
Examination room.
Nurses' station.
Utility room.
Patients' locker room.
Patients' toilet room.
Patients' wash room.
Patients' shower and dressing room.
Day room (40 to 50 square feet per patient). Preferably divided into (1) small room & (1) large room.
Storage closet (recreational equipment).
Occupational therapy room (one for each two units).
Linen closet.
Janitors' closet.
Dietary:
Dining room—cafeteria service.
Serving kitchen.
Dishwashing room.
Employees' toilet.
Janitors' closet.

Infirm. This area will house patients who are in need of considerable medical care and who may be infirm. The very sick will be transferred to the medical and surgical building, but these patients will need constant and careful nursing. Minimum security and all safety measures will be required, and the nursing units should be complete with all facilities available and readily accessible to an out-door yard or area.

Location: Close to medical and surgical building.
General:
Entrance lobby.
Visitors' room.
Visitors' toilets (male & female).
Barber shop (male buildings).[1]
Beauty shop (female buildings).[1]
Attendants' locker and toilet room (male and female).
Mechanical room.
Enclosed yard (40 square feet per patient).[1]
Nursing units (to contain 30 to 60 beds) suggested bed distribution for each unit:

	Patients
Two 10-bed wards	20
Four 4-bed wards	16
Four 1-bed rooms	4
Total	40

Facilities in each nursing unit:
- Doctors' office (for each 3 units).
- Examination room.
- Nurses' station.
- Utility room.
- Bed pan facilities.
- Pantry and dining room (one for each two units).
- Patients' locker room.
- Patients' wash room.
- Patients' toilet room.
- Patients' dressing room.
- Patients' shower or bath room.
- Day room (30 square feet per patient).
- Storage closet (for recreational and occupational therapy equipment).
- Linen closet.
- Wheel chair and stretcher closet.
- Janitors' closet.

Dietary:
- Serving kitchen.
- Dishwashing room.
- Employees' toilet.
- Janitors' closet.

Inactive. This area will house patients who are lethargic. They need a considerable amount of attention, most of which will be furnished by the physical therapist and occupational therapist. They will be urged into activities furnished in the occupational and recerational therapy buildings, but some of the lighter occupational and physical therapy should be provided in this area. All security and safety measures will be required.

Location: In main group of nursing buildings and near gymnasium and recreation buildings.

General:
- Entrance lobby.
- Visitors' room.
- Visitors' toilets (male and female).
- Occupational therapy room (one to each two nursing units).
- Attendants' locker and toilet room.
- Mechanical room.
- Enclosed yard (100 square feet per patient).[1]

Nursing units (to contain 30 to 50 beds) suggested bed distribution (of each unit):

	Patients
Three 10-bed wards	30
Two 4-bed wards	8
Four 1-bed rooms	4
Total	42

Facilities in each nursing unit:
- Doctors' office (for each 3 units).
- Examination room.
- Nurses' station.
- Utility room.
- Bedpan facilities.
- Pantry (for each 2 units).
- Patients' locker room.
- Patients' wash room.
- Patients' toilet room.
- Patients' shower or bath room.
- Patients' dressing room.
- Day room (40 to 50 square feet per patient and preferably divided into one small and one large room).
- Storage closet (for recreational and occupational therapy equipment).
- Linen closet.
- Janitors' closet.

Dietary:
- Dining room.
- Serving kitchen.
- Dishwashing room.
- Employees' toilet.
- Janitors' closet.

Industrial. This area will house patients who are well enough to be occupied on the grounds, farm, industrial buildings, shops, kitchens, laundry, etc. Less supervision and care is necessary than in the other groups, and these patients can go to the out-patient department of the medical and surgical building for examination and treatment.

Location: In main group of nursing buildings near service buildings.

General:
- Entrance lobby.
- Visitors' room.
- Visitors' toilets (male and female).
- Attendants' locker and toilet room.
- Mechanical room.

Nursing units (to contain 40 to 60 beds) suggested bed distribution:

	Patients
Two 16-bed wards	32
Two 8-bed wards	16
Four 1-bed rooms	4
Total	52

Facilities in each nursing unit:
- Doctors' office and examination room—one for each 3 units.
- Nurses' station.
- Patients' toilet.
- Patients' dressing room.
- Patients' shower room.
- Patients' locker room.
- Patients' wash room.
- Day room (40 to 50 square feet per patient) preferably divided into one small and one large room.
- Storage closet (for recreation equipment).
- Linen closet.
- Janitors' closet.

Medical and surgical. This area will house patients who have been hospitalized from Nursing Units of other classifications for short periods of illnesses, and should be housed in a modern general hospital complete with all facilities to serve the entire mental hospital community. Nursing Units should be arranged for easy segregation of patients and the Adjunct Diagnostic and Treatment facilities are recommended to be on the first or ground floor for easy access to the out-patient department. All security and safety measures should be incorporated in this building. The number of beds shall be approximately 4 percent of the total patients which this buildings serves.

Location: Between main group of nursing area and reception area.

General:
- Entrance lobby.
- Information counter.
- Visitors' toilets (male and female).
- Mechanical room.

Administration:
- Chief physician's office.
- Medical record room.
- Head nurse's office.
- Secretaries' offices.
- Personnel toilets (male and female).

Staff facilities:
- Doctors' locker and shower rooms.
- Nurses' locker and shower room.

Adjunct diagnostic and treatment facilities:
- Laboratory: Separate spaces for office, clinical, pathology, bacteriology and serology, washing, and sterilizing.
- Basal metabolism and electrocardiography: Near laboratory and convenient to out-patient department.
- Morgue and autopsy room:[1] Combination morgue and autopsy with mortuary refrigerator.
- Radiology:
  - Radiographic room with an adjoining dark room and office.
  - X-ray therapy suite.[1]
- Physical therapy: Suite for electro-therapy, stimulative hydro-therapy, and exercise room with adjoining office.
- Pharmacy: Drug room with minimum facilities for mixing. (May be in service area).

Nursing units (to contain from 15 to 30 beds) suggested bed distributions:

Medical wards (25 beds each):

	Patients
Two 4-bed wards	8
Three 2-bed rooms	6
Nine 1-bed rooms	9
Isolation suite[1]	2
Total	25

Surgical wards (25 beds each) same as medical wards.

Employees' wards:[1] Maximum size, 25 to 30 beds.

NOTE: Where isolation suite or contagious disease nursing unit is available the small units in each nursing unit are not required.

Facilities in each nursing unit:
- Doctors' examination room (one for each two nursing units).
- Nurses' station.
- Utility room.
- Bed pan facilities.
- Pantry (one for each two nursing units).
- Patients' bath and shower room.
- Supply closet.
- Patients' toilet room (male and female).
- Day room (approximately 25 square feet per patient). Omit for employees' wards.
- Storage closet (recreational and occupational therapy equipment).
- Stretcher and wheel chair closet.
- Linen closet.
- Janitors' closet.

Surgical department: Should be located to prevent traffic through it to any other part of hospital.

Operating rooms:
- Major: One for each 50 beds up to and including 200 beds. Above 200 beds the number of operating rooms will be based on the expected average of daily operations.
- Minor: One in each hospital over 50 beds.
- Cystoscopy:[1] One in each hospital over 100 beds. Shall have an adjoining toilet room.
- Fracture room: One in each hospital over 100 beds. Shall have an adjoining splint room.

Auxiliary rooms:
- Substerilizing room: One between each two operating rooms in hospituls of 50 beds and over.
- Scrub-up room: One between each two operating rooms.
- Nurses' locker room with toilet and shower.
- Instrument room beginning at 100 beds.
- Clean-up room.
- Anesthesia equipment storage.
- Surgical superviser station.
- Doctors' locker room with toilet and shower
- Storage closet.
- Stretcher closet.
- Storage room for sterile supplies beginning at 100 beds.
- Janitors' closet.
- Dark room beginning at 100 beds.

Central sterilizing and supply room:
- Divided into work space, sterilizing space and sterile storage space.
- Adjacent room for storage of unsterile supplies.

Emergency department:
- Ambulance entrance.
- Receiving bath and toilet.
- Utility room.
- Supply and stretcher storage.
- Emergency operating room, near out-patient department.

Service department:
- Kitchen (serving).
- Dishwashing room.
- Refrigerated garbage room.
- Can washing room.
- Dining rooms (for ⅓ of patients).
- Storage.
- General storage (20 square feet per bed).
- Housekeepers' office.

[1] Desirable but not mandatory.

- Linen storage room.
- Sewing room.
- Linen sorting room.
- Personnel facilities.
- Locker and toilet room (male and female).
- Attendants' locker and toilet room (male and female).

Out-patient department:
- Waiting room.
- Examination and treatment room (including eye, ear, nose and throat rooms and gynecology room).[1]
- Record room.
- Dental suite (2 chairs).
- Electroencephalographic unit.

NOTE: Out-patient department should be convenient to radiology, laboratory, therapy, emergency, etc.

Chronic disease. This area will house patients who have chronic illness, or who are in need of intensive treatment and nursing care or those who, because of infectious diseases, need to be isolated.

Nursing Units of this classification should be attached to the Medical and Surgical building for easy access to the Diagnostic and Treatment facilities.

Not all of these Nursing Units need have maximum safety and security measures.

The number of beds shall be approximately 2 percent of the total number of patients which these buildings serve.

Location: Attached to medical and surgical building.

General: Corridors to service department and adjunct facilities.

Nursing units (to contain from 15 to 30 beds) suggested bed distribution (of each nursing unit)

	Patients
Two 4-bed wards	8
Three 2-bed wards	6
Eight 1-bed rooms	8
Total	22

Facilities in each nursing unit:
- Doctors' office (for each 2 units).
- Examination room.
- Nurses' station.
- Utility room.
- Bed pan facilities.
- Pantry (for each 2 nursing units).

- Administrative:
  - Waiting room with public toilets.
  - Cashiers' and appointment office.
  - Social service offices.
  - Psychological examination rooms.
  - Medical examination rooms.
  - Utility rooms.
  - Children's rooms.

(B–5). *Chronic Disease Hospital—Intensive Nursing Section.*

Administration (for infirmary and home):
- Business office with information counter, telephone switchboard, and cashiers' window.
- Administrator's office.
- Medical director's office.
- Medical record room.
- Medical social service office.
- Combination conference room and doctors' lounge.
- Lobby and waiting room.
- Public toilets.
- Personnel toilets.

Adjunct Diagnostic and Treatment Facilities

Laboratory:
- Two rooms for analyses.
- Sterilizing and glasswashing room.
- Pathologist's office.

Basal metabolism and electrocardiography: One room convenient to Out-Patient Department and laboratory.

Morgue and autopsy: Combination morgue and autopsy with mortuary refrigerator.

Radiology:
- Each hospital to have at least one radiographic room with toilet, adjoining dark room and film filing space.
- The radiology department must be convenient to in- and out-patients and shall have lead protection as required.

Physical therapy: Space should be provided for electrotherapy, massage, hydrotherapy, and exercise.

Pharmacy: Drug room with minimum facilities for compounding. Complete pharmacy may include space for manufacturing and solution preparation depending on policy of hospital. Must be convenient to Out-Patient Department.

Service rooms required:
- Patients' waiting room.
- Toilets.
- Nurses' office.
- Eye, ear, nose and throat room.
- 2 chair dental unit.
- Utility room.
- Doctors' office.
- Treatment room also used as emergency operating room.
- Record room.
- Nurses' and staff locker space.
- Examination cubicles.

Out-patient department: [1]
- If out-patient department is added, in addition to above named service rooms the following space will be required:
- Out-patient waiting room with toilets.
- Admission office.
- Medical social service office.
- Information and cashier space.
- Out-patient department should be located on the most easily accessible floor with an entrance separate from the main entrance to the hospital. It must be convenient to radiology, pharmacy, laboratory, and physical therapy.
- The size will vary in different locations and is not necessarily proportional to the size of the hospital. The patient load must be estimated to determine the number of rooms required.

[1] Desirable but not mandatory.

Nursing Department

General: No room shall have more than 6 beds and not more than 3 beds deep from outside wall. Each room shall have a lavatory. Each nursing unit shall have a quiet room.

Size of nursing unit: 40 to 50 beds.

Minimum room areas:
- 125 square feet in single rooms.
- 96 square feet per person in larger rooms.

Service rooms in each nursing unit:
- Nurses' station.
- Utility room.
- Floor pantry.
- Toilet room for each sex.
- Bed pan facilities.
- Day room.
- Wheel chair parking area.
- Treatment room, one for each 2 nursing units a floor.
- One bath room.
- Stretcher alcove.
- Linen closet.
- Supply closet.
- Janitors' closet.
- Solarium: One for each nursing floor.
- Nurses' toilet: One for each nursing floor.

Service Department

Dietary facilities:
- Main kitchen and bakery.
- Special diet kitchen.
- Dietitians' office.
- Dishwashing room (enclosed).
- Adequate refrigeration.
- Garbage refrigerator.
- Can washing facilities.
- Day storage room.
- Personnel dining space: Provide 12 square feet per person. May be designed for 2 sittings, cafeteria, or table service optional.

Housekeeping facilities:

Laundry:
- Sorting area.
- Processing area.
- Clean linen and sewing room separate from laundry.
- Provision of laundry facilities in hospital will depend upon hospital policy and availability of commercial laundry.
- If laundry is provided, capacities shall be adequate to process full 7 days' laundry in work week.
- Housekeeper's office: Located adjacent to laundry, or if no laundry is provided near central linen supply.

Mechanical facilities:
- Boiler and pump room.
- Engineers' office.
- Maintenance shops.
- Shower and locker facilities.
- In hospitals up to and including 100 beds at least one room shall be provided. In larger hospitals separation of carpentry, painting and plumbing should be provided.
- For minimum requirements for mechanical and electrical work see the respective sections.

Employees' facilities:
- Nurses' locker room without Nurses' home:
  - Locker room with locker for each 4 hospital beds.
  - Rest room.
  - Toilet and shower room.
- Female help lockers:
  - Locker room.
  - Rest room.
  - Toilet and shower room.
- Male help lockers:
  - Locker room.
  - Toilet and shower room.
- Ratio of male and female help will vary and size of locker rooms must be adjusted accordingly.

Storage:
- Inactive record storage.
- Patients' clothes storage room.
- General storage: 20 square feet per bed and to be concentrated in one area.

Ambulant Patient Section

General: Centrally located facilities connected to Intensive Nursing Section, capable of operating jointly, or each of them, detached, providing the best possible flexibility and future extension.

Dining hall: Provide minimum of 16 square feet per person. May be designed for two sittings. Table service, with food prepared in main kitchen of intensive nursing section.

Canteen.

Auditorium:
- Seating capacity capable of seating entire ambulant population of institution.
- Ample space for wheel chairs.
- Arrangement for religious services.
- Wash rooms and toilets.
- Projection facilities.

Beauty parlor and barber shop.

Occupational therapy:
- Office space for the occupational therapist.
- One exhibition space.
- Space 50–60 feet long divided for diversified occupational therapy work.

Recreational therapy:
- Office space for the recreational therapist.
- Class room or rooms.
- Social room or rooms to be at the disposal and use of patients.
- Patients' library facilities.

Bedroom unit:

Room:
- Size 300 square feet (for 2 patients).
- Closet for each person.
- Lavatory in each room.

Common facilities:

Toilet and washroom:
- Water closets—1 to each 5 patients.
- Lavatories—1 to each 5 patients.

Dental Basins—1 to each 8 patients.

Bath tub or shower—1 to each 8 patients.

Janitors' closet each unit.

Linen closet each unit.

Supervisors' room each unit.

Living room and visitors' lounge.

Solarium.

Telephone booths.

Nurses' call system.

General facilities:
- Employees' toilet and locker room.
- Storage—reserve equipment.
- Storage for patients' personal belongings.

(B–6). *Nurses' home.*

Rooms:
- One nurse per room: [1]
  - 120 square feet in single rooms.
  - 150 square feet in double rooms.
- Lavatory in each room.
- Closet for each nurse.

Common floor facilities:
- Lounge with kitchenette to serve approximately each 30 students.
- Laundry room with two trays and two ironing boards to serve approximately each 30 students.
- Bath room: One shower or tub for each 6 beds.
- Toilet room: One water closet for each 6 beds and one lavatory for each 12 beds.
- Linen closet.
- Janitors' closet.
- Telephone facilities.[1]

General facilities:
- Lobby.
- Office.
- Main lounge with alcoves.
- Men's toilet (off lobby).
- Storage room for trunks.
- General storage room.
- Laundry distribution room.
- Employees' toilet room.
- Boiler room (if facilities not available elsewhere).

[1] Desirable but not mandatory.

(B–7). *School of Nursing.*

Teaching facilities:
- One science laboratory room.
- One dietetics laboratory room.
- One nursing arts laboratory with adequate facilities (laboratories to provide facilities for not more than 20 and not less than 12 students).
- One classroom to accommodate approximately twice the number of students as a laboratory.
- One lecture room to accommodate total student body.
- One library.

Offices: Offices for instructors.

General:
- Storage room convenient to classrooms.
- Toilet room.
- Janitors' closet.

(B–8). *Public Health Centers.*

Administration:
- Where health department administration personnel has no offices in health center:
  - Waiting room.
  - Public toilets.
  - Office for public health nurses.
  - Staff toilets.
  - Assembly space: Waiting room may be used for this purpose where health centers serve under 30,000 population.
- Where health department administration offices are provided in health centers add:
  - Health officer's office.
  - Office for sanitary engineers.
  - Health education office.
  - Staff room and library: In health center for over 30,000 population.

Clinical: The clinical services, and extent of such services, provided in the health center will depend on the program contemplated by the health department to take care adequately of the particular needs of the population served by the health center.

For populations up to 30,000:
- Two examination rooms for maternal and child health, V. D. and TB clinics.
- Consultation room.
- Utility room.
- Dental room.

For population over 30,000, if the following services are provided, they shall include areas noted as follows:
- Maternal and child health:
  - Demonstration room.
  - Examining room.
  - Toilet.
- Tuberculosis and X-ray:
  - X-ray room with dressing booths.
  - Dark room.
  - Consultation and viewing room.
- Venereal disease:
  - Examination room.
  - Treatment room.
  - Consultation room.
  - Toilet.
- Dental:
  - 2 Dental chairs.
  - Small dental laboratory.
- Pharmacy: Dispensing room.

Laboratory:

The volume and type of laboratory tests in the health center will vary with local conditions and will determine the size of the laboratory. Such factors as density of population, area to be served, type of center (municipal, county, or rural), its use as a branch of the State Laboratory and availability of other laboratory facilities must be considered.

One room is required for urinalysis, hematology, and dark field examinations for syphilis and storage of biologicals furnished by the State Health Department.

Where food control, sanitation and communicable disease work is contemplated another room shall be furnished for this purpose.
Service:
General storage areas:
Bulk office and janitors' supplies.
Bulk clinical supplies.
Educational material.
Storage closets:
Office supplies.
Medical supplies.
Educational material.
Janitors' closet: Centrally located.
Heating plant.

(B-9). *State Public Health Laboratory.*

Administration department:
Director's office.
Secretary's office.
Assistant Director's office.
Information desk and switchboard.
Clerical office.
Office supply room.
Library.
Staff meeting room.
Records and filing room.
Mailing and receiving room for incoming specimens, distribution of containers and of biologicals.
Specimen and emergency treatment room.
Bacteriology department:
Office.
Water, food and milk laboratory.
Enteric disease and agglutination laboratory.
Tuberculosis laboratory.
Diagnostic laboratory.
Incubator room.
Sterile room.
Rabies room.
Adequate refrigeration.
Syphilis serology department:
Office.
Laboratory: Section of room separated by partitions for centrifuges and preparation of specimens.
Chemistry department:
Office.
Laboratory: Facilities for water, food, drug, toxicology, and/or industrial hygiene analyses.
Instrument room: Facilities for darkening.
Research and investigation:
Laboratory: Complete laboratory facilities within unit.
Biologicals department:
Adequate refrigeration.
Deep freeze unit.
Room temperature storage.
Central services:
Culture media and reagent preparation room.
Glassware cleaning room: Separate sterilizing facilities for contaminated materials.
Acid cleaning unit.
Sterilizing room for culture media and clean glassware only.
Supply room for storage and issue of sterile supplies, general supplies, chemicals, and glassware. Adjacent to sterilizing and glassware cleaning room.
Bulk storage room.
Janitor service room.
Maintenance and utilities unit: Provisions for metal and woodwork, and glassblowing.
Incinerator (animal).
Animal quarters:
Animal rooms.
Room for cleaning and sterilizing cages.
Preparation room for food and bedding.
Operating and animal inoculation room.
Facilities for personnel:
Men's locker room with washroom and shower.
Women's locker room with washroom and shower.
Rest room.
Lunch room.
Staff toilets.

State public health laboratory. If the following activities are included, minimum requirements will be as follows:

Consultation and evaluation service to local laboratories:
Office.
Laboratory.
Manufacture of biologicals:
Office.
Laboratory: Cubicles for isolation work.
Culture media room.
Sterile room.
Sterilizing room.
Glasswashing room.
Adequate refrigeration.
Deep freeze unit.
Storage room, controlled temperature.
Packaging room.
Blood and blood products:
Laboratory: Space and equipment for processing.
Sterile room.
Office (may be shared with biologicals department).
Adequate refrigeration (may be shared with biologicals department).
Storage room (may be shared with biologicals department).
Pathology department: Laboratory.
Clinical laboratory department: Laboratory.
Virology department: This department shall be efficiently isolated from other laboratories including a separate mechanical ventilating system:
Office.
Laboratory: Cubicles for isolation work.
Sterile room.
Sterilizing room.
Inoculation and operating room.
Animal quarters:
Facilities for storage of food and bedding.
Cleaning and sterilizing of cages.
Locker room with washroom and shower.

(B-10). *Details, finishes, etc.* The following general requirements and finishes apply to all hospitals. Conditions in special hospitals, not covered in the general requirements, are specifically noted.

General Requirements for Hospitals

Door widths:
3 feet 10 inches at all: Bed rooms.
Treatment rooms.
Operating rooms.
X-ray therapy rooms.
Delivery rooms.
Solariums.
X-ray rooms.
Physical therapy rooms.
Labor rooms.
5 feet at all: Fracture rooms.

No doors shall swing into the corridor except closet doors.[4]

Corridor widths: 7 feet, 6 inches. (8 feet preferred). A greater width shall be provided at elevator entrances.
Stair widths: Clear width between rails—3 feet, 8 inches.
Elevators: Platform size—5 feet 4 inches x 8 feet. Door opening—3 feet 10 inches. See also mechanical section.
Laundry chutes: Use optional. Where used 2' 0" minimum diameter.
Incinerators: Use optional. See also mechanical section.
Nurses' call system:[4] Call station between each two beds in two-bed rooms and four-bed rooms and one in each one-bed room:
Corridor dome light over each nursing room.
Dome light and buzzer at nurses' station, utility room and floor pantry.
Fire protection: Exits, exit lights, fire towers, construction equipment, etc., shall conform to local and State Codes and the National Board of Fire Underwriters.
Mechanical ventilation: See mechanical section for details.

Chronic Disease Hospitals

Space allowances should be more generous than in other types of hospitals to allow for wheelchair traffic in such areas as dining rooms, recreation rooms, porches and toilets.
Corridors shall be 10 feet wide with handrails on both sides.
Allow wheelchair storage area in infirmaries at the rate of one wheelchair for each two patients.
Water closet enclosures to have handrails on both sides.
Urinals to have vertical bars on each side.
Lavatories to be supported on brackets to allow wheelchairs to slide under.
Raised thresholds at doorways shall be omitted.

Mental Hospitals, Psychiatric Hospitals and Mental Units in General Hospitals

The principles of psychiatric security and safety shall be followed throughout. Materials and details of construction shall be such that patients will not be tempted to escape, suicide, hiding, etc. Care must be taken to avoid projecting sharp corners, exposed piping, heating elements, fixtures, hardware, etc.

Public Health Centers

Width of corridors shall be not less than 5' 0". Greater width preferred.
Windows of examination and treatment rooms shall be glazed with obscure glass to insure privacy.

State Public Health Laboratories

Provide separate airconditioning or ventilation system for bacteriological and virus laboratories with ample supply and exhaust to function properly with closed windows.
Emergency showers shall be provided in chemical laboratories.
Each chemical laboratory room shall have a minimum of two exits.
All windows must be screened.

(B-11). *Finishes.*

Floors:
The floors of the following areas shall have smooth, waterproof, surfaces which are wear resistant:
Toilets.
Baths.
Bedpan rooms.
Floor pantries.
Utility rooms.
Treatment rooms.
Sterilizing rooms.
Janitors' closets.
The floors of the following areas shall be smooth, easily cleaned and acid resistant:
Pharmacies.
Laboratories.
The floors of the following areas shall be waterproof, greaseproof, smooth and resistant to heavy wear:
Kitchens.
Butcher shops.
Food preparation.
Formula rooms.
The floors of the following areas shall have conductive flooring as approved by the National Board of Fire Underwriters:
Operating rooms.
Delivery rooms.
Anesthesia rooms.
Adjoining spaces.
The floors in the following areas shall have a smooth resilient surface which is easily cleaned: Patient rooms.

[4] Does not apply to: mental hospitals, psychiatric hospitals or mental units in general hospitals.

Walls:
The walls of the following areas shall have a smooth surface with painted or equal washable finish in light color. They shall be without cracks and, in conjunction with floors, shall be waterproof and free from cracks and spaces which may harbour ants and roaches:
All rooms where food and drink are prepared, served or stored.
The walls of the following areas shall have waterproof painted, glazed or similar finishes to a point above the splash or spray line:
Kitchens.
Sculleries.
Utility rooms.
Baths.
Showers.
Dishwashing rooms.
Janitors' closets.
Sterilizing rooms.
Spaces with sinks.
The walls of the following areas shall have waterproof glazed, painted or similar surface which will withstand washing to a distance of not less than 5' 0":
Operating rooms.
Delivery rooms.
Ceilings:
The ceilings of the following areas shall be painted with waterproof paint:
Operating rooms.
Delivery rooms.
All sculleries, kitchens and other rooms where food and drink are prepared.
The ceilings of the following areas shall be acoustically treated:
Corridors in patient areas.
Nurses' stations.
Labor rooms.
Utility rooms.
Floor pantries.

State Public Health Laboratory

Floors:
Resilient, smooth and stain resistant: All laboratories other than chemistry laboratories.
Resilient, smooth and acid resistant: Chemistry laboratories.
Smooth, waterproof, grease-proof, easily cleaned, non-slip, resistant to heavy traffic:
Culture media rooms.
Glasswashing rooms.
Sterilization rooms.
Acid cleaning rooms.
Animal rooms.
Walls:
Waterproof, painted, glazed or similar finishes to a point above the splash or spray line. They shall be without cracks, and in conjunction with floors, shall be waterproof and free of cracks and spaces which may harbor ants and roaches:
Laboratories.
Incubator rooms.
Sterilizing rooms.
Culture media rooms.
Glasswashing rooms.
Acid cleaning rooms.
Inoculation and operating rooms.
Animal rooms.
Same as above, but finish to reach to ceiling: Sterile rooms.
Ceilings: Waterproof painted: Sterile rooms.
Shelves and cabinets: Shelves and cabinets which are used for the storage of food, dishes, and cooking utensils shall be so constructed and mounted that there shall be no openings or spaces which cannot be cleaned and which might harbor vermin or insects. Cabinets which are used for the storage of open food containers and dishes shall be dust tight.

III-C. *Structural—A. Codes.* All construction shall be in accordance with the applicable local and State building codes and regulations. In areas which are not subject to local or State building codes, the recommendations of the following nationally recognized technical and engineering authorities shall be adopted insofar as such recommendations are not in conflict with the minimum general standards as set forth herein.

1. *American Concrete Institute.* (a) For good engineering practice in the design, erection, allowable working stresses, and for the mixing and placing of concrete on structures built of reinforced concrete.
(b) For standard specifications for cast stone.
2. *American Standards Association.* (a) For standard practice in masonry construction.
(b) For the design and erection of structural steel for buildings (the American Institute of Steel Construction Code).
(c) For good practice in gypsum plastering, including requirements for lathing and furring.
(d) For good practice in the design and erection of reinforced gypsum concrete.
(e) For safe practice in the design and construction of elevators and dumbwaiters.
3. *American Society of Testing Materials.* (a) For the specifications on, and the methods of testing, for metals and the materials of masonry construction.
(b) For the methods of standard fire tests of building construction and materials and for the methods of fire tests of door assemblies.
4. *National Lumber Manufacturers' Association.* (a) For good practice in the use of wood in types of construction of which it is a part, and for the working stresses of stress-grade lumber and its fastenings.
5. *National Board of Fire Underwriters.* (a) For estimated and tested fire-resistance ratings of materials and constructions.
(b) For safe practice in the design and construction of chimneys and metal smoke stacks.
6. *National Bureau of Standards.* (a) Publication BMS 92 and other data for tested fire-resistive ratings of materials and constructions.

B. *Design data—General.* The buildings and all parts thereof shall be of sufficient strength to support all dead, live, and lateral loads without exceeding the working-stresses permitted for the materials of their construction in generally accepted good engineering practice.

Special. Special provisions shall be made for machines or apparatus loads which would cause a greater load than the specified minimum live load.

Consideration shall be given to structural members and connections of structures which may be subject to hurricanes or tornadoes. Floor areas where partition locations are subject to change shall be designed to support, in addition to all other loads, a uniformly distributed load of 25 p. s. f.

Live loads. The following unit live loads shall be taken as the minimum distributed live loads for the occupancies listed:

Hospital wards and bedrooms, 40 p. s. f.
Corridors above second floor, solariums and miscellaneous service rooms, 60 p. s. f.
Offices, treatment rooms, operating rooms, conference rooms, toilet and locker rooms, laboratories, kitchens, 80 p. s. f.
Corridors on first and second floors, library, assembly, lounges and recreation, waiting room, dining, laundry, 100 p. s. f.
Records File room, storage, supply, 125 p. s. f.
Mechanical equipment room, 150 p. s. f.
Roofs (except use increased value where snow and ice may occur), 20 p. s. f.
Wind (as required by local conditions, but) not less than 15 p. s. f.
Earthquake—for structures located within an area subject to earthquake shocks, refer to "Uniform Building Code" of the Pacific Coast Building Officials Conference.

C. *Construction.* Foundations shall rest on natural solid ground and shall be carried to a depth of not less than one foot below the estimated frost line or shall rest on leveled rock or load-bearing piles when solid ground is not encountered. Footings, piers, and foundation walls shall be adequately protected against deterioration from the action of ground water. Reasonable care shall be taken to establish proper soil-bearing values for the soil at the building site. If the bearing capacity of a soil is not definitely known or is in question, a recognized load test may be used to determine the safe bearing value.

One-story buildings shall be constructed of not less than one-hour fire-resistive construction throughout except that boiler rooms, heating rooms, and combustible storage rooms shall be of three-hour fire-resistive construction.

Buildings more than one story in height shall be constructed of incombustible materials, using a structural framework of reinforced concrete or structural steel except that masonry walls and piers may be utilized for buildings up to three stories in height not accounting for Penthouses. The various elements of such buildings shall meet the following fire-resistive requirements:

Walls:	Hours
Party and firewalls	4
Exterior bearing walls	3
Exterior panel and curtain walls	3
Inner court walls	3
Bearing partitions	3
Non-load bearing partitions	1
Enclosures for stairs, elevators and other vertical openings	2
Columns, girders, beams, trusses	3
Floor panels (including beams and joists in same)	2
Roof panels (including beams and joists in same)	2

Stairs and platforms shall be reinforced concrete or structural steel with hard incombustible materials for the finish of risers and treads.
Rooms housing furnaces, boilers, combustible storage or other facilities which may provide fire hazards shall be constructed of 3-hour fire-resistive construction.

III D. *Mechanical—1. Heating; steam piping and ventilation—Codes.* The heating system, steam piping, boilers and ventilation shall be furnished and installed to meet all requirements of the local and State codes and regulations, and the regulations of the National Board of Fire Underwriters and the minimum general standards as set forth herein. Where there is no local or State boiler code, the recommendations of the A. S. M. E. shall apply. Gas fired equipment shall comply with the regulations of the American Gas Association.

Boilers. Boilers shall have the necessary capacity when operating at normal rating to supply the heating system, hot water, and steam operated equipment, such as sterilizers, laundry and kitchen equipment. Spare boiler capacity shall also be provided in a separate unit to replace any boiler which might break down. Boilers which supply high pressure steam to sterilizers, kitchens, laundry, etc., shall meet the requirements of the city and State boiler codes for 125 pounds working pressure. Boilers for laundries shall be operated at not less than 125 pounds pressure while boilers for sterilizers and kitchen may operate at 50 pounds pressure.

Heating system. The building shall be heated by a hot water, steam, or equal type heating system.

Steam system. A system of Steam and Return Mains and Connections shall be provided to supply all equipment which requires steam heat.

Boiler accessories. Boiler feed pumps, return pumps and circulating pumps shall be furnished in duplicate, with feeder water heater, each of which has a capacity to carry the full load. Blow off valves, relief valves, non-return valves and fittings shall be provided to meet the requirements of the City and State Codes.

Radiation. The necessary radiation shall be furnished in each room and occupied space to maintain a temperature of 70° F. except in operating, delivery, and nurseries where a temperature of 75° F. shall be maintained. Each radiator shall be provided with hand control valve.

Piping. Steam and hot water heating piping shall be installed with standard weight steel or iron pipe and cast iron fittings. Pipe used in heating and steam systems shall not be smaller sizes than prescribed by the latest edition of the Heating, Ventilating and Air Conditioning Guide. The ends of all steam mains and low points in steam mains shall be dripped.

Valves. Steam, return and heating risers, steam return, and heating mains shall be controlled separately by a valve. Each steam and return main shall be valved. Each piece of equipment supplied with steam shall be valved on the supply and return ends.

Thermostatic control. The heating system shall be thermostatically controlled in one or more zones.

Auxiliary heat. Auxiliary radiators shall be provided in operating rooms, delivery rooms, and nurseries to supply heat when the main heating system is not in operation.

Coverings. Boilers and smoke breeching shall be insulated with covering not less than 1" Magnesia blocks and ½" plastic asbestos finish. All high pressure steam and high pressure return piping shall be insulated with covering not less than the equivalent of 1" four ply asbestos covering. Heating mains in the boiler room, in excavated spaces, unexcavated spaces, and where concealed, shall be insulated with covering not less than 1" asbestos air cell.

Ventilation. Rooms which do not have outside windows and which are used by hospital personnel, such as Utility rooms, Toilets, Bed pan rooms, and Baths, and Sterilizer rooms, shall be provided with forced or suitable ventilation to change the air at least once every six minutes.

Kitchens, morgues and laundries which are located inside the hospital building shall be ventilated by exhaust systems which will discharge the air above the main roof or 50' 0" from any window. The ventilation of these spaces shall comply with the State or Local Codes but if no code governs, the air in the work spaces shall be exhausted at least once every six minutes with the greater part of the air being taken from the flat work ironer and ranges. Rooms used for the storage of inflammable material shall be ventilated to the outside air with intake and discharge ducts.

The operating and delivery rooms shall be provided with a supply ventilating system with heaters and humidifiers which will change the air at least eight times per hour by supplying fresh filtered air humidified to prevent static. No recirculation will be permitted. The air shall be removed from these rooms by forced system of exhaust. The sterilizing rooms adjoining these rooms shall be furnished with separate exhaust ventilating systems.

Incinerator. If coal fixed boilers are not used incinerators shall be provided. If provided, the incinerator shall be of a design that will completely burn 50% wet garbage without objectionable smoke or odor. It shall be designed with drying hearth, grates and combustion chamber lined with 9" fire brick. The gases shall be carried to a point above the roof of the hospital.

Tests. The systems shall be tested to demonstrate to the satisfaction of the State agencies having jurisdiction that: The boilers will carry the full load with one boiler in reserve, that the steam supply to all steam heated equipment is ample, that the ventilating equipment meets the minimum requirements and that all systems circulated satisfactorily without leaks or noise.

Health centers, nurses homes and laboratories. High pressure steam and a spare boiler, will not be required for a Health Center, Nurses Homes, and Laboratory building. Incinerators are not mandatory but are recommended in Health Centers, Laboratories and Nurses Homes.

Separate special ventilation or air-conditioning systems are required for the bacteriological and virus laboratories.

Mental hospitals. Radiators, grilles, pipes, valves and equipment shall be so located that they are not accessible to patients. Hot air heating may be used for spaces occupied by mental cases.

2. *Plumbing and drainage.* All parts of the plumbing systems shall comply with all applicable local and State codes and the requirements of the State Department of Health and the minimum general standards as set forth herein. Where no State or local codes are in force or where such codes do not cover special hospital equipment, appliances, and water piping, the National Bureau of Standards Plumbing Manual BMS 66 shall apply.

Water service. The water supply available for the hospital shall be tested and approved by the State Department of Health.

The water service shall be brought into the building to comply with the requirements of the local water department and shall be free of cross connections.

Hot water heaters and tanks. The hot water heating and storage equipment shall have sufficient capacity to supply 5 gallons of water at 150° F. per hour per bed for hospital fixtures, and 8 gallons at 180° F. per hour per bed for the laundry and kitchen.

The hot water storage tank or tanks shall have a capacity equal to 80% of the heater capacity.

Where direct fired hot water heaters are used they shall be of an approved high pressure cast iron type. Submerged steam heating coils shall be of copper. Storage tanks shall be of non-corrosive metal or be lined with non-corrosive material to comply with the A. S. M. E. Code for pressure vessels. Tanks and heaters shall be fitted with vacuum and relief valves, and where the water is heated by coal or gas they shall have thermostatic relief valves. Heaters shall be thermostatically controlled.

Water supply systems. From the cold water service and hot water tanks, cold water and hot water mains and branches shall be run to supply all plumbing fixtures and equipment which require hot or cold water or both for their operation. Pipes shall be sized to supply water to all fixtures with a minimum pressure of 15 pounds at the top floor fixtures during maximum demand periods. All plumbing fixtures except water closets, bed pan washers and drinking fountains shall have both hot and cold water supplies. Every supply outlet or connection to a fixture or appliance shall be protected against back flow in accordance with the provisions of standards for air gaps and backflow preventors as provided by plumbing Standards ASA-40.4 and 40.6. Wherever the usage of fixture or appliance will permit, water supplied to all fixtures, open tanks and equipment, shall be introduced through a suitable air gap between the water supply and the flood level of the fixture. No connections shall be made which will permit back-flow.

Hot water circulating mains and risers shall be run from the hot water storage tank to a point directly below the highest fixture at the end of each branch main. Where the building is higher than 3 stories, each riser shall be circulated. Water pipe sizes shall be equal to those prescribed by the National Bureau of Standards Report BMS 66.

Drainage system. All fixtures and equipment shall be connected through traps to soil and waste piping and to the sewer. Indirect wastes pipes shall be installed in waste connections as required by BMS 66. All drainage and vent systems shall be designed and installed in accordance with the City and State Codes and the Plumbing Manual BMS 66 of the National Bureau of Standards where a city or State code is not in force.

Rain water drains. Leaders shall be provided to drain the water from roof areas to a point from which it cannot flow into the basement or areas around the building. Courts, yards, and drives which do not have natural drainage from the building shall have catch basins and drains to low ground, storm water system, or dry wells. Where dry wells are used they shall be located at least 20'0" from the building.

Gas piping. Gas appliances shall be approved by the American Gas Association and shall be connected in accordance with the requirements of the company furnishing the gas.

Oxygen piping, outlets and manifolds where used shall be installed in accordance with the requirements of the company which will furnish the gas.

Pipe. The building drain, to a point 5'0" from the building, shall be of cast iron. Soil stacks, drains, vents, waste lines, and leaders shall be of cast iron or steel except drain lines in back-fill or soil shall be of cast iron. Oxygen lines shall be of copper tubing not lighter than type "L" or I. P. S. red brass with fittings of brass or copper. Drains from sinks which use chemicals shall be of approved acid resistant metal. Gas piping shall be of black iron with malleable fittings or copper tubing.

Valves. Each main, branch main, riser and branch to a group of fixtures of the water systems shall be valved.

Insulation. Tanks and heaters shall be insulated with covering equal to 1" 4-ply air cell.

Hot water and circulating pipes shall be insulated with covering equal to canvas jacketed 3-ply asbestos air cell.

Cold water mains in occupied spaces and in store rooms shall be insulated with canvased jacketed felt covering to prevent condensation. All pipes in outside walls shall also be insulated to prevent freezing.

Stand pipe system. The stand pipe system shall be installed as required by the local and State departments having jurisdiction and the National Board of Fire Underwriters.

Plumbing fixtures. The material used for plumbing fixtures shall be of an approved non-absorptive acid resisting material.

Water closets in and adjoining patients' areas shall be of a quiet operating types.

Flush valves shall have non-return stops and an acceptable back-flow preventer. Flush valves in rooms adjoining patients' rooms shall be designed for quiet operation with quiet acting stops.

Faucet spouts shall have the discharge openings above the rim of the fixture. Goose neck spouts shall be used for patients' lavatories, nurses' lavatories and sinks which may be used for filling pitchers. Knee or elbow action faucets shall be used for doctors' wash-up, utility and clinic sinks and in treatment rooms. Elbow or wrist action spade handles control shall be used on other lavatories and sinks used by doctors or nurses. Drinking fountains, where used, shall comply with the A. S. A. Std: A4.2-1942.

Tests. All soil, waste, vents and drain lines shall be tested by water or air test before they are built in.

A smoke or chemical test shall be applied after fixtures have been set. Water pipe shall be hydraulically tested to a pressure equal to twice the working pressure. The tests shall demonstrate to the satisfaction of the State Health Department and that there are no leaks, that hot water mains and risers are circulating, that all traps are properly vented; that there is ample supply of hot and cold water to all fixtures, that no fixture or equipment can be back syphoned and that there are no back-flow connections.

Sterilizers. Sterilizers and autoclaves shall be provided of the required types and necessary capacity to adequately sterilize instruments, utensils dressings, water, operating room material, such as gloves, sutures, etc., and as required for laboratories. The sterilizers shall be of recognized hospital types with approved controls and safety features.

Mental and T. B. hospitals. Plumbing fixtures which require hot water and which are accessible to mental patients shall be supplied with water which is thermostatically controlled to provide a maximum water temperature of 110° F. at the fixture.

Special consideration shall be given to piping, controls and fittings of plumbing fixtures as required by the types of mental patient and the doctor in charge of planning. No pipes or traps shall be exposed and fixtures shall be substantially bolted through walls. Generally, for disturbed patients prison type water closets without seats shall be used and shower and bath controls shall not be accessible to patients.

The hot water heat and tank capacities for laundries in T. B. and mental hospitals may be reduced to 40% of that required for general hospitals.

Laboratories, nurses home and health centers. Emergency quick acting cold water showers are required at convenient points in chemical laboratories.

Only one system of hot water will be required in laboratories, nurses homes and health centers and the elbow or knee action lavatory and sink faucet handles will be required only in clinical rooms of health centers.

3. *Electrical installations—Codes and regulations.* The installation of electrical work and equipment shall comply with all local and State codes and laws applicable to electrical installations and the minimum general standards as set forth herein. Where such codes and laws are not in effect or where they do not cover special installations the National Electrical Code shall apply. The regulations of the local utility company shall govern service connections. All materials shall be new and shall equal standards established by the Underwriters Laboratories, Inc. Certificates of approval shall be issued by these departments having jurisdiction before the work will be approved for final payment.

Service. Connections from the service mains, with meter connections and service switches shall be installed as required by the Public Service Company.

Feeders and circuits. Separate power and light feeders shall be run from the service to a main switchboard and from there sub-feeders shall be provided to the motors and power and light distributing panels. From the power panels feeders shall be provided for large motors, and circuits from the light panels shall be run to the lighting outlets. Large heating elements shall be supplied by separate feeders from the Power or Light Service as directed by the local Public Service Company. Independent feeders shall be furnished for X-ray equipment.

Switchboard and power panels. Circuit breakers or dead front type fused switches shall be installed to protect all feedefs and sub-feeders. Motors shall be connected with breakers or fused switches.

Light panels. Light panels shall be provided on each floor for the lighting circuits on that floor. Light panels shall be located near the load centers not more than 100'0" from the farthest outlet. Receptacles for special equipment shall be of a heavy duty type on separate circuits.

Lighting outlets, receptacles and switches. All occupied areas shall be adequately lighted as required by duties performed in the space. Patients' bedrooms shall have as a minimum general illumination, a bracket or receptacle for each bed, a duplex receptacle for each two beds for doctor's examination, and a night light. The outlets for general illumination and night lights shall be switched at the door. Switches in patients' rooms shall be of an approved mercury or equal, quiet operating type, or shall be placed in the corridor. Operating and delivery rooms shall be provided with special lights for the tables each on an independent circuit and for general illumination. Not less than three 3-point grounded explosion proof receptacles shall be provided in each room. Each operating room shall have a film-viewing box of an explosion-proof type. Grounding shall be provided for floors in the operating, anesthesia, and delivery sections.

Emergency lighting. Emergency lighting shall be provided for exits, stairs, and patient corridors which shall be supplied by an emergency service, an automatic emergency generator or battery with automatic switch. Operating and delivery room lights shall be connected with an automatic transfer switch which will throw the circuits to the emergency service in case of current failure. Should an emergency service from the street be used it shall be from a generating plant independent of that used for the main electric service.

Nurses' call. Each patient shall be furnished with a nurses' call station which will register a call from the patient; at the corridor door, at the nurses' station, and in each pantry and utility room of the nursing unit. A duplex unit may be used for 2 patients. Indicating lights shall be provided at each station where there are more than two beds in a room. Wiring for nurses' call systems shall be installed in conduit.

Lighting fixtures. Lighting fixtures shall be furnished for all lighting outlets. They shall be of a type suitable for the space. Should ceiling lights be used in patients' rooms, they shall be of a type which does not shine in the patients' eyes.

Tests. Lighting fixtures, all wiring and equipment shall be tested to show that it is free from grounds, shorts or open circuits.

Health centers, nurses' homes and laboratories. Emergency lighting and call systems will not be required in health centers, nurses' homes and laboratories except as provided for by local and State codes.

Mental hospitals. No lighting fixtures, switches, receptacles or electrical equipment shall be accessible to mental patients.

Nurses' call systems will not be required in areas occupied by mental patients.

4. *Elevators and dumbwaiters—Codes.* The elevator installations shall comply with all local and State Codes, American Standard Safety Code for Elevators, the National Board of Fire Underwriters, the National Electric Codes, and the minimum general standards as set forth herein.

Number of cars. Any hospital with patients on one or more floors above the first or where the operating or delivery rooms are above the first floor shall have at least one electric motor driven elevator. Hospitals with a bed capacity of 60 to 200 shall have not less than two elevators. Hospitals with a bed capacity of from 150 to 350 above the first floor shall have not less than 3 elevators, two passenger and one service. A larger number may be required by the hospital plan, a large visitors' traffic and food distribution.

Elevators with a rise of more than 6 stories require special consideration.

Cab. Cabs shall be constructed with fireproof material. Passenger cab platforms shall be not less than 5' 4" x 8' 0" with a capacity of 3,500 pounds. Service elevators shall be of sufficient size to receive a stretcher with patient.

Cab and shaft doors shall be not less than 8' 10" clear opening.

Controls. Elevators, for which operators will not be employed, shall have automatic push button control, signal control or dual control for use with or without operator. Where two push button elevators are located together and where one such elevator serves more than three floors and basement, they shall have collective or signal control. Where the car has a speed of more than 100' 0" per minute or has a rise of four or more floors, the elevator shall be equipped with automatic self-leveling control which will automatically bring the car platform level with the landing with no load or full load. Multivoltage or variable voltage machines shall be used where speeds are greater than 150' 0" per minute. For speeds above 350° 0" per minute, the elevators shall be of the gearless type.

Dumbwaiters. Dumbwaiter cabs shall be not less than 24" x 24" x 36" of steel with one shelf to operate at speed of 50 to 100' per minute when carrying a load of 100 pounds. Dumbwaiters serving basement and four floors shall have a minimum speed of 100' 0".

Tests. Elevator machines shall be tested for speed and load with and without loads in both directions and shall be given overspeed tests as covered by the "Safety Code for Elevators."

5. *Refrigeration—Codes.* The refrigerators and refrigerating systems shall be furnished and installed to meet all requirements of the local and State Codes and regulations, the National Board of Fire Underwriters, and the minimum general standards as set forth herein.

This section shall include portable refrigerators, built-in refrigerators, garbage refrigeration, ice-making and refrigerator equipment, morgue boxes.

Box construction. Boxes shall be insulated with waterproof, nonabsorbent, verminproof insulation. For the portable boxes, the insulation in the doors and walls shall be equal to 2" cork. Outer walls and doors of the walk-in boxes shall have insulation equal to 4" cork. Boxes shall be lined with nonabsorbent sanitary material which will withstand the heavy use to which it will be subjected and constructed so as to be easily cleaned.

Refrigerators of adequate capacity shall be provided in all kitchens and other preparation centers, where perishable foods will be stored.

In the main kitchen, a minimum of two separate sections or boxes shall be provided, one for meats and dairy products, and one for general storage.

Refrigerator machines. Toxic, "irritant", or inflammable refrigerants shall not be used in refrigerator machines located in buildings occupied by patients.

The compressors and evaporators shall have sufficient capacity to maintain temperatures of 35° F. in the meat and dairy boxes, and 40° F. in the general storage boxes when the boxes are being used normally. Compressors shall be automatically controlled.

Tests. Compressors, piping, and evaporators shall be tested for leaks and capacity.

6. *Kitchen equipment—Codes.* The kitchen equipment shall be so constructed and installed as to comply with the applicable local and State laws, codes, regulations and requirements, and with the applicable sanitation standards of Public Health Bulletin No. 280, entitled "Ordinance and Code Regulating Eating and Drinking Establishments, recommended by the U. S. Public

Health Service," and with the minimum general standards set forth herein.

Equipment. The equipment shall be adequate and so arranged as to enable the storage, preparation, cooking, and serving of food and drink to patients, staff and employees to be done in an efficient and sanitary manner. The equipment shall be selected and arranged in accordance with the types of food service adopted for the hospital.

Adequate cabinets or other facilities shall be provided for the storage or display of food, drink, and utensils, and shall be designed as to protect them from contamination by insects, rodents, other vermin, splash, dust, and overhead leakage.

Adequate facilities shall be provided for the washing and bactericidal treatment of utensils used for eating, drinking, and food preparation. Where utensils are to be washed by hand, there shall be provided an adequate sink equipped with heating facilities to maintain a water temperature of at least 170° F. in the bactericidal treatment compartment throughout the dishwashing period. Where utensils are to be washed by machine, there shall be provided facilities for supplying to the dishwashing machine an adequate supply of rinse water at 170° F., measured at the rinse sprays, throughout the dishwashing period. All tables, shelves, counters, display cases, stoves, hoods, and similar equipment shall be so constructed as to be easily cleaned and shall be free of inaccessible spaces providing harborage for vermin. Where there is not sufficient space between equipment and the walls or floor to permit easy cleaning, the equipment shall be set tight against the walls or floor and the joint properly sealed. All utensils and equipment surfaces with which food or drink comes in contact shall be of smooth, not readily corrodable material free of breaks, corrosion, open seams or cracks, chipped places, and V-type threads. All surfaces with which food or drink comes in contact shall be easily accessible for inspection and cleaning and shall be self-draining, and shall not contain or be plated with cadmium or lead. All water supply and waste line connections to kitchen equipment shall be installed in compliance with the plumbing requirements of these standards.

7. *Laundry—Codes.* The laundry equipment shall be designed and installed to comply with all local and State codes and laws, and the requirements of the State Department of Health and the minimum general standards as set forth herein.

Where laundries are provided they shall be complete with washers, extractors, tumblers, ironer and presses which shall be provided with all safety appliances and sanitary requirements.

Washers. There shall be at least two washers which shall have a combined rated capacity of not less than 12 pounds of dry laundry per day per patient bed, when operating not more than 40 hours per week.

Ironer. Provide one flat work ironer with a capacity equal to 70% of the washer capacity when operating 40 hours per week.

Extractor. There shall be not less than one extractor with a daily capacity equal to that given above for the washers and for hospitals with more than 100 beds there shall be two extractors.

Tumbler. Provide a minimum of one tumbler with a rated capacity equal to 25% of the washers, when operating 40 hours per week.

Presses. For finished work provide not less than 1 nurses uniform unit consisting of 3 presses or one utility unit with 2 presses which shall be increased for the larger hospitals.

Wash tubs. Provide 2 wash tubs.

Mental and T. B. hospitals. The capacity per bed of laundry equipment for T. B. and Mental hospitals shall be 40% of that required for general hospitals.

III (E). *Preparation of plans, specifications & estimates.* The requirements contained herein have been established for the guidance of the Applicant and the Architect to provide a standard method of preparation of drawings, specifications and estimates.

It is is expected that the applicant will find it advantageous to submit the material through the State Agency in three stages for its recommendation and approval. However, the applicant may, if he so elects, combine the first two stages.

If the data required under stage 3 is available, it may be submitted without the drawings required under stages one and two.

Copies of the final working drawings and specifications previously submitted under stage three will be submitted for approval with the formal application for the project. The requirements for the material submitted at each of the three stages are as follows.

Drawings and specifications—1. (*First stage*) *program and schematic plans*—(a) *Program.* List in outline form the rooms or spaces to be included in each department, explaining the functions or services to be provided in each, indicating the approximate size, the number of personnel and the kind of equipment or furniture it will contain. Note any special or unusual services or equipment to be included in the facility.

If a hospital project, submit a schedule showing the total number of beds, their distribution in room and in the services, such as medicine, surgery, obstetrics, etc.

(b) *Schematic plans.* Single line drawings of each floor showing the relationship of the various departments or services to each other and the room arrangement in each department. The name of each room should be noted. The proposed roads and walks, service and entrance courts, parking and orientation may be shown on either a small plot plan or the 1st floor plan. Simple vertical space diagram should be submitted at this stage.

(c) *Construction outline.* A brief description of the type of construction.

(d) *Description of site.* If a survey has been made, a plat shall be submitted at this time, if not it should be submitted with the Preliminary Plans. (Second Stage). In lieu of a plat of the survey, a description of the site may be submitted at this time. This shall note the general characteristics of the site, easement, availability of electricity, water and sewer lines, main roadway approaches, direction of prevailing breezes, orientation, etc. A map indicating location of the hospital in its geographic area with particular reference to recommendation given under Site III A, should be submitted.

(e) *Preliminary cost estimates.*

2. (*Second stage*) *preliminary plans, elevations, and outline specifications.* (A) Development of the preliminary sketch plans indicating in more detail the assignment of all spaces, size of areas and rooms, indicating in outline, the fixed and movable equipment and furniture.

The plans shall be drawn a scale sufficiently large to clearly present the proposed design.

The total floor area shall be computed and shown on the drawings.

The drawings shall include (1) a plan of each floor including the basement or ground floor, (2) Roof plan, (3) Approach plan showing roads, parking areas, sidewalks, etc., (4) elevations of all facades, (5) sections through the building.

A print of the "Site Survey and Soil Information" which is described under another section of this manual shall be included unless it has already been submitted in Stage I.

(B) Outline specifications shall provide a general description of the construction including interior finishes; accoustical material, its extent and type; extent of the conductive floor covering; heating and ventilating systems; and the type of elevators.

(C) Revised cost estimates.

3. (*Third stage*) *working drawings and specifications.* (A) All working drawings shall be well prepared so that clear and distinct prints may be obtained; accurately dimensioned and include all necessary explanatory notes, schedules and legends. Working drawings shall be complete and adequate for contract purposes. Separate drawings shall be prepared for each of the following branches of work: Architectural, Structural, Mechanical, Electrical. They shall include or contain the following:

1. *Architectural drawings.* (a) Approach plan showing all new topography, newly established levels and grades, existing structures on the site (if any), new buildings and structures, roadways, walks, and the extent of the areas to be seeded. All structures and improvements which are to be removed under the construction contract shall be shown. A print of the survey shall be included with the working drawings for the information of bidders only. The survey shall not be made a contract drawing.

(b) Plan of each floor and roof.

(c) Elevations of each facade.

(d) Sections through building.

(e) Scale and full size details as necessary; scale details at one and one-half (1½) inches to the foot may be necessary to properly indicate portions of the work. Full size details may be prepared after award of construction contract.

(f) Schedule of finishes.

2. *Equipment drawings.* (a) Large scale drawings of typical and special rooms indicating all fixed equipment and major items of furniture and movable equipment. The furniture and movable equipment will not be included in the construction contract but should be indicated by dotted lines.

3. *Structural drawings.* (a) Plans of foundations, floors, roofs and all intermediate levels shall show a complete design with sizes, sections, and the relative location of the various members. Schedule of beams, girders and columns.

(b) Floor levels, column centers, and offsets shall be dimensioned.

(c) Special openings and pipe sleeves shall be dimensioned or otherwise noted for easy reference.

(d) Details of all special connections assemblies and expansion joints shall be given.

(e) Notes on design data shall include the name of the governing building code, values of allowable unit stresses, assumed live loads, wind loads, earthquake load, and soil-bearing pressures.

(f) For special structures, a stress sheet shall be incorporated in the drawings showing:

(1) Outline of the structure,

(2) All load assumptions used,

(3) Stresses and bending moments separately for each kind of loading.

(4) Maximum stress and/or bending moment for which each member is designed, when not readily apparent from (3),

(5) Horizontal and vertical reactions at column bases.

4. *Mechanical drawings.* These drawings with specifications shall show the complete heating, steam piping and ventilation systems; plumbing, drainage and stand pipe systems; and laundry.

(a) *Heating, steam piping and ventilation.* (1) Radiators and steam heated equipment, such as sterilizers, warmers and steam tables.

(2) Heating and steam mains and branches with pipe sizes.

(3) Diagram of heating and steam risers with pipe sizes.

(4) Sizes, types and heating surfaces of boilers, furnaces, with stokers and oil burners, if any.

(5) Pumps, tanks, boiler breeching and piping and boiler room accessories.

(6) Air conditioning systems with refrigerators, water and refrigerant piping, and ducts.

(7) Exhaust and supply ventilating systems with steam connections and piping.

(b) *Plumbing, drainage and stand pipe systems.* (1) Size and elevation of: Street sewer, house sewer, house drains, street water main and water service into the building.

(2) Location and size of soil, waste, and vent stacks with connections to house drains, fixtures and equipment.

(3) Size and location of hot, cold and circulating mains, branches and risers from the service entrance and tanks.

(4) Riser diagram to show all plumbing, stacks with vents, water risers and fixture connections.

(5) Gas, oxygen and special connections.

(6) Standpipe system.

(7) Plumbing fixtures and fixtures which require water and drain connections.

(c) *Elevators and dumbwaiters.* Shaft details and dimensions, size car platform and doors; travel, pit and machine room.

(d) Kitchens, Laundry Refrigeration and Laboratories shall be detailed at a satisfactory scale to show the location, size and connection of all fixed and movable equipment.

5. *Electrical drawings.* Drawings shall show all electrical wiring, outlets, and equipment which require electrical connections.

(a) Electrical service entrance with service switches, service feeders to the public service feeders and characteristics of the light and power current. Transformers and their connections if located in the building, shall be shown.

(b) Plan and diagram showing main switchboard, power panels, light panels and equipment. Feeder and conduit sizes shall be shown with schedule of feeder breakers or switches.

(c) Light outlets, receptacles, switches, power outlets and circuits.

(d) Telephone layout showing service entrance, telephone switchboard, strip boxes, telephone outlets and branch conduits as approved by the Telephone Co. Where public telephones are used for inter-communication, provide separate room and conduits for racks and automatic switching equipment as required by the Telephone Company.

(e) Nurses' call systems with outlets for beds, duty stations, door signal lights, annunciators and wiring diagrams.

(f) Doctors' call and doctors' in-and-out systems with all equipment wiring, if provided.

(g) Fire alarm system with stations, gongs, control board and wiring diagrams.

(h) Emergency lighting system with outlets, transfer switch, source of supply, feeders and circuits.

6. *Additions to existing projects.* (a) Procedures and requirements for working drawings and specifications to be followed and in addition the following information shall be submitted:

(1) Type of activities within the existing building and distribution of existing beds, etc.

(2) Type of construction of existing building and number of stories high.

(3) Plans and details showing attachment of new construction to the existing structure and mechanical systems.

(B) Specifications shall supplement the drawings and shall comply with the following:

1. The specifications shall fully describe, except where fully indicated and described on the drawings; the materials; workmanship; the kind sizes, capacities, finish and other characteristics of all materials, products, articles and devices.

2. The specifications shall include:

(a) Cover or title sheet.

(b) Index.

(c) Invitation for bids.

(d) General conditions.

(e) Wage rates.

(f) General requirements.

(g) Sections describing material and workmanship in detail for each class of work.

(h) Form of bid bond.

(i) Bid form.

(j) Form of agreement.

(k) Performance and payment bond forms.

3. In order to obtain a standard procedure Standard Specification Forms will be furnished to the State Agency for use of the Architect. They will include all items enumerated under Paragraph 2 above, except item (g). The General Conditions, item (d), may be supplemented by the Architect to cover local or special conditions. (Sample Standard Specification Forms are available upon request.)

(C) Estimates shall show in convenient form and detail the probable total cost of the work to be performed under the contract for construction of new buildings, expansion, remodeling and alteration of existing buildings including provision of fixed equipment contemplated by plans and specifications.

IV. *Equipment—General.* Equipment necessary for the functioning of the facility as planned shall be provided in the kind and to the extent required to perform the desired service. The necessary equipment shall be included in the cost of the project and is considered an essential part of the project.

Definition of equipment. The term "equipment" as used herein means all items necessary for the functioning of all services of the facility including such services as accounting and records, maintenance of buildings and grounds, laundry service, public waiting rooms, public health, and related services. The term "equipment" does not include items of current operating expense such as food, fuel, drugs, dressings, paper, printed forms, soap, and the like.

Classification of equipment. All equipment shall be classified in three groups as indicated below; the basis of classification being the usual methods of purchasing the equipment and suggested accounting practices in regard to depreciation:

Group I. Built-in equipment included in construction contracts. 1. Hospital cabinets and counters, laboratory and pharmacy cabinets, X-Ray and darkroom equipment, cubicle curtain equipment, shades and venetian blinds and any other built-in equipment, including items which have been included previously under Sections II and III of the General Standards such as: Kitchen equipment, laundry chutes, elevators, dumbwaiters, boilers, incinerators, refrigerating equipment, sterilizing equipment, surgical lighting and the like.

Group II. Depreciable equipment of five years' life or more normally purchased through other than construction contracts. 1. Large items of furniture and equipment having a reasonably fixed location in the building but capable of being moved.

2. Example: Furniture, surgical apparatus, diagnostic and therapeutic equipment, office machines, dental equipment, laboratory and pharmacy equipment (except cabinets) wheeled equipment and the like.

Group III. Non-depreciable equipment of less than five years' life normally purchased through other than construction contract. 1. Small items of low unit cost and suited to storeroom control.

2. *Examples.* Chinaware, silverware, kitchen utensils, bedside lamps, waste baskets, bed pans, dressing jars, catheters, surgical instruments, linens, sheets, blankets, mattresses and the like.

It shall be the responsibility of the applicant to select and purchase all necessary equipment for the complete functioning of all services included in the project in accordance with these standards and any further standards prescribed by the State Agency.

It is essential that the equipment shall be properly apportioned and budgeted to the various services of the facility so that unduly expensive or elaborate equipment is not provided for some services of the project, necessitating the use of cheap and inadequate equipment for other services.

As soon as possible after the award of the construction contract, the applicant shall submit to the Surgeon General through the State Agency for approval a complete list in triplicate of all proposed Groups II and III equipment, including itemized estimate of cost.

Appendix B—Merit System Policies of the Public Health Service

Introduction. The United States Public Health Service is in accord with other Federal agencies and leaders in the field of public administration who recognize the principle that a system of personnel administration on a merit basis is the most effective method of securing and retaining qualified personnel. The employment of qualified personnel is considered a prerequisite of efficient administration, without which the purposes of sections 314 and 623, of the Public Health Service Act as amended may not effectively be achieved.

Accordingly, the regulations of the United States Public Health Service contain provisions relative to the establishment of merit system of personnel administration in State and local health departments and other State agencies administering programs assisted by grants-in-aid from the United States Public Health Service. Under these regulations the United States Public Health Service reviews merit systems to determine their conformity with accepted standards of personnel administration.

The application of these policies is required as evidence that minimum standards of efficient personnel administration have been met. They are herewith adopted by the United States Public Health Service as standards for evaluating compliance with § 9.12 of the regulations governing grants to States and § 10.73 of the regulations governing the administration of the Hospital Survey and Construction program.

Merit System Policies

Section I. *Jurisdiction of the merit system.* (1) The following standards are applicable to personnel employed in State programs, the budgets for which provide for the expenditure of Federal funds or of State funds for matching purposes, and to persons having administrative responsibility for such programs unless specifically exempted in accordance with these policies.

(2) Upon completion of extension of merit system to local programs, these standards shall also apply to personnel employed in local programs, the budgets for which provide for the expenditure of Federal funds or of State funds for matching purposes, and to persons having administrative responsibility for such programs unless specifically exempted in accordance with these policies.

(3) At the option of the State agency,[1] the following positions may be exempted from application of these standards: the executive head of the State agency administering a program under the jurisdiction of the merit system; one confidential secretary to the executive head, provided the confidential secretary has no administrative or managerial responsibility for State plans; members of State and local boards or commissions

[1] As used in these policies, "State agency", refers to those agencies administering programs assisted by grants-in-aid from funds made available by the United States Public Health Service in accordance with the provisions of the Public Health Service Act.

and members of advisory councils or committees or similar boards paid only for attendance at meetings; State and local officials serving ex officio and performing incidental administrative duties; part-time professional personnel who are paid for any form of medical, nursing, or other professional service and who are not engaged in the performance of administrative duties.

(4) Upon request of the proper State authority, exemption of hospital and sanatoria personnel from application of these standards will be considered on the basis of current State and local administration. However, the requirement of a merit system of personnel administration does not apply to personnel operating hospitals aided under the Federal Hospital Survey and Construction program solely by reason of their benefit under the Act.

SEC. II. *Merit system organization.* (1) The merit system organization for State agencies shall be either a State civil service, that is, a merit system established by statute or other legislative enactment; or a joint merit system, that is, a merit system established by agreement among two or more State agencies. A single agency system, that is, a merit system maintained by and for a single State agency, may be approved on a temporary basis when the Public Health Service is convinced by presentation of facts that either a State civil service or a joint agency plan may be immediately impracticable. Temporary approval will be continued for only such period as required to make the necessary adjustments for the establishment of or participation in a State civil service or joint agency system.

(2) If merit system costs are charged to the State agencies no more than an equitable share of the costs shall be borne by funds made available through these grants.[1] The share so borne shall be based on the planned predetermined ratio of such State agency costs to the total merit system costs as set forth in the Fiscal Manual for Joint Merit System Administration prepared by the Social Security Board of the Federal Security Agency, September 1943.

(3) The merit system shall provide for an advisory council whose members shall be selected from outside the agency served, in order to establish public confidence in the impartiality of merit system administration.

SEC. III. *Merit system supervisor.* (1) The merit system shall provide for a merit system supervisor qualified by training and experience for the responsibilities of the position, and shall be of known sympathy with the merit principle of personnel administration in the public service.

(2) The merit system shall provide that examinations will be conducted under the direction of the merit system supervisor.

SEC. IV. *Personnel officer.* The executive head of the State agency shall employ a personnel officer, or designate a staff employee to serve in this capacity until a personnel officer can be included in the State plan. The personnel officer shall be responsible for the agency's internal personnel administration. It shall be his responsibility to administer the classification and compensation plans; to provide for adequate personnel records of all persons included in the State plan and all personnel actions taken; to request certification of eligibles by the merit system supervisor; to report periodically to the executive head of the State agency on selection, promotion, salary advancements, demotions, transfers, separations, resignations and other types of personnel actions; to report on and recommend action concerning probationary appointees; to make provision for and supervise service ratings for all employees; to be responsible for the preparation and maintenance of written procedural instructions covering personnel actions as set forth in section XVII of these policies.

SEC. V. *Classification plan.* A classification plan including class specifications for all classes of positions included in the approved State plan shall be established and maintained for the State agency in accordance with the provisions of the merit system rules. The classification plan shall be based on an investigation and analysis of the duties and responsibilities of each position. Each class specification shall include a descriptive title, examples of duties and responsibilities of the class and minimum requirements of education, experience and other qualifications necessary for the performance of the duties of the position.

SEC. VI. *Compensation plan.* A compensation plan shall be established and maintained for all classes of positions included in the classification plan. The plan shall be formulated within the provisions of existing laws related to salary rates, and of rules and regulations uniformly applicable to comparable departments of the State government. In the development of salary schedules consideration shall be given to the difficulty and responsibility of the duties involved and of the preparation required. Salary ranges shall consist of minimum and maximum rates of pay with intermediate steps for salary advancement within the range.

SEC. VII. *Political activity and religious affiliation.* (1) The merit system rules shall prohibit employees from participating in any type of political activity or from taking part in city, county, State or national elections, except that any employee has the right as an individual citizen to express his views and cast his vote.

(2) No employee shall be permitted to solicit or receive any money or contribution for political purposes, nor shall any employee be separated, transferred, demoted or subjected to any coercive action for refusing to make any contribution for political purposes.

(3) The merit system regulations shall provide against discrimination because of political or religious opinions or affiliations.

SEC. VIII. *Recruitment and appointment of personnel.* (1) An employee who has acquired permanent status under a State civil service or merit system with standards substantially comparable to those adopted by the State agency need not be required to take an examination to retain his position at the time a merit system is established.

(2) All positions in the State agency, except those specifically exempted, shall be filled by personnel selected in accordance with the rules and regulations of the merit system.

(3) The merit system shall include the following provisions governing the administration of examinations for entrance into the service:

A. Examinations shall be conducted on an open competitive basis.

B. Applicants admitted to examinations shall meet the requirements set forth in the class specifications.

C. Examinations shall be constructed to reveal the capabilities of applicants for positions for which they are competing, the general background and related knowledge. Examinations may include an objective rating of training and experience, consideration of written material offered as evidence of candidates' past achievements, a performance test for positions involving the operation of office machines or other equipment, and an oral examination for positions requiring frequent contact with the public or involving important administrative or supervisory duties. Examinations shall be rated objectively.

1. Assembled examinations, including a written test, and when appropriate a performance test, shall be given to applicants for non-professional positions, and whenever practicable to applicants for professional positions.

2. Unassembled examinations, which may include an oral interview for the evaluation of personal qualifications, may be given in accordance with the provisions of the merit system rules and regulations. Use of unassembled examinations should be limited to supervisory or consultative professional positions for which a specified minimum number of years of responsible experience in a special field is required for admission to the examination, and to non-supervisory professional positions for which a period of experience in the special field is required which is long enough, preferably not less than two years, to serve as a satisfactory basis for judgment of competence.

3. When an examination consists of several parts, such as an evaluation of training and experience, a written test and an oral interview, the relative weight of each part shall depend on its importance in determining ability to perform the duties of the position.

SEC. IX. *Eligible registers.* (1) The merit system agency shall prepare and establish registers of eligibles in the order of their final examination ratings; maintain current registers; abolish or retire registers as they become inactive, obsolete or depleted; make certification of eligibility; and be responsible for all examination records.

(2) Except for emergency and provisional appointments to positions in classes for which no list of eligibles is available, the selection of personnel shall be from a limited number of the highest available eligibles certified by the merit system supervisor.

SEC. X. *Probationary period and permanent appointment.* Personnel selected from registers to fill permanent positions shall serve a probationary period of specified length. Permanent appointment shall be based on a written evaluation of the performance of the employee during the probationary period. Provision shall be made to prevent probationary appointments becoming permanent appointments through default, that is, through failure of a rating officer to declare to the proper merit system authority that the probationary appointee has been satisfactory or unsatisfactory.

SEC. XI. *Provisional appointment.* In the absence of an appropriate eligible register, provisional appointment to permanent or temporary positions may be made pending competitive examination, provided each provisional appointee is certified by the merit system supervisor as meeting the minimum qualifications established for the class to which the position is allocated. No provisional appointment shall be continued for more than thirty days after an appropriate register has been established. Successive provisional appointments of the same person may not be made, nor may a position be filled by repeated provisional appointments.

SEC. XII. *Promotion*—(1) Promotion shall be based on ability, quality and length of service.

(2) Eligibility for promotion shall be determined on recommendation of the State agency and certification by the merit system supervisor that the employee meets the minimum qualifications. Candidates for promotion shall be required to qualify by promotional competitive or non-competitive examination administered by the merit system agency.

SEC. XIII. *Pay roll certification.* The State agency shall provide for review of all pay rolls to insure that payments are authorized only for persons appointed in conformity with the merit system rules. Pay roll exceptions shall be reported to the executive head of the State agency and will be subject to audit by authorized representatives of the Public Health Service.

SEC. XIV. *Leave and separations*—(1) Regulations shall be established by the State agencies governing vacation and sick leave, military, educational and other types of leave.

(2) Employees who have completed the required probationary period and have acquired permanent status shall not be subject to removal except for cause, unless separation is due to curtailment of work or lack of funds. In the event of removal, permanent employees shall have the right of appeal to an impartial body through an established procedure provided in the merit system rules.

SEC. XV. *Service ratings.* A system of periodic service ratings for the evaluation of performance shall be maintained, and such ratings shall be considered in promotions, salary increases, and separations.

SEC. XVI. *Personnel records.* The State agency and the merit system agency shall maintain adequate personnel records to provide current information regarding each employee, including status and rate of pay.

SEC. XVII. *Agency rules and regulations.* State agencies should have written regulations for the following types of personnel actions: (1) attendance requirements and leave regulations; (2) salary adjustments and advancements; (3) periodic service ratings; (4) employment procedures for promotion, demotion, transfer and separation; (5) staff training.

[1] Except that no Federal funds will be available under section 623 of the Public Health Service Act as amended by the Hospital Survey and Construction Act for payment of any merit system costs incurred in the administration of the hospital construction program. Such funds may be used to meet a share of the costs if a merit system is applied in the administration of a State hospital survey and planning program.

NOTICES

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the act are issued under section 14 thereof and § 522.5 (b) of the regulations issued thereunder (August 16, 1940, 5 F. R. 2862) to the employers listed below effective as of the date specified in each listed item below.

The employment of learners under these certificates is limited to the terms and conditions as designated opposite the employer's name. These certificates are issued upon the employers' representations that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the regulations and as indicated on the certificates. Any person aggrieved by the issuance of the certificates may seek a review or reconsideration thereof.

Name and address of firm, industry, learner occupations, number of learners, learning period, learner wage, effective and expiration dates:

Adelphian Academy, Holly, Michigan; Wood Shop; twenty-four (24) learners, millman, assembler, packer, shipper and related operations, for a learning period of 480 hours at 30 cents per hour for the first 360 hours and 35 cents per hour for the remaining 180 hours; effective February 1, 1947, expiring January 31, 1948.

Maplewood Academy, Hutchinson, Minnesota:

Bindery; eighteen (18) learners, bindery worker and related operations, for a learning period of 700 hours at 30 cents per hour for the first 400 hours and 35 cents per hour for the remaining 300 hours;

Craftshop; eight (8) learners, sawing, sanding, gluing, assembling and related operations, for a learning period of 480 hours at 30 cents per hour for the first 300 hours and 35 cents per hour for the remaining 180 hours;

Printshop; six (6) learners, compositor, pressman and related operations, for a learning period of 1,000 hours at 30 cents per hour for the first 500 hours and 35 cents per hour for the next 500 hours;

Broomshop; six (6) learners, winding, stitching, sorting, and related operations, for a learning period of 350 hours at 30 cents per hour for the first 200 hours and 35 cents per hour for the remaining 150 hours;

Effective February 1, 1947, expiring January 31, 1948.

Signed at New York, New York, this 5th day of February 1947.

FEDERAL COMMUNICATIONS COMMISSION

ASSIGNMENT OF APPLICATION FILE NUMBERS (BROADCAST)

JANUARY 28, 1947.

In the interests of simplification, the Commission has abandoned its practice of assigning zone numbers (1, 2, 3, 4 or 5) to indicate the geographical location of proposed facilities in applications accepted for filing. Thus, an application for, say a standard broadcast station construction permit application from New England (Zone 1), which formerly might have received file number "B1-P-1234", will hereafter be designated simply as "BP-1234".

In this connection, a brief explanation of the system of numbering applications will be helpful:

Applications received by the Commission are first divided into two general classes: "Broadcast" and "Other than Broadcast".

In assigning file numbers to broadcast applications the letter "B" (for broadcast) is prefixed. The letter or letters following the "B" indicates the type of application and, in all cases except standard broadcast, the class of station. For example, an application for assignment of license of a commercial broadcast station is shown as "BAL-1234" ("B" for Broadcast, "AL" for Assignment of License, and identifying numeral). An application for construction permit for a Commercial FM station would be, for example, BPH-1234 ("B" for Broadcast, "P" for Construction Permit, "H" for Commercial FM, and identifying numeral).

By the same token, an application for assignment of license of a commercial television station would be designated "BALCT-1234" ("B" for Broadcast, "AL" for Assignment of License, "CT" for Commercial Television, etc.".

The numerals are indicative of the progressive numbering for each type of application and class of station in the order in which received. The symbols used in broadcast application file numbering follows:

CLASS B

Type of Application

AL—Assignment of license.
AP—Assignment of C. P.
APL—Assignment of license and construction permit.
F—Authority to install automatic frequency control.
FP—Permit to transmit programs to foreign radio stations.
L—License.
ML—Modification of license.
MP—Modification of construction permit.
MSA—Modification of special experimental authorization.
MSSA—Modification of special service authorization.
P—Construction permit.
R—Renewal.
S—Special temporary authorization or official station file number.
SA—Special experimental authorization.
SSA—Special service authorization.
TC—Transfer of control of corporation.
Z—Authority to determine operating power by direct method.

Class of Station

(1)—Standard.
ARE—Public address relay.
CT—Commercial television.
EB—Class II, experimental.
ED—Noncommercial educational.
EX—Developmental.
FB—Facsimile.
H—Commercial FM.
HB—Experimental high frequency.
IB—International.
RE—High frequency relay.
RY—Low frequency relay.
ST—Studio transmitter (ST).
VB—Experimental television.

TEMPORARY PROCEDURE FOR EXPEDITING STANDARD BROADCAST APPLICATIONS

JANUARY 24, 1947.

On January 8, 1947, the Commission announced that it would seek to dispose of all applications for standard broadcast construction permits or modifications of permits before May 1, 1947, by processing all such applications without regard to applications filed after February 7, 1947.

This procedure will undoubtedly result in a large number of new applications being filed before February 7. While this was anticipated, the Commission wishes to emphasize that applications which are incomplete in any major respect will not be accepted for filing and, following established practice, will be returned to the applicant.

The temporary procedural plan would be unduly complicated and, possibly, rendered unworkable if the Commission had to consider a large number of last-minute applications which are incomplete, particularly with respect to engineering details. Consequently, the policy of returning incomplete and otherwise defective applications will be strictly adhered to and no such application will be considered in the group to be processed during the period February 7 to May 1.

T. J. SLOWIE,
Secretary.

[Docket Nos. 7404, 7997, 8085]

ATLANTIC RADIO CORP. ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Atlantic Radio Corporation, Boston, Massachusetts, Docket No. 7404, File No. B1-P-4372; Bristol Broadcasting Company, Inc. (WNBH), New Bedford, Massachusetts, Docket No. 7997, File No. B1-P-4605; The Fairfield Broadcasting Company, Danbury, Connecticut, Docket No. 8085, File No. B1-P-5566; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission having under consideration the above entitled application of The Fairfield Broadcasting Company, filed on December 30, 1946, for a construction permit for a new standard broadcast station to operate on the frequency 550 kilocycles with 500 watts nighttime and 1 kilowatt daytime power, at Danbury, Connecticut, and also having under consideration a petition filed by The Fairfield Broadcasting Company requesting that its said application be designated for hearing in the consolidated proceeding involving the above entitled applications of Atlantic Radio Corporation and Bristol Broadcasting Company, Inc. (WNBH) currently scheduled to be heard on February 4, 1947, and an opposition to the said petition filed by Atlantic Radio Corporation; and

It appearing, that the said application of Atlantic Radio Corporation was heard in a consolidated proceeding with a number of other applications for the frequency 550 kilocycles on April 8-12 and 15-19, and June 24-28, 1946; that Bristol

(1) No symbol used for standard broadcast.

Broadcasting Company, Inc. (WNBH) was a party intervenor in the said proceeding but that its above-entitled application, filed February 27, 1946, was not designated for hearing therein; and that the Commission in an order dated December 6, 1946, designated the said application of Bristol Broadcasting Company, Inc. for hearing to be consolidated with the hearing held as aforesaid on the application of Atlantic Radio Corporation, and scheduled the hearing for January 20, 1947, which hearing has since been continued to February 4, 1947, as aforesaid;

It is ordered, That the said petition of The Fairfield Broadcasting Company be, and it is hereby, granted, and that, pursuant to section 309 (a) of the Communications Act of 1934, as amended, its above-entitled application be, and it is hereby designated for hearing in the consolidated proceeding involving the applications of Atlantic Radio Corporation and Bristol Broadcasting Company, Inc. (WNBH), upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of Atlantic Radio Corporation (Docket 7404), Bristol Broadcasting Company, Inc. (WNBH) (Docket 7997), The Hampden-Hampshire Corporation (WHYN) (Docket 7325) and Pynchon Broadcasting Corporation (Docket 7886) or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the record in the matter of the application of Atlantic Radio Corporation (Docket No. 7404) be, and it is hereby, reopened for the purpose of this consolidated proceeding and that the orders of the Commission dated February 25, 1946 (Bill of Particulars) and December 6, 1946, respectively designating the applications of Atlantic Radio Corporation and Bristol Broadcasting Company, Inc. (WNBH) (Docket No. 7997) for hearing be, and they are hereby, amended to include the application of The Fairfield Broadcasting Company (Docket No. 8085).

By the Commission.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission having under consideration the above entitled applications of Atlantic Radio Corporation, requesting 550 kc, 1 kw, 5 kw-LS, with directional antenna, Bristol Broadcasting Company, Inc. (WNBH), requesting 550 kc, 5 kw, unlimited time with directional antenna, The Fairfield Broadcasting Company, requesting 550 kc, 500 watts, 1 kw-LS, The Hampden-Hampshire Corporation (WHYN), requesting 560 kc, 1 kw, unlimited time with directional antenna, and Pynchon Broadcasting Corporation, requesting 560 kc, 5 kw, unlimited time using directional antenna; and also having under consideration a petition filed by the applicant, The Hampden-Hampshire Corporation, on January 3, 1947, requesting leave to intervene in the consolidated proceeding involving the above entitled applications for the frequency 550 kc; and

It appearing, that, on December 6, 1946, the application of Bristol Broadcasting Company, Inc. (WNBH) was designated for hearing to be consolidated with the hearing previously held on the application of Atlantic Radio Corporation, and that heretofore, on this date, the Commission designated for hearing in the said consolidated proceeding the above-entitled application of The Fairfield Broadcasting Company; and

It further appearing, that, on September 3, 1946, the applications of The Hampden-Hampshire Corporation (WHYN) and Pynchon Broadcasting Corporation were designated for hearing in a consolidated proceeding, and that the hearing on the said applications is currently set for February 17, 1947, at Washington, D. C.; and

It further appearing, that all of the above entitled applications involve mutual problems of interference;

It is ordered, That the above entitled applications of Bristol Broadcasting Company, Inc. (WNBH), The Fairfield Broadcasting Company, The Hampden-Hampshire Corporation (WHYN) and Pynchon Broadcasting Corporation be heard in a consolidated proceeding, upon the issues heretofore defined in the several orders designating the said applications for hearing; that the above entitled application of Atlantic Radio Corporation, upon which a hearing has heretofore been held, be included in the said consolidated proceeding; and that the hearing upon the said applications, as consolidated, be held on February 17, 1947, at Washington, D. C., commencing at 10:00 a. m.;

It is further ordered, That the hearing date of February 4, 1947, heretofore set for the consolidated proceeding involving the said applications of Atlantic Radio Corporation and Bristol Broadcasting Company, Inc. (WNBH), be, and it is hereby, cancelled.

It is further ordered, That the said petition of The Hampden-Hampshire Corporation (WHYN), requesting leave to intervene in the consolidated proceeding involving the said applications of Atlantic Radio Corporation and Bristol Broadcasting Company, Inc. (WNBH), since, in view of the foregoing action, it has become moot, be, and it is hereby, dismissed.

LEE-SMITH BROADCASTING CO. AND ASSOCIATED BROADCASTERS, INC.

ORDER SETTING FORTH DATE OF HEARING

In re applications of Herbert H. Lee, Palmer Dragsten and John E. Hyde, Jr., doing business as Lee-Smith Broadcasting Company, Faribault, Minnesota, Docket No. 7875, File No. B4–P–4581, for construction permit; Associated Broadcasters, Inc., Wadena, Minnesota, Docket No. 8038, File No. B4–P–5351, for construction permit.

The Commission having under consideration a petition filed January 17, 1947, by Lee-Smith Broadcasting Company, Faribault, Minnesota, requesting reinstatement of the hearing date of February 13, 1947, at Washington, D. C., in the matter of its above-entitled application; and the opposition thereto filed January 23, 1947, by Associated Broadcasters, Inc., Wadena, Minnesota; and

It appearing, that on January 2, 1947, the Commission consolidated the above-entitled application of Associated Broadcasters, Inc., Wadena, Minnesota, for hearing with the above-entitled application of Lee-Smith Broadcasting Company, Faribault, Minnesota; and that on January 16, 1947, the issues upon which said consolidated applications are to be heard were mailed; and

It appearing further from the petition and opposition thereto that the grant of the petition of Lee-Smith Broadcasting Company to schedule the hearing on the above-entitled applications for February 13, 1947, will prejudice the rights of Associated Broadcasters, Inc., whereas, if said consolidated hearing is scheduled for a later date, to-wit: March 3, 1947, neither applicant will be prejudiced; and that it will conduce to the dispatch of the Commission's business and to the ends of justice to so schedule the consolidated hearing upon the above-entitled applications;

It is ordered, This 24th day of January 1947, that the consolidated hearing on the above-entitled applications be, and it is hereby, scheduled for 10:00 o'clock a. m., Monday, March 3, 1947, in Washington, D. C.

By the Commission.

MORRIS LUSKIN ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Morris Luskin, Burbank, California, Docket No. 7890, File No. B5–P–5027; Burbank Broadcasters, Inc., Burbank, California, Docket No. 7891, File No. B5–P–5251; Bear State Broadcasters, Inc., Van Nuys, California, Docket No. 8080, File No. B5–P–5613.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission having under consideration the above-entitled application of Bear State Broadcasters, Inc. (File No. B5–P–5613) requesting a permit to construct a new standard broadcast station to operate on 1490 kc, with 250 w power, unlimited time, at Van Nuys, California, and also having under consideration a petition by the said applicant requesting that its application be designated for hearing in a consolidated proceeding involving the other two applications named above;

It appearing, that the Commission on September 30, 1946, designated for hearing in a consolidated proceeding the applications of Morris Luskin (File No. B5–P–5027; Docket No. 7890) and Burbank Broadcasters, Inc. (File No. B5–P–5251; Docket No. 7891), each requesting a permit to construct a new standard broadcast station to operate on 1490 kc, with 250 w power, unlimited time at Burbank, California, and that said consolidated proceeding is set for February 10, 1947, at 10 a. m. in the Council Room, City Hall, Burbank, California;

It further appearing, that said application of Bear State Broadcasters, Inc., was filed on January 14, 1947;

It is ordered, That the petition of Bear State Broadcasters, Inc., be, and it is hereby granted, and that, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Bear State Broadcasters, Inc., be, and it is hereby, designated for hearing in the above consolidated proceeding, set for February 10, 1947, at Burbank, California, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors, and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of Morris Luskin (File No. B5–P–5027; Docket No. 7890), Burbank Broadcasters, Inc. (File No. B5–P–5251; Docket No. 7891), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of September 30, 1946, designating the said applications of Morris Luskin and Burbank Broadcasters, Inc., for hearing in a consolidated proceeding, be, and they are hereby, amended, to include the said application of Bear State Broadcasters', Inc., and to change issue No. 7 of said orders to read as issue No. 7 stated above.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission having under consideration the above entitled application of George Dyson, Jr., d/b as The Alton Broadcasting Co. for a construction permit for a new standard broadcast station to operate on the frequency 1410 kilocycles with 500 watts power, daytime only, at Alton, Illinois; and

It appearing, that a consolidated hearing involving the above entitled applications of Missouri Broadcasting Corporation (WIL), Southern Illinois Broadcasting Company, Inc., Metropolitan Broadcasting Corporation and Robert L. Kern and Richard P. Kern, d/b as Belleville News-Democrat, commenced on January 29, 1947, at Washington, D. C., and that the said application of George Dyson, Jr., d/b as The Alton Broadcasting Co. involves adjacent-channel interference with the foregoing applications all of which request the frequency 1430 kilocycles;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of George Dyson, Jr., d/b as The Alton Broadcasting Co. be, and it is hereby, designated for hearing in the above consolidated proceeding upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with station KWK, St. Louis, Missouri, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the other applications in this consolidated proceeding, or in the pending application of Illinois Broadcasting Company for a new station at Centralia, Illinois, to operate on 1400 kilocycles (File No. B4–P–4732, Docket No. 7623), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of the Commission dated September 19 and October 4, 1946, and January 16, 1947, designating for hearing the said applications of Southern Illinois Broadcasting Company, Inc., Metropolitan Broadcasting Corporation, Robert L. Kern and Richard P. Kern, d/b as Belleville News-Democrat, and Missouri Broadcasting Corporation (WIL) be, and they are hereby, amended to include the said application of George Dyson, Jr., d/b as the Alton Broadcasting Co.

James, a partnership, doing business as Fred Jones Radiocasting and Television Company, Oklahoma City, Oklahoma, Docket No. 8068, File No. B3–P–5404, for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 23d day of January 1947;

The Commission having under consideration the above-entitled application filed October 31, 1946, by Fred Jones, C. A. Vose, Streeter B. Flynn and Dan W. James, a partnership, doing business as Fred Jones Radiocasting and Television Company, Oklahoma City, Oklahoma, requesting a construction permit for a new standard broadcast station to operate on the frequency of 550 kc, with 5 kw power day, 1 kw night, directional antenna, at Oklahoma City, Oklahoma (File No. B3–P–5404); and

It appearing, that the Commission on the 23d day of January, 1947, designated for hearing the above-entitled application of Midland Broadcasting Company, Kansas City, Missouri, for construction permit (File No. B4–P–5154; Docket No. 8067), requesting the use of the frequency 550 kc, with power of 5 kw, daytime only, and with directional antenna;

It is ordered, That pursuant to section 309 of the Communications Act of 1934, as amended, the said application of Fred Jones, C. A. Vose, Streeter B. Flynn and Dan W. James, a partnership, doing business as Fred Jones Radiocasting and Television Company, be, and it is hereby, designated for hearing in a consolidated proceeding with the application of the Midland Broadcasting Company (File No. B4–P–5154; Docket No. 8067), at a time and place to be designated by subsequent order of the Commission upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station, and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered, and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of Midland Broadcasting Company (File No. B4–P–5154; Docket No. 8067), Radio Broadcasting, Inc. (File No. B3–P–3915; Docket No. 7156), or in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine the overlap, if any, that will exist between the service areas of the proposed station and of the newly authorized Station KFMJ at Tulsa, Oklahoma, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the order of this date designating for hearing the application of Midland Broadcasting Company (File No. B4–P–5154; Docket No. 8067) be, and it is hereby, amended, to include the said application of Fred Jones, C. A. Vose, Streeter B. Flynn and Dan W. WSWZ, INC.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of WSWZ Incorporated, Trenton, New Jersey, for construction permit; Docket No. 8084, File No. B1-P-5590.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission having under consideration the above-entitled application requesting a permit to construct a new standard broadcast station to operate on 1260 kc, with 5 kw power, unlimited time, using a directional antenna, at Trenton, New Jersey;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Capitol Broadcasting Co. (File No. B1-P-4832) requesting a permit to construct a new standard broadcast station to operate on 1260 kc, with 1 kw power, unlimited time, using a directional antenna, at Trenton, New Jersey, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission,

TEMPORARY EXPEDITING PROCEDURE FOR STANDARD BROADCAST APPLICATIONS

ANNOUNCEMENT OF CONFERENCES

Pursuant to the Commission's Public Notice of January 8, 1947, entitled "Temporary Expediting Procedure For Standard Broadcast Applications," and as provided for therein, the following partial schedule of informal engineering conferences, is announced:

Date	Channel (kilocycles)	Time
February 14, 1947	940	10 a. m.
	970	10 a. m.
	1370	10 a. m.
	1510	10 a. m.
	1520	10 a. m.
February 15, 1947	620	10 a. m.
	850	10 a. m.
	1390	10 a. m.
	1490	10 a. m.
	1470	10 a. m.

Attorneys and engineers representing applicants on the above specified channels should appear in Room 7454, New Post Office Building, Washington, D. C., at the time indicated, prepared to participate in the conference concerning the channel in which they are interested. In the event such representatives of adjacent channel applicants, or of existing station licensees, desire to participate in any of the foregoing conferences they should address a written request to the Secretary of the Commission specifying their interest in the conference and the reasons for their participation.

Further conferences, pertaining to the above specified channels, will, if necessary, be scheduled and announced at the initial conferences provided for herein. No additional public notice, insofar as such conferences are concerned, is contemplated, although a public announcement of additional initial conferences pertaining to other channels, will be made in the immediate future.

The Commission desires to stress the urgent necessity for the attendance of representatives of applicants for the above specified frequencies at the conference involving their applications. Failure to attend will be construed as indicating that such applicants do not desire to participate in the expediting plan and, although their applications will be considered in connection with the other applications concerned, they will not be accorded the amendment privileges provided for in the Public Notice of January 8, 1947.

WESTERN UNION TELEGRAPH CO.

ORDER DESIGNATING APPLICATION FOR HEARING AND LISTING BUT NOT LIMITING CONSIDERATION TO STATED QUESTIONS

In the matter of the application of The Western Union Telegraph Co., Kansas City, Missouri, Docket No. 8087, File No. T-D-451.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission, having under consideration the telegraphic request filed May 17, 1946, and the formal application filed on June 1, 1946, under section 214 of the Communications Act of 1934, as amended, by The Western Union Telegraph Company, File No. T-D-451, for authority to close temporarily its "MH" branch office, located in the Muehlebach Hotel, Kansas City, Missouri, beginning June 1, 1946, until suitable alternate space for relocating the office could be found;

It appearing, that the Commission on May 24, 1946, granted temporary emergency authority for the closure of this office for a period of four months beginning June 1, 1946; that upon further representations by applicant of inability to obtain suitable office space in this vicinity, this authority was extended on September 30, 1946, for a further four-month period beginning October 1, 1946, and, on January 30, 1947, for a further period of two months beginning February 1, 1947;

It further appearing, that informal complaints expressing opposition to the closure have been received;

It further appearing, that the present or future public convenience or necessity may be adversely affected by the continued closure of the said office;

It is ordered, Pursuant to section 214 of the Communications Act of 1934, as amended, that the above described application of The Western Union Telegraph Company be, and it is hereby, designated for hearing, and that the matters to be considered at such hearing shall include, but not be limited to the following questions:

1. Whether the present or future public convenience and necessity will be adversely affected by the continued closure of the "MH" branch office;

2. The extent of public need for a branch telegraph office at or in the vicinity of the Muehlebach Hotel, Kansas City, Missouri;

3. The adequacy of telegraph service provided to the users formerly served by "MH" branch; or in the service area of this office, and whether in the absence of this particular office, telegraph service to such users or in this area will be adequate;

4. The validity under section 214 of the Communications Act of the grounds advanced by applicant in support of its application;

5. The extent and nature of applicant's efforts to obtain space for the purpose of retaining or replacing the "MH" branch office;

It is further ordered, That The Western Union Telegraph Company, be and it is hereby, made a party respondent to this proceeding, and that a copy hereof be served upon it and upon each of the persons who have complained of the closure of the above office, the Secretary of War, the Secretary of the Navy, the Governor and Public Service Commission of the State of Missouri, the City Manager of Kansas City, Missouri, the National Association of Railroad and Utilities Commissioners, and all other parties which were given leave to intervene in the proceeding in Docket No. 7982 and Docket No. 8088 by the Commission's orders therein dated December 30, 1946, and January 30, 1947, and each of the above persons, organizations and agencies, be, and it is hereby, given leave to intervene and participate fully in the proceedings herein;

It is further ordered, That this proceeding be, and the same is hereby, assigned for hearing on the 17th day of February 1946, beginning at 10:00 a. m. before the Commission's Telegraph Committee, composed of Commissioners Ray C. Wakefield, Paul A. Walker and Clifford J. Durr, or any member or members of such Committee, at the offices of the Federal Communications Commission in Washington, D. C., to be heard in consolidated hearing with the proceedings in Docket No. 7982 and Docket No. 8088;

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

WESTERN UNION TELEGRAPH CO.

ORDER DESIGNATING APPLICATION FOR HEARING AND LISTING BUT NOT LIMITING CONSIDERATION TO STATED QUESTIONS

In the matter of the application of The Western Union Telegraph Co., Dallas, Texas, Docket No. 8088, File No. T-D-771.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission, having under consideration the application filed on December 30, 1946, under section 214 of the Communications Act of 1934, as amended, by The Western Union Telegraph Company, File No. T-D-771, for permanent authority to close its "CR" branch office, located at 403 South Akard St., Dallas, Texas, and, pending decision on this request, for temporary authority beginning February 1, 1947; also having under consideration its Order and Authorization issued January 27, 1947, granting temporary authority to discontinue the said office for a period of four months, beginning February 1, 1947;

It appearing, that informal complaints expressing opposition to the closure have been received;

It further appearing, that the present or future public convenience or necessity may be adversely affected by a permanent closure of the said office;

It is ordered, pursuant to section 214 of the Communications Act of 1934, as amended, that the above described application of The Western Union Telegraph Company, be, and it is hereby, designated for hearing, and that the matters to be considered at such hearing shall include, but not be limited to, the following questions:

1. Whether the present or future public convenience and necessity will be adversely affected by the permanent closure of the "CR" branch office;

2. The extent of public need for a branch telegraph office at or in the vicinity of 403 South Akard St., Dallas, Texas;

3. The adequacy of telegraph service provided to the users formerly served by "CR" branch, or in the service area of this office, and whether, in the absence of this particular office, telegraph service to such users or in this area will be adequate;

4. The validity under section 214 of the Communications Act of the grounds advanced by applicant in support of its application;

5. The extent and nature of applicant's efforts to obtain space for the purpose of retaining or replacing the "CR" branch office;

It is further ordered, That The Western Union Telegraph Company, be, and it is hereby, made a party respondent to this proceeding, and that a copy hereof be served upon it and upon each of the persons who have complained of the closure of the above office, the Secretary of War, the Secretary of the Navy, the Governor of the State of Texas, the City Manager of Dallas, Texas, the National Association of Railroad and Utilities Commissioners, and all other parties which were given leave to intervene in the proceedings in Docket No. 7982 and Docket No. 8087 by the Commission's orders therein dated December 30, 1946, and January 30, 1947, and each of the above persons, organizations and agencies, be, and it is hereby, given leave to intervene and participate fully in the proceedings herein;

It is further ordered, That this proceeding be, and the same is hereby, assigned for hearing on the 17th day of February, 1947, beginning at 10:00 a. m., before the Commission's Telegraph Committee composed of Commissioners Ray C. Wakefield, Paul A. Walker and Clifford J. Durr, or any member or members of such Committee, at the offices of the Federal Communications Commission in Washington, D. C., to be heard in consolidated hearing with the proceedings in Docket No. 7982 and Docket No. 8087;

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1440]

MIDDLE WEST CORP. AND CONSOLIDATED ELECTRIC AND GAS CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 5th day of February A. D. 1947.

Notice is hereby given that a joint application-declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by The Middle West Corporation ("Middle West"), a registered holding company, and by Consolidated Electric and Gas Company ("Consolidated"), a registered holding company and a non-affiliate of Middle West.

Notice is further given that any interested person may, not later than the 17th day of February 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations pursuant to said act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said joint application-declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

At the present time Consolidated owns all of the capital stock of Houghton County Electric Light Company ("Houghton") and all of the outstanding securities of Iron Range Light and Power Company ("Iron Range"). Middle West and Copper Range Company ("Copper Range"), primarily a mining company which this Commission has heretofore determined to be "exempted from all those provisions of the Public Utility Holding Company Act of 1935, which would require it to register under said act because of owning, controlling, or holding with power to vote, 10 per centum or more of the outstanding voting securities of the Copper District Power Company", own severally and not jointly all of the preferred stock and an aggregate of 86% of the common stock of Copper District Power Company ("Copper District"). Houghton, Iron Range and Copper District are all electric utility companies operating in the upper peninsula of Michigan.

Consolidated, Middle West, and Copper Range have entered into an agreement which provides, among other things, that they will cause a new corporation to be organized under the laws of the State of Michigan, to be called Upper Peninsula Power Company ("New Company"), that they will initially subscribe for shares of capital stock of New Company of an aggregate par value of $1,000, and that Consolidated will lend to New Company such moneys as it may require to defray its organization expenses and preliminary expenses of the issue and sale of its securities to the public.

The instant filing is concerned solely with the obtaining of authorization for (1) Consolidated and Middle West to organize New Company with an initial authorized capital of 5,000 shares, par value $10 per share, and the subscription by Consolidated for $600 par value of such stock and Middle West for $200 par value of such stock (it appears from the filing, but not as part of the transactions embraced in the filing, that Copper Range is to subscribe for $200 par value of such securities), and (2) Consolidated to advance to New Company such sums as it may require to defray its organization expenses and the preliminary expenses of the proposed financing.

The filing further indicates that, upon the consummation of the transactions embraced therein, a new application and declaration is to be filed with this Commission, joining New Company as a party thereto, for the purpose of obtaining the requisite authority for the remaining transactions contemplated by New Company, Consolidated, Middle West, and Copper Range. These new transactions, generally speaking, will consist of the issuance and sale of securities by New Company and the use of the proceeds derived therefrom to acquire from Consolidated, Middle West, and Copper Range their respective security holdings in Houghton, Iron Range, and Copper District, and to provide for the public security holders of Houghton and Copper District (Iron Range has no publicly held securities) whereupon New Company will acquire the assets of Houghton, Iron Range, and Copper District and these latter named companies will be dissolved.

The filing designates sections 9 (a), 10 and 12 (b) of the act, and Rule U-45 thereunder as being applicable to the transactions embraced in the instant joint application-declaration.

By the Commission.

PHILADELPHIA GAS WORKS CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of February 1947.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The Philadelphia Gas Works Company (Gas Company), a subsidiary of The United Gas Improvement Company, a registered holding company. Applicant designates section 6 (b) of the act as applicable to the proposed transactions.

Notice is further given that any interested person, may not later than February 14, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application, which is on file in the offices of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Gas Company proposes to issue and sell to three Philadelphia banks 2% promissory notes at their principal amount as follows:

	Dated on or about	Principal amount
The Pennsylvania Co. for insurance on lives and granting annuities.	Mar. 1, 1947 Aug. 31, 1947	$1,000,000 1,000,000
The Corn Exchange National Bank & Trust Co.	Mar. 1, 1947 Aug. 31, 1947	625,000 625,000
The First National Bank of Philadelphia.	Mar. 1, 1947 Aug. 31, 1947	375,000 375,000
Total		4,000,000

All said notes will be due in equal installments, payable quarter annually, beginning on December 1, 1947, and will mature August 31, 1952. Gas Company will pay, in addition to interest at the rate of 2% on the unpaid principal, a stand-by charge of ¼ of 1% per annum from ten days after receiving necessary regulatory authority until the money is actually received from the banks. The notes may be prepaid without premium provided such prepayment is not by means of other borrowing or refinancing, in which event the premium shall be ¼ of 1% per annum of the amount of such prepayment to the maturity date.

The proceeds of said notes are to be used to make property additions to the municipal gas works of Philadelphia, which Gas Company operates under lease. It is alleged by applicant that, according to the lease agreement, the principal, interest and standby charges will be included in the expenses of operation of the municipal gas works and will be repaid to Gas Company by charging same to the cost of gas in the ensuing years, not exceeding five, as determined by the Philadelphia Gas Commission.

Said construction and financing were authorized by an Ordinance of the Council of the City of Philadelphia, which Ordinance was approved by the Mayor of Philadelphia on January 20, 1947. The Ordinance also authorized the charging of the capital and interest costs against the cost of gas in the manner outlined hereinabove. It is stated that the proposed issuance and sale of notes by Gas Company are subject to the jurisdiction of the Pennsylvania Public Utility Commission, and that the order of that Commission approving the proposed transactions will be supplied by amendment.

By the Commission.

Secretary.

THE HARTFORD GAS CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of February 1947.

Notice is hereby given that an application, as amended, has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") by The Hartford Gas Company ("Hartford"), a subsidiary of The United Gas Improvement Company, a registered holding company. Applicant has designated section 6 (b) of the act and Rule U-50 promulgated thereunder as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than February 18, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after February 18, 1947 said amended application as filed or as further amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application, as amended, which is on file in the offices of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Hartford proposes to issue and sell for cash at principal amount to six banks and insurance companies an aggregate of $2,000,000 principal amount of 2⅝% First Mortgage Bonds, due February 1, 1972. The net proceeds of the sale of the bonds are to be used to provide funds for the enlargement of Hartford's gas manufacturing plant, for new business extensions, and for the repayment of bank borrowings which were expended for such improvements.

Applicant requests that the Commission exempt the issue and sale from the competitive bidding requirements of Rule U-50 for reasons set forth in the application.

Applicant states that the transaction is subject to the approval of the Connecticut Public Utilities Commission and a copy of the approval of such commission has been filed by amendment.

The applicant requests that the Commission's order granting the application become effective not later than February 20, 1947.

By the Commission.

NEW YORK STATE ELECTRIC & GAS CORP. AND GENERAL PUBLIC UTILITIES CORP.

ORDER RELEASING JURISDICTION AND GRANTING AMENDMENT TO JOINT APPLICATIONS-DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 5th day of February 1947.

General Public Utilities Corporation, a registered holding company, and its subsidiary, New York State Electric & Gas Corporation ("New York State"), having filed joint applications-declarations, and amendments thereto, pursuant to sections 6 (a), 6 (b), 7, 12 (b) and 12 (c) of the Public Utility Holding Company Act of 1935, in which it was proposed, among other things, that New York State issue and sell, pursuant to the competitive bidding provisions of Rule U-50, $13,000,000 principal amount of its First Mortgage Bonds due 1977 and thereafter 150,000 shares of its Cumulative Preferred Stock; and

The Commission having, by order dated January 13, 1947, granted said applications and permitted said declarations to become effective, subject to the condition, among others, that the proposed issuance and sale of securities not be consummated until the results of competitive bidding pursuant to Rule U-50 have been made a matter of record in the proceedings and a further order has been entered by the Commission in the light of the record so completed, jurisdiction being reserved for this purpose; and the Commission having reserved jurisdiction over the payment of all legal fees and expenses of all counsel in connection with the proposed transactions; and

The Commission by supplemental order dated January 22, 1947, having granted and permitted to become effective an amendment, filed on January 22, 1947, to said joint applications-declarations with respect to the results of competitive bidding on the First Mortgage Bonds due 1977, and having released jurisdiction with respect thereto; and

New York State having filed a further amendment dated February 5, 1947, to said applications-declarations in which it is stated that, in accordance with the permission granted by the said order of the Commission dated January 13, 1947, it has offered its Cumulative Preferred Stock for sale pursuant to the competitive bidding requirements of Rule U-50 and has received the following bids:

	Price to company	Dividend rate	Cost to company
Harriman, Ripley & Co., Inc.	100.139	3.75	3.744795
First Boston Corp. / Glore, Forgan & Co.	101.14	3.80	3.757168
Blyth & Co., Inc. / Smith, Barney & Co.	101.10	3.80	3.758655

The amendment further stating that New York State has accepted the bid of Harriman, Ripley & Co., Incorporated for the Cumulative Preferred Stock as set out above and that the preferred stock will be offered for sale to the public at a price of $102 per share resulting in an underwriters' spread of $1.861 per share; and

Counsel concerned having filed statements with respect to the nature of the services performed in connection with the transactions; and it appearing to the Commission that the proposed fee of Naylon, Foster and Shepherd in the amount of $23,500 and expenses in the amount of approximately $500; the proposed fee of Sullivan and Cromwell in the amount of $20,000 and expenses to date of approximately $375; the proposed fee of Louis K. Thaler in the amount of $2,500 and expenses to date of approximately $475; and James T. Taaffe in the amount of $750, all of the above being counsel for New York State; and the proposed fee of Davis, Polk, Wardwell, Sunderland & Kiendl, independent counsel for the underwriters, in the amount of $18,000, are necessary expenses and not unreasonable; and

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to such matters;

It is ordered, That the jurisdiction heretofore reserved with respect to the results of competitive bidding for the Cumulative Preferred Stock be, and the same hereby is, released, and that the amendment filed on February 5, 1947 to the joint applications-declarations be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved over all legal fees and expenses of counsel be, and hereby is, released.

By the Commission.

WEST TEXAS UTILITIES CO. ET AL.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 5th day of February 1947.

In the matter of West Texas Utilities Company, Central Power and Light Company and Central and South West Utilities Company, File No. 70-1187; The Middle West Corporation and its subsidiary companies, File No. 59-5.

The Commission having, by its orders dated January 24, 1944 and February 16, 1945 entered pursuant to section 11 (b) (1) of the Public Utility Holding Company Act of 1935, directed Central and South West Utilities Company, a registered holding company and subsidiary of The Middle West Corporation, to dispose of its interest in the utility assets and the non-utility properties of Central Power and Light Company, a subsidiary of Central and South West Utilities Company, in the Big Bend area of Texas; and

The Commission, by its order dated December 20, 1945, having approved the sale and transfer of the above-mentioned properties by Central Power and Light Company to West Texas Utilities Company, a subsidiary of Central and South West Utilities Company, and having modified its said orders of January 24, 1944 and February 16, 1945 to permit Central and South West Utilities Company to retain the said assets subject, however, to the condition that West Texas Utilities Company interconnect the said Big Bend electric properties, excepting Presidio, with its present electric properties prior to December 31, 1946; and

West Texas Utilities Company having filed an application for extension of time until September 1, 1947 within which to comply with the Commission's order of December 20, 1945, above described, said application reciting that West Texas Utilities Company has been unable in the exercise of due diligence to comply with the said order within the time specified therein, owing to difficulties in securing necessary materials; and

It appearing to the Commission, in the light of the particular circumstances that it is appropriate to extend the time for compliance with the said order of December 20, 1945, from December 31, 1946 until September 1, 1947:

It is ordered, That the application of West Texas Utilities Company for an extension of time until September 1, 1947, within which to comply with the condition of the order of December 20, 1945, that the Big Bend electric properties be connected with the present electric properties of West Texas Utilities Company be, and hereby is, granted.

By the Commission.

EAST COAST PUBLIC SERVICE CO. ET AL.

NOTICE OF FILING, ORDER FOR HEARING, AND ORDER CONSOLIDATING PROCEEDINGS

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 5th day of February A. D. 1947.

In the matters of East Coast Public Service Company, Virginia East Coast Utilities, Incorporated, Tidewater Electric Service Company, Floyd W. Woodcock, Applicants, File No. 54-85; East Coast Public Service Company, Virginia East Coast Utilities, Incorporated, Tidewater Electric Service Company, Respondents, File No. 59-90.

I. Notice is hereby given that an amended plan has been filed with this Commission by East Coast Public Service Company ("East Coast"), a registered holding company, Virginia East Coast Utilities, Incorporated ("Virginia"), a subsidiary of East Coast, Tidewater Electric Service Company ("Tidewater"), a subsidiary of Virginia, and Floyd W. Woodcock, an affiliate of East Coast, in substitution for a plan heretofore filed, whereby the said applicants seek approval, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, of a plan designed to enable East Coast to comply with section 11 (b) of said act.

All interested persons are referred to said document which is on file in the office of this Commission for a statement of the transactions therein proposed which may be summarized as follows:

East Coast, a Delaware Corporation, proposes to liquidate and dissolve after having satisfied and discharged its outstanding First Lien Collateral 4% Bonds, Series A, due August 1, 1948 ("Collateral Bonds"), all of its liabilities, including its Federal income tax liabilities, and distributed its then remaining assets to its common stockholders.

The following table shows as of November 30, 1946, the outstanding securities of East Coast and its subsidiaries.

	Principal amount or shares outstanding		
	Owned by East Coast	Owned by Virginia	Owned by others
East Coast Public Service Co.:			
Fifteen-year first lien collateral 4% bonds, series A, due Aug. 1, 1948			$710,000
Common stock, par value $1 per share			Shares 30,000
Virginia East Coast Utilities, Inc.:			
Virginia East:			
Advances from parent company	$100,000		
Bank loan[1]			$150,000
First mortgage 5% bonds, due Aug. 1, 1948	1,876,745		
Common stock, par value $100 per share	Shares 500		
Tidewater Electric Service Co.:			
First mortgage notes (2%)[2]			123,530
Common stock, par value $10 per share		Shares 700	

[1] Increased to $200,000 by order of this Commission dated January 23, 1947.

[2] As of November 30, 1946, the amount of $17,885 had been accumulated by Tidewater to be applied toward the payment of its Notes.

The presently outstanding First Mortgage 5% Bonds and Common Stock of Virginia are pledged under the indenture securing the Collateral Bonds of East Coast.

To carry out said amended plan, the following steps are proposed:

(1) *Merger of Virginia and Tidewater.* It is proposed to merge Tidewater, all of whose capital stock is now owned by Virginia, into Virginia as the surviving company. The outstanding First Mortgage Notes of Tidewater in the net amount of $105,645, which are owned by the Reconstruction Finance Corporation, would be paid and satisfied at the same time the Collateral Bonds of East Coast are retired. Sufficient funds for the payment of such Notes are to be provided through the sale of new First Mortgage Bonds of Virginia as hereinafter set forth.

(2) *Recapitalization of Virginia.* Virginia proposes the issuance and sale to East Coast of $800,000 principal amount of First Mortgage 3% Bonds, Series A, and 60,000 shares of new common stock, par value $10 per share in exchange for the $1,876,745 principal amount of First Mortgage 5% Bonds and 500 shares of common stock of Virginia now held by East Coast. As of November 30, 1946, Virginia was also indebted to East Coast on open account advances in the amount of $100,000. It is proposed that East Coast will forgive and cancel such open account advances to Virginia.

Simultaneously with the sale by East Coast as hereinafter set forth of the $800,000 principal amount of First Mortgage Bonds and 60,000 shares of new common stock of Virginia, Virginia proposes the issuance and sale for its own account of $400,000 principal amount of additional First Mortgage 3% Bonds, Series A, such bonds to be sold at competitive bidding, pursuant to Rule U-50. The proceeds from the sale of such additional bonds would be used by Virginia (a) to retire its bank loan in the amount of $200,000, (b) to retire the First Mortgage Notes of Tidewater in the net amount of $105,645.61, and (c) to provide funds for property additions.

(3) *Liquidation of East Coast.* East Coast proposes to sell at competitive bidding the $800,000 principal amount of First Mortgage 3% Bonds, Series A, and the 60,000 shares of new common stock, par value $10 per share, of Virginia. East Coast proposes to use the proceeds from such sale to retire its presently outstanding Collateral Bonds and discharge its other liabilities. East Coast would then distribute the net remaining assets (consisting entirely of cash) among the holders of its common stock and would thereupon dissolve.

East Coast has requested that the Commission, in the event that this amended plan is approved, apply to the District Court of the United States for the District of Delaware for an order to enforce and carry out the provisions of said amended plan.

East Coast has further requested that if the Commission should approve the amended plan, such order or orders of approval shall contain recitals necessary to meet the requirements of the Internal Revenue Code, as amended, including section 1808 and Supplement R thereof.

II. The Commission having examined, pursuant to sections 11 (a), 18 (a) and 18 (b) of the Public Utility Holding Company Act of 1935, the corporate structure of East Coast and its subsidiary companies, the relationship among the companies in the holding company system of East Coast, and the character of the interest thereof and the properties owned or controlled thereby, to determine the extent to which the corporate structure of such holding company system and the companies therein may be simplified and unnecessary complexities therein eliminated under the standards of section 11 (b) of the act; and said examination having disclosed data establishing the following:

(1) East Coast, a registered holding company, is a corporation organized under the laws of the State of Delaware and maintains its principal office in the City of Wilmington, State of Delaware.

(2) Following is a tabulation showing the names, states of organization and

kinds of business of East Coast and its subsidiaries:

Name of company	State of organization	Kind of business
East Coast	Delaware	Holding company.
Virginia	Virginia	Electric utility.
Tidewater	do	Do.

East Coast owns all of the outstanding securities of Virginia (except certain notes) which in turn owns all of the outstanding securities of Tidewater (except certain notes).

(3) Virginia and Tidewater conduct their operations within the State of Virginia and render service to approximately 10,700 electric customers in 227 communities.

The electric properties of Virginia consist of three separate electric systems which buy substantially all of their power requirements from a non-affiliate utility company. This company owns two small diesel generating plants which are maintained primarily for standby purposes.

The properties of Tidewater consist of rural distribution lines connected with the systems of Virginia and are leased to Virginia.

(4) The following table shows gross revenues, gross income, fixed charges, net income and times fixed charges earned of Virginia and Tidewater on a consolidated basis for the years 1941 through the twelve months ended November 30, 1946:

	Gross revenues	Gross income	Fixed charges	Net income	Times fixed charges earned
1941	$495,671	$143,802	$101,881	$41,921	1.41
1942	500,122	119,154	101,187	17,967	1.17
1943	510,129	99,492	101,327	(1,835)	.98
1944	559,280	131,469	100,265	31,204	1.31
1945	637,727	158,880	99,657	59,223	1.59
12 months ended Nov. 30, 1946	766,226	178,667	99,342	79,325	1.79
Average	578,194	138,544	100,610	37,968	1.37

(5) The balance sheet of Virginia, as at November 30, 1946, shows net plant, net current assets and investment in subsidiary company totalling $2,160,156. Such company as of the same date owed First Mortgage Bonds in the principal amount of $1,878,745, open account advances amounting to $100,000 and a bank loan amounting to $150,000 (increased to $200,000 by order of this Commission dated January 23, 1947) or an aggregate indebtedness of $2,126,745.

III. The Commission being required by the provisions of section 11 (e) of the act, before approving any plan thereunder, to find, after notice and opportunity for hearing, that such plan, as submitted or as modified, is necessary to effectuate the provisions of subsection (b) of section 11 of the act, and is fair and equitable to the persons affected by such plan; and

It being the duty of the Commission, among other things, pursuant to section 11 (b) (2) of the act, to require by order, after notice and opportunity for hearing, that each registered holding company, and each subsidiary company thereof, shall take such steps as the Commission shall find necessary to ensure that the corporate structure or continued existence of any company in the holding company system does not unduly or unnecessarily complicate the structure of such holding company system; and

It appearing to the Commission on the basis of the allegations hereinbefore set forth that the corporate structure of East Coast's holding company system may be unduly and unnecessarily complicated and that the continued existence of East Coast may unduly and unnecessarily complicate the structure of such holding company system and that proceedings should be instituted under section 11 (b) (2) of the act with respect thereto; and

It further appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the amended plan filed by East Coast pursuant to section 11 (e) of the act and the proceedings instituted herein by the Commission under section 11 (b) (2) of the act; and

It further appearing to the Commission that the said proceedings involve common questions of law and fact and should be consolidated and heard together;

It is hereby ordered, That a proceeding be and it hereby is instituted under section 11 (b) (2) of the act directed to East Coast and its subsidiaries, that such proceeding be and it hereby is consolidated with the proceeding with respect to the amended plan filed herein pursuant to section 11 (e), and that a hearing in the consolidated proceeding under the applicable provisions of the act and the rules and regulations of the Commission thereunder be held on March 4, 1947, at 10:00 a. m., e. s. t. at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk will advise as to the room where such hearing will be held.

It is further ordered, That jurisdiction be and it hereby is reserved to separate, either for hearing, in whole or in part, for disposition either in whole or in part, any issues or questions which may arise in those proceedings, and to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing above ordered. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

Notice is hereby given of said hearing to the above named applicants, The State Corporation Commission of Virginia, and to all interested persons, said notice to be given to said applicants and to The State Corporation Commission of Virginia by registered mail, and to all other persons by publication of this notice and order in the FEDERAL REGISTER. It is requested that any persons desiring to be heard in these proceedings shall file with the Secretary of this Commission on or before February 27, 1947, an appropriate request or application to be heard, as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented in such consolidated proceedings, particular attention shall be directed at the hearing to the following matters and questions:

(1) Whether the amended plan as submitted or as hereafter modified is necessary to effectuate the provisions of section 11 (b) of the act, and is fair and equitable to the persons affected thereby, and if not, in what respects said amended plan including any modifications thereof, should be modified and amended;

(2) Whether the securities of Virginia to be outstanding upon consummation of the amended plan will be reasonably adapted to the security structure and earning power of the company and will otherwise meet the standards of the Act;

(3) Whether the amended plan should be modified to include a provision for the payment by East Coast of all fees and expenses by whomsoever incurred in connection with said amended plan or the proceedings with respect thereto which the Commission may determine, award, allow or allocate and whether the fees and expenses to be paid in connection with the consummation of the plan and all transactions incidental thereto are for necessary services and are reasonable in amount;

(4) Whether the accounting adjustments and entries proposed to be made in connection with the amended plan are proper and in accordance with sound accounting practice;

(5) Whether the allegations contained in section II hereof are true and correct;

(6) Whether the corporate structure or continued existence of East Coast unduly or unnecessarily complicates the structure of the East Coast holding company system; and if so, what action shall be required with respect thereto pursuant to section 11 (b) (2) of the act.

By the Commission.

BANKERS SECURITIES CORP. ET AL.

NOTICE OF APPLICATION, STATEMENT OF ISSUES, AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 6th day of February A. D. 1947.

In the matter of Bankers Securities Corporation, Union Building Company of Pennsylvania, Market Street National Building, Inc., Touraine Apartments, Inc., File No. 812-479.

Notice is hereby given that Bankers Securities Corporation ("Bankers") and Union Building Company of Pennsylvania ("Union"), respectively, have filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order of the Commission exempting from the provisions of section 17 (a) of the act (1) the proposed tender by Bankers to Land Title Bank and Trust Company ("Land Title"), as indenture trustee, of First Mortgage Bonds without stock attached of Market Street National Building, Inc. ("Market Street") pursuant to a general call for tenders by Land Title in accordance with the sinking fund provisions of the indenture securing such First Mortgage Bonds, and (2) the proposed tender by Union to Land Title, as indenture trustee of First Mortgage Bonds without stock attached of Touraine Apartments, Inc. ("Touraine") pursuant to a general call for tenders by Land Title in accordance with the sinking fund provisions of the indenture securing such First Mortgage Bonds.

Bankers is a closed end, management, non-diversified investment company and is registered under the Investment Company Act of 1940. Bankers owns 12.07% of the voting securities of Market Street and 21.39% of the voting securities of Touraine. It also owns 31.79% of the voting securities of Union Building Company which owns all of the voting securities of Union Building Company of Pennsylvania ("Union"). Union, in turn, owns 16.7% of the voting securities of Touraine.

The tender of First Mortgage Bonds of Market Street by Bankers, if accepted by the indenture trustee, would constitute a purchase of such bonds by an affiliated person (Market Street) of a registered investment company (Bankers) from such investment company, and is prohibited by section 17 (a) of the act. The tender of First Mortgage Bonds of Touraine by Union, if accepted by the indenture trustee, would constitute a purchase of such bonds by an affiliated person (Touraine) of a registered investment company (Bankers) from a controlled person (Union) of the investment company and is prohibited by section 17 (a) of the act.

The applicants have therefore filed an application pursuant to section 17 (b) of the act for an order of the Commission exempting the proposed transactions from the provisions of section 17 (a) of the act, and they assert that the proposed transactions meet the standards and requirements of section 17 (b).

All interested persons are referred to said application which is on file in the offices of the Commission for a more detailed statement of the proposed transactions and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application, it deems the following issues to be raised thereby without prejudice to the specification of additional issues upon further examination:

(1) Whether the proposed transactions are fair and reasonable;

(2) Whether the proposed transactions involve overreaching on the part of any person concerned;

(3) Whether the proposed transactions are consistent with the policy of Bankers Securities Corporation as recited in its registration statement and reports filed under the act;

(4) Whether the proposed transactions are consistent with the general purposes of the act.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application to be held on February 19, 1947, at 9:30 a. m., eastern standard time, Room 318 in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Richard Townsend, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-mentioned Bankers Securities Corporation, Land Title Bank and Trust Company, Market Street National Building, Inc., Union Building Company of Pennsylvania and Touraine Apartments, Inc., and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise desiring to participate in said proceedings should file with the Secretary of the Commission, on or before February 17, 1947, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

FILBERT CORP.

NOTICE OF APPLICATION, STATEMENT OF ISSUES, AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 6th day of February A. D. 1946

Notice is hereby given that Filbert Corporation has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order of the Commission exempting from the provisions of section 17 (a) of the act a proposed transaction whereby the Applicant would exchange 1,565 shares of 5% Cumulative Preferred Stock of Gamble-Skogmo, Inc. with the issuer for common stock of the issuer at a ratio of one share of preferred for 5¾ shares of common.

Filbert Corporation is a closed-end non-diversified investment company and is registered under the Investment Company Act. Gamble-Skogmo, Inc. is an affiliated person of Filbert Corporation within the meaning of section 2 (a) (3) of the act.

The proposed exchange of securities by a registered investment company with an affiliated person is prohibited by section 17 (a) of the act. The Applicant has, therefore, filed an application pursuant to section 17 (b) for a Commission order exempting the proposed transaction from the provisions of section 17 (b) and it asserts that the proposed transaction meets the standards and requirements of section 17 (b).

All interested persons are referred to said application which is on file in the offices of the Commission for a more detailed statement of the proposed transaction and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application, it deems the following issues to be raised thereby withuot prejudice to the specification of additional issues upon further examination:

(1) Whether the proposed transaction is fair and reasonable;

(2) Whether the proposed transaction involves overreaching on the part of any person concerned;

(3) Whether the proposed transaction is consistent with the policy of Filbert Corporation as recited in its registration statement and reports filed under the act;

(4) Whether the proposed transaction is consistent with the general purposes of the act.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on February 18, 1947, at 9:45 a. m., eastern standard time, Room 318 in the offices of the Securities and Exchange Commission, 18th and Locusts Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Allen McCullen, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-mentioned Filbert Corporation, and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise desiring to participate in said proceedings should file with the Secretary of the Commission, on or before February 14, 1947, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

ELECTRIC BOND AND SHARE CO. ET AL.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 6th day of February A. D. 1947.

In the matters of Electric Bond and Share Company, File No. 54-127; Electric Bond and Share Company, and its subsidiary companies, respondents, File No. 59-3; Electric Bond and Share Company, American Power & Light Company, National Power & Light Company, Electric Power & Light Corporation, et al., respondents, File No. 59-12.

Notice is hereby given that Electric Bond and Share Company (Bond and Share), a registered holding company, has filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, a supplemental declaration to its Plan II-A, as amended, approved by the Commission on September 6, 1946. The declarant has designated sections 6 (a) and 7 of the act as applicable to the proposed transactions.

Notice is further given that any interested may, not later than February 17, 1947, 11:00 a. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after 11:00 a. m., e .s. t., February 17, 1947, said declaration as filed or amended may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Bond and Share proposes to issue and sell to thirteen banks promissory notes in an aggregate principal amount not to exceed $30,000,000, bearing interest at the rate of 1¾% per annum and maturing two years after the date of issue. The proceeds of such notes together with cash realized by Bond and Share from the sale of common stock of American Gas and Electric Company and Pennsylvania Power & Light Company will be used for the payment of $70 per share to Bond and Share's preferred stockholders in accordance with the provisions of Bond and Share's Plan II-A as amended.

Bond and Share requests that the order of the Commission approving the proposed transactions contain findings and recitations conforming to the provisions and requirements of section 1808 (f) of the Internal Revenue Code, as amended.

Bond and Share also requests that the Commission's order permitting the declaration to become effective be issued as soon as possible and become effective forthwith so that the company may be in a position to expedite the consummation of its Plan II-A, as amended.

By the Commission.

STANDARD GAS AND ELECTRIC CO.

NOTICE OF FILING AMENDMENTS TO DECLARATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 5th day of February 1947.

Notice is hereby given that Standard Gas and Electric Company (Standard Gas), a registered holding company and a subsidiary of Standard Power and Light Corporation, also a registered holding company, has filed its Amendments No. 7 and 8 to its declaration filed pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 regarding the proposed modification of the terms and conditions with respect to the payment of the purchase price for certain securities under the Company's proposed sale of its interest in Empresa de Servicios Publicos de los Estados Mexicanos, S. A. (Empresa), a Mexican corporation conducting a public utility business in the States of Sonora and Sinaloa, Mexico. The declarant designates sections 11 (b) and 12 (d) of the act and Rule U-44 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than February 14, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration, as amended by Amendments No. 7 and 8, proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration, as amended, may become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration, as so amended, which is on file in the office of this Commission, for a statement of the proceedings heretofore had in connection with the proposed sale and for a statement of the transactions therein proposed, which are summarized below:

The Commission on April 15, 1946 issued its order permitting the declaration, as then amended, to become effective regarding the proposed sale by Standard Gas to Theodore E. Shepard, for $858,000 cash, pursuant to an agreement of sale dated February 15, 1946, between the parties, of the following securities: (a) 50,000 shares of the par value of $100 (money of the United States of America) per share, of the capital stock of Empresa, consisting of 15,000 shares described as "Fully Paid Shares" and the remaining 35,000 shares described as "Assessable Series" (40% assessed and paid), and (b) a claim for indebtedness held by Standard Gas against Empresa in the principal sum of $428,495.48 (payable in United States currency), without interest. The said 50,000 shares of capital stock are all of the issued and outstanding shares of capital of Empresa and, together with the said claim of indetedness, constitute the entire investment of Standard Gas in Empresa.

The terms of the agreement of sale dated February 15, 1946 provided for the payment by the purchaser of $50,000 earnest money to be applied upon the purchase price for the securities. Under the terms of the agreement, it was further provided that the closing date for consummation of the proposed sale was to be April 1, 1946, subject to extension, at which date the balance of the purchase price would be paid. By supplemental agreements of the parties such closing date was extended, from time to time, and upon applications of Standard Gas filed at the request of the proposed purchaser, the time within which said sale might be consummated was extended by orders of the Commission dated June 14, 1946, June 21, 1946, July 31, 1946, October 15, 1946 and December 2, 1946. The last order, dated December 2, 1946, extended the time within which to consummate the proposed sale to February 1, 1947. Under the terms of the original contract of sale and the supplemental agreements between the parties extending the time of closing, a total of $258,000 as earnest money has been paid by the proposed purchaser to Standard Gas, including the original payment of $50,000 earnest money paid under the terms of the original contract of sale.

Standard Gas, under the provisions of its Amendments No. 7 and 8, now proposes to sell to Theodore E. Shepard, for $858,000, the securities set forth above, under the terms of a supplemental agreement dated December 16, 1946, modifying the provisions of the original contract of sale dated February 15, 1946, as modified, regarding payment of the purchase price and extending the time of closing the transaction to February 21, 1947, subject to the right of Standard Gas to accelerate said closing date. Under the terms of said supplemental agreement the sum of $600,000 (representing the balance of the purchase price after applying $258,000 earnest money heretofore paid by the proposed buyer to Standard Gas) shall be paid as follows: $170,000 cash to be paid by the buyer to Standard Gas at time of closing (plus interest due under the contract of sale as supplemented by supplemental agreements, between the parties, extending the date of closing, dated July 29, 1946, and October 10, 1946), and the execution and delivery to Standard Gas by the buyer of his note in the amount of $430,000, to be dated as of the date of closing, which note shall be payable as follows: $80,000 principal amount on or before March 31, 1947, and $350,000 principal amount on or before December 31, 1947, with interest thereon at the rate of 3% per annum, payable March 31, 1947, June 30, 1947, September 30, 1947, and December 31, 1947.

Under the terms and conditions of said supplemental agreement dated December 16, 1946, and said note and as security for the payment of said note, it is expressly provided that Standard Gas will retain a vendor's lien on all of the Empresa securities proposed to be sold to the purchaser. In addition, among other provisions contained in said supplemental agreement and said note, it is provided that the purchaser will cause Empresa to issue in substitution for the open account indebtedness of Empresa a demand note, bearing interest at 6% from date thereof, in the amount of $428,495.48 and to be pledged with and held by Standard Gas as further security for the payment of said note. It is also provided under the terms and conditions of said supplemental agreement and said note given in part payment of the purchase price for said securities, that upon default in the payment of said note, or of any of the other obligations and provisions provided for therein to be kept and performed by the proposed purchasers, said notes shall at the option of the holder immediately become due and payable without demand or notice, and the holder thereof may sell all or any part of the property held as security for the payment of said note.

Standard Gas represents that the sale of the securities, as proposed by its original declaration and as now proposed by its Amendments No. 7 and 8, including the acceptance by Standard Gas of the note of the purchaser in the amount of $430,000, is necessary or appropriate to effectuate the provisions of section 11 (b) of the act and is a step in compliance with the Commission's order dated August 8, 1941, issued pursuant to section 11 (b) (1) of the act, directing Standard Gas, among other things, to dispose of its interest in Empresa, and requests that the Commission, in its order permitting the declaration, as amended, to become effective, find that such sale and the acceptance of such note are necessary or appropriate to effectuate the provisions of section 11 (b) of the act, and make the specifications and itemizations necessary in order that the provisions of sections 371 (b), 371 (e) and 1808 (f) of the Internal Revenue Code shall be applicable.

By the Commission.

TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration, Department of Agriculture

PART 10—FEDERAL LAND BANKS

INSURANCE REQUIREMENTS FOR BANK AND COMMISSIONER LOANS

Sections 10.191 through 10.194 of Chapter I, Title 6, Code of Federal Regulations are hereby amended to read as follows:

§ 10.191 *Manner in which mortgagor's option to use loss proceeds shall be exercised.* The bank or association as promptly as possible after the receipt of the sum referred to in § 10.190 shall send to the mortgagor a notice in writing thereof. Within 30 days after such notice is sent, if the mortgagor desires to exercise his option, he shall so notify the bank or association in writing. With such notice or within 30 days thereafter, unless such time for good cause be extended, the mortgagor shall furnish information in such form as shall be satisfactory covering the plans of the mortgagor for the reconstruction of the building involved in sound and serviceable form and condition, at least equal to that which existed immediately prior to the loss. Within said 30 days the mortgagor shall also furnish satisfactory assurance that such reconstruction will be completed within a reasonable time, and that there will be no unsatisfied liens for labor, materials, and/or other expenses that will have priority over the mortgage when such reconstruction shall have been completed or when the said sum received shall have been paid to or for the account of the mortgagor.

§ 10.192 *Loss proceeds not to be disbursed in absence of evidence that prior liens will not attach.* No sum received shall be paid to or for the account of the mortgagor for the purpose of enabling him to reconstruct a building until the bank or association is satisfied that no lien by reason of reconstruction of the buildings covered by such insurance will have priority over the mortgage thereon. The regulations adopted by the bank should establish adequate safeguards with respect to such disbursements.

§ 10.193 *Reconstruction of improvements in different form.* If the mortgagor desires to use the insurance money, in whole or in part, in order to replace the building involved with an insurable building of less expensive type, or to substitute any other insurable building, the said fund may be used for such purpose, provided the land bank or association is satisfied that the proposed building will be suitable and adequate to the agricultural needs of the farm.

§ 10.194 *Evidence that mortgagor can supply additional funds; meaning of term "reconstruction."* If the sum received (after making the deductions, if any, authorized by the regulations in §§ 10.183 to 10.197, inclusive) be inadequate to enable the mortgagor to reconstruct as herein provided, and he desires nevertheless to do so, he shall furnish satisfactory assurance that he will have the necessary additional funds. Where, under the regulations in §§ 10.183 to 10.197, inclusive, a building may be repaired, replaced, or substituted, the operations involved shall be deemed to be covered by the words "reconstruct" or "reconstruction," as the case may require.

499a et seq. and Supp. IV, 499b), the rules of practice issued under the Perishable Agricultural Commodities Act, 1930, as amended (10 F. R. 2209, 8685; 11 F. R. 224) are further amended as follows:

1. By deleting paragraphs (i), (j) and (l) of § 47.2 and substituting the following:

§ 47.2 *Definitions.* • • •

(i) "Examiner" means any examiner in the Office of Hearing Examiners, United States Department of Agriculture.

(j) "Examiner's report" means the examiner's report to the Secretary, and includes the examiner's proposed (1) findings of fact and conclusions with respect to all material issues of fact, law or discretion, as well as the reasons or basis therefor, (2) order and (3) rulings on findings, conclusions and orders submitted by the parties.

• • • • •

(l) "Hearing Clerk" means the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C.

2. By striking paragraph (b) (2) of § 47.3 and substituting the following:

§ 47.3 *Institution of proceedings.* • • •

(b) *Investigation and disposition of informal complaints.* • • •

(2) If the statements in the informal complaint and the investigation thereunder seem to warrant such action, and, in any case except one of wilfullness or one in which public health, interest or safety otherwise requires, which may result in the suspension or revocation of a license, the Director, in an effort to effect an amicable or informal adjustment of the matter, shall give written notice to the person complained against of the facts or conduct concerning which complaint is made, and shall afford such person an opportunity, within a reasonable time fixed by the Director, to demonstrate or achieve compliance with the applicable requirements of the act and regulations promulgated thereunder.

3. By deleting paragraph (a), (c) and (e) of § 47.29 and substituting the following:

§ 47.29 *Examiners.* (a) *Assignment.* No examiner shall be assigned to serve in any proceeding who (1) has any pecuniary interest in any matter or business involved in the proceeding, (2) is related within the third degree by blood or marriage to any party to the proceeding, or (3) has participated in the investigation preceding the institution of the proceeding or in the determination that it should be instituted or in the preparation of the complaint or in the development of the evidence to be introduced therein.

• • • • •

(c) *Conduct.* The examiner shall conduct the proceeding in a fair and impartial manner and, save to the extent required for the disposition of ex parte matters as authorized by law, he shall not consult any person or party on any fact in issue unless upon notice and opportunity for all parties to participate.

• • • • •

(e) *Who may act in absence of examiner.* In case of the absence of the examiner or his inability to act, the powers and duties to be performed by him under these rules of practice in connection with a proceeding may, without abatement of the proceeding unless otherwise ordered by the Secretary, be assigned to any other examiner.

4. By deleting paragraphs (a), (b) and (c) of § 47.30 and substituting the following:

§ 47.30 *The answer*—(a) *Filing and service.* Within 20 days after the service of the moving paper, the respondent shall file, in triplicate, with the hearing clerk, an answer, signed by the respondent or his attorney: *Provided*, That the Secretary may order that the hearing be held without answer or other pleading. The answer shall be served upon the complainant, and any other party of record, by the hearing clerk.

(b) *Contents; failure to file.* Such answer shall (1) contain a statement of the facts which constitute the grounds of defense, and shall specifically admit, deny, or explain each of the allegations of the moving paper unless the respondent is without knowledge, in which case the answer shall so state; or (2) state that the respondent admits all of the allegations of the moving paper. The answer may contain a waiver of hearing.

Failure to file an answer to, or plead specifically to, any allegation of the moving paper shall constitute an admission of such allegation.

(c) *Procedure upon admission of facts.* The admission, in the answer or by failure to file an answer, of all the material allegations of fact contained in the moving paper shall constitute a waiver of hearing. Upon such admission of facts, the examiner, without further investigation or hearing, shall prepare his report, in which he shall adopt as his proposed findings of fact the material facts alleged in the moving paper. Unless the parties have waived service of the examiner's report, it shall be served upon them by the hearing clerk. The parties shall be given an opportunity to file exceptions to the report, to file briefs in support of such exceptions, and to make oral argument thereon before the Secretary. Any request to make oral argument before the Secretary must be filed in the manner and within the time provided in § 47.40.

5. By deleting paragraphs (b), (c), (d) and (e) of § 47.37 and substituting the following:

§ 47.37 *Post hearing procedure before the examiner.* • • •

(b) *Proposed findings of fact, conclusions and order.* Within 10 days after receipt of notice that the transcript has been filed, each party may file with the hearing clerk proposed findings of fact, conclusions, and order, based solely upon the record, and a brief in support thereof.

(c) *Examiner's report.* The examiner, within reasonable time after the termination of the period allowed for the filing of proposed findings of fact, conclusions and orders, and briefs in support thereof, shall prepare, upon the basis of the record and shall file with the hearing clerk, his report, a copy of which shall be served by the hearing clerk upon each of the parties.

(d) *Exceptions to examiner's report.* Within 20 days after receipt of the examiner's report, the parties may file exceptions to the report. Any party who desires to take exceptions to any matter set out in the report shall transmit his exceptions in writing to the hearing clerk, referring to the relevant pages of the transcript, and suggesting a corrected finding of fact, conclusion, or order. Within the same period of time, each party shall transmit to the hearing clerk a brief statement in writing concerning each of the objections taken to the action of the examiner at the hearing, as provided in § 47.32, upon which the party wishes to rely, referring, where relevant, to the pages of the transcript. A party, if he files exceptions or a statement of objections, shall state in writing whether he desires to make an oral argument thereon before the Secretary; otherwise, he shall be deemed to have waived such oral argument.

(e) [Revoked.]

6. By striking paragraph (i) of § 47.38 and substituting therefor the following:

§ 47.38 *Shortened procedure.* • • •

(i) *Examiners report under the shortened procedure.* Except as otherwise may be directed by the examiner, the filing of the complainant's statement in reply will conclude the presentation of evidence. The examiner will thereupon file with the hearing clerk a notice that the parties may file proposed findings of fact, conclusions, and orders within 10 days after service of such notice. Upon the expiration of the period set for the filing of proposed findings, conclusions and orders, the examiner will prepare his report, and the same procedure will be followed thereafter as in proceedings where an oral hearing has been held.

7. By striking § 47.39 and substituting therefor the following:

§ 47.39 *Transmittal of record.* The hearing clerk, immediately following the period allowed for the filing of exceptions, shall certify to the Secretary the record of proceeding. Such record shall include: The pleadings; motions and requests filed and rulings thereon; the transcript of the testimony taken at the hearing, together with the exhibits filed therein; any statements filed under the shortened procedure; any documents or papers filed in connection with prehearing conferences; such proposed findings of fact, conclusions and orders, and briefs in support thereof, as may have been filed in connection with the hearings; the examiner's report, and such exceptions, statements of objections and briefs in support thereof, as may have been filed in the proceeding.

8. By striking the first sentence of paragraph (a) of § 47.41 and substituting therefor the following:

§ 47.41 *Consideration and issuance of order.* (a) As soon as practicable after the receipt of the record from the hearing clerk, or, in case oral argument was had, as soon as practicable thereafter, the Secretary, upon the basis of and after due consideration of the record, shall prepare his order in the proceeding which shall include findings, conclusions, order, and rulings on motions, exceptions, statements of objections, and proposed findings, conclusions and orders submitted by the parties, not theretofore ruled upon.

9. By striking paragraph (b) of § 47.42 and substituting therefor the following:

§ 47.42 *Rehearing, reargument, reconsideration of orders, and reopening of hearing.* • • •

(b) *Petition to reopen.* A petition to reopen a hearing to take further evidence may be filed at any time prior to the issuance of the final order. Every such petition shall state briefly the nature and purpose of the evidence to be adduced, shall show that such evidence is not merely cumulative, and shall set forth a good reason why such evidence was not adduced at the hearing. Every such petition shall be served by the hearing clerk on the other party in the proceeding.

10. By adding § 47.45 as follows:

§ 47.45 *Amendment to rules governing reparation proceedings.* Whenever the term "examiner" is used in § 47.6 to § 47.25, both inclusive (which are the rules applicable to reparation proceedings), or in any section or paragraph incorporated by reference or referred to in said sections, such term shall be deemed to mean "presiding officer" insofar as reparation proceedings are concerned.

11. By adding § 47.46 as follows:

§ 47.46 *Rule applicable to all proceedings.* The Secretary may act in the place and stead of an examiner or presiding officer in any proceeding hereunder. When he so acts, the hearing clerk shall transmit the record to the Secretary at the expiration of the period provided for the filing of proposed findings of fact, conclusions and orders, and the Secretary shall thereupon, after due consideration of the record, issue his final order in the proceeding; *Provided,* That he may issue a tentative order in which event the parties shall be afforded an opportunity to file exceptions before the issuance of the final order.

12. By striking the word "suggested" wherever it appears in §§ 47.19 to 47.22, inclusive; 47.30 and 47.37 to 47.39, inclusive, and substituting in lieu thereof the word "proposed."

NOTE: Unless otherwise ordered, all proceedings initiated under the Perishable Agricultural Commodities Act, 1930 and pending on December 11, 1946, shall be conducted and concluded in accordance with the applicable rules of practice in effect at the time the proceedings were instituted.

PART 52—PROCESSED FRUITS, VEGETABLES, AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

STANDARDS FOR CANNED SWEET POTATOES [1]

On November 28, 1946, notice of proposed rule making was published in the FEDERAL REGISTER (11 F. R. 13921; 12 F. R. 34) regarding the proposed revision of United States Standards for Grades of Canned Sweetpotatoes. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following revised United States Standards for Grades of Canned Sweetpotatoes are hereby promulgated pursuant to the provisions of the Department of Agriculture Appropriation Act, 1947 (Pub. Law 422, 79th Cong.).

§ 52.662 *Canned sweetpotatoes*—(a) *Identity.* "Canned sweetpotatoes" means canned sweetpotatoes as defined in the definitions and standards of identity for canned vegetables (21 CFR, Cum. Supp., 52.990), issued pursuant to the Federal Food, Drug, and Cosmetic Act.

(b) *Styles of canned sweetpotatoes.* (1) "Whole" or "whole sweetpotatoes" means canned sweetpotatoes that retain the approximate original conformation of the prepared sweetpotatoes.

(2) "Pieces" or "pieces of sweetpotatoes" means canned sweetpotatoes that consist of cut (including, but not being limited to, sweetpotatoes that are halved longitudinally) or broken units.

(3) "Mashed" or "mashed sweetpotatoes" means canned sweetpotatoes that are wholly comminuted or crushed.

(4) Any combination of two or more of the following styles constitutes a style: whole, pieces, or mashed.

(c) *Types of packs of canned sweetpotatoes.* In addition to styles, canned sweetpotatoes are usually processed as any one of the following types of packs:

(1) In a liquid packing medium.

(2) "Vacuum-pack (without packing media)."

(3) "Solid-pack" or "dry-pack."

(d) *Grades of canned sweetpotatoes.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of canned sweetpotatoes that possess similar varietal characteristics; possess a practically uniform bright typical color; are practically free from defects; possess a good character; possess a normal flavor; and that are of such quality with respect to shape and size or consistency as to score not less than 85 points when scored in accordance with the scoring system outlined herein.

(2) "U. S. Grade C" or "U. S. Standard" is the quality of canned sweetpotatoes that possess a fairly good typical color; are fairly free from defects; possess a fairly good character; possess a normal flavor; and that are of such quality with respect to shape and size or consistency as to score not less than 70 points when scored in accordance with the scoring system outlined herein.

(3) "U. S. Grade D" or "Substandard" is the quality of canned sweetpotatoes that fail to meet the requirements of U. S. Grade C or U. S. Standard.

(e) *Sirup density.* Sirup "cut-out" requirements of sweetpotatoes packed in a liquid packing medium are not incorporated in the grades of the finished product since sirup, as such, is not a factor of grade for the purpose of these grades.

(f) *Recommended fill of container.* It is recommended that the container be filled with sweetpotatoes as full as practicable without impairment of quality and that the product and packing medium, if any, occupy not less than 90 percent of the capacity of the container.

(g) *Recommended drained weight.* (1) The drained weight recommendations in Table No. 1 hereof are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purpose of these grades.

(2) The drained weight recommendations in Table No. 1 hereof are not applicable to canned sweetpotatoes packed as "vacuum-pack (without packing media)" or as "solid-pack" or "dry-pack."

(3) Drained weights of sweetpotatoes packed in a liquid packing medium are determined by emptying the contents of the container upon a circular sieve of proper diameter containing 8 meshes to the inch (0.097-inch square openings) and allowing to drain for 2 minutes. A sieve 8 inches in diameter is used for No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter in used for containers larger than the No. 3 size can (404 x 414).

TABLE No. 1

[Recommended drained weights of sweetpotatoes packed in a liquid packing medium]

Container size or designation:	Drained weight (ounces)
No. 2	14
No. 2½	19
No. 3 vacuum or squat (404 x 307)	15
No. 10	75

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

(h) *Ascertaining the grade.* "Normal flavor" means that the product is free from objectionable ordors or objectionable flavors of any kind. The grade of canned sweetpotatoes may be ascertained by considering, in addition to the requirements of the respective grade, the following factors: Color, shape and size or consistency, absence of defects, and character. The relative importance of each factor is expressed numerically on a scale of 100. The maximum number of points that may be given for each factor is:

	Points
(1) Color	20
(2) Shape and size or consistency	20
(3) Absence of defects	40
(4) Character	20
Total score	100

(i) *Ascertaining the rating of each factor.* The essential variations within each factor are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

(1) *Color.* (i) Canned sweetpotatoes that possess a practically uniform bright typical color may be given a score of 17 to 20 points. "Practically uniform bright typical color" means that the sweetpotatoes possess a color that is typical of sweetpotatoes of similar varietal characteristics, is bright, and may range from light yellow to a deep golden color.

(ii) If the canned sweetpotatoes possess a fairly good color, a score of 14 to 16 points may be given. Canned sweetpotatoes that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the sweetpotatoes possess a color that may be variable or slightly dull and may range from light yellow to a deep golden color.

(iii) Canned sweetpotatoes that are definitely off-color for any reason or that fail to meet the requirements of subparagraph (1) (ii) of this paragraph may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(2) *Shape and size or consistency.* (i) Whole and pieces (whether packed singly or in combination) packed in a liquid packing medium or as "vacuum-pack (without packing media)" that are practically uniform in size and shape and canned sweetpotatoes packed as "solid-pack" or "dry-pack" that possess a good consistency may be given a score of 17 to 20 points. "Practically uniform in shape and size" and "good consistency" have the following meanings with respect to the following styles and types of packs of canned sweetpotatoes:

Whole and pieces (whether packed singly or in combination) in a liquid packing medium or "vacuum-pack (without packing media)." "Practically uniform in shape and size" means that the units of a single style may vary moderately in shape and that the weight of the largest unit, irrespective of style, is not more than twice the weight of the second smallest unit, irrespective of style.

Whole, pieces, and mashed (whether packed singly or in combination) packed as "solid-pack" or "dry-pack." "Good consistency" means that the sweetpotatoes possess a stiff consistency which may show a slight separation of free liquid.

(ii) If whole and pieces (whether packed singly or in combination) packed in a liquid packing medium or as "vacuum-pack (without packing media)" are fairly uniform in shape and size or if the canned sweetpotatoes packed as "solid-pack" or "dry-pack" possess a fairly good consistency, a score of 14 to 16 points may be given. "Fairly uniform in shape and size" and "fairly good consistency" have the following meanings with respect to the following styles and types of packs of canned sweetpotatoes:

Whole and pieces (whether packed singly or in combination) in a liquid packing medium or "vacuum-pack (without packing media)." "Fairly uniform in shape and size" means that the units of a single style may vary considerably in shape and that the weight of the largest unit, irrespective of style, is not more than three times the weight of the second smallest unit, irrespective of style.

Whole, pieces, and mashed (whether packed singly or in combination) packed as "solid-pack" or "dry-pack." "Fairly good consistency" means that the sweetpotatoes possess a thick consistency but may not be free flowing.

(iii) Canned sweetpotatoes that fail to meet the requirements of subparagraph (2) (ii) of this paragraph may be given a score of 0 to 13 points and shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule).

(3) *Absence of defects.* The factor of absence of defects refers to the degree of freedom from particles of peel, secondary rootlets, untrimmed fibrous ends, discolored areas, or from other similar defects.

(i) Canned sweetpotatoes that are practically free from defects may be given a score of 34 to 40 points. "Practically free from defects" means that the product contains not more than a slight amount of particles of peel, secondary rootlets, untrimmed fibrous ends, discolored areas, or other similar defects which do not materially affect the appearance or the edibility of the product.

(ii) If the canned sweetpotatoes are fairly free from defects, a score of 28 to 33 points may be given. Canned sweetpotatoes that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the particles of peel, secondary rootlets, untrimmed fibrous ends, discolored areas, or other similar defects may be definitely noticeable but are not so prominent as to affect seriously the appearance or the edibility of the product.

(iii) Canned sweetpotatoes that fail to meet the requirements of subparagraph (3) (ii) of this paragraph may be given a score of 0 to 27 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(4) *Character.* The factor of character refers to the texture and condition of the flesh, the degree of freedom from tough or coarse fibers, the tenderness of the canned sweetpotatoes, and the tendency of sweetpotatoes packed in a liquid packing medium or as "vacuum-pack (without packing media)" to retain their apparent original conformation and size without disintegration.

(i) Canned sweetpotatoes that possess a good character may be given a score of 17 to 20 points. "Good character" has the following meanings with respect to the following styles and types of packs of canned sweetpotatoes:

Whole and pieces (whether packed singly or in combination) in a liquid packing medium or "vacuum-pack (without packing media)." "Good character" means that the units possess a uniformly smooth texture, are practically free from tough or coarse fibers, and may be soft to firm but hold their apparent original conformation and size without material disintegration.

Whole, pieces, and mashed packed as "solid-pack" or "dry-pack." Good character" means that any units present possess a uniformly smooth texture, are practically free from tough or coarse fibers, and may be soft to firm and that any mashed sweetpotatoes present possess a uniformly smooth texture, practically free from tough or coarse fibers.

Mashed. "Good character" means that the mass possesses a uniformly smooth texture and is free from tough or coarse fibers.

(ii) If the canned sweetpotatoes possess a fairly good character, a score of 14 to 16 points may be given. Canned sweetpotatoes that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" has the following meanings with respect to the following styles and types of packs of canned sweetpotatoes:

Whole and pieces (whether packed singly or in combination) in a liquid packing medium or "vacuum-pack (without packing media)." "Fairly good character" means that the units possess a fairly uniform texture, may possess a few tough or coarse fibers, may be variable in tenderness but are not tough, may be very soft to very firm, and may possess slight or partial disintegration of the units.

Whole, pieces, and mashed packed as "solid-pack" or "dry-pack." "Fairly good character" means that any units present possess a fairly uniform texture, may possess a few tough or coarse fibers, may be variable in tenderness but are not tough, and may be very soft to very firm and that any mashed sweetpotatoes present possess a fairly uniform texture, may be coarse but are practically free from lumps, and may possess a few tough or coarse fibers.

Mashed. "Fairly good character" means that the mass possesses a fairly uniform texture, may be coarse but is free from lumps and that not more than a few tough or coarse fibers may be present.

(iii) Canned sweetpotatoes that fail to meet the requirements of subparagraph (4) (ii) of this paragraph may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(j) *Tolerance for certification of officially drawn samples.* (1) When certifying samples that have been officially drawn and which represent a specific lot of canned sweetpotatoes the grade for the lot will be determined by averaging the scores of all containers, if: (i) Not more than one-sixth of the containers fail to meet the requirements of the grade indicated by the average score;

(ii) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average score;

(iii) Not more than one-sixth of the containers fail to meet the requirements of the indicated grade by reason of a limiting rule;

(iv) The average score of all containers for the limiting factor is within the range for the grade indicated by the average score; and

(v) No container falls below any applicable standard of quality promulgated under the Federal Food, Drug, and Cosmetic Act.

(k) *Score sheet for canned sweetpotatoes.*

SERVICE TESTS FOR AIRCRAFT

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 4th day of February 1947.

A study of accidents and maintenance problems of relatively new model aircraft indicates that in the initial stages of operating such new aircraft extensive maintenance difficulties are apt to occur. Such a situation is undoubtedly conducive to accidents caused by mechanical malfunctioning of the troublesome components or equipment, and remains serious until the difficulties are eventually overcome. This situation would be materially relieved if prior to type certification the aircraft were subjected to tests specifically designed to ascertain the reliability and proper functioning of the airplane, its components, and equipment. The requirements hereinafter set forth are intended to make mandatory the conducting of such tests.

It appearing to the Board that the subject of these regulations has been under consideration for several months; that proposed regulations essentially similar to those hereinafter set forth were circulated to the aircraft industry in August 1946; that in adopting these regulations the date of their effectiveness is being delayed sufficiently to give the public ample notice; that in view of the foregoing sufficient public procedure has been afforded in regard to the regulations, and that any further proceeding would serve only to delay the regulations which it is in the public interest to adopt at this time;

The Civil Aeronautics Board finds that the notice and public procedures provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary.

Now, therefore: Effective March 15, 1947, § 03.0421 (11 F. R. 13369) of the Civil Air Regulations is amended to read as follows:

§ 03.0421 *Flight tests.* (Applicable to all airplanes certificated as a type on or after March 15, 1947.) After proof of compliance with the structural requirements contained in this part, and upon completion of all necessary inspection and testing on the ground, and proof of the conformity of the airplane with the type design, and upon receipt from the applicant of a report of flight tests conducted by him, there shall be conducted such official flight tests as the Administrator finds necessary to determine compliance with §§ 03.1 through 03.632. After the conclusion of these flight tests such additional flight tests shall be conducted as the Administrator finds necessary to ascertain whether there is reasonable assurance that the airplane, its components, and equipment are reliable and function properly. The extent of such additional flight tests shall depend upon the complexity of the airplane, the number and nature of new design features, and the record of previous tests and experience for the particular airplane model, its components, and equipment. If practicable, the flight tests performed for the purpose of ascertaining the reliability and proper functioning shall be conducted on the same airplane which was used in flight tests to show compliance with §§ 03.1 through 03.632.

PART 04a—AIRPLANE AIRWORTHINESS REGULATIONS EFFECTIVE PRIOR TO NOVEMBER 9, 1945

SERVICE TESTS FOR AIRCRAFT

At a session of the Civil Aeronautics Board held at its offices in Washington, D. C., on the 4th day of February 1947.

A study of accidents and maintenance problems of relatively new model aircraft indicates that in the initial stages of operating such new aircraft extensive maintenance difficulties are apt to occur. Such a situation is undoubtedly conducive to accidents caused by mechanical malfunctioning of the troublesome components or equipment, and remains serious until the difficulties are eventually overcome. This situation would be materially relieved if prior to type certification the aircraft were subjected to tests specifically designed to ascertain the reliability and proper functioning of the airplane, its components, and equipment. The requirements hereinafter set forth are intended to make mandatory the conducting of such tests.

It appearing to the Board that the subject of these regulations has been under consideration for several months; that proposed regulations essentially similar to those hereinafter set forth were circulated to the aircraft industry in August 1946; that in adopting these regulations the date of their effectiveness is being delayed sufficiently to give the public ample notice; that in view of the foregoing sufficient public procedure has been afforded in regard to the regulations, and that any further proceeding would serve only to delay the regulations which it is in the public interest to adopt at this time;

The Civil Aeronautics Board finds that the notice and public procedures provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary.

Now, therefore: Effective March 15, 1947, Part 04a of the Civil Air Regulations is amended as follows:

1. By deleting the second sentence of § 04a.04.

2. By adding § 04a.040 to read as follows:

§ 04a.040 *Flight tests.* (Applicable to all airplanes certificated as a type on or after March 15, 1947.) After proof of compliance with the structural requirements contained in this part, and upon completion of all necessary inspection and testing on the ground, and proof of the conformity of the airplane with the type design, and upon receipt from the applicant of a report of flight tests conducted by him, there shall be conducted such official flight tests as the Administrator finds necessary to determine compliance with §§ 04a.2 through 04a.91. After the conclusion of these flight tests such additional flight tests shall be conducted as the Administrator finds necessary to ascertain whether there is reasonable assurance that the airplane, its components, and equipment are reliable and function properly. The extent of such additional flight tests shall depend upon the complexity of the airplane, the number and nature of new design features, and the record of previous tests and experience for the particular airplane model, its components, and equipment. If practicable, the flight tests performed for the purpose of ascertaining the reliability and proper functioning shall be conducted on the same airplane which was used in flight tests to show compliance with §§ 04a.2 through 04a.91.

PART 04b—AIRPLANE AIRWORTHINESS REGULATIONS EFFECTIVE ON NOVEMBER 9, 1945

TRANSPORT CATEGORIES; SERVICE TESTS FOR AIRCRAFT

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 4th day of February 1947.

A study of accidents and maintenance problems of relatively new model aircraft indicates that in the initial stages of operating such new aircraft extensive maintenance difficulties are apt to occur. Such a situation is undoubtedly conducive to accidents caused by mechanical malfunctioning of the troublesome components or equipment, and remains serious until the difficulties are eventually overcome. This situation would be materially relieved if prior to type certification the aircraft were subjected to tests specifically designed to ascertain the reliability and proper functioning of the airplane, its components, and equipment. The requirements hereinafter set forth are intended to make mandatory the conducting of such tests.

It appearing to the Board that the subject of these regulations has been under consideration for several months; that proposed regulations essentially similar to those hereinafter set forth were circulated to the aircraft industry in August 1946; that in adopting these regulations the date of their effectiveness is being delayed sufficiently to give the public ample notice; that in view of the foregoing sufficient public procedure has been afforded in regard to the regulations, and that any further proceeding would serve only to delay the regulations which it is in the public interest to adopt at this time;

The Civil Aeronautics Board finds that the notice and public procedures provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary.

Now, therefore: Effective March 15, 1947, § 04b.0321 of the Civil Air Regulations is amended to read as follows:

§ 04b.0321 *Flight tests.* (Applicable to all airplanes certificated as a type on or after March 15, 1947.) After proof of compliance with the structural requirements contained in this part, and upon completion of all necessary inspection and testing on the ground, and proof of the conformity of the airplane with the type design, and upon receipt from the applicant of a report of flight tests conducted by him, there shall be conducted such official flight tests as the Administrator finds necessary to determine compliance with §§ 04b.1 through 04b.622. After the conclusion of these flight tests such additional flight tests shall be conducted as the Administrator finds necessary to ascertain whether there is reasonable assurance that the airplane, its components, and equipment are reliable and function properly. The extent of such additional flight tests shall depend upon the complexity of the airplane, the number and nature of new design features, and the record of previous tests and experience for the particular airplane model, its components, and equipment. If practicable, the flight tests performed for the purpose of ascertaining the reliability and proper functioning shall be conducted on the same airplane which was used in flight tests to show compliance with §§ 04b.1 through 04b.622.

PART 22—LIGHTER-THAN-AIR PILOT CERTIFICATES

DURATION OF CERTIFICATES AND RECENT EXPERIENCE REQUIREMENTS OF LIGHTER-THAN-AIR AIRCRAFT

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 4th day of February 1947.

It appearing that the current Civil Air Regulations require periodic endorsement for the continued effectiveness of lighter-than-air pilot certificates; such periodic endorsement requirement for all other airman certificates was rescinded as of January 1, 1942; presently expired lighter-than-air pilot certificates may be rendered valid; benefits will be provided for pilots of lighter-than-air aircraft which have been extended to other pilots; this regulation will provide uniformity with regulations governing other types of pilot certificates.

The Civil Aeronautics Board finds that the notice and procedures provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary and that there is good cause to make these regulations effective immediately.

Now, therefore: Effective February 4, 1947, Part 22 of the Civil Air Regulations is amended as follows:

1. By amending § 22.21 *Duration*, to read as follows:

§ 22.21 *Duration.* (a) A student lighter-than-air pilot certificate shall expire 24 calendar months after the month of issuance.

(b) A private or commercial lighter-than-air pilot certificate or free balloon pilot certificate shall remain in effect unless it is suspended, or revoked, or a general termination date for such certificate is fixed by the Board.

(c) The Administrator or his authorized representative may issue a temporary lighter-than-air pilot certificate for a period of not to exceed 90 days subject to the terms and conditions specified therein by the Administrator.

2. By amending § 22.22 *Periodic endorsement requirements*, to read as follows:

§ 22.22 *Recent experience requirements.*

§ 22.220 *General.* (a) A student who has not piloted an airship within 90 days

shall not pilot such aircraft in solo flight until he has passed a flight check given by a commercial lighter-than-air pilot and that fact has been endorsed by such pilot in the student pilot logbook.

(b) The holder of a private or commercial lighter-than-air pilot certificate shall not pilot an airship carrying passengers, unless within the preceding 90 days he has had at least 5 take-offs and landings.

§ 22.221 *Night flight.* No person shall pilot a lighter-than-air aircraft carrying passengers during the period from one hour after sunset to one hour before sunrise, unless he has made at least 5 take-offs and landings to a full stop during the hours of darkness within the preceding 90 days.

§ 22.222 *Instrument flight.* A pilot shall not pilot an airship under instrument flight rules, unless he has had at least 6 hours of instrument flight under actual or simulated instrument conditions during the preceding 6 calendar months. At least 50 percent of the above required time must have been accomplished in actual flight.

3. By amending § 22.23 *Special issuance of expired certificates,* to read as follows:

§ 22.23 *Reinstatement.* A private or commercial lighter-than-air pilot certificate or a free balloon pilot certificate which was effective on or after January 1, 1942, and has expired, may be reinstated upon application to an authorized representative of the Administrator prior to February 1, 1948.

4. By amending § 22.314 *Periodic physical examination,* to read as follows:

§ 22.314 *Medical certificate and renewal.* Any person while piloting a lighter-than-air aircraft shall have on his person a medical certificate or other evidence satisfactory to the Administrator showing that he has met the physical requirements within the following time limits:

(a) Student pilot, private pilot, or free balloon pilot—24 calendar months.

(b) Commercial pilot — 12 calendar months.

PART 35—FLIGHT ENGINEER CERTIFICATES

TEMPORARY FLIGHT ENGINEER CERTIFICATES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 4th day of February 1947.

It appearing that the issuance of a temporary certificate would authorize the holder to exercise the privileges of a flight engineer during the interval between successful completion of the prescribed tests and receipt of the permanent certificate, and there is urgent need for flight engineer certificates to be immediately available;

The Civil Aeronautics Board finds that the amendment is not a restrictive change in the Civil Air Regulations; that the public interest would best be served if it became effective on the same date as Part 35; and that compliance with paragraphs (a) and (b) of section 4 of the Administrative Procedure Act is unnecessary.

Now, therefore: Effective March 15, 1947, Part 35 of the Civil Air Regulations is amended by adding a new section to read as follows:

§ 35.110 *Temporary certificates.* The Administrator or his authorized representative may issue a temporary flight engineer certificate for a period of not to exceed 90 days, subject to the terms and conditions specified therein by the Administrator. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter I—Commodity Exchange Authority (Including Commodity Exchange Commission), Department of Agriculture

PART 0—RULES OF PRACTICE

SUBPART A—RULES APPLICABLE TO PROCEEDINGS BEFORE THE SECRETARY OF AGRICULTURE

By virtue of the authority vested in the Secretary of Agriculture by the Commodity Exchange Act, as amended (42 Stat. 998, 49 Stat. 1491, 52 Stat. 205, 54 Stat. 1059; 7 U. S. C. 1–17a), and the Administrative Procedure Act (60 Stat. 237), the rules of practice appearing in Title 17, Chapter I, Part 0, Subpart A, Cumulative and 1945 Supplements to the Code of Federal Regulations, are hereby amended as follows:

1. By striking § 0.2 (c) and substituting in lieu thereof the following:

§ 0.2 *Definitions.* • • •

(c) The term "Secretary" means the Secretary of Agriculture or any person to whom authority has heretofore lawfully been delegated, or to whom authority may hereafter lawfully be delegated, to act in his stead;

2. By striking § 0.2 (d) and substituting in lieu thereof the following:

(d) The term "Commodity Exchange Authority" means the Commodity Exchange Authority, United States Department of Agriculture;

3. By striking § 0.2 (l) and substituting in lieu thereof the following:

(l) The term "hearing clerk" means the hearing clerk, United States Department of Agriculture, Washington 25, D. C.

4. By striking § 0.2 (m) and substituting in lieu thereof the following:

(m) The term "referee" means an examiner conducting a proceeding under the act;

5. By striking § 0.2 (n) and substituting in lieu thereof the following:

(n) The term "referee's report" (presiding officer's report) means the referee's report to the Secretary, and includes the referee's proposed (1) findings of fact and conclusions with respect to all material issues of fact, law or discretion, as well as the reasons or basis therefor, (2) order, and (3) rulings on findings, conclusions and orders submitted by the parties;

6. By striking § 0.2 (o) and substituting in lieu thereof the following:

(o) The term "Act Administrator" means the Administrator of the Commodity Exchange Authority, United States Department of Agriculture, in his capacity as Administrator of the Commodity Exchange Act, or any officer or employee of the Commodity Exchange Authority to whom he has heretofore lawfully delegated or may hereafter lawfully delegate the authority to act in his stead;

7. By adding at the end of § 0.2 a new paragraph as follows:

(p) The term "examiner" means any examiner in the Office of Hearing Examiners, United States Department of Agriculture.

8. By striking the period at the end of the first sentence of § 0.3 (c) and inserting a colon in lieu thereof and adding the following proviso:

§ 0.3 *Institution of proceedings.* • • •

(c) *Who may institute.* • • • *Provided,* That in any case, except one of wilfulness or one in which the public health, interest or safety otherwise requires, prior to the institution of a proceeding for the suspension or revocation of a registration or license, facts or conditions which may warrant such action shall be called, in writing, to the attention of the person complained against, and such person shall be accorded opportunity to demonstrate or achieve compliance with all lawful requirements.

9. By amending § 0.7 (a) to read as follows:

§ 0.7 *Referees*—(a) Assignment. No referee shall be assigned to serve in any proceeding who (1) has any pecuniary interest in any matter or business involved in the proceeding, (2) is related within the third degree by blood or marriage to any party to the proceeding, or (3) has participated in the investigation preceding the institution of the proceeding or in the determination that it should be instituted or in the preparation of the complaint or in the development of the evidence to be introduced therein.

10. By amending § 0.7 (c) to read as follows:

(c) *Conduct.* The referee shall conduct the proceeding in a fair and impartial manner and, save to the extent required for the disposition of ex parte matters as authorized by law, he shall not consult any person or party on any fact in issue unless upon notice and opportunity for all parties to participate.

11. By amending § 0.7 (e) to read as follows:

(e) *Who may act in the absence of the referee.* In case of the absence of the referee, or his inability to act, the powers and duties to be performed by him under these rules of practice in connection with a proceeding may, without abatement of the proceeding unless otherwise ordered by the Secretary, be assigned to any other referee.

12. By amending § 0.9 to read as follows:

§ 0.9 *The answer*—(a) *Filing and service.* Within 20 days after service of the complaint, the respondent shall file, in triplicate, with the hearing clerk, an answer, signed by the respondent or his attorney: *Provided,* That the Secretary may order that the hearing be held without answer or other pleading. The answer shall be served upon the complainant, and any other party of record, in the manner provided in § 0.22.

(b) *Contents; failure to file.* Such answer shall (1) contain a statement of the facts which constitute the grounds of defense, and shall specifically admit, deny, or explain each of the allegations of the complaint unless the respondent is without knowledge, in which case the answer shall so state; or (2) state that the respondent admits all of the allegations of the complaint. The answer may contain a waiver of hearing.

Failure to file an answer to or plead specifically to any allegation of the complaint shall constitute an admission of such allegation.

(c) *Procedure upon admission of facts.* The admission, in the answer or by failure to file an answer, of all the material allegations of fact contained in the complaint shall constitute a waiver of hearing. Upon such admission of facts, the referee, without further investigation or hearing, shall prepare his report, in which he shall adopt as his proposed findings of fact the material facts alleged in the complaint. Unless the parties have waived service of the referee's report, it shall be served upon them in the manner provided in § 0.22. The parties shall be given an opportunity to file exceptions to the report, to file briefs in support of such exceptions, and to make oral argument thereon before the Secretary. Any request to make oral argument before the Secretary must be filed in the manner and within the time provided in paragraph (d) of § 0.16.

13. By amending § 0.16 (b) to read as follows:

§ 0.16 *Referee's report.* • • •

(b) *Proposed findings of fact, conclusions, and orders.* Within 10 days after receipt of notice that the transcript has been filed, each party may file with the hearing clerk proposed findings of fact, conclusions, and orders, based solely upon the record, and a brief in support thereof.

14. By amending § 0.16 (c) to read as follows:

(c) *Referee's report.* The referee, within a reasonable time after the termination of the period allowed for the filing of proposed findings of fact, conclusions, and orders, and briefs in support thereof, shall prepare, upon the basis of the record, and shall file with the hearing clerk, his report, a copy of which shall be served upon each of the parties.

15. By amending the first sentence of § 0.20 (a) to read as follows:

§ 0.20 *Preparation and issuance of order*—(a) *Preparation of order.* As soon as practicable after the receipt of the record from the hearing clerk, or, in case oral argument was had, as soon as practicable thereafter, the Secretary, upon the basis of and after due consideration of the record, shall prepare his order in the proceeding which shall include findings, conclusions, order, and rulings on motions, exceptions, statements of objections, and proposed findings, conclusions, and orders submitted by the parties, not theretofore ruled upon. • • •

16. By amending § 0.21 (a) (2) to read as follows:

§ 0.21 *Applications for reopening hearings; for rehearings on rearguments of proceedings; or for reconsideration of orders*—(a) *Petition requisite.* • • •

(2) *Petitions to reopen hearings.* A petition to reopen a hearing to take further evidence may be filed at any time prior to the issuance of the final order. Every such petition shall state briefly the nature and purpose of the evidence to be adduced, shall show that such evidence is not merely cumulative, and shall set forth a good reason why such evidence was not adduced at the hearing. Every such petition shall be served by the hearing clerk on the other parties to the proceeding.

17. By striking the period at the end of the last sentence of § 0.23 and inserting a colon in lieu thereof and adding the following proviso:

§ 0.23 *Requests for promulgation, amendment, or rescission of regulations.* • • • *Provided,* That notice shall be given of the denial in whole or in part of any such request and, except in affirming a prior denial or where the denial is self-explanatory, such notice shall be accompanied by a simple statement of procedural or other grounds for denial.

18. By adding at the end of § 0.26 (a) a sentence reading as follows:

§ 0.26 *Conduct of hearing*—(a) *Presiding officer.* • • • The presiding officer shall have authority to administer oaths or affirmations and to take all other actions necessary to the orderly conduct of the hearing.

19. By striking the word "suggested" wherever it appears in paragraph (i) of § 0.17 *Shortened procedure,* and § 0.18 *Transmittal of record* and substituting in lieu thereof the word "proposed."

20. By adding a new subheading and section as follows:

RULES APPLICABLE TO ALL PROCEEDINGS

§ 0.28 *Hearings before the Secretary.* The Secretary may act in the place and stead of a referee or presiding officer in any proceeding hereunder. When he so acts, the hearing clerk shall transmit the record to the Secretary at the expiration of the period provided for the filing of proposed findings of fact, conclusions and orders, and the Secretary shall thereupon, after due consideration of the record, issue his final order in the proceeding: *Provided,* That he may issue a tentative order, in which event the parties shall be afforded an opportunity to file exceptions before the issuance of the final order.

NOTE: Unless otherwise ordered, all proceedings initiated under the Commodity Exchange Act and pending on December 11, 1946, shall be conducted and concluded in accordance with the applicable rules of practice in effect at the time the proceedings were instituted.

(42 Stat. 998, 49 Stat. 1491, 52 Stat. 205, 54 Stat. 1059, 60 Stat. 237; 7 U. S. C. 1–17a)

Done at Washington, D. C., this 7th day of February 1947. Witness my hand and the seal of the Department of Agriculture.

Subchapter L—Irrigation Projects: Operation and Maintenance

PART 130—OPERATION AND MAINTENANCE CHARGES

UINTAH INDIAN IRRIGATION PROJECT, UTAH

FEBRUARY 6, 1947.

On December 27, 1946, there was published in the daily issue of the FEDERAL

REGISTER notice of intention to amend § 130.77 of this part (11 F. R. 14697). Interested persons were thereby given opportunity to participate in preparing the amendment by submitting data or arguments within 30 days from date of publication of the notice. No communications, written or oral, having been received within the provided period, the said section is hereby amended and promulgated as follows:

§ 130.77 *Basic water and other charges.* Pursuant to the provisions of the acts of June 21, 1906 (34 Stat. 375) and March 7, 1928 (45 Stat. 210, 25 U. S. C. 387), the reimbursable costs expended in the operation and maintenance of the Uintah Indian irrigation project, Utah, are apportioned on a per acre basis against the irrigable lands of all units of the project and for the calendar year 1947, and each succeeding year until further order, there shall be collected from each acre of irrigable land to which water can be delivered from the constructed works, a uniform basic charge of $1.35 per acre per annum, where not otherwise established by contract.

In addition to the foregoing charge, there shall be collected annually a charge of $3.00 on the lands covered by each separate bill. No bill shall be rendered for less than $4.00. (34 Stat. 375, 45 Stat. 210; 25 U.S.C. 387)

VIRGIN ISLANDS

RESERVING LAND FOR USE OF WAR DEPARTMENT

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Jurisdiction over the following-described land owned by the United States on the Island of Saint Croix, Virgin Islands, is hereby transferred from the Department of the Interior to the War Department and the land is reserved for military purposes:

Beginning at a point designated as Corner 1, being the Southeast corner of the Federal Reservation entitled "Benedict Field", and situated on the Caribbean Shore Line, from which United States Coast and Geodetic Survey Station Manning (latitude 17°42' 30.266" N., longitude 64°47'37.874" W.) bears approximately North 26° West 4,040 feet distant;

Thence by magnetic bearings,
N. 16°48' W., 1,372.0 feet to Corner 2;
N. 81°57' E., 553.2 feet to Corner 3;
N. 15°02' W., 2,442.1 feet to Corner 6;
N. 23°09' W., 341.0 feet to Corner 7;
N. 39°44' W., 234.0 feet to Corner 8;
N. 52°41' W., 865.8 feet to Corner 9;
N. 31°17'40" E., 3,457.59 feet to Corner 1-E;
N. 72°05' E., 505.58 feet to Corner 2-E;
S. 17°24'40" E., 7,809.16 feet to Corner 11-E, situated on the shore line of the Caribbean Sea;

Thence along the shore line of the Caribbean Sea in a westerly direction, along the southerly border of the parcel to Corner 1, the point of beginning.

The tract as shown on Map A4-2.45 of Benedict Field Addition, Tract No. 3, on file in the Office of the District Engineer, Corps of Engineers, United States Army, contains 427.084 acres.

This order is subject to the condition that The Virgin Islands Company may continue to use the cattle pens, dipping vats, and other facilities located on the above-described land, provided the Commanding Office of Benedict Field is notified in advance of such use in order that proper guard may be posted.

The jurisdiction granted by this order shall cease at the expiration of the six months' period following the termination of the unlimited national emergency declared by Proclamation No. 2487 of May 27, 1941 (55 Stat. 1647). Thereupon, the jurisdiction over the land shall be vested in the Department of the Interior.

This order is confidential and shall not be filed in the Division of the Federal Register, or be published in the FEDERAL REGISTER, or be given other publicity, until publication thereof has been expressly authorized by or at the direction of the Secretary of War.[1]

ABE FORTAS,
Acting Secretary of the Interior.

NEW MEXICO

REVOKING PUBLIC LAND ORDER 108 OF MARCH 31, 1943, WITHDRAWING PUBLIC LANDS FOR USE OF WAR DEPARTMENT AS A BOMBING RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 108 of March 31, 1943, withdrawing the public lands in the hereinafter-described areas for the use of the War Department as a bombing range, is hereby revoked.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 108 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on April 2, 1947.

At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from April 2, 1947, to July 2, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. 279-283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from March 13, 1947, to April 2, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on April 2, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on July 2, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous nonpreference right filings.* Applications by the general public may be presented during the 20-day period from June 12, 1947, to July 2, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on July 2, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Santa Fe, New Mexico, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that Title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that Title.

Inquiries concerning these lands shall be addressed to the District Land Office, Santa Fe, New Mexico.

The lands affected by this order are described as follows:

The public lands in the following-described areas:

NEW MEXICO PRINCIPAL MERIDIAN

T. 7 N., R. 11 W.,
Secs. 14, 15, 16, 21, 22, 23, 26, 27, and 28.

REVOKING PUBLIC LAND ORDER NO. 124 OF MAY 19, 1943 WITHDRAWING PUBLIC LANDS FOR USE OF WAR DEPARTMENT AS RADIO RANGE SITE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 124 of May 19, 1943, withdrawing the hereinafter-described lands for the use of the War Department as a radio range site, is hereby revoked.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 124 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on April 2, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from April 2, 1947, to July 2, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. 279-283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from March 13, 1947 to April 2, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on April 2, 1947 shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on July 2, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from June 12, 1947, to July 2, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on July 2, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Las Cruces, New Mexico, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that Title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that Title.

Inquiries concerning these lands shall be addressed to the District Land Office, Las Cruces, New Mexico.

[P. & S. Docket No. 1558]

MISSISSIPPI VALLEY STOCK YARDS

NOTICE OF PETITION FOR MODIFICATION

By order dated May 20, 1946 (5 A. D. 363), made pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), rates and charges were prescribed for the respondent. By order dated September 25, 1946 (5 A. D. 683), certain modifications in the rates and charges of the respondent were made.

By a petition filed on February 6, 1947, the Mississippi Valley Stock Yards requested a modification of the Secretary's orders referred to above to permit it to file a supplement to its tariff increasing certain of its rates and charges for stockyard services as follows:

YARDAGE CHARGES

Yardage on all classes of original receipts and resales in Commission Division:

	Proposed increased rates (cents per head)	Existing rates (cents per head)
Cattle	55	40
Calves	36	33
Hogs	20	18
Livestock consigned direct to packers:		
Cattle	27	25
Calves	18	17
Hogs	9	8

No request was made for any other increase or modification in the other rates and charges of the respondent.

The effect of the proposed modifications, set out above, if granted, would be to increase the revenues of the respondent, and, it appears that public notice should be given to all interested persons, of the request of the respondent so as to afford all interested persons, including patrons of the respondent, an opportunity to manifest their desire to be heard on the matter.

Therefore, notice is hereby given to the public and to all interested persons of the request of the respondent for the purpose of affording said respondent and all other interested persons, including patrons of the respondent, an opportunity to be heard upon the matters covered in the petition.

All interested persons who desire to be heard shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within fifteen (15) days from the date of the publication of this order.

Copies hereof shall be served on the respondent.

Done at Washington, D. C., this 7th day of February 1947.

UNLOADING OF SODA ASH AND CLAY AT NEW ORLEANS, LA.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 7th day of February A. D. 1947.

It appearing, that 3 cars containing soda ash and clay at New Orleans, La., on the Louisiana & Arkansas Railway Company, have been on hand for an unreasonable length of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action, it is ordered, that:

(a) *Soda ash and clay at New Orleans, La., be unloaded.* The Louisiana & Arkansas Railway Company, its agents or employees shall unload immediately the following cars, containing soda ash and clay, on hand at New Orleans, La., consigned for export:

GN 10089 SP 32315 T&P 70727

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., February 10, 1947, and continuing until the actual unloading of said car is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70—1428]

CAROLINA COACH CO. AND ROWAN-CABARRUS BUS LINE, INC.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 7th day of February A. D. 1947.

Carolina Coach Company ("Carolina Coach") a direct subsidiary of Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and Rowan-Cabarrus Bus Line, Incorporated ("Rowan"), a wholly-owned direct subsidiary of Carolina Coach, have filed a joint declaration, and an amendment thereto, pursuant to the Public Utility Holding Company Act of 1935, and certain rules and regulations promulgated thereunder regarding the following transactions:

Carolina Coach is proposing to cause Rowan to be liquidated and dissolved. As of October 31, 1946, the total outstanding securities of Rowan, all owned by Carolina Coach, consisted of 150 shares of capital stock, par value $100 per share. In addition, Carolina Coach owns all of the open account indebtedness of Rowan amounting, at the same date, to $29,929.

Preliminary to the proposed liquidation and dissolution of Rowan all of its open account indebtedness will be cancelled by Carolina Coach and treated as a capital contribution by Rowan. Thereafter Rowan proposes to undertake a program for its complete liquidation to be accomplished by the declaration and payment to Carolina Coach of a liquidating dividend, consisting of all of Rowan's property and assets at the date of the final distribution in liquidation. It is contemplated by the parties that all known liabilities of Rowan will have been satisfied prior to the payment of the liquidating dividend, any liabilities existing at the date of the liquidation are to be assumed by Carolina Coach. Upon the making of this final distribution in liquidation by Rowan, Carolina Coach will surrender the capital stock of Rowan to Rowan for retirement and cancellation, and Rowan will be dissolved in accordance with the laws of the State of North Carolina. The filing contains, among other things, a copy of an order of the Utilities Commission of North Carolina approving the proposed transactions.

The joint declaration was filed on January 3, 1947, and the amendment thereto on January 29, 1947. Notice of this filing was duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission has not received a request for hearing with respect thereto within the period prescribed in said notice, or otherwise, and has not ordered a hearing thereon.

The Commission finding with respect to this joint declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint declaration be permitted to become effective;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of the act and subject to the terms and provisions prescribed in Rule U-24 that this joint declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

TITLE 3—THE PRESIDENT

PROCLAMATION 2716

RED CROSS MONTH, 1947

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the American National Red Cross, traditional friend and counselor of the serviceman and the veteran, furnishes comfort and renewed hope to our sick and wounded in hospitals and provides morale-building welfare and recreational facilities for our occupation forces abroad as well as a wide range of services to those returning to civilian life in this country; and

WHEREAS the Red Cross, chartered by Congress and equipped by experience to cope with human needs when disaster strikes, performs its errands of mercy with skill and expedition; and

WHEREAS the Red Cross is devoting increased attention to its home-nursing and first-aid programs which are designed through training courses to check the spread of disease and to reduce the frightful toll of accidents; and

WHEREAS this organization is entirely dependent upon the voluntary contributions of the people of the United States in rendering these services, and has estimated that a minimum fund of $60,000,000 will be necessary for the implementation of its philanthropic program in 1947:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America and President of the American National Red Cross, do hereby designate and proclaim the month of March 1947 as Red Cross Month and urge every citizen of this country to respond generously to this essential, humanitarian cause.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this twelfth day of February, in the year of our Lord nineteen hundred and forty-seven and of the Independence of the United States of America the one hundred and seventy-first.

[SEAL]

HARRY S. TRUMAN

By the President:

G. C. MARSHALL,
Secretary of State.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Lemon Reg. 208, Amdt. 1]

PART 953—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.315 *Lemon Regulation 208, as amended*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which the regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* Lemon Regulation 208 (12 F. R. 768) is hereby amended as follows:

(1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., p. s. t., February 9, 1947, and ending at 12:01 a. m., p. s. t., February 16, 1947, is hereby fixed at 200 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 207 (12 F. R. 768) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

LIMITATION OF SHIPMENTS

§ 966.310 *Orange Regulation 164, as amended*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* Orange Regulation 164 (12 F. R. 915) is hereby amended as follows:

(1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., February 9, 1947, and ending at 12:01 a. m., p. s. t., February 16, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate Districts Nos. 1, 2, and 3, no movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, unlimited movement; (*b*) Prorate District No. 2, 900 carloads; and (*c*) Prorate District No. 3, unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached to Orange Regulation 164 (12 F. R. 915) and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used herein, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 12th day of February 1947.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 306—CLAIMS AGAINST THE UNITED STATES

MILITARY PAYMENT CERTIFICATES

Pursuant to the authority vested in the Secretary of War by section 3 of the act of December 23, 1944 (58 Stat. 921), and by virtue of all other authority vested in the Secretary of War, §§ 306.80 and 306.81, pertaining to military payment certificates, are added as follows:

§ 306.80 *Military payment certificates*—(a) *Use of military payment certificates.* In such areas as the War Department designates, disbursing officers of the United States Army and their agents are authorized to disburse military payment certificates for pay and allowances of authorized personnel, and for all other authorized payments to individuals in and under the Military Establishment.

(b) *Convertibility of military payment certificates.* Disbursing officers of the United States Army and their agents are authorized to exchange dollar instruments for military payment certificates, or military payment certificates for dollar instruments, for persons authorized to be in possession of military payment certificates.

(c) *Transactions between United States disbursing officers.* Disbursing officers of the United States Army and their agents are authorized to exchange dollar instruments for military payment certificates, or military payment certificates for dollar instruments, in transactions with disbursing officers of the United States Navy and their agents; and with such other disbursing officers of the United States Government and their agents as may be authorized specifically by theater commanders.

(d) *Applicability of regulations.* As of the date on which the War Department introduces the use of military payment certificates in any area, transactions in the indigenous currencies of such areas,

and in any other currencies which may later be designated, will be subject to the regulations specified in paragraphs (e) and (f) of this section.

(e) *Prohibition on the acquisition of certain foreign currencies.* Disbursing officers of the United States Army and their agents, wherever stationed, will no longer acquire indigenous currencies of the areas in which military payment certificates are in use, and any other currencies which may later be designated, from the following sources:

(1) United States Army postal officers and their agents.

(2) Officers and crews of vessels operating for or on behalf of War Shipping Administration.

(3) Members of the United States Coast Guard.

(4) Military, naval, and civilian personnel of the United States Government who are not disbursing officers of the United States Government or their agents.

(5) Representatives of quasi-official organizations operating with or for the benefit of the members of the United States Armed Forces.

(6) Personnel of contractors and of authorized non-governmental agencies operating with the Armed Forces of the United States.

(f) *Sale of foreign currencies.* Disbursing officers of the United States Army or their agents, wherever stationed, are authorized to sell foreign currencies, including indigenous currencies of areas in which military payment certificates are in use, and any other designated currencies, for military payment certificates and/or for United States dollar instruments, to military and naval personnel of the United States Government; and to employees of Government and non-Government agencies as specifically authorized by the theater commander.

§ 306.81 *Definitions*—(a) *Types of personnel.* Personnel who fall within the purview of these sections (hereinafter referred to as U. S. authorized personnel) and who may utilize military payment certificates and dollar instruments defined herein, subject to limitations prescribed in paragraph (c) of this section, are:

(1) Military and naval personnel of the United States Government.

(2) Civilians, who are citizens of the United States, employed directly, or indirectly through contractors, by the military and naval establishments.

(3) Civilians, who are citizens of the United States, employed directly by the United States Government, when authorized by the theater commander under the provisions of paragraph (e) of this section.

(4) Dependents of personnel included in subparagraphs (1) and (2), and (3) of this paragraph, but subject to the limitations set forth in paragraph (e) of this section.

(5) Civilians, other than those who are citizens of the country whose currency is legal tender in the area, directly employed by the military and naval establishments, when authorized by the theater commander under the provisions of paragraph (e) of this section.

(6) Civilians, other than those who are citizens of the country whose currency is legal tender in the area, who are employed by quasi-official organizations in and/or under the military and naval establishment and working for the benefit of the members of the Armed Forces of the United States, when authorized by the theater commander under the provisions of paragraph (e) of this section. Examples are the Army Exchange Service and its exchanges; United Service Organizations; American Red Cross Clubs and facilities; unit clubs; enlisted men's and officers' clubs and messes; and the Central Welfare Fund of any given theater.

(7) Personnel attached to the headquarters of any U. S. military or naval unit, who, in the opinion of the theater commander, can best perform their mission by having access to U. S. Army facilities, when specifically authorized by the theater commander under the provisions of paragraph (e) of this section.

(b) *Enemy nationals.* Enemy nationals are specifically excluded from those listed in subparagraphs (5), (6), and (7) of paragraph (a) of this section.

(c) *Military payment certificate.* (1) The military payment certificate is defined as an instrument, denominated in United States dollars or fractions thereof which is the official medium of exchange in all military establishments in areas designated by the War Department.

(2) Military payment certificates will be issued in denominations of 5 cents, 10 cents, 25 cents, 50 cents, $1, $5, and $10.

(d) *U. S. dollar instruments.* U. S. Dollar instruments are defined as follows:

(1) U. S. dollar currency is the currency or coin accepted as legal tender in the United States.

(2) U. S. Treasury checks are the standard dollar checks drawn on the Treasurer of the United States by authorized disbursing officers of the United States.

(3) Traveler's checks are those issued by the American Express Company, the Bank of America National Trust and Savings Association, the Mellon National Bank of Pittsburgh, and the National City Bank of New York.

(4) United States military disbursing officers payment order.

(5) United States Postal money orders and American Express Company money orders.

(e) *Limitations.* (1) The theater commander will be responsible for the determination of those individuals to which the provisions of the regulations of this part will apply within the limits of this section.

(2) The military payment certificate is for use only in U. S. military establishments by U. S. authorized personnel, in accordance with applicable rules and regulations.

(3) Possession of military payment certificates is prohibited unless acquired pursuant to the regulations contained herein and such additional restrictions as may be promulgated by the appropriate theater commander.

(4) Under no circumstances will military payment certificates be accepted from or exchanged for persons other than U. S. authorized personnel, or exchanged after the date designated by the Secretary of War for their acceptance or exchange.

(5) Except in areas where U. S. currency is authorized for disbursement, the use or possession of U. S. currency is prohibited in foreign countries to which these regulations are applicable.

(6) Dependents, as defined in § 306.81 (a) (4) are limited, in transactions with U. S. Army disbursing officers or their authorized agent to the exchange of military payment certificates, or any type of authorized U. S. dollar instruments, for military payment certificates or for foreign currency. Use of military payment orders by dependents will be limited to the cashing of one military payment order not in excess of $200 for dependents overseas requiring funds for incidental traveling expenses in connection with War Department authorized transportation to the U. S.

(b) *Character of service required.* Service medals are awarded for honorable active Federal military service only. No service medal will be awarded to any individual who has been dismissed, dishonorably discharged, or deserted subsequent to performance of the specified duty.

(c) *Application.* (1) A member of the Army who is entitled to a service medal may make application to his immediate commanding officer. The commanding officer will forward the application by indorsement direct to The Adjutant General, stating whether the individual's records, including discharge certificate or certificate of service, substantiate the claim.

(2) A former member of the Army who is entitled to a service medal may make application to The Adjutant General, Washington 25, D. C., inclosing a certified or photostatic copy of his discharge certificate or certificate of service.

(3) Service medals will be awarded posthumously to the next of kin in the following order: widow or widower, eldest son, eldest daughter, father, mother, eldest brother, eldest sister, eldest grandchild. The next of kin of an individual entitled to a service medal may make application to The Adjutant General, Washington 25, D. C., inclosing a certified or photostatic copy of the individual's discharge certificate or certificate of service, if available.

(4) An individual who is entitled to a service medal for service with the Navy, Marine Corps, or Coast Guard must apply direct to the Chief of Naval Personnel, Navy Department; the Commandant, United States Marine Corps, or the Commandant, United States Coast Guard.

(d) *Supply.* When an application for a service medal has been approved by the Secretary of War, the Commanding Officer, Philadelphia Quartermaster Depot, Philadelphia, Pennsylvania, will issue the medal and appurtenances as follows:

(1) *For persons in the Army.* To immediate commanding officers for distribution to those under their command.

(2) *For others.* Directly to them.

(e) *Record.* Eligibility for and/or award of service medals and clasps, service stars, and arrowheads will be noted in Service Records of enlisted men, on qualification cards, on discharge certificates, and on certificates of service.

(f) *Replacement.* Whenever a service medal and/or appurtenance is lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom awarded, it will be replaced without charge to military personnel on active duty, and for others at cost price.

(g) *Exhibitions.* Samples of service medals, clasps, service stars, and arrowheads may be furnished at cost price, plus transportation and packing charges, to museums, libraries, military societies, or other institutions of a public character for exhibition purposes. The sample service medals will be engraved at the expense of the purchaser with the words "For exhibition purposes only."

§ 708.27 *Good Conduct Medal.* Established by Executive Order 8809, June 28, 1941, 3 CFR, Cum. Supp.

TITLE 24—HOUSING CREDIT

Chapter VII—National Housing Agency

PART 751—ORGANIZATION DESCRIPTION, INCLUDANG DELEGATIONS OF FINAL AUTHORITY

DESIGNATION OF ACTING NATIONAL HOUSING ADMINISTRATOR

1. Section 751.1a is hereby amended to read as follows:

§ 751.1a *Designation of Acting National Housing Administrator.* (a) Pursuant to section 12 of Executive Order 9070 of February 24, 1942 (7 F. R. 1529). I hereby designate the officials of the National Housing Agency hereinafter named and in the order in which they are named to act in my place and stead with the title of "Acting Administrator" with all the powers, duties, and rights conferred upon me by said Executive Order, any other Executive Order, the Lanham Act (54 Stat. 1125), or any other act of Congress, in the event of my absence, illness, or inability to act, and all such powers, duties, and rights are hereby delegated to such officials in such order and for such period as I may be absent from Washington, D. C., or unable to perform my official functions.

(b) The following named officials, and designated in the following order, shall have authority to act as "Acting Administrator" but no official shall have authority to act as "Acting Administrator" unless all those whose names appear before his are absent from their official post and unable to act.

(1) William K. Divers, First Assistant Administrator.
(2) B. T. Fitzpatrick, General Counsel.
(3) Assistant Administrator for Administration.

(E. O. 9070, Feb. 24, 1942, 7 F. R. 1529)

Issued this 7th day of February 1947.

RAYMOND M. FOLEY,
National Housing Administrator.

Chapter VIII—Office of Housing Expediter

[Premium Payments Reg. 2 as Amended Feb. 12, 1947, Incl. Int. 1]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

SOFTWOOD PLYWOOD

Purpose and findings. This general regulation is issued to stimulate additional production of softwood plywood by providing for premium payments with respect to peeler logs consumed in additional production of softwood plywood above established quotas. It describes how quotas are established, and the methods, procedures and conditions under which premium payments may be obtained. This regulation is issued pursuant to the authority of the "Veterans' Emergency Housing Act of 1946."

All available means of increasing the supply of softwood plywood for the veterans' emergency housing program and for other construction, maintenance and repair essential to the national well-being have been considered. Based on such consideration, the Expediter finds that premium payments with respect to peeler logs are temporarily necessary to increase the supply of softwood plywood and to stimulate such additional production with greater rapidity, economy and certainty than other available methods. The premium payments provided herein are applied at a uniform rate within the industry. In applying premium payments to necessary additional production in this industry emphasis has been placed upon avoiding either economic dislocations or adverse effects upon established business.

§ 805.2 *Softwood plywood*[1]—(a) *Definitions.* As used in this section:

(1) "Plywood company" means any persons who manufactures plywood at least 50 percent of which is in construction and door panel grades. For purposes of this section a "veneer mill" which is owned by a plywood company, or which has contracted to supply all of its output to a plywood company (or companies), shall be considered a part of the plywood company (or companies).

(2) "Veneer mill" means any person who manufactures wood veneer.

(3) "Log supplier" means any person who supplies peeler logs to a plywood company or veneer mill.

(4) "Person" means an individual, corporation, partnership, association, or any other organized group of any of the foregoing, or legal successor or representative of any of the foregoing, but does not include the United States, any of its political subdivisions or any agency thereof, any other Government, any of its political subdivisions or any agency thereof.

(5) "Plywood" means a panel of one or more veneers laminated by use of a bonding agent, made of any species of softwood (other than pine) and produced west of the crest of the Cascade Mountains.

(6) "Peeler logs" means only the following species and grades of peeler logs: Douglas fir, Nos. 1, 2 and 3 peeler.

(7) "Plywood production" means the amount of plywood produced using as the unit of measurement one thousand square feet on a 3/8" rough basis.

(8) "New producer" means, with respect to a plant which prior to the effective date of this section was not operated for the production of plywood, a person who operates such plant after the effective date of this section, and who did not operate, prior to the effective date of this section, any plant for the production of plywood.

(9) "Month" means calendar month and "quarter" means three consecutive calendar months: *Provided, however,* Any plywood company on whom this provision works a hardship may apply, by letter, to the Expediter, Washington, D. C., for authorization to submit its application for quota and claims for payments beginning with the claim for June 1946 on the basis of a stipulated fiscal month and/or stipulated fiscal quarter. With respect to a plywood company which has received such authorization, this section shall become effective on the first day of its fiscal month, beginning after June 1, 1946, and shall terminate on the date on which this section terminates as to other plywood companies.

(10) "Claim" means a claim for premium payments filed pursuant to this section, and shall include a claim for liquidation payment filed under paragraph (e) (4).

(11) "Expediter" means the Housing Expediter as defined in the Veterans' Emergency Housing Act of 1946, or his duly authorized representative.

(12) "OHE" means the Office of the Housing Expediter.

(b) *Eligibility.* Any plywood company may file claims for premium payments under this section if it meets both of the following conditions:

(1) It produces plywood during the period covered by the claim in excess of quota. This condition, however, does not apply to claims for premium payments for June 1946.

(2) It pays its log suppliers a premium of $7.50 per thousand feet logscale for peeler logs delivered to it. A plywood company may appoint an agent to pay premiums for peeler logs purchased for the account of the plywood company, if such company, by letter, requests and receives authorization for such agency from the Expediter. Such authorizations may cover payments by agents to log suppliers on or after June 1, 1946. The letter requesting such authorization shall specify the name and address of the agent and shall be addressed to the Expediter, c/o CPA, Portland, Oregon. For purposes of this section, a plywood company which produces its own logs shall be considered to have paid a premium of $7.50 per thousand feet logscale for all peeler logs it itself has produced and consumed in the manufacture of plywood.

(c) *Establishment of quota.* (1) With respect to a plywood company which produced plywood for at least three months during the period January through May 1946, the quota shall be the lower of the following as approved and accepted by the Expediter: (i) Actual production during the first three months in the period from January through May 1946, in which production was maintained for at least 15 operating days, or (ii) Productive capacity for the same three months computed on a two-shift six-day week basis. In the case of a company which produced plywood in more than one plant, the lower of (i) and (ii) above shall be found for each plant of the company and the quota shall be the total for all plants. (2) With respect to any other plywood company, the quota shall be determined by the Expediter: *Provided, however,* That no quota shall be established for a new producer which would result in the application of premium payments to more than 50 percent of the value (in terms of producer's selling price) of the total output of such producer. (3) Where the Expediter finds that production of a plywood company during a three month claim period or during the October-November claim period has been interrupted due to unusual circumstances beyond the control of the company, the quota for such claim period may be adjusted by the Expediter.

(d) *Application for quota.* Every person who wishes to receive premium payments under this section shall file an application for quota on prescribed forms. All applications shall be filed with the Expediter, c/o CPA, Portland, Oregon, in accordance with instructions on the forms.

(e) *Rate and computation of premium payment*—(1) *For June 1946.* If a plywood company has been assigned a quota, the amount payable for production during June 1946, shall be $7.50 per thousand feet logscale for all peeler logs consumed in the manufacture of plywood during June 1946. If, however, the plywood company's production of plywood during the quarter commencing July 1, 1946, does not equal or exceed 125 percent of its quota, the amount payable for June 1946 will be recomputed by applying the reduced rate of premium payments applicable to the quarter beginning July 1, 1946. This rate will be determined in accordance with paragraph (e) (2) (ii) of this section. In such a case, the overpayment for June 1946 will be subject to recovery or set-off.

(2) *For three-month periods beginning July 1, 1946.* (i) If production of plywood during the quarter was 25 percent or more in excess of quota, plywood companies will be paid $7.50 per thousand feet logscale for peeler logs consumed in the manufacture of plywood during the quarter. (ii) If production of plywood during the quarter was in excess of quota, but less than 25 percent above it, plywood companies will be paid at the rate of $0.30 for each 1-percent increase in plywood production above quota with respect to each thousand feet logscale of peeler logs consumed in the manufacture of plywood during the quarter.

EXAMPLE: The X Company produces 20 percent more plywood than its quota. In producing this plywood, the X Company consumes 2,000,000 feet logscale of peeler logs. Since the production of plywood is 20 percent above quota, the rate of payment would be $0.30 for each one percent or $6.00 per thousand feet logscale of peeler logs. Applying this $6.00 to the 2,000,000 feet logscale of peeler logs it is found that the amount of premium payments is $12,000.

(iii) If production of plywood during the quarter was not above quota, no payment will be made.

(3) *For the period beginning October 1, 1946 and ending November 30, 1946.* (i) If production of plywood during this period was 25 percent or more in excess of two-thirds of quota, plywood companies will be paid $7.50 per thousand feet logscale for peeler logs consumed in the manufacture of plywood during this period.

(ii) If the production of plywood during this period was in excess of two-thirds of quota, but less than 25 percent above it, plywood companies will be paid at the rate of $0.30 for each 1 percent increase in plywood production above two-thirds of quota with respect to each thousand feet logscale of peeler logs consumed in the manufacture of plywood during this period.

(iii) If production of plywood during this period was not above two-thirds of quota no payment will be made.

NOTE: Former subparagraph (3) redesignated as (4), new (3) added as of Nov. 29, 1946.

(4) *Liquidation settlement.* A liquidation payment, based upon the net increase in inventory of peeler logs between inventory on hand on June 1, 1946, and the inventory on hand on November 30, 1946, will be paid plywood companies at such rate and on such terms and con-

[1] Formerly § 714.2 of Chapter VII.

ditions as the Expediter may deem proper. In the event there is a net decrease in inventory of peeler logs between the inventory on hand on June 1, 1946, and the inventory on hand on November 30, 1946, an amount equal to $7.50 per thousand feet logscale of the net amount of such decrease shall be subject to recovery or set-off.

(f) *Claim for payment.* Plywood companies shall file their claims for payment in the following manner. (1) Each claim for payment shall be filed on prescribed forms in accordance with instructions on the forms. These forms may be obtained from and shall be filed with the Reconstruction Finance Corporation Loan Agency at Portland, Oreg. (2) Claims for the month of June, 1946, shall be filed no later than October 31, 1946. (3) For the three-month period beginning July 1, 1946, plywood companies shall file claims no later than the end of the month following the period covered by the claim. Such claims shall be filed on a monthly or quarterly basis. A claim for the first month of the quarterly period may be filed if production of the plywood company during the month has equaled or exceeded 125 percent of one-sixth of its quota; and a claim for the second month or for the first two months of the quarterly period may be filed if the total production of the plywood company during the two months has equaled or exceeded 125 percent of one-half of its quota. (4) Any plywood company which files a claim for June, 1946, must file a quarterly claim for the quarter beginning July 1, 1946; and any plywood company which files a claim for any month or two-month period in the quarter beginning July 1, 1946, must file a claim for such quarter.

(5) For the two-month period beginning October 1, 1946, plywood companies shall file claims no later than February 28, 1947.

(6) No claim under this section shall be assignable except as a part of bona fide transfer of the plywood company to a legal successor.

NOTE: Former subparagraph (5) redesignated as (6), new (5) added as of Nov. 29, 1946.

(g) *Payment*—(1) *Review by RFC.* In reviewing claims, RFC will determine whether such claims appear to have been correctly and properly prepared.

(2) *Terms of payment.* If the claim or any part thereof is accepted by RFC subject to final verification, RFC will then pay the claimant that part of the claim so accepted: *Provided, however,* That with respect to claims for premiums with respect to the two-month period beginning October 1, 1946, and claims for liquidation payments, RFC may require that bond be furnished in form and amount satisfactory to it before making payment thereon. Preliminary acceptance and payment of claim shall not constitute final acceptance of the validity or amount of the claim. If, after review or audit, there is cause to question the validity of any claim, RFC may (i) Require that bond be furnished in form and amount satisfactory to it before making further payments, or (ii) suspend further payments.

(3) *Verification of claims.* (i) Upon receipt of claims for payment, RFC will forward copies to the Expediter for verification and such investigation or audit as he may deem appropriate. (ii) If the amount verified and approved by the Expediter is less than the amount previously paid, the claimant shall, upon demand by RFC, refund the overage to RFC, together with interest thereon at the rate of 4 percent per annum calculated from the date of such overpayment to the date repayment is made to the RFC or such overage plus interest may be deducted from any accrued or subsequent claim for any payment by RFC to the claimant.

(4) *Monthly payments.* Any payments made by RFC on account of any month or two-month claim shall be considered an advance payment on the claim for the quarterly period including such months, and shall be subject to recovery or set-off in the event the amount found payable on the quarterly claim is less than the amount of such advance payment.

(5) *Invalidation of claims.* The Expediter shall have the right at any time to declare invalid any claim of a company, and such company shall upon demand refund to RFC any payment on such claim, if the Expediter finds that the company: (i) has failed to comply with any of the requirements of this section, or (ii) has failed to comply with directives, orders or regulations of CPA or OHE on plywood, or has sold plywood at prices in excess of the ceiling prices established by the applicable OPA regulations or orders, or (iii) has failed to maintain production of peeler logs from its own timber holdings at the level which obtained during the period on the basis of which the quota was established or the corresponding quarter of 1945, whichever is higher.

(h) *Records.* Every company shall prepare and preserve for inspection for a period of not less than two years after the date of termination of this section, all books, records and other documents which furnish information in support of its application for quota and claims for payment. The Expediter, or his designated agents shall have the right at any time to make such examinations and audits of the books, records and other documents as may be necessary to verify the representations in the company's application for quota and claims for payment, or as may be required by the Expediter.

(i) *Official interpretations.* Official interpretations of this section may be given only in writing by the General Counsel of OHE, or his duly authorized representative. A request for an official interpretation must be filed in writing directly with the Expediter or the General Counsel.

(j) *Special provisions for veneer mills.* (1) Any veneer mill which is neither owned by a plywood company nor is under contract to supply all of its output to a plywood company (or companies) may obtain premium payments under this section if it complies with all of the following conditions:

(i) It files an application on a prescribed form with the Expediter, c/o CPA, Portland, Oregon, and receives authorization to pay its log suppliers a premium for peeler logs, which authorization may cover payments on or after June 1, 1946.

(ii) It delivers part of its peeler logs, either in the form of veneer or as peeler logs, to a plywood company (or companies) for which a quota has been approved under paragraph (c). Such delivery of veneer or peeler logs must be made during the period for which the claim for payment is filed.

(iii) Pursuant to authorization by the Expediter, it pays its log suppliers for peeler logs a premium of $7.50 per thousand feet logscale.

(iv) Its current purchases of logs are in line with its purchases of logs during the corresponding months of 1945.

(2) The amount of premium payable to a veneer mill shall be $7.50 per thousand feet logscale for all peeler logs delivered to it with respect to which it has during the period of its authorization from the Expediter paid a premium of $7.50 per thousand feet logscale, *Provided,* That:

(i) If, during the period for which a claim for payment is filed, the proportion of peeler log purchases to total log purchases exceeds that obtaining during the first quarter of 1946, a veneer mill may be paid only on that amount of its peeler log purchases which, in relation to total log purchases, does not exceed the first quarter of 1946 ratio of peeler log purchases to total log purchases.

(ii) No premium shall be payable with respect to peeler logs which were delivered to a plywood company.

(iii) No premium shall be payable with respect to peeler logs on which payment was previously made pursuant to a monthly claim.

(3) A consolidated claim for payment covering the period June 1 through November 30, 1946, shall be filed on form OHE 2–4 with the RFC Loan Agency, Pittock Block, Portland 5, Oregon, by February 28, 1947. In preparing this form, follow the revised instructions therefor, which may be obtained from the RFC Loan Agency.

(4) In addition to this paragraph, only the following provisions of this section shall apply to veneer mills; paragraphs (a), (f) (1), (f) (6), (g) (1), (g) (2), (g) (3), (g) (5), (h), (i), (k) and (l).

(k) *Termination.* This section shall terminate on March 31, 1947: *Provided, however,* That the following paragraphs of this section, as amended, shall terminate as of November 30, 1946: (b), (c), (d), (e) (1), (e) (2), (e) (3), (f), (g) (4), (j). Such termination of these paragraphs shall not preclude the filing of claims accrued on or before November 30, 1946, and such claims shall be dealt with in accordance with the provisions of this section in the same manner as if these paragraphs had not been terminated.

(l) *Effective date.* This section as amended shall become effective as of Nov. 29, 1946.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(Pub. Law 388, 79th Cong.)

Issued this 12th day of February 1947.

FRANK R. CREEDON,
Housing Expediter.

INTERPRETATION 1

APPLICABILITY OF REGULATION TO PEELER BLOCKS

If a peeler block, which is a trade term used to describe peeler logs of less than 16 feet in length, is of the species and grade indicated in paragraph (a) (6), it comes within the definition of a peeler log, since paragraph (a) (6) contains no requirements pertaining to the length of peeler logs. (Issued July 18, 1946.)

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Local Board Memorandum No. 197–E, Issued 2/13/47]

PART 671—LOCAL BOARD MEMORANDA

FILING AND DISPOSAL OF FORMS RECEIVED FROM THE ARMED FORCES

Pursuant to the provisions of the Administrative Procedures Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record:

§ 671.197–e *Filing and disposal of forms received from the Armed Forces*—(a) *General.* The Selective Service System has received from the Army, the Navy, the Marine Corps, and the Coast Guard, several types of individual reports and notices of separation for persons discharged or transferred to a reserve component. From April 1941 to the latter part of 1943, a card prescribed by the Selective Service System, Report of Separation (DSS Form 167), was completed by the military services. Since the latter part of 1943, the forms prescribed by the branch of military service concerned have been used, some concurrently with DSS Form 167. Information with respect to separation from the armed forces of a cobelligerent nation is furnished by the accomplishment of a Certificate of Separation (DSS Form 501). Reports received on DSS Form 501 have been held at National Headquarters, but are now being processed for forwarding to local boards. Reproductions of the forms prescribed by the Armed Forces will be found in the appendix to the Handbook, Veterans Assistance Program.[1] It should be noted that variants to the major forms, carrying a suffix to the form numbers, are not illustrated. The instructions contained in this section, supplemented by pertinent Form Disposal Instructions, will govern the filing and disposal of all the various types of reports and notices of separation. It is the desire of this Headquarters that the Report of Separation (DSS Form 167) and the Certificate of Separation (DSS Form 501) be treated as documents analagous to the Armed Forces reports and notices of separation currently in use.

(b) *Filing instructions.* All copies of reports and notices of separation, regardless of form or content, in the possession of the Selective Service System, shall be filed in the Cover Sheet (DSS Form 53) of each registrant concerned, with the following exceptions: (1) Reports or notices of separation for veterans who are not registrants of the local board having possession of such documents, but whose reported address places such registrants under its jurisdiction, and (2) reports or notices of separation for women veterans of the armed forces. Footnotes to Form Disposal Instructions for Report of Separation (DSS Form 167) and for Certificate of Separation (DSS Form 501) require that "Forms which cannot be identified with a registrant of the local board will be filed together at the end of the file of Registration Cards (DSS Form 1)". A footnote to Form Disposal Instructions for reports and notices of separation prescribed by the Armed Forces requires that "Forms which cannot be identified with a registrant of a local board and those for women veterans will be filed in a separate folder in the General File". All reports of separation received on DSS Form 167 and on DSS Form 501 included in the exception specified in subparagraphs (1) and (2) of this paragraph shall be paced in alphabetical order and filed by the local board at the end of the file maintained for the Registration Card (DSS Form 1), as an adjunct thereto in the identification of nonregistrants. All reports and notices of separation on the various forms prescribed by the Armed Forces included in the exceptions specified in subparagraphs (1) and (2) of this paragraph, shall be placed in alphabetical order and filed in the General File of the local board. The folders used for the filing of reports and Notices of Separation on forms prescribed by the Armed Forces should be of uniform size within each State, and the contents arranged in a similar manner within each local board so as to permit of ready consolidation at a later date should such action be authorized.

(c) *Reports and notices of separation formerly considered confidential.* Paragraph 3 of Part II of Local Board Memorandum No. 183, as amended July 29, 1944,[1] imposed certain restrictions on the use of reports of separation. Some States, previously, or as a result of such restrictions, created confidential files at State Headquarters or at local boards, containing reports of separation for certain persons separated by reason of physical disability. This restriction on the use of reports of separation was deleted from Local Board Memorandum No. 183,[1] by an amendment effective April 5, 1946. All board of registration copies of reports and notices of separation heretofore filed in confidential files at State Headquarters and local boards will be removed therefrom and filed in the cover sheet of the registrant concerned or in a separate folder as provided in paragraph (b) of this section.

(d) *Home Address Report (DSS Form 166) and Certificate of Enrollment (DSS Form 500).* The Armed Forces advise the Selective Service System of the enlisting or commissioning of certain male persons by means of a Home Address Report (DSS Form 166). Similar information with respect to the armed forces of cobelligerent nations is furnished by the accomplishment of a Certificate of Enrollment (DSS Form 500). Reports received on DSS Form 500 have been held at National Headquarters, but are now being processed for forwarding to local boards. Within the respective States DSS Form 166 has heretofore been filed in a manner similar to that for Report of Separation (DSS Form 167). Form Disposal Instructions for Home Address Report (DSS Form 166) are included with those for Report of Separation (DSS Form 167) and are similar in nature, requiring that DSS Form 166 shall be filed in the cover sheet unless the form relates to a veteran who is not a registrant of the local board, but whose reported address places him under its jurisdiction. In the later case this form will be filed at the end of the file maintained for the Registration Card (DSS Form 1), and may be filed separately in alphabetical order or may be matched and integrated with DSS Form 167 and filed together therewith, at the discretion of the State Director. Certificate of Enrollment (DSS Form 500) shall be filed in the same manner as is above prescribed for the filing of Home Address Report (DSS Form 166).

(e) *Disposal.* Form Disposal Instructions for the above records will be found in the Form Manual.[1] Cognizance has been taken of the fact that no actual destruction can be accomplished with respect to any forms mentioned herein. It is felt by this Headquarters that these records are of sufficient importance to justify the retention of all copies, even though some duplication of record content will result. [Priorities Reg. 28, as Amended Feb. 13, 1947]

RESTRICTED PRIORITIES ASSISTANCE

§ 944.49 *Priorities Regulation 28*—(a) *Purpose of this regulation.* This regulation describes the very limited scope of priorities assistance which will be granted in the future. It is designed to cover only the brief period of time which is expected to exist before all such priorities assistance will end.

In line with the announced policy of restoring normal buyer-seller relations as soon as possible, the issuance of CC ratings will be limited to cases of non-deferrable need for the military services, the U. S. Maritime Commission, the Veterans' Administration, or the Atomic Energy Commission, cases in connection with the Veterans' Emergency Housing Program, cases of public emergency and a few other exceptional situations mentioned below. CC ratings will no longer be granted for production materials, MRO, capital equipment or construction materials or equipment for the purpose of starting or maintaining any individual plant or business at a minimum economic rate, or to alleviate individual hardship. CC ratings for export will be granted under this regulation only in rare cases falling under the rules explained in paragraph (d).

In view of the revised terms of the regulation itself drastically curtailing the assignment of CC ratings for all materials, most of the former directions to this regulation which contained similarly restrictive provisions for certain materials, have been revoked as no longer necessary. Provisions in directions which imposed a limit on the quantity of CC rated orders for certain materials which a supplier had to schedule for shipment are in paragraph (e). The directions still in effect are listed at the end of this regulation.

Priorities Regulation 28A, under which special assistance was formerly granted for textile yarn and fabric, has also been revoked. Assistance for these materials from now on will be granted only under the very limited conditions of this regulation.

(b) *Exceptional cases when CC ratings may be assigned.* (1) If all the conditions of paragraph (b) (2) below are met, CC ratings may be granted in the following limited cases:

(i) Where an essential item is needed in an emergency for the Army, Navy, the U. S. Maritime Commission, the Veterans' Administration or the Atomic Energy Commission to meet the requirements of their most urgent projects. In these cases a recommendation for approval by designated officials located in the Washington headquarters of these agencies is required; or

(ii) Where an item is needed under the following conditions:

(a) To maintain at current levels essential community utility services, or to provide essential utility services to new housing projects; or

(b) In an emergency to eliminate an imminent or existing serious hazard to the life, health or safety of a large number of people; or,

(iii) Where an item is required in connection with the Veterans' Emergency Housing Program under the following conditions (no ratings will be issued for the purchase of specialized machinery or for an item to be incorporated in construction):

(a) To maintain or increase the production of a building material or product which is determined to be in critically short supply; or

(b) For capital equipment (except for site preparation equipment) which is a bottleneck in the production or erection of housing accommodations. (CC ratings will be assigned only after CPA has obtained the recommendation of the Office of the Housing Expediter.)

(2) When effective assistance of other kinds is not practicable (CPA may locate sources able to ship without ratings), a CC rating may be granted for specific items and quantities of materials in the limited classes of cases described in paragraphs (b) (1) above, upon determination in each instance that all the following conditions are met:

(i) The use of substitute and less scarce materials is not practicable;

(ii) Reasonable efforts have been made to get the required item without a rating; and

(iii) A rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and material available without a rating.

(c) *How to apply for a CC rating.* Applications for a CC rating under this regulation for uses in the United States, its territories and possessions should be made on Form CPA-541A addressed to the Civilian Production Administration, Washington 25, D. C., Ref: PR-28. Since CC ratings will no longer be given to support a minimum economic rate of production or to give special help to small business or the business needs of veterans, no questions on Form CPA-541A need be answered which were designed for such cases. For example, Questions 7b, 13, and 16 on Form CPA-541A (as revised 4-23-46) may be left unanswered. On the other hand, supporting data required by Item 14 is of major importance and should clearly show how the application qualifies under paragraph (b) above.

(d) *CC ratings for export*—(1) *For Canada.* In the case of materials for export to Canada applications should be filed with the Priorities Officer of Canada, Ottawa, Canada and will be handled on the same basis as United States applications.

(2) *Other exports.* In the case of other exports, upon demonstration that a rating is required CC ratings may be assigned for procurement in this country of minimum quantities of materials necessary to the restoration, development and maintenance of foreign sources of supplies vitally needed in this country; or in other exceptional cases for reasons of public policy. Applications for such ratings should be made to the Office of International Trade, Department of Commerce, Washington 25, D. C., on Form CPA-541A. Applications which are approved by that office will be forwarded to the Civilian Production Administration for processing in accordance with this paragraph.

(e) *Limit on required acceptance of CC ratings for certain products.* For the products listed below CC ratings which have been assigned in the past might take an undue proportion of a producer's limited supply. To avoid this unfair impact, no manufacturer of any of these items need accept or fill a CC rated order for any such item if it would cause him to deliver on CC rated orders in any calendar month more than 50% of his total deliveries of that item in that month on all orders, both rated and unrated:

(1) The following items of textile machinery:

(i) Women's full fashioned hosiery machinery (30 and 32 section machines only).

(ii) Button sewer machine units.

(iii) Buttonhole machinery.

(iv) 36" high post sewing machines.

(2) The following items of bottling equipment for non-alcoholic beverages:

(i) Filler-Crowners, with rated capacity of 75 cases and under per hour.

(ii) Carbonators, with rated capacity of 300 gallons and under per hour.

(iii) Bottle Washers (Soakers) with rated capacity of 120 cases and under per hour.

(3) The following miscellaneous items:

(i) Cylinders for low-pressure gas (20 lb. and 100 lb. sizes only).

(f) *Existing CC ratings remain valid.* Nothing in this amendment of Priorities Regulation 28 affects the validity of CC ratings granted before then. All orders bearing such CC ratings as well as those with CC ratings assigned under this amended regulation must be accepted and filled in accordance with the Priorities Regulations.

(g) *Effective date.* This amendment of Priorities Regulation 28 shall be effective February 15, 1947.

Issued this 13th day of February 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1086]

A. L. WIESE AND FRED PERSCHAU

A. L. Wiese and Fred Perschau of Glencoe, Minnesota, in April, 1946, jointly commenced construction of a commercial building, at Glencoe, Minnesota, 41 feet thereof on the property of A. L. Wiese, and 29 feet thereof on the property of Fred Perschau. Application for permission to construct the same was made to Civilian Production Administration on April 16, 1946, the cost being estimated at $20,000. This application, under date of May 2, 1946, was denied for the reason that a portion of the proposed building contained a second floor which was to consist of two apartments. A second application for authority to construct was made May 5, 1946, the cost being estimated at $16,500, the proposed second floor apartments being eliminated. A. L. Wiese and Fred Perschau in wilful violation of said authorization, constructed the exterior of the second story in violation of Veterans' Housing Program Order 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1086 *Suspension Order No. S-1086.* (a) Neither A. L. Wiese or Fred Perschau, their successors or assigns, or any other person shall do any further construction work on the second floor of the building owned by them and located at Glencoe, Minnesota, including completing, putting up or altering of any portion of said second floor unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) A. L. Wiese or Fred Perschau shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve A. L. Wiese or Fred Perschau, their successors or assigns, from any restrictions, prohibitions or provisions contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 13th day of February 1947.

PART 4700—VETERANS' EMERGENCY HOUSING PROGRAM

[Veterans' Housing Program Order 1, Supp. 5, as Amended Feb. 13, 1947]

WHERE APPLICATIONS SHOULD BE FILED

§ 4700.6 *Supplement 5 to Veterans' Housing Program Order 1*—(a) *What this supplement does.* This supplement tells where applications for authorization under Veterans' Housing Program Order 1 to do construction, repair work or other work restricted by VHP-1 should be filed.

(b) *Applications to be filed under regulations of the Housing Expediter.* (1) Applications for the construction of the following kinds of new structures in which 50% or more of the floor space is to be used for residential purposes should be filed under the Housing Permit Regulation of the Housing Expediter (see paragraph (b) (4) below):

(i) Any building, structure or other construction item to be used for family housing purposes, whether occupied all year round or seasonally, and any apartment hotel, boarding house, rooming house, dormitory or other residential accommodations occupied for substantial periods of time, whether by single persons or by families, including also all subsidiary buildings, structures or construction items (whether restricted by VHP-1 or not) on residential property, such as garages, tool sheds, greenhouses, piers, swimming pools, walls, fences, bulkheads, wells and the like. This includes applications for family housing accommodations, either one family houses or apartments, and permanent residential quarters for individuals, whether these are to be built and owned by private individuals, corporations, public organizations or educational or other institutions. It also includes applications for the erection of prefabricated houses, the permanent installation of trailers and the like. This paragraph does not include summer or winter camps or hotels, overnight guest houses, tourist cabins or other accommodations for transients. Restaurants, laundry rooms and toilet facilities built in connection with tourist cabins and trailer camps are not covered by this paragraph.

(ii) Dormitories, and living facilities such as dining halls built and to be used exclusively in connection with a new dormitory, and subsidiary buildings for trailer camps such as laundry rooms, toilet facilities and the like, when they are built by an educational institution or a public organization and dormitories built under the sponsorship of an educational organization. "Educational institution" means a school, including a trade or vocational school, a college, a university or any similar institution of learning. "Public organization" means the United States government, a state, county, city, town, village or other municipal government, or an agency, instrumentality or authority of such a governing body.

(iii) Farm houses and other residential accommodations on farms, and bunkhouses for transient farm labor.

Paragraph (b) (1) does not include accommodations, the primary purpose of which is non-residential, such as wards or rooms for patients or inmates in hospitals, mental hospitals, insane asylums, orphanages, old people's homes, police barracks or cell blocks in jails. It also does not include housing accommodations constructed by or for the account of the U. S. Army or Navy.

(2) Regardless of the primary purpose for which a structure as a whole is or is to be used, applications for construction, alterations, additions or repairs in the structure should be filed under regulations of the Housing Expediter if 50% or more of the floor space involved in the proposed work will be used for residential purposes of the kinds described above.

(3) Applications for amendments to projects approved under Priorities Regulation 33 or Housing Expediter Priori-

ties Regulation 5 should be filed in accordance with those regulations.

(4) In general new applications for work covered by paragraphs (b) (1) and (b) (2) should be made on OHE Form 14–56 and filed with the appropriate State or District Office of the Federal Housing Administration, except that (i) applications covering dwelling accommodations or bunkhouses for transient farm labor located on a farm should be filed with the appropriate County Agricultural Conservation Committee, (ii) applications by educational institutions or by public organizations for any kind of residential accommodations to be built by them, and applications for single person residential accommodations to be built or converted under the sponsorship of an educational institution, should be filed with the appropriate Regional Office of the Federal Public Housing Authority and, (iii) applications to construct or erect experimental housing accommodations or to obtain materials for experimental or testing purposes in connection with housing accommodations should be filed with the Technical Office of the Administrator of the National Housing Agency.

(5) Under paragraphs (b) (1) and (b) (2) the amount of floor space to be used for residential purposes and the amount to be used for other purposes will determine where the application is to be filed. In computing floor area for these purposes, hallways and other public spaces should be excluded from the computation. Basement space should also be excluded even though used for storage space for stores or for apartments, except where all or part of the basement is used for an apartment or rooms for living purposes, or for selling or exhibition space for a store, or for a commercial garage which is open to the public.

(c) [Deleted Dec. 24, 1946.]

(d) *Applications to be filed with the Civilian Production Administration:* All applications for authorization under VHP–1 for construction not covered by paragraph (b) should be filed on Form CPA–4423 with the appropriate CPA District Construction Office.

(e) [Deleted Dec. 24, 1946.]

Issued this 13th day of February 1947.

Chapter XXIII—War Assets Administration

[Reg. 22, Amdt. 1]

PART 8322—PRICING AND DISTRIBUTION POLICY FOR CONSUMER GOODS

War Assets Administration Regulation 22, November 30, 1946, entitled "Pricing and Distribution Policy for Consumer Goods" (11 F. R. 14106) is hereby amended in the following respects:

1. Section 8322.4 (c) is amended to read as follows:

(c) Negotiated sales may be used by the disposal agency for any one or more reasons set forth in the subparagraphs hereunder: *Provided, however,* That whenever negotiated sales are used, the disposal agency shall prepare and file in writing a full justification of the desirability or necessity for using this method of sale and such sales shall not be consummated except with the approval of a reviewing authority. Such sales may be made:

(1) When the proposed purchasers can perform certain functions necessary to make the property salable, such as repairing, rehabilitating, sorting, grading, or testing, more economically and effectively than the disposal agency or others;

(2) When the property is such a hazard to health and property as to require immediate disposition;

(3) When the property will spoil or deterioriate so rapidly as to jeopardize any disposal unless immediately sold;

(4) When the property is to be sold to a foreign government by or at the request of the State Department;

(5) When the property remains in inventory after a full and adequate offering has been made by competitive bid as provided in § 8322.13 of this part;

(6) When the disposal agency makes a written finding that the property is (i) of so special a nature or manufacture or limited use that only one or a few purchasers would be interested in the acquisition and (ii) that an offering of such property by competitive bidding would prejudice the monetary return to the Government if all such bids were subsequently rejected.

2. Section 8322.11 (d) is amended to read as follows:

(d) Commercial exporters, foreign governments acting through duly accredited agents in the United States, and foreign commercial firms acting through their duly accredited agents in this country shall be permitted to participate on the same level as wholesalers in fixed price sales.

3. Section 8322.12 is amended by adding a new paragraph (c) to read as follows:

(c) When the disposal agency makes a written finding that the property is (i) of so special a nature or manufacture or limited use that only one or a few purchasers would be interested in the acquisition and (ii) that an offering of such property by competitive bidding would prejudice the monetary return to the Government if all such bids were subsequently rejected.

4. Section 8322.13 (a) is amended by changing the first sentence thereof to read as follows:

Whenever the competitive bid method of sale is employed, an upset price may be established in appropriate cases representing the tentative estimate of the disposal agency as to what may be the fair value of the property.

(Surplus Property Act of 1944 as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and E. O. 9689 (11 F. R. 1265))

This amendment shall become effective February 6, 1947.

ROBERT M. LITTLEJOHN,
Administrator.

Chapter I—Federal Communications Commission

PART 1—ORGANIZATION, PRACTICE AND PROCEDURE

CONTENTS OF APPLICATIONS

At a meeting of the Federal Communications Commission at its offices in Washington, D. C., on this 6th day of February 1947;

Whereas, it appears that the Commission's practice of accepting and acting on FM applications which do not specify particular FM frequencies is in variance with § 1.304 of the Commission's rules and regulations; and

Whereas, the practice is a desirable one since it leaves the Commission free to assign channels in such a manner so as to achieve the most effective utilization of FM frequencies;

It is hereby ordered, That § 1.304 be amended to read as follows:

§ 1.304 *Contents of applications.* Each application (unless otherwise directed) shall be specific with regard to frequency or frequencies, power, hours of operation, equipment, location of the station, and other information required by the application forms.[1] An application for broadcast facilities in the standard, FM or television bands shall be limited to one frequency and an application for radio station construction permit or license requesting alternate facilities will not be accepted.

The public notice and procedure required by section 4 of the Administrative Procedure Act are hereby found to be unnecessary. Since this amendment creates an exemption from existing Commission rules and regulations, this order is hereby made effective immediately.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 6913]

WLEU BROADCASTING CORP.

ORDER TO SHOW CAUSE

In re application of WLEU Broadcasting Corporation (WLEU), Erie, Pennsylvania, Docket No. 6913. File No. BP-4115, for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 5th day of February 1947;

The Commission having under consideration (1) the record of the hearing, held at Washington, D. C., on January 3-7, 1946, in the above-entitled application of WLEU Broadcasting Corporation, requesting a construction permit to change the broadcast facilities of Station WLEU, Erie, Pennsylvania, from 1450 kc, with 250 watts power, unlimited time, to 1260 kc, with 1 kw power night and 5 kw power day, to install a directional antenna for night use, to install a new transmitter, and to change transmitter location; (2) a petition filed December 21, 1945, by WLEU Broadcasting Corporation requesting the Commission to issue an order to show cause why the license of Presque Isle Broadcasting Company authorizing the operation of Station WERC, Erie, Pennsylvania, on 1230 kc, with 250 watts power, unlimited time, should not be modified to specify operation on 1450 kc, with 250 w power, unlimited time, and to consolidate the hearing on said order to show cause with the hearing on the above-entitled application of WLEU Broadcasting Corporation; and (3) an opposition to the petition for the issuance of an order to show cause, filed December 27, 1945, by Presque Isle Broadcasting Company (WERC);

It appearing that the above-entitled application of WLEU Broadcasting Corporation is contingent upon the removal of Station WERC, Erie, Pennsylvania, from the frequency 1230 kc to the frequency 1450 kc; and that Presque Isle Broadcasting Company (WERC) was a party to the said hearing heretofore held in the above-entitled application of WLEU Broadcasting Corporation (WLEU);

It further appearing that the simultaneous operation of Station WERC on the frequency 1230 kc, and of Station WLEU, as proposed, at Erie, Pennsylvania, would be inconsistent with the Commission's Standards of Good Engineering Practice; that the operation of Station WLEU, as proposed, might result in the addition of new primary broadcast service to a substantial population and area in and around Erie, Pennsylvania; and that the public interest, convenience, and necessity might be better served by assigning the frequency 1260 kc to WLEU Broadcasting Corporation (WLEU) and the frequency 1450 kc to Presque Isle Broadcasting Company (WERC), both at Erie, Pennsylvania;

It is ordered, That the said petition filed by WLEU Broadcasting Corporation (WLEU) be, and it is hereby, granted; that, pursuant to section 312 (b) of the Communications Act of 1934, as amended, opportunity be, and it is hereby, afforded Presque Isle Broadcasting Company, licensee of Station WERC, Erie, Pennsylvania, to show cause at a hearing before the Commission to be held at its offices in Washington, D. C., on the 17th day of March, 1947, at 10 a. m., why the broadcast license issued to said Presque Isle Broadcasting Company (WERC) should not be modified so as to specify the use by it of the frequency of 1450 kc at Erie, Pennsylvania, in lieu of the frequency of 1230 kc; and that WLEU Broadcasting Corporation (WLEU) be, and it is hereby, made a party to this proceeding:

It is further ordered, That the above-ordered hearing to show cause be, and it is hereby, consolidated with the hearing on the above-entitled application of WLEU Broadcasting Corporation (WLEU) heretofore held at Washington, D. C., on January 3-7, 1946.

MISSION BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Eugene J. Roth, tr/as Mission Broadcasting Company (KONO), San Antonio, Texas, Docket No. 8072, File No. BP-4329, for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission having under consideration the above-entitled application requesting a construction permit to change the present facilities of Station KONO at San Antonio, Texas, from 1400 kc, to 860 kc, to increase power from 250 watts to 1 kw, 5 kw-LS, to change transmitter location, and to install a directional antenna for night use;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding, to which § 1.857 of the Commission's rules and regulations shall not be applicable, with the application of Roy Hofheinz and W. N. Hooper, a partnership, d/b as Texas Star Broadcasting Company (File No. BP-5591; Docket No. 8079), requesting a permit to construct a new standard broadcast station to operate on 860 kc, with 5 kw power days and 1 kw nighttime, using a directional antenna at night, at San Antonio, Texas, at a time and place to be designated by subsequent order of the Commission upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant to construct and operate station KONO as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station KONO as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station KONO as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station KONO as proposed would involve objectionable interference with Cuban station CMBL at Havana, or with either of the Mexican stations XEMO at Tijuana, Baja California, or XEUN, Mexico, D. F., or any other existing foreign broadcast station as defined in the North American Regional Broadcasting Agreement, and the nature and extent of any such interference.

6. To determine whether the operation of station KONO as proposed would involve objectionable interference with the services proposed in the pending application of Felix H. Morales (File No. BP-5397) requesting a permit to construct a new standard broadcast station to operate on 850 kc, with 1 kw power, daytime only, at Houston, Texas, or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

7. To determine whether the installation and operation of station KONO as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 5th day of February 1947;

The Commission having under consideration (1) its Proposed Decision and Supplemental Proposed Decision (B-224) issued October 17, 1945, and September 5, 1946, respectively, proposing to grant the application of Radio Industries Broadcasting Company (WCAP) for renewal of license and modification of license and to deny the applications of the City of Camden (WCAM) and WOAX, Inc. (WTNJ) for renewal and modication of their respective licenses; (2) its proposed decision (B-293) issued October 31, 1946, proposing to grant the application of Ranulf Compton d/b as Radio WKDN for a new standard broadcast station at Camden, New Jersey, to be operated on 800 kc, 1 kw, daytime only, and denying the applications of Camden Broadcasting Company and Independence Broadcasting Company (WHAT) for use of these facilities in Camden and Philadelphia, respectively; (3) the application of Valley Broadcasting Corporation (File No. BP-4790) for a new standard broadcast station at Allentown, Pennsylvania, to be operated on 790 kc with 1 kw power, unlimited time; and (4) the petition of Valley Broadcasting Company requesting reconsideration and further hearing on the proposed grant of the application of Ranulf Compton d/b as Radio WKDN; and

Whereas, The City of Camden (WCAM) and WOAX, Inc. (WTNJ) have filed exceptions to the decision proposing to deny their applications and oral argument was heard thereon before the Commission on December 27, 1946; and

Whereas, Camden Broadcasting Corporation and Independence Broadcasting Company (WHAT) have filed exceptions to the decision proposing to deny their respective applications and to grant the application of Ranulf Compton d/b as Radio WKDN, and oral argument was heard thereon before the Commission on December 27, 1946; and

Whereas, Stations WCAP, the only station in Asbury Park, New Jersey, WCAM, the only station in Camden, New Jersey, and WTNJ, one of two stations in Trenton, New Jersey, now operate on 1310 kc, under a time-sharing arrangement and Stations WHAT and WTEL, Philadelphia, operate on 1340 kc under a time-sharing arrangement which does not permit operation during that portion of the day when WCAM is in operation because of the mutual interference which would be caused thereby; and

Whereas, it appears to the Commission that as a result of these time-sharing arrangements, the communities served by the respective stations do not now have adequate local service; and

Whereas, it appears that, in the event the licenses of Stations WTNJ and WCAM should be renewed, a more fair and equitable distribution of facilities among the communities involved might be obtained by modification of the respective licenses of these stations as follows:

WCAM, Camden, from 1310 kc, 500 w (S-WCAP, WTNJ) to 1340 kc, 250 w, unlimited.

WTNJ, Trenton, from 1310 kc, 500 w (S-WCAM, WCAP) to 1300 kc, 250 w, daytime only.

WCAP, Asbury Park, from 1310 kc, 500 w (S-WCAM, WTNJ), to 1310 kc, 250 w, unlimited.

WTEL, Philadelphia, from 1340 kc, 100 w (S-WHAT) to 860 kc, 250 w, daytime only.

WHAT, Philadelphia, from 1340 kc, 100 w (S-WTEL) to 800 kc, 1 kw, daytime only; and

Whereas, the operation of Station WHAT at Philadelphia, Pennsylvania, on 800 kc might result in mutual interference with the proposed station of Valley Broadcasting Company operating on 790 kc at Allentown, Pennsylvania;

Now, therefore, it is ordered, That, pursuant to section 312 (b) of the Communications Act of 1934, as amended, WOAX, Inc., the City of Camden, Radio Industries Broadcasting Company, Independence Broadcasting Company, and Foulkrod Radio Engineering Company show cause at a hearing to be held in Washington, D. C., at 10:00 o'clock a. m. on March 10, 1947, why the licenses of their respective stations, if they are renewed, should not be modified as follows: WCAM to operate on 1340 kc, 250 w, unlimited time; Station WTNJ to operate on 1300 kc, 250 w, daytime only; WCAP to operate on 1310 kc, 250 w, unlimited time; Station WHAT to operate on 800 kc with 1 kw power, daytime only; and WTEL to operate on 860 kc, 250 w, daytime only; and

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the application of Valley Broadcasting Corporation be, and it is hereby designated for hearing in a consolidated proceeding with the aforesaid proceeding under section 312 (b) of the act, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine whether a more fair, efficient and equitable distribution of radio service would be accomplished by a grant of the application of Valley Broadcasting Corporation or by the following plan of allocation of facilities to the following stations: WCAM, 1340 kc, 250 w, unlimited time; WTNJ, 1300 kc, 250 w, daytime only; WCAP, 1310 kc, 250 w, unlimited time; WHAT, 800 kc, 1 kw, daytime only; WTEL, 860 kc, 250 w, daytime only; and

It is further ordered, That the two above-entitled pending proceedings be, and the same are hereby consolidated and designated for further hearing with the hearing ordered herein, pursuant to section 312 (b) of the act, and the hearing upon the application of Valley Broadcasting Corporation.

TEXAS STAR BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Roy Hofheinz and W. N. Hooper, a partnership, d/b as Texas Star Broadcasting Company, San Antonio, Texas, Docket No. 8079, File No. BP-5591, for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission having under consideration the above-entitled application requesting a permit to construct a new standard broadcast station to operate on 860 kc, with 5 kw power days and 1 kw nighttime using a directional antenna at night, at San Antonio, Texas;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding, to which § 1.857 of the Commission's rules and regulations shall not be applicable, with the application of Eugene J. Roth, tr/as Mission Broadcasting Company (File No. BP-4329; Docket No. 8072), requesting a construction permit to change the present facilities of station KONO at San Antonio, Texas, to 860 kc, with 5 kw power days and 1 kw nighttime, using a directional antenna at night, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any exsiting broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with Cuban station CMBL at Havana, or with either of the Mexican stations XEMO at Tijuana, Baja California, or XEUN, Mexico, D. F., or any other existing foreign broadcast station, as defined in the North American Regional Broadcasting Agreement, and the nature and extent of any such interference.

6. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending application of Felix H. Morales (File No. BP-5397), requesting a permit to construct a new standard broadcast station to operate on 850 kc, with 1 kw power, daytime only, at Houston, Texas, or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other broadcast service to such areas and populations.

7. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

8. To determine the overlap, if any, that will exist between the service areas of the proposed station and of station KTHT at Houston, Texas, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

9. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

RADIO STATION KTBS ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of John C. McCormack, Allen D. Morris, Prentiss E. Furlow, and George D. Wray, a partnership d/b as Radio Station KTBS (KTBS), Shreveport, Louisiana, Docket No. 7598, File No. B3-P-4720; Jas. G. Ulmer and Jas. G. Ulmer, Jr., d/b as East Texas Broadcasting Company (KGKB), Tyler, Texas, Docket No. 7950, File No. B3-P-4769, for construction permits; Hugh J. Powell (KGGF), Coffeyville, Kansas, Docket No. 7951, File No. B4-MP-2021, for modification of construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of January 1947;

The Commission having under consideration the above-entitled application of John C. McCormack, Allen D. Morris, Prentiss E. Furlow, and George D. Wray, a partnership, d/b as Radio Station KTBS, requesting a construction permit to change the present facilities of station KTBS at Shreveport, Louisiana, to 710 kc, 5 kw power nighttime, 10 kw power daytime, unlimited time, employing directional antenna day and night, and also having under consideration a petition by said applicant requesting that said application be designated for hearing in the consolidated proceeding involving the other two applications named above;

It appearing, that the Commission on November 7, 1946, designated for hearing in a consolidated proceeding the applications of Jas. G. Ulmer, and Jas. G. Ulmer, Jr., d/b as East Texas Broadcasting Company (File No. B3-P-4769; Docket No. 7950) requesting a construction permit to change the present facilities of station KGKB at Tyler, Texas, to 690 kc, 1 kw power nighttime, 5 kw power daytime, unlimited time, employing a directional antenna day and night, and Hugh J. Powell (File No. B4-MP-2021; Docket No. 7951) requesting modification of a construction permit so as to operate station KGGF at Coffeyville, Kansas, on 690 kc, 5 kw power nighttime, 10 kw power daytime, employing a directional antenna, said consolidated proceeding being set for hearing on February 20, 1947, at Washington, D. C.;

It is ordered, That said petition be, and it is hereby, granted, and that, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Radio Station KTBS (Docket No. 7598) be, and it is hereby, designated for hearing in the above consolidated proceeding, set for February 20, 1947, at Washington, D. C., upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate station KTBS as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station KTBS as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station KTBS as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station KTBS as proposed would involve objectionable interference with the services proposed in the pending application of East Texas Broadcasting Company (File No. B3-P-4769; Docket No. 7950), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of station KTBS as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of November 7, 1946, designating for hearing in a consolidated proceeding the said applications of East Texas Broadcasting Company (File No. B3-P-4769; Docket No. 7950) and Hugh J. Powell (File No. B3-MP-2021; Docket No. 7951) be, and they are hereby, amended to include said application of Radio Station KTBS (File No. B3-P-4720; Docket No. 7598).

MARSHALL ELECTRIC CO.

PROPOSED TRANSFER OF CONTROL OF STATION [1]

The Commission hereby gives notice that on February 3, 1947 there was filed with it an application (B-TC-530) for its consent under section 310 (b) of the Communications Act (47 U. S. C. A. 310) to the proposed transfer of control of Marshall Electric Company (licensee of AM Station KFJB), Marshalltown, Iowa, from Joseph F. Rosenfield, John Ruan, Robert Root, and Kenneth Durham to Times-Republican Printing Company. The arrangements for transfer of control of the above station are based upon agreements between the parties pursuant to which the selling stockholders proposed to sell all the issued and outstanding capital stock (a total of 200 shares of common voting $100 par value stock is issued and outstanding out of a total of 500 shares of $100 par value common voting stock authorized) for a total of $75,000, $25,000 to be paid within five days after the approval of the transfer of said stock by the Federal Communications Commission, the balance of $50,000 to be paid in 5 yearly installments of $10,000 each with interest at 4% per annum. Further details as to the arrangements between the parties and concerning the application may be determined from an inspection of the papers which are on file with the Commission in Washington, D. C.

On July 25, 1946 the Commission adopted Rule 1.388 (known as Rule 1.321 effective September 11, 1946) which sets out the procedure to be followed in such cases, including the requirement for public notice concerning the filing of the application. Pursuant thereto the Commission was advised by the applicants at the time of the filing of their application (February 3, 1947) that starting February 3, 1947 notice of the filing of the application would be inserted in a newspaper of general circulation in Marshalltown, Iowa in conformity with the above rule.

In accordance with the procedure set forth in said rule, no action will be had upon the application for a period of 60 days from February 3, 1947 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract. BOSTON HERALD-TRAVELER

GRANT OF EXPERIMENTAL RELAY PRESS COMMUNICATION SYSTEM

The Commission today granted applications of the Boston Herald-Traveler Corporation for authority to construct and operate, experimentally, a new relay press radio communication system. The system is comprised of a land station, installed in the newsroom of the Boston Herald-Traveler, and a mobile unit, installed in an automobile used by reporters. The land station will be used to dispatch orders and instructions to the reporters, and the mobile station will be used for transmitting news material to the newsroom. The stations will be operated to determine the practicability and efficiency of radio communication for accurate and instantaneous reporting in urban areas.

Under the present rules for non-experimental use of relay press stations, only low-powered portable and mobile equipment may be used and the use of such stations is limited to isolated areas where telephone and other means of communication are unavailable. Because of these restrictions little progress has been made in development of the relay press radio service.

The Commission is now authorizing the use of radio by more and more industries and commercial enterprises. In keeping with this expansion of the use of radio it appears that a more flexible, usable radio service should be afforded to the press. It is, accordingly, expected that the reports of the experimentation conducted by the stations of the Boston Herald-Traveler will aid the Commission in formulating new rules to provide better service for newspapers and press associations. Considerable additional information relative to maximum use of relay press frequencies, interference problems which may arise from use of the stations in urban areas, and many other operating features is needed before appropriate rules can be adopted.

Newspapers or press associations desiring to apply for authority to transmit on an experimental basis messages to

and from mobile units and newspaper offices may secure application forms and instructions from the Secretary, Federal Communications Commission, Washington 25, D. C.

ERVIN UNGER AND DOLORES UNGER

ORDER APPOINTING TRIAL EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 10th day of February A. D. 1947.

This matter being at issue and ready for the taking of testimony and the receipt of evidence, and pursuant to authority vested in the Federal Trade Commission,

It is ordered, That Randolph Preston, a Trial Examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered, That the taking of testimony and the receipt of evidence begin on Thursday, February 27, 1947, at ten o'clock in the forenoon of that day (e. s. t.), in Room 3050, Federal Building, 9th and Market Streets, Philadelphia, Pennsylvania.

Upon the completion of the taking of testimony and the receipt of evidence in support of the allegations of the complaint, the trial examiner is directed to proceed immediately to take testimony and receive evidence on behalf of the respondents. The trial examiner will then close the taking of all testimony and evidence and, after all intervening procedure as required by law, the trial examiner will close the case and make and serve on the parties at issue a recommended decision which shall include recommended findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and an appropriate recommended order; all of which shall become a part of the record in said proceeding.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1436]

NEW BEDFORD GAS AND EDISON LIGHT CO. AND NEW ENGLAND GAS AND ELECTRIC ASSN.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania on the 7th day of February 1947.

New England Gas and Electric Association ("New England"), a registered holding company, and its subsidiary, New Bedford Gas and Edison Light Company ("New Bedford"), having filed a joint application, as amended, pursuant to sections 6 (b) and 10 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following transactions:

New Bedford proposes to issue and sell 3,750 additional shares of its common capital stock of the par value of $25 per share, at a price of $66⅔ per share. The proceeds from the sale of such stock are to be used for the payment of $250,000 on its long-term promissory notes. The holders of its presently outstanding 213,696 shares of common capital stock are entitled to purchase their proportionate share of the 3,750 additional shares proposed to be issued and sold. New England, as the holder of 207,376 shares (97.04%) of such capital stock, has indicated that it will purchase its proportionate share of the additional shares to be issued at the price of $66⅔ per share. In the event any of the holders of the remaining 6,320 shares of outstanding capital stock do not subscribe for their proportionate share, New Bedford will offer such unsubscribed for shares for sale at public auction. New England states it will bid $66⅔ per share for such unsubscribed for shares at such auction.

Such joint application, as amended, having been duly filed, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said joint application, as amended, within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the application, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application, as amended, be granted, and deeming it appropriate to grant the request of applicants that the order become effective at the earliest date possible;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that the application, as amended, be, and the same hereby is, granted, and that the

proposed transactions may be consummated forthwith.

By the Commission.

COMMONWEALTH & SOUTHERN CORP. (DEL.) AND SOUTHERN INDIANA GAS AND ELECTRIC CO.

NOTICE OF FILING OF AMENDED PLAN, ORDER REOPENING RECORD, AND RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 7th day of February A. D. 1947.

The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company, and Southern Indiana Gas and Electric Company ("Southern Indiana"), a public utility subsidiary of Commonwealth, having on October 29, 1946, filed an application for approval of a plan pursuant to section 11 (e) of the act providing for retirement of a portion of the outstanding preferred stock of Commonwealth through an exchange offer of the common stock of Southern Indiana held by Commonwealth, and for the approval of incidental and related transactions, including certain charter amendments by Southern Indiana; and the Commission having on November 6, 1946, issued its notice of filing and order for hearing (Holding Company Act Release No. 6983) summarizing the principal provisions of said Plan and application and ordering a hearing thereon; and hearings having been held upon said Plan and application and the record in these proceedings having been closed on January 7, 1947;

Notice is hereby given that on February 3, 1947, Commonwealth filed an Amended Plan, as an amendment to said application, providing in effect for the retirement of a portion of the outstanding preferred stock of Commonwealth through an exchange offer of all of the common stock of Southern Indiana and part of the common stocks of Consumers Power Company ("Consumers") and Ohio Edison Company ("Ohio Edison"), public utility subsidiaries of Commonwealth. Applicants have designated sections 6 (a), 7, 11 (e), 12 (c) and 12 (d) of the act and Rules U-42, U-44 and U-50 thereunder as applicable to the particular transactions proposed in said application and Amended Plan.

All interested persons are referred to said application and Amended Plan which are on file in the offices of the Commission, for a full statement of the transactions therein proposed, which are summarized as follows:

1. Commonwealth proposes to offer to exchange for each two shares of its outstanding cumulative Preferred Stock, $6 Series, up to and including 400,000 shares of said stock, the following:

3 shares of the no par common stock of Consumers,

2 shares of the $8 par common stock of Ohio Edison, and

2 shares of the no par common stock of Southern Indiana.

As of January 1, 1947 Commonwealth had outstanding 1,441,247 shares of Preferred Stock, $6 Series, with a stated value of $100 per share, and a voluntary and involuntary liquidating value of $100 per share plus accrued and unpaid dividends aggregating $24.50 per share (after giving effect to a dividend of $3 per share previously declared but not paid until January 13, 1947). The amount payable upon redemption is $110 per share plus accrued and unpaid dividends.

2. The proposed Plan of exchange is voluntary and no stockholder would be required to accept the offer.

3. Under the proposed Plan, the offer of exchange would be mailed to the registered holders of the Preferred Stock of Commonwealth pursuant to the geographic mailing schedule maintained by the United States Post Office Department, and the offer would remain open for a period of at least 15 days after the final date of such mailing or until such earlier date as 400,000 shares of the Preferred Stock of Commonwealth have been deposited for exchange. If less than 400,000 shares of the Preferred Stock shall have been deposited for exchange by said date, it is proposed that the offer may be extended for an additional period or periods, not exceeding 15 days in the aggregate.

4. The Plan provides that deposits by the holders of Preferred Stock of Commonwealth will be accepted in the order of receipt and that the offer of exchange will be limited to 400,000 shares of such Preferred Stock. Any deposit which would result in exceeding such limit would be subject to appropriate reduction. Commonwealth reserves the right to reject all deposits if less than 300,000 shares of its Preferred Stock are deposited for exchange.

5. The Plan further provides that the offer of exchange may be accepted by depositing the certificates for the shares of Preferred Stock to be exchanged, together with the completed form of acceptance of offer of exchange prescribed by Commonwealth, in either of the following ways: (a) By deposit with the Exchange Agent, Bankers Trust Company, Corporate Trust Department, 16 Wall Street, New York 15, New York; or (b) by deposit with any bank or trust company or any securities broker or dealer, acting as agent for the stockholder: *Provided*, That such deposit shall be considered an acceptance of the offer of exchange prior to its receipt by the Exchange Agent only if a telegram from such bank, trust company, broker or dealer, substantially in the form set forth in the instructions on the reverse of the form of acceptance of offer of exchange, shall have been received by the Exchange Agent prior to 9:00 a. m. on the day following the last day of the period during which the offer remains open and if the deposited documents in proper form shall have been received by the Exchange Agent not later than noon of the sixth day after the last day of the period during which the offer remains open. In such cases, for the purpose of determining the order in which deposits are received, the filing times shown in the date lines of telegrams received by the Exchange Agent shall govern without regard to differences in time zones.

All shares so deposited for exchange will be deemed to have been deposited for the account of Commonwealth and subject to acceptance by it in New York. Preferred Stock deposited for exchange would be deposited irrevocably and no holder of such stock would have a right to withdraw stock once deposited. Depositing stockholders will receive a nontransferable receipt evidencing the deposit of their shares.

6. According to the Plan, the Exchange Agent will deliver to the holders of Preferred Stock of Commonwealth whose shares have been accepted for exchange, as soon as practicable after the close of the final period for such acceptance, certificates for the shares of the common stocks of Consumers, Ohio Edison and Southern Indiana distributable in exchange. The shares of Preferred Stock accepted for exchange would be cancelled and retired in accordance with applicable provisions of the General Corporation Law of Delaware.

7. The Plan proposes that certificates for an odd number of shares of the Preferred Stock of Commonwealth may be deposited for exchange and there would be returned to the owner of such shares a certificate for one share of the Preferred Stock of Commonwealth at the time of the delivery of the certificates for the shares of the common stocks of Consumers, Ohio Edison and Southern Indiana distributable in exchange.

8. The consummation of the Plan is subject to the condition that the Commission shall find the Plan, as submitted or as modified by Commonwealth, necessary to effectuate the provisions of section 11 (b) of the act and fair and equitable to the persons affected thereby and that the order of the Commission approving the Plan shall contain the recitals required by sections 371 (f) and 1808 (f) of the Internal Revenue Code.

9. Commonwealth reserves the right to withdraw the Plan of exchange (a) if a final order of the Commission is not effective in sufficient time so that the Plan of exchange may be consummated prior to June 7, 1947 or (b) at any time prior to the first day on which the offer of exchange is mailed to the holders of Preferred Stock of Commonwealth.

10. Prior to the mailing of the offer of exchange, Southern Indiana proposes to amend its charter so as to provide that (a) whenever and as often as four quarterly dividends payable on its preferred stock of any series shall be in default in whole or in part, the holders of its preferred stock shall have the exclusive right, voting separately and as a class, to vote for and elect the smallest number of directors which shall constitute a majority of the then authorized number of directors of the company, and (b) in all elections of directors, each stockholder entitled to vote shall have cumulative voting rights. The applicants request that prior to issuance of the final order on the Plan of exchange, the Commission issue a preliminary order authorizing Southern Indiana to amend its charter in the respects set forth in this paragraph.

The Commission being required by the provisions of section 11 (e) of the act before approving any plan thereunder to find, after notice and opportunity for hearing, that the plan as submitted or as modified is necessary to effectuate the provisions of subsection (b) of section 11 and is fair and equitable to the persons affected thereby, and it appearing appropriate to the Commission that notice be given and a hearing be held on the Amended Plan filed by Commonwealth to afford all interested persons an opportunity to be heard with respect thereto; and

It further appearing to the Commission that the records heretofore concluded in proceedings designated as File Numbers 70-1322 and 70-1267 and relating, among other things, to the issuance of additional common stock by Consumers and Ohio Edison, respectively, contain evidence that may have a bearing upon the issues presented by the Amended Plan, and that a substantial saving of time and expense will result if the evidence adduced in said proceedings is used in connection with the consideration of the issues raised in the instant proceeding:

It is ordered, That all of the record in the proceedings designated as File Nos. 70-1322 and 70-1267 be, and hereby is, incorporated into the record of the instant proceeding subject, however, and without prejudice to the Commission's right, upon its own motion or the motion of any interested participant, to strike such portion of the record in respect of said prior proceedings as may be deemed incompetent or irrelevant to the issues raised in the instant proceeding.

It is further ordered, That the record herein be reopened and that the hearing herein be reconvened, before the trial examiner heretofore designated, on March 4, 1947, at 11 a. m., e. s. t., at the offices of this Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as may be designated at that time by the hearing room clerk in Room 318.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the Amended Plan and application and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the Amended Plan, as submitted or as modified, is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby.

2. Whether the proposal by Commonwealth to dispose of shares of the common stock of Consumers, Ohio Edison and Southern Indiana meets the applicable provisions of sections 12 (d) and 12 (f) of the act and Rules U-44 and U-50 thereunder.

3. Whether the proposal by Commonwealth to acquire for retirement shares of its outstanding Preferred stock meets the applicable provisions of section 12 (c) of the act and Rule U-42 thereunder.

4. Whether it is necessary to impose any term or condition with respect to servicing arrangements, interlocking officers and directors, and other intercompany relationships or transactions, to ensure that Southern Indiana shall cease to be a subsidiary, directly or indirectly of Commonwealth.

5. Whether the fees, commissions, or other remunerations to be paid in connection with the proposed transactions are reasonable.

6. Whether the proposed accounting treatment of the proposed transactions is proper and in conformity with sound accounting principles.

7. What terms and conditions, if any, with respect to the proposed transactions should be prescribed in the public interest or for the protection of investors and consumers.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That any person who has not heretofore entered his appearance and who desires to be heard in connection with this proceeding or proposes to intervene herein shall file with the Secretary of the Commission on or before February 28, 1947 his request or application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That the Secretary of the Commission shall serve notice of the reconvened hearing by mailing a copy of this notice and order by registered mail to Commonwealth, Consumers, Ohio Edison, Southern Indiana, the Public Service Commissions of Michigan and Indiana, the Ohio Public Utilities Commission, the Pennsylvania Public Utility Commission, the Federal Power Commission, and to all participants who have appeared in this proceeding, and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That Commonwealth shall give further notice of this hearing to all of its preferred and common stockholders (insofar as their identity is known or available to Commonwealth), by mailing to each of said persons at his last known address, at least ten days prior to the date of this hearing, a statement setting forth in brief (a) a summary of the exchange offer, (b) the time, date and place of the hearing and (c) that the applicant may modify the offer of exchange by amendment without further communication to stockholders, unless otherwise ordered by the Commission or unless information with respect thereto is requested by individual stockholders. Such statement shall be submitted to the Commission for review prior to mailing.

By the Commission.

PLYMOUTH COUNTY ELECTRIC CO. AND NEW ENGLAND GAS AND ELECTRIC ASSN.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 7th day of February 1947.

New England Gas and Electric Association ("New England"), a registered holding company, and its subsidiary, Plymouth County Electric Company ("Plymouth County"), having filed a joint application, as amended, pursuant to sections 6 (b) and 10 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following transactions:

Plymouth County proposes to issue and sell 2,518 additional shares of its $25 par value common capital stock at a price of $31.25 per share. The proceeds from the sale of such stock, plus treasury cash, are to be used for the payment of its long-term promissory notes amounting to $79,500. New England, as the holder of all the presently outstanding 63,682 shares of the common capital stock of Plymouth County, will purchase the additional 2,518 shares at the price of $31.25 per share.

Such joint application, as amended, having been duly filed, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said joint application, as amended, within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the application, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application, as amended, be granted, and deeming it appropriate to grant the request of applicants that the order become effective at the earliest date possible:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that the application, as amended, be, and the same hereby is, granted, and that the proposed transactions may be consummated forthwith.

PART 418—WHEAT CROP INSURANCE

INSURANCE CONTRACTS COVERING 1947, 1948 AND 1949 CROP YEARS

The Wheat Crop Insurance Regulations for Insurance Contracts Covering the 1947, 1948 and 1949 Crop Years (11 F. R. 5531, 5645, 6816, 14607), are hereby amended as follows:

Paragraph (m) (2) of § 418.87 is amended to read:

§ 418.87 *Meaning of terms.* • • • (m) • • •

(2) In Kitson and Traverse Counties, Minnesota, Prairie and Roosevelt Counties, Montana, Golden Valley and Ramsey Counties, North Dakota, and Brown and Pennington Counties, South Dakota, "insurance unit" means all farm land considered for crop insurance purposes to be located in the county, which is under the same ownership and which is operated by one person, in which the insured has an interest as a wheat producer at the time of seeding: *Provided, however,* That, in the case of cash rented land, the lessee shall be considered as the owner: *Provided further,* That all or any part of such land which is designated on the county crop insurance map as "non-insurable" shall not constitute an insurance unit or any part thereof and shall not be considered in any manner whatsoever under the insurance contract, except as provided in §§ 418.69 (b) and 418.89: *Provided further,* That in any year of the contract if the insured shares in one thousand acres or more of wheat on land which otherwise would be one insurance unit, such land may be divided into a number of insurance units not exceeding by more than one the number of full thousands of acres of wheat seeded, if, immediately after seeding wheat, the insured (i) reports the wheat acreage on each insurance unit separately and files with the acreage report a legal description of each insurance unit or a plat map showing the boundaries of all insurance units and (ii) the Corporation approves the area to be included in each insurance unit.
